(d) The documents specified above must be filed with the New Orleans Office not later than January 15, 1947, except that they may be filed not later than 45 days after the date of the landing certificate, on board ship bill of lading, certification by the steamship company, or shipmaster's receipt where such date is subsequent to December 1, 1946; and, in those cases in which cotton is sold by the Corporation from its stocks in reliance upon the exporter's bond, the documents specified above must also be filed not later than 45 days after the sailing date or month or months of delivery shown on the certified copy of the sales contract filed with the New Orleans Office. An extension of time for submission of the documents specified above may be granted by the Director of the New Orleans Office if the exporter has been delayed in submitting such documents by causes which are determined by the Director of the New Orleans Office to be beyond the control of the exporter.

These amendments shall be effective as to all export sales heretofore or hereafter registered under this offer.

(Sec. 32, 49 Stat. 774 as amended, sec. 21 (c), 58 Stat. 776; 7 U. S. C. and Sup., 612c et seq., 50 U. S. C. App. Sup. 1630 (c))

Dated this 31st day of December 1946.

[SEAL] JESSE B. GILMER,
Acting President of Commodity Credit Corporation; Authorized Representative of the Secretary of Agriculture.

[F. R. Doc. 47-99; Filed, Jan. 3, 1947; 8:55 a. m.]

TITLE 7—AGRICULTURE

Subtitle A—Office of Secretary of Agriculture

PART 7—PRICE DECONTROL AND RECONTROL

CERTIFICATION OF AGRICULTURAL COMMODITIES IN SHORT SUPPLY

§ 7.50 *Certification of agricultural commodities in short supply.* Pursuant to the authority vested in me by the Emergency Price Control Act of 1942, as amended, and particularly by section 1A (e) (1) of said act as added by the Price Control Extension Act of 1946, I hereby certify to the Temporary Controls Administrator that modifications in the certification of commodities in short supply, made on September 1, 1946, as amended (11 F. R. 9669, 11349, 13135, 14063), should be, and the same hereby are, made as follows: The following commodities are determined to be no longer in short supply:

Grain sorghums including all food and feed products thereof except protein meals, sweeteners and oil.
Red clover, alsike clover, sweet clover and alfalfa seeds.
Millfeeds and other grain by-products except protein meals.
Feed screenings.
Cattle and calves for slaughter.
Sheep and lambs.
Mohair.
Candy and confectionery.
Soft drinks and soft drink powders.
Dessert powder and gelatin.
Distilled spirits.
Malt beverages.
Canned fish flakes.

(Pub. Law 548, 79th Cong.)

Done this 31st day of December 1946.

[SEAL] CLINTON P. ANDERSON,
Secretary of Agriculture.

[F. R. Doc. 47-94; Filed, Jan. 3, 1947; 8:48 a. m.]

PART 7—PRICE DECONTROL AND RECONTROL

REMOVAL OF MAXIMUM PRICES ON AGRICULTURAL COMMODITIES NOT IMPORTANT IN RELATION TO BUSINESS COSTS OR LIVING COSTS

§ 7.60 *Removal of maximum prices on agricultural commodities not important in relation to business costs or living costs.* Pursuant to the authority vested in me by the Emergency Price Control Act of 1942, as amended, and particularly by section 1A (e) (2) (B) of said act as added by the Price Control Extension Act of 1946, I hereby determine that no recommendation should be, and none is, made that maximum prices be removed on any agricultural commodity for the reason that it is not important in relation to business costs or living costs pursuant to section 1A (e) (2) (B) of said act.

(Pub. Law 548, 79th Cong.)

Done this 31st day of December 1946.

[SEAL] CLINTON P. ANDERSON,
Secretary of Agriculture.

[F. R. Doc. 47-93; Filed, Jan. 3, 1947; 8:48 a. m.]

Chapter VII—Production and Marketing Administration (Agricultural Adjustment)

[Tobacco 13, Supp. 1]

PART 725—BURLEY AND FLUE-CURED TOBACCO

MARKETING QUOTA REGULATIONS; 1947–48

The amendments herein are based on the tobacco marketing quota provisions of the Agricultural Adjustment Act of 1938, as amended (7 U. S. C. 1311–1314, inclusive). The purpose of the first amendment is to more clearly define the use of limits and factors applicable in making upward adjustments among farms for which preliminary acreage allotments have been established. The purpose of the second amendment is to provide a rule whereby the State committee may allocate the acreage available in the State for adjustments of farm acreage allotments among the counties and communities within the State. Prior to formulation of these amendments, notice was given (11 F. R. 14250) that the Secretary of Agriculture was considering the amending of the regulations to accomplish the purposes mentioned above, and that any interested person might express his views in writing with respect thereto. No written expressions were received postmarked by December 20, 1946, the closing date therefor mentioned in the notice aforesaid. The amendments herein shall become effective thirty days after their publication in the FEDERAL REGISTER.

The Marketing Quota Regulations, Flue-cured and Burley Tobacco, 1947–48 Marketing Year, Part I, are amended by:

1. Striking out subparagraph (1) of paragraph (b) of § 725.316 (11 F. R. 10254) and inserting in lieu thereof the following:

(1) The preliminary allotment for any farm (including any small farm after adjustment pursuant to paragraph (a) of this section) may be increased within the limits stated in subparagraph (3) of this paragraph if the community committee, with the approval of the county committee, finds it to be smaller in relation to past acreage of tobacco, and the land, labor, and equipment available for the production of tobacco on the farm than the average of the preliminary allotments for all old farms in the community in relation to such factors: *Provided*, That any such adjustment shall be made in relation to the acreage of tobacco harvested on the farm in the 3 years 1944–46 and after giving due consideration to the crops and enterprises on the farm other than tobacco and the soil and other physical factors affecting the production of tobacco on the farm.

2. Striking out the first sentence in subparagraph (4) of § 725.316 (b) and inserting in lieu thereof the following:

(4) The increases for all farms in any community, as determined pursuant to § 725.315 (c) and subparagraphs (1) and (2) of this paragraph (adjusted preliminary allotment minus 1946 allotment), shall not exceed an amount equal to two percent of the acreage allotted to all farms in the community in 1946 unless otherwise recommended by the county committee and approved by the State committee: *Provided*, That the total of such increases for any county shall not exceed an amount equal to two percent of the acreage allotted to all farms in the county in 1946 unless otherwise approved by the State committee: *Provided further*, That the total acreage available hereunder for all farms in each State shall not exceed two percent of the total acreage allotted to all farms in each State in 1946.

(52 Stat. 38, 47, 66; 53 Stat. 1261; 54 Stat. 392; 56 Stat. 51; 57 Stat. 387; 58 Stat. 136; 7 U. S. C. 1301 (b), 1313, 1375; 60 Stat. 21)

Done at Washington, D. C., this 31st day of December 1946.

Witness my hand and the seal of the Department of Agriculture.

[SEAL] CLINTON P. ANDERSON,
Secretary of Agriculture.

[F. R. Doc. 47-95; Filed, Jan. 3, 1947; 8:55 a. m.]

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders)

[Lemon Reg. 203]

PART 953—LEMONS GROWN IN THE STATES OF CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.310 *Lemon Regulation 203*—(a) *Findings.* (1) Pursuant to the marketing agreement and the order (7 CFR, Cum. Supp., 953.1 et seq.), regulating the handling of lemons grown in the State of California or in the State of Arizona, issued under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong., 2d Sess.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which the section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., January 5, 1947, and ending at 12:01 a. m., P. s. t., January 12, 1947, is hereby fixed at 250 carloads, or an equivalent quantity.

(2) The prorate base of each handler who has made application therefor, as provided in the said marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference. The Lemon Administrative Committee, in accordance with the provisions of the said marketing agreement and order, shall calculate the quantity of lemons which may be handled by each such handler during the period specified in subparagraph (1) of this paragraph.

(3) As used in this section, "handled," "boxes," "handler," "carloads," and "prorate base" shall have the same meaning as is given to each such word in the said marketing agreement and order.

(48 Stat. 31, 670, 675; 49 Stat. 750; 50 Stat. 246; 7 U. S. C. 601 et seq.)

Done at Washington, D. C., this 2d day of January 1947.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

[Orange Reg. 159]

PART 966—ORANGES GROWN IN THE STATES OF CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 966.305 *Orange Regulation 159*—(a) *Findings.* (1) Pursuant to the provisions of the order (7 CFR, Cum. Supp., 966.1 et seq.) regulating the handling of oranges grown in the State of California or in the State of Arizona, issued under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Orange Administrative Committee, established under the said order, and upon other available information, it is hereby found that the limitation of the quantity of such oranges which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Public Law 404, 79th Cong., 2d Sess.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) The quantity of oranges grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., p. s. t., January 5, 1947, and ending at 12:01 a. m., p. s. t., January 12, 1947, is hereby fixed as follows:

(i) *Valencia oranges.* Prorate Districts Nos. 1, 2, and 3, unlimited movement.

(ii) *Oranges other than Valencia oranges.* (a) Prorate District No. 1, 1050 carloads; (b) Prorate District No. 2, 150 carloads; and (c) Prorate District No. 3, 50 carloads.

(2) The prorate base of each handler who has made application therefor, as provided in the said order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference. The Orange Administrative Committee, in accordance with the provisions of the said order, shall calculate the quantity of oranges which may be handled by each such handler during the period specified in subparagraph (1) of this paragraph.

(3) As used herein, "handled," "handler," "carloads," and "prorate base" shall have the same meaning as is given to each such term in the said order; and "Prorate District No. 1," "Prorate District No. 2," and "Prorate District No. 3" shall have the same meaning as is given to each such term in § 966.107 of the rules and regulations (11 F. R. 10258) issued pursuant to said order.

(48 Stat. 31, 670, 675; 49 Stat. 750; 50 Stat. 246; 7 U. S. C. 601 et seq.)

Done at Washington, D. C., this 2d day of January 1947.

Chapter XXI—Organization, Functions and Procedure

Subchapter C—Production and Marketing Administration

PART 2309—SPECIAL COMMODITIES BRANCH

MISCELLANEOUS AMENDMENTS

Effective upon publication hereof, Part 2309 of Title 7 published September 11, 1946 (11 F. R. 177A-277 to 279, inclusive), is hereby amended:

1. By striking § 2309.1 (b) (6) and substituting in lieu thereof the following:

§ 2309.1 *Central Office.* * * *

(b) *The Director.* * * *

(6) Take all action necessary or appropriate in the Administration of the Naval Stores Act (7 U. S. C. 94), subject to limitations contained in said act and in rules and regulations promulgated with respect thereto, and prescribe fees for the inspection under the Agricultural Marketing Act of 1946 (Public Law 733, 79th Congress) of naval stores not within the Naval Stores Act.

2. By adding after § 2309.14 the following new section:

§ 2309.15 *Inspection of naval stores under Agricultural Marketing Act of 1946.* Under the Agricultural Marketing Act of 1946 (Public Law 733, 79th Congress) the Naval Stores Division inspects and certifies the class, quality, quantity and condition of naval stores not within the Naval Stores Act, at the request of interested persons and upon payment of fees prescribed for such service.

(R. S. 161, 5 U. S. C. 22; Pub. L. 404, 79th Congress, 60 Stat. 238)

Issued this 31st day of December 1946.

[SEAL] CLINTON C. ANDERSON, *Secretary of Agriculture.*

[F. R. Doc. 47-96; Filed, Jan. 3, 1947; 8:55 a. m.]

Chapter I—Federal Trade Commission

[Docket No. 5225]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

WILLIAM A. HERMAN

§ 3.55 *Furnishing means and instrumentalities of misrepresentation or deception:* § 3.69 (a) *Misrepresenting oneself and goods—Business status, advantages or connections—Nature, in general:* § 3.72 (n 10) *Offering deceptive inducements to purchase or deal—Terms and conditions:* § 3.96 (b) *Using misleading name—Vendor—Nature, in general.* In connection with the solicitation or obtaining of information in commerce, (1) representing through the use of the trade name "National Estates Research," or any other trade name of similar import or meaning, that persons concerning whom information is sought have, or may have, an interest in some estate, unclaimed asset, or other property, when the information sought is for use in connection with investigations not connected with any interest in an estate, unclaimed asset, or other property; (2) using, or placing in the hands of others for use, form letters or other printed material so worded and designed as to represent or imply that it has been forwarded by some agency engaged in the administration of estates or engaged in locating missing heirs or persons having an interest in some estate, property, or unclaimed asset, or that the information sought to be obtained by such form letters and other printed material is for use in locating such missing heirs or other interested parties, when the information sought is for use in connection with investigations not connected with any interest in an estate, unclaimed asset, or other property; (3) representing in any manner, either directly or by implication, that persons concerning whom information is sought have or may have an interest in some estate, unclaimed asset, or other property, when the information sought is for use in connection with investigation of claims made against casualty or liability insurance companies or other insurers or in connection with investigations of a similar nature; or, (4) representing directly or by implication that respondent is engaged in genealogical research; prohibited. (Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U. S. C., sec. 45b) [Cease and desist order William A. Herman, Docket 5225, December 5, 1946]

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 5th day of December A. D. 1946.

This proceeding having been heard by the Federal Trade Commission on the complaint of the Commission, answer of the respondent, testimony and other evidence in support of and in opposition to the allegations of said complaint taken before a trial examiner of the Commission theretofore duly designated by it, report of the trial examiner upon the evidence and exceptions filed thereto, and briefs filed in support of the complaint and in opposition thereto; and the Commission having made its findings as to the facts and its conclusion that the respondent has violated the provision of the Federal Trade Commission Act:

It is ordered, That the respondent, William A. Herman, an individual, trading under the name National Estates Research or trading under any other name or names, and his representatives, agents, and employees, directly or through any corporate or other device in connection with the solicitation or obtaining of information in commerce as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing through the use of the trade name "National Estates Research," or any other trade name of similar import or meaning, that persons concerning whom information is sought have, or may have, an interest in some estate, unclaimed asset, or other property, when the information sought is for use in connection with investigations not connected with any interest in an estate, unclaimed asset, or other property.

2. Using, or placing in the hands of others for use, form letters or other printed material so worded and designed as to represent or imply that it has been forwarded by some agency engaged in the administration of estates or engaged in locating missing heirs or persons having an interest in some estate, property, or unclaimed asset, or that the information sought to be obtained by such form letters and other printed material is for use in locating such missing heirs or other interested parties, when the information sought is for use in connection with investigations not connected with any interest in an estate, unclaimed asset, or other property.

3. Representing in any manner, either directly or by implication, that persons concerning whom information is sought have or may have an interest in some estate, unclaimed asset, or other property, when the information sought is for use in connection with investigation of claims made against casualty or liability insurance companies or other insurers or in connection with investigations of a similar nature.

4. Representing directly or by implication that respondent is engaged in genealogical research.

It is further ordered, That the respondent shall, within sixty (60) days after service upon him of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which he has complied with this order.

By the Commission.

[SEAL] OTIS B. JOHNSON, *Secretary.*

TITLE 17—COMMODITY AND SECURITIES EXCHANGES

Chapter II—Securities and Exchange Commission

PART 240—GENERAL RULES AND REGULATIONS, SECURITIES EXCHANGE ACT OF 1934

EXEMPTION OF CERTAIN SECURITIES

The Securities and Exchange Commission deems it necessary for the exercise of the functions vested in it and necessary and appropriate in the public interest and for the protection of investors to amend § 240.11d1-1 (Rule X-11D1-1) under the Securities Exchange Act of 1934 by adding to the rule the new paragraph (d) set forth below. The amendment operates to grant an exemption, and the Commission finds that notice and public procedure pursuant to section 4 (a) and (b) of the Administrative Procedure Act are unnecessary and that the amendment may be declared effective immediately pursuant to section 4 (c) of that act. *Therefore, it is ordered*, Pursuant to the authority conferred upon the Commission by the Securities Exchange Act of 1934, particularly sections 3 (a) (12), 11 (d) (1) and 23 (a) thereof, that § 240.11d1-1 [Rule X-11D1-1] be amended by substituting a semi-colon and the word "or" for the period at the end of paragraph (c) and adding the following paragraph (d):

§ 240.11d 1-1 *Exemption of certain securities from section 11 (d) (1).* * * *

(d) The security is acquired by the customer through the exercise of a right evidenced by a warrant or certificate expiring within 90 days after issuance, provided such right was originally issued to the customer as a stockholder of the corporation issuing the security upon which credit is to be extended, or as a stockholder of a company distributing such security in order to effectuate the provisions of section 11 of the Public Utility Holding Company Act of 1935. The right shall be deemed to be issued to the customer as a stockholder if he actually owned the stock giving rise to the right when such right accrued, even though such stock was not registered in his name; and in determining such fact the broker and dealer may rely upon a signed statement of the customer which the broker and dealer accepts in good faith. (Secs. 3 (a) (12), 11 (d) (1) and 23 (a) 48 Stat. 882, 891, 901; 15 U. S. C. 78c, 78k, 78w)

Effective: December 30, 1946.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

DECEMBER 27, 1946.

TITLE 22—FOREIGN RELATIONS

Chapter I—Department of State

Subchapter A—The Department and the Foreign Service

[Dept. Reg. 108.37]

PART 1—ORGANIZATION

ASSISTANT SECRETARY (FOR ADMINISTRATION)

Corrected Reprint

Under authority contained in R. S. 161 (5 U. S. C. 22) and pursuant to section 3 of the Administrative Procedure Act of 1946 (60 Stat. 237), Title 22 of the Code of Federal Regulations is hereby amended as follows:

Section 1.2 (g) (6), as amended by Departmental Regulation 108.31 of November 5, 1946 (11 F. R. 13438), is amended to read:

§ 1.2 *Basic organization of the Department in Washington.* * * *

(g) *Offices of the Department.* * * *

(6) *Under the Assistant Secretary (for Administration).*

Office of Departmental Administration, comprising:

Director, Deputy Director, and Executive Officer;
Division of Management Planning;
Division of Departmental Personnel;
Division of Central Services;
Division of Coordination and Review;
Division of Communications and Records;
Division of Cryptography;
Central Translating Division;
Presentation Division;
Division of Protocol;
Division of International Conferences.

Director General of the Foreign Service:

Deputy Director General of the Foreign Service (The Deputy Director General of the Foreign Service is the Director, Office of the Foreign Service).

Office of the Foreign Service, comprising:

Director, Deputy Director, and Executive Officer;
Corps of Foreign Service Inspectors;
Division of Foreign Service Planning;
Division of Foreign Service Administration;
Division of Foreign Service Personnel;
Division of Training Services;
Division of Foreign Reporting Services;
Division of Foreign Buildings Operations.

Office of Budget and Finance, comprising:

Director, Deputy Director, and Executive Officer;
Division of Budget;
Division of Finance;
UNRRA Division.

Office of Controls, comprising:

Director, Deputy Director, and Executive Officer;
Passport Division;
Visa Division;
Special Projects Division;
Division of Foreign Activity Correlation;
Division of Investigations;
Munitions Division.

This regulation will be effective on the date of its publication in the FEDERAL REGISTER.

(R. S. 161; 5 U. S. C. 22)

Approved: December 30, 1946.

[SEAL] JAMES F. BYRNES, *Secretary of State.*

TITLE 32—NATIONAL DEFENSE

Chapter IX—Office of Temporary Controls, Civilian Production Administration

AUTHORITY: Regulations in this chapter unless otherwise noted at the end of documents affected, issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236, 56 Stat. 177, 58 Stat. 827, and Public Laws 270 and 475, 79th Congress; Public Law 388, 79th Congress; E. O. 9024, 7 F. R. 329; E. O. 9040, 7 F. R. 527; E. O. 9125, 7 F. R. 2719; E. O. 9599, 10 F. R. 10155; E. O. 9638, 10 F. R. 12591; C. P. A. Reg. 1, Nov. 5, 1945, 10 F. R. 13714; Housing Expediter's Priorities Order 1, Aug. 27, 1946, 11 F. R. 9507; E. O. 9809, Dec. 12, 1946, 11 F. R. 14281; OTC Reg. 1, 11 F. R. 14311.

PART 903—ORGANIZATION AND DELEGATIONS OF AUTHORITY

[Directive 27, Revocation]

PRIORITIES ACTION BY OFFICE OF INTERNATIONAL TRADE OPERATIONS, DEPARTMENT OF COMMERCE

Section 903.139, Directive 27 is revoked.

Issued this 3d day of January 1947.

L. F. FOSTER,
Director, Bureau of Priorities.

[F. R. Doc. 47-156; Filed, Jan. 3, 1947; 11:26 a. m.]

PART 1010—SUSPENSION ORDERS

[Suspension Order S-1051, Revocation]

TOM STILL TRANSFER CO., INC., ET AL.

Suspension Order No. S-1051, effective December 26, 1946, was issued against the Tom Still Transfer Company, Inc., Boone Street, Kingsport, Tennessee, and Garland Cassel and William Cassel, doing business as Cassel Brothers, 206 West Sullivan Street, Kingsport, Tennessee, for violation of Veterans' Housing Program Order No. 1. It appears that this order was issued in error as the respondents had received authorization to complete the construction in question. The Chief Compliance Commissioner has therefore directed that Suspension Order No. S-1051 be revoked. In view of the foregoing,

It is hereby ordered, That: § 1010.1051, Suspension Order No. S-1051, be revoked.

Issued this 2d day of January 1947.

CIVILIAN PRODUCTION ADMINISTRATION,
By J. JOSEPH WHELAN,
Recording Secretary.

[F. R. Doc. 47-155; Filed, Jan. 3, 1947; 11:26 a. m.]

PART 1010—SUSPENSION ORDERS

[Suspension Order S-1063]

JAMES CUSANO

James Cusano owns and operates a restaurant and taproom at 8107 Tinnicum Avenue, Philadelphia, Pennsylvania. On or about September 20, 1946, he began construction in altering and erecting an addition to his restaurant and taproom at the above address, at an estimated cost of $8,000, without authorization from the Civilian Production Administration. The beginning and carrying on of this construction, subsequent to March 26, 1946, at an estimated cost in excess of $1,000, constituted a wilful violation of Veterans' Housing Program Order No. 1. This violation has diverted critical materials to uses not authorized by the Civilian Production Administration. In view of the foregoing, it is hereby ordered that:

§ 1010.1063 *Suspension Order No. S-1063.* (a) Neither James Cusano, his successors or assigns, nor any other person shall do any further construction on the premises located at 8107 Tinnicum Avenue, Philadelphia, Pennsylvania, including completing, putting up or altering of any structure located thereon, unless hereafter specifically authorized in writing by the Civilian Production Administration, or any other duly authorized Governmental agency.

(b) James Cusano shall refer to this order in any application or appeal which he may file with the Civilian Production Administration, or any other duly authorized Governmental agency, for authorization to carry on construction.

(c) Nothing contained in this order shall be deemed to relieve James Cusano, his successors or assigns, from any restriction, prohibition, or provision contained in any other order or regulation, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 3d day of January 1947.

CIVILIAN PRODUCTION ADMINISTRATION,
By J. JOSEPH WHELAN,
Recording Secretary.

[F. R. Doc. 47-157; Filed, Jan. 3, 1947; 11:26 a. m.]

PART 1010—SUSPENSION ORDERS

[Suspension Order S-1065]

LOUIS MILLER AND SANTO NASTASI

Louis Miller, of 1375 E. Lafayette Avenue, Detroit, Michigan, and Santo Nastasi, of 2189 Canton Avenue, Detroit, Michigan, on or about September 11, 1946, began and thereafter carried on, without authorization of the Civilian Production Administration, construction of a structure to be used as a grease rack in connection with a gas station, at 1403 East Congress Street, Detroit, Michigan, the estimated cost of which was in excess of $1,000. The beginning and carrying on of this construction without authorization constituted a violation of Veterans' Housing Program Order No. 1. This violation has diverted critical materials to uses not authorized by the Civilian Production Administration. In view of the foregoing, it is hereby ordered that:

§ 1010.1065 *Suspension Order No. S-1065.* (a) Neither Louis Miller nor Santo Nastasi, their successors or assigns, nor any other person shall do any further construction on the structure at 1403 East Congress Street, Detroit, Michigan, including putting up, completing or altering the structure, unless hereafter authorized in writing by the Civilian Production Administration.

(b) Louis Miller and Santo Nastasi shall refer to this order in any application or appeal which they may file with the Civilian Production Administration or the Federal Housing Administration for priorities assistance or for authorization to carry on construction.

(c) Nothing contained in this order shall be deemed to relieve Louis Miller and Santo Nastasi, their successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the provisions hereof.

Issued this 3d day of January 1947.

CIVILIAN PRODUCTION ADMINISTRATION,
By J. JOSEPH WHELAN,
Recording Secretary.

Chapter XIX—Reconstruction Finance Corporation

EXPIRATION OF CERTAIN REGULATIONS

Pursuant to the provisions of § 2.21 (b) of the FEDERAL REGISTER regulations, Reconstruction Finance Corporation hereby gives notice of the expiration of the following regulations:

Part 7001—*Petroleum Compensatory Adjustments:* Expired October 31, 1945.

Part 7002—*Butter Production Payments:* Expired October 31, 1945.

Part 7003—*Livestock Slaughter Payments:* Expired June 30, 1946.

Part 7004—*Flour Production Payments:* Expired February 28, 1946.

Part 7005—*Mid-Continent Crude Compensatory Adjustments:* Expired September 30, 1946.

Part 7009—*Flour Production Payments:* Expired June 30, 1946.

Part 7010—*Livestock Slaughter Payments:* Expired October 14, 1946.

The expiration of the above regulations as of the dates listed are without prejudice to any rights or liabilities in connection with matters covered by said regulations which occurred prior to said expiration dates.

RECONSTRUCTION FINANCE CORPORATION.
STUART K. BARNES,
Executive Director,
Office of Defense Supplies.
GEORGE STONER,
Associate Director,
Office of Defense Supplies.

[F. R. Doc. 47-85; Filed, Jan. 3, 1947; 8:59 a. m.]

[Reg. 7,[1] Amdt. 6]

PART 7007—STRIPPER WELL COMPENSATORY ADJUSTMENTS

MISCELLANEOUS AMENDMENTS

1. Section 7007.1 *Definitions*, as amended, is hereby further amended by changing paragraph (j) to read as follows:

§ 7007.1 *Definitions.* * * *

(j) "Premium rate" means, with respect to crude produced from a designated area, the excess of the amount appearing opposite such designated area listed in Schedule A over the larger of the following:

(1) Thirty-five (35) cents; or

(2) The amount by which the applicant's highest posted purchase price, in effect on or after December 1, 1946, for crude produced from such designated area exceeds the basic maximum price therefor.

2. Section 7007.5 *Amount of claims*, as amended, is hereby further amended by changing paragraphs (a) and (c) to read as follows:

§ 7007.5 *Amount of claims.* (a) A claim with respect to the purchase of crude produced from any designated area shall be in an amount equal to the number of barrels of such crude purchased and paid for multiplied by the excess, if any, by which the amount per barrel paid for such crude exceeds the larger of the following:

(1) The basic maximum price therefor plus thirty-five (35) cents, or

(2) The applicant's highest posted purchase price, in effect on or after December 1, 1946, for such crude;

Provided, however, That such claim shall in no event be greater than an amount equal to the number of barrels of such crude purchased and paid for, multiplied by the applicant's premium rate for such crude. Crude for which an applicant is prohibited from paying the purchase price in whole or in part because of inability on the part of applicant to determine the legal owner or owners, or by reason of other legal prohibitions, shall be deemed to have been paid for when there has been recorded in applicant's books a suspense or other account reflecting a liability on the part of applicant for such purchase price which applicant will ultimately pay to the party or parties legally entitled thereto.

* * * * *

(c) Claims with respect to crude produced in any designated area may include only quantities run from receiving tanks on or after the effective date of the inclusion of such designated area in the attached Schedule A: *Provided, however*, That no claim may be filed with respect to crude run from receiving tanks or purchased on or after December 1, 1946, except Pennsylvania Grade Crude.

This Amendment No. 6 shall be effective as of December 1, 1946.

Issued this 31st day of December 1946.

TITLE 48—TERRITORIES AND INSULAR POSSESSIONS

Chapter I—Division of Territories and Island Possessions, Department of the Interior

[Order 2287]

PART 1—ORGANIZATION AND PROCEDURE

Sections 1.1 to 1.5 of Part 1 of Chapter I are revoked, and the following new sections are substituted therefor, to read as follows:

Sec.
1.1 Creation.
1.2 Functions.
1.3 General description.
1.10 Office of the Director and the Assistant Director.
1.11 Legal Branch.
1.12 Alaska Branch.
1.13 Caribbean Branch.
1.14 Pacific Branch.
1.15 Administrative Branch.
1.20 The Alaska Railroad.
1.21 Puerto Rico Reconstruction Administration.
1.22 The Virgin Islands Company.
1.23 Alaska Road Commission.
1.24 Alaska Rural Rehabilitation Corporation.
1.25 Alaska Purchasing and Shipping Office.
1.26 Alaska insane.
1.40 Inquiries and requests in general.
1.50 Location of offices.

AUTHORITY: §§ 1.1 to 1.50, inclusive, issued under Pub. Law 404, 79th Cong.; 60 Stat. 237.

§ 1.1 *Creation.* The Division of Territories and Island Possessions was created by Executive Order No. 6726 of May 29, 1934, which simultaneously transferred to it the functions of the War Department's Bureau of Insular Affairs pertaining to civil government in Puerto Rico. The Department of the Interior already had jurisdiction over Alaska and Hawaii by virtue of the Act of March 1, 1873 (17 Stat. 484, 5 U. S. C. sec. 486) which authorized the Secretary to exercise "all the powers and perform all the duties in relation to the territories of the United States that are now by law or by custom exercised and performed by the Secretary of State," and under which the Department has also been largely responsible for the government of those areas of our western domain which were once territories and have later become States. Administration of the Virgin Islands was transferred from the Navy Department to the Department of Interior by Executive Order No. 5566 of May 27, 1931. In order to concentrate the Department's responsibility for civil government in the territories and possessions in a single division, as well as to formalize in a single document the Division's jurisdiction, the Secretary by Order No. 1640 of February 13, 1936, vested the Division with responsibility for government in Alaska, Hawaii, Puerto Rico and the Virgin Islands, as well as with the administration of a number of activities and enterprises in those areas. The order also provided that all administrative action within the Department pertaining to matters of territorial policy would be subject to approval by the Division.

Subsequently, additional functions over the Virgin Islands were delegated to the Secretary under the Organic Act of the Virgin Islands (49 Stat. 1807, 48 U. S. C. sec. 1405 et seq.). Baker, Howland and Jarvis Islands were placed under the control and jurisdiction of the Secretary by Executive Order No. 7368 of May 13, 1936, and Executive Order No. 7828, of March 3, 1938, placed Canton and Enderbury Islands under the Department's supervision.

§ 1.2 *Functions.* The Division's objective is to encourage each territorial area to develop its resources economically and politically to the end that Federal political guidance and financial assistance may be gradually withdrawn and the territorial areas be enabled increasingly to govern themselves and to provide their own revenues. In carrying out this objective, the Division acts as an intermediary between the territorial areas and the Federal Government and the general public; it scrutinizes the fields of Federal activity within those areas and suggests ways in which overlapping programs may be coordinated; it advises the Secretary on all aspects of territorial problems and policies; it reviews legislation affecting the territorial areas; serves as an information clearinghouse; encourages industrial development; assists the territorial areas in working out plans and policies for a stable economy and a political status satisfactory to its inhabitants; collaborates with the Department of Justice in representing the Government of Puerto Rico in litigation on appeal to Federal courts; and represents the people of the territories and insular possessions in proceedings before various Federal administrative agencies. In addition, the Division supervises a number of enterprises or activities in the territorial areas, including The Alaska Railroad, the Puerto Rico Reconstruction Administration, The Virgin Islands Company, the Alaska Road Commission, the Alaska Rural Rehabilitation Corporation, and the Alaska Purchasing and Shipping Office, and is responsible for the care and maintenance of the Alaska insane.

§ 1.3 *General description.* The organization of the Division of Territories and Island Possessions consists of the Office of the Director and Assistant Director, the Legal Branch, the Alaska Branch, the Caribbean Branch, the Pacific Branch and the Administrative Branch, all located in Washington. In addition, offices of the Division which handle the Puerto Rico Reconstruction Administration and The Virgin Islands Company are located in Washington. Outside of Washington the Division is represented by the Offices

of the Governors of the various territorial areas and of the territorial enterprises or activities under the administration of the Division. The Division is a program staff office of the Office of the Secretary of the Interior. (See 43 CFR 01.21 (b).)

§ 1.10 *Office of the Director and the Assistant Director.* The Office of the Director develops, interprets and implements national policy on territorial affairs. It establishes standards and develops integrated programs designed to accomplish its objectives. The Director has overall responsibility for and control over all functions and activities of the Division. The Assistant Director serves as Acting Director in the absence of the Director, and is responsible for such duties as are assigned to him by the Director.

§ 1.11 *Legal Branch.* The legal work of the Division is handled by the Legal Branch under the direction of a Chief Counsel. The work of the Legal Branch includes the drafting and review of legislation affecting the territorial areas, litigation, conferences and correspondence with general counsels of other Federal bureaus and agencies, preparation of opinions and memoranda, appearances before administrative boards, and performance of miscellaneous legal services for the various Federal agencies or corporations operating in the territorial areas under the administration of the Division. The Chief Counsel collaborates with the Department of Justice in representing the Government of Puerto Rico before the Circuit Court of Appeals for the First Circuit and the Supreme Court of the United States in all matters in which the Government of Puerto Rico has an interest, and also represents the people of the territories and insular possessions before Federal administrative agencies.

§ 1.12 *Alaska Branch.* The Alaska Branch works closely with all Federal agencies functioning in Alaska, with territorial officials and with all Interior agencies in Alaska in making plans to encourage colonization and settlement. It assists in the preparation of the Territory for statehood, as well as in programs for the development of the Territory's fishing, mineral, timber and agricultural resources; for the encouragement of locally-owned business enterprises and the broadening of the Territory's economic base through new sources of income, and for the development of sufficient transportation and communication facilities at rates low enough to appeal to prospective businessmen and settlers. The Branch supervises The Alaska Railroad, the Alaska Rural Rehabilitation Corporation and the Alaska Road Commission, and is responsible for the care of the Alaska insane. It also supplies information about Alaska on such varied subjects as the cost of living, employment opportunities, methods of acquiring land and prospecting opportunities.

§ 1.13 *Caribbean Branch.* Puerto Rico and the Virgin Islands are handled by one branch, the Caribbean Branch, because of their geographical proximity and the similarity of their major economic problems. The Branch assists the local governments in programs designed to give employment and to explore and develop agricultural and industrial resources to the fullest extent; acts as liaison between the islands and other Federal agencies; encourages and assists private enterprise plans; and recommends policy with respect to the working out of permanent political status. The Branch is responsible for the coordination of the functions and policies of Federal civil agencies in Puerto Rico and the Virgin Islands. (See Executive Order No. 9383 of October 5, 1943 (48 CFR, 1944 Supp., p. 44).) The activities of the Puerto Rico Reconstruction Administration are under the supervision of the Branch. The Branch also supervises the operation of The Virgin Islands Company, which operates certain properties of the United States in St. Croix, and the maintenance of Bluebeard's Castle Hotel in St. Thomas, owned by the Federal Government and now leased to a private operator.

§ 1.14 *Pacific Branch.* The Pacific Branch has the responsibility for carrying out national policy with respect to Hawaii and the Pacific islands under Interior's jurisdiction (Howland, Baker and Jarvis Islands, as well as Canton and Enderbury which are both under the joint administration of the United States and Great Britain). The Branch assists in the work of representing Hawaii's interests before the Congress and other government agencies as well as in preparing the Territory for statehood. The Branch also recommends programs and policies for civil administration in the Equatorial Islands already under the administration of the Department; furnishes information concerning all aspects of the culture and resources of Pacific islands under Interior's jurisdiction; and assists the territorial governments and private groups in the formulation and carrying out of programs designed to promote closer cultural, political and economic ties with the mainland United States.

§ 1.15 *Administrative Branch.* The Administrative Branch handles the administrative work of the Division as well as administrative operations in the territories and possessions, including the Government of the Virgin Islands; the Offices of the Governors of Alaska and Hawaii; The Alaska Railroad; the Alaska Road Commission; the Alaska Purchasing and Shipping Office; the Puerto Rico Reconstruction Administration; and The Virgin Islands Company. This involves the review and consolidation of budget estimates for these activities as well as a large volume of personnel work in connection with approximately 3,600 positions. It maintains records on the appropriation for the care and maintenance of Alaskan insane patients at Morningside Hospital, Portland, Oregon, and is accountable for the deposit of funds which relatives or guardians of the patients contribute to the cost of their care under an administrative order of the Secretary of the Interior. It reviews accounts of certifying and disbursing officers handling funds appropriated for "Government in the Territories," and is responsible for the transfer of funds to field disbursing officers.

§ 1.20 *The Alaska Railroad.* The Division supervises the operation of The Alaska Railroad which operates a railroad line, river boats and tourist hotels in Alaska. Under the direction of the Director or the Assistant Director, the Alaska Branch, the Administrative Branch and the Legal Branch of the Division in Washington review the reports and other materials submitted by the Railroad, prepare and review legislation affecting the Railroad, and perform various other administrative and legal services. The General Manager in Anchorage, Alaska, is in direct charge of the operation of the Railroad in the Territory. (See 48 CFR Ch. IV.)

§ 1.21 *Puerto Rico Reconstruction Administration.* The Director of the Divison serves as Administrator of the Puerto Rico Reconstruction Administration, which operates various housing, cooperative and related projects in Puerto Rico for the primary purpose of rehabilitating the agricultural economy of the Islands. The Director is in direct charge of the handling of all affairs of the Administration in Washington. The activities of the Administration in Puerto Rico are administered by the Assistant Administrator at San Juan, Puerto Rico. (See 48 CFR Ch. II.)

§ 1.22 *The Virgin Islands Company.* Under the supervision of the Director, as Managing Director of the Company, the Caribbean Branch, the Administrative Branch and the Legal Branch of the Division perform various services for The Virgin Islands Company, a non-profit corporation which operates Federal properties in the Islands for the purpose of improving economic conditions there. The President of the Company maintains his office in the Virgin Islands and directs the operation of the Federal properties there. The Vice President of the Company divides his time between the Washington office and the Virgin Islands, and together with the branches of the Division concerned is responsible for representing the Company in its fiscal, budgetary, legislative and personnel affairs in Washington. (See 48 CFR Ch. III.)

§ 1.23 *Alaska Bond Commission.* The Division of Territories and Island Possessions has general supervision over the activities and administrative functions of the Alaska Road Commission pertaining to the construction, repair and maintenance of roads, landing fields, tramways, ferries, bridges and trails in Alaska. A Chief Engineer with offices in Juneau, Alaska, is in immediate charge of the activities of the Commission. Rules and regulations governing the use of roads, trails and other works, including the fixing and collecting of tolls are recommended by the Commission for issuance by the Secretary of the Interior with the approval of the President. (Sec. 3, 47 Stat. 447; 48 U. S. C. 321 (b).)

§ 1.24 *Alaska Rural Rehabilitation Corporation.* The Alaska Rural Rehabilitation Corporation was organized in 1935, under the laws of the Territory of Alaska, as a non-profit corporation to undertake a program of agricultural colonization in Alaska. It was sponsored by the Federal Emergency Relief Administration and financed by grants of funds from that agency which were used in the settlement of an agricultural colony in the Matanuska Valley region. Since the expiration of the Federal Emergency Relief Administration in 1938, the Department of the Interior has exercised general supervision of the activities of the Corporation. The general supervision exercised by the Department is maintained by holding in trust the nine shares of stock which are made out to the current directors and assigned in blank. The Department is represented on the nine-man board by several officials and the Director of the Division of Territories and Island Possessions serves as President of the Corporation.

§ 1.25 *Alaska Purchasing and Shipping Office.* The Alaska Purchasing and Shipping Office of the Department of the Interior is located in Seattle, Washington, and is under the general supervision of the Division of Territories and Island Possessions. This office purchases supplies for The Alaska Railroad and other agencies of the Federal Government in Alaska, and ships such supplies from point of origin to destination in Alaska. It also acts as agent for the native cooperative stores, buying their supplies, and selling for their benefit such items as reindeer meat and hides, furs and ivories.

§ 1.26 *Alaska insane.* The Division of Territories and Island Possessions has general responsibility for the care and custody of persons legally adjudged insane in Alaska in accordance with the act of October 14, 1942 (56 Stat. 783; 48 U. S. C., Supp. 46).

In the exercise of its functions with respect to the care and custody of Alaskan insane patients, the Division makes recommendations to the Secretary of the Interior as to the making of contracts with institutions for the care of such insane patients. The Division ascertains the legal residence of Alaskan insane patients and recommends to the Secretary of the Interior the return of those who are not legal residents of Alaska to their legal residence or to their friends. The Division also recommends to the Secretary the manner and proportions in which an insane patient, or his legal representative, or relatives, must contribute to the payment of the charges for the care or treatment of such insane patients and makes investigations to determine the ability of such persons to make such payments.

§ 1.40 *Inquiries and requests in general.* Information concerning the policies, programs and activities of the Division may be secured by addressing the Division of Territories and Island Possessions, Department of the Interior, Washington 25, D. C.

§ 1.50 *Location of offices.*—(a) *Washington, D. C. Offices.* The offices of the Director, Assistant Director and Branch Chiefs of the Division are located in the Department of the Interior, Washington 25, D. C.

(b) *Other offices.* The locations of other offices are as follows:

Governor of Alaska, Juneau, Alaska.
Governor of Hawaii, Honolulu, Hawaii.
Governor of Puerto Rico, San Juan, Puerto Rico.
Governor of the Virgin Islands, Charlotte Amalie, St. Thomas, Virgin Islands.
The Alaska Railroad, Anchorage, Alaska.
Alaska Purchasing and Shipping Office, 510 Virginia Street, Seattle, Washington.
Puerto Rico Reconstruction Administration, San Juan, Puerto Rico.
Alaska Road Commission, Juneau, Alaska.
The Virgin Islands Company, Christiansted, St. Croix, Virgin Islands.

J. A. KRUG,
Secretary of the Interior.

DECEMBER 27, 1946.

[F. R. Doc. 47-54; Filed, Jan. 3, 1947; 8:50 a. m.]

PROPOSED RULE MAKING

FEDERAL SECURITY AGENCY

Food and Drug Administration

[21 CFR Part 15]

[Docket No. FDC-44]

CORN MEALS AND RELATED PRODUCTS; DEFINITIONS AND STANDARDS OF IDENTITY

TENTATIVE ORDER

Definitions and Standards of Identity for white corn meal, yellow corn meal, bolted white corn meal, bolted yellow corn meal, degerminated white corn meal, degermed white corn meal, degerminated yellow corn meal, degermed yellow corn meal, white corn flour, yellow corn flour, grits, corn grits, hominy grits, yellow grits, yellow corn grits, yellow hominy grits, enriched corn meals, and enriched grits.

Tentative order. It is proposed that, by virtue of the authority vested in the Federal Security Administrator by the provisions of the Federal Food, Drug, and Cosmetic Act (secs. 401, 701; 52 Stat. 1046, 1055; 21 U. S. C. 341, 371); and upon the basis of substantial evidence of record at the public hearing held pursuant to the notice issued on February 11, 1946 (11 F. R. 1600), the following order be made:

Findings of fact.[1] 1. The corn used in making corn meals, grits, and corn flours is either of the white or the yellow variety. The corn kernel of each variety consists of (1) the endosperm which is starchy, (2) the germ which is rich in fatty oil, and (3) the bran coat which contains a high percentage of crude fiber. There is no essential difference in the chemical composition of white and yellow corn except for the presence in yellow corn of yellow coloring matter. The quantity of fat and crude fiber in products made by grinding white or yellow corn is a measure of the germ and bran present. (R. 479, 483, 484, 485, 520, 1224)

2. In preparing corn meals, grits, and corn flours, the corn is first cleansed to remove foreign grains and other extraneous matter. (R. 471, 508, 650)

3. Corn meals, grits, and corn flours are prepared by grinding corn to a desired degree of fineness, and it is the degree of fineness together with the extent of the removal of the bran coat and germ that provide the prime characteristics of identity to these several foods. Grits are the coarsest ground, corn meals are the next in fineness, and corn flours are the most finely ground. (R. 475)

4. When the entire corn kernel is ground to the fineness of meal, a food is produced which long has been known as "corn meal" with the descriptive words "white" or "yellow" according to the variety of corn used. This corn meal sometimes is called "old fashioned", "stone ground", "water ground", but the significance of these modifying designations is not generally understood. (R. 472, 479, 481-482)

5. When a substantial portion of the bran is removed, but only a small portion of the germ is taken away, the resultant corn meal is commonly known as "bolted white corn meal" or "bolted yellow corn meal", according to the variety of corn used. (R. 479, 495, 482, 523, 649)

6. When most of the bran and germ are removed, and the remainder of the corn kernel reduced to meal fineness, the resultant food is commonly known as "degerminated white corn meal" or "degerminated yellow corn meal" according to the variety of corn used, although a more accurate designation is "degermed corn meal". This food sometimes is called "cream meal", "pearl meal" or "granulated meal", but these terms are applicable only to special types of degerminated corn meal. (R. 479, 483, 533, 534, 649)

7. Though the three types of meal, viz, corn meal, bolted corn meal, and degerminated corn meal, are well recognized in the trade, the names "corn meal", "bolted corn meal" and "degerminated corn meal" are often applied interchangeably on retail packages, degerminated products being called "corn meal" or "bolted corn meal", bolted products being called "corn meal", or "degerminated corn meal" and "corn meal" being called "bolted corn meal" and "degerminated corn meal". The three types differ in cooking and eating qualities and in their content of certain nutrients. (R. 466, 472, 473, 479, 481, 532, 1077-1078, 1224)

8. In grinding the corn kernel to produce a corn meal of the whole grain type,

[1] The page references to certain relevant portions of the record are for the convenience of the reader. However, the findings of fact are not based solely on that portion of the record to which reference is made but upon consideration of all the evidence of record.

many mills remove from such meal small amounts of coarse material consisting of large flakes of bran and pieces of corn, particularly the tip of the kernel, which have not been finely ground. Some mills separate and grind separately different parts of the corn kernel and then recombine the ground materials to make this type of meal. Excessive removal of the bran coat or germ will change the food to a different type of corn meal. Mixtures containing abnormally high proportions of bran or germ or both do not have the characteristics of corn meal. Such mixtures are not desired by consumers and their sale is likely to result in consumer deception. (R. 471, 473, 545, 621, 1144)

9. Corn meals made by simply grinding cleaned corn have the same proportions of bran and germ, and so of crude fiber and fat, as has the cleaned corn from which they are made. As bran is removed the percentage of crude fiber decreases. A reasonable dividing line between corn meals and bolted corn meals based on crude fiber content is 1.2 percent of crude fiber on the moisture free basis. The germ content, and so the fat content, of corn meal made by recombining ingredients may differ slightly from that of the cleaned corn from which they are made, but reasonable variations in germ content will not cause a change in fat content of more than 0.3 percent. The removal of particles of corn which escape grinding, together with flattened pieces of bran, cause a slight lowering of the crude fiber content, but have little effect on fat content. Unless there is a deliberate addition of excess bran the crude fiber content of corn meals will not exceed that of the cleaned corn from which the meals are made. (R. 517–518, 521, 536–537, Ex. 20, 24, 61)

10. Bolted corn meals may be prepared either by bolting whole grain corn meals to remove bran particles; or by grinding and separating the corn into portions which are then ground separately and combined so as to include appropriate portions of ground endosperm and germ. As a result of the removal of bran, bolted corn meals contain, on the moisture free basis, less than 1.2 percent crude fiber. Small amounts of germ may be lost when the bran particles are sifted out, and the amount of germ returned in recombining ground portions may differ somewhat from the amount of germ in the cleaned corn from which ground, but the fat content, on the moisture free basis, does not exceed by more than 0.3 percent the fat content of such corn, nor is such fat content less than 2.25 percent. (R. 472, 476, 495, 499, 502, 523–524, 528, 530, 536, 655, 1179, 1182; Ex. 21, 23, 61)

11. Degerminated corn meals are distinguished from corn meals and bolted corn meals by the removal of both bran and germ in the process of manufacture. This results in low fat and low crude fiber content. Properly made, degerminated corn meals contain, on the moisture free basis, less than 1.2 percent crude fiber and less than 2.25 percent fat. (R. 459–463, 473, 474; Ex. 22, 23)

12. Grits are made by coarsely grinding the endosperm of white or yellow corn from which most of the bran and germ have been separated, and screening out meal and flour. Most grits are milled from white corn and the unqualified name "grits" means white grits. The names "hominy grits" and "corn grits" are synonymous with grits. The common name of the corresponding food made from yellow corn is "yellow grits" or "yellow hominy grits" or "yellow corn grits". The removal of bran and germ is such that, on the moisture free basis, the crude fiber content is less than 1.2 percent and the fat content is less than 2.25 percent. The significant difference between grits and degermed corn meals is the particle size. (R. 459, 474, 477, 536, 555, 558, 563; Ex. 27, 28)

13. Corn flours are the foods prepared by grinding and bolting white or yellow corn to a fineness which approximates that of wheat flour. They may be made from the entire corn kernel or proportions of bran and germ may be removed in milling. Corn flours are seldom sold for household use but are used mainly as one of the ingredients of such foods as waffle, pancake and muffin mixes, and some types of breakfast foods. It is not now customary to distinguish between corn flours of varying bran and germ content so long as their bran and germ content, and therefore their fat and crude fiber content, do not exceed the fat and crude fiber content of the cleaned corn from which made. The comparison is made on the moisture-free basis. (R. 475, 477, 548, 549, 550, 553, 1118, 1119; Ex. 26)

14. The moisture content of corn meals, grits, and corn flours, affects the properties and value to consumers of these foods. Excessive moisture renders these foods susceptible to early spoilage, this being particularly true of products containing all the corn germ, and is of no value to consumers. The sale of corn meals, grits, and corn flours of higher than normal moisture content amounts to sale of water at corn product prices and is an economic cheat. (R. 506, 514, 515, 539, 562, 590, 650)

15. In the manufacture of grits and degerminated corn meals, it is customary to soften the corn by tempering with hot water, but to remove the excess moisture by drying at a later stage in the mailing process. The moisture content of these foods after such drying does not exceed 15 percent. When corn meals are made by grinding whole corn, it is customary to use reasonably dry corn. As a result, the moisture content of corn meals, and also of bolted corn meals prepared by bolting to remove the bran, can be kept below 15 percent. (R. 308, 309, 457, 458–461, 472, 476, 506, 507, 514, 525, 500, 650, 1179, 1182, 1191; Ex. 20, 21, 22, 23, 24, 25, 26, 27, 28, 61)

16. Accurate methods of analysis in general use for the determination of moisture, fat, and crude fiber in corn meals, bolted corn meals, degerminated corn meal, grits, and corn flours are those of the Association of Official Agricultural Chemists, published in the sixth edition, Official and Tentative Methods of Analysis of the Association of Official Agricultural Chemists. The method for moisture appears on page 259 under sections 20.70 and 20.71, for fat on pages 259 and 260 under sections 20.70 and 20.73, for crude fiber on pages 259 and 260 under sections 20.70 and 20.74. (R. 519, 520, 551, 563, 651, 661)

17. A simple method for determining the relative size of the particles of corn meals, bolted corn meals, degerminated corn meals, and grits is to separate them by means of sieves with openings of appropriate size. (R. 594–595, 598–599, 652, 661)

18. Particles of grits are of such size that not less than 95 percent will pass through a No. 10 standard sieve[1] and most of those passing the No. 10 sieve will be retained on a No. 25 standard sieve. Particles passing through the No. 25 sieve are of the fineness of meal, but their complete exclusion from grits is impracticable. A limit on the amount of particles of meal size is necessary to maintain the identity of grits as differentiated from a corn meal. A reasonable limit on the proportion of particles in grits which will pass through a No. 25 sieve is 20 percent. (R. 459, 474, 554, 1127; Ex. 27, 28, 57, 59)

19. Corn meals, bolted corn meals, and degerminated corn meals are composed of particles most of which are smaller than the particles of grits, that is, they will pass through a No. 25 standard sieve. Because the process of grinding is inexact insofar as the size of particles resulting therefrom is concerned, corn meals of all types may, and usually do, contain some particles of somewhat larger size comparable to grits, and also some quite small particles, comparable to flour. This is particularly true of corn meals ground between stones. Where 45 percent or more by weight of corn meals, bolted corn meals, or degerminated corn meals, passes through a No. 25 standard sieve, the food has a characterizing mealy consistency. An excessive amount of corn flour in any type of corn meal makes it unsatisfactory for meal uses. Particles which pass through a No. 72 XXX grits gauze are of the fineness of corn flour. The openings in a No. 72 grits gauze are of essentially the same size as those of a No. 70 woven wire cloth as defined by the U. S. Bureau of Standards in L. C. 584. Reasonable limits on the amounts of material in corn meals, bolted corn meals, and degerminated corn meals which will pass through a No. 72 XXX grits gauze are 35, 25, and 25 percent, respectively. (R. 300, 306, 475, 489, 513, 649, 1148; Ex. 20, 21, 22, 56, 58, 61)

20. Corn meals of the whole grain type often contain quantities of particles, particularly of bran, somewhat larger than those forming bolted and degerminated meals. Not less than 95 percent by weight of bolted corn meals and degerminated corn meals will pass through a No. 20 standard sieve; but in the case of corn meals of the whole grain type not less than 95 percent by weight will pass through a No. 12 standard sieve. (R. 512, 513, 1147; Ex. 56, 58)

[1] All sieves mentioned in these findings, unless otherwise noted, are 8 inches in diameter with full height frames and comply with specifications for sieve of the number indicated, published by the National Bureau of Standards, U. S. Department of Commerce, in L. C. 584.

21. For the purpose of testing corn meals, bolted corn meals, degerminated corn meals, and grits for particle size, reasonably accurate results are obtained by the following procedure which may be applied easily. Fit the sieves to be used into one another, placing the sieve with largest openings on top, the one with the next largest openings following, and attaching a bottom pan to the last sieve. All sieves should be 8 inches in diameter with full height frames and comply with specifications for sieves of the designated size in "Standard Specifications for Sieves", published March 1, 1940, in L. C. 534, of the Bureau of Standards, U. S. Department of Commerce. Place a sample of 100 grams of corn meal, bolted corn meal, degerminated corn meal, or grits to be tested on the top sieve, attach a cover, hold the assembly of sieves in a slightly inclined position, and shake by striking the sides against one hand with an upward stroke, at the rate of about 150 times per minute, turning the assembly of sieves about $\frac{1}{6}$ of a revolution, each time in the same direction, after each 25 strokes. Continue shaking for two minutes. Remove the material remaining on the sieves and in the pan, weigh separately, and make the calculations. Sometimes when meals are tested fine particles clog the sieve openings. If any sieve is clogged by fine material smaller than its openings, empty the contents onto a piece of paper. Remove the entrapped material on the bottom of the sieve by a hair brush and add to the sieve below. In like manner, clean the adhering material from inside the sieve and add to the material on the paper. Return mixture to the sieve, reassemble the sieves, and shake in the same manner as before for 1 minute. Repeat cleaning procedure if necessary until a 5 gram or less weight loss occurs in any sieve during a 1 minute shaking. (R. 652, 673, 1185, 1186, 1187; Ex. 32)

22. The particles of corn flours are of such fineness that at least 50 percent by weight will pass through No. 70 woven wire cloth, having openings of the size prescribed for such cloth by the Bureau of Standards, U. S. Department of Commerce, in L. C. 584. Many corn flours also contain particles of somewhat larger size but at least 98 percent by weight of any properly milled corn flour will pass through a No. 50 sieve. Corn flours give trouble when tested by the method described in finding 21 and a change in procedure is necessary. The following method is easily applied and gives reasonably accurate results. Weigh 5 grams of sample into a tared truncated metal cone (top diameter 5 centimeters, bottom diameter 2 centimeters, height 4 centimeters), fitted at bottom with 70-mesh wire cloth complying with the specifications for No. 70 wire cloth in "Standard Specifications for Sieves", published March 1, 1940 in L. C. 584 of the Bureau of Standards, U. S. Department of Commerce. Attach cone to a suction flask. Wash with 150 ml of petroleum ether applied in a small stream without suction, while gently stirring the sample with a small glass rod. Apply suction for 2 minutes after washing is completed, then shake the cone for 2 minutes with a vigorous horizontal motion, striking the side against the hand, and then weigh. The decrease in weight of sample, calculated as percent by weight of sample shall be considered the percent passing through No. 70 wire cloth. Transfer the residue from cone to a No. 50 sieve having a standard 8-inch diameter full height frame, complying with the specifications for wire cloth and sieve frame in said "Standard Specifications for Sieves". Shake for 2 minutes with a vigorous horizontal motion, striking the side against the hand; remove and weigh the residue; calculate the weight of residue as percent by weight of sample, and subtract from 100 percent to obtain the percent of sample passing through the No. 50 sieve. (R. 549, 550–552, 1188; Ex. 25, 25A, 26, 26A)

23. A number of manufacturers of corn meals, grits, and corn flours offered affidavits which were similar and in some instances identical in language and form stating that in order to be sure that their products would comply with the standards suggested in the notice of hearing, it would be necessary for them to take elaborate precautions to test each lot before shipment necessitating considerable additional expenditures. No recommendations for changes in the suggested standards were made. This general apprehension was inspired by representations made by some members of the American Corn Millers Federation at meetings of corn millers called for the purpose of discussing the suggested standards. Witnesses presented by the Federation failed to supply substantial evidence that compliance with the proposed standards would necessitate elaborate precaution or would impose any unreasonable burden. (R. 1028–1030, 1035–1040, Ex. 44, 48–54, 63–113)

24. While it is true that small mills do not maintain chemical laboratories for the determination of moisture, fat and crude fiber, the many analyses reported of products of small mills demonstrate that the limits proposed are almost universally met in present practice. No showing was made that the conditions revealed by such analyses were at all unusual. (Ex. 20–29, 61)

25. The advisory standards and other specifications for various corn meals have contained for many years moisture limits as low as, and in some cases lower than, 15 percent. Other industries have had little trouble complying with limits on food constituents similar in kind to those involved in this proposed order. The requirements proposed for particle size have been tested on many samples and are reasonable. Though given ample opportunity to subject the proposed limits to tests, the interested industry presented no data to indicate that the proposed limits were unreasonable. (R. 458–461, 1064–1077, 1163; Ex. 56–59)

26. In order to improve the general nutritive properties of the diets of their citizens, the States of North Carolina, South Carolina, Georgia, Alabama, and Mississippi have within the last few years adopted laws requiring that corn meals and grits from which a certain part of the germ of the corn has been removed, be enriched with certain vitamins and iron before sale in those States. The requirements of these States as to the minimum and maximum quantities of vitamins and iron required in such corn meals and grits after enrichment are shown in tabular form as follows:

State	Thiamine		Niacin	
	Not less than mg/lb	Not more than mg/lb	Not less than mg/lb	Not more than mg/lb
Alabama	1.5	3.0	16	32
Georgia	2.0	.....	16	.....
Mississippi	2.0	.....	16	.....
North Carolina:				
Law	2.0	2.5	16	20
Regulation	1.5	3.0	16	32
South Carolina	1.5	3.0	16	32

State	Riboflavin		Iron	
	Not less than mg/lb	Not more than mg/lb	Not less than mg/lb	Not more than mg/lb
Alabama	.....	.....	13	26
Georgia	1.2	.....	13	.....
Mississippi	1.2	.....	13	.....
North Carolina:				
Law	1.2	1.5	13	16.5
Regulation	0	0	13	26
South Carolina	.....	.....	13	26

(R. 50, 51, 56, 79, 145, 146, 153, 154, 264, 268, 336, 379; Ex. 2, 7, 9)

27. Pending the promulgation of standards for such enriched foods under the Federal Food, Drug, and Cosmetic Act, the requirements of which will become also the state requirements under provisions of the several laws, Georgia, Mississippi, and North Carolina have tolerated the lower requirements of the standards of South Carolina and Alabama. Following the promulgation of federal standards, all of these states will have uniform requirements. (R. 271, 380–381; Ex. 7)

28. Corn meals of various kinds, supplemented by grits, together with wheat flour constitute the main source of energy foods for large numbers of consumers in those states now having compulsory enrichment laws for corn meals and grits, and in adjacent states in the southeastern part of the United States. The corn meals, grits and wheat flour are used to supply essentially the same nutrients, and to a large extent are used interchangeably. (R. 41, 73, 95, 102, 103, 104, 189, 246, 278, 374, 377, 886, 887, 888; Ex. 5, 9, 42)

29. Recent dietary surveys in states where large amounts of corn meals of various types are consumed have uniformly shown that the diets of persons in the low income brackets are often deficient in thiamine, riboflavin, niacin, and iron. Pellagra, a dietary deficiency disease that can be prevented by a sufficient intake of niacin, was common in many such areas. Clinical evidences of riboflavin deficiencies have also been frequently reported. Dietary deficiencies do not often occur singly, but persons deficient in one of the nutrients are likely to be deficient also in the other three. (R. 39, 42, 49, 74, 75, 89, 96, 101, 105, 238, 239, 276, 277, 280, 281, 292, 373, 374, 376, 886–887, 999, 1091–1092, 1222–1227; Ex. 9, 42)

30. Due to the similarity in the dietary use of flour, corn meals of various types, and grits, and also in view of the understanding consumers have acquired with respect to the term "enriched" by reason of the program of consumer education carried out in connection with enriched flour and enriched bread, enriched corn meals and enriched grits should supply the amounts of thiamine, niacin, riboflavin, and iron now furnished by enriched flour; that is, thiamine not less than 2.0 mg. per pound, riboflavin, not less than 1.2 mg. per pound, niacin, not less than 16.0 mg. per pound, and iron, not less than 13.0 mg. per pound. If some of these nutrients are not included in enriched corn meals and enriched grits, or if they are added in lesser amounts than prescribed by the definition and standard of identity for enriched flour, consumers are likely to be confused and deceived as to the nutritive value of the enriched corn products. Maximum limits are also needed to prevent unreasonably large additions of these nutrients which may give rise to confusion as to the relative value of different "enriched" corn products and may result in merchandizing claims that are not warranted by the facts. Maximum limits 50 percent more than the minimum will accomplish this and are reasonable for this purpose, except in the case of iron. Here the maximum should be twice the minimum. (R. 43, 46, 47, 48, 60, 63, 64, 68, 69, 70, 71, 72, 73, 76, 82, 83, 84, 265, 271, 281, 381; Ex. 4, 5, 9)

31. In enriching corn meals and grits it is customary to add the enriching ingredients to each of the different types of corn meals and grits described in findings 4, 5, 6, and 12. The enriched foods vary from each other in their physical character and in eating quality in the same way as do the basic foods before enrichment. To distinguish properly between the different types each should be designated by its common name to which is added the word "Enriched". R. 65, 70, 232, 567; Ex. 9)

32. Grits are often washed before cooking and the wash water discarded, thus causing a substantial loss of water-soluble substances present. If the water-soluble vitamins and water-soluble salts of iron are added only in amounts necessary to meet the minimum requirement of the standard for enriched grits, without precautions against loss in rinsing, the food will lose a considerable portion of these nutrients before consumption. It is possible to add the required nutrients in ways that will partially protect them from loss by solution in rinsing water. Loss to the consumer can be prevented by the addition of the water-soluble nutrients in excess of the minimum requirements or by use of assimilable water-insoluble forms of the nutrients. For consumer protection it is reasonable to require that enriched grits contain after washing in a prescribed manner which simulates the washing practiced in the home, not less than 85 percent of the minimum amounts of thiamine, riboflavin, niacin and iron prescribed by the standard for enriched grits. The 15 percent loss is the approximate loss of niacin, the vitamin most susceptible to rinsing loss, from unenriched grits upon washing. (R. 72, 77, 129, 159, 188, 417, 418, 419, 421, 422, 920–929, 937–940; Ex. 9, 18, 19, 43)

33. A satisfactory method for testing grits after a preliminary washing, which simulates household washing, is as follows:

Transfer 100 grams of enriched grits to a 2-liter Erlenmeyer flask containing 1 liter of water at 25° C. Stopper the flask and rotate it for ½ minute so that the grits are kept in motion. Allow the grits to settle for ½ minute, then pour off 850 cc of the water along with any floating or suspended matter. Determine thiamine, riboflavin, niacin and iron in the wet grits and water remaining in the flask. Calculate as mg. per pound of the grits before rinsing. (R. 436, 1116; Ex. 18, 19, 46, 55)

34. The bulk of the vitamins and iron added to corn meals, bolted corn meals, degerminated corn meals, and grits, is so small that it is necessary to use a carrier to insure their intimate and uniform distribution. The vitamins are added in pure synthetic form. Iron is added as metallic iron reduced to a fine powder or as assimilable salts of iron. Many harmless substances which will not impair these foods are available for use as carriers. The amount of carrier added should not be more than necessary to insure a uniform distribution of the vitamins and iron. Dried yeast in amounts not exceeding 1.5 percent is suitable for the purpose and it also imparts small amounts of additional nutrients. (R. 119, 121, 122, 331, 332, 334, 348, 368, 369, 371, 386, 387, 388, 389, 390, 567; Ex. 9)

35. Vitamin D and harmless compounds of calcium are optional ingredients of enriched flour. Due to the similarity in dietary use between enriched flour and the various enriched corn meals and enriched grits, it is reasonable to include vitamin D and calcium as optional ingredients in enriched corn meals, enriched bolted corn meals, enriched degerminated corn meals, and enriched grits, under the same conditions prescribed for optional use of these ingredients in the definition and standard of identity for enriched flour. (R. 76, 77; Ex. 5, 9)

36. Foods known as self-rising corn meals are manufactured and sold in limited amounts. They are prepared by adding leavening agents to a corn meal, bolted corn meal, or degerminated corn meal. Self-rising corn meals may be enriched in the same manner as corn meals. There is insufficient evidence on which to formulate definitions and standards of identity for self-rising corn meals or enriched self-rising corn meals. (R. 1012, 1118, 1149, 1150, 1151, 1152, 1153, 1187, 1188)

Conclusion. On the basis of the evidence of record and the foregoing findings of fact, it is concluded that the following regulations fixing and establishing reasonable definitions and standards of identity for white corn meal, yellow corn meal, bolted white corn meal, bolted yellow corn meal, degerminated white corn meal, degermed white corn meal, degerminated yellow corn meal, degermed yellow corn meal, white corn flour, yellow corn flour, grits, corn grits, hominy grits, yellow grits, yellow corn grits, yellow hominy grits, enriched corn meals, and enriched corn grits will promote honesty and fair dealing in the interest of consumers.

It is ordered, That there be established definitions and standards of identity as follows:

§ 15.500 *White corn meal; identity.* (a) White corn meal is the food prepared by so grinding cleaned white corn that when tested by the method prescribed in paragraph (b) (2) of this section not less than 95 percent passes through a No. 12 sieve, not less than 45 percent through a No. 25 sieve, but not more than 35 percent through a No. 72 grits gauze. Its moisture content is not more than 15 percent. In its preparation coarse particles of the ground corn may be separated and discarded, or reground and recombined with all or part of the material from which they were separated, but in any such case the crude fiber content of the finished corn meal is not less than 1.2 percent and not more than that of the cleaned corn from which it was ground, and its fat content does not differ more than 0.3 percent from that of such corn. The contents of crude fiber and fat in all the foregoing provisions relating thereto are on a moisture-free basis.

(b) (1) For the purposes of this section moisture is determined by the method prescribed in "Official and Tentative Methods of Analysis of the Association of Official Agricultural Chemists", 6th edition, page 259, sections 20.70 and 20.71; fat is determined by the method prescribed on pages 259 and 260, sections 20.70 and 20.73; and crude fiber determined by the method prescribed on pages 259 and 360, sections 20.70 and 20.74.

(2) The method referred to in paragraph (a) of this section is as follows:

Use No. 12 and No. 25 sieves, having standard 8-inch diameter, full height frames, complying with the specifications for wire cloth and sieve frames in "Standard Specifications for Sieves", published March 1, 1940 in L. C. 584 of the Bureau of Standards, U. S. Department of Commerce. A sieve with frame of the same dimensions as the Nos. 12 and 25 and fitted with 72 XXX grits gauze is used as the third sieve. It is referred to hereafter as the No. 72 sieve. The 72 XXX grits gauze has openings equivalent in size with those of No. 70 woven wire cloth, complying with specifications for such cloth contained in such "Standard Specifications for Sieves". Attach bottom pan to No. 72 sieve. Fit the No. 25 sieve into the No. 72 sieve and the No. 12 sieve into the No. 25 sieve. Pour 100 grams of sample into the No. 12 sieve, attach cover and hold the assembly in a slightly inclined position and shake the assembly of sieves by striking the sides against one hand with an upward stroke, at the rate of about 150 times per minute. Turn the assembly of sieves about ⅙ of a revolution, each time in the same direction, after each 25 strokes. Continue shaking for 2 minutes. Weigh separately the material remaining on each sieve and in the pan, and calculate each weight as percent of sample. Sometimes when meals are tested, fine particles clog the sieve openings. If any sieve is clogged by fine material smaller than its openings, empty the contents onto a piece of paper. Remove the entrapped material on the bottom of the sieve by a hair brush and add to the sieve below. In like manner, clean the adhering material from inside the sieve and add to the material on the paper. Return mixture to the sieve, reassemble the sieves, and shake in the same manner as before for 1 minute. Repeat cleaning procedure if necessary until a 5 gram or less loss in weight occurs in any sieve during a 1 minute shaking. The percent of sample passing through No. 12 sieve shall be determined by subtracting from 100 percent of material remaining on the No. 12 sieve. The percent passing through a No. 25 sieve shall be determined by adding the percents remaining on the No. 72 sieve and the percent in pan. The percent in the pan shall be considered as the percent passing through a No. 72 XXX grits gauze.

§ 15.501 *Yellow corn meal; identity.* Yellow corn meal conforms to the definition and standard of identity prescribed by § 15.500 for white corn meal except that cleaned yellow corn is used instead of cleaned white corn.

§ 15.502 *Bolted white corn meal; identity.* (a) Bolted white corn meal is the food prepared by so grinding and sifting cleaned white corn that:

(1) Its crude fiber content is less than 1.2 percent but its fat content is not less than 2.25 percent, and

(2) When tested by the method prescribed in § 15.500 (b) (2), except that a No. 20 standard sieve is used instead of the No. 12 sieve, not less than 95 percent passes through a No. 20 sieve, not less than 45 percent through a No. 25 sieve, but not more than 25 percent through No. 72 grits gauze. Its moisture content is not more than 15 percent. In its preparation particles of ground corn which contain germ may be separated, reground, and recombined with all or part of the material from which it was separated, but in any such case the fat content of the finished bolted white corn meal does not exceed by more than 0.3 percent the fat content of the cleaned corn from which it was ground. The contents of crude fiber and fat in all the foregoing provisions relating thereto are on a moisture-free basis.

(b) For the purposes of this section moisture, fat and crude fiber are determined by the methods therefor referred to in § 15.500 (b) (1).

§ 15.503 *Bolted yellow corn meal; identity.* Bolted yellow corn meal conforms to the definition and standard of identity prescribed by § 15.502 for bolted white corn meal except that cleaned yellow corn is used instead of cleaned white corn.

§ 15.504 *Degerminated white corn meal, degermed white corn meal; identity.* (a) Degerminated white corn meal, degermed white corn meal, is the food prepared by grinding cleaned white corn and removing bran and germ so that:

(1) On a moisture-free basis, its crude fiber content is less than 1.2 percent and its fat content is less than 2.25 percent; and

(2) When tested by the method prescribed in § 15.500 (b) (2), except that a No. 12 sieve, not less than 95 percent passes through a No. 20 sieve, not less than 45 percent through a No. 25 sieve, but not more than 25 percent through No. 72 XXX grits gauze.

Its moisture content is not more than 15 percent.

(b) For the purposes of this section moisture, fat and crude fiber are determined by methods therefor referred to in § 15.500 (b) (1).

§ 15.505 *Degerminated yellow corn meal, degermed yellow corn meal; identity.* Degerminated yellow corn meal conforms to the definition and standard of identity prescribed by § 15.504 for degerminated white corn meal except that cleaned yellow corn is used instead of cleaned white corn.

§ 15.506 *White corn flour; identity.* (a) White corn flour is the food prepared by so grinding and bolting cleaned white corn that when tested by the method prescribed in paragraph (b) (2) of this section not less than 98 percent passes through a No. 50 sieve and not less than 50 percent passes through No. 70 woven wire cloth. Its moisture content is not more than 15 percent. In its preparation part of the ground corn may be removed, but in any such case, the content (on a moisture-free basis) of neither the crude fiber nor fat in the finished white corn flour exceeds the content (on a moisture-free basis) of such substance in the cleaned corn from which it was ground.

(b) (1) For the purpose of this section, moisture, fat and crude fiber are determined by methods therefor referred to in § 15.500 (b) (1).

(2) The methods referred to in paragraph (a) of this section are as follows:

Weigh 5 grams of sample into a tared truncated metal cone (top diameter 5 centimeters, bottom diameter 2 centimeters, height 4 centimeters), fitted at bottom with 70-mesh wire cloth complying with the specifications for No. 70 wire cloth in "Standard Specifications for Sieves", published March 1, 1940 in L. C. 584 of the Bureau of Standards, U. S. Department of Commerce. Attach cone to a suction flask. Wash with 150 ml of petroleum ether applied in a small stream without suction, while gently stirring the sample with a small glass rod. Apply suction for 2 minutes after washing is completed, then shake the cone for 2 minutes with a vigorous horizontal motion, striking the side against the hand, and then weigh. The decrease in weight of sample, calculated as percent by weight of sample shall be considered the percent passing through No. 70 wire cloth. Transfer the residue from cone to a No. 50 sieve having a standard 8-inch diameter full height frame, complying with the specifications for wire cloth and sieve frame in said "Standard Specifications for Sieves". Shake for 2 minutes with a vigorous horizontal motion, striking the side against the hand; remove and weigh the residue; calculate the weight of residue as percent by weight of sample, and subtract from 100 percent to obtain the percent of sample passing through the No. 50 sieve.

§ 15.507 *Yellow corn flour; identity.* Yellow corn conforms to the definition and standard of identity prescribed by § 15.506 for white corn flour except that cleaned yellow corn is used instead of cleaned white corn.

§ 15.508 *Grits, corn grits, hominy grits; identity.* (a) Grits, corn grits, hominy grits, is the food prepared by so grinding and sifting cleaned white corn, with removal of corn bran and germ, that:

(1) On a moisture-free basis its crude fiber content is not more than 1.2 percent and its fat content is not more than 2.25 percent; and

(2) When tested by the method prescribed in paragraph (b) (2) of this section not less than 95 percent passes through a No. 10 sieve but not more than 20 percent through a No. 25 sieve.

(b) (1) For the purposes of this section moisture, fat and crude fiber are determined by methods therefor referred to in § 15.500 (b) (1).

(2) The method referred to in paragraph (a) of this section is as follows:

Use No. 10 and No. 25 sieves, having standard 8-inch diameter full height frames, complying with the specifications for wire cloth and sieve frames in "Standard Specifications for Sieves", published March 1, 1940 in L. C. 584 of the Bureau of Standards, U. S. Department of Commerce. Attach bottom pan to No. 25 sieve. Fit the No. 10 sieve into the No. 25 sieve. Pour 100 grams of sample into the No. 10 sieve, attach cover and hold assembly in a slightly inclined position, shake the sieves by striking the sides against one hand with an upward stroke, at the rate of about 150 times per minute. Turn the sieves about ⅙ of a revolution each time in the same direction after each 25 strokes. Continue shaking for 2 minutes. Weigh separately the material remaining on the No. 10 sieve and in the pan, and calculate each weight as percent of sample. The percent of sample passing through a No. 10 sieve shall be determined by subtracting from 100 percent, the percent remaining on the No. 10 sieve. The percent of material in the pan shall be considered as the percent passing through a No. 25 sieve.

§ 15.509 *Yellow grits, yellow corn grits, yellow hominy grits; identity.* Yellow grits, yellow corn grits, yellow hominy grits, conforms to the definition and standard of identity prescribed by § 15.508 for grits except that cleaned yellow corn is used instead of cleaned white corn.

§ 15.510 *Enriched corn meals; identity.* (a) Enriched corn meals are the foods, each of which conforms to the definition and standard prescribed for a kind of corn meal by §§ 15.500 to 15.505, inclusive, except that:

(1) It contains in each pound not less than 2.0 mg and not more than 3.0 mg of thiamine, not less than 1.2 mg and not

more than 1.8 mg of riboflavin, not less than 16 mg and not more than 24 mg of niacin or niacin amide, and not less than 13 mg and not more than 26 mg of iron (Fe):

(2) It may contain in each pound not less than 250 U. S. P. units and not more than 1,000 U. S. P. units of vitamin D; and

(3) It may contain in each pound not less than 500 mg and not more than 750 mg of calcium (Ca).

Iron and calcium may be added only in forms which are harmless and assimilable. The substances referred to in subparagraphs (1), (2) and (3) of this paragraph may be added in a harmless carrier which does not impair the enriched corn meal; such carrier is used only in the quantity necessary to effect an intimate and uniform admixture of such substances with the kind of corn meal used. Dried yeast in quantities not exceeding 1.5 percent by weight of the finished food may be used.

(b) The name of each kind of enriched corn meal is the word "Enriched" followed by the name of the kind of corn meal used which is prescribed in the definition and standard of identity therefor.

§ 15.511 *Enriched corn grits, identity.* (a) Enriched corn grits are the foods, each of which conforms to the definition and standard of identity prescribed for grits and yellow grits by §§ 15.508 and 15.509, except that:

(1) It contains in each pound not less than 2.0 mg and not more than 3.0 mg of thiamine, not less than 1.2 mg and not more than 1.8 mg of riboflavin, not less than 16 mg and not more than 24 mg of niacin or niacin amide, not less than 13 mg and not more than 26 mg of iron (Fe);

(2) It may contain in each pound not less than 250 U. S. P. units and not more than 1,000 U. S. P. units of vitamin D; and

(3) It may contain in each pound not less than 500 mg and not more than 750 mg of calcium (Ca).

Iron and calcium may be added only in forms which are harmless and assimilable. The vitamins referred to in subparagraph (1) of this paragraph may be combined with harmless substances to render them insoluble in water if the water-insoluble products are assimilable. The substances referred to in subparagrap (1), (2), and (3) of this paragraph may be added in a harmless carrier; such carrier is used only in the quantity necessary to effect an intimate and uniform admixture of such substances with the kind of corn grits used. Dried yeast in quantities not exceeding 1.5 percent by weight of the finished food may be used. When the finished food is tested by the method prescribed in paragraph (c) of this section it complies with the requirements set forth therein.

(b) The name of each kind or enriched corn grits is the word "Enriched" followed by the name of the kind of corn grits used which is prescribed in the definition and standard therefor.

(c) The method referred to in paragraph (a) of this section is as follows:

Transfer 100 grams of enriched grits to a 2 liter Erlenmeyer flask containing 1 liter of water at 25° C. Stopper the flask and rotate it for exactly ½ minute so that the grits are kept in motion. Allow the grits to settle for ½ minute, then pour off 850 cc of the water along with any floating or suspended matter. Determine thiamine, riboflavin, niacin and iron in the wet grits and water remaining in the flask. Calculate as mg per pound of the grits before rinsing. The amounts found by this procedure are not less than 85 percent of the minimum amounts of thiamine, riboflavin, niacin and iron prescribed by the standard for enriched grits.

Any interested person whose appearance was filed at the hearing may, within 20 days from the date of publication of this tentative order in the FEDERAL REGISTER, file with the Hearing Clerk of the Federal Security Agency, Office of the General Counsel, 3257, Social Security Building, 4th Street and Independence Avenue SW., Washington, D. C., written exceptions thereto. Exceptions shall point out with particularity the alleged errors in the tentative order, and shall contain specific references to the pages of the transcript of the testimony or to the exhibits on which each exception is based. Such exceptions may be accompanied with a memorandum or brief in support thereof. Exceptions and accompanying memoranda or briefs should be submitted in quintuplicate.

NOTICES

CIVIL AERONAUTICS BOARD

[Docket 2674]

BRITISH OVERSEAS AIRWAYS CORP.

NOTICE OF POSTPONEMENT OF HEARING

In the matter of application for authority to use MacArthur Field, Islip, Long Island, as a coterminal or alternate terminal with LaGuardia Airport, New York, insofar as transatlantic landplane operations are concerned.

Notice is hereby given that the hearing in the above-mentioned proceeding, now assigned to be heard January 7, 1947, is postponed to January 21, 1947, at 10 a. m. (eastern standard time) in Room 1508 Commerce Building, Washington, D. C., before Examiner James S. Keith.

Dated at Washington, D. C., December 30, 1946.

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN, *Secretary.*

[F. R. Doc. 47-50; Filed, Jan. 3, 1947; 8:48 a. m.]

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 6862, 8005, 7810, 7809]

RED RIVER VALLEY BROADCASTING CORP., ET AL.

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Red River Valley Broadcasting Corp. (KRRV), Sherman, Texas, Docket No. 6862, File No. B3-P-4105; The Kjan Broadcasting Co., Inc., Opelousas, Louisiana, Docket No. 8005, File No. B3-P-5143; Miami Broadcasting Company, Miami, Oklahoma, Docket No. 7810, File No. B3-P- 4987; Northeast Oklahoma Broadcasting Company, Miami, Oklahoma, Docket No. 7809, File No. B3-P-4930; for construction permits.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 17th day of December 1946;

The Commission having under consideration the above-entitled application of Red River Valley Broadcasting Corp. (KRRV),[1] requesting a construction permit to increase power of Station KRRV, at Sherman, Texas, to 5 kw, install new transmitter, change transmitter site and install a new directional antenna, and also having under consideration the application of The KJAN Broadcasting Co., Inc., for a construction permit for a new standard broadcast station to operate on 910 kc, 1 kw power, unlimited time, directional antenna nighttime, at Opelousas, Louisiana; and

It appearing, that the Commission, on August 29, 1946, designated for hearing the application of Miami Broadcasting Company (File No. B3-P-4987, Docket No. 7810), requesting a construction permit for a new standard broadcast station to operate on 910 kc, 1 kw power, unlimited time, DA-2, at Miami, Oklahoma, in a consolidated proceeding with the application of Northeast Oklahoma Broadcasting Company (File No. B3-P-4930, Docket No. 7809), requesting a construction permit for a new standard broadcast station to operate on 900 kc, 250 w power, daytime only, at Miami, Oklahoma, for which hearing no date has been set;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application of Red River Valley Broadcasting Corp. (KRRV) be, and it is hereby, designated for hearing in the above-consolidated proceeding, at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the technical, financial, and other qualifications of the applicant corporation, its officers, directors and stockholders, to construct and operate Station KRRV as proposed.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of Station KRRV as proposed and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of Station KRRV as proposed would involve objectionable interference with any existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of Station KRRV as proposed would involve objectionable interference with the services proposed in the pending applications of The KJAN Broadcasting Co., Inc. (File No. B3-P-5143), and Miami Broadcasting Company (File No. B3-P-4987, Docket No. 7810), or in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of Station KRRV as proposed would be in compliance with the Commission's rules and Standards of Good Engineering Practice concerning standard broadcast stations.

7. To determine whether the operation of Station KRRV as proposed would involve objectionable interference with Station CMCF, Havana, Cuba, or with any other foreign standard broadcast station, in violation of the terms of the North American Regional Broadcasting Agreement.

8. To determine on a comparative basis which, if any, of the applications in this consolidated proceeding should be granted.

It is further ordered, That the orders of the Commission dated August 29, 1946, designating the said application of Miami Broadcasting Company for hearing in a consolidated proceeding with the said application of Northeast Oklahoma Broadcasting Company, be, and it is hereby, amended to include the said application of Red River Valley Broadcasting Co. (KRRV).

By the Commission.

LOUISIANA BROADCASTING CO. ET AL.

ORDER DESIGNATING APPLICATIONS AND PETITION, IN PART, FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Roy Hofheinz and W. N. Hooper, d/b as Louisiana Broadcasting Company, New Orleans, Louisiana, Docket No. 7162, File No. B3-P-4260; Bayou Broadcasting Company, Incorporated, Baton Rouge, Louisiana, Docket No. 7991, File No. B3-P-5453; Patroon Broadcasting Company, Inc., Albany, New York, Docket No. 7992, File No. B1-P-4611; Texhoma Broadcasting Company, Durant, Oklahoma, Docket No. 7993, File No. B3-P-5112; East-West Broadcasting Company, a partnership composed of John C. Griffith, James H. Lawson, Jr., James G. Ulmer, James G. Ulmer, Jr., M. Ward Bailey and T. S. Christopher, Fort Worth, Texas; Docket No. 7994, File No. B3-P-4524; Western Waves, Inc., Seattle, Washington, Docket No. 7995, File No. B5-P-5060; for construction permits; and petition of Josh Higgins Broadcasting Company (KXEL), Waterloo, Iowa, for continuation of exclusive nighttime assignment on 1540 kc to Station KXEL, Docket No. 7996.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 5th day of December 1946;

The Commission having under consideration the above entitled applications for construction permits for new standard broadcast stations to operate unlimited time on the frequency 1540 kc, as follows: Louisiana Broadcasting Company, with 50 kw power, using directional antenna, at New Orleans, Louisiana; Bayou Broadcasting Company, Inc., with 250 watts at Baton Rouge, Louisiana; Patroon Broadcasting Company, Inc., with 10 kw, using directional antenna, at Albany, New York; Texhoma Broadcasting Company, with 250 watts at Durant, Oklahoma; East-West Broadcasting Company, with 10 kw at Fort Worth, Texas; and Western Waves, Inc., with 50 kw, using directional antenna, at Seattle, Washington; and the Commission also having under consideration the above entitled petition of Josh Higgins Broadcasting Company (KXEL) requesting that:

(1) The frequency 1540 kc be considered as unavailable for assignment for additional nighttime operations in the United States (KXEL now operates on 1540 kc with 50 kw, unlimited time using directional antenna at night, at Waterloo, Iowa) until the Government of the Bahama Islands has irrevocably and definitely determined to use 1540 kc;

(2) The frequency 1540 kc be classified when and to the extent possible in view of its non-use or partial use in the Bahamas, as assignable in the United States with Class I-A privileges; and

(3) The skywave as well as the ground wave service of KXEL, in any case, be accorded protection equivalent to that enjoyed by a Class I-B station or to the extent of its interference free service areas; and

Whereas, on August 27, 1946, the Commission was duly notified that the British Government had accepted the frequency 1540 kc for the operation of a Class I-B station (ZNS) at Nassau, Bahamas, and the Commission, on October 10, 1946, having amended § 3.25 (e) of its rules pursuant thereto; and

It appearing, that the foregoing matters involve common issues concerning the use of the frequency 1540 kc for nighttime operation in the United States, and the manner in which allocation of stations on that frequency would best serve the public interest and contribute to an equitable distribution of facilities in accordance with the provisions of section 307 (b) of the Communications Act of 1934, as amended;

It is ordered, That the said petition of Josh Higgins Broadcasting Company, insofar as the relief requested therein is contingent on the non-use of the 1540 kc channel by a Class I-A station in the Bahamas, be, and it is hereby, denied.

It is further ordered, That the said petition of Josh Higgins Broadcasting Company, insofar as it requests protection for Station KXEL to the extent of its interference free areas, and the said above entitled applications be, and they are hereby, designated for hearing in a consolidated proceeding, at a time and place to be determined by subsequent order of the Commission, upon the following issues:

1. To determine the legal, technical, financial and other qualifications of the applicants, their partners or their officers, directors and stockholders to construct and operate their proposed stations.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the various proposed stations and the character of other broadcast service available to those areas and populations.

3. To determine the extent of Station KXEL's present interference free service areas, the nature and extent of the primary interference free service that it renders beyond its normally protected contours, the character of its program service to those areas, the populations involved and the character of other broadcast service available thereto and whether, and to what extent, such service should receive protection.

4. To determine the type and character of the program service proposed to be rendered by each of the applicants and whether it would meet the requirements of the populations and areas proposed to be served.

5. To determine whether any of the proposed operations would involve objectionable interference with any existing broadcast station, including the present interference free service area of Station KXEL, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations; or would involve objectionable interference with broadcast service authorized in a foreign country pursuant to the provisions of international agreements to which the United States is a party.

6. To determine whether any one of the proposed operations would involve objectionable interference with the services proposed in any or all of the other applications in this consolidated proceeding or in any other pending applications for broadcast facilities, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

7. To determine whether the installation and operation of the various proposed stations would be in compliance with the Commission's rules and standards of Good Engineering Practice concerning standard broadcast stations.

8. To determine what allocation of stations on the frequency 1540 kc would best serve the public interest and best contribute to an equitable distribution of facilities in accordance with section 307 (b) of the Communications Act of 1934, as amended, and § 3.25 (e) of the Commission's rules.

9. To determine all the facts and circumstances concerning and leading up to the filing of the application of Bayou Broadcasting Company, Incorporated (Docket No. 7991), and more particularly to determine the intent, purpose and good faith of the applicant in filing the said application.

10. To determine which, if any, of the applications in this consolidated proceeding should be granted.

By the Commission.

[Docket No. 6900]

TIMES PUBLISHING CO.

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re application of Times Publishing Company, Erie, Pennsylvania, for construction permit; Docket No. 6900, File No. B2-P-3773.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 17th day of December 1946;

The Commission having under consideration the above-entitled application requesting a construction permit for a new standard broadcast station to operate on 1400 kc, 250 w, unlimited time, at Erie, Pennsylvania;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application be, and it is hereby, designated for hearing in a consolidated proceeding with the application of Thomas Phillips, Jr., William M. Schuster, Conrad Elfenbein, Francis Schuster, and Sylvia Galinsky, a partnership, d/b as Erie Broadcasting Company (File No. B2-P-5469), requesting a construction permit for a new standard broadcast station to operate on 1400 kc, 250 w, unlimited time, at Erie, Pennsylvania, at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant corporation, its officers, directors and stockholders, to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to gain primary service from the operation of the proposed station and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed station would involve objectionable interference with any existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed station would involve objectionable interference with the services proposed in any pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice concerning standard broadcast stations.

7. To determine on a comparative basis which, if either, of the applications in this consolidated proceeding should be granted.

By the Commission.

EUGENE BROADCASTERS, INC.

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re application of Eugene Broadcasters, Inc., Eugene, Oregon, for construction permit; Docket No. 7484, File No. B5-P-4259.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 17th day of December 1946;

The Commission having under consideration the above-entitled application, requesting a construction permit for a new standard broadcast station to operate on 1280 kc, 1 kw, unlimited time, using a directional antenna;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application be, and it is hereby, designated for hearing in a consolidated proceeding with the application of Violet G. Hill Motter and Violet G. Hill Motter, Administratrix of the Estate of Frank L. Hill, deceased, d/b as Eugene Broadcast Station (KORE), requesting a construction permit to change the frequency, power and operating time of Station KORE at Eugene, Oregon, from 1450 kc, 250 w, unlimited time, to 1230 kc, 1 kw, daytime only (File No. B5-P-5470), at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant corporation, its officers, directors and stockholders, to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to gain primary service from the operation of the proposed station and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed station would involve objectionable interference with any existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed station would involve objectionable interference with the services proposed in any pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice concerning standard broadcast stations.

7. To determine on a comparative basis which, if either, of the applications in this consolidated proceeding should be granted.

By the Commission.

[Docket Nos. 7557 and 7692]

EAU CLAIRE-CHIPPEWA BROADCASTING CO. AND WBIZ, INC.

ORDER ENLARGING ISSUES

In re applications of A. W. Langill, B. J. Colbert, and I. E. Rasmus, Co-Partners, d/b as Eau Claire-Chippewa Broadcasting Company, Chippewa Falls, Wisconsin, Docket No. 7557, File No. B4-P-4619; WBIZ, Inc., Eau Claire, Wisconsin, Docket No. 7692, File No. B4-P-4692; for construction permits.

The Commission having under consideration a petition filed December 5, 1946 by WBIZ, Inc., Eau Claire, Wisconsin, requesting that the issues in the consolidated proceeding upon its application for construction permit (File No. B4-P-4692, Docket No. 7692) and the application of Eau Claire-Chippewa Broadcasting Company, Chippewa Falls, Wisconsin (File No. B4-P-4619, Docket No. 7557) be enlarged to include the following issue:

To determine whether the operation of a proposed station in Chippewa Falls, Wisconsin, on 1340 kc, operating with power of 250 watts, unlimited time, would involve objectionable interference with any existing or proposed broadcast services and, if so, the nature and extent thereof, and the availability of other broadcast service to such areas and populations

and that the further hearing upon the engineering aspects of the instant proceeding, which is presently scheduled for December 16, 1946 at Washington, D. C., be continued for 30 days;

It is ordered, This 13th day of December 1946, that the petition be, and it is hereby, granted; the issues in the above-entitled proceeding be, and they are hereby, enlarged to include the following issue:

To determine whether the operation of a proposed station in Chippewa Falls, Wisconsin, on 1340 kc, operating with power of 250 watts, unlimited time, would involve objectionable interference with any existing or proposed broadcast services and, if so, the nature and extent thereof, and the availability of other broadcast service to such areas and populations.

and the further hearing in the above-entitled proceeding be, and it is hereby continued to 10:00 o'clock a. m. Wednesday, January 15, 1947 at Washington, D. C.

By the Commission.

ASHBACKER RADIO CORP. AND MANISTEE RADIO CORP.

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Ashbacker Radio Corporation, Manistee, Michigan, Docket No. 8003, File No. B2-P-5191; Manistee Radio Corporation, Manistee, Michigan, Docket No. 8004, File No. B2-P-5433; for construction permits.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 17th day of December, 1946;

The Commission having under consideration the above-entitled applications requesting a construction permit for a new standard broadcast station to operate on 1340 kc, 250 w power, unlimited time, at Manistee, Michigan;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said applications be, and they are hereby, designated for hearing in a consolidated proceeding at a time and place to be designated by subsequent order of the Commission, each upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant corporation, its officers, directors and stockholders to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to gain primary service from the operation of the proposed station and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed station would involve objectionable interference with any existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed station would involve objectionable interference with the services proposed in any pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice concerning standard broadcast stations.

7. To determine on a comparative basis which, if either, of the applications in this consolidated proceeding should be granted.

It is further ordered, That, with respect to the application of Ashbacker Radio Corporation (File No. B2-P-5191), it be heard on the following additional issue:

8. To determine the overlap, if any, that will exist between the service areas of the proposed station and of station WKLA at Ludington, Michigan, the nature and extent thereof, and whether such overlap, if any, is in contravention of § 3.35 of the Commission's rules.

By the Commission.

[Docket No. 7808]

ONEONTA STAR, INC.

ORDER MODIFYING ISSUES

In re application of Oneonta Star, Inc., Oneonta, N. Y., for construction permit; Docket No. 7808, File No. B1-P-5114.

The Commission having under consideration a petition filed November 18, 1946 by Oneonta Star, Inc., Oneonta, New York, requesting the Commission to modify the issues in the proceeding upon its application for construction permit (File No. B1-P-5114, Docket No. 7808) so as to strike the issues relative to the legal and financial qualifications of the applicant and to the type and character of program service proposed; and to set an early hearing date upon the said application;

It appearing, that since the filing of the instant petition, the Commission has scheduled the above-entitled application for hearing on March 6, 1947; that this date is in accord with the priority of the filing of the application; and that in the circumstances the petition insofar as it requests an early hearing date is moot;

It is ordered, This 13th day of December 1946, that insofar as the petition requests modification of the issues, the petition be, and it is hereby granted; the issues in the above-entitled proceeding be, and they are hereby, modified so as to read as follows:

1. To determine the technical qualifications of the applicant to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to gain primary service from the operation of the proposed station and the character of other broadcast service available to those areas and populations.

3. To determine whether the operation of the proposed station would involve objectionable interference with Station WABY at Albany, New York, or with any other existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

4. To determine whether the operation of the proposed station would involve objectionable interference with the services proposed in any pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice concerning standard broadcast stations.

and, insofar as the petition requests an early hearing date, the petition be, and it is hereby, dismissed, as moot.

By the Commission.

LAKE WORTH BROADCASTING CORP., INC.

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of Lake Worth Broadcasting Corp., Inc., Lake Worth, Florida, for construction permit; Docket No. 7989, File No. B3-P-5455.

At a session of the Federal Communications Commission, held at its offices in

Washington, D. C., on the 5th day of December 1946;

The Commission having under consideration the above-entitled application requesting construction permit for a new standard broadcast station to operate on 1459 kc, with 250 w power, unlimited time, at Lake Worth, Florida;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application be, and it is hereby, designated for hearing, at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant corporation, its officers, directors and stockholders, to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to gain primary service from the operation of the proposed station and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed station would involve objectionable interference with any existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed station would involve objectionable interference with the services proposed in the pending applications of Everglades Broadcasting Corporation (File No. B3–P–4258; Docket No. 7076) and Paul Brake (File No. B3–P–4282; Docket No. 7077), or in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice concerning standard broadcast stations.

KJAN BROADCASTING CO., INC., ET AL.

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of the KJAN Broadcasting Co., Inc., Opelousas, Louisiana, Docket No. 8005, File No. B3–P–5143; Red River Valley Broadcasting Corp. (KRRV), Sherman, Texas, Docket No. 6862, File No. B3–P–4105; Miami Broadcasting Company, Miami, Oklahoma, Docket No. 7810, File No. B3–P–4987; Northeast Oklahoma Broadcasting Company, Miami, Oklahoma, Docket No. 7809, File No. B3–P–4930; for construction permits.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 17th day of December, 1946;

The Commission having under consideration the above-entitled application of the KJAN Broadcasting Co., Inc., for a construction permit for a new standard broadcast station to operate on 910 kc, 1 kw power, unlimited time, directional antenna nighttime, at Opelousas, Louisiana, and the application of Red River Valley Broadcasting Corp. (KRRV),[1] requesting a construction permit to increase power of Station KRRV, at Sherman, Texas, to 5 kw, install new transmitter, change transmitter site and install a new directional antenna; and

It appearing, that the Commission, on August 29, 1946, designated for hearing the application of Miami Broadcasting Company (File No. B3–P–4987, Docket No. 7810), requesting a construction permit for a new standard broadcast station to operate on 910 kc, 1 kw power, unlimited time, DA–2, at Miami, Oklahoma, in a consolidated proceeding with the application of Northeast Oklahoma Broadcasting Company (File No. B3–P–4930, Docket No. 7809), requesting a construction permit for a new standard broadcast station to operate on 900 kc, 250 w power, daytime only, at Miami, Oklahoma, for which hearing no date has been set;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application of the KJAN Broadcasting Co., Inc., be, and it is hereby, designated for hearing in the above-consolidated proceeding, at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant corporation, its officers, directors and stockholders, to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed station and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed station would involve objectionable interference with any existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed station would involve objectionable interference with the services proposed in the pending applications of Red River Valley Broadcasting Corp. (KRRV) (File No. B3–P–4105, Docket No. 6862) and Miami Broadcasting Company (File No. B3–P–4937), or in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice concerning standard broadcast stations.

7. To determine whether the operation of the proposed station would involve objectionable interference with Station CMCF, Havana, Cuba, or with any other foreign standard broadcast station, in violation of the terms of the North American Regional Broadcasting Agreement.

8. To determine on a comparative basis which, if any, of the applications in this consolidated proceeding should be granted.

It is further ordered, That the orders of the Commission dated August 29, 1946, designating the said application of Miami Broadcasting Company for hearing in a consolidated proceeding with the said application of Northeast Oklahoma Broadcasting Company, be, and it is hereby, amended to include the said application of the KJAN Broadcasting Co., Inc.

POCAHONTAS BROADCASTING CORP. ET AL.

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Pocahontas Broadcasting Corporation, Bluefield, West Virginia, Docket No. 8006, File No. B2–P–5466; G. Lester Hash, N. Joe Rahall, and Fred William Simon, d/b as The Bluefield Broadcasting Company, Bluefield, West Virginia, Docket No. 7823, File No. B2–P–4990; Odes E. Robinson, Bluefield, West Virginia, Docket No. 7824, File No. B2–P–5160; for construction permits.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 17th day of December 1946;

The Commission having under consideration the above-entitled application of Pocahontas Broadcasting Corporation for a construction permit for a new standard broadcast station to operate on 1240 kc, 250 w, unlimited time, at Bluefield, West Virginia; and

It appearing, that the Commission, on September 5, 1946, designated for hearing in a consolidated proceeding the applications of G. Lester Hash, N. Joe Rahall, and Fred William Simon, d/b as The Bluefield Broadcasting Company (File No. B2–P–4990, Docket No. 7823), and Odes E. Robinson (File No. B2–P–5160, Docket No. 7824), both requesting a construction permit for a new standard broadcast station to operate on 1240 kc, 250 w, unlimited time, at Bluefield, West Virginia;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application of Pocahontas Broadcasting Corporation be, and it is hereby, designated for hearing in the above consolidated proceeding, at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant corporation, its officers, directors and stockholders, to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to gain primary service from the operation of the proposed station and the character of other broadcast service available to such areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed station would involve objectionable interference with any existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed station would involve objectionable interference with the services proposed in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice concerning standard broadcast stations.

7. To determine on a comparative basis which, if any, of the applications in this consolidated proceeding should be granted.

It is further ordered, That the orders of the Commission dated September 5, 1946, designating for hearing in a consolidated proceeding the applications of G. Lester Hash, N. Joe Rahall, and Fred William Simon, d/b as The Bluefield Broadcasting Company, and of Odes E. Robinson, be, and they are hereby, amended to include the above-entitled application of Pocahontas Broadcasting Corporation.

By the Commission.

[Docket No. 8008]

EUGENE BROADCASTING STATION (KORE)

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re application of Violet G. Hill Motter and Violet G. Hill Motter, Administratrix of the estate of Frank L. Hill, deceased, d/b as Eugene Broadcast Station (KORE), Eugene, Oregon, for construction permit; Docket No. 8008, File No. B5–P–5470.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 17th day of December 1946;

The Commission having under consideration the above-entitled application for a construction permit to change the frequency, power, and operating time of Station KORE from 1450 kc, 250 w, unlimited time, to 1280 kc, 1 kw, daytime only;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application be, and it is hereby, designated for hearing in a consolidated proceeding with the application of Eugene Broadcasters, Inc. (File No. B5–P–4259, Docket No. 7484), requesting a construction permit for a new standard broadcast station to operate on 1280 kc, 1 kw, unlimited time, using a directional antenna, at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant to construct and operate Station KORE as proposed.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of Station KORE as proposed and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of Station KORE as proposed would involve objectionable interference with any existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of Station KORE as proposed would involve objectionable interference with the services proposed in the pending application of Eugene Broadcasters, Inc. (File No. B5–P–4259, Docket No. 7484), or in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of Station KORE as proposed would be in compliance with the Commission's rules and Standards of Good Engineering Practice concerning standard broadcast stations.

7. To determine the facts and circumstances surrounding the filing of said application and more particularly the purpose and intent of the applicant with respect to such filing and whether, in fact, applicant had legal capacity to file such application.

8. To determine on a comparative basis which, if either, of the applications in this consolidated proceeding should be granted.

By the Commission.

[SEAL] WM. P. MASSING, *Acting Secretary.*

[Docket No. 8009]

ERIE BROADCASTING CO.

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re application of Thomas Phillips, Jr., William M. Schuster, Conrad Elfenbein, Francis Schuster and Sylvia Galinsky, a partnership, d/b as Erie Broadcasting Company, Erie, Pennsylvania, for construction permit; Docket No. 8009, File No. B2–P–5469.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 17th day of December 1946;

The Commission having under consideration the above-entitled application requesting a construction permit for a new standard broadcast station to operate on 1400 kc, 250 w, unlimited time, at Erie, Pennsylvania;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application be, and it is hereby, designated for hearing in a consolidated proceeding with the application of Times Publishing Company (File No. B2–P–3773, Docket No. 6900), requesting a construction permit for a new standard broadcast station to operate on 1400 kc, 250 w, unlimited time, at Erie, Pennsylvania, at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant partnership and the partners to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to gain primary service from the operation of the proposed station and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed station would involve objectionable interference with any existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed station would involve ob-

[1] Presently operating on 910 kc, 1 kw power, unlimited time, using a directional antenna.

jectionable interference with the services proposed in any pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice concerning standard broadcast stations.

7. To determine on a comparative basis which, if either, of the applications in this consolidated proceeding should be granted.

By the Commission.

[Docket Nos. 8013, 7938, 7937]

FRANK ANDREWS ET AL

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Frank Andrews, Modesto, California, Docket No. 8013, File No. B5–P–5465; Western Broadcasting Associates, Modesto, California, Docket No. 7938, File No. B5–P–5336; Contra Costa Broadcasting Company, San Pablo Island, California, Docket No. 7937, File No. B5–P–5106; for construction permits.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 17th day of December 1946;

The Commission having under consideration the above-entitled application of Frank Andrews (File No. B5–P–5465), requesting a construction permit for a new standard broadcast station to operate on 730 kc, 250 w, daytime only, at Modesto, California; and

It appearing, that the Commission, on November 7, 1946, designated for hearing in a consolidated proceeding the applicants of Western Broadcasting Associates (File No. B5–P–5336, Docket No. 7938), requesting a construction permit for a new standard broadcast station to operate on 710 kc, 1 kw, daytime only, at Modesto, California, and Contra Costa Broadcasting Company (File No. B5–P–5106, Docket No. 7937), requesting a construction permit for a new standard broadcast station to operate on 710 kc, 1 kw, daytime only, at San Pablo Island, California;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application of Frank Andrews (File No. B5–P–5465) be, and it is hereby, designated for hearing in the above consolidated proceeding, at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to gain primary service from the operation of the proposed station and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed station would involve objectionable interference with any existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice concerning standard broadcast stations.

7. To determine on a comparative basis which, if any, of the applications in this consolidated proceeding should be granted.

It is further ordered, That the orders of the Commission dated November 7, 1946, designating for hearing in a consolidated proceeding the said applications of Western Broadcasting Associates and Contra Costa Broadcasting Company, be, and they are hereby, amended to include the above-entitled application of Frank Andrews.

By the Commission.

[Docket No. 8014]

ROSCOE L. THOMPSON

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re application of Roscoe L. Thompson, Keokuk, Iowa, for construction permit; Docket No. 8014, File No. B4–P–5365.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 17th day of December 1946;

The Commission having under consideration the above-entitled application for a construction permit for a new standard broadcast station to operate on 1310 kc, 250 w, daytime only, at Keokuk, Iowa;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application be, and it is hereby, designated for hearing in a consolidated proceeding with the application of Keokuk Broadcasting Company (File No. B4–P–5480), requesting a construction permit for a new standard broadcast station to operate on 1310 kc, 250 w, daytime only, at Keokuk, Iowa, at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to gain primary service from the operation of the proposed station and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed station would involve objectionable interference with any existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed station would involve objectionable interference with the services proposed in the pending application of Keokuk Broadcasting Company (File No. B4–P–5480), or in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice concerning standard broadcast stations.

7. To determine on a comparative basis which, if either, of the applications in this consolidated proceeding should be granted.

By the Commission.

[Docket No. 8015]

KEOKUK BROADCASTING CO.

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re application of Keokuk Broadcasting Company, Keokuk, Iowa, for construction permit; Docket No. 8015, File No. B4–P–5480.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 17th day of December 1946;

The Commission having under consideration the above-entitled application,

requesting a construction permit for a new standard broadcast station to operate on 1310 kc, 250 w, daytime only, at Keokuk, Iowa;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application be, and it is hereby, designated for hearing in a consolidated proceeding with the application of Roscoe L. Thompson (File No. B4–P–5365), requesting a construction permit for a new standard broadcast station to operate on 1310 kc, 250 w, daytime only, at Keokuk, Iowa, at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant corporation, its officers, directors and stockholders, to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to gain primary service from the operation of the proposed station and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed station would involve objectionable interference with any existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed station would involve objectionable interference with the services proposed in the pending application of Roscoe L. Thompson (File No. B4–P–5365), or in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice concerning standard broadcast stations.

7. To determine on a comparative basis which, if either, of the applications in this consolidated proceeding should be granted.

By the Commission.

SECURITIES AND EXCHANGE COMMISSION

[File Nos. 59-17, 59-11, 54-25]

UNITED LIGHT AND POWER CO. ET AL.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 30th day of December A. D. 1946.

In the matter of The United Light and Power Company, The United Light and Railways Company, American Light & Traction Company, Continental Gas & Electric Corporation, United American Company, and Iowa-Nebraska Light and Power Company, Respondents, File No. 59–17; The United Light and Power Company and its Subsidiary Companies, Respondents, File No. 59–11; and The United Light and Power Company, Applicant, File No. 54–25: Application 29.

The Commission having, by orders dated November 28, 1945 and November 27, 1946 (Holding Company Act Releases Nos. 6249 and 7027), approved applications and declarations filed by The United Light and Railways Company ("Railways") and its subsidiary, Continental Gas & Electric Corporation ("Continental"), both registered holding companies, regarding, among other things, (1) the issue and sale by Railways to banks of $25,000,000 principal amount of promissory notes, all of which are presently outstanding, and (2) the issue and sale by Continental to banks of $50,000,000 principal amount of promissory notes, the principal amount of which has been reduced to $11,196,700 as of September 30, 1946;

Railways having entered into an agreement with Continental dated November 24, 1945 for the purpose of facilitating the payment of Continental's notes whereby Railways agrees that 50% of the excess of the net cash proceeds received by it upon the liquidation of American Light & Traction Company and from the sale of securities acquired by it upon the liquidation of American Light & Traction Company over the amount required to repay Railways' $25,000,000 bank loan in full shall be used by Railways to purchase additional shares of common stock of Continental at the price of $40 per share;

Continental having agreed, pursuant to its Loan Agreement, to apply to the pro rata prepayment of its 2½% notes, (a) within 120 days after the close of each fiscal year, an amount equal to 50% of its net income (corporate) available for common stock dividends in such fiscal year in excess of $3,500,000: *Provided*, That after the aggregate amount payable upon the 2½% notes at the final maturity date thereof shall have been reduced to $750,000 such amount of $3,500,000 shall be increased to $4,000,000 and (b) any amounts received by Continental from Railways pursuant to the provision of Railways' agreement with Continental described in the preceding paragraph;

Continental having agreed to certain terms regarding its loan, pursuant to the provisions of sections 6.1 (f) (A), 6.1 (g) and the last paragraph of section 6.1 (f) of its Loan Agreement, which provisions refer to items designated "(a)" and "(b)" in the preceding paragraph;

Notice is hereby given that Railways and Continental have filed with this Commission an application and declaration designated as "Application No. 29" pursuant to the provisions of the Public Utility Holding Company Act of 1935 with respect to (1) the issue and sale by Railways to banks of additional promissory notes, (2) the redemption by Railways of its outstanding Prior Preferred Stock, (3) the modification of Continental's Loan Agreement with respect to the notes of Continental hereinabove mentioned, and (4) the modification of the agreement between Railways and Continental referred to above. The applicants have designated sections 6, 7 and 12 of the act and the rules thereunder as applicable to the proposed transactions.

All interested parties are referred to said document which is on file at the offices of the Commission for a statement of the transactions therein proposed which are summarized as follows:

1. Railways proposes to borrow $19,500,000 from banks, the loans to be evidenced by unsecured promissory notes payable in installments aggregating $375,000 on April 1, 1947 and semi-annually thereafter to and including October 1, 1956 and in a final installment of $12,375,000 ten years from the date of issuance. Such notes will bear interest at the rate of 2% per annum on the unpaid portion of the installments due on or before April 1, 1952 and at the rate of 2½% per annum on the unpaid portion of the installments due after April 1, 1952. Railways may prepay such notes ratably in whole or in part at any time without premium unless prepaid as a result or in anticipation of borrowing therefor.

2. Railways proposes to use the proceeds borrowed together with treasury cash to redeem all of its outstanding Prior Preferred Stock consisting of 37,993 shares of 7% First Series, 52 329 shares of 6.36% Series of 1925 and 99,516 shares of 6% Series in 1928 at the redemption price of $105 per share in the case of the 7% and 6.36% Series and at $101 per share in the case of the 6% Series, in each case plus accrued dividends to the date of redemption.

3. Continental proposes, with the consent of each bank which is a party to its Loan Agreement referred to hereinabove, to modify such Loan Agreement by eliminating therefrom the provisions referred to hereinabove.

4. Railways and Continental propose, with the consent of each bank which is a party to Continental's Loan Agreement, to modify the Agreement between Railways and Continental dated as of November 24, 1945 by eliminating therefrom the provisions referred to hereinabove.

The application states that the provisions of Continental's Loan Agreement and of the Agreement between Railways and Continental which are proposed to be eliminated were originally included because, at the time Continental's loan was made, the final installment (due in ten years from the date of the loan) amounted to $15,750,000 and it was deemed necessary to make adequate provision for the payment or reduction of that installment in the event the proceeds received by Continental from the sale of its investment in Columbus and Southern Ohio Electric Company should prove insufficient to pay the $20,000,000

of one year notes issued by Continental under the Loan Agreement and the final installment of $15,750,000 on the ten year 2½% notes. The application further states that upon the sale of Continental's investment in Columbus and Southern Ohio Electric Company for approximately $38,000,000, the $20,000,000 of One Year Notes were paid in full and $18,050,175 was applied on the ten year notes resulting in the payment of the final installment of $15,750,000 in full and in the payment of the last three semi-annual installments of $750,000 each. As a result, it is stated that Continental's loan was reduced from a ten year loan to an eight year loan which is expected to be paid in full in seven years from January 1, 1947, by the fixed semi-annual installments of $750,000 without recourse to other funds. In addition, the application states that Railways and Continental, as well as the banks, are of the opinion that the retention of the provisions referred to is no longer necessary or desirable. Furthermore, the application states that the elimination of the provisions referred to will permit Railways to realize substantial immediate savings by borrowing funds as hereinabove set forth and to apply such savings by borrowing funds as hereinabove set forth and to apply such savings to reduce its senior securities, thus facilitating the simplification and improvement of Railway's capital structure.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held in respect of such matters and that said declaration shall not become effective nor said application be granted except pursuant to further order of the Commission:

It is ordered, That a hearing under the applicable provisions of the act and the rules thereunder be held on the 10th day of January 1947 at 10:00 a. m. e. s. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. On such date the hearing room clerk in Room 318 will advise as to the room in which such hearing will be held. All persons desiring to be heard or otherwise wishing to participate in the proceedings shall notify the Commission in the manner prescribed by Rule XVII of the rules of practice on or before January 8, 1947.

It is further ordered, That Allen MacCullen or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearing in such matter. The officer so designated to preside at the hearing is hereby authorized to exercise all powers granted to the Commission under Section 18 (c) of said act and to a hearing officer under the Commission's rules of practice.

The Public Utilities Division of the Commission having advised the Commission that it has made a preliminary examination of the application and declaration and that, on the basis thereof the following matters and questions are presented for consideration without prejudice to its specifying additional matters or questions upon further examination:

1. Whether the notes proposed to be issued and sold by Railways to banks are reasonably adapted to the security structure of Railways and the other companies in its holding company system and to the earning power of Railways, and whether the terms and conditions of the issue and sale thereof are detrimental to the public interest or to the interest of investors or consumers.

2. Whether the proposed modifications of the terms of Continental's Loan Agreement and of the Agreement between Railways and Continental are detrimental to the public interest or the interest of investors or consumers.

3. Whether the proposed issue and sale by Railways of notes and the proposed modifications of the terms of Continental's Loan Agreement and of the Agreement between Railways and Continental are in other respects in conformity with the applicable provisions of sections 6 (a) and 7 of the act.

4. Whether the proposed redemption by Railways of all of its outstanding Prior Preferred Stock is in conformity with the applicable provisions of section 12 (c) of the act and Rule U-42 thereunder and, insofar as applicable, of sections 9 and 10.

5. Whether the elimination of Railways' Prior Preferred Stock by the proposed issue and sale by Railways of promissory notes and the use of the proceeds thereof to redeem such preferred stock is detrimental to the carrying out of the provisions of section 11 of the act.

6. Whether the fees, commissions or other remuneration and the expenses to be paid in connection with the proposed transactions are for necessary services and are reasonable in amount.

7. Whether the proposed transactions comply with all the requirements of the applicable provisions of the act and the rules thereunder, and whether any terms and conditions with respect to the transactions should be prescribed in the public interest or for the protection of investors or consumers.

It is further ordered, That at said hearing evidence shall be adduced with respect to the foregoing matters and questions.

It is further ordered, That the Secretary of the Commission shall serve notice of said hearing by mailing a copy of this order by registered mail to Railways and Continental; and that notice shall be given to all other persons by general release of this Commission which shall be distributed to the press and mailed to the Mailing list for releases under the Act and that further notice be given all persons by publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 47-74; Filed, Jan. 3, 1947; 8:56 a. m.]

[File Nos. 54-42, 54-69, 59-65]

CENTRAL STATES UTILITIES CORP. ET AL.

NOTICE OF FILING AND NOTICE OF AND ORDER RECONVENING HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 27th day of December A. D. 1946.

In the matter of Central States Utilities Corporation, Central States Power & Light Corporation, Ogden Corporation, File No. 54-42; Ogden Corporation and Subsidiary Companies, File No. 54-69; Ogden Corporation and Subsidiary Companies, File No. 59-65.

I. Notice is hereby given that Ogden Corporation ("Ogden"), a registered holding company, has filed Amendment No. 15 in these consolidated proceedings, proposing an amended plan pursuant to section 11 (e) and other applicable sections of the act and the rules promulgated thereunder for the liquidation and dissolution of its subsidiary registered holding company, Central States Utilities Corporation ("Central Utilities"), and of the latter's subsidiary, Central States Power & Light Corporation ("Central States"), a registered holding company:

All interested persons are referred to said amended plan, which is on file in the office of the Commission, for a full statement of the transactions proposed therein, which may be summarized as follows:

Central States and its subsidiaries have disposed of all their operating properties pursuant to separable plans heretofore approved in these proceedings, and the remaining assets of Central States consist almost exclusively of cash and investments in government bonds. After making provision for the discharge of current liabilities the net assets of Central States as of November 30, 1946 amounted to approximately $1,935,000. The only action remaining to consummate the liquidation of Central States is the distribution of the cash and investments now held by it to creditors and security holders entitled thereto.

The following tabulation shows the outstanding securities of Central States at November 30, 1946, and their ownership by its parent companies and by others:

	Principal amount or shares outstanding	Owned by—		
		Ogden	Central Utilities	Others
5% debentures	$5,940,000	$5,108,040		$831,960
$7 cum. pfd. stock no par value [1]	*Shares* 80,000	*Shares* 13,473	*Shares*	*Shares* 66,527
Common stock no par value	40,000		40,000	

[1] Entitled to $100 per share and accrued dividends in involuntary liquidation, dividend arrears on January 1, 1947, will amount to $8,392,000 or approximately $105 per share.

Central States had heretofore outstanding 5½% First Mortgage and First Lien Gold Bonds due 1953. On November 15, 1944, the company deposited with the trustee for the bonds cash to pay in full the remaining unpaid principal amount of such bonds and accrued interest. On November 30, 1946, there remained on deposit with the trustee $1,040,897 for the payment of principal and interest on bonds which have not been sent to the trustee for payment.

All interest on the publicly held debentures of Central States was paid regularly until January 1, 1946; interest on such debentures due on and subsequent to January 1, 1946 has been escrowed pending the determination of the status and rank of such debentures. Payment of interest on the debentures owned by Ogden for the period from June 30, 1942, has been conditionally waived by Ogden. Pursuant to an agreement dated June 20, 1941, Ogden deposited in escrow with Manufacturers Trust Company the payments of interest on the debentures owned by it which became due on July 1, 1941, January 1, 1942, and July 1, 1942, aggregating $383,103, said agreement providing that such funds shall be held intact until all questions of the status and rank of such debentures owned by Ogden shall have been passed upon by this Commission and any court having jurisdiction. No dividends have been paid on the preferred stock of Central States since December 31, 1931.

The only assets of Central Utilities consist of all the shares of common stock of Central States and less than $100 in cash. At November 30, 1946, Central Utilities had outstanding $3,500,000 principal amount of 6% Ten-Year Secured Gold Bonds due January 1, 1938 (secured by the common stock of Central States), 32,000 shares of $7 cumulative preferred stock, no par value, and 30,000 shares of common stock, no par value. Except for $370,900 principal amount of bonds and 9,594 shares of preferred stock, Central Utilities' outstanding securities are owned by Ogden. No interest has been paid on the bonds since December 31, 1933, and no dividends on the preferred stock since December 31, 1931.

The amended plan is stated to be designed to effect a compromise of the subordination issues heretofore raised in the proceedings herein, and makes the following principal provisions for the final liquidation of Central States and Central Utilities:

(1) The interest heretofore received by Ogden on its holdings of Central States' debentures, aggregating $383,103, and escrowed with the Manufacturers Trust Company, shall be paid to and become part of the general assets of Central States.

(2) Central States shall pay, or make provision for the payment of, all of its known current and accrued liabilities, and shall reserve and set aside funds sufficient to pay the expenses and fees of liquidation.

(3) After the payment, or making provision for the payment, of the liabilities and expenses provided in paragraph (2) above, Central States shall cause to be paid (a) through the trustee for the 5% Debentures to the holders, other than Ogden, of the 5% Debentures ($831,950 principal amount of debentures so held) an amount of cash equal to $81 for each $100 principal amount of such debentures ($754,876) together with accrued and unpaid interest thereon to the effective date of the Amended Plan (7½% or $62,397 on such debentures as of January 1, 1947), and (b) through a bank or trust company, as Distributing Agent, to the holders, other than Ogden, of the $7 dividend Preferred Stock of Central States (66,527 shares so held) an amount of cash equal to $9.00 per share ($598,743).

(4) After providing for the payment described in paragraphs (2) and (3) above, Central States shall pay and turn over to Ogden, as payment on the principal of the 5% Debentures of Central States owned by Ogden, all the remaining assets of Central States free of any claim, lien or defense with respect thereto.

(5) Ogden shall cause to be paid through the trustee for the 6% Gold Bonds of Central Utilities to the holders of such bonds, other than Ogden, $370,900 principal amount of bonds so held) an amount in cash equal to $7.50 for each $100 principal amount of such bonds ($27,817).

(6) The holders of the $7 Dividend Preferred Stock and common stock of Central Utilities, and the holder of the common stock of Central States, shall not be entitled to participate in the liquidation of such companies.

(7) If and when the amended plan shall become effective, and provision shall have been made for the payments described in paragraphs 3 (a) and 5 above in respect of Central States' debentures and Central Utilities' bonds, the respective trustees for such debentures and bonds shall execute and deliver to the respective companies proper instruments evidencing the discharge of the respective indentures securing such securities, and the said companies shall thereafter be freed from all liabilities in respect of such securities.

(8) If any holders, other than Ogden, of the 5½% First Mortgage Bonds, 5% Debentures and $7 Dividend Preferred Stock of Central States, and of the 6% bonds of Central Utilities, shall not have done all acts necessary to secure possession of any of the funds on deposit with the trustees for the said bonds and debentures and the Distributing Agent for said preferred stock prior to December 17, 1950, all rights of such persons to any such funds shall cease and said trustees and Distributing Agent, upon demand of Ogden, shall transfer to Ogden all such funds in their possession and Ogden shall be entitled to retain such funds free of any claim or lien with respect thereto; *Provided, however*, That within a period not more than sixty (60) days and not less than thirty (30) days prior to December 17, 1950, Ogden shall at its expense cause said trustees and Distributing Agent to publish once a week for three successive calendar weeks in a newspaper of general circulation in New York, Boston and Chicago a notice of the time when the rights of such persons to such funds expire.

(9) Central Utilities and Central States shall be dissolved. In this connection, The Chase National Bank of the City of New York, as trustee for Central Utilities' bonds, shall vote the shares of common stock of Central States pledged under the Trust Indenture in favor of the dissolution of Central States.

(10) Ogden shall be liable and shall pay all expenses of the dissolution of Central Utilities, and upon such dissolution there shall be transferred to Ogden as payment on the principal of the bonds of Central Utilities owned by Ogden all the remaining assets, if any, of Central Utilities.

(11) It is further proposed by Ogden that upon the entry by the Commission of any order approving the amended plan, the Board of Directors of Central States and Central Utilities shall request the Commission, pursuant to section 11 (e) of the act, to apply to a competent court of jurisdiction to enforce and carry out the terms and provisions of the amended plan. When said amended plan is approved by such court, the Boards of Directors of Central States and Central Utilities may declare the amended plan effective at any time within 90 days after such approval by the court. The Boards of Directors, however, may, in their discretion, delay declaring the amended plan effective until all appeals from said court order shall have been disposed of or until after the time for appeal from such court order shall have elapsed.

II. On May 20, 1943, the Commission entered an order (1) directing, pursuant to section 11 (b) of the act, among other things, that Central States recapitalize so as to distribute voting power fairly and equitable among its security holders, *Provided however*, That such recapitalization need not be effected if said company is liquidated and dissolved, and that Central Utilities be liquidated and dissolved, and (2) approving, pursuant to section 11 (e) of the act, a plan filed by Ogden and certain of its subsidiary companies which provided, among other things, that Central States and Central Utilities would be liquidated and dissolved (File Nos. 54-69 and 69-65).

Ogden has heretofore filed Amendment No. 12 in these consolidated proceedings proposing a plan for the liquidation and dissolution of Central States and Central Utilities (Holding Company Act Release No. 5983); and hearings were held in respect thereto and the record was closed.

It appearing to the Commission that notice should be given and that the hearing herein should be reconvened for the purpose of taking additional testimony in respect to the amended plan filed by Ogden:

It is ordered, That the hearing herein be reconvened under the applicable provisions of the act and the rules of the Commission thereunder on January 20, 1947, at 11:00 a. m., e. s. t., at the office of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. On that date, the hearing room clerk in Room 318 will

advise as to the room in which the hearing will be held. It is requested that any person desiring to be heard in these proceedings shall file with the Secretary of the Commission on or before January 17, 1947, an appropriate request or application to be heard, as provided by Rule XVII of the Commission's rules of practice.

It is further ordered, That Robert Reeder or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearing. The officer so designated to preside at the hearing is hereby authorized to exercise all powers granted by the Commission under section 18 (c) of the act and to a hearing officer under the Commission's rules of practice.

The Public Utilities Division having advised the Commission that it has made a preliminary examination of said amended plan, and that, on the basis thereof, the following matters and questions are presented for consideration by the Commission without prejudice, however, to the presentation of additional matters and questions upon further examination, and to the consideration of those issues cited in the Commission's notice and order of August 11, 1945 (Holding Company Act Release No. 5983) in respect of the plan heretofore filed herein by Ogden as Amendment No. 12, insofar as such issues may also be applicable to said amended plan:

1. Whether the amended plan, as proposed, or as it may hereafter be modified, is necessary to effectuate the provisions of section 11 (b) of the act and is fair and equitable to the persons affected thereby:

2. More particularly, whether the treatment proposed to be accorded to the public security holders of Central States and Central Utilities and to Ogden in regard to their respective claims is fair and equitable to such persons;

3. Whether the period of time expiring December 17, 1950, within which the holders, other than Ogden, of Central States' 5½% bonds, 5% debentures and $7 preferred stock, and Central Utilities' 6% bonds, are required pursuant to the amended plan to claim the funds on deposit for such security holders or thereafter lose any claim thereto, is adequate;

4. Whether any fees, expenses and other considerations which may be claimed in connection with the proposed amended plan and related proceedings are for necessary services or purposes, reasonable in amount, and properly allocated;

5. Whether, and in what manner, the proposed amended plan should be modified to ensure adequate protection of the public interest and the interest of investors and consumers and compliance with all applicable provisions of the act and rules thereunder;

6. Whether, in the event that the Commission shall approve the amended plan as filed or as modified, the Commission shall approve said plan for purposes of section 11 (d) of the act (as well as section 11 (e)) so as to permit the Commission of its own motion and irrespective of any request therefor on the part of Central States, Central Utilities or Ogden to apply to a court for the enforcement of the amended plan pursuant to section 11 (d) of the act.

It is further ordered, That particular attention be directed at said hearing to the foregoing matters and questions.

Notice is hereby given of said hearing to Central States, Central Utilities, Ogden, Continental Illinois National Bank and Trust Company of Chicago, Indenture Trustee of Central States' 5% Debentures, The Chase National Bank of the City of New York, Indenture Trustee of Central Utilities' 6% Ten-Year Secured Gold Bonds, Manufacturers Trust Company, and to all interested persons, said notice to be given to Central States, Central Utilities, Ogden, Continental Illinois National Bank and Trust Company of Chicago, The Chase National Bank of the City of New York, and Manufacturers Trust Company by registered mail, and to all other persons by a general release of this Commission which shall be distributed to the press and mailed to all persons on the mailing list for releases issued under the act and by publication in the FEDERAL REGISTER.

It is further ordered That Central States and Central Utilities shall give additional notice of this hearing to all their security holders (insofar as the identity of such security holders is known or is available to them) by mailing to each of said persons a copy of this notice and order at his last known address at least fifteen days prior to the date of hearing.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-1405]

CITIES SERVICE CO. ET AL.

ORDER GRANTING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 30th day of December A. D. 1946.

In the matter of Cities Service Company, The Gas Service Company, Kansas City Gas Company, The Wyandotte County Gas Company, File No. 70-1405.

Applications and declarations, and amendments thereto, having been filed with this Commission, pursuant to the Public Utility Holding Company Act of 1935, particularly sections 6 (a), 7, 9 (a), 10, 12 (c) and 12 (f) thereof, by Cities Service Company ("Cities"), a registered holding company, and its public utility subsidiaries, The Gas Service Company ("Gas Service"), Kansas City Gas Company ("Kansas City") and The Wyandotte County Gas Company ("Wyandotte"), with respect to the following transactions:

It is proposed to merge Kansas City and Wyandotte into Gas Service, which will be the surviving company. Gas Service will create a total authorized capitalization of 850,000 shares of $10 par value common stock, all of which will be issued to Cities, the owner of all of the capital stock of the constituent companies (except directors' qualifying shares), as follows: (a) $5,764,457.38 par value thereof will be issued through reclassification and conversion of the presently outstanding capital stock of the constituent corporations, (b) $2,506,850 par value thereof will be issued for cash, and (c) $228,692.62 par value thereof will be issued in capitalization of a like amount of capital surplus of Gas Service.

Gas Service will borrow $16,000,000 from four banks and one insurance company and issue therefor its notes due serially in amounts of $1,100,000 annually beginning April 1, 1948 with a final maturity of $6 100,000 due December 1, 1956. Such notes will bear interest at the rate of 2½% per annum for the first seven maturities, 2¾% per annum for the next two maturities and 3% per annum for the final maturity.

The proceeds from the sale of the common stock to be issued for cash and from the issue of notes, aggregating $18,506,850, will be used to retire or redeem the remaining outstanding securities of the constituent corporations, consisting of bonds and notes, for $16,708,303, the redemption price thereof. Of this amount, Cities, as the owner of $1,548,000 principal amount of First Mortgage Bonds of Wyandotte and $6,831,928 face amount of 6% Demand Notes of Gas Service, will receive $8,379,928. The balance of the debt securities in the principal amount of $8,250,000 are owned by private institutions. The net proceeds remaining after retirement of debt securities and payment of expenses will be added to the general funds of Gas Service for general corporate purposes.

Said applications and declarations having been filed on November 22, 1946, and amendments thereto having been filed from time to time, and notice of said filing having been given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for hearing with respect to said applications and declarations within the period specified in said notice or otherwise, and not having ordered a hearing thereon; and

The Commission having been advised, by amendment, that the aforesaid transactions have been approved, to the extent necessary, by the Public Service Commission of Missouri and the State Corporation Commission of Kansas; and

Applicants-declarants having requested that the Commission issue its order with respect to the proposed transactions as soon as practicable and that such order become effective forthwith upon issuance; and

Applicants-declarants having stated that the applications and declarations herein do not constitute requests for modification of presently outstanding orders, issued by the Commission under section 11 (b) (1), regarding the retainability by Cities of its interests in the subject companies and that it is not intended that the approval of such applications and declarations will result in any modifications of such orders; and

The Commission finding with respect to such applications and declarations, as amended, that the requirements of the applicable provisions of the act and the rules thereunder are satisfied and that no adverse findings are necessary thereunder, and deeming it appropriate in the public interest and in the interest of investors and consumers that said applications and declarations, as amended, be granted and permitted to become effective:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of said act, and subject to the terms and conditions prescribed in Rule U-24, that said applications and declarations, as amended, be, and hereby are, granted and permitted to become effective forthwith.

By the Commission.

[File Nos. 70-1401 and 70-1399]

PEOPLES LIGHT CO. OF PITTSTON ET AL.

MEMORANDUM FINDINGS, OPINION AND ORDER PERMITTING DECLARATIONS TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 26th day of December A. D. 1946

In the Matter of Peoples Light Company of Pittston, York County Gas Company, Pennsylvania Gas & Electric Corporation, File No. 70-1401; John H. Ware, 3d, File No. 70-1399.

Peoples Light Company of Pittston ("Pittston") a gas utility company, its corporate parent York County Gas Company ("York"), a gas utility company and an exempt holding company, and Pennsylvania Gas & Electric Corporation ("Penn Corp"), a registered holding company and the parent of York, and John H. Ware, 3d, of Oxford, Pennsylvania, have filed applications and declarations with this Commission pursuant to sections 9, 10, and 12 of the Public Utility Holding Company Act of 1935 ("Act") and Rules U-23, U-44, and U-46 promulgated thereunder.

Pittston proposes to sell to John H. Ware, 3d, or his nominee, substantially all its property and assets for a base price of $266,000 in cash, subject to closing adjustments. Upon the consummation of this sale it is proposed that Pittston be dissolved and liquidated and that Pittston pay to York, the owner of all the capital stock of Pittston, its remaining assets as a liquidating dividend. York will use the cash so acquired to pay the balance of its outstanding serial notes in the amount of $262,500 now hold by the Commerical National Bank and Trust Company of New York.

The assets of Pittston will be acquired by the Pittston Gas Company, a newly organized gas utility company, all the securities of which will be owned by Ware.

The Pennsylvania Public Utility Commission has approved the sale of assets by Pittston and the acquisition by the Pittston Gas Company and has also approved the issuance of common stock by the Pittston Gas Company.[1]

Ware, a resident of Oxford, Pennsylvania, is the owner of 100% of the capital stock of eight other gas utility companies and of Penn Fuel Gas, Inc., an exempt holding company which owns the entire capital stock of three gas utility companies. All of these operating companies are located in Pennsylvania within a radius of 150 miles of Oxford, Pennsylvania. Ware also owns slightly less than 50% of the capital stock of Salem Gas Company, located in Salem, New Jersey, and is president and director of Citizens Gas & Fuel Company, all the securities of which are owned by his mother. He has an interest in a number of non-utility businesses including Gas-Oil Products Co. which supplies all the propane gas used by a number of his gas utility companies.

The proposed purchase price of $266,000, subject to certain adjustments for changes in net current assets, represents payment for the assets of Pittston including cash in the amount of $83,281, as of August 31, 1946 and other net current assets.

The gross utility plant to be sold is stated on the books of Pittston at $606,901 as of August 31, 1946 against which there is a depreciation reserve of $278,547, or net plant per books of $328,354. An original cost study of the plant account of Pittston has been completed and submitted to the Pennsylvania Public Utility Commission. The study has not yet been approved nor have the results been recorded on the company's books. The testimony indicates that if the study were adopted there would be no substantial effect on the books of the company at this time.

The difference of $172,286 between the net property account as stated on the books of Pittston and the net cost thereof to the Pittston Gas Company will be credited to Account 100.5, to be disposed of as may be required by the Pennsylvania Public Utility Commission.

York carries its investment in Pittston at $385,702 less a reserve of $235,702 set up in 1945, or at a net book amount of $150,000. The difference of $101,667 between the proceeds to be received from the liquidation of Pittston, estimated by York to be $251,667, and the net book amount of the investment will be credited to capital surplus. The proposed sales price will, however, result in a loss to York for tax purposes which will reduce its estimated taxes for 1946 by approximately $62,000.

The average annual income of Pittston for the period 1941–1945 has been $12,206; the net income for the twelve month period ended August 31, 1946 was $21,466. Ware represents that he expects to make economies in the operations of the acquiring company which will result in net savings of approximately $5,000 annually.

The costs to be incurred by Pittston in the sale of its assets and subsequent dissolution will be legal fees in the approximate amount of $3,200 and $1,000 of expenses. No fees or commissions will be paid by Ware in connection with the proposed transaction except legal fees and expenses estimated not to exceed $5,000.

We have considered the proposed transactions in the light of the standards of sections 10, 12 (c) and 12 (d) of the act and we find that such standards are satisfied.

It is therefore ordered, Pursuant to the applicable provisions of said act and subject to the terms and conditions prescribed in Rule U-24 that the aforesaid applications and declarations be, and hereby are, granted and permitted to become effective forthwith.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 47-79; Filed, Jan. 3, 1947; 8:56 a. m.]

[1] The record indicates that the capitalization of Pittston Gas Company, all of which will be initially owned by Ware, will consist of 700 shares of common capital stock ($50 par value per share), a $160,000 4% Note due on or before November 1, 1947, and a 5% Demand Note in the approximate amount of $66,000 or such other amount as with the proceeds from the 700 shares and $160,000 4% Note will be required to consummate the transactions. The record indicates that Ware intends to retain only the common stock of Pittston Gas Company and that the other securities are to be paid or refunded. The issuance of these securities and the acquisition of the Pittston assets are not before us, since Pittston Gas Company is not a subsidiary of a registered holding company. The acquisition by Ware of the securities of Pittston Gas Company comes before us pursuant to the requirements of section 9 (a) (2) of the act.

ALLIED STORES CORP. ET AL.

NOTICE AND ORDER OF HEARING ON APPLICATIONS FOR UNLISTED TRADING PRIVILEGES

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 30th day of December A. D. 1946.

In the matter of Applications by the Cincinnati Stock Exchange for Unlisted Trading Privileges in Twenty-Three (23) Securities, File Nos. 7-932 to 7-954 inclusive.

The Cincinnati Stock Exchange, pursuant to section 12 (f) (2) of the Securities Act of 1934 and Rule X-12F-1 thereunder, has made application for unlisted trading privileges in the following securities, which are listed and registered on other national securities exchanges as indicated below:

Allied Stores Corporation, Common Stock, No Par Value, Listed: New York Stock Exchange.

American Airlines, Incorporated (Delaware), Common Stock, $1.00 Par Value, Listed: New York Stock Exchange.

American Telephone and Telegraph Company, Common Stock, $100.00 Par Value, Listed: Boston Stock Exchange, Chicago Stock Exchange, New York Stock Exchange, Philadelphia Stock Exchange, Washington Stock Exchange.

The Chesapeake & Ohio Railway Company, Common Stock, $25.00 Par Value, Listed: New York Stock Exchange.

Colgate Palmolive Peet Company, Common Stock, No Par Value, Listed: New York Stock Exchange.

The Commonwealth & Southern Corporation, Common Stock, No Par Value, Listed: New York Stock Exchange.

Curtiss Wright Corporation, Common Stock, $1.00 Par Value, Listed: New York Stock Exchange.

Dayton Power and Light Company, Common Stock, $7.00 Par Value, Listed: New York Stock Exchange.

Federated Department Stores, Incorporated, Common Stock, No Par Value, Listed: New York Stock Exchange.

General Electric Company, Common Stock, No Par Value, Listed: Boston Stock Exchange, New York Stock Exchange.

The National Cash Register Company, Common Stock, No Par Value, Listed: New York Stock Exchange.

The New York Central Railroad Company, Common Stock, No Par Value, Listed: New York Stock Exchange.

The North American Company, Common Stock, $10.00 Par Value, Listed: New York Stock Exchange.

The Ohio Oil Company, Common Stock, No Par Value, Listed: New York Stock Exchange.

Packard Motor Car Company, Common Stock, No Par Value, Listed: Detroit Stock Exchange, New York Stock Exchange.

The Pennsylvania Railroad Company, Common Stock, $50.00 Par Value, Listed: Boston Stock Exchange, Chicago Stock Exchange, New York Stock Exchange, Philadelphia Stock Exchange.

Pepsi-Cola Company, Common Stock, 33⅓¢ Par Value, Listed: New York Stock Exchange.

Radio Corporation of America, Common Stock, No Par Value, Listed: New York Stock Exchange.

Socony-Vacuum Oil Company, Inc., Common Stock, $15.00 Par Value, Listed: New York Stock Exchange.

Standard Oil Company (New Jersey), Common Stock, $25.00 Par Value, Listed: New York Stock Exchange.

Standard Oil Company (Ohio), Common Stock, $10.00 Par Value, Listed: Cleveland Stock Exchange, New York Stock Exchange.

United States Steel Corporation, Common Stock, No Par Value, Listed: Chicago Stock Exchange, New York Stock Exchange, San Francisco Stock Exchange.

Westinghouse Electric Corporation, Common Stock, $12.50 Par Value, Listed: Boston Stock Exchange, Chicago Stock Exchange, New York Stock Exchange, Pittsburgh Stock Exchange.

Rule X-12F-1 provides that the applicant shall furnish a copy of the application to each respective issuer and to every other national securities exchange on which each of the above respective securities are listed or admitted to unlisted trading privileges. The applications are available for public inspection at the Commission's principal office in Philadelphia, Pennsylvania.

The Commission deems it necessary that a hearing be held in this matter to determine whether there exists in the vicinity of the applicant exchange sufficiently widespread public distribution of each of these securities and sufficient public trading activity in each of these securities to render the extension of unlisted trading privileges on the applicant exchange necessary or appropriate in the public interest or for the protection of investors; and to determine whether the extension of unlisted trading privileges to each of these securities otherwise is necessary or appropriate in the public interest or for the protection of investors.

Therefore it is ordered, That a public hearing be held before Frank D. Emerson as hearing officer at 10:00 a. m. on Wednesday, January 8, 1947, at the office of the Securities and Exchange Commission, 1370 Ontario Street, Cleveland, Ohio.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-1350]

NY PA NJ UTILITIES CO. AND GENERAL PUBLIC UTILITIES CORP.

ORDER GRANTING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 27th day of December 1946.

General Public Utilities Corporation ("GPU"), a registered holding company, and its wholly owned subsidiary, NY PA NJ Utilities Company ("NY PA NJ"), also a registered holding company, having filed a joint application-declaration, as amended, pursuant to sections 9 (a), 10 and 12 of the Public Utility Holding Company Act of 1935 ("Act"), with respect to the following transaction:

NY PA NJ proposes to dissolve and, in connection therewith, GPU, as NY PA NJ's sole stockholder, will surrender to NY PA NJ for cancellation all the outstanding stock of NY PA NJ and will acquire, pursuant to said dissolution, all the assets of NY PA NJ, subject to its liabilities, if any.

Such joint application-declaration, as amended, having been duly filed, and notice of said filing having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act and the Commission not having received a request for hearing with respect to said joint application-declaration, as amended, within the period specified in said notice or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to the application-declaration, as amended, that the requirements of the applicable provisions of the act and rules thereunder are satisfied, that no adverse findings are necessary thereunder, and deeming it appropriate in the public interest and in the interests of investors and consumers that the said application-declaration, as amended, be granted and permitted to become effective, and deeming it appropriate to grant the request of applicants-declarants that the order become effective at the earliest date possible; and further deeming it appropriate that the request of applicants-declarants that the order conform to the requirements of the Internal Revenue Code, as amended, including sections 373 (a) and 1808 (f) thereof be granted:

It is hereby ordered, Pursuant to Rule U-23 and the applicable provisions of the act and rules thereunder, and subject to the terms and conditions prescribed in Rule U-24, that the application-declaration, as amended, be, and the same hereby is, granted and permitted to become effective forthwith.

It is further ordered, That the following transactions are necessary or appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935:

1. The transfer, delivery and distribution by NY PA NJ to GPU of the assets hereafter enumerated, subject to the liabilities of NY PA NJ:

Name of issuer and title of issue	*Shares or principal amount*
Spring Brook Water Company: Common capital stock	[1] 2,250
20-year 6-percent note due June 1, 1951	$20,000.00
Open account advance	$62,221.32
New York State Electric & Gas Corp.: Common capital stock	[1] 46,434
Rochester Gas & Electric Corp.: Common capital stock	[1] 775,914
Canadea Power Corp.: Common capital stock	[1] 40,000
Staten Island Edison Corp.: Comon capital stock	[1] 260,000
Jersey Central Power & Light Corp.: Common capital stock	[1] 1,053,761
Metropolitan Edison Co.: Common capital stock	[1] 360,780
Northern Pennsylvania Power Co.: Common capital stock	[1] 22,130
New Jersey Power & Light Co.: Common capital stock	[1] 87,500
Atlantic Utility Service Corp.: Common capital stock	[1] 300
New England Gas & Electric Association: $5.50 dividend series preferred shares	[1] 17,744

[1] Shares.

2. The surrender and delivery by GPU to NY PA NJ for cancellation of all the outstanding shares of stock of NY PA NJ.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File Nos 59-82, 54-51]

MEMPHIS STREET RAILWAY CO. AND NATIONAL POWER AND LIGHT CO.

NOTICE OF FILING OF AMENDED PLAN AND NOTICE OF AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 19th day of December A. D. 1946.

The Commission having on November 13, 1945 instituted proceedings under sections 11 (b) (2), 12 (c), 15 (f) and 20 (a) of the Public Utility Holding Company Act of 1935 with respect to The Memphis Street Railway Company ("Memphis"), a subsidiary of Memphis Generating Company, in turn, a subsidiary of National Power & Light Company ("National"), a registered holding company, which in turn is a subsidiary of Electric Bond and Share Company, also a registered holding company; and

National having filed a plan and amendments thereto pursuant to section 11 (e) of the act for the rearrangement of the capital structure of Memphis, providing, among other things, that Memphis issue (a) two shares of common stock, par value $50, in exchange for each share of its outstanding 21,710 shares of 4% preferred stock, par value $100, and (b) an aggregate of 54,641 shares of common stock, par value $50, in exchange for its outstanding 27,593 shares of common stock, par value $100; and the Commission having in its notice of filing and order for hearing issued March 27, 1946 (Holding Company Act Release No. 6506) consolidated the proceedings with respect to such plan with the proceedings previously instituted pursuant to section 11 (b) (2) of the act referred to above; and hearings having been held pursuant to said notice, extensive testimony having been taken, numerous exhibits having been presented and said hearings having been continued subject to the call of the Hearing Officer or order of the Commission;

Notice is hereby given that National has filed with the Commission pursuant to section 11 (e) of the act an amended plan for the rearrangement of the capital structure of Memphis in substitution for the plan heretofore filed.

All interested persons are referred to the aforesaid amended plan which is on file in the office of this Commission for a full statement of the transactions therein proposed which may be summarized as follows:

It is proposed that Memphis effect a partial liquidation of its outstanding 21,710 shares of 4% preferred stock, par value $100, by distributing to the holders of such stock a liquidating dividend of $50 per share in cash and that the company amend its charter so as to provide that after January 1, 1947, such preferred stock shall be entitled to (a) regular cumulative dividends in the amount of $2.00 per annum in lieu of the former dividend of $4.00 per annum and (b) a special and additional dividend or dividends aggregating $32 per share payable out of net income available after December 31, 1946, after deduction in each year of allowances for annual bond maturities and regular preferred stock dividends. In consideration for such special $32 dividend provision, the plan provides that all arrearages of dividends on the preferred stock amounting to $32 per share as of December 31, 1946, shall be waived and cancelled.

National proposes, under its dissolution program, to acquire from Memphis Generating Company the outstanding 27,593 shares of common stock of Memphis and thereupon to surrender to Memphis for cancellation 13,952.75 shares of such common stock, the remaining 13,640.25 shares of such common stock to be reclassified as 272,805 shares of common stock having a par value of $5 per share. National then proposes to distribute to its own common stockholders the 272,805 shares of common stock of Memphis thus received.

The charter of Memphis will also be amended to provide that upon consummation of the plan each share of common stock of Memphis will have one vote per share and each share of the preferred stock will have seven votes per share, and such charter will also contain further provisions deemed appropriate for the protection of preferred stockholders.

National has requested that the Commission, in the event that this amended plan is approved, apply to an appropriate District Court of the United States for an order to enforce and carry out the provisions of said amended plan. It is proposed that the effective date of the amended plan shall be the date on which the District Court issues its enforcement order or such other date as may be determined by said Court.

National has further requested that if the Commission approves the amended plan its order shall contain recitals and specifications conforming to the requirements of the Internal Revenue Code, as amended, including section 1808 (f) and Supplement R thereof.

The Commission being required by the provisions of section 11 (e) of the act, before approving any plan thereunder, to find after notice and opportunity for hearing that the plan, as submitted, or as modified, is necessary to effectuate the provisions of subsection (b) of section 11 of the act and is fair and equitable to the persons affected thereby, and it appearing appropriate to the Commission that a hearing be held upon the amended plan to afford all interested persons an opportunity to be heard with respect thereto;

It is ordered, That a hearing under the applicable provisions of the act and the rules thereunder be held on January 13, 1947 at 10 a. m., e. s. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. On such date the hearing room clerk in Room 318 will advise as to the room in which such hearing will be held. All persons desiring to be heard or otherwise wishing to participate in the proceedings shall notify the Commission in the manner prescribed by Rule XVII of the rules of practice on or before January 9, 1947.

It is further ordered, That Allen MacCullen or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearing in such matter. The officer so designated to preside at the hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said act and to a hearing officer under the Commission's rules of practice.

The Public Utilities Division of the Commission having advised the Commission that it has made a preliminary examination of the amendment and that, upon the basis thereof, the following matters and questions are presented for consideration without prejudice to its specifying additional matters or questions upon further examination:

(1) Whether the amended plan, as submitted or as hereafter modified, is necessary to effectuate the provisions of section 11 (b) (2) of the act, and is fair and equitable to the persons affected thereby, and if not, in what respects said amended plan, including any modifications thereof, should be modified or amended.

(2) Whether the securities of Memphis to be outstanding upon consummation of the plan will be reasonably adapted to the security structure and earning power of the company and will otherwise meet the standards of the act.

(3) Whether the terms and conditions of the amended plan relating to the preferred stock of Memphis, particularly the proposed payment of $50 per share as a liquidating dividend and the proposed special dividend aggregating $32 per share, are detrimental to the public interest or the interest of investors and consumers.

(4) Whether the accounting entries in connection with the proposed plan are appropriate and in conformity with sound accounting principles.

(5) Whether, if the proposed amended plan is authorized in whole or in part by the Commission, it is appropriate in the public interest and in the interest of investors and consumers that any terms and conditions be imposed in connection with such authorization, and, if so, what such terms and conditions should be.

(6) Whether the amended plan, as filed or as modified, makes appropriate provision for the payment of expenses, fees and remuneration in connection with the reorganization, in what amounts such expenses, fees and remuneration should be paid, and the fair and equitable allocation thereof.

(7) Whether the proposed amended plan constitutes a step in compliance with the order of the Commission dated August 23, 1941 issued pursuant to section 11 (b) (2) of the act directing the dissolution of National.

It is further ordered, That at said hearing evidence shall be adduced with respect to the foregoing matters and questions.

It is further ordered, That notice of this hearing be given to Electric Bond and Share Company, National, Memphis Generating Company, Memphis, The Public Utilities Commission of the State of Tennessee, the City of Memphis and Central Hanover Bank and Trust Company, as Trustee for the Memphis 4% serial mortgage bonds, by registered mail and to all other persons by publication of this notice and order in the FEDERAL REGISTER and by a general release of the Commission distributed to the press and mailed to the mailing list for releases issued under the Public Utility Holding Company Act of 1935.

It is further ordered, That Memphis shall give notice of this hearing to all its preferred stockholders (insofar as the identity of such stockholders is available or known to it), by mailing to each of said persons a copy of this notice of filing and notice of and order for hearing together with a copy of the proposed plan for the rearrangement of the capital structure of Memphis, at his last known address at least ten days prior to the date of said hearing.

By the Commission.

GENERAL PUBLIC UTILITIES CORP. AND ATLANTIC UTILITY SERVICE CORP.

ORDER GRANTING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the city of Philadelphia, Pennsylvania, on the 23d day of December 1946.

General Public Utilities Corporation ("GPU"), a registered holding company, and its non-utility subsidiary, Atlantic Utility Service Corporation ("Auscorp"), having filed a joint application-declaration pursuant to sections 9 (a) (1) and 10 of the Public Utility Holding Company Act of 1935, with respect to the following transactions:

Auscorp proposes to sell to GPU 10 shares of Class B Common Capital Stock, without nominal or par value, of Employees Welfare Association, Incorporated (Del.) ("EWA") for $1,000 in cash, which stock constitutes the entire outstanding capital stock of EWA, a non-utility subsidiary engaged in the business of administering certain insurance plans for the employees of companies in the GPU system and certain other companies which were formerly in the system.

The application-declaration having been filed December 4, 1946 and notice of said filing having been given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for hearing with respect to said application within the period specified in said notice or otherwise, and not having ordered a hearing thereon;

It is hereby ordered, Pursuant to said Rule U-23 and the applicable provisions of said act, that said joint application-declaration be, and the same hereby is granted and permitted to become effective forthwith.

By the Commission.

[File No. 59-37]

CENTRAL ILLINOIS PUBLIC SERVICE CO.

ORDER DISMISSING PROCEEDINGS

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 23d day of December A. D. 1946.

The Commission having heretofore instituted proceedings pursuant to sections 11 (b) (2) and 15 (f) of the Public Utility Holding Company Act of 1935 directed to Central Illinois Public Service Company, a public utility operating company and subsidiary of The Middle West Corporation, a registered holding company; and

Applications and declarations having subsequently been filed by Central Illinois Public Service Company wherein the company proposed a refinancing program and the Commission, after public hearings, having approved such applications and declarations and having found that such program apparently was designed to meet the issues raised in said proceedings under sections 11 (b) (2) and 15 (f) and having stated that said proceedings would be dismissed upon consummation of such refinancing program; and

Central Illinois Public Service Company having filed its Certificate of Notification with respect to the consummation of such refinancing program and having filed a request that the Commission dismiss said proceedings under sections 11 (b) (2) and 15 (f); and

It appearing to the Commission that the conditions which necessitated the institution of said proceedings no longer exist; and

The Commission deeming it appropriate in the public interest and in the interests of investors and consumers to dismiss said proceedings:

It is ordered, That the proceedings heretofore instituted pursuant to sections 11 (b) (2) and 15 (f) of the Public Utility Holding Company Act of 1935 with respect to Central Illinois Public Service Company be, and hereby is, dismissed.

By the Commission.

DEPARTMENT OF JUSTICE

Office of Alien Property

[Vesting Order 7932]

HERMAN FRIDERICH SAHLENDER

In re: Trust under the last will and testament of Herman Friderich Sahlender, also known as H. F. Sahlender, also known as Herm F. Sahlender, also known as Hermann F. Sahlender, also known as Herman F. Sahlender, deceased. File No. D-28-10175; E. T. sec. 14487.

Under the authority of the Trading with the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Friderich Sahlender, August Sahlender, George Mayer and Johanne Jochims, whose last known addresses are Germany, are residents of Germany and nationals of a designated enemy country (Germany);

2. That the surviving issue of Friderich Sahlender, the surviving issue of August Sahlender, the surviving issue of Gustav Sahlender, the widow, name unknown, of Gustav Sahlender, deceased, the surviving issue of George Mayer and the surviving issue of Johanne Jochims, who there is reasonable cause to believe are residents of Germany, are nationals of a designated enemy country (Germany);

3. That all right, title, interest and claim of any kind or character whatsoever of the persons identified in subparagraphs 1 and 2 hereof, and each of them, in and to the trust under the last will and testament of Herman Friderich Sahlender, also known as H. F. Sahlender, also known as Herm F. Sahlender, also known as Herman F. Sahlender, also known as Hermann F. Sahlender, deceased, is property payable or deliverable to, or claimed by, the aforesaid nationals of a designated enemy country (Germany);

4. That such property is in the process of administration by Anglo California National Bank of San Francisco, as trustee, acting under the judicial supervision of the Superior Court of the State of California, County and City of San Francisco;

and it is hereby determined:

5. That to the extent that the above named persons and the surviving issue of Friderich Sahlender, the surviving issue of August Sahlender, the surviving issue of Gustav Sahlender, the widow, name unknown, of Gustav Sahlender, deceased, the surviving issue of George Mayer, and the surviving issue of Johanne Jochims, are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

(40 Stat. 411, 55 Stat. 839; Pub. Law 322, 79th Cong., 60 Stat. 50; Pub. Law 671, 79th Cong.; 60 Stat. 925; 50 U. S. C. App. 1, 616; E. O. 9193, July 6, 1942, 7 F. R. 5205; E. O. 9567, June 8, 1945, 10 F. R. 6917; E. O. 9788, Oct. 14, 1946, 11 F. R. 11981)

Executed at Washington, D. C., on December 24, 1946.

For the Attorney General.

[Vesting Order 7920]

TOJURO TAGAMI

In re: Real property owned by Tojuro Tagami.

Under the authority of the Trading with the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Tojuro Tagami, whose last known address is Japan, is a resident of Japan and a national of a designated enemy country (Japan);

2. That the property described as follows: Real property situated in the County of Clark, State of Nevada, particularly described as the northwest quarter of the northwest quarter and the north half of the southwest quarter of the northwest quarter of Section 5, Township 21 South, Range 62 East, Mount Diablo Base and Meridian, together with all hereditaments, fixtures, improvements and appurtenances thereto, and any and all claims for rents, refunds, benefits or other payments arising from the ownership of such property, and

b. That certain debt, or obligation, owing to Masatsu Taniguchi by Alex Uffelman, Box 84, Florin, California, arising by reason of rentals which are due and unpaid for the real property described in subparagraph 2-a hereof, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country (Japan);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Japan).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, subject to recorded liens, encumbrances and other rights of record held by or for persons who are not nationals of designated enemy countries, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

MASATSU TANIGUCHI

In re: Real property and claim owned by Masatsu Taniguchi.

Under the authority of the Trading with the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Masatsu Taniguchi, whose last known address is Japan, is a resident of Japan and a national of a designated enemy country (Japan);

2. That the property described as follows:

a. Real property situated in the County of Sacramento, State of California, particularly described in Exhibit A, attached hereto and by reference made a part hereof, together with all hereditaments, fixtures, improvements and appurtenances thereto, and any and all claims for rents, refunds, benefits or other payments arising from the ownership of such property, and

b. That certain debt, or obligation, owing to Masatsu Taniguchi by Alex Uffelman, Box 84, Florin, California, arising by reason of rentals which are due and unpaid for the real property described in subparagraph 2-a hereof, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country (Japan); and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Japan).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described in subparagraph 2-a hereof, subject to recorded liens, encumbrances and other rights of record held by or for persons who are not nationals of designated enemy countries.

There is hereby vested in the Attorney General of the United States the property described in subparagraph 2-b hereof.

All such property so vested to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

DEUTSCHE BANK

In re: Bank account owned by Deutsche Bank.

Under the authority of the Trading with the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Deutsche Bank, the last known address of which is Berlin, Germany, is a corporation, organized under the laws of Germany, and which has or, since the effective date of Executive Order No. 8389, as amended, has had its principal place of business in Germany and is a national of a designated enemy country (Germany);

2. That the property described as follows:

a. That certain debt or other obligation owing to Deutsche Bank, by The National City Bank of New York, 55 Wall Street, New York, New York, arising out of a dollar checking account, entitled Deutsche Bank, Berlin, Germany, and any and all rights to demand, enforce and collect the same, and

b. That certain debt or other obligation owing to Deutsche Bank, by The National City Bank of New York, 55 Wall Street, New York, New York, arising out of a dollar checking account, entitled Deutsche Bank, Berlin, Germany, Special Account, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

(40 Stat. 411; 55 Stat. 839, Pub. Law 322, 79th Cong., 60 Stat. 50; Pub. Law 671, 79th Cong.; 60 Stat. 925; 50 U. S. C. App. 1, 616; E. O. 9193, July 6, 1942, 7 F. R. 5205; E. O. 9567, June 8, 1945, 10 F. R. 6917; E. O. 9788, Oct. 14, 1946, 11 F. R. 11981)

FEDERAL TRADE COMMISSION

[Docket No. 5449]

METAL LATH MANUFACTURERS ASSN. ET AL.

ORDER APPOINTING TRIAL EXAMINER AND FIXING TIME AND PLACE FOR TAKING TESTIMONY

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 27th day of December A. D. 1946.

In the matter of Metal Lath Manufacturers Association, Alabama Metal Lath Company, Inc., The Bostwick Steel Lath Company, Ceco Steel Products Corporation, Goldsmith Metal Lath Company, Milcor Steel Company, National Gypsum Company, Penn Metal Company, Inc., Truscon Steel Company, United States Gypsum Company, Wheeling Corrugating Company, members of the Metal Lath Manufacturers Association; A. J. Tuscany and Joseph A. Sampson, individuals.

This matter being at issue and ready for the taking of testimony and the receipt of evidence, and pursuant to authority vested in the Federal Trade Commission,

It is ordered, That Everett F. Haycraft, a Trial Examiner of this Commission, be and he hereby is designated and appointed to take testimony and receive evidence in this proceeding and to perform all other duties authorized by law;

It is further ordered, That the taking of testimony and the receipt of evidence begin on Wednesday, January 29, 1947, at ten o'clock in the forenoon of that day (eastern standard time), in Hearing Room Number 332, Federal Trade Commission Building, Sixth and Pennsylvania Avenue, NW., Washington, D. C.

Upon completion of the taking of testimony and the receipt of evidence in support of the allegations of the complaint, the Trial Examiner is directed to proceed immediately to take testimony and receive evidence on behalf of the respondents. The Trial Examiner on the completion of the taking of testimony and the receipt of evidence will then close the case and make and serve on the parties at issue a recommended decision which shall include recommended findings and conclusions, as well as the reasons or basis therefor, upon all the material issues of fact, law, or discretion presented on the record, and an appropriate recommended order; all of which shall become a part of the record in said proceeding.

By the Commission.

FEDERAL SECURITY AGENCY

Social Security Administration

CERTIFICATION OF STATE UNEMPLOYMENT COMPENSATION LAWS TO SECRETARY OF TREASURY

Pursuant to section 1603 (a) of the Internal Revenue Code as amended, the Social Security Board has heretofore approved the unemployment compensation laws of the following States:

Alabama, Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, District of Columbia, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming.

In accordance with the provisions of section 1603 (c) of the Internal Revenue

Code, the President's Reorganization Plan No. 2 effective July 16, 1946, and the authority delegated to the Commissioner for Social Security by the Federal Security Administrator, I, as Commissioner for Social Security, hereby certify the foregoing States to the Secretary of the Treasury for the taxable year 1946.

Dated: December 31, 1946.

[SEAL] ARTHUR J. ALTMEYER, *Commissioner for Social Security.*

Approved:

MAURICE COLLINS, *Acting Administrator.*

[F. R. Doc. 47-91; Filed, Jan. 3, 1947; 8:52 a. m.]

CERTIFICATION OF STATE LAWS TO SECRETARY OF TREASURY

Whereas, as Commissioner for Social Security, I have heretofore certified to the Secretary of the Treasury the unemployment compensation laws of the States hereinafter enumerated with respect to the taxable year 1946, as provided in section 1603 of the Internal Revenue Code, as amended; and

Whereas, I hereby find that reduced rates of contributions were allowable under the laws of each of said States with respect to the taxable year 1946 only in accordance with the provisions of subsection (a) of section 1602 of said Code:

Now therefore, pursuant to section 1602 (b) (1) of said Code, the President's Reorganization Plan No. 2 effective July 16, 1946, and the authority delegated to the Commissioner for Social Security by the Federal Security Administrator, I, as Commissioner for Social Security, hereby certify to the Secretary of the Treasury the Unemployment Compensation Law of each of the following States for the taxable year 1946:

Alabama, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, District of Columbia, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Missouri, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, South Carolina, South Dakota, Tennessee, Texas, Vermont, Virginia, West Virginia, Wisconsin, and Wyoming.

Dated: December 31, 1946.

CAMP GANEDEN, INC.

CONSENT ORDER

Camp Ganeden, Inc., is a New York Corporation and operates a summer camp known as Camp Ganeden located at Cold Spring, New York. Camp Ganeden is charged by the Civilian Production Administration with violations of Veterans' Housing Program Order 1 in that (1) on or about October 7, 1946, they began construction, repairs, additions and alterations, without authorization, and at a cost in excess of $1,000, in commercial buildings located at Undercliff Park, Cold Spring, New York; (2) on and after October 7, 1946 they carried on construction, repairs, additions and alterations, without authorization, and at a cost in excess of $1,000, in commercial buildings located at Undercliff Park, Cold Spring, New York.

Camp Ganeden, Inc., admits the violations charged and has consented to the issuance of this order.

Wherefore, upon the agreement and consent of Camp Ganeden, Inc., the Regional Compliance Director and the Regional Attorney, and upon the approval of the Compliance Commissioner, *It is hereby ordered*, That:

(a) Neither Camp Ganeden, Inc., its successors and assigns, nor any other person shall do any further construction on the premises located at Undercliff Park, Cold Spring, New York, including the putting up, completing or altering of any of the structures located on said premises, unless hereafter specifically authorized in writing by the Civilian Production Administration.

(b) Camp Ganeden, Inc., shall refer to this order in any application or appeal which they may file with the Civilian Production Administration for priorities assistance or for authorization to carry on construction.

(c) Nothing contained in this order shall be deemed to relieve Camp Ganeden, Inc., its successors and assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 3d day of January 1947.

CIVILIAN PRODUCTION ADMINISTRATION,
By J. JOSEPH WHELAN,
Recording Secretary.

VOLUME 12 NUMBER 4

Washington, Tuesday, January 7, 1947

TITLE 7—AGRICULTURE

Chapter IV—Production and Marketing Administration (Crop Insurance)

[Amdt. 1]

PART 417—TOBACCO CROP INSURANCE

SUBPART—1947

Section 417.109 of the 1947 Tobacco Crop Insurance Regulations (11 F. R. 13570) is hereby amended to read:

§ 417.109 *Causes of loss insured against.* The insurance contract shall cover loss of tobacco due to unavoidable causes, including drought, flood, hail, wind, frost, winter-kill, lightning, fire, excessive rain, snow, wildlife, hurricane, tornado, insect infestation, plant disease, pole burn, and such other unavoidable causes as may be determined by the Board of Directors of the Corporation. All of the above-mentioned causes of loss will be insured against throughout the insurance period in all counties in which tobacco crop insurance is offered notwithstanding any provision to the contrary with respect to particular counties contained in the "application for Tobacco Crop Insurance for 1947." (Secs. 506 (e), 507 (c), 508, 509, 516 (b), 52 Stat. 73, as amended; 7 U. S. C. 1506 (e), 1507 (c), 1508, 1509, 1516 (b))

Adopted by the Board of Directors on December 18, 1946.

[SEAL] E. D. BERKAW,
Secretary, Federal Crop Insurance Corporation.

Approved: December 31, 1946.

CLINTON P. ANDERSON,
Secretary of Agriculture.

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders)

PART 961—MILK IN THE PHILADELPHIA, PENNSYLVANIA, MARKETING AREA

ORDER SUSPENDING CERTAIN PROVISIONS

Pursuant to the applicable provisions of Public Act No. 10, 73d Congress, as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), hereinafter referred to as the "act," and of the order, as amended, regulating the handling of milk in the Philadelphia, Pennsylvania, marketing area, hereinafter referred to as the "order," it is hereby found and determined that the following provision of such order does not tend to effectuate the declared policy of the act: the words "the last ten market days of" contained in the first proviso of subparagraph (a) (1) of § 961.4.

It is hereby further found and determined that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 237) in connection with the issuance hereof is impracticable, unnecessary, and contrary to the public interest, in that (1) the information upon which this action is based did not become available in sufficient time for such compliance; and (2) the issuance of this suspension order effective January 1, 1947, is necessary to the effectuation of the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended.

It is therefore ordered, That the following provision of the order be and it hereby is suspended effective 12:01 a. m., e. s. t., January 1, 1947: the words "the last ten market days of" contained in the first proviso of subparagraph (a) (1) of § 961.4.

(48 Stat. 31, 670, 675; 49 Stat. 750; 50 Stat. 246; 7 U. S. C. 601 et seq.)

Done at Washington, D. C., this 31st day of December 1946.

[SEAL] CLINTON P. ANDERSON,
Secretary of Agriculture.

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following legal holidays, by the Division of the Federal Register, the National Archives, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., ch. 8B), under regulations prescribed by the Administrative Committee, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the Code of Federal Regulations, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended June 19, 1937.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15¢) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

NOTICE

General notices of proposed rule making, published pursuant to section 4 (a) of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 238), which were carried under "Notices" prior to January 1, 1947, are now presented in a new section entitled "Proposed Rule Making". Relationship of these documents to material in the Code of Federal Regulations, formerly shown by cross reference under the appropriate Title, is now indicated by a bold-face citation in brackets at the head of each document.

TITLE 12—BANKS AND BANKING

Chapter II—Federal Reserve System

Subchapter A—Board of Governors of the Federal Reserve System

PART 222—CONSUMER CREDIT

PRESERVATION OF RECORDS

The following interpretation under this part (11 F. R. 13949) relating to Consumer Credit was issued by the Board of Governors of the Federal Reserve System on December 23, 1946:

§ 222.108 *Preservation of records.* Advice has been requested of the Board of Governors regarding the preservation of records under § 222.8 (a). Specifically, it was asked whether the "Statement of the Borrower" required under § 222.4 (d) need be preserved after a credit has been revised in accordance with the Part.

Briefly, § 222.8 (a) requires a registrant to preserve relevant documents for the "life of the obligation to which they relate". This, of course, includes the "Statement of the Borrower".

The Board's view is that "the obligation", as that term is used in § 222.8 (a), means the original obligation with respect to which the statement was procured, and, therefore, does not require the preservation of the statement executed in connection with any such original obligation after a new obligation has arisen by virtue of a revision of the old credit.

(Sec. 5 (b), 40 Stat. 415, as amended by sec. 5, 40 Stat. 966; sec. 2, 48 Stat 1; sec. 1, 54 Stat. 179; secs. 301 and 302, 55 Stat. 839, 840; 12 U. S. C. 95 (a) and Supp.; 50 U. S. C. App. 616, 617; E. O. 8843, Aug. 9, 1941; 3 CFR Cum. Supp.)

[SEAL] BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM,
MERRITT SHERMAN,
Assistant Secretary.

TITLE 14—CIVIL AVIATION

Chapter II—Administrator of Civil Aeronautics

PART 651—PROCEDURE OF THE CIVIL AERONAUTICS ADMINISTRATION

MEDICAL CERTIFICATES

Acting pursuant to the authority vested in me by the Civil Aeronautics Act of 1938, as amended (52 Stat. 986–1008; 49 U. S. C. 458, 552), and in accordance with the Administrative Procedure Act (Public Law 404, 79th Congress, 2d session), I hereby amend Part 651 (11 F. R. 177A-322) of the procedure of the Civil Aeronautics Administration as follows:

1. By amending § 651.33 (c) to read as follows:

§ 651.33 *Medical certificates.* • • •

(c) *Third class.* A third class medical certificate includes students and private pilots and free balloon pilots. This examination is conducted by a designated medical examiner or a competent licensed physician. If the examination is performed by a non-designated physician, the report of the examination is made on Form ACA 1345 and forwarded to the regional medical officer of the regional office having jurisdiction over the area in which such physician resides.

(52 Stat. 986–1008; 49 U. S. C. 458, 552)

[SEAL] T. P. WRIGHT,
Administrator of Civil Aeronautics.

PART 5—PAYMENTS TO PARTICIPANTS IN THE TRAINING PROGRAM OF THE UNITED STATES COAST AND GEODETIC SURVEY UNDER THE PHILIPPINE REHABILITATION ACT OF 1946

Sec.
5.1 Statement of program.
5.2 Purpose and scope of program.
5.3 Applicability of existing regulations.
5.4 Type of appointment.
5.5 Compensation.
5.6 Travel grants to Philippine-trainees.
5.7 Maintenance allowances to Philippine-trainees.
5.8 Survey vessel and ship employees.
5.9 Additional authorization.
5.10 Insurance or medical services.
Sec.
5.11 Clothing.
5.12 General conditions of employment.

AUTHORITY: §§ 5.1 to 5.12, inclusive, issued under R. S. 161, secs. 301, 310, 311, Pub. Law 370, 79th Cong.; Pub. Law 521, 79th Cong.

§ 5.1 *Statement of program.* The Coast and Geodetic Survey is authorized to continue survey work in the Philippines, and to detail qualified personnel of the Bureau to instruct and train not exceeding twenty citizens of the Republic of the Philippines each year prior to July 1, 1950. These citizens shall be designated by the President of the Republic of the Philippines in accordance with standards established by the Director of the Coast and Geodetic Survey.

§ 5.2 *Purpose and scope of program.* The objectives of the Coast and Geodetic Survey are (a) to provide trained personnel of the Bureau to conduct and supervise surveying, mapping, and charting operations in the Philippine Islands and (b) to train citizens of the Republic of the Philippines in the efficient conduct of Coast and Geodetic Survey activities,

§ 5.3 *Applicability of existing regulations.* The provisions of the Code of Federal Regulations of the United States of America, Title 15, Commerce Subtitle A—Office of the Secretary of Commerce,

Part 4 (15 CFR 1944 Supp. 1691), and Department of State regulations (22 CFR 1944 Supp. 28.1–28.12; as amended, 11 F. R. 6904), are hereby made effective to govern payments to and in behalf of persons employed and receiving instruction or training in accordance with the provisions of the Philippine Rehabilitation Act of 1946, insofar as said regulations may be found applicable.

§ 5.4 *Type of appointment.* Persons selected for employment and training under this program shall be given excepted appointments in the Coast and Geodetic Survey. These appointments shall be limited to July 1, 1950. The title of the position shall be, "Philippine-trainee."

§ 5.5 *Compensation.* The Director of the Coast and Geodetic Survey shall determine the amount of salary or compensation to be paid Philippine-trainees under this program, and such salary or compensation may vary with the location of the assignment or other working conditions.

§ 5.6 *Travel grants to Philippine-trainees.* Each applicant selected for training in the United States will also receive first-class round trip transportation to the United States and return and the following allowances:

(a) A per diem of not more than $3.50 during the boat travel, or not more than $7.00 per diem during land or air travel, to or from the United States.

(b) Transportation in the United States performed in connection with their assignments and training.

§ 5.7 *Maintenance allowances to Philippine-trainees.* Each Philippine-trainee shall receive a maintenance allowance of not more than $6.00 per day for quarters and subsistence during office or field assignments in the United States, not more than $4.00 per day for subsistence during assignments on board Coast and Geodetic Survey vessels operating in United States waters, and $1.00 per day subsistence allowance while on assignment in the Republic of the Philippines.

§ 5.8 *Survey vessel and ship employees.* The U. S. Coast and Geodetic Survey shall assume all financial responsibility for the manning, operating, and repair of one survey vessel. This survey vessel will be provided by the Republic of the Philippines. The rates of pay and allowable rations for members of the crew of Chief Engineer shall be fixed by the Director, subject to the approval of the Secretary of Commerce.

§ 5.9 *Additional authorization.* Any emergency, unusual or additional payment deemed necessary under the program, if allowable under any existing authority may be authorized whether or not specifically provided for by these regulations.

§ 5.10 *Insurance or medical services.* Insurance or medical services (except those provided on U. S. Government vessels) must be at the expense of the individual.

§ 5.11 *Clothing.* All clothing required by the trainee must be obtained at his expense.

§ 5.12 *General conditions of employment.* Philippine-trainees are exempt from the following appointment requirements: Age, citizenship, veterans' preference, physical condition, fingerprinting, civil service examination, and oath of office. Philippine-trainees are likewise not subject to the provisions of the Retirement Act. Philippine-trainees are, however, subject to the usual leave of absence provisions applicable to Department of Commerce temporary employees (see Administrative Order 202–17), the usual rights under the United States Employees' Compensation Act (see Administrative Order 202–19), and to such other policies and procedures applicable generally to the conditions of temporary employment in the Department of Commerce and which are not inconsistent with the basic purposes of the training program.

Dated: December 6, 1946.

[SEAL] L. O. COLBERT,
Director,
U. S. Coast and Geodetic Survey.

Approved: December 9, 1946.

WILLIAM C. FOSTER,
Acting Secretary of Commerce.

Approved: December 30, 1946.

JAMES F. BYRNES,
Secretary of State.

TITLE 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 12—REMOVALS AND REDUCTIONS

RETENTION PREFERENCE REGULATIONS FOR USE IN REDUCTIONS IN FORCE

Correction

In Federal Register Document 47-88, appearing at page 59 of the issue for Saturday, January 4, 1947, the introductory paragraph of § 12.310 (carried under amendatory paragraph 2) should read as follows:

§ 12.310 *Notice to employees.* An employee in group A–1 or A–2 with competitive status affected by a reduction in force shall be given an individual notice in writing one year before the action becomes effective. His one-year notice period shall be composed of, whenever possible, at least 30 days in an active duty status; a non-duty status with pay for the duration of his leave, if any; and the balance of the year in a furlough or leave without pay status. Exceptions to this rule are authorized when the employee requests separation in lieu of furlough, or when the agency as a whole is liquidating, in which case the notice period shall terminate as of the day the agency is finally liquidated.

TITLE 32—NATIONAL DEFENSE

Chapter I—Office of Temporary Controls, Office of the Administrator

[OTC Reg. 3]

PART 3—DELEGATION OF AUTHORITY

ADOPTION, RATIFICATION, CONFIRMATION AND VALIDATION OF OWMR AND OES ACTIONS

§ 3.201 *Adoption, ratification, confirmation and validation of OWMR and OES actions.* All rules, regulations, orders directives, directions, certificates, delegations of authority, including the continuing authority to issue orders and to take other action thereunder, organizational documents, procedural documents, and any other actions which were issued or taken by, or under the authority of the Director of War Mobilization and Reconversion and of the Economic Stabilization Director, or by any other authorized official of the Office of War Mobilization and Reconversion and the Office of Economic Stabilization, and which were in effect on December 12, 1946 are, in accordance with Executive Order 9809, hereby adopted, ratified and confirmed, and shall remain in full force and effect until they expire by their terms or are revoked or amended. (E. O. 9809, Dec. 12, 1946, 11 F. R. 14281)

Issued this 31st day of December 1946.

PHILIP B. FLEMING,
Temporary Controls Administrator.

Chapter VI—Selective Service System

[Amdt. 414]

PART 632—INDUCTION CALLS

REGISTRANTS OUTSIDE OF UNITED STATES

Pursuant to authority contained in the Selective Training and Service Act of 1940, as amended, Selective Service Regulations, Second Edition, are hereby amended in the following respect:

1. Amend § 632.4–2 to read as follows:

§ 632.4–2 *Registrants outside of the United States when ordered to report for induction.* Men ages 19 through 29 and men who have volunteered for induction and who are of an age currently acceptable to the armed forces as volunteers if outside of the United States at the time they are ordered to report for induction, shall, under special procedures prescribed by the Director of Selective Service, be ordered to report at their own expense for induction in the United States, or, in lieu of so reporting for induction, shall be permitted, upon receipt of the order to report for induction, to enlist immediately in the armed forces of the United States outside the United States in any country the government of which does not prohibit such enlistment.

The foregoing amendments to the Selective Service Regulations shall be effective within the continental United States immediately upon the filing hereof with the Division of the Federal Register and shall be effective outside the continental limits of the United States on the 30th day after the date of filing hereof with the Division of the Federal Register.

(54 Stat. 885, 55 Stat. 627, 844, 56 Stat. 1018, 59 Stat. 166; 50 U. S. C. App. Sup. 302 et seq.)

LEWIS B. HERSHEY,
Director.

DECEMBER 30, 1946.

[F. R. Doc. 47-135; Filed, Jan. 6, 1947; 8:49 a. m.]

[Amdt. 415]

PART 633—DELIVERY AND INDUCTION

REGISTRANTS INDUCTED BECAUSE OF REQUEST FOR IMMEDIATE INDUCTION OR ENLISTING OUTSIDE UNITED STATES

Pursuant to authority contained in the Selective Training and Service Act of 1940, as amended, Selective Service Regulations, Second Edition, are hereby amended in the following respect:

Amend § 633.24 to read as follows:

§ 633.24 *Registrants inducted because of request for immediate induction or enlisting outside United States to be listed on Delivery List (DSS Form 151).* When the local board receives a Delivery List (DSS Form 151) from the induction station showing that a registrant who has signed a Request for Immediate Induction (DSS Form 219) has been inducted into the armed forces without a call, or when the local board receives a Delivery List (DSS Form 151) or other information showing that a registrant has enlisted in the armed forces outside the United States, it shall (a) list such registrant on the Delivery List (DSS Form 151) for the next group selected to report for induction to fill a call and opposite the name of each such registrant under "Remarks" in column 3 enter the fact that such registrant has been inducted at the induction station or has enlisted outside the United States, the date of such induction or enlistment, and, if the registrant was inducted, the fact that such induction resulted from the registrant's signing a Request for Immediate Induction (DSS Form 219), and (b) count such registrant toward filling such induction call.

The foregoing amendment to the Selective Service Regulations shall be effective within the Continental United States immediately upon the filing hereof with the Division of the Federal Register and shall be effective outside the continental limits of the United States on the 30th day after the date of filing hereof with the Division of the Federal Register. (54 Stat. 885, 55 Stat. 627, 844, 56 Stat. 1018, 59 Stat. 166; 50 U. S. C. App. Sup. 302 et seq.)

LEWIS B. HERSHEY,
Director.

DECEMBER 30, 1946.

[F. R. Doc. 47-136; Filed, Jan. 6, 1947; 8:49 a. m.]

PART 671—LOCAL BOARD MEMORANDUM

CLASSIFICATION, PHYSICAL EXAMINATION, AND INDUCTION OF U. S. CITIZENS WHO ARE OUTSIDE THE UNITED STATES

Pursuant to the provisions of the Administrative Procedures Act, the following directive issued under authority of the Selective Training and Service Act of 1940, as amended, is hereby made a matter of record:

§ 671.189 *Classification, physical examination, and induction of United States citizens who are outside the United States, Hawaii, Alaska, Puerto Rico, and the Virgin Islands of the United States*—(a) *General*—(1) *Scope of section.* This section is concerned with the classification, physical examination, and induction of United States citizens who are outside the United States,[1] and with the special procedures relating thereto.

(2) *Place of registration immaterial.* Certain citizens who are outside the United States are registered in the United States and certain others are required to register in foreign countries in accordance with the President's Proclamation of October 26, 1943. For the purposes of this section, it is immaterial where the citizen is registered. If he registered outside the United States, the registration was accomplished by an American diplomatic or consular representative, by a representative of The Panama Canal, or by any other person regularly appointed as a registrar by completing the Registration Card (DSS Form 1-F). The completed DSS Form 1-F is transmitted to the National Headquarters of Selective Service and from there distributed to the appropriate local board. (See § 618.11, Selective Service Regulations.)

(3) *Assignment of serial and order numbers to citizens registered outside the United States.* For citizens registered outside the United States, the local board shall prepare Registration Cards (DSS Form 1) and Registration Certificates (DSS Form 2-F), assign serial and order numbers in the manner prescribed for late registrants (see Part 615, Selective Service Regulations), and file the Registration Cards.

(4) *Duty to obey orders of local board.* A citizen is not relieved of his liability for training and service, or of the duty to obey the orders of his local board by reason of his being outside the United States. Any registrant coming within the purview of this memorandum shall be deemed a delinquent, and so reported in the prescribed manner, in the event of his failure to comply with the orders necessary to his processing. Delinquents shall be processed under Part 642 of this chapter.

(5) *Certain forms not required.* Forms not specifically enumerated in this memorandum shall not be forwarded when processing registrants who are outside the United States for classification, physical examination, or induction.

(b) *Classification*—(1) *Classification procedure.* Except as otherwise provided herein, the procedure for the classification of a citizen who is outside the United States shall be the same as for any other registrant.

(2) *Preparation of DSS Forms 40 and 40-F.* Unless a completed DSS Form 40 has already been filed, the local board shall:

(i) For citizens who registered in the United States, type on page 1 of a DSS Form 40 the registrant's present mailing address outside the United States, complete page 1, and insert the Additional Instructions to Registrants Outside the United States (DSS Form 40-F).

(ii) For citizens who registered outside the United States, type on page 1 of DSS Form 40 the registrant's present mailing address outside the United States and the address of the American embassy, legation, consulate, or office of The Panama Canal at which he registered. Complete page 1 of DSS Form 40 and insert DSS Form 40-F.

(3) *Time for returning DSS Forms 40 and 40-F.* The local board shall extend the usual 10-day limit for returning the DSS Forms 40 and 40-F to not less than 60 days for a registrant who is in Canada, Cuba, Mexico, or The Panama Canal Zone, and to not less than 90 days for a registrant who is in any other place outside the United States.

(4) *Mailing of DSS Forms 2-F, 40, and 40-F.* The DSS Forms 2-F, 40, and 40-F, completed as required herein, shall be transmitted to the registrant in the following manner:

(i) Mail the DSS Forms 2-F, 40, and 40-F directly to a registrant in Canada, Cuba, Mexico, or The Panama Canal Zone.

(ii) Mail the DSS Forms 2-F, 40, and 40-F pertaining to a registrant who is outside the United States in a country other than Canada, Cuba, Mexico, and The Panama Canal Zone to the State Director of Selective Service for review and transmittal to the Director of Selective Service, Washington, D. C., for transmission to the registrant.

(5) *Classification.* Upon receipt of the completed DSS Forms 40 and 40-F the local board shall classify the registrant, prepare a Notice of Classification (DSS Form 57) and transmit the latter form to the registrant in the manner indicated in sub-paragraph (4) of this paragraph. It shall also prepare and mail Classification Advice (DSS Form 59) in the usual manner. A notation of the period of time within which an appeal may be taken shall be made on the DSS Forms 57 and 59.

(6) *Appeal to board of appeal or to the President.* For registrants in Canada, Cuba, Mexico, or The Panama Canal Zone, an appeal may be taken within 30 days after the date the local board mails to the registrant a Notice of Classification (DSS Form 57), and for registrants in other places outside the United States, within 60 days after the date the local board transmits to the registrant in the manner outlined herein in sub-paragraph (4) of this paragraph. A Notice of Classification (DSS Form 57), If an appeal is taken to the board of appeal, the local board shall immediately transmit the file on appeal in the manner provided in § 627.13 of this chapter whether or not the registrant has been ordered to report for or has submitted to a physical examination. Notice of Classification (DSS Form 57), after appeal, shall be mailed or transmitted to the registrant in the manner indicated in sub-paragraph (4) of this paragraph, and Classification Advice (DSS Form 59) shall be mailed to any person, other than the registrant, concerned.

(c) *Physical examination*—(1) *Physical examination of citizens outside the United States.* As soon as the local board classifies into Class I-A, Class I-A-O, or Class IV-E a citizen within an age group acceptable to the armed forces, who is outside the United States, Hawaii, Alaska, Puerto Rico, and the Virgin Islands of the United States the local board shall order him to submit to a physical examination as provided in this paragraph unless (i) he has been given a preinduction physical examination under Part 629 of this chapter, or (ii) the local board has received a report of his physical examination, otherwise given, and regardless of the date of such physical examination.

(2) *Procedure for physical examination.* To accomplish such physical examination the local board shall proceed as follows:

(i) Properly prepare Part I of Order to Report—Preinduction Physical Examination—Special (DSS Form 215-F) in triplicate. Part II thereof will be completed by the American diplomatic or consular officer concerned, or by a representative of The Panama Canal. File one copy of DSS Form 215-F in the registrant's cover sheet.

(ii) Prepare the original and copy of Report of Physical Examination and Induction (DSS Form 221) complete as to section 1 and item 20 of section 2.

(iii) Mail original and one copy of DSS Form 215-F and the original and copy of DSS Form 221 to the State Director of Selective Service for review and transmittal to the Director of Selective Service, Washington, D. C., for all registrants concerned outside the United States, including such registrants in Canada, Cuba, Mexico, and The Panama Canal Zone. The Director will arrange for the physical examination of such citizens through appropriate governmental agencies.

(3) *Procedure for physical examination if citizen reports to local board.* If in response to an Order to Report—Preinduction Physical Examination—Special (DSS Form 215-F) a citizen outside the United States reports to his local board he shall be forwarded to the induction station for preinduction physical examination under Part 629 of this chapter.

(4) *Procedure after physical examination.* Following such physical examination the local board will receive the completed original and the copy of DSS Form 221 from the induction station, or, if the physical examination was given outside the United States, the local board will receive the completed original and the copy of DSS Form 221, or such other report of physical examination as is deemed appropriate in lieu of DSS Form 221, with a notation of National Headquarters thereon concerning the result of such physical examination.

(i) If the DSS Form 221 received from the induction station, or the notation on the form received from National Headquarters indicates that the registrant does not meet the current physical and mental requirements of the Army or of the Navy for service therewith his classification shall be reopened and he shall be placed in the first class listed in § 623.21 of this chapter for which he is eligible. The local board shall then prepare a Notice of Classification (DSS Form 57) and transmit it to the registrant in the usual manner indicated in subparagraph (4) of paragraph (b) of this section. The local board shall also prepare and mail Classification Advice (DSS Form 59) and complete and distribute the original and the copy of DSS Form 221 in the usual manner.

(ii) If the DSS Form 221 received from the induction station shows the registrant to be qualified for general military service, or the notation on the form received from National Headquarters indicates that the registrant apparently does meet the current physical and mental requirements of the Army or of the Navy for service therewith the local board shall proceed in the manner prescribed in paragraph (d) of this section.

(5) *Induction regardless of date of physical examination outside United States.* In any case of a registrant who has been physically examined outside the United States through arrangements made by the Director through appropriate government agencies and who thereby apparently meets the current physical and mental requirements of the Army or of the Navy for service therewith, as is indicated by the notation of National Headquarters on the DSS Form 221, or on such other report of physical examination as is deemed appropriate in lieu of DSS Form 221, the local board shall proceed to order him for induction in the manner provided in this memorandum regardless of the date of such physical examination.

(d) *Induction*—(1) *Induction of citizens outside the United States.* (i) A citizen outside the United States finally classified in Class I-A, or Class I-A-O, who has been found qualified for general military service under Part 629 of this chapter or who, as the result of a physical examination arranged for by the Director through appropriate government agencies apparently meets the current physical and mental requirements of the Army or of the Navy for service therewith, as indicated by the notation of National Headquarters on the report of such physical examination, shall be ordered to report at his own expense for induction in the United States or its possessions where inductions are being accomplished in accordance with his sequence of volunteering, if a volunteer, or at such time as his order number is reached in the group of nonvolunteers to which the registrant properly belongs in the process of filling a call for the Army or for the Navy. (If such citizen is a delinquent he shall be ordered to report for induction without a physical examination and without reference to the sequence of his order number.)

(ii) The local board shall prepare the Order to Report for Induction—Special (DSS Form 150-F) pertaining to such citizen in original and two copies, signed by a member or clerk of the local board. The original and first copy of the form shall be mailed to the State Director of Selective Service for review and transmittal to the Director of Selective Service, Washington, D. C. The second copy shall be placed and retained in the registrant's Cover Sheet (DSS Form 53).

(iii) The Director, upon receipt of the above form, will transmit the original to the registrant for compliance with instructions contained therein.

(2) *Induction of citizens who return to the United States.* (i) When a registrant returns to the United States in compliance with an Order to Report for Induction—Special (DSS Form 150-F) he shall proceed directly and without delay to his local board unless he elects to transfer for induction, upon reaching the United States, as provided in § 633.11 of this chapter.

(ii) If a registrant returns to the United States not in compliance with an Order to Report for Induction—Special (DSS Form 150-F), but following a physical examination arranged for by the Director through appropriate government agencies by which he was apparently found to meet the current physical and mental requirements of the Army or of the Navy for service therewith, the local board shall process him for induction in the same manner as any other registrant residing in the United States, except that it shall not be necessary to forward him for a preinduction physical examination, regardless of the date of his physical examination. When such registrant is forwarded for induction the DSS Form 151 shall contain a notation under "Remarks" opposite his name that a physical examination has already been accomplished.

(3) *Failure to report for induction.* If the registrant fails to comply with the Order to Report for Induction—Special (DSS Form 150-F), he is delinquent and should be processed under the provisions of Part 642 of this chapter.

(4) *Citizens outside the United States permitted to enlist.* A citizen outside the United States will be permitted, in lieu of reporting at his own expense to his local board or to a local board of transfer, to enlist immediately in the United States Armed Forces outside the United States in any country the government of which does not prohibit such enlistment.

(e) *Volunteers; registrants outside the United States who volunteer for induction and request immediate induction.* Registrants who are outside the United States and who sign an Application for Voluntary Induction (DSS Form 165) and a Request for Immediate Induction (DSS Form 219) shall be processed in the manner prescribed in this section for other registrants outside the United States.

(f) *Work of national importance; assignment of Class IV-E registrants.* A citizen outside the United States, finally classified in Class IV-E, who as a result of a preinduction physical examination under Part 629 of this chapter has been found qualified for service with the armed forces, or who as a result of a physical examination outside the United States apparently meets the current physical and mental requirements of the Army or of the Navy for service therewith, shall be assigned to work of national importance under Part 652 of this chapter.

(54 Stat. 885, 55 Stat. 627, 844, 56 Stat. 1018, 59 Stat. 166; 50 U. S. C. App. Sup. 302, et seq.)

LEWIS B. HERSHEY,
Director.

[F. R. Doc. 47-134; Filed, Jan. 6, 1947; 8:45 a. m.]

[1] Wherever in this memorandum the phrase "the United States" appears it means the continental United States, Hawaii, Alaska, Puerto Rico, and the Virgin Islands of the United States. Whether a citizen is outside the United States shall be determined by the citizen's mailing address as shown by the latest information in his Cover Sheet.

Chapter IX—Office of Temporary Controls, Civilian Production Administration

AUTHORITY: Regulations in this chapter unless otherwise noted at the end of documents affected, issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236, 56 Stat. 177, 58 Stat. 827, and Public Laws 270 and 475, 79th Congress; Public Law 388, 79th Congress; E. O. 9024, 7 F. R. 329; E. O. 9040, 7 F. R. 527; E. O. 9125, 7 F. R. 2719; E. O. 9599, 10 F. R. 10155; E. O. 9638, 10 F. R. 12591; C. P. A. Reg. 1, Nov. 5, 1945, 10 F. R. 13714; Housing Expediter's Priorities Order 1, Aug. 27, 1946, 11 F. R. 9507; E. O. 9809, Dec. 12, 1946, 11 F. R. 14281; OTC Reg. 1, 11 F. R. 14311.

PART 1010—SUSPENSION ORDERS

[Suspension Order S–1066]

M. J. DONTAS

M. J. Dontas, 551 Highland Avenue, Warren, Ohio, at some time during July or August 1946, without authorization from the Civilian Production Administration resumed and carried on until October 17, 1946 the construction of a warehouse and storage building located at 1809 Elm Road Extension, Warren, Ohio. M. J. Dontas had originally begun this construction by laying footings for the foundation of said structure during October 1945, whereupon construction had been suspended and no further construction had been done until it was resumed as above stated. The estimated cost of said construction is $8,000. The resuming and carrying on of construction as aforesaid constituted a violation of Veterans' Housing Program Order No. 1. This violation has diverted critical materials to uses not authorized by the Civilian Production Administration. In view of the foregoing, it is hereby ordered that:

§ 1010.1066 *Suspension Order No. S–1066.* (a) Neither M. J. Dontas, his successors or assigns, nor any other person shall do any further construction on the premises located at 1809 Elm Road Extension, Warren, Ohio, including putting up, completing or altering the structure, unless hereafter authorized in writing by the Civilian Production Administration.

(b) M. J. Dontas shall refer to this order in any application or appeal which he may file with the Civilian Production Administration for priorities assistance or for authorization to carry on construction.

(c) Nothing contained in this order shall be deemed to relieve M. J. Dontas, his successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 6th day of January 1947.

CIVILIAN PRODUCTION ADMINISTRATION,
By J. JOSEPH WHELAN,
Recording Secretary.

Chapter XVIII—Office of Temporary Controls, Office of War Mobilization and Reconversion (Stabilization)

PART 4003—SUBSIDIES; SUPPORT PRICES

LIVESTOCK SLAUGHTER PAYMENTS

CROSS REFERENCE: For amendments affecting § 4003.51, covering the livestock slaughter program, see Part 4004 of this chapter, *infra.*

[Directive 41,[1] Amdt. 9]

PART 4004—PRICE STABILIZATION; MAXIMUM PRICES

LIVESTOCK SLAUGHTER PAYMENTS

Section 4004.1 *Livestock slaughter payments* (Directive 41) is amended in the following respects:

1. The last sentence of paragraph (a) of section 7 is amended to read as follows: "No subsidy withheld under this section 7 (a) for refusal or failure to furnish information requested or required by the Office of Price Administration shall be released unless the requested or required information is provided on or before February 28, 1947."

2. The last sentence of subparagraph (5) of section 7 (b) is amended to read as follows: "Applications for release of subsidy made pursuant to this section 7 (b) (5) must be made on or before February 28, 1947."

3. The last sentence of subparagraph (6) of section 7 (c) is amended to read as follows: "Applications for release of subsidy made pursuant to this section 7 (c) (6) must be made on or before February 28, 1947."

4. The last sentence of paragraph (b) of section 12 is amended to read as follows: "Applications for release of subsidy made pursuant to this section 12 (b) must be made on or before February 28, 1947."

Chapter XXIII—War Assets Administration

[Reg. 1, Amdt. 3]

PART 8301—DESIGNATION OF DISPOSAL AGENCIES AND PROCEDURES FOR REPORTING SURPLUS PROPERTY LOCATED WITHIN THE CONTINENTAL UNITED STATES, ITS TERRITORIES AND POSSESSIONS

War Assets Administration Regulation 1, July 19, 1946, entitled "Designation of Disposal Agencies and Procedures for Reporting Surplus Property Located within the Continental United States, Its Territories and Possessions", as amended through November 26, 1946 (11 F. R. 7970, 10221, 13969), is hereby further amended by deleting from § 8301.4 the word "American" in the last clause of the first sentence thereof; also, by deleting the next to the last sentence of said section which reads: "The term 'other American governments' refers to and includes all American governments within the Western Hemisphere except the United States, its territories and possessions."

(Surplus Property Act of 1944, as amended; 58 Stat. 765, as amended; 50 U. S. C. App. Sup. 1611; Pub. Law 181, 79th Cong.; 59 Stat. 533; 50 U. S. C. App. Sup. 1614a, 1614b; and E. O. 9689, 11 F. R. 1265)

This amendment shall become effective January 2, 1947.

ROBERT M. LITTLEJOHN,
Administrator.

DECEMBER 31, 1946.

[Regulation 1,[1] Amdt. 1 to Order 1]

PART 8301—DESIGNATION OF DISPOSAL AGENCIES AND PROCEDURES FOR REPORTING SURPLUS PROPERTY LOCATED WITHIN THE CONTINENTAL UNITED STATES, ITS TERRITORIES AND POSSESSIONS

ASSIGNMENT OF SURPLUS PROPERTY

War Assets Administration Regulation 1, Order 1, July 19, 1946, entitled "Assignment of Surplus Property" (11 F. R. 7973), is amended in the following respects:

1. The assignment of items to War Assets Administration under Major Group 05–7 is amended to read as follows:

05–7 Crude medicinal herbs, roots, barks, and other plant parts, except U. S. P., N. F. and similar grades, and except the following:

05 7143 Coca leaves.
Marihuana leaves classified under 05 7149.
05 7164 Opium bearing plant parts.

2. The assignment of items to War Assets Administration under Major Group 65 is amended to read as follows:

65 Drugs and Medicine except the following:

[1] 11 F. R. 7970, 10221, 13969.

65 2120 through 65 2129 Coca alkaloids, derivatives and preparations, m. g.
65 2150 through 65 2159 Opium alkaloids, derivatives and preparations, m. g.
65 2222 through 65 22229 Opium, opium processed and preparations, m. g.
65 3203 through 65 32039 Cannabis, dried flowering top and preparations, m. g. (Marihuana, dried flowering top, and preparations, m. g.)
65 7000 through 65 7970 Prescription pharmaceuticals and preparations containing two or more therapeutic agents, m. g., when they contain any quantity of opium, coca leaves, Cannabis or their derivatives, including, but not limited to, the following items:
65 7141 1 Powder of ipecac and opium m. g.
65 7161 2 Epinephrine and cocaine, m. g.
65 7250 2 Compound mixture of opium and glycyrrhiza, m. g. (Brown mixture).
65 7271 143 Elixir of terpine hydrate and codeine, m. g.
65 7271 601 Camphorated tincture of opium, m. g.
65 7960 6 Dilaudid hydrochloride suppositories, m. g.
65 8000 through 65 8290 Proprietary remedies, nonprescription pharmaceuticals, containing two or more medicinal agents, for human and animal use, m. g. when they contain any quantity of opium, coca leaves, Cannabis or their derivatives.

Surplus Property Act of 1944, as amended; 58 Stat. 765, as amended; 50 U. S. C. App. Sup. 1611; Pub. Law 181, 79th Cong.; 59 Stat. 533; 50 U. S. C. App. Sup. 1614a, 1614b; and E. O. 9689, 11 F. R. 1265)

This amendment shall become effective December 31, 1946.

ROBERT M. LITTLEJOHN,
Administrator.

DECEMBER 31, 1946.

[F. R. Doc. 47–184; Filed, Jan. 6, 1947; 11:06 a. m.]

[Reg. 1,[1] Order 2]

PART 8301—DESIGNATION OF DISPOSAL AGENCIES AND PROCEDURES FOR REPORTING SURPLUS PROPERTY LOCATED WITHIN THE CONTINENTAL UNITED STATES, ITS TERRITORIES AND POSSESSIONS

LOCATION OF DISPOSAL AGENCY OFFICES

War Assets Administration Regulation 1, Order 2, July 19, 1946 entitled "Location of Disposal Agency Offices" (11 F. R. 7974), is hereby revised and amended as herein set forth. New matter is indicated by underscoring.

Pursuant to the authority of the Surplus Property Act of 1944, as amended (58 Stat. 765, as amended; 50 U. S. C. App. Sup. 1611); Public Law 181, 79th Congress (59 Stat. 533; 50 U. S. C. App. Sup. 1614a, 1614b); and Executive Order 9689 (11 F. R. 1265), *It is hereby ordered,* That:

§ 8301.52 *Location of disposal agency offices.* (a) Disposal agencies shall notify the Administrator whenever a change is made in the location of any office at which declarations of surplus property are directed to be filed. All such changes will be carried into this order by amendment.

(b) Changes in the procedures for filing declarations of surplus prescribed in this order may be made on application to the Administrator.

(c) Except as provided in paragraph (d), declarations of surplus personal property located in the continental United States shall be filed at the following offices of the appropriate disposal agencies:

WAR ASSETS ADMINISTRATION

CAPITAL AND PRODUCERS GOODS AND CONSUMER GOODS

(Except aircraft and aircraft parts and electronic equipment)

Area and Address

Region 1. Boston, Mass. (Address—600 Washington St., Boston, Mass.) Territory: Connecticut (exclusive of Fairfield County), Maine, Massachusetts, New Hampshire, Rhode Island, Vermont.

Region 2. New York, N. Y. (Address—350 Fifth Avenue, New York, N. Y.) Territory: Connecticut (Fairfield County only); New Jersey (northern part), Counties of: Bergen, Essex, Hudson, Hunterdon, Middlesex, Monmouth, Morris, Passaic, Somerset, Sussex, Union, and Warren; New York.

Region 3. Philadelphia, Pa. (Address—Lafayette Building, Fifth and Chestnut Sts., Philadelphia, Pa.) Territory: Delaware; New Jersey, Counties of: Atlantic, Burlington, Camden, Cape May, Cumberland, Gloucester, Mercer, Ocean, and Salem; Pennsylvania (all except extreme western part), Counties of: Adams, Bedford, Berks, Blair, Bradford, Bucks, Cambria, Cameron, Carbon, Centre, Chester, Clearfield, Clinton, Columbia, Cumberland, Dauphin, Delaware, Elk, Franklin, Fulton, Huntingdon, Juniata, Lackawanna, Lancaster, Lebanon, Lehigh, Luzerne, Lycoming, McKean, Mifflin, Monroe, Montgomery, Montour, Northampton, Northumberland, Perry, Philadelphia, Pike, Potter, Schuylkill, Snyder, Sullivan, Susquehanna, Tioga, Union, Wayne, Wyoming, and York.

Region 4. Cincinnati, Ohio (Address—704 Race Street, Cincinnati, Ohio). Territory: Indiana (central part), Counties of: Bartholomew, Boone, Brown, Dearborn, Decatur, Delaware, Fayette, Franklin, Hamilton, Hancock, Hendricks, Henry, Jennings, Johnson, Madison, Marion, Monroe, Morgan, Ohio, Owen, Putnam, Randolph, Ripley, Rush, Shelby, Tipton, Union, and Wayne; Kentucky (eastern part), Counties of: Bath, Bell, Boone, Bourbon, Boyd, Bracken, Breathitt, Campbell, Carter, Clark, Clay, Elliott, Estill, Fayette, Fleming, Floyd, Garrard, Grant, Greenup, Harlan, Harrison, Jackson, Jessamine, Johnson, Kenton, Knott, Knox, Laurel, Lawrence, Lee, Leslie, Letcher, Lewis, Lincoln, McCreary, Madison, Magoffin, Martin, Mason, Menifee, Montgomery, Morgan, Nicholas, Owsley, Pendleton, Perry, Pike, Powell, Pulaski, Robertson, Rockcastle, Rowan, Scott, Whitley, Wolfe, and Woodford; Ohio, Counties of: Adams, Athens, Belmont, Brown, Butler, Carroll, Champaign, Clark, Clermont, Clinton, Coshocton, Darke, Delaware, Fairfield, Fayette, Franklin, Gallia, Greene, Guernsey, Hamilton, Harrison, Highland, Hocking, Jackson, Jefferson, Knox, Lawrence, Licking, Logan, Madison, Meigs, Miami, Monroe, Montgomery, Morgan, Muskingum, Noble, Perry, Pickaway, Pike, Preble, Ross, Scioto, Shelby, Tuscarawas, Union, Vinton, Warren, and Washington.

Region 5. Chicago, Ill. (Address—1 North LaSalle St., Chicago, Ill.) Territory: Illinois (northern part), Counties of: Boone, Bureau, Carroll, Cass, Champaign, Christian, Clark, Coles, Cook, Cumberland, De Kalb, De Witt, Douglas, Du Page, Edgar, Ford, Fulton, Grundy, Hancock, Henderson, Henry, Iroquois, Jo Daviess, Kane, Kankakee, Kendall, Knox, Lake, La Salle, Lee, Livingston, Logan, McDonough, McHenry, McLean, Macon, Marshall, Mason, Menard, Mercer, Moultrie, Ogle, Peoria, Piatt, Putnam Rock Island, Sangamon, Schuyler, Shelby, Stark, Stephenson, Tazewell, Vermilion, Warren, Whiteside, Will, Winnebago, and Woodford; Indiana (northern part), Counties of: Adams, Allen, Benton, Blackford, Carroll, Cass, Clay, Clinton, De Kalb, Elkhart, Fountain, Fulton, Grant, Howard, Huntington, Jasper, Jay, Kosciusko, Lagrange, Lake, La Porte, Marshall, Miami, Montgomery, Newton, Noble, Parke, Porter, Pulaski, St. Joseph, Starke, Steuben, Tippecanoe, Vermillion, Vigo, Wabash, Warren, Wells, White, and Whitley; Wisconsin (southern part), Counties of: Adams, Brown, Calumet, Clark, Columbia, Crawford, Dane, Dodge, Door, Fond du Lac, Grant, Green, Green Lake, Iowa, Jackson, Jefferson, Juneau, Kenosha, Kewaunee, Lafayette, Langlade, Manitowoc, Marathon, Marinette, Marquette, Milwaukee, Monroe, Oconto, Outagamie, Ozaukee, Portage, Racine, Richland, Rock, Sauk, Shawano, Sheboygan, Vernon, Walworth, Washington, Waukesha, Waupaca, Waushara, Winnebago, and Wood.

Region 6. Atlanta, Ga. (Address—699 Ponce de Leon Ave., N. E., Atlanta, Georgia) Territory: Georgia.

Region 7. Fort Worth, Tex. (Address—Texas and Pacific Office Bldg., P. O. Box 1407, Fort Worth, Tex.) Territory: Texas, Counties of: Andrews, Archer, Armstrong, Bailey, Baylor, Borden, Bosque, Briscoe, Brown, Burnet, Callahan, Carson, Castro, Childress, Clay, Cochran, Coleman, Collingsworth, Coke, Comanche, Concho, Coryell, Cottle, Crockett, Crosby, Dallam, Dawson, Deaf Smith, Dickens, Donley, Eastland, Erath, Fisher, Floyd, Foard, Gaines, Garza, Glasscock, Gray, Hale, Hall, Hamilton, Hansford, Hardeman, Hartley, Haskell, Hemphill, Hockley, Hood, Howard, Hutchinson, Irion, Jack, Johnson, Jones, Kent, King, Knox, Lamb, Lampasas, Lipscomb, Lubbock, Lynn, McCulloch, Martin, Menard, Mills, Mitchell, Montague, Moore, Motley, Nolan, Ochiltree, Oldham, Palo Pinto, Parker, Parmer, Potter, Randall, Reagan, Roberts, Run-

Appendix—Public Land Orders

[Public Land Order 335]

HAWAII

TRANSFERRING FROM WAR DEPARTMENT TO TREASURY DEPARTMENT CERTAIN LAND COMPRISING PART OF SAND ISLAND MILITARY RESERVATION, TERRITORY OF HAWAII

By virtue of the authority vested in the President by section 91 of the act of April 30, 1900, 31 Stat. 159, as amended by section 7 of the act of May 27, 1910, 36 Stat. 447, or otherwise, and pursuant to Executive Order No. 9337 of April 24, 1943, it is ordered as follows:

The following-described tract of land on Sand Island within the area reserved for military purposes by Executive Order No. 3358 of November 24, 1920, is hereby transferred to the Treasury Department for the use of the Coast Guard:

Beginning at a pipe in concrete marking an angle point in the boundary of the Sand Island Military reservation, which point is coincident with the southeast corner of Tract "C", which Tract is now under the jurisdiction of the Treasury Department (Executive Order No. 6584, dated February 6, 1934), and from which point the azimuth (measured clockwise from true south) and distance to concrete monument marked "U. S." and designated as "North Base" is 331°09'25", 937.96 feet; and from said "North Base" the azimuth and distance to United States Coast and Geodetic Survey triangulation station "Punchbowl" is 247°34'52.4", 8,261.80 feet;

Thence by true azimuths and distances as follows:

296°31'00", 669.05 feet;
61°06'00", 367.87 feet;
122°30'05", 893.53 feet;
213°37'30", 130.50 feet;
285°30'30", 420.00 feet to the point of beginning.

The tract as described contains 5.52 acres and is shown upon map F-60/27 of Sand Island Military Reservation, Oahu, Territory of Hawaii, approved June, 1943, on file in

United States Engineer Office, Honolulu, Territory of Hawaii.

TITLE 49—TRANSPORTATION AND RAILROADS

Chapter I—Interstate Commerce Commission

[S. O. 93, Amdt. 10]

PART 95—CAR SERVICE

GIANT REFRIGERATOR CARS

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 31st day of December A. D. 1946.

Upon further consideration of Service Order No. 93 (7 F. R. 8903) as amended, (8 F. R. 13752, 13925; 9 F .R. 2481, 11208; 10 F. R. 15175; 11 F. R. 561, 2189, 14271, 14469, and good cause appearing therefor; it is ordered, that:

Section 95.301 *Giant type refrigerator cars*, of Service Order No. 93 (7 F. R. 8903) as amended, be, and it is hereby, further amended by substituting the following paragraph (c) for paragraph (c) thereof:

(c) *Cars exempt from order.* The provisions of this section shall not be construed to include the following cars:

Initial:	Numbers, inclusive
BRE	300 to 329
WPE	400 to 499
PGE	600 to 609
URT	89000 to 89049
FOBX	750 to 799

Tariff provisions suspended. The operation of all tariff rules, regulations, or charges insofar as they conflict with this section is hereby suspended.

Announcement of suspension. Each railroad, or its agent, shall file and post a supplement to each of its tariffs affected hereby, substantially in the form authorized in Rule 9 (k) of the Commission's Tariff Circular No. 20 (§ 141.9 (k) of this chapter) announcing the suspension of the operation of any of the provisions therein, and establishing the substituted provisions set forth.

Effective date. This amendment shall become effective at 12:01 a. m. January 10, 1947.

It is further ordered, that this amendment shall vacate and supersede Amendment No. 8 to Service Order No. 93 on the effective date hereof; that a copy of this amendment and direction be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

(40 Stat. 101; sec. 402, 418, 41 Stat. 476, 485; secs. 4, 10, 54 Stat. 912; 49 U. S. C. 1 (10)-(17), 15 (4))

By the Commission, Division 3.

[SEAL] W. P. BARTEL,
Secretary.

[F. R. Doc. 47-125; Filed, Jan. 6, 1947; 8:45 a. m.]

[Rev. S. O. 647]

PART 95—CAR SERVICE

PRIORITY FOR WHEAT IN PACIFIC NORTHWEST

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 31st day of December A. D. 1946.

It appearing, that the President of the United States has instructed various Government agencies to put into effect a number of emergency measures designed to help meet critically urgent needs for foodstuffs in various foreign countries, and that the President has directed that specific preference will be given to the rail movement of wheat in order promptly to export maximum quantities thereof to the destinations where most needed; that upon representations from the Office of Defense Transportation, and due to the fact that there exists a shortage of box cars for the movement of this wheat, the Commission is of opinion that an emergency exists in the States of Oregon, Washington, Idaho and Western Montana; it is ordered, that:

§ 95.647 *Box cars to be used for loading export wheat*—(a) *Priority for wheat loading.* All common carriers by railroad subject to the Interstate Commerce Act, at any point in the States of Oregon, Washington, or Idaho, or at Paradise or Troy, Montana, or west thereof, shall give preference and priority over all other traffic to supplying or placing box cars daily except Sunday, to the extent of the weekly quotas of box cars shown below:

Union Pacific RR	390
Great Northern Ry	90
Northern Pacific Ry	210
Spokane, Portland and Seattle Ry	30
Chicago, Milwaukee, St. Paul and Pacific RR	30

(1) For loading export wheat consigned to, or for account of Commodity Credit Corporation,

(2) Providing the shipper or consignor certifies in writing to the carrier on the car order that such box car is intended for the foreign relief program and is to be shipped to a point within the switching districts (but not to flour or feed mills located at a point within the switching districts) of the ports of Astoria, Lacoda, Linnton, Portland, or Prescott, Oregon; or Aberdeen, Anacortes, Bellingham, Everett, Kalama, Longview, Mukilteo, Olympia, Seattle, Tacoma, Tulalip, or Vancouver, Washington; or to the following official inspection points, Attalia, Auburn, Black River, Cheney, Interbay, Pasco, Spokane, Wallula, Walla Walla, and Wenatchee, Washington; Lewiston, Idaho; East St. Johns, Pendleton, Portland, Umatilla and Rieth, Oregon, for inspection and diversion to the ports named.

(b) *Effective date.* This order shall become effective at 12:01 a. m., January 6, 1947.

(c) *Expiration date.* This order shall expire at 11:59 p. m., March 10, 1947, unless otherwise modified, changed, suspended or annulled by order of this Commission.

It is further ordered, that this order shall vacate and supersede Service Orders Nos. 647 and 647-A on the effective date hereof; that a copy of this order and direction be served upon the State railroad regulatory bodies of the States of Oregon, Washington, Idaho and Montana, and upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission, at Washington, D. C., and by filing it with the Director, Division of the Federal Register. (40 Stat. 101; secs. 402, 418, 41 Stat. 476, 485; secs. 4, 10, 54 Stat. 901, 912; 49 U. S. C. 1 (10)-(17), 15 (4))

By the Commission, Division 3.

[SEAL] W. P. BARTEL,
Secretary.

[S. O. 663]

PART 95—CAR SERVICE

DEMURRAGE ON COAL AT CHARLESTON, S. C.

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 31st day of December A. D. 1946.

It appearing, that as the result of the inability of transshippers at Charleston, South Carolina, to dump coal in normal manner brought about by the miners' strike, excess debits accrued on cars loaded with coal; in the opinion of the Commission an emergency requiring immediate action exists at Charleston, South Carolina; it is ordered, that:

§ 95.663 *Demurrage on coal at Charleston, South Carolina*—(a) *Offsetting excess debits.* Any excess debits which accrued on cars loaded with coal or coke consigned for transshipment to vessels, either cargo or fuel supply, under the provisions of Southern Railway Company Tariff I. C. C. No. A-11065, at Charleston, South Carolina, in the account of any particular consignee during the monthly settlement period ending 7:00 a. m., January 1, 1947, which are not offset by credits accruing to the same consignee during the same period at the same point may be offset by excess credits accruing at the same point to the same consignee in the settlement period ending 7:00 a. m., February 1, 1947.

(b) *Application.* The provisions of this section shall apply to interstate and foreign commerce.

(c) *Regulations suspended; announcement required.* The operation of all rules and regulations insofar as they conflict with the provisions of this section is hereby suspended and each railroad subject to this section, or its agent, shall publish, file, and post a supplement to each of its tariffs affected hereby, in substantial accordance with the provisions of Rule 9 (k) of the Commission's Tariff Circular No. 20 (§ 141.9 (k) of this chapter) announcing such suspension.

(d) *Effective date.* This order shall become effective at 12:01 a. m., January 1, 1947.

(e) *Expiration date.* This order shall expire at 7:00 a. m., February 1, 1947, unless otherwise modified, changed, suspended, or annulled by order of this Commission.

It is further ordered, that a copy of this order and direction be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

(40 Stat. 101; sec. 402, 41 Stat. 476; sec. 4, 54 Stat. 901; 49 U. S. C. 1 (10)-(17), 15 (4))

By the Commission, Division 3.

[SEAL] W. P. BARTEL,
Secretary.

PROPOSED RULE MAKING

AGRICULTURE DEPARTMENT

Production and Marketing Administration

[7 CFR, Part 904]

MILK IN GREATER BOSTON, MASS., MARKETING AREA

NOTICE OF HEARING ON PROPOSED TERMINATION OF EMERGENCY PERIOD

Notice is hereby given that pursuant to authority contained in Order No. 4, as amended, regulating the handling of milk in the Greater Boston, Massachusetts, marketing area, the market administrator is considering the termination of Emergency Period No. 1 (11 F. R. 12221), which made effective the provisions of Order No. 4 relating to emergency milk.

All persons who desire to submit written data, views, or arguments in connection with the proposed termination of Emergency Period No. 1 shall submit them to Market Administrator, Room 746, 80 Federal Street, Boston, Massachusetts, by mail or otherwise, in time to be received by him not later than 5:15 p. m., January 15, 1947. In addition, all persons who desire to submit oral data, views, or arguments in connection with the proposed termination of Emergency Period No. 1 will be given an opportunity to do so at a public hearing to be held at Room 746, 80 Federal Street, Boston, Massachusetts, beginning at 2:00 p. m., January 13, 1947.

Issued at Boston, Massachusetts, this twentieth day of December 1946.

(Order No. 4, as amended (8 F. R. 3109, 8294; 9 F. R. 4972; 11 F. R. 5897, 10693, 14093)

INTERSTATE COMMERCE COMMISSION

[49 CFR, Part 95]

[No. 29669]

CAR SERVICE; FREIGHT CARS

INVESTIGATION TO DETERMINE REASONABLENESS AND VALIDITY OF REGULATIONS AND PRACTICES

At a general session of the Interstate Commerce Commission, held at its office in Washington, D. C., on the 18th day of December A. D. 1946.

The Commission having under consideration certain matters respecting car service furnished by common carriers by railroad subject to the Interstate Commerce Act.

It is ordered, That under the authority of section 1 (14) (a) and section 13 (2) of the Interstate Commerce Act, an investigation be, and it is hereby, instituted by the Commission, upon its own motion, for the purpose of determining whether the rules, regulations, and practices with respect to the use, control, supply, movement, distribution, exchange, interchange, and return of plain, ventilated, and automobile box cars, refrigerator cars, stock cars, ordinary gondola, flat, and hopper cars, including covered hopper cars (but not including the distribution of coal cars at mines or related matters embraced within section 1, paragraph 12 of the Interstate Commerce Act, or issues involved in prior proceedings respecting distribution of coal cars at mines) used in freight service by common carriers by railroad, are unreasonable or otherwise unlawful, whether such cars are being wastefully, uneconomically, or inefficiently used, controlled, supplied, moved, exchanged, interchanged, and returned, and whether such cars are being unfairly or inequitably distributed among shippers; with the view to the making of findings and the entry of an order or orders, under the authority of section 1 (10), (11), (13), and (14), section 2, section 3 (1), and section 15 (1) of the Interstate Commerce Act (49 U. S. Code, secs. 1-27), requiring the establishment of such reasonable rules, regulations, and practices as may be necessary to correct any unreasonableness found to exist, and requiring the removal of any other unlawfulness found to exist, with respect to said matters.

It is further ordered, That all common carriers by railroad subject to the Interstate Commerce Act be, and they are hereby made respondents to this proceeding; that a copy of this order be served upon each of said respondents and upon the Association of American Railroads, Car Service Division, and that notice of this proceeding be given to the general public by depositing a copy of this order in the Office of the Secretary of the Commission at Washington, D. C., and by publishing it in the FEDERAL REGISTER.

And it is further ordered, That this proceeding be, and it is hereby, assigned for hearing at the offices of the Interstate Commerce Commission, Washington, D. C., before Examiner Claude A. Rice, February 4, 1947, at 9:30 a. m. United States standard time.

By the Commission.

[SEAL] W. P. BARTEL, *Secretary.*

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

UTAH

AIR-NAVIGATION SITE WITHDRAWAL NO. 1 REDUCED

The order of the Acting Secretary of the Interior dated July 3, 1928, withdrawing certain lands in Utah for use by the Department of Commerce in the maintenance of air-navigation facilities, is hereby revoked so far as it affects the following-described land:

SALT LAKE MERIDIAN

T. 14 S., R. 5 W.,
Sec. 25, SW¼NW¼.

The area described contains 40 acres.

The land is within Utah Grazing District No. 10. This order shall therefore become effective immediately as to the administration of grazing on the land by the Bureau of Land Management, but shall not otherwise become effective to change the status of such land until 10:00 a. m. on February 21, 1947. At that time the land shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-day period for preference-right filings.* For a period of 90 days from February 21, 1947, to May 22, 1947, inclusive, the public land affected by this order shall be subject to (1) application under the homestead or the desert land laws, or the small tract act of June 1, 1938 (52 Stat. 609, 43 U. S. C. sec. 682a), as amended, by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. secs. 279–283), subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications by such veterans shall be subject to claims of the classes described in subdivision (2).

(b) *Twenty-day advance period for simultaneous preference-right filings.* For a period of 20 days from February 1, 1947 to 10:00 a. m. on February 21, 1947, inclusive, such veterans and persons claiming preference rights superior to those of such veterans, may present their applications, and all such applications, together with those presented at 10:00 a. m. on February 21, 1947, shall be treated as simultaneously filed.

(c) *Date for non-preference right filings authorized by the public-land laws.* Commencing at 10:00 a. m. on May 23, 1947 any of the land remaining unappropriated shall become subject to such application, petition, location, or selection by the public generally as may be authorized by the public-land laws.

(d) *Twenty-day advance period for simultaneous non-preference right filings.* Applications by the general public may be presented during the 20-day period from May 3, 1947 to 10:00 a. m. May 23, 1947, inclusive, and all such applications, together with those presented at 10:00 a. m. on May 23, 1947, shall be treated as simultaneously filed.

Veterans shall accompany their applications with certified copies of their certificates of discharge, or other satisfactory evidence of their military or naval service. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated affidavits in support thereof, setting forth in detail all facts relevant to their claims.

Applications for this land, which shall be filed in the District Land Office at Salt Lake City, Utah, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations (Circular No. 324, May 22, 1914, 43 L. D. 254), and Part 296 of that Title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations and applications under the desert land laws and the small tract act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that Title.

Inquiries concerning this land shall be addressed to the District Land Office at Salt Lake City, Utah.

The land is located in a fairly level desert valley. The soil is a sandy clay loam and supports such natural desert vegetation as sagebrush, rabbitbrush, shadscale, some greasewood and native grasses and weeds.

WARNER W. GARDNER,
Assistant Secretary of the Interior.

DECEMBER 20, 1946.

Production and Marketing Administration

[P. & S. Docket No. 308]

MARKET AGENCIES AT UNION STOCK YARDS, SIOUX CITY, IOWA

NOTICE OF PETITION FOR MODIFICATION

The Market Agencies at Union Stock Yards, Sioux City, Iowa, are now operating under an order issued by the Judicial Officer on June 28, 1946 (5 A. D. 453), as modified by an order dated December 13, 1946.

By petition the respondents now request continuance of the existing order as modified and that certain modification of supplements 2 and 5 as well as sections (d), (f), and (g) of the existing schedule (Tariff No. 14) be authorized. The proposed modifications, if authorized, would provide for (1) a charge not to exceed $28.00 for cattle and/or calves arriving in double-deck rail cars, (2) an increase of five cents per head for selling hogs in small drafts and three cents per head for selling hogs in drafts of 25 or more, (3) a charge of ten cents for each weight draft, (4) an increase of $4.50 in the maximum per single-deck rail car, an increase of $5.00 in the maximum per double-deck rail car for buying hogs, and similar increases in the maximums with respect to the trucked-out hogs for slaughter, (5) a new charge of five cents per head for delivery of cattle and/or calves to brand chutes with the maximum charge for any one lot $1.00. Such increases would produce additional revenue to the respondents and therefore notice is hereby given to the public of the filing of the petition.

All interested persons who desire to be heard upon the matter requested in said petition for modifications shall notify the Hearing Clerk, United States Department of Agriculture, Washington, D. C., within 15 days from the date of the publication of this notice.

Copies hereof shall be served upon the respondents by registered mail or in person.

Done at Washington, D. C., this 27th day of December, 1946.

[SEAL] H. E. REED,
Director, Livestock Branch.

[F. R. Doc. 47-97; Filed; Jan. 3, 1947; 8:48 a. m.]

[P. & S. Docket No. 1532]

MARKET AGENCIES AT MISSISSIPPI VALLEY STOCKYARDS, ST. LOUIS, MISSOURI

NOTICE OF PETITION FOR MODIFICATION

The Market Agencies[1] at the Mississippi Valley Stock Yards, St. Louis, Missouri, are now operating under an order issued on June 24, 1946 (5 A. D. 448), continuing in effect a previous order issued December 26, 1944 (3 A. D. 1069). Under this order and other previous orders the respondents have been authorized to assess charges in accordance with the following Tariff No. 4 which became effective on January 14, 1944:

Definitions. (1) A "consignment," for the purpose of assessing selling charges, is all the livestock of one species delivered in the name of one person to one market agency to be offered for sale during the trading hours of one day.

(2) A "consignment," for the purpose of assessing buying charges, is all the livestock of one species bought at any time but shipped or delivered to one person on one market day.

(3) A "draft" is all those animals in one consignment weighed as a single sale or purchase classification.

(4) A "person" is an individual, a partnership, a corporation, and/or association of any such acting as a unit.

(5) "Calves" are animals of the bovine species, weighed in drafts, the average weight of the animals in which is 400 pounds or under.

(6) "Cattle" are animals of the bovine species, weighed in drafts, the average weight of the animals in which is more than 400 pounds.

NOTE: For the purpose of assessing charges under this tariff, cattle and calves shall be considered as being of different species.

SECTION A—SELLING CHARGES

	Per head
Cattle:	
One head and one head only	$0.75
Consignments of more than one head: 65¢ per head with a maximum of $15 up to and including 25 head or fraction thereof.	
All over 25 head	.60
Calves:	
One head and one head only	.35
Consignments of more than one head	.25
Hogs:	
One head and one head only	.35
Consignments of more than one head	.20
Sheep:	
One head and one head only	.35
Consignments of more than one head:	
First 10 head	.20
Next 40 head	.15
All over 50 head	.05
Maximum charge for first 100 head	10.00
All over 100 head	.05

SECTION B—EXTRA SERVICE CHARGE

The following extra service charges are applicable to each consignment:	
For each addition weight draft over 3 on account of sales classification	$0.10

[1] Formerly styled Leo Hardy, doing business as Leo Hardy Livestock Commission Company.

SECTION C—BUYING CHARGES

	Per head
Cattle	$0.50
Calves	.25
Hogs	.20
Sheep or goats	.15

SECTION D—RESALES

On livestock purchased on this market by registered traders or registered market agencies and without having been removed from this market, resold for the account of such purchaser, the commission shall be 3½¢ per hundred pounds on cattle and hogs; 7¢ per hundred pounds on calves, sheep, or goats: *Provided*, That in no case shall the commission be less than 50¢.

SECTION E—NATIONAL LIVE STOCK AND MEAT BOARD

Cattle—1¢ per head, not to exceed 25¢ to any one owner for a maximum of 30 head.

Calves—½¢ per head, not to exceed 25¢ to any one owner for a maximum of 75 head.

Hogs—½¢ per head, not to exceed 25¢ to any one owner for a maximum of 75 head.

Sheep—½¢ per head, not to exceed 25¢ to any one owner for a maximum of 300 head.

Provided, however, That upon written objection filed with the market agency by the producer or shipper within 60 days, the amount collected by the market agency will be refunded by the National Live Stock and Meat Board, direct to the producer. In no instance shall the market agency be relieved from the obligation of making the deduction except where market agency has on file written objection by shipper or producer.

By petition, the respondents now request modifications of the order of June 24, 1946, so that they may put the following tariff into effect as of January 1, 1947:

SECTION A—DEFINITIONS

(1) A "consignment," for the purpose of assessing selling charges, is all the livestock of one species (cattle and calves to be considered as of a different species) delivered in the name of one person to one market agency to be offered for sale during the trading hours of one day.

(2) A "consignment," for the purpose of assessing buying charges, is all the livestock of one species (cattle and calves to be considered as of a different species) bought at any time but shipped or delivered to one person on one market day.

(3) A "weight draft," for the purpose of assessing extra service charges, is all the animals of one species in one consignment sold in one lot to one purchaser or bought in one lot for one purchaser.

(4) A "person" is an individual, a partnership, a corporation, and/or association of any such acting as a unit.

(5) "Calves" are animals of the bovine species, weighted in drafts, the average weight of the animals under 400 pounds.

(6) "Cattle" are animals of the bovine species, weighted in drafts, the average weight of the animals which is 400 pounds or over.

(7) "Hogs" are all swine, irrespective of weight.

(8) "Sheep" are animals of ovine species.

SECTION B—SELLING COMMISSIONS

Calves:	Cents
Consignments of one head and one head only	50
Consignments of more than one head:	
First 15 head in each consignment	35
Each head over 15 in each consignment	25
Cattle:	
Consignments of one head and one head only	90
Consignments of more than one head:	
First 15 head in each consignment	75
Each head over 15 in each consignment	65
Hogs:	
Consignments of one head and one head only	50
Consignments of more than one head:	
First 25 head in each consignment	25
Each head over 25 in each consignment	20
Sheep and goats:	
Consignments of one head and one head only	50
Consignments of more than one head:	
First 10 head in each consignment	25
Next 50 head in each consignment	20
Next 50 head in each consignment	10
Each head over 110 in each consignment	5

The maximum charge on each separate straight single deck car of single ownership shall not exceed $15.00. The maximum charge on each separate straight double deck car of single ownership shall not exceed $21.00.

SECTION C—RESALES

Cattle:	Cents
One head and one head only	75
More than one head	50
Calves: [1] Per head	35
Hogs: [1] Per head	20
Sheep: [1] Per head	10

[1] A minimum charge of 50¢ for each consignment.

SECTION D—BUYING COMMISSIONS

Calves:	Cents
Consignments of one head and one head only	50
Consignments of more than one head:	
First 15 head in each consignment	35
Each head over 15 in each consignment	25
Maximum:[1] Rail, $15 single deck, $20 double deck; trucked-out or driven-out, $15 for each 17,000 pounds or fraction thereof.	
Cattle:	Cents
Consignments of one head and one head only	90
Consignments of more than one head:	
First 15 head in each consignment	75
Each head over 15 in each consignment	65
Maximum:[1] Rail, $15 per car; trucked-out or driven-out $15 for each 24,000 pounds or fraction thereof.	
Hogs:	Cents
Consignments of one head and one head only	50
Consignments of more than one head:	
First 25 head in each consignment	25
Each head over 25 in each consignment	20
Maximum:[1] Rail, $15 single deck, $20 double deck; trucked-out or driven-out, $15 for each 17,000 pounds or fraction thereof.	
Sheep and goats:	Cents
Consignments of one head and one head only	50
Consignments of more than one head:	
First 10 head in each consignment	25
Next 50 head in each consignment	20
Next 50 head in each consignment	10
Each head over 110 in each consignment	5
Maximum:[1] Rail, $15 single deck, $21 double deck; trucked-out or driven-out, $15 for each 12,000 pounds or fraction thereof.	

[1] NOTE: The maximum charge shall not exceed the per head rate.

All purchases paid for by a commission merchant or by his shipping clearance whether made by or for a speculator, feeder-

farmer, or other person than a resident yard trader, shall be deemed a purchase and charged for at above rates. Purchaser to pay for all exchange rates and wires incident to credit arrangements.

SECTION E—EXTRA SERVICE CHARGES

The following extra service charges are applicable to each consignment (both buying and selling):

Each additional weight draft over 3 on account sales classification	$0.15
Maximum on one consignment	2.00

SECTION F—MEAT BOARD SCHEDULE, NATIONAL LIVESTOCK AND MEAT BOARD

Carlots—Livestock, all species, 25¢ per cars, single or double deck.

Driven or hauled in:

Cattle: 1¢ per head, not to exceed 25¢ to any one owner for a maximum of 30 head.

Calves and hogs: ½¢ per head, not to exceed 25¢ to any one owner for a maximum of 75 head.

Sheep: ½¢ per head, not to exceed 25¢ to any one owner for a maximum of 250 head.

Provided, however, That upon written objection filed with the Live Stock Commission Company, by the producer or shipper within 60 days, the amount collected by any market agency will be refunded by the National Live Stock and Meat Board, direct to the producer. In no instance shall the market agency be relieved from the obligation of making the deduction except where market agency has on file written objection by shipper or producer.

The effect of the modifications, if granted, would result in additional revenue to the respondents and therefore notice of the filing of the petition is hereby given to the public. All interested persons who desire to be heard upon the matter shall notify the Hearing Clerk, United States Department of Agriculture, Washington 25, D. C., within 15 days from the date of publication of this notice.

Copies hereof shall be served upon the respondents by registered mail or in person.

Done at Washington, D. C., this 26th day of December 1946.

[SEAL] H. E. REED,
Director, Livestock Branch.

FEDERAL POWER COMMISSION

[Docket Nos. G-699, G-729, G-757, G-747, G-763, G-765]

MID-CONTINENT GAS TRANSMISSION CO. ET AL.

ORDER POSTPONING DATE OF ORAL ARGUMENT

DECEMBER 31, 1946.

In the matters of Mid-Continent Gas Transmission Company, Docket No. G-699; Cities Service Gas Company, Docket Nos. G-729, G-757; Northern Natural Gas Company, Docket Nos. G-747, G-763 and G-765.

It appearing to the Commission that:

Good cause exists for postponement of the oral argument on motions to dismiss the application of Mid-Continent Gas Transmission Company in Docket No. G-699, which oral argument was heretofore set by direction of the Trial Examiner for January 15, 1947, at 10:00 a. m. (e. s. t.) in the Hearing Room of the Commission, 1800 Pennsylvania Avenue NW., Washington, D. C.

The Commission orders that:

The oral argument heretofore set for January 15, 1947, in Docket No. G-699 be and the same is hereby postponed to January 22, 1947, at the same hour and place as heretofore directed in said matter.

Date of issuance: January 2, 1947.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[Docket Nos. G-115, G-399, G-400, G-401]

EAST OHIO GAS CO. ET AL.

ORDER POSTPONING HEARING

DECEMBER 31, 1946.

In the matter of The East Ohio Gas Company, Docket No. G-115, City of Euclid, Complainant, v. The East Ohio Gas Company, Defendant, Docket No. G-399, City of Cleveland, Complainant, v. The East Ohio Gas Company, Defendant, Docket No. G-400, City of Lakewood, Complainant, v. The East Ohio Gas Company, Defendant, Docket No. G-401.

Upon consideration of the requests filed on behalf of The Public Utilities Commission of Ohio on December 26, 1946, and by The East Ohio Gas Company on December 27, 1946, for postponement of the rehearing in the above-entitled matters limited to oral argument before the Commission, which has heretofore been set for January 7, 1947; and

It appearing to the Commission that:

Good cause exists for postponing the date of rehearing as hereinafter provided.

The Commission orders that:

The rehearing in these matters now set to commence on January 7, 1947, be and the same is hereby postponed to commence at 10:00 a. m. (e. s. t.) on February 19, 1947, in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C.

Date of issuance: January 2, 1947.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[Docket No. G-825]

GAS TRANSPORT, INC.

NOTICE OF APPLICATION

DECEMBER 30, 1946.

Notice is hereby given that on December 16, 1946, Gas Transport, Inc., (Applicant), a Delaware corporation, having its principal place of business in Lancaster, Ohio, made application pursuant to section 7 of the Natural Gas Act, as amended, to authorize Applicant to construct and operate certain natural-gas pipeline facilities subject to the jurisdiction of the Federal Power Commission described as follows:

Approximately 5.6 miles of 6-inch natural-gas pipeline together with meters, regulators and appurtenances extending from a point near Fulls Run of Reedy Creek in Wirt County, West Virginia, to a point on the present line of Gas Transport, Inc., near the mouth of Lockhart Fork in Jackson County, West Virginia.

Applicant states that it is owner and operator of a 14-inch natural-gas pipeline extending from New Era, West Virginia to Gravel Bank, Ohio, and is a wholly owned subsidiary of Anchor Hocking Glass Corporation. Applicant also states that it is engaged primarily in transporting natural gas purchased by Anchor Hocking from the Columbian Carbon Company and natural gas produced by Columbian in excess of Anchor Hocking requirements for Ohio Fuel Gas Company; and that the proposed facilities will connect the Applicant's line with natural gas wells owned or under contract to United Carbon Company from which Anchor Hocking Glass Corporation has contracted to purchase up to 3,000,000 cubic feet of natural gas per day produced from the wells and any other wells to be drilled in a dedicated territory for a period of 3 years with an option to renew for an additional period of 2 years.

Applicant states that an emergency situation exists by reason of the fact that deliveries of gas to Anchor Hocking Glass Corporation for use at its Lancaster, Ohio, plants from present sources of supply are expected to be less than the requirements for the month of December and thereafter. The deficiency for the month of December is estimated to be 58,932,000 cubic feet. Applicant states that anticipated requirements will as a result of cold weather be in excess of 297,060,000 cubic feet for the month of December; that the depletion of the Columbian Carbon source of supply is such that during the month of December not more than 238,128,000 cubic feet can be expected to be delivered to Applicant for eventual delivery to Anchor Hocking at Lancaster, Ohio; that in view of the acute gas shortage in central and southeastern Ohio, deficiencies can not be supplied by additional purchases from Ohio Fuel Gas Company, especially during the winter months; that to prevent an interruption in Anchor Hocking Glass Corporation's manufacturing operations, the proposed facilities are urgently needed.

It is further stated that the total over-all capital cost of the facilities will be $49,563, which will be paid for by Applicant.

Applicant also states that all natural gas to be transported regularly by it through the proposed extension will be transported for Anchor Hocking Glass Corporation pursuant to a gas transportation agreement similar to a present agreement now on file with the Commission; that it is not at present contemplated that any of this gas will be sold to Ohio Fuel Gas Company.

Any interested State Commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of the Commission's rules of practice and procedure, and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter, and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with the reasons for such request.

Any person desiring to be heard or to make any protest with reference to the application of Gas Transport, Inc., should file with the Federal Power Commission, Washington 25, D. C., not later than 15 days from the date of publication of this notice in the FEDERAL REGISTER, a petition or protest in accordance with the Commission's rules of practice and procedure.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 47-106; Filed, Jan. 6, 1947; 8:56 a. m.]

[Docket No. G-833]

PENN-YORK NATURAL GAS CORP.

NOTICE OF APPLICATION

DECEMBER 30, 1946.

Notice is hereby given that on December 18, 1946, Penn-York Natural Gas Corporation (Applicant), a Pensylvania corporation, authorized to do business in the State of New York, having its principal place of business in Buffalo, New York, filed an application with the Federal Power Commission for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to authorize Applicant to construct and operate certain natural gas facilities in the Town of Arcade, Wyoming County, New York, subject to the jurisdiction of the Federal Power Commission, as more particularly described hereinafter:

A compressor station located in the Town of Arcade, Wyoming County, New York, at a point on Applicant's transmission system designated as Arcade Station to consist of one (1) one hundred and fifty (150) horsepower gas driven compressor unit together with appurtenant auxillaries such as cleaners, coolers, valves, piping, building, etc.

Applicant states that demands on Republic Light, Heat & Power Company, Inc., Applicant's only customer, and its own system now greatly exceeds all previous estimates and resulted in a shortage of natural gas on December 2, 1946, and will result in others unless proposed construction is completed at the earliest possible date; that the volume of gas to meet this demand is available but can not be delivered without more pressure which can only be obtained through the construction of this compressor station.

Applicant estimates that construction can be completed and operation begun by January 15, 1947 at an estimated cost of $30,000 which will be financed out of current funds.

Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of the Commission's rules of practice and procedure, and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with the reasons for such request.

Any person desiring to be heard or to make any protest with reference to the application of Penn-York Natural Gas Corporation should file with the Federal Power Commission, Washington 25, D. C., not later than 15 days from the date of publication of this notice in the FEDERAL REGISTER, a petition or protest in accordance with the Commission's rules of practice and procedure.

INTERSTATE COMMERCE COMMISSION

[S. O. 396, Special Permit 80]

RECONSIGNMENT OF CELERY AT JERSEY CITY, N. J.

Pursuant to the authority vested in me by paragraph (f) of the first ordering paragraph of Service Order No. 396 (10 F. R. 15008), permission is granted for any common carrier by railroad subject to the Interstate Commerce Act:

To disregard entirely the provisions of Service Order No. 396 insofar as it applies to the reconsignment at Jersey City, N. J., December 27, 1946, by Tassini & Salisch of cars SFRD 32215, 33128 and 25335, celery, now on the Baltimore and Ohio RR., to Community Produce Co., Boston Terminal Market, Boston, Mass. (N. Y., N. H. & H.).

The waybill shall show reference to this special permit.

A copy of this special permit has been served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and notice of this permit shall be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

Issued at Washington, D. C., this 27th day of December, 1946.

V. C. CLINGER,
Director,
Bureau of Service.

OFFICE OF TEMPORARY CONTROLS

Civilian Production Administration

[C-469]

KAMM DEVELOPMENT CORP.

CONSENT ORDER

Kamm Development Corporation, a New York Corporation located at 844 Hopkinson Avenue, Brooklyn, New York, is engaged in the building construction business. Philip Auerbach is President of said corporation and its operating head. Kamm Development Corporation is charged by the Civilian Production Administration with violations of Veterans' Housing Program Order 1 in that (1) on or about May 3, 1946, it began construction, without authorization, and at a cost in excess of $1,000, of a commercial building (automobile showroom and service garage) located at 19 South Main Street, Spring Valley, New York; (2) on and after May 3, 1946, it carried on construction, without authorization and at a cost in excess of $1,000, of a commercial building (automobile showroom and service garage) located at 19 South Main Street, Spring Valley, New York; (3) on or about June 21, 1946, it began construction of a commercial building (automobile showroom and service garage) located at 19 South Main Street, Spring Valley, New York, which construction exceeded the terms and limitations of authorization 2-1-1868 issued by the Civilian Production Administration on June 21, 1946; (4) on and after June 21, 1946, it carried on construction of a commercial building (automobile showroom and service garage) located at 19 South Main Street, Spring Valley, New York, which construction exceeded the terms and limitations of authorization 2-1-1868 issued by the Civilian Production Administration on June 21, 1946.

Kamm Development Corporation admits the violations charged, denies that the acts charged were committed wilfully, and has consented to the issuance of this order.

Wherefore, upon the agreement and consent of Kamm Development Corporation, the Regional Compliance Director and the Regional Attorney, and upon the approval of the Compliance Commissioner; *It is hereby ordered,* That:

(a) Neither Kamm Development Corporation, its successors and assigns, nor any other person shall do any further construction on the premises located at 19 South Main Street, Spring Valley, New York, including the putting up,

completing or altering of any of the structures located on said premises, unless hereafter specifically authorized in writing by the Civilian Production Administration.

(b) Kamm Development Corporation shall refer to this order in any application or appeal which it may file with the Civilian Production Administration for priorities assistance or for authorization to carry on construction.

(c) Nothing contained in this order shall be deemed to relieve Kamm Development Corporation, its successors and assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 6th day of January 1947.

CIVILIAN PRODUCTION ADMINISTRATION,
By J. JOSEPH WHELAN,
Recording Secretary.

SECURITIES AND EXCHANGE COMMISSION

[File Nos. 70-1411, 70-1414]

PUBLIC SERVICE CO., INDIANA, INC., ET AL

NOTICE REGARDING FILING OF APPLICATION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 31st day of December A. D. 1946.

In the matter of Public Service Company of Indiana, Inc., Indiana Gas & Water Company, Inc., File No. 70-1411; the Middle West Corporation, File No. 70-1414.

Notice is hereby given (1) that a joint application-declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Public Service Company of Indiana, Inc. ("Service Company"), a public utility company,[1] and by its public utility subsidiary, Indiana Gas & Water Company, Inc. ("Gas-Water"), and (2) that an application has been filed pursuant to said act by The Middle West Corporation ("Middle West"), a registered holding company and the parent of Service Company. Sections 6 (a), 6 (b), 7, 9 (a), 10, 12 (d) and 12 (f) of the act and Rules U-43 and U-44 thereunder are designated as being applicable to the proposed transactions.

Notice is further given that any person may, not later than January 10, 1947, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matters, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said joint application-declaration and by said application which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. At any time after January 10, 1947, said application-declaration and said application, as filed or amended, may be granted or permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof.

All interested persons are referred to said application-declaration, and to said application, which are on file in the office of this Commission for a statement of the transactions therein proposed, which are summarized as follows:

1. Gas-Water proposes to amend its articles of incorporation so as to provide for the issuance of scrip certificates representing fractional share interests in its outstanding common stock, all of which is held by Service Company.

2. Gas-Water proposes to issue from time to time bearer scrip certificates representing fractional share interests in its outstanding common stock in exchange for their equivalent in shares of such stock to be surrendered by Service Company.

3. Service Company proposes from time to time to declare dividends on its common stock payable in common stock of Gas-Water, with scrip certificates in lieu of fractional shares. The company has indicated its intention to distribute in this manner quarterly dividends of 1/20 share of common stock of Gas-Water for each share of common stock of Service Company. Such proposal is stated to be for the purpose of effecting a program for disposal by Service Company of its entire holdings of the common stock of Gas-Water consisting of 600,000 shares.

4. Service Company proposes to change the maturity dates of $3,250,000 aggregate principal amount of notes due certain banks and now maturing September 1, 1955, so that said notes will become due as follows: $125,000 on December 1, 1949 and $125,000 quarterly thereafter to and including June 1, 1955, and the balance of $375,000 on September 1, 1955. The present note agreement contains certain restrictions on the disposition of portfolio securities which will be eliminated by the proposed change.

5. Middle West proposes to acquire from time to time shares of common stock of Gas-Water (or scrip certificates representing fractional shares) to which it may be entitled by reason of its ownership of 224,586 shares (approximately 20.27%) of common stock of Service Company.

Applicants-declarants state that application for approval of the several proposals has been filed with the Public Service Commission of Indiana and that when said Commission issues its order with respect thereto, a copy thereof will be filed herein by amendment.

The findings request that the Commission's order granting the applications and permitting the declarations to become effective be issued on or before January 15, 1947 and become effective forthwith so that the proposals may be consummated prior to January 24, 1947.

By the Commission.

[SEAL] NELLYE A. THORSEN,
Assistant to the Secretary.

[F. R. Doc. 47-111; Filed, Jan. 6, 1947; 8:56 a. m.]

[1] Service Company is an exempt holding company (File No. 69-36) pursuant to section 3 (a) of the act and Rule U-2 thereunder.

[File No. 70-1425]

WASHINGTON RAILWAY AND ELECTRIC CO.

NOTICE REGARDING FILING OF APPLICATION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 30th day of December 1946.

Notice is hereby given that an application and declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Washington Railway and Electric Company, a registered holding company and a subsidiary of The North American Company, also a registered holding company. Applicant-declarant designates sections 6 (a), 7 and 12 (c) and Rules U-23, U-24, U-42 and U-50 of the rules promulgated thereunder as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than January 15, 1947 at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law raised by said application or declaration proposed to be controverted, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter such application or declaration, as filed or as amended, may be granted or may become effective as provided in Rule U-23 of the rules and regulations promulgated pursuant to said act, or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania.

All interested persons are referred to said application and declaration which is on file in the office of this Commission, for a statement of the transactions therein proposed, which are summarized below:

Washington Railway and Electric Company proposes to issue and to sell to certain banks $2,800,000 principal amount of Bank Loan Notes, payable on or before two years from their date, with interest thereon at the rate of 1¾% per annum. Such Bank Loan Notes are proposed to be issued to certain banking institutions now holding declarant's presently outstanding Bank Loan Notes aggregating $3,500,000, and maturing January 31, 1947, and said banks represent that such Notes are proposed to be held for investment and not for resale. It is proposed that the Bank Loan Notes be subject to the provisions of a Bank Loan Agreement dated December 20, 1946 which provides, among other things, for the right of prepayment of such Bank Loan Notes, without premium, upon the terms and conditions set forth therein. Declarant proposes to apply the proceeds of such issue, together with $700,000 of treasury funds, to the payment and retirement of all its presently outstanding Bank Loan Notes maturing January 31, 1947, in the aggregate principal amount of $3,500,000 and issued under a Bank Loan Agreement dated December 6, 1944.

Applicant-declarant has requested that its application be granted and that its declaration be permitted to become effective on or before January 23, 1947.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F. R. Doc. 47-112; Filed, Jan. 6, 1947; 8:57 a. m.]

[File No. 812-472]

BANKERS SECURITIES CORP. ET AL.

NOTICE OF FILING OF APPLICATION, STATEMENT OF ISSUES, AND NOTICE OF HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 31st day of December A. D. 1946.

Notice is hereby given that Bankers Securities Corporation, Bankers Bond and Mortgage Guaranty Company of America and Bankers Bond and Mortgage Company have filed an application pursuant to section 17 (b) of the Investment Company Act of 1940 for an order exempting from the provisions of section 17 (a) of the act a proposed agreement between Bankers Bond and Mortgage Company and McCloskey Homes, Inc., pursuant to which Bankers Bond and Mortgage Company agrees to lend McCloskey Homes, Inc., funds upon appropriate security in connection with the construction and mortgaging of 546 individual dwellings, and McCloskey Homes, Inc. may sell to Bankers Bond and Mortgage Company individual and permanent mortgages created in connection with the sale of the individual dwellings.

Bankers Securities Corporation is a closed-end, management, non-diversified investment company and is registered under the Investment Company Act of 1940. Bankers Bond and Mortgage Guaranty Company of America is controlled by Bankers Securities Corporation. Bankers Bond and Mortgage Company is a wholly owned subsidiary of Bankers Bond and Mortgage Guaranty Company of America. Bankers Securities Corporation also owns 20% of the voting securities of McCloskey Homes, Inc.

In the proposed agreement Bankers Bond and Mortgage Company agrees to advance to McCloskey Homes, Inc. funds up to a prescribed maximum approximately equivalent to 90% of the construction completed, at the rate of 4½% per annum, subject to certain limitations and conditions. McCloskey Homes, Inc. agrees that, upon settlement following sale of each dwelling unit and lot, it will pay Bankers Bond and Mortgage Company the proceeds received by it from such sale, after deducting any sales commission payable thereon, to be applied in reduction of the principal of the advance money mortgage, and Bankers Bond and Mortgage Company will thereupon release said unit and lot from the lien of the advance money mortgage. In addition, it is provided that Bankers Bond and Mortgage Company shall have the exclusive right to purchase, accept or place, at face amount, the individual mortgage financing required by any purchase of a dwelling unit, for which it is to receive a fee of 1% on such face amount, payable by McCloskey Homes, Inc. It is proposed that such mortgages will be eligible for insurance by the Federal Housing Administration or eligible for guarantee by the Veterans' Administration.

Section 17 (a) (3) of the act prohibits an affiliated person (McCloskey Homes, Inc.) from borrowing money or other property from a company controlled by a registered investment company (Bankers Bond and Mortgage Company). Section 17 (a) (1) of the act prohibits the sale by an affiliated person (McCloskey Homes, Inc.) of any security or other property to a company controlled by a registered investment company (Bankers Bond and Mortgage Company).

The applicants have therefore filed an application pursuant to section 17 (b) of the act for an order of the Commission exempting the proposed transaction from the provisions of section 17 (a) of the act, and they assert that the proposed transactions meet the standards and requirements of section 17 (b).

All interested persons are referred to said application which is on file in the offices of the Commission for a more detailed statement of the proposed transaction and the matters of fact and law asserted.

The Corporation Finance Division of the Commission has advised the Commission that upon a preliminary examination of the application, it deems the following issues to be raised thereby without prejudice to the specification of additional issues upon further examination:

(1) Whether the proposed agreement is fair and reasonable;

(2) Whether the proposed agreement involves overreaching on the part of any person concerned;

(3) Whether the proposed agreement is consistent with the policy of Bankers Securities Corporation as recited in its registration statement and reports filed under the act;

(4) Whether the proposed agreement is consistent with the general purposes of the act.

It appearing to the Commission that a hearing upon the application is necessary and appropriate:

It is ordered, Pursuant to section 40 (a) of said act, that a public hearing on the aforesaid application be held on January 13, 1947, at 9:30 a. m., eastern standard time, Room 318 in the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania.

It is further ordered, That Allen MacCullen, or any officer or officers of the Commission designated by it for that purpose shall preside at the hearing and any officer or officers so designated to preside at any such hearing is hereby authorized to exercise all of the powers granted to the Commission under sections 41 and 42 (b) of the Investment Company Act of 1940 and to hearing officers under the Commission's rules of practice.

Notice of such hearing is hereby given to the above-mentioned Bankers Securities Corporation, Bankers Bond and Mortgage Guaranty Company of America, Bankers Bond and Mortgage Company, and McCloskey Homes, Inc., and to any other person or persons whose participation in such proceedings may be in the public interest or for the protection of investors. Any person desiring to be heard or otherwise desiring to participate in said proceeding should file with the Secretary of the Commission, on or before January 10, 1947 his application therefor as provided by Rule XVII of the rules of practice of the Commission, setting forth therein any of the above issues of law or fact which he desires to controvert and any additional issues he deems raised by the aforesaid application.

By the Commission.

[SEAL] NELLYE A. THORSEN,
Assistant to the Secretary.

[File No. 70-736]

ALABAMA WATER SERVICE CO. AND FEDERAL WATER AND GAS CORP.

ORDER GRANTING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 23d day of December A. D. 1946.

Federal Water and Gas Corporation ("Federal"), a registered holding company, and Alabama Water Service Company ("Alabama"), a wholly owned subsidiary of Federal, have filed a joint application-declaration pursuant to the Public Utility Holding Company Act of 1935 and the rules and regulations promulgated thereunder regarding the following transactions:

Federal as the present owner of all of the common stock of Alabama (the only securities of Alabama outstanding) proposes to surrender to Alabama for cancellation all of this common stock in exchange for all of the assets of Alabama, Federal assuming all of Alabama's remaining liabilities. At the present time the only substantial assets of Alabama, other than physical properties in the form of water works properties located in Monroeville, Alabama, consist of cash. It is represented in the application-

declaration that Alabama is to dispose of these properties to the municipality of Monroeville, Alabama, for cash and that such disposition is to precede the liquidation and dissolution of Alabama.

The joint application-declaration was filed on November 13, 1946. Notice of this filing was duly given in the form and manner prescribed by Rule U-23, promulgated pursuant to the act, and the Commission has not received a request for a hearing wtih respect thereto within the period specified in said notice, or otherwise, and has not ordered a hearing thereon.

The Commission finding with respect to this joint application-declaration that the requirements of the applicable provisions of the act and rules thereunder are satisfied, deeming it appropriate in the public interest and in the interest of investors and consumers that said joint application be granted and said joint declaration be permitted to become effective, and further deeming it appropriate to grant the request of applicants that this order be effective upon issuance;

It is hereby ordered, Pursuant to Rule U-23 and the applicable provisions of the act and subject to the terms and conditions prescribed in Rule U-24, that this joint application be, and the same is hereby, granted and that this joint declaration be, and the same is hereby, permitted to become effective forthwith.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-816]

AMERICAN LIGHT AND TRACTION CO. ET AL.

ORDER RELEASING JURISDICTION WITH RESPECT TO FEES

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 27th day of December A. D. 1946.

In the matter of American Light & Traction Company, Michigan Consolidated Gas Company, American Production Company, American-Michigan Pipe Line Company, and Waverly Company, File No. 70-816.

The Commission having by order dated September 5, 1944, released jurisdiction with respect to legal fees incurred in connection with the refunding of the outstanding funded debt and preferred stock of Michigan Consolidated Gas Company, a subsidiary of American Light & Traction Company, approved by orders dated December 20, 1943, and March 20, 1944; and having by said order dated September 5, 1944, reserved jurisdiction with respect to the reasonableness of fees for advisory services rendered by Dillon, Read & Co.; and

A supplemental application having been filed requesting approval of a fee in the amount of $30,000 for advisory services rendered to Michigan Consolidated Gas Company by Dillon, Read & Co.; and

A hearing having been held on said supplemental application after appropriate notice; and

It appearing to the Commission that no adverse findings are necessary in respect of the payment of such fee to Dillon, Read & Co. and that jurisdiction with respect thereto should now be released:

It is ordered, That jurisdiction be and hereby is released with respect to the payment of said fee, in the amount of $30,000, to Dillon, Read & Co. by Michigan Consolidated Gas Company.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

TITLE 4—ACCOUNTS

Chapter I—General Accounting Office

[Gen. Regs. 108]

PART 7—GOVERNMENT REQUESTS FOR TRANSPORTATION OF PASSENGERS

JANUARY 2, 1947.

General Regulations No. 46, issued October 16, 1925, and Supplements Nos. 1 and 2 thereto, issued May 6, 1926, and October 6, 1926, respectively, prescribing the standard forms of U. S. Government requests for transportation and U. S. Government transportation identification card and the procedures pertaining thereto, and General Regulations No. 75, issued June 26, 1931, prescribing the standard forms and procedure for the billing of transportation charges for persons, freight, and express, insofar as the latter regulations pertain to the billing of transportation charges for persons, are hereby rescinded and the following new standard forms and procedure are prescribed in lieu thereof, effective April 1, 1947:

Sec.
7.1 Standard Government request for transportation of passengers forms.
7.2 Printing and binding.
7.3 Utilization of the old series of transportation requests.
7.4 Accountability for requests for transportation.
7.5 Issue and use of requests.
7.6 Preparation of requests.
7.7 Exchange of requests for transportation at ticket offices.
7.8 Identification of travelers.
7.9 Transportation differing from that specified in request.
7.10 Refusal of carrier to honor transportation requests.
7.11 Spoiled or canceled requests.
7.12 Memorandum of Government request for transportation.
7.13 Uncompleted journeys.
7.14 Unused tickets.
7.15 Claims against common carriers for the value of unused passenger tickets or portions thereof.
7.16 Elimination of waivers.
7.17 Lost or stolen transportation requests.
7.18 Symbol letters prescribed.

AUTHORITY: §§ 7.1 to 7.18, inclusive, issued under sections 309 and 311 (f), 42 Stat. 25; 31 U. S. C. 49 and 52 (f).

§ 7.1 *Standard Government request for transportation of passengers forms.* The following new standard forms for requesting the transportation of passengers by common carriers are hereby prescribed and published for general use throughout the United States Government service, in lieu of all other forms of like character now being used for this purpose:

Standard Form No. 1138,[1] U. S. Government request for transportation—Type A book cover (front and back—outside and inside).

Standard Form No. 1139,[2] U. S. Government request for transportation—Type A, original.

Standard Form No. 1139a,[2] Memorandum of U. S. Government request for transportation—Type A.

Standard Form No. 1140,[2] U. S. Government request for transportation—Type B book cover (front and back—outside and inside).

Standard Form No. 1141,[1] U. S. Government request for transportation—Type B, original.

Standard Form No. 1141a,[2] Memorandum of U. S. Government request for transportation—Type B.

(Specimen forms of the U. S. Government requests for transportation herein prescribed are attached for placing in the FEDERAL REGISTER as exhibits.)

§ 7.2 *Printing and binding.* (a) The size of the above-prescribed standard forms, with the exception of Standard Form No. 1140, will be 8¼ by 3¼ inches including binding. Standard Form No. 1140 will be 8¼ by 16¼ inches including binding. The original requests for transportation, Standard Form Nos. 1139 and 1141, will be printed on light green paper and the memorandum copies thereof, Standard Form Nos. 1139a and 1141a, will be printed on white paper. U. S. Government Request for Trans-

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Division of the Federal Register, the National Archives, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the Code of Federal Regulations, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended June 19, 1937.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15¢) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

NOTICE

General notices of proposed rule making, published pursuant to section 4 (a) of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 238), which were carried under "Notices" prior to January 1, 1947, are now presented in a new section entitled "Proposed Rule Making". Relationship of these documents to material in the Code of Federal Regulations, formerly shown by cross reference under the appropriate Title, is now indicated by a bold-face citation in brackets at the head of each document.

portation—Type A, original, Standard Form No. 1139, together with the memorandum copy thereof, Standard Form No. 1139a, will be bound 25 requests to the book in U. S. Government Request for Transportation—Type A Book Cover, Standard Form No. 1138. U. S. Government Request for Transportation—Type B, original, Standard Form No. 1141, together with the memorandum copy thereof, Standard Form No. 1141a, will be bound 100 requests to the book (5 requests to the page) in U. S. Government Request for Transportation—Type B Book Cover, Standard Form No. 1140.

(b) The new forms of U. S. Government Request for Transportation, Standard Forms Nos. 1139, 1139a, 1141, and 1141a, will be prenumbered when printed (numbers will be printed in black only) and such numerals will be immediately preceded by symbol letters (also in black and capital letters only), approved in advance by the Comptroller General of the United States for the purpose of identifying the Government agency using same. In connection with the use of the new forms of transportation requests, there are hereby prescribed, as set forth in § 7.18, revised symbol letters for the several departments, independent establishments, and agencies of the Government, and such symbol letters should always be included in any reference to the serial number of said new forms of transportation request. Symbol letters required by agencies not listed in § 7.18 or any variation from the prescribed symbol letters, must be requested in writing and authorized by written approval of the Comptroller General of the United States. The serial numbers of transportation requests for each department, independent establishment, or agency of the Government will begin with the number "1" and continue numerically thereafter until the serial number for a department, establishment, or agency reaches the number "999,999", at which time the transportation request numbers will again begin with the number "1". However, separate series of serial numbers for Type A and Type B requests must not be used and the present (single) series of serial numbers may be continued to the new forms of requests prescribed herein. A single series of serial numbers must run consecutively through all requests regardless of the type or types ordered.

(c) No departure from the exact specifications of the standard forms herein prescribed will be permitted, but this will not be construed to prevent a department, independent establishment, or agency from ordering printed on the forms used by it, when more economical and advantageous to do so, the name of the department or establishment, name of bureau or service, place of issue, title of issuing officer, and designation of appropriation or fund chargeable.

(d) The above-prescribed forms will be printed only at the Bureau of Engraving and Printing and requisitions therefor should be addressed to the Treasury Department, Bureau of Federal Supply (Printing Section).

(e) The printing of Government requests for transportation by commercial concerns is strictly prohibited.

§ 7.3 *Utilization of the old series of transportation requests.* The present supply of unused Government request for transportation forms of the old type on hand in the departments, independent establishments and agencies, and at the Bureau of Engraving and Printing will be used until exhausted.

§ 7.4 *Accountability for requests for transportation.* Appropriate accountability records must be maintained by the departments and establishments of the United States Government for the purpose of controlling the stock of printed transportation requests on hand and for fixing the accountability upon the employees responsible for their issuance and use. Each officer and employee of the United States Government having custody of Government transportation requests should be held accountable therefor and chargeable with the amount which is required to be paid by the United States by reason of improper use of such requests resulting from fault or negligence.

§ 7.5 *Issue and use of requests.* (a) United States Government requests for transportation will be furnished by competent administrative authority for presentation by persons traveling on official business, based on proper travel authority, to transportation companies in the United States, including the Pullman Company, interurban electric railway companies, motor bus lines, or air lines, and to steamship lines having ports in the United States, for exchange by them for specified passenger, sleeping-car, parlor-car, steamship stateroom, or other commonly recognized transportation accommodations, and should be used, when practicable, to obtain all official transportation when the amount involved is $1 or more.

(b) Requests for Transportation—Type A (Standard Form No. 1139). In those cases where the traveler is authorized to issue transportation requests for his own use, Type A book(s) of blank transportation request forms will be issued to him, and the traveler will sign such requests once only in the space provided thereon for "Signature of issuing officer-traveler". The official issuing Type A book of blank requests to a traveler will show the transaction in the space provided therefor on the inside front cover of the book, Standard Form No. 1138, over his bona fide signature. The traveler should maintain a record of all requests issued by him and of all unnegotiated requests which are spoiled or canceled for any reason, such record to be kept on the stub to which the memorandum of the request for transportation is attached. When there is no further need for unused requests, when separated from Government service, or when all of the requests contained in a book have been exhausted, the book of unused requests or empty cover thereof, as the case may be, should be returned immediately to the official who issued such book of requests to the traveler. Books returned to the issuing officer containing unused requests may be reissued in blank to other travelers until the requests are exhausted, the return and reissue thereof to be shown in the spaces provided therefor on the inside front and back cover of the transportation request book. When all of the spaces provided for this purpose have been used, the unused transportation requests contained in books returned to the issuing officer should be effectively voided, accounted for, and returned through proper administrative channels to the Treasury Department, Bureau of Federal Supply (Printing Section).

(c) Requests for Transportation—Type B (Standard Form No. 1141). Type B transportation requests when signed and issued by an authorized issuing officer other than the traveler are for use only by the traveler named therein for securing the transportation specified. Type B transportation requests should not be issued in blank to travelers to be signed by them both as issuing officer and traveler.

(d) In order that the lowest possible fares for Government travel may be secured, and that the contract of carriage may at all times be clearly understood by all parties concerned, it is incumbent upon officials issuing requests, and upon travelers authorized to issue requests for their own use, to ascertain the lowest fare of the class that will adequately furnish the desired transportation and to issue transportation requests accordingly. When transportation and/or accommodations exceeding those authorized under current Standardized Government Travel Regulations are used, the excess cost thereof will be collected by the proper Government official from the traveler.

(e) Through tickets, excursion tickets, reduced-rate round-trip or party tickets should be secured whenever practicable and economical.

(f) Separate transportation requests should be issued for parlor, chair, or sleeping accommodations when same are not included in the cost of passage ticket.

§ 7.6 *Preparation of requests.* In preparing Government requests for transportation careful attention should be given to all instructions and details in arrangements, especially to the stub attached to the original requests headed "Carrier's stub", which must not be detached or covered by marks or writing since it is for the sole use of the carrier. Transportation requests should be filled in by typewriter, pen, or indelible pencil, and a legible memorandum thereof must always be secured. The information to be inserted in the spaces provided therefor on the transportation request form is as follows:

Good until _____ (date). To avoid the unauthorized use of lost transportation requests, care should be exercised when setting the limitary date to provide for the

definite invalidation of the request at the earliest practicable date.

Name of the Government office to be billed.

Name of the carrier or company on which drawn.

Name of person to be furnished transportation; if a party, the name of person in charge and the number of other persons in the party.

Point of departure.

Destination.

Complete route showing initial letters of each carrier and names of junction points via which ticket is to be issued, and classes of service between junctions in mixed travel.

Appropriation or fund chargeable.

Authorization or object—Identifying reference to authority for travel (serial number and/or date of travel order) must be entered on the transportation request either by the traveler or by the administrative officer who examines same prior to payment.

The class of transportation, number of persons, seat or sleeping accommodations desired, and number of pounds of baggage authorized to be transported in excess of the weight carried free by transportation companies will be indicated in the block provided for this purpose. A blank space is also provided in this block in which to describe accommodations such as staterooms on river and coastwise steamships or air sleeper service, when same are not included in the cost of passage ticket, and other authorized accommodations for which no specific provision is made on the request form. All unused spaces in this block should be canceled by drawing a line through them.

§ 7.7 *Exchange of requests for transportation at ticket offices.* To obtain transportation and/or accommodations, Government requests for transportation completely filled out and validated by an authorized issuing officer other than the traveler, or by an issuing officer-traveler (before reaching ticket window), as the case may be, should be exchanged at a ticket office. When requests are presented at an office not supplied with the proper ticket forms, at a non-agency station, or at a station at which the ticket office is not open for the sale of tickets before departure of train, conductors will honor requests as follows:

(a) If the destination is a point on conductor's run, the request may be honored to destination without exchange, and traveler's receipt secured in the space provided therefor on the face of the request.

(b) If the destination is a point beyond the conductor's run, conductor will honor the request to the first station en route at which proper form of ticket can be issued in the usual way, endorsing on back of request over his signature the points between which request was honored without ticket. When the request is exchanged at an intermediate ticket office, it should show clearly that transportation was furnished from point of origin of travel and not from the intermediate point at which the ticket is exchanged.

(c) When a request presented on the train calls for transportation beyond the line of the initial carrier or beyond the train conductor's run and it is impossible to exchange it before reaching the station at which the traveler leaves the train, or before reaching the end of the conductor's run, as the case may be, the conductor must obtain a statement signed by the traveler, completely describing the transportation request and certifying to the points between which the traveler has been carried and the reason why the request could not be exchanged, such record to be turned in with the conductor's train collections. After securing such statement, the conductor should endorse on the request over his signature the stations between which honored and return it to the traveler who, immediately after leaving the train, will present the request to the ticket agent of the line on which it is drawn, and on which it was honored by the conductor, for exchange for a ticket to the destination named therein. Such request should not be honored by the ticket agent of the carrier on which the journey will be continued, as payment thereon by the Government in that case would necessitate securing a waiver from the initial carrier on which it is drawn.

§ 7.8 *Identification of travelers.* (a) When a traveler signs a request (Type A) as issuing officer-traveler, the carrier will require him to exhibit the book from which the request was taken, in order to ascertain the name of the person to whom the book of requests was issued, and will then require him to establish his identity as the person to whom such book of requests was issued. When a traveler, upon request, fails to produce the book from which the request was taken, the ticket agent should refuse to honor the transportation request and require the traveler to pay cash for his transportation, the amount thereof to be later included, if proper, in the traveler's voucher as an item for reimbursement.

(b) The above requirement as to means of identification does not apply to Type B transportation requests which are filled out and signed by an authorized issuing officer other than the traveler, ready for use by the traveler named therein for transportation specified. Ticket agents should exercise at least ordinary care in assuring themselves of the identity of a traveler who presents a Type B request.

§ 7.9 *Transportation differing from that specified in request.* (a) Carriers must furnish transportation of the class or character and between the points specified in the request. The United States Government will not be responsible for excess costs occasioned by violation of those instructions. Transportation exceeding that called for on the face of the request must be paid for by the traveler when obtained and not billed against the Government.

(b) Where exceptional conditions require the issuance of transportation and/or accommodations differing from that specified in the request, the traveler should record, in the space provided on the reverse of the form, the actual services furnished, the reason for the difference, and sign the statement. Any additional charges resulting from furnishing services or accommodations in excess of those called for on the face of the request should be collected by the carrier from the traveler and not billed against the Government, the notation by the traveler on the reverse of the request being, in such situation, only for purposes of adjustment between the traveler and the Government where the traveler may claim reimbursement.

(c) Transportation furnished by a carrier other than the one named on the face of the request is transportation differing from that specified in the request, and in such case the carrier should require the traveler to record, in the space provided on the reverse of the form, the name of the carrier actually furnishing the transportation and to sign the statement.

(d) Except as provided in paragraphs (b) and (c), of this section, transportation requests must not be altered and requests showing erasures or alterations should not be honored.

§ 7.10 *Refusal of carrier to honor transportation requests.* Should an agent of any transportation company refuse to accept a request, the facts must be reported immediately to the central office of the Government department or independent establishment through the official who furnished the request to the traveler.

§ 7.11 *Spoiled or canceled requests.* All transportation requests spoiled or canceled for any reason should be marked "Canceled" and forwarded immediately, through the official who furnished the request(s), to the administrative office where the accountability records are kept, there to be accounted for and returned through proper administrative channels to the Treasury Department, Bureau of Federal Supply (Printing Section).

§ 7.12 *Memorandum of Government request for transportation.* (a) When the original Government request for transportation is surrendered to the carrier, a legible memorandum copy thereof, properly filled out and showing the estimated cost (ticket agent's valuation of ticket) of the transportation furnished, will be forwarded in accordance with administrative instructions. Connectively, the attention of administrative officers is invited to the provisions of General Regulations No. 100, issued October 4, 1943, which require that in those offices in which the memorandum of the transportation request is the document to be used in recording the obligation for transportation procured, it is essential that the memorandum copy be sent to the administrative office maintaining the fund accounts immediately upon delivery of the original transportation request to the carrier.

(b) When the service furnished varies from that specified in the request, the traveler should record, in the space provided on the reverse of the memorandum of the transportation request form, the actual transportation furnished and the reason for the difference.

§ 7.13 *Uncompleted journeys.* Travelers leaving trains or other conveyances short of destination specified on ticket, after having surrendered ticket or coupon of ticket, must secure a statement of the service rendered to that point from the train conductor or person in charge of conveyance. When traveler surrenders sleeping or parlor-car accommodations short of destination, statement must also be obtained from the conductor or person in charge of the conveyance. A statement of fact must be furnished for each interrupted air trip in the course of which the plane is grounded or any part of the air trip canceled short of destination, such statement to include a description of the services furnished upon the resumption of travel. These statements in each case must be forwarded immediately to the central office of the Government department or independent establishment through the official who furnished the request, giving serial number of each request involved.

§ 7.14 *Unused tickets.* (a) Under no circumstances shall an employee attempt to secure a refund from a transportation company for an unused ticket or portion thereof obtained on a Government transportation request.

(b) When a traveler discontinues a trip short of destination and further need for unused ticket(s) or portion(s) thereof has ceased, and when the time limit on a round-trip ticket has expired, unused ticket(s) or portion(s) thereof secured on Government transportation requests must be forwarded immediately to the central office of the Government department or independent establishment through the official who furnished the request(s), together with explanatory statement as to why ticket(s) or such portion(s) thereof was (were) not used. When the traveler fails to comply with the foregoing and an accounting period for the traveler occurs while he is still in possession of an unused ticket, or portion(s), thereof, there should be withheld in his expense account a sufficient amount to cover the cost of same pending a proper accounting therefor.

§ 7.15 *Claims against common carriers for the value of unused passenger tickets or portions thereof.* In order that the General Accounting Office may properly audit and settle accounts involving deductions for, or collections received by reason of, unused tickets or portions thereof, the following procedure is prescribed:

(a) Upon deduction of an amount representing the value of an unused ticket or portion thereof from the voucher on which the covering transportation request is billed, a full description of the unused ticket or portion thereof will be noted on the voucher.

(b) Upon deduction of an amount representing the value of an unused ticket or portion thereof from a voucher other than that on which the covering transportation request was billed, a full description of the unused ticket or portion thereof will be noted on the voucher on which the deduction is made, together with a reference to the transportation request on which the ticket was issued and the disbursing officer's voucher covering payment for same.

(c) When a deduction is made in accordance with the provisions of paragraphs (a) and (b) of this section, the unused ticket or portion thereof will be forwarded by the administrative office making the deduction to the carrier and copy of the letter of transmittal will be attached to the voucher involved.

(d) If deductions cannot be made administratively as hereinabove outlined, the department or agency involved should bill the carrier for the amount due and should request that the remittance (drawn to the order of the Treasurer of the United States) be made direct to the indicated office of the billing agency, and upon receipt of such remittance same will be promptly listed on the schedule of collections then current.

(e) In cases where bills are issued to the carrier for refunds of amounts representing the value of unused tickets or portions thereof, in accordance with the provisions of paragraph (d) of this section, the unused tickets or portions thereof will be forwarded to the carrier along with the billing.

(f) In the event the carrier declines to remit the value of unused tickets or portions thereof, the administrative (billing) office should furnish to the Claims Division, General Accounting Office, Washington, D. C., a copy of the billing, containing references to transportation request numbers and disbursing officers' voucher numbers covering payment therefor, and copies of correspondence with the carrier, for appropriate action.

§ 7.16 *Elimination of waivers.* This office will not take exception to the elimination of waivers on requests honored by one class of carriers but naming on the face thereof another of the class of carriers, provided the cost of the service actually furnished is not in excess of that originally authorized and that the traveler is required by the carrier furnishing the transportation to record on the reverse of the request the name of the carrier and the service actually furnished, the reason for the difference, and sign the statement.

§ 7.17 *Lost or stolen transportation requests.* (a) Lost or stolen transportation requests should be reported promptly to the central office of the Government department or independent establishment through the official furnishing the request, and a copy of such report should be sent to the General Accounting Office without delay. Extreme care should be exercised to report the name of the person to whom issued and the correct symbol and serial numbers of the lost or stolen requests and books.

(b) Under no circumstances should transportation requests which have been reported lost or stolen, and subsequently recovered, be used to obtain transportation or accommodations. Blank or completely filled out transportation requests, not in books, which have been reported lost or stolen, if subsequently recovered should be immediately marked canceled by the officer or employee recovering same and promptly forwarded to the issuing officer who should record the cancellation thereof on the proper transportation request accountability record and forward the request through proper administrative channels to the Treasury Department, Bureau of Federal Supply (Printing Section). Transportation requests in books which have been reported lost or stolen, if subsequently recovered should be marked canceled and forwarded by the finder direct to the Treasury Department, Bureau of Federal Supply (Printing Section), which office should promptly advise the administrative office concerned of all transportation requests so received.

§ 7.18 *Symbol letters prescribed.* Symbol letters prescribed for use in identifying the Government departments, independent establishments, and agencies using the new forms of U. S. Government Request for Transportation (Standard Forms Nos. 1139 and 1141), are as follows:

New symbols	Name of department, independent establishment or agency	Old symbols

[Gen. Regs. 108]

PART 9—PUBLIC VOUCHER FOR TRANSPORTATION CHARGES

USE BY CARRIERS IN BILLING FREIGHT AND PASSENGER TRANSPORTATION CHARGES

JANUARY 2, 1947.

1. The headnote for § 9.2 (11 F. R. 1386) is amended to read as follows: *"Use by carriers in billing freight transportation charges."*

2. Section 9.3 is added to read as follows:

§ 9.3 *Use by carriers in billing passenger transportation charges.* (a) Public Voucher for Transportation Charges (original), Standard Form No. 1113, and memorandum therefor, Standard Form No. 1113a, which were prescribed by General Regulations No. 97—Revised, issued January 21, 1946 (11 F. R. 1386), for use by carriers as the standard forms on which to bill their charges against all branches of the U. S. Government service for the transportation of freight or express, are hereby prescribed and published for use by carriers in full conformity with all of the provisions of said General Regulations No. 97—Revised, pertaining thereto, as the standard forms on which to bill their charges against all branches of the U. S. Government service for the transportation of passengers.

(b) Carriers may either purchase or print or have printed the said voucher forms as indicated in § 9.1 (b) (11 F. R. 1386), including in addition thereto printing by a commercial printer.

(c) Bills involving charges for transportation and accommodations furnished on Government requests for transportation of the old series (Standard Form No. 1030) may continue to be submitted on Public Voucher for Transportation of Passengers (Standard Form No. 1067) which form will be continued to be furnished to carriers by the Government Printing Office. Bills involving charges for transportation and accommodations furnished on the herein-prescribed Government requests for transportation (Standard Forms Nos. 1139 and 1141—see § 7.1 of this chapter) will be submitted on Public Voucher for Transportation Charges (Standard Form No. 1113). All bills must be rendered direct to the issuing bureau or office shown on the face of the transportation request. Carriers should make a special effort to include as many subvouchers as possible on each voucher form, and furnish one memorandum copy, Standard Form No. 1113a, with each voucher form as outlined in § 9.2 (d) (11 F. R. 1386).

(d) Bills involving charges for the transportation of freight or express must not be included on the same voucher with those involving the transportation of passengers and, in order that the class of charges involved in the voucher can be readily determined, the words "Passenger", "Freight", or "Express", as the case may be, should be printed or otherwise placed by the carrier in a conspicuous manner immediately above the title of the voucher form (Standard Form No. 1113) and memorandum thereof (Standard Form No. 1113a) on which the bill is rendered.

(e) In those instances where the showing of information or facts additional to those shown on the transportation request as surrendered by the traveler to the agent (or conductor) at the time of procuring the ticket (or service) is considered necessary to support or explain charges claimed, a statement of such facts or explanation should be made on a separate paper attached to the request or voucher (Standard Form No. 1113), or on said latter form itself if space permits, but in no event should the request itself be subjected to notations in the auditing process by the carrier, except to show carrier's audited value, since it is essential that the information appearing on the transportation request upon completion of the transaction between the traveler and the ticket agent or conductor in procuring and furnishing the ticket or service be clearly reflected at all times and not impaired by subsequent notations.

(Secs. 309, 311 (f), 42 Stat. 25; 31 U. S. C. 49, 52 (f))

[SEAL] LINDSAY C. WARREN,
Comptroller General of the United States.

TITLE 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 25—FORMAL EDUCATION REQUIREMENTS FOR APPOINTMENT TO CERTAIN SCIENTIFIC, TECHNICAL AND PROFESSIONAL POSITIONS

INSTRUCTOR OF ELECTRICAL ENGINEERING AND INSTRUCTOR OF MATHEMATICS

The folowing positions are added to the list of positions in paragraph (a) of § 25.1 (10 F. R. 12839) for which formal educational requirements have been prescribed:

§ 25.1 *Positions for which formal education requirements prescribed.* (a) • • •

INSTRUCTOR OF ELECTRICAL ENGINEERING, P-4

Educational requirement. Applicants must have successfully completed a four-year course of study leading to a bachelor's degree in engineering or physics in a college or university of recognized standing.

Duties. The appointee to this position will instruct cadets at the U. S. Coast Guard Academy in electrical engineering including alternating and direct current machines and circuits and engineering electronics. Under the supervision of the head of the engineering department he will prepare daily assignments, using as guides the assigned textbook, reference texts, Coast Guard instructions and manufacturers' and other technical publications. He will give classroom and laboratory instruction and prepare and grade examinations. He will be required to keep himself informed of the latest developments in his technical field and in education methods so that cadets may receive a knowledge of fundamental concepts and techniques in electrical engineering and develop analytical ability which will enable them to perform the duties of commissioned officers of the Coast Guard.

Justification of educational requirement. Justification for Instructor of Electrical Engineering P-4 is the same as the justification for Teacher, All Grades, 10 F. R. 7081, 12839.

INSTRUCTOR OF MATHEMATICS P-4

Educational requirement. Applicants must have successfully completed a four-year course of study leading to a bachelor's degree with study in mathematics or civil engineering in a college or university of recognized standing.

Duties. The appointee to this position will instruct cadets at the U. S. Coast Guard Academy in mathematics and surveying and related subjects including plane and spherical trigonometry, analytical geometry, plane and hydrographic surveying, differential and integral calculus and analytical mechanics. Under the supervision of the heads of the departments of mathematics and civil engineering he will prepare daily assignments using as guides the assigned textbook, reference texts, Coast Guard instructions and manufacturers' and other technical publications. He will give classroom instruction and prepare and grade examinations. He will be required to keep himself informed of the latest developments in his technical field and in educational methods so that cadets may receive a knowledge of fundamental concepts and techniques and develop analytical ability which will enable them to perform the duties of commissioned officers in the Coast Guard.

Justification of educational requirement. Justification for Instructor of Mathematics, P-4 is the same as the justification for Teacher, All Grades, 10 F. R. 7081, 12839.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Regs., Serial No. 382]

PART 202—ACCOUNTS AND REPORTS

FORMS OF ACCOUNTS OF AIR CARRIERS

Adopted by the Civil Aeronautics Board at its office at Washington, D. C., on the 27th day of December 1946. (Revision of § 202.2 of the Economic Regulations, "Form of Accounts of Air Carriers.")

The Civil Aeronautics Board, acting pursuant to the Civil Aeronautics Act of 1938, as amended, particularly section 205 (a), and for the purpose of implementing section 407 (d), and finding that it is desirable that all reports for the year 1947 be uniform, and that this fact renders notice and public procedure impracticable, and that it requires that this regulation be made effective without delay, hereby amends § 202.2 of the Economic Regulations in its entirety to read as follows, effective January 1, 1947:

§ 202.2 *Form of accounts of air carriers*—(a) *Requirement.* Each air carrier engaged in scheduled air transportation shall keep its accounts, records and memoranda in accordance with the Uniform System of Accounts for Air Carriers issued by the Civil Aeronautics Board, dated January 1, 1947, and such amendments thereto as may hereafter be prescribed by the Board.

(b) *Waiver, modification, and interpretation.* The Director of the Economic Bureau shall have the authority to waive, modify, or interpret any of the provisions of the aforesaid Uniform System and to establish detailed uniform practices within the framework of the general accounting requirements prescribed by this section: *Provided*, That, upon application therefor by any affected air carrier, any such waiver, modification, interpretation, or establishment shall be submitted to the Board for review.

(c) *Reports.* This section has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942. (52 Stat. 984, 1000, as amended; 49 U. S. C. 425, 487).

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

[Regs., Serial No. 383]

PART 202—ACCOUNTS AND REPORTS

FORMS OF REPORTS OF FINANCIAL AND OPERATING STATISTICS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 27th day of December 1946. (Revision of § 202.1 of the Economic Regulations "Forms of Reports of Financial and Operating Statistics.")

The Civil Aeronautics Board, acting pursuant to the Civil Aeronautics Act of 1938, as amended, particularly section 205 (a), and for the purpose of implementing section 407 (a), and finding that it is desirable that all reports for the year 1947 be uniform, and that this fact renders notice and public procedure impracticable, and that it requires that this regulation be made effective without delay, hereby amends § 202.1 of the Economic Regulations in its entirety to read as follows, effective January 1, 1947:

§ 202.1 *Forms of reports of financial and operating statistics*—(a) *Requirement.* Each air carrier engaged in scheduled air transportation shall for all periods subsequent to January 1, 1947, make periodic financial and statistical reports to the Board using the appropriate schedules of the Report of Financial and Operating Statistics for Air Carriers, CAB Form 41; Interim Operating Statement and Selected Expenses, CAB Form 41 (a), and such amendments thereto as may hereafter be approved by the Board. Such reports shall be made in accordance with, and shall be filed with the Secretary of the Board at such times as are specified in, the instructions relating to reporting procedure contained in the Uniform System of Accounts for Air Carriers, effective January 1, 1947, and such amendments thereto as may hereafter be approved by the Board.

(b) *Waiver, modification, and interpretation.* The Director of the Economic Bureau shall have the authority to waive, modify, or interpret any of the aforesaid reporting requirements and to establish detailed uniform practices within the framework of the general reporting requirements prescribed by this section, *Provided*, That, upon application therefor by any affected air carrier, any such waiver, modification, interpretation, or establishment shall be submitted to the Board for review.

(c) *Reports.* This section has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942. (52 Stat. 984, 1000, as amended; 49 U. S. C. 425, 487)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

[F. R. Doc. 47-146; Filed, Jan. 7, 1947; 8:51 a. m.]

TITLE 22—FOREIGN RELATIONS

Chapter I—Department of State

PART 58—CONTROL OF PERSONS ENTERING AND LEAVING THE UNITED STATES PURSUANT TO THE ACT OF MAY 22, 1918, AS AMENDED

ALIENS ENTERING; REVOCATION OF CERTAIN REQUIREMENTS FOR ALIEN SEAMEN

Pursuant to the authority contained in Proclamation 2523, November 14, 1941, 6 F. R. 5821, 5869; 40 Stat. 559; 41 Stat. 1217; ch. 210, 55 Stat. 252; 43 Stat. 153, 166, as amended; sec. 30, 54 Stat. 673; 22 U. S. C. and Sup. 223, 225–227; 8 U. S. C. 201–229, 451; E O. 4049, July 14, 1924, E. O. 8766, June 3, 1941, E. O. 9352, June 15, 1943, 6 F. R. 2741, 8 F. R. 8209:

Section 58.59, Chapter I, Title 22 of the Code of Federal Regulations, issued on July 19, 1945 (effective July 1, 1945: Departmental Regulation 9), such section being also designated as § 175.59 of Title 8, is hereby revoked.

This order shall become effective on the date of its publication in the FEDERAL REGISTER.

Dated: November 15, 1946.

[SEAL] DEAN ACHESON,
Acting Secretary of State.

Concurred in by:

TOM C. CLARK,
Attorney General.

DECEMBER 18, 1946.

[F. R. Doc. 47-175; Filed, Jan. 7, 1947; 8:45 a. m.]

TITLE 12—BANKS AND BANKING

Chapter II—Federal Reserve System

Subchapter A—Board of Governors of the Federal Reserve System

PART 222—CONSUMER CREDIT

AUTOMOBILE APPRAISAL GUIDES

§ 222.109 *Automobile appraisal guides.* This part as revised effective December 1, 1946 (11 F. R. 13949), provided in § 222.9 (d) that the maximum credit value of a used automobile after January 1, 1947, will be the specified percentage of whichever is the lower of (a) the cash purchase price, or (b) the "appraisal guide value" (as determined from any designated guide).

The Board of Governors of the Federal Reserve System on December 16, 1946, designated the used-car guides that are to be used initially for this purpose. The guides designated and the territories for which they are to be used are listed below.

A dealer is not required to use any particular appraisal guide, but may use any one of those designated for use in the territory in which the sale is made. The requirement as to the use of the "appraisal guide value" does not apply to cars of 1936 and older models, and the maximum credit value in such cases will be the specified percentage of the cash purchase price, regardless of any lower appraisal guide value. The "appraisal guide value" to be used for the purposes of this part does not include any added value for cars equipped with a radio or heater, but it may include added value for cars having an overdrive or automatic transmission as extra equipment.

On December 26, 1946, the Board postponed the effective date of the designation, with the result that the guide books are not required to be used for the purposes of Regulation W until January 15, 1947, and the maximum credit value until that time will be based on the cash purchase price only. This action was taken because printing difficulties prevented delivery of certain of the designated guide books by January 1, 1947.

AUTOMOBILE APPRAISAL GUIDES DESIGNATED BY THE BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM FOR PURPOSES OF § 222.9 (d) EFFECTIVE JANUARY 15, 1947

(Designations limited to quotations for used cars of 1937 and later models)

PART 1010—SUSPENSION ORDERS

[Suspension Order S–1068]

JAMES E. KELLY

James E. Kelly, Daggett, California, began on September 3, 1946, and thereafter carried on the construction on Lot 4, Block 10, Daggett, California, of a project consisting of three 4-unit motel buildings, an office and cafe building and a residence, at a total estimated cost of approximately $30,000, without first having secured authorization therefor from the Federal Housing Administration or the Civilian Production Administration. The beginning and carrying on, subsequent to March 26, 1946, of the construction of said buildings without authorization constituted a wilful violation of the Veterans' Housing Program Order No. 1 and has diverted critical materials to uses not authorized by the Civilian Production Administration. In view of the foregoing, it is hereby ordered that:

§ 1010.1068 *Suspension Order No. S–1068.* (a) Neither James E. Kelly, his successors or assigns, nor any other person shall do any further construction on the project at Lot 4, Block 10, Daggett, California, including putting up, completing or altering the structure, unless otherwise specifically authorized in writing by the Civilian Production Administration.

(b) James E. Kelly shall refer to this order in any application or appeal which he may file with the Civilian Production Administration or the Federal Housing Administration for priorities assistance.

(c) Nothing contained in this order shall be deemed to relieve James E. Kelly, his successors and assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 7th day of January 1947.

CIVILIAN PRODUCTION ADMINISTRATION,
By J. JOSEPH WHELAN,
Recording Secretary.

[F. R. Doc. 47-215; Filed, Jan. 7, 1947 11:15 a. m.]

Chapter XI—Office of Temporary Controls, Office of Price Administration

PART 1388—DEFENSE-RENTAL AREAS

[Housing, Interpretation of Sec. 1 (b) (4) (§ 1388.1181)]

EXEMPTION OF UNDERLYING LEASE

Interpretation of section 1 (b) (4) of the Rent Regulation for Housing.

The following is a revision of an interpretation of section 1 (b) (4) of the Rent Regulation for Housing. This interpretation was originally issued on March 1, 1943.

Interpretation 1 (b) (4)—I: Exemption of underlying lease. Assume in each of the following cases that the maximum rent date is March 1, 1942, and the effective date of the Housing and Hotel Regulations is July 1, 1942.

1. On September 1, 1941, L leased a 60-room hotel to T for one year at a rent of $500 a month. When this lease expired on August 31, 1942, all but five of the rooms in the hotel were rented by T to hotel guests. On September 1, 1942, a new one-year lease of the hotel structure was made between L and T, providing for a rent of $700 a month. This rent was less than the aggregate maximum rents of the hotel rooms as established under the Hotel and Rooming House Regulation, (now called the Rent Regulation for Transient Hotels, Residential Hotels, Rooming Houses and Motor Courts). On March 1, 1943, the hotel is being operated by T, and all of the rooms are either rented or offered for rent.

Prior to March 1, 1943, the lease between L and T was subject to the Housing Regulation, and the maximum rent for the structure was established under the first paragraph of section 5 (c) as that paragraph appeared in the regulation prior to that date. Under that paragraph L was permitted to receive the $700 a month rent. On March 1, 1943, section 1 (b) (4) of the Housing Regulation was added by Supplementary Amendment No. 15. That provision exempts the lease between L and T from regulation, since the hotel structure contains more than 25 rooms which are rented or offered for rent by T. This exemption continues so long as the requirements of section 1 (b) (4) are satisfied. However, the renting of the rooms by T remains subject to the Hotel Regulation.

2. Assume the same facts as in paragraph 1, except that the lease of the hotel structure which was in effect on March 1, 1942, expired on May 1, 1942. On the latter date a new two-year lease was made between L and T providing for a rent of $700 a month. This lease is in force on March 1, 1943. It contains no provision giving T the power to cancel or otherwise terminate.

Prior to March 1, 1943, the maximum rent for the hotel structure was established under the first paragraph of section 5 (c) as that paragraph appeared in the regulation prior to that date (Interpretation SL–1). Under that paragraph, L was permitted to receive the $700 a month rent agreed upon in the new lease entered into on May 1, 1942. This underlying lease remains subject to the Housing Regulation, on and after March 1, 1943, until its termination, since the lease was entered into after maximum rent date and prior to the effective date of the Housing Regulation (section 1 (b) (4), as amended by Supplementary Amendment No. 15). The maximum rent for the hotel structure, on and after March 1, 1943, is $700 a month under section 4 (i) of the Housing Regulation, that being the rent in effect on such date. The maximum rent is subject to decrease under section 5 (c) (8) which was added to the Housing Regulation by Supplementary Amendment No. 15. After the lease of the hotel structure expires on April 30, 1944, the structure will no longer be subject to the rent regulations. However, the rooms in the hotel will remain subject to the Hotel Regulation.

3. On May 1, 1942, L completed construction of a new 60-room hotel which he leased on that date to T for a two-year term at a rent of $700 a month. The lease contains no provision giving T the power to cancel or otherwise terminate.

The maximum rent for the hotel structure is $700 a month under section 4 (c) of the Housing Regulation. This rent may be decreased under section 5 (c) (1). Under section 1 (b) (4), the lease between L and T remains subject to the Housing Regulation until its expiration. After the lease expires the hotel structure will no longer be subject to the rent regulations. However, the rooms in the hotel will remain subject to the Hotel Regulation.

4. On September 1, 1941, L leased a 60-room hotel to T for a five-year term at a rent of $500 a month. On May 1, 1942, T sublet the entire structure to S for a two-year term at a rent of $700 a month. Prior to March 1, 1943, both the lease between L and T and the sublease between T and S were subject to the Housing Regulation. On and after March 1, 1943, so long as the conditions necessary to exemption under section 1 (b) (4) are satisfied, the lease between L and T is no longer subject to regulation under section 1 (b) (4). However, the sublease between T and S remains subject to the Housing Regulation since, as provided in section 1 (b) (4), it was entered into after maximum rent date and prior to the effective date of the regulation, and is still in force. The maximum rent which T may receive from S is $500 a month, since that was the rent for the entire structure on March 1, 1942, under the lease between L and T. After March 1, 1943, T may petition for an increase in the maximum rent under section 5 (a) (8), which was added to the Housing Regulation by Supplementary Amendment 15. An adjustment may be ordered if there has been a substantial increase in occupancy of the hotel since March 1, 1942.

Issued this 3d day of January 1947.

EUGENE SWIGART,
Associate General Counsel for Rent.

[F. R. Doc. 47-166; Filed, Jan. 7, 1947; 8:46 a. m.]

PART 1388—DEFENSE-RENTAL AREAS

[Housing, Interpretation of Sec. 4 (§ 1388.1181)]

VARIATIONS IN RENT BECAUSE OF VARIATIONS IN LENGTH OF TERM

Interpretation of section 4 of the Rent Regulation for Housing.

The following is a revision of an interpretation of section 4 of the Rent Regulation for Housing. This interpretation was originally issued on August 8, 1942 and revised on July 1, 1945.

Interpretation 4–VII: Variations in rent because of variations in length of term. Assume the maximum rent date is March 1, 1942, and the effective date of the regulation is July 1, 1942.

L, the owner of a large apartment building, has an established practice of renting apartments on a yearly basis and charging a higher rent to tenants who take leases for less than a year. On the maximum rent date, an apartment in the building was under lease to A, under a written lease for one year which provided for a rent of $55 a month. Similar apartments in the same building were rented to other tenants at rents of $60 a month in cases where such tenants had taken leases for three-month terms. On May 1, 1942, L executed a written lease for three months to B of the apartment rented to A on March 1, 1942, the lease to B providing a rent of $65.

The maximum rent of the apartment is $55. The Housing Regulation, unlike the Rent Regulation for Transient Hotels, Residential Hotels, Rooming Houses and Motor Courts, does not authorize variations in rents because of variations in terms of occupancy.

Conversely, an apartment rented on the maximum rent date for a rent of $60 a month, to a tenant who had entered into a lease for a shorter term such as three months, would continue to have a maximum rent of $60 a month, even though now leased to a tenant under a year's lease.

Issued this 3d day of January 1947.

EUGENE SWIGART,
Associate General Counsel for Rent.

[F. R. Doc. 47-168, Filed, Jan. 7, 1947; 8:52 a. m.]

PART 1388—DEFENSE-RENTAL AREAS

[Housing, Interpretation of Sec. 4 (i) (§ 1388.1181)]

DETERMINATION OF RENT

Interpretation of section 4 (i) of the Rent Regulation for Housing.

The following is a revision of an interpretation of section 4 (i) of the Rent Regulation for Housing. This interpretation was originally issued on March 1, 1943 and revised July 1, 1945.

Interpretation 4 (i)–I: Determination of rent under section 4 (i). Assume in each of the following cases that the maximum rent date is March 1, 1942, and the effective date of the Housing Regulation is July 1, 1942.

1. On September 1, 1941, L leased a house containing 12 rooms to T for one year at a rent of $50 a month. When this lease expired on August 31, 1942 the house was being operated by T as a rooming house, with 10 rooms then rented to subtenants. The maximum rents for the rooms are established under the Rent Regulation for Transient Hotels, Residential Hotels, Rooming Houses and Motor Courts and total $200 a month. On September 1, 1942, L entered into an agreement with T to rent the house on a month-to-month basis at a rent of $75 a month. On March 1, 1943, the house is still rented to T at $75 a month.

Prior to March 1, 1943, the maximum rent for the house was established under the first paragraph of section 5 (e) of the Housing Regulation. This paragraph permitted L, on expiration of the lease on August 31, 1942, to rent the house for a rent not in excess of the aggregate maximum rents of the separate dwelling units in the house. The $75 a month rent was within this limit and was permitted by the first paragraph of section 5 (e).

On March 1, 1943, by Supplementary Amendment No. 15, the first paragraph of section 5 (e) was eliminated from the Housing Regulation. On and after March 1, 1943, the maximum rent for the house is established under section 4 (i) of the Housing Regulation, which was added to the regulation by the above supplementary amendment. Under that paragraph the maximum rent for the house is $75 a month, on and after March 1, 1943. This rent is subject to decrease under section 5 (c) (8) of the Housing Regulation, which was added by Supplementary Amendment No. 15. A decrease may be ordered if the $75 a month rent is higher than the rent generally prevailing in the defense-rental area for comparable accommodations on March 1, 1942, taking into consideration any increase in the number of subtenants since that date.

2. Assume in the above case that, on December 1, 1942, L increased the rent for the house from $75 to $85 a month, and that this rent was in effect on March 1, 1943. The increase in rent was permitted under the first paragraph of section 5 (e), as that paragraph appeared in the Housing Regulation prior to Supplementary Amendment No. 15, since the new amount was not in excess of the

aggregate maximum rents of the separate dwelling units in the house. On and after March 1, 1943 the maximum rent is $85 a month under section 4 (i), subject to decrease under section 5 (c) (8).

3. Assume the same facts as in paragraph 1, except that the lease which was in effect on March 1, 1942, expired on May 1, 1942, whereupon L rented and continued to rent to T on a month-to-month basis for $75 a month. Prior to March 1, 1943, the maximum rent for the house was established under the first paragraph of section 5 (e). That paragraph permitted L to receive $75 a month, since this amount was not in excess of the aggregate maximum rents of the separate dwelling units in the structure. On and after March 1, 1943, the maximum rent for the house is $75 a month under section 4 (i).

Issued this 3d day of January 1947.

EUGENE SWIGART,
Associate General Counsel for Rent.

PART 1388—DEFENSE-RENTAL AREAS

[Housing, Interpretation of Sec. 6 (§1388, 1181)]

WHAT CONSTITUTES EVICTION

Interpretation of section 6 of the Rent Regulation for Housing.

The following is a revision of an interpretation of section 6 of the Rent Regulation for Housing. This interpretation was originally issued on September 16, 1942 and revised on May 15, 1943.

Interpretation 6–V: What constitutes eviction. (1) Assume that L is entitled to possession of housing accommodations under the local law and has a ground to evict T under section 6 (a) (6) of the regulation, although T continues to pay the rent to which L is entitled. In order to recover possession of such accommodations, L threatens to evict T by force, thereby inducing T to vacate the premises. Within six months after T's removal L desires to rent such accommodations.

T was removed or evicted within the meaning of section 6 (a) (6) and if L rents the accommodations within the six months' period he is required by that section to file a written report prior to such renting. Section 6 (a) prohibits removals or evictions of a tenant, whether by court process or otherwise, except in accordance with the requirements of that section.

(2) L, relying upon his right under section 6 (a) (6), institutes legal proceedings to oust T by service of a summons, stating in the written notice filed in accordance with the requirement of section 6 (d) facts showing a ground for eviction section 6 (a) (6). Before L recovers a judgment T, who is aware of L's right under the regulation and desires to avoid further legal proceedings, vacates the premises. There is an eviction or removal within the meaning of section 6 (a) (6), so that prior to renting the premises within 6 months a report of such renting will be required.

(3) L informs T that he intends to bring an action to recover possession under section 6 (a) (6). T, who is aware of L's right under that section vacates the premises in order to avoid legal proceedings. There is an eviction or removal within the meaning of section 6 (a) (6), so that prior to renting the premises within 6 months a report of such renting will be required.

If L, without specific reliance on a ground for eviction provided by the regulation and without indicating an intention to enforce his right to secure possession by legal action, merely requests T to vacate, a voluntary surrender of possession by T would not constitute a removal or eviction within the meaning of the regulation. Although an agreement by T to waive the benefit of the regulation is void (section 1 (d)), T may vacate voluntarily and a request by L that he do so does not in itself constitute a removal or eviction or an "attempt" to remove or evict. For a removal or eviction to occur within the meaning of section 6, it must be found that L's assertion of his intent to compel T to vacate induced the surrender of possession.

Issued this 3d day of January 1947.

EUGENE SWIGART,
Associate General Counsel for Rent.

[F. R. Doc. 47-163; Filed, Jan. 7, 1947; 8:46 a. m.]

PART 1388—DEFENSE RENTAL AREAS

[Housing, Interpretation of Sec. 6 (b) (2) (§ 1388.1181)]

GENERAL CONSIDERATIONS REGARDING ISSUANCE OF CERTIFICATES

Interpretation of section 6 (b) (1) of the Rent Regulation for Housing.

The following is a revision of an interpretation of section 6 (b) (1) of the Rent Regulation for Housing. This interpretation was originally issued on May 15, 1943.

Interpretation 6 (b) (1)–I: General considerations regarding issuance of certificates. Section 6 prohibits evictions except under the circumstances stated therein. Section 6 (a) sets out certain classes of cases in which tenants may be evicted pursuant to local law. Section 6 (a) does not provide that the grounds stated are of themselves grounds for eviction, but it does provide that, if such grounds are present, the right to evict is for the local court to decide under local law. A tenant may be evicted on a ground set out in section 6 (a) in an action filed directly with the local court. It is not necessary, nor is it contemplated, that the Rent Director issue a certificate in such cases.

The authority given to the Rent Director by section 6 (b) (1) of the Housing Regulation to issue a certificate permitting the landlord to pursue his eviction remedies under local law is to be exercised in cases where there is no ground for eviction under section 6 (a). Such a certificate does not indicate that grounds for eviction under local law are present; it merely leaves the landlord free to pursue whatever remedies he may have in the local courts upon the expiration of the waiting period provided in the certificate.

Where the landlord seeks to evict a tenant under the provisions of section 6 (a) he must comply with the notice requirements of section 6 (d) (1) and 6 (d) (2) of the Housing Regulation. Where a certificate is issued under section 6 (b) (1) or 6 (b) (2) the notice provisions of section 6 (d) (1) do not apply, although the landlord must observe the requirements of section 6 (d) (2).

Before a certificate will be issued under section 6 (b) (1) it must appear, not only that the landlord is acting in good faith in the particular case, but also that removals or evictions in that class of cases are not inconsistent with the purposes of the Price Control Act or the Rent Regulation and would not be likely to result in the circumvention or evasion thereof.

Issued this 3d day of January 1947.

EUGENE SWIGART,
Associate General Counsel for Rent.

[F. R. Doc. 47-164; Filed, Jan. 7, 1947; 8:46 a. m.]

PART 1388—DEFENSE-RENTAL AREAS

[Housing, Interpretation of Sec. 6 (b) (2) (§ 1388.1181)]

SERVICE OF EVICTION NOTICE PRIOR TO EXPIRATION OF WAITING PERIOD

Interpretation of section 6 (b) (2) of the Rent Regulation for Housing.

The following is a revision of an interpretation of section 6 (b) (2) of the Rent Regulation for Housing. This interpretation was originally issued on November 30, 1942 and revised July 1, 1945.

Interpretation 6 (b) (2)–V: Service of eviction notice prior to expiration of waiting period. After October 20, 1942,[1] V sells a house to L who pays 20 percent of the purchase price in cash. At the time of sale the house is rented to T on a month-to-month basis. L petitions the Rent Director for a certificate under section 6 (b) (2). The Rent Director, pursuant to that provision, issues a certificate authorizing the purchaser to pursue his remedies for removal or eviction of T in accordance with the requirements of local law at the expiration of the waiting period.

Under local law it is necessary for L to give one month's notice in order to terminate the month-to-month tenancy and give him the right to possession. L inquires whether he may, during the waiting period, give T a notice to vacate at the expiration of such period. The regulation permits the giving of such a notice. This is not considered the "pursuit of L's remedies" under local law within the meaning of section 6 (b) (2). However, the notice must not require a surrender of possession prior to expiration of the waiting period.

[1] In areas brought under control after October 20, 1942, the applicable date is the effective date of the regulation.

Issued this 3d day of January 1947.

EUGENE SWIGART,
Associate General Counsel for Rent.

[F. R. Doc. 47-170; Filed, Jan. 7, 1947; 8:47 a. m.]

PART 1388—DEFENSE RENTAL AREAS

[Housing, Interpretation of Sec. 6 (b) (2) (§ 1388.1181)]

EVICTION FOR PURPOSE OTHER THAN HIS OWN OCCUPANCY BY PURCHASER

Interpretation of section 6 (b) (2) of the Rent Regulation for Housing.

The following is a revision of an interpretation of section 6 (b) (2) of the Rent Regulation for Housing. This interpretation was originally issued on January 9, 1943 and revised July 1, 1945.

Interpretation 6 (b) (2)–VIII: Eviction for purpose other than his own occupancy, by purchaser who buys after October 20, 1942.[1] 1. Eviction prior to execution of sale contract. L is renting a house to T. On or after October 20, 1942,[1] L petitions for a certificate under section 6 (b) (1) of the Housing Regulation on the ground that he wants to evict T in order to sell the house.

The petition will be denied. Eviction of the tenant under these circumstances is inconsistent with the purposes of the act and the regulation and is likely to result in the circumvention or evasion thereof. The conditions under which eviction of a tenant is permitted for occupancy by a purchaser are set out in section 6 (b) (2) of the regulation. The purposes of this provision require the denial of the petition in the above case. Pursuant to those purposes, a certificate will be issued where L desires to sell the house, only after a contract of sale has been made and the requirements of section 6 (b) (2) are satisfied.

2. For purpose of resale. After October 20, 1942,[1] L buys a house which is rented to T, paying 50 percent of the purchase price in cash. L is a real estate broker and buys the house for purposes of resale. He petitions for a certificate under section 6 (b) in order to obtain vacant possession for purposes of sale.

The petition will be denied. As in paragraph 1, the issuance of the certificate is covered by section 6 (b) (1) rather than section 6 (b) (2), since the removal is not sought for occupancy by the purchaser. Even though the payment requirement of section 6 (b) (2) is satisfied, as is true here, eviction of the tenant under these circumstances is inconsistent with the act and the regulation and would be likely to result in the circumvention or evasion thereof. The considerations set out in paragraph 1 apply.

[1] In areas brought under control after October 20, 1942, the applicable date is the effective date of the Regulation.

3. For occupancy by purchaser's family. After October 20, 1942[1] L buys a house which is rented to T for occupancy by L's daughter, who is in urgent need of housing accommodation. L paying 15 percent of the purchase price. L petitions for a certificate under section 6 (b) (2).

The petition will be denied. The issuance of the certificate in this case is covered by section 6 (b) (1) rather than section 6 (b) (2). The latter provision covers only the issuance of certificates where removal of the tenant is sought for "occupancy by a purchaser." However, the policies behind section 6 (b) (2) apply to the present case, and the requirements of that section will be followed in the proceedings under section 6 (b) (1). Since less than 20 percent of the purchase price has been paid, a certificate is not authorized.

Issued this 3d day of January 1947.

EUGENE SWIGART,
Associate General Counsel for Rent.

[F. R. Doc. 47-165; Filed, Jan. 7, 1947; 8:46 a. m.]

PART 1388—DEFENSE-RENTAL AREAS

[Housing, Interpretation of Sec. 6 (b) (2) (§ 1388.1181)]

EVICTION BY PURCHASER WHO RENTS TO NEW TENANTS AFTER SALE

Interpretation of section 6 (b) (2) of the Rent Regulation for Housing.

The following is a revision of an interpretation of section 6 (b) (2) of the Rent Regulation for Housing. This interpretation was originally issued on January 9, 1943, revised May 15, 1943, and July 1, 1945.

Interpretation 6 (b) (2)–IX: Eviction by purchaser who rents to new tenants after sale. 1. After October 20, 1942,[1] L buys a house which is then rented to X, paying 10 percent of the purchase price in cash and agreeing to pay the balance in monthly installments. Thereafter X voluntarily vacates and L rents the house to T on a month-to-month basis. After T has occupied the house for several months, L decides, in good faith, to occupy the house himself. He petitions for a certificate under section 6 (b).

This case is not covered by section 6 (b) (2) and the requirements of that provision are inapplicable. The scope of section 6 (b) (2) is limited to the removal or eviction of a tenant of the vendor.

The proceeding is under section 6 (b) (1) and a certificate will be issued provided L is acting in good faith. (L cannot evict under section 6 (a) (6) since he neither owned nor had an enforceable right to buy or the right to possession of the house prior to October 20, 1942.)

2. After October 20, 1942,[1] L buys a house which is then occupied by the vendor, paying 10 percent of the purchase price in cash and agreeing to pay the balance in monthly installments. The sale is closed and title passes to L, but L agrees with the vendor that the latter may continue to occupy the house for three months, paying rent. The vendor refuses to vacate at the end of three months and L petitions for a certificate under section 6 (b) on the ground that he wants to occupy the house himself.

As in paragraph 1 above, this is not a case covered by section 6 (b) (2) and the requirements of that provision are inapplicable. The proceeding is under section 6 (b) (1) and a certificate will be issued provided L is acting in good faith.

Issued this third day of January 1947.

EUGENE SWIGART,
Associate General Counsel for Rent.

[F. R. Doc. 47-173; Filed, Jan. 7, 1947; 8:47 a. m.]

PART 1388—DEFENSE-RENTAL AREAS

[Housing, Interpretation of Sec. 6 (b) (2) (§ 13388.118)]

ISSUANCE OF CERTIFICATE WHERE THE LANDLORD PROPOSES TO OCCUPY ONLY PART OF ACCOMMODATIONS

Interpretation of section 6 (b) (2) of the Rent Regulation for Housing.

The following is a revision of an interpretation of section 6 (b) (2) of the Rent Regulation for Housing. This interpretation was originally issued on July 3, 1943 and revised on July 1, 1945.

Interpretation 6 (b) (2)–X: Issuance of certificate where the landlord proposes to occupy only part of the accommodations. After October 20, 1942,[1] L buys a ten-room house which is then rented to T, paying more than 20 percent of the purchase price in cash. T occupies seven rooms of the house and rents the remaining three rooms to roomers. L desires to occupy that part of the house now occupied by T and to continue renting the three rooms to the roomers. He petitions for a certificate under section 6 (b) (2).

A certificate will be issued under section 6 (b) (2), since within the meaning of that provision the eviction of T is sought for occupancy by L, the purchaser. Unless the circumstances of the case bring it within one of the exceptions contained in section 6 (b) (2), the certificate will authorize L to pursue his local eviction remedies at the expiration of a full waiting period.

Issued this 3d day of January 1947.

EUGENE SWIGART,
Associate General Counsel for Rent.

[F. R. Doc. 47-172; Filed, January 7, 1947; 8:47 a. m.]

PART 1388—DEFENSE-RENTAL AREAS

[Housing, Interpretation of Sec. 6 (b) (2) (§ 1388.1181)]

PURCHASE OF MULTIPLE-DWELLING STRUCTURES

Interpretation of section 6 (b) (2) of the Rent Regulation for Housing.

The following is a revision of an interpretation of section 6 (b) (2) of the Rent Regulation for Housing. This interpretation was originally issued on May 15, 1943 and revised on July 1, 1945.

Interpretation 6 (b) (2)*–VI: Purchase of multiple-dwelling structures.* On or after the effective date of Regulation (or on or after October 20, 1942, where the effective date of Regulation is prior to that date), L purchases a twelve-unit apartment building, paying $10,000 cash and assuming a $65,000 mortgage debt. L then petitions for a certificate under section 6 (b) (2) in order to evict T from one of the apartments which L desires to occupy. L is not at present living in the apartment building.

The purchase price is $75,000, and thus the payment requirements of section 6 (b) (2) are not satisfied. (See Interpretation 6 (b) (2)–III, paragraph 1.) A certificate may be issued in this case on the basis of special hardship, if inability to occupy one of the apartments will interfere with L's management or supervision of the structure. If the certificate is issued it may provide for the full waiting period.

The hardship on the landlord will in general depend on the number of dwelling units in the structure. Where this number is substantial the advantage to the landlord in management or supervision of the operation warrants the issuance of a certificate. Usually, however, in the case of smaller structures these considerations of management and supervision will be of less weight and a certificate will not ordinarily issue because of these factors alone.

Issued this 3d day of January 1947.

EUGENE SWIGART,
Associate General Counsel for Rent.

[F. R. Doc. 47–169; Filed, Jan. 7, 1947; 8:47 a. m.]

PART 1388—DEFENSE-RENTAL AREAS

[Housing, Interpretation of Sec. 6 (b) (2) (§ 1388.1181)]

SALE OF HOUSING ACCOMMODATIONS RENTED ON A FURNISHED BASIS; REMOVAL OF THE FURNITURE BY THE SELLER

Interpretation of section 6 (b) (2) of the Rent Regulation for Housing.

The following is a revision of an interpretation of section 6 (b) (2) of Rent Regulation for Housing. This interpretation was originally issued on October 8, 1943 and revised July 1, 1945.

Interpretation 6 (b) (2)*–XIII: Sale of housing accommodations rented on a furnished basis; removal of the furniture by the seller.* Assume that the effective date of the Housing Regulation is July 1, 1942. After October 20, 1942,[1] L, who was renting a furnished house to T, sold the house to P who paid in cash from unborrowed funds a larger percentage of the purchase price than is specified in section 6 (b) (2). L retained title to the furniture contained in the house. On petition of P, a certificate was issued by the Rent Director authorizing P to pursue his local eviction remedies at the expiration of the usual waiting period after the date of filing the petition. Immediately thereafter L filed a petition under section 5 (b) (2), seeking permission to remove the furniture.

Under such circumstances permission to remove the furniture normally will be given, but the Rent Director is authorized to defer such action until expiration of the waiting period specified in the certificate relating to eviction which was issued to P.

The regulation does not control the allocation between L and P of the rent paid by T for the furnished house. Where an owner who is renting furnished housing accommodations sells the accommodations but retains title to the furniture, it will be advisable for him to make an arrangement with the purchaser concerning allocation of the rent paid by the tenant during the time that the furniture remains in the accommodations after the sale.

Issued this 3d day of January 1947.

EUGENE SWIGART,
Associate General Counsel for Rent.

[F. R. Doc. 47–167; Filed, Jan. 7, 1947; 8:47 a. m.]

PART 1388—DEFENSE-RENTAL AREAS

[Housing, Interpretation of Sec. 6 (c) (3) (§ 1388.1181)]

MEANING OF "OCCUPANT" AND "RESIDENCE"

Interpretation of section 6 (c) (3) of the Rent Regulation for Housing.

The following is a revision of an interpretation of section 6 (c) (3) of the Rent Regulation for Housing. This interpretation was originally issued on February 20, 1943 and revised August 1, 1943.

Interpretation 6 (c) (3)*–I: Meaning of "occupant" and "residence".* 1. L is the owner of a single-family dwelling in which he resides. On November 1, 1942, L rented two furnished rooms to T at a rent of $12 a week. T immediately entered into occupancy with his wife and five-year-old son. On December 30, 1942, section 6 (c) (3) was added to section 6 of the Housing Regulation by Supplementary Amendment No. 13. L now seeks to evict T and his family.

The exemption of section 6 (c) (3) does not apply, since the rooms contain three "occupants." Section 6 (c) (3) is limited to cases in which the landlord rents to not more than two "occupants" within the landlord's residence. The term "occupant" includes any person residing in the accommodations as a result of a rental agreement, even though such person may not be a party to the rental agreement or a "tenant" within the meaning of the regulation.

The term "occupant" is to be distinguished from the term "paying tenant" as used in section 13 (a) (12). In the case stated if L rents no furnished rooms other than those rented to T, the rooms are subject to the Housing Regulation, since they are rented to only a single "paying tenant."

If in the above case T and his family move into the furnished rooms on or after August 1, 1943, and L is not renting to any other persons within his residence, the exemption of section 6 (c) (4) will apply. (See Interpretation 6 (c) (4)–I.)

2. L is the owner of a single-family dwelling in which he resides. Prior to August 1, 1943, he rents a furnished room to T and his wife who immediately move into the room. L does not rent to any other persons within his residence. After August 1, 1943, L seeks to evict T and his wife.

While the exemption of section 6 (c) (4) does not apply, since the family consisting of T and his wife moved into the room prior to August 1, 1943, the exemption of section 6 (c) (3) is applicable since L is renting to only two occupants within his residence.

3. L owns an apartment building containing 14 apartments and he resides in one apartment consisting of 6 rooms. On November 15, 1942, L rents furnished, to T, one of the rooms in the apartment occupied by him. L continues to occupy the remaining five rooms in the apartment.

Section 6 (c) (3) applies as between L and T, even though in the remainder of the apartment building there are more than two "occupants" who occupy under rental agreements with L. L's apartment is his "residence" within the meaning of section 6 (c) (3).

Section 6 (c) (3) is not limited to rental agreements made after December 30, 1942, the effective date of Supplementary Amendment No. 13.

Issued this 3d day of January 1947.

EUGENE SWIGART,
Associate General Counsel for Rent.

[F. R. Doc. 47–171; Filed, Jan. 7, 1947; 8:47 a. m.]

Chapter XIV—War Contracts Price Adjustment Board

RENEGOTIATION REGULATIONS

The changes and additions to Parts 1602, 1603, 1604, 1607 and 1608 set forth below are also contained in Revision 27 of the Renegotiation Regulations dated December 13, 1946.

MAURICE HIRSCH,
Brigadier General,
General Staff Corps, Chairman.

PART 1602—PROCEDURE FOR RENEGOTIATIONS

SUBPART A—ASSIGNMENTS FOR RENEGOTIATIONS AND CANCELLATIONS

Section 1602.206–8 is added as follows:

§ 1602.206–8 *Filing Standard Form of Contractor's Report prior to end of fiscal year.* If a "Standard Form of Contractor's Report" is filed prior to the close of the contractor's fiscal year it will be accepted as a tentative filing only. Use of the form letter set forth at § 1607.704–4 of this chapter is authorized for the purpose of advising the contractor of his obligations under the act. After the close of the contractor's fiscal year either the letter from the contractor confirming the tentative figures as contemplated by the letter set forth at § 1607.704–4 of this chapter, or, where necessary, the revised "Standard Form of Contractor's Report," shall be filed in accordance with section 403 (c) (5) (A) of the act. [RR 206.8]

[1] In areas brought under control after October 20, 1942, the applicable date is the effective date of the regulation.

PART 1603—DETERMINATION OF RENEGOTIABLE BUSINESS AND COSTS

SUBPART G—TERMINATION OF RENEGOTIATION

Paragraph (d) of § 1603.374 is amended to read as follows:

§ 1603.374 *Costs paid or incurred.*

* * *

(d) Nothwithstanding the foregoing provisions of this section, no cost which has not been paid or incurred prior to January 1, 1948, will be allocated to performance prior to the close of the termination date. The determination as to whether a cost is paid or incurred prior to such date shall be made by reference to the method of accounting employed by the contractor for purposes of renegotiation. The time limitation specified in the first sentence of this paragraph shall not apply to costs which are accounted for on a completed contract basis or similar method of accounting. If it appears that a cost allocable to performance prior to the close of the termination date will be paid or incurred prior to January 1, 1948, the cost may be allowed conditionally as provided in paragraph (c) of this section. If it appears that the cost will not be paid or incurred prior to January 1, 1948, the risk that the cost will be paid or incurred after such date will, in accordance with § 1604.413–2 (a) of this chapter, be taken into consideration with the other risks assumed by the contractor. In no case will such risk be taken into consideration if the cost is allowed conditionally. [RR 374]

SUBPART H—COSTS ALLOCABLE AND ALLOWABLE AGAINST RENEGOTIABLE BUSINESS

Section 1603.383–3 is amended to read as follows:

§ 1603.383–3 *Renegotiation rebate*—(a) *General.* A contractor who has eliminated excessive profits determined under the Renegotiation Act will be entitled to a net renegotiation rebate under subsection (a) (4) (D) of the 1943 Act with respect to each fiscal year for which such excessive profits were eliminated if, on a recomputation of the amortization deduction under section 124 (d) of the Internal Revenue Code made in connection with the determination of the contractor's taxes for such fiscal year, there is an additional amortization deduction for such fiscal year all or some part of which is determined, in accordance with the regulations hereinafter prescribed, to be attributable to contracts with the Departments and subcontracts. Such net renegotiation rebate is intended to restore to the contractor the excessive profits determined and eliminated for such fiscal year in an amount equal to that part of such additional amortization deduction for such year attributable to contracts with the Departments and subcontracts, but only to the extent that such additional amortization deduction would have resulted in a reduction in the amount of excessive profits eliminated, less the Federal tax benefit thereon as defined by subsection (a) (4) (D) of the Renegotiation Act. The regulations hereinafter prescribed will be construed in the light of such intention.

(b) *Definitions*—(1) *Additional amortization deduction.* The additional amortization deduction allocable to each fiscal year, for the purpose of determining the gross renegotiation rebate, is the excess of the amortization deduction finally determined under section 124 (d) of the Internal Revenue Code for such fiscal year over the amount of amortization or depreciation upon the basis of which the amortization or depreciation attributable to contracts with the Departments and subcontracts was allowed as a cost in the determination of excessive profits to be eliminated for such fiscal year. The term "depreciation" as used herein and in succeeding subparagraphs has reference to those situations in which, in the determination of excessive profits to be eliminated for the fiscal year, the allowance with respect to the write-off of the cost of emergency facilities, to which all or a part of the amortization deduction finally determined under section 124 (d) of the Internal Revenue Code relates, may have been described as "depreciation" or may have been computed on a basis other than on the 60 month basis provided by section 124 of the Internal Revenue Code.

(2) *Gross renegotiation rebate.* The gross renegotiation rebate for each fiscal year is that portion of the additional amortization deduction for such fiscal year, not in excess of the excessive profits determined and eliminated for such fiscal year, which is determined in accordance with the regulations hereinafter prescribed to be attributable to contracts with the Departments and subcontracts.

(3) *Net renegotiation rebate.* The net renegotiation rebate for each fiscal year is the excess of the gross renegotiation rebate for such fiscal year over the amount by which the taxes of the contractor for such fiscal year under Chapters 1, 2A, 2B, 2D, and 2E of the Internal Revenue Code were decreased by reason of omitting from gross income (or by reason of the application of the provisions of section 3806 (a) of the Internal Revenue Code with respect to) that part of the excessive profits determined and eliminated which is equal to the amount of the gross renegotiation rebate for such fiscal year.

(c) *Procedure for obtaining renegotiation rebate.* (1) After a recomputation of the amortization deduction for any fiscal year pursuant to section 124 (d) of the Internal Revenue Code has been made in connection with the determination of the contractor's taxes for such fiscal year, a contractor may apply for a net renegotiation rebate with respect to excessive profits determined and eliminated for such fiscal year by filing a claim in the form set forth at §§ 1607.736–1 and 1607.736–2 of this chapter, together with the information and documents referred to in such form. Such form, together with such information and documents, must be filed with the War Contracts Board at the address specified in § 1607.791–5 of this chapter. A separate application must be filed with respect to each fiscal year for which the contractor claims a net renegotiation rebate. See also Bureau of Internal Revenue Mimeograph No. 6023, reproduced herein at § 1608.852–9 of this chapter.

(2) [Reserved.]

(3) In those cases in which the contractor is a partnership, the proper claimant is the partnership entity, not the individual members of the partnership. A partnership claim for a net renegotiation rebate must be filed on behalf of the partnership entity as it existed for the fiscal year or period to which the claim relates and in the partnership name under which the entity was renegotiated. The forms set forth at §§ 1607.736–1 and 1607.736–2 of this chapter are to be prepared on the basis of such partnership entity being the claimant. The claim itself must be signed on behalf of the partnership by each of the partners (or their legal representative in the event of the death or incapacity of a partner) constituting the partnership for the renegotiated period to which the claim relates and must be certified to by at least one general partner having knowledge of the facts. In the event of a legal representative signing on behalf of a partner, proof of such representative capacity must accompany the claim. If the printed claim forms do not provide adequate space for the signature of all partners, type-written copies of the form should be prepared with the allowance for necessary space.

(4) The contractor may be required to furnish such additional documents and information as the War Contracts Board (or any duly authorized representative) may require in order to determine the amount of the net renegotiation rebate, if any, to which the contractor may be entitled.

(5) Pursuant to the provisions of the Third Deficiency Appropriation Act, 1946, or to the provisions of such other applicable legislation as may from time to time be in force, the War Contracts Board will certify to the Secretary of the Treasury the net renegotiation rebate to which the contractor is entitled.

(d) *Determination of renegotiation rebate*—(1) *Allocation of excessive profits.* Subsection (a) (4) (D) of the 1943 Act provides that the gross renegotiation rebate shall not exceed the excessive profits determined and eliminated for the fiscal year for which the claim for renegotiation rebate has been made. In the absence of such circumstances as would afford a basis for setting aside the determination of excessive profits, the allocation of excessive profits (i) to a fiscal year or (ii) between contractors if renegotiation was conducted on a consolidated basis, made in the order or agreement determining such excessive profits, will be conclusive in determining the amount of the gross renegotiation rebate. However, the recitation contained in the order or agreement with respect to the fiscal years or periods in which excessive profits were reported in contractor's Federal income and excess profits tax returns, made for the purpose of determining the applicable tax credit under section 3806 of the Internal Revenue Code, does not necessarily constitute such an allocation

of the excessive profits to the fiscal years referred to therein. The question of whether or not, in the absence of a specific allocation elsewhere in the order or agreement, such recitation constitutes a proper allocation of excessive profits to the respective fiscal years must be determined by reference to the entire order or agreement and the supporting data submitted in renegotiation. If the order or agreement determining excessive profits has not allocated such excessive profits to a fiscal year or years, such an allocation will be made by the War Contracts Board (or its duly authorized representative) in connection with the determination of the gross renegotiation rebate.

(2) *Determination of amount of additional amortization.* (i) All claims for net renegotiation rebates must be accompanied by the original statement from the Internal Revenue Agent in Charge reflecting the total amount of amortization deduction allowed upon a recomputation of the amortization deduction under section 124 (d) of the Internal Revenue Code made in connection with the determination of the contractor's taxes for the fiscal year to which the claim relates. Since the amount shown on such statement will be the total recomputed amortization deduction allowable for the fiscal year, it will be necessary for purposes of computing the gross renegotiation rebate to first determine what portion of the total recomputed amortization deduction represents the additional amortization deduction allocable to the fiscal year as defined in § 1603.383-3 (b) (1).

(ii) Generally, as in those cases in which the renegotiation was conducted on an over-all fiscal year basis and the accounting basis upon which the renegotiation was conducted is the same as that upon which contractor's Federal tax returns were filed, the additional amortization deduction will be the excess of the total recomputed amortization deduction over the amount of amortization or depreciation charged to total production, i. e. total cost of doing business (both renegotiable and non-renegotiable) in the renegotiation for the fiscal year. The amount charged to total production is not necessarily the amount of amortization deduction or depreciation ultimately allocated to and allowed as a cost of renegotiable business; neither is it necessarily limited to the amount claimed for the fiscal year for Federal income and excess profits tax purposes. The amount so charged to total production shall not be subject to adjustment because of the inclusion therein at the time of the renegotiation of an amount erroneously or otherwise improperly claimed or considered as an amortization deduction. If for any reason the amount of the amortization deduction or depreciation considered in the renegotiation with respect to a particular emergency facility cannot be accurately ascertained, it will be presumed that amortization on the 60 month basis was claimed and used, and the burden shall be upon the contractor to establish otherwise.

(iii) The foregoing general rule should, to the extent that its application properly reflects the amount of the additional amortization deduction allocable to the fiscal year, be employed in each case. However, in certain of those cases in which the renegotiation was not conducted on an over-all fiscal year basis or in which the accounting basis upon which the renegotiation was conducted differs from the basis upon which contractor's Federal tax returns were filed, the determination of the amount of the additional amortization properly allocable to the fiscal year for the purpose of computing the gross renegotiation rebate will require individual treatment depending upon the particular basis upon which the renegotiation was conducted and the accounting procedures employed. In determining the amount of additional amortization deduction allocable to each fiscal year in such cases, the War Contracts Board (or its duly authorized representative) may employ such methods in modification of the foregoing general rule as, in the opinion of the War Contracts Board, are appropriate to the particular circumstances of each case and will properly reflect the amount of such additional amortization to which contractor is entitled.

(3) *Determination of gross renegotiation rebate.* (i) As defined in subsection (a) (4) (D) of the act and § 1603.383-3 (b) (2), the gross renegotiation rebate for each fiscal year is that portion of the additional amortization deduction for such fiscal year, not in excess of the excessive profits determined and eliminated for such fiscal year, which is determined in accordance with the regulations of this part to be attributable to contracts with the Departments and subcontracts.

(ii) It is the intent of the regulations of this part that the basis upon which the original determination of excessive profits for the fiscal year was concluded shall not be modified or deviated from in the making of the net renegotiation rebate. Accordingly, the extent, if any, to which the additional amortization deduction for any fiscal year is attributable to contracts with the Departments and subcontracts shall, for purposes of determining the gross renegotiation rebate, be determined upon the same basis and in the same manner as was used in fixing the amount of amortization or depreciation allowed as a cost in determining the excessive profits to be eliminated for such fiscal year. It is intended, generally, that the additional amortization deduction determined under these regulations to be attributable to renegotiable business shall be an amount which, when added to the amount of amortization deduction or depreciation allowed as a cost of renegotiable business in the determination of excessive profits attributable to the renegotiated year, shall total the same dollar amount as would have been charged against renegotiable business had the total recomputed amortization deduction been available to the contractor at the time of renegotiation and had such total recomputed amortization deduction been allocated on the same basis and in the same manner as was the amortization deduction or depreciation in the renegotiation proceedings.

(iii) For example, if certain costs, including amortization or depreciation of emergency facilities, were allocated between renegotiable and non-renegotiable business in the ratio of renegotiable and non-renegotiable sales to total sales, then the additional amortization deduction shall be allocated on the same basis. Likewise, if the original allocation of the amortization deduction or depreciation was made on the basis of the use of the facilities in renegotiable business, the same percentage or extent of use as then determined or applied shall be applied in the allocation of the additional amortization. If the amortization deduction or depreciation was allocated on the basis of contractor's cost system then in use at the time of the renegotiation, the same basis shall be used as regards the additional amortization. Generally, the application of the foregoing rule will result in the allocation of additional amortization deduction in the same percentage ratio as resulted in the allocation of the amortization deduction or depreciation in the renegotiation. If the allocation of the additional amortization deduction does not reflect the same percentage ratio as that resulting from the original allocation, the circumstances giving rise to such deviation must be clearly and factually explained, and the burden of proof will be upon the contractor to establish the validity of the basis so employed.

(iv) In certain cases the excessive profits determined to have been realized with respect to the fiscal year to which the claim for the net renegotiation rebate relates have not been wholly eliminated because of the application of the $25,000 and $500,000 "floor" provisions contained in § 1603.348-3. In such cases the amount of excessive profits eliminated was less than the amount of excessive profits determined. Had the additional amortization deduction been available to the contractor at the time of renegotiation, the amount of excessive profits determined would have been less by reason of the allowance for such additional amortization. The amount of excessive profits eliminated, however, would not have been correspondingly reduced, but would have been reduced only to the extent that the portion of the additional amortization deduction allocable to renegotiable business exceeded the uneliminated portion of the excessive profits determined. Therefore, to avoid restoring to the contractor an amount greater than the amount by which the excessive profits eliminated would have been reduced had allowance been made for the additional amortization deduction in the determination of the excessive profits, and to afford equal treatment to both those cases in which renegotiation has been conducted prior to the recomputation of the amortization deduction and those cases in which renegotiation is accomplished after such recomputation, the portion of the additional amortization deduction determined to be allocable to renegotiable business for the purpose of computing the gross renegotiation rebate in such cases shall not exceed the amount by which the excessive profits determined and eliminated for the renegotiated year would have been reduced had an allowance been made for the additional amortization deduction in the determination of such excessive profits. The foregoing limitation shall be given effect by reducing the amount of the additional amortization deduction computed in accordance with the general provisions enumerated in the foregoing paragraphs which would otherwise be allocable to renegotiable business, by the amount of the excessive profits determined with respect to such year which were not eliminated by reason of the application of the floor provision.

(v) For special rule applicable to amortization with respect to incompleted facilities see subparagraph (4) of this paragraph.

(4) *Special rule with respect to incompleted facilities.* In any case in which contractor has elected to terminate the amortization period with respect to an incompleted emergency facility pursuant to section 124 (d) of the Internal Revenue Code, the amount of the amortization applicable to such incompleted facility reflected in the statement of the Internal Revenue Agent in Charge showing the total recomputed amortization shall, in the determination of the portion thereof attributable to renegotiable business, be considered separately in accordance with the principles set forth in this subparagraph. Ordinarily, no part of the cost of such incompleted emergency facility will have been previously considered in the determination of the excessive profits to be eliminated and, accordingly, there will have been no previous determination as to the allocability of any portion of amortization or depreciation of such facility to renegotiable business. In view of the unusual character of the amortization deduction—namely, a cost arising from a facility which has not been employed directly in the production of goods under a contract with a Department or a subcontract, yet which may have been a reasonable or integral part of contractor's war production program, the allocability of such a cost cannot be determined solely upon the general principles set forth in the regulations of this part for determining the allocability of costs of performance of renegotiable business. Accordingly, the portion of the total recomputed amortization deduction applicable to such incompleted facility to be allocated as a cost of renegotiable business in computing the gross renegotiation rebate shall be determined by the War Contracts Board in the light of all of the circumstances surrounding the construction, reconstruction, erection, or installation of the particular facility. For the purposes of completing the claim in such cases, contractor should estimate the amount of such amortization deduction which is deemed to be attributable to renegotiable business, and include such estimated amount in the computation of the gross renegotiation rebate. Contractor's estimate should be supported by separate schedule showing the amount of amortization deduction applicable to each incompleted facility involved, the allocation thereof as a charge against renegotiable and non-renegotiable business, and the basis of such allocation, including sufficient data with respect to each such facility to enable the War Contracts Board to evaluate contractor's estimate of the amount of such amortization deduction chargeable to renegotiable business.

(5) *Basis of determination.* Claims for net renegotiation rebates will be verified by reference to all of the renegotiation files and departmental reports of renegotiation. In those cases in which the amount of additional amortization involved or the basis of allocation thereof are in doubt or cannot be accurately determined, or the financial data submitted by the contractor with respect thereto differ from that contained in the renegotiation records, the War Contracts Board shall determine the matter by making a specific finding, on the basis of all relevant data, of the amount of additional amortization properly allocable to renegotiable business.

(6) *Determination of net renegotiation rebate.* Upon the determination of the amount of the gross renegotiation rebate, the Office of the Commissioner of Internal Revenue (or its designated representative) will be notified of the amount thereof and requested to furnish a computation of the amount of the Federal tax benefit thereon. The War Contracts Board will, upon being advised of the amount of the Federal tax benefit, determine the amount of the net renegotiation rebate in accordance with the provisions of subsection (a) (4) (D) of the Renegotiation Act and certify to the Secretary of the Treasury the amount of the net renegotiation rebate for payment. [RR 383.3]

PART 1604—DETERMINATION AND ELIMINATION OF EXCESSIVE PROFITS

SUBPART B—RECOVERY OF EXCESSIVE PROFITS ALREADY REALIZED

Paragraph (a) of § 1604.422-4 is amended to read as follows:

§ 1604.422-4 *Interest.* (a) No renegotiation agreement when originally made shall require the payment of interest on installments of the refund which are not in default thereunder and which are provided to be payable within a two-year period after the close of the fiscal period to which the renegotiation relates. A renegotiation agreement providing for the payment of a refund or portion thereof beyond two years after the close of the fiscal period to which the renegotiation relates shall require the payment of interest at the rate of 6% per annum from and after the date which is two years after the last day of the fiscal period to which the renegotiation relates or 30 days after execution and delivery of the agreement, whichever is later. If in the judgment of the renegotiating agency the agreement has been delayed by the fault of the contractor, interest may run from any agreed date not earlier than two years after the last day of the fiscal period to which the renegotiation relates.

PART 1607—FORMS FOR RENEGOTIATION

SUBPART A—FORMS RELATING TO IDENTIFICATION, ASSIGNMENT AND CANCELLATION OF CASES

Section 1607.704-4 is added as follows:

§ 1607.704-4 *Notice to contractor filing Standard Form of Contractor's Report prior to end of fiscal year.*

Date----------

Contractor's Name----------

Address ----------

DEAR SIR: This is to acknowledge receipt of the "Standard Form of Contractor's Report" filed by you for the period ending----------.

In view of the fact that your fiscal year does not end until----------, the report is being accepted as a tentative filing only. The Renegotiation Act (sec. 403 (c) (5) (A)) requires the filing of such a report on or before the first day of the fourth month "following the close of the fiscal year." The purpose of requiring the filing to be after the close of the fiscal year is to insure that all renegotiable sales are included.

While the termination date of the Renegotiation Act is December 31, 1945, section 403 (h) of the Act provides that profits which are reasonably allocable to performance prior to that time "shall be considered as having been received or accrued not later than the termination date," regardless of the method of accounting employed by a contractor. Under this, it is possible that profits may be received or accrued after December 31, 1945, according to a contractor's method of accounting and yet under the above section they may be subject to renegotiation. An example of this would be income received or accrued in 1946 from a claim under section 17 of the Contract Settlement Act which related to performance of a contract prior to December 31, 1945.

In view of the above, the report filed at this time by you does not constitute full compliance with section 403 (c) (5) (A) of the Act, and the statute of limitations with respect to the commencement and completion of renegotiation does not commence to run from the date of your tentative filing. However, if at the end of your fiscal year, you will advise this office in writing that no additional profits which under section 403 (h) are attributable to performance prior to January 1, 1946, and, therefore, subject to renegotiation, have been received or accrued by you subsequent to December 31, 1945, no additional report will be required. In the event that additional profits subject to renegotiation have been received or accrued by you subsequent to December 31, 1945, it will be necessary for you to file with this office a revised "Standard Form of Contractor's Report". For your convenience, additional copies of this report are inclosed.

Very truly yours,

(Name of Renegotiating Department or Service.)

[RR 704.4]

SUBPART I—ADDRESSES

1. Section 1607.791-1 is amended to read as follows:

§ 1607.791-1 *Secretary's Office.*

Room 3C 686, The Pentagon, Washington 25, D. C., Tel. Republic 6700, Ext. 73636.

[RR 791.1]

2. Section 1607.791-5 is amended to read as follows:

§ 1607.791–5 *Pentagon Office.*

Room 3C 686, The Pentagon, Washington 25, D. C., Tel. Republic 6700, Ext. 73636.

[RR 791.5]

3. Section 1607.792 is amended to read as follows:

§ 1607.792 *Departmental Price Adjustment Boards.*

War Department Price Adjustment Board, Attention: Mr. Wm. H. Coulson, Executive Officer, Room 3B 712, The Pentagon, Washington 25, D. C., Tel. Republic 6700, Ext. 5672.

Navy Price Adjustment Board, Attention: Mr. Edwin H. Barker, Chairman (Navy Department), Room 3329, Main Navy Building, 18th and Constitution Avenue NW., Washington 25, D. C., Tel. Republic 7400, Ext. 5169.

Treasury Department Price Adjustment Board, Attention: Mr. Raymond Eberly, Chairman, 5304 Procurement Building, 7th and D Streets SW., Washington 25, D. C., Tel. District 5700, Ext. 2105.

Maritime Commission Price Adjustment Board, Attention: Mr. John R. Paull, Chairman, Room 512, Electrical Workers Building, 1200 15th Street NW., Washington 5 D. C., Tel Executive 3340., Ext. 608.

Maritime Commission Price Adjustment Board for Shipping Operations, Attention: Mr. James L. Murphy, Chairman, 39 Broadway, New York 6, N. Y., Tel. Whitehall 3–8000.

Reconstruction Finance Corporation Price Adjustment Board, Attention: Mr. Henry T. Bodman, Chairman, Lafayette Building, 811 Vermont Avenue NW., Washington 25, D. C., Tel. Executive 3111, Ext. 8 or 48.

[RR 792]

4. Section 1607.793–1 is amended to read as follows:

§ 1607.793–1 *Headquarters.*

Army Air Forces, Price Adjustment Branch, Readjustment & Procurement Division, Office of Assistant Chief Air Staff—4, Room 5E 921, The Pentagon, Tel. Republic 6700, Exts. 72209, 4420, 74568.

Price Adjustment Unit, TSBPS9A, Air Technical Service Command, Army Air Forces, Wright Field, Dayton, Ohio, Tel. Kenmore 7111, Exts. 22135–23292–25225.

The Chief of Chemical Corps, Attention: Mr. Carl Moline, Renegotiation Branch, Baltimore Sub-Office, OC CWS, 200 West Baltimore Street, Baltimore 1, Md., Tel. Lexington 0710.

The Chief of Engineers, Attention: Mr. John B. Heroman, Jr., Price Adjustment Section, Room 1713, Building T7, Gravelly Point, Va., Tel. Republic 6700, Ext. 3073.

The Chief of Ordnance, Attention: Mr. Ross Pancoast, Price Adjustment Branch, Room 2D 445, The Pentagon, Washington 25, D. C., Tel. Republic 6700, Ext. 6568.

The Quartermaster General, Attention: Mr. Gaze Lukas, Price Adjustment Section, Room 2645, Tempo. A., 2d and Q Streets SW., Washington 25, D. C., Tel. Republic 6700, Ext. 3744.

The Chief Signal Officer, Attention: Maj. Jos. G. Bent, Jr., Price Adjustment Section, Room 3C 285, The Pentagon, Washington 25, D. C., Tel. Republic 6700, Ext. 2635.

The Chief of Transportation, Attention: Mr. Halsey Dunwoody, Price Adjustment Section, Room 3B 521, The Pentagon, Washington 25, D. C., Tel. Republic 6700, Ext. 73885.

[RR 793.1]

5. Sections 1607.798 through 1607.798–2, inclusive, are revoked as follows:

§ 1607.798 *War Department Power Procurement Officer.* [Revoked.]

§ 1607.798–1 *Headquarters.* [Revoked.]

§ 1607.798–2 *Field offices.* [Revoked.]

6. The headnote of § 1607.799 is amended to read *"Maritime Commission"*.

7. The headnote of § 1607.799–2 is amended to read *"Maritime Commission Price Adjustment Board for Shipping Operations"*.

PART 1608—TEXT OF STATUTES, ORDERS, JOINT REGULATIONS AND DIRECTIVES

SUBPART B—DELEGATIONS OF AUTHORITY

Sections 1608.822 through 1608.822–6 are added as follows:

§ 1608.822 *Delegations of authority within the named departments.* [RR 822]

§ 1608.822–1 *Delegations of authority within the War Department.* The delegations of authority within the War Department are published in the FEDERAL REGISTER of Saturday, August 31, 1946 (11 F. R. 9635). [RR 822.1]

§ 1608.822–2 *Delegation of authority within the Navy Department.* The delegation of authority within the Navy Department is published in the FEDERAL REGISTER of Tuesday, September 10, 1946 (11 F. R. 9932). [RR 822.2]

TITLE 49—TRANSPORTATION AND RAILROADS

Chapter I—Interstate Commerce Commission

[S. O. 653, Amdt. 1]

PART 95—CAR SERVICE

DEMURRAGE CHARGES ON GONDOLA, OPEN AND COVERED HOPPER CARS

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 2d day of January A. D. 1947.

Upon further consideration of Service Order No. 653 (11 F. R. 14572), and good cause appearing therefor; it is ordered, that:

Section 95.653 *Demurrage charges on gondola, open and covered hopper cars,* of Service Order No. 653, be, and it is hereby, amended by substituting the following paragraph (c) (2) for paragraph (c) (2) thereof:

(c) *Application.* • • •

(2) *Description of cars.* This section shall apply to cars suitable for interchange described under the headings Class G—Gondola Car Type, Class H—Hopper Car Type, also covered hopper cars having a mechanical designation "LO" or gondolas "MWB" in the current Official Railway Equipment Register.

It is further ordered, that this amendment shall become effective at 7:00 a. m., January 6, 1947.

It is further ordered, that a copy of this order and direction shall be served upon each State railroad regulatory body, and upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

(40 Stat. 101; sec. 402, 41 Stat. 476; sec. 5, 54 Stat. 901; 49 U. S. C. 1 (10)–(17))

By the Commission, Division 3.

[SEAL] W. P. BARTEL, *Secretary.*

[F. R. Doc. 47–152; Filed, Jan. 7, 1947; 8:51 a. m.]

[S. O. 260, Amdt. 5]

PART 95—CAR SERVICE

SALTING OF ICE ON CARS OF CITRUS

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 2d day of January A. D. 1947.

Upon further consideration of the provisions of Service Order No. 260 (9 F. R. 14547), as amended (10 F. R. 4818; 11 F. R. 8452, 13639), and good cause appearing therefor; it is ordered, that:

Section 95.260, *Salting of ice on cars of citrus,* of Service Order No. 260, as amended, be, and it is hereby, further amended by adding the following exception to paragraph (a) thereof:

Exception. The provisions of this section, during the effectiveness of this amendment, shall not apply to the salting, at regular icing stations en route, with not to exceed three percent (3%) salt, of ice in the bunkers of refrigerator cars, shipped from any origin in the State of Florida, loaded with straight carloads of tangerines, or loaded with mixed carloads of tangerines and other citrus fruit providing tangerines comprise fifty percent (50%) or more of the lading.

Effective date. This amendment shall become effective at 12:01 a. m., January 3, 1947.

Expiration date. This amendment shall expire at 11:59 p. m., February 1, 1947.

It is further ordered, that a copy of this order and direction be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

(40 Stat. 101; sec. 402, 41 Stat. 476; sec. 4, 54 Stat. 901; 49 U. S. C. 1 (10)–(17))

By the Commission, Division 3.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR, Parts 904, 927, 934, 945, 947, 961]

HANDLING OF MILK IN NEW YORK METROPOLITAN, PHILADELPHIA, PA., WASHINGTON, D. C., GREATER BOSTON, LOWELL-LAWRENCE, AND FALL RIVER, MASS., MILK MARKETING AREAS

CONSIDERATION OF SUSPENSION OF PRICING PROVISIONS

Notice is given that pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), consideration is being given to the suspension of such of the class pricing provisions of Orders Nos. 27, 61, 45, 4, 34, and 47, as amended, regulating the handling of milk in the New York Metropolitan, Philadelphia, Pennsylvania, Washington, D. C., Greater Boston, Lowell-Lawrence, and Fall River, Massachusetts, marketing areas, respectively, as may be necessary to reflect current economic conditions affecting the market supply and demand for milk and its products in the aforesaid marketing areas.

In accordance with the Administrative Procedure Act (Public Law 404, 79th Cong., 60 Stat. 237), all persons who desire to submit oral or written data, views, or argument with respect to the specific adjustment of prices for all classes of milk in the aforesaid marketing areas as may be necessary to reflect current economic conditions affecting the supply and demand for milk and its products, will be given an opportunity to do so at the Thomas Jefferson Auditorium, South Building, United States Department of Agriculture, Washington, D. C., beginning at 10 a. m. January 9, 1947.

Issued at Washington, D. C., this 3d day of January 1947.

CLINTON P. ANDERSON, *Secretary of Agriculture.*

NOTICES

FEDERAL POWER COMMISSION

[Docket No. IT–6009]

SOUTHWESTERN PUBLIC SERVICE CO.

NOTICE OF ORDER DISMISSING APPLICATION FOR WANT OF JURISDICTION

JANUARY 2, 1947.

Notice is hereby given that, on January 2, 1947, the Federal Power Commission issued its order dismissing application for want of jurisdiction, entered December 31, 1946, in the above-designated matter.

LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 47–143; Filed, Jan. 7, 1947; 8:50 a. m.]

[Docket No. G–834]

AUSTIN FIELD PIPE LINE CO.

NOTICE OF APPLICATION

JANUARY 2, 1947.

Notice is hereby given that on December 13, 1946, in compliance with the provisions of paragraph (B) (v) of the findings and order issuing certificate of public convenience and necessity entered on November 30, 1946, "in the matter of Michigan-Wisconsin Pipe Line Company," Docket No. G–669, an application was filed with the Federal Power Commission by Austin Field Pipe Line Company ("Applicant"), a Michigan corporation having its principal place of business in the City of Detroit, Michigan, and authorized to do business in the State of Michigan, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to authorize the construction of certain natural-gas pipeline facilities, subject to the jurisdiction of the Federal Power Commission, all of which said facilites are hereinafter more fully described.

Applicant seeks authorization to construct the following facilities:

(a) A 26-inch O. D. steel pipeline, approximately 140 miles in length, from a point at the Austin Storage Field near the common corner of Sections 3, 4, 9, and 10 in Austin Township, Mecosta County, Michigan, to a point near the southwest corner of Section 35, Township 1 North, Range 10 East, Southfield Township, Oakland County, Michigan, connecting the Austin Gas Storage Field with a metering station at or adjacent to the gas distribution system of Michigan Consolidated Gas Company ("Michigan Consolidated") for the Detroit District, which proposed transmission line is hereinafter referred to as the "Austin-Detroit Line";

(b) A 6⅝-inch O. D. steel pipeline, approximately 25 miles in length, from the proposed Austin-Detroit Line at a point located near the intersection of Rowe and Milford Roads, Section 3, Township 2 North, Range 7 East, Milford Township, Oakland County, Michigan, to a metering station at 847 Broadway, Ann Arbor, Washtenaw County, Michigan, connecting the proposed Austin-Detroit Line with a metering station at or adjacent to the gas distributing system of Michigan Consolidated for the Ann Arbor District, which proposed pipeline is hereinafter referred to as the "Ann Arbor Lateral";

(c) A 6⅝-inch O. D. steel pipeline, approximately 10 miles in length, from a point in Richland Township, Montcalm County, Michigan, to a point in Union Township, Isabella County, Michigan, connecting the Austin-Detroit Line with a metering station located near Mt. Pleasant, Isabella County, Michigan, and adjacent to the gas distribution system of Michigan Consolidated in its Mt. Pleasant District, which proposed pipeline is hereinafter referred to as the "Mt. Pleasant Lateral";

(d) A 10¾-inch O. D. steel pipeline, approximately 4½ miles in length, from a point near the northwest corner of Section 5, Walker Township, Kent County, Michigan, to a point near the southeast corner of Section 11, in said Walker Township, connecting the proposed 22-inch pipeline of Michigan-Wisconsin Pipe Line Company ("Michigan-Wisconsin") with a metering station at or adjacent to the gas distribution system of Michigan Consolidated in the Grand Rapids District, which proposed gas transmission pipeline is hereinafter referred to as the "Grand Rapids Lateral";

(e) A 24-inch O. D. steel pipeline approximately 22 miles in length, from a point in the Austin Storage Field near

the common corner of Sections 3, 4, 9 and 10 in Austin Township, Mecosta County, Michigan, to a point in the Reed City Field near the common corner of Sections 29, 30, 31, and 32 in Lincoln Township, Osceola County, Michigan, connecting the Austin Storage Field with the Reed City Field, which proposed pipeline is hereinafter referred to as the "Austin-Reed City Line";

(f) A gas compressor station (6,000 H. P.) on the Austin-Detroit Line at the Austin Storage Field, which compressor station is hereinafter called the "Austin Compressor Station".

The construction of the facilities described above is to be commenced on or before January 1, 1948, and to be completed according to the following schedule:

Items (a), (b), (c), (d) and 3,000 horsepower of Item (f) will be completed on or before the completion by Michigan-Wisconsin of its proposed pipeline which is designed to bring natural-gas from the Hugoton Field in Oklahoma and Texas to various markets including the several districts of Michigan Consolidated. Thereafter Item (f) is to be completed by the installation of 1,000 horsepower per year during each of the following three years. Item (e) will be completed on or before December 31, 1951.

Applicant proposes only to construct the facilities herein described, and states that it will not operate them. The application recites that the facilities will be leased to Michigan-Wisconsin for operation prior to December 31, 1951, and will be sold to Michigan-Wisconsin on or before December 31, 1951. The application further states that Michigan-Wisconsin will operate the facilities as an integral part of its natural-gas pipeline project which heretofore has been authorized by the Commission subject, among other things, to the authorization of the construction and operation of the facilities herein described.

It is stated in the application that under the provisions of a contract dated December 4, 1945, between Michigan-Wisconsin and Michigan Consolidated, known as the "Gas Contract", Michigan Consolidated obligated itself to construct, or to cause to be constructed through wholly-owned subsidiary, the facilities herein described. It is further stated that Michigan Consolidated elected, pursuant to Article XV of said "Gas Contract" to perform its obligations through Applicant which was organized for that purpose. Subsequently, on December 9, 1946, a contract between Applicant, Michigan-Wisconsin, and Michigan Consolidated was executed, known as the "Tri-Partite Contract", covering the construction, financing, lease, operation and sale of the proposed facilities. The application states that the lease of the facilities by Michigan-Wisconsin and the eventual sale thereto will be in accordance with said "Gas Contract", as amended, and said Tri-Partite Contract. According to the application, no contracts for the actual construction of the proposed facilities have been made.

The total over-all cost of construction of the proposed facilities is estimated by Applicant at $7,188,592, and Applicant proposes to finance the construction through the sale of all its common stock having a total par value of $500,000 to Michigan Consolidated, and through bank loans, the terms of which will not extend beyond December 31, 1951. It is proposed to use the income received from the leased facilities to meet Applicant's obligations and to amortize a portion of the bank loans, and, upon sale of the facilities to Michigan-Wisconsin, to pay off the remaining balance of the bank loans.

Applicant states that no operating revenues will be expected from the proposed facilities due to the manner of proposed operation, and there will be no operating expenses except taxes, interest, depreciation at an annual rate of 3⅓%, and miscellaneous expenses arising from Applicant's corporate existence and its ownership of the proposed facilities.

Any interested state commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of the Commission's rules of practice and procedure, and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing together with the reasons for such request.

Any person desiring to be heard or to make any protest with reference to the application of Austin Field Pipe Line Company should file with the Federal Power Commission, Washington 25, D. C., not later than fifteen days from the date of the publication of this notice in the FEDERAL REGISTER, a petition or protest in accordance with the Commission's rules of practice and procedure.

[SEAL] LEON M. FUQUAY,
Secretary.

INTERSTATE COMMERCE COMMISSION

[No. 29670]

INCREASED PER DIEM CHARGE ON FREIGHT CARS

NOTICE OF INVESTIGATION AND ASSIGNMENT OF HEARING

At a general session of the Interstate Commerce Commission, held at its office in Washington, D. C., on the 18th day of December A. D. 1946.

The Commission having under consideration the matter of the basis of rates of compensation for car hire by common carriers by railroad subject to the Interstate Commerce Act,

It is ordered, That under the authority of section 1 (14) (a) of the Interstate Commerce Act an investigation be, and it is hereby, instituted by the Commission, upon its own motion, for the purpose of determining whether the establishment of a rate of $2.00 per day or other increased rate to be paid to the owner for the use of each car during periods of car shortage (except tank and refrigerator) by any common carrier would promote greater efficiency in the use and increase the supply of cars; with the view to the making of findings and the entry of an order or orders, under the authority of the Interstate Commerce Act (49 U. S. Code, secs. 1-27), and particularly section 1 (10), (11), (13) and (14) thereof, requiring the establishment of an increased basis and rate of compensation for car hire during periods of car shortage if it be found that it will promote greater efficiency in the use and increase the supply of cars.

It is further ordered, That all common carriers by railroad subject to the Interstate Commerce Act and all other persons owning or leasing freight cars (except tank and refrigerator cars) to any such carrier be, and they are hereby made respondents to this proceeding; that a copy of this order be served upon each of said respondents and upon the Association of American Railroads, Car Service Division, and that notice of this proceeding be given to the general public by depositing a copy of this order in the office of the Secretary of the Commission at Washington, D. C., and by publishing it in the FEDERAL REGISTER.

And it is further ordered, That this proceeding be, and it is hereby, assigned for hearing at the offices of the Interstate Commerce Commission, Washington, D. C., before Examiners Myron Witters and Paul C. Smith, February 12, 1947, at 9:30 a. m., United States standard time.

By the Commission.

[SEAL] W. P. BARTEL,
Secretary.

[F. R. Doc. 47-154; Filed, Jan. 7, 1947, 8:45 a. m.]

SECURITIES AND EXCHANGE COMMISSION

NATIONAL ASSOCIATION OF SECURITIES DEALERS, INC., AND LEASON & CO., INC.

NOTICE REGARDING FILING OF APPLICATION

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pennsylvania on the 1st day of January 1947.

Notice is hereby given that the National Association of Securities Dealers, Inc., a registered securities association (hereinafter referred to as the Association), has filed with this Commission, on behalf of Leason & Co., Inc., an application for approval of the continuance of the membership of Leason & Co., Inc. in the Association, pursuant to the provisions of section 15A (b) (4) of the Securities Exchange Act of 1934.

Among other things, the above application states that:

A. Lowell Niebuhr is now employed by Leason & Co., Inc., a member of the Association, with offices at 39 South La Salle Street, Chicago 3, Illinois.

B. In 1942 and prior thereto, Lowell Niebuhr was president of Lowell Niebuhr & Co., which at that time was a member of the Association with offices in Chicago, Illinois.

C. By decision of the Board of Governors, issued on October 26, 1942, the firm of Lowell Niebuhr & Co. was expelled from membership in the Association for certain violations of the Association's Rules of Fair Practice.

D. The District Committee for District No. 8 and the Board of Governors of the Association, having reviewed the record in the proceedings resulting in such order of expulsion and having considered the subsequent activity of Lowell Niebuhr and his general reputation in the business community, believe that he has been sufficiently penalized for the violations of the rules which were the subject of such disciplinary proceedings, that he should be permitted to engage in the securities business as an employee and registered representative of Leason & Co., Inc., and that the continuance of Leason & Co., Inc. in membership in the Association with Lowell Niebuhr as an employee and registered representative thereof would be consonant with the stated purposes and policies of section 15A of the act.

E. The Association now applies for approval of the Commission to continuance of Leason & Co., Inc. in membership in the Association with Lowell Niebuhr as an employee.

Under the provisions of section 15A (b) (4) of the Securities Exchange Act of 1934, as amended, and section 2 of article I of the Association's By-Laws, the firm of Leason & Co., Inc. may not be continued in membership in the Association so long as Lowell Niebuhr is controlled by said company except with the approval of the Securities and Exchange Commission based upon a finding that such approval is appropriate in the public interest.

Any interested person may informally present his views or any information relating to this matter by communicating with Thomas B. Hart, Regional Administrator of the Commission's Chicago Regional Office, 105 West Adams Street, Chicago 3, Illinois, on or before January 17, 1947. Within the same time any person desiring that a formal hearing be held may file with the Secretary a written request to that effect, together with a brief statement of the nature of his interest in the proceeding and the position which he proposes to take. In the absence of such a request by any person having a bona fide interest in the proceeding, the Commission will either set the matter down for hearing on its own motion after appropriate notice or, if it should appear appropriate to do so, will grant the application on the basis of the record and without formal hearing.

This notice shall be served on Leason & Co., Inc. and the Association not less than fifteen (15) days prior to January 17, 1947, and published in the FEDERAL REGISTER in the manner prescribed by the Federal Register Act not later than fifteen (15) days prior to January 17, 1947.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F. R. Doc. 47-139; Filed, Jan. 7, 1947; 8:49 a. m.]

[File No. 70-984]

CAPITAL TRANSIT CO.

SUPPLEMENTAL ORDER RELEASING JURISDICTION WITH RESPECT TO PAYMENT OF FINANCIAL ADVISER'S FEE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 31st day of December 1946.

The Commission having issued its supplemental order in the above-captioned proceedings on June 29, 1945, in which jurisdiction was reserved with respect to the payment of the fee of the financial adviser incurred in connection with the issuance and sale by Capital Transit Company of $12,500,000 principal amount of its First and Refunding Mortgage Bonds, Series A, 4%, due December 1, 1964, and its unsecured bank loan in the principal amount of $2,500,000; and

The Commission having examined the record herein, as amended, and finding that the financial adviser's fee in the amount of $15,000, payable to Dillon, Read & Co., is not unreasonable for the services, as financial adviser, rendered in connection with said financing;

It is ordered, That jurisdiction be and the same is hereby released with respect to payment of the aforesaid financial adviser's fee in the amount designated.

By the Commission.

[SEAL] NELLYE A. THORSEN,
Assistant to the Secretary.

[F. R. Doc. 47-142; Filed, Jan. 7, 1947; 8:49 a. m.]

[File No. 70-1403]

WASHINGTON RAILWAY AND ELECTRIC CO. ET AL.

ORDER GRANTING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 31st day of December 1946.

In the matter of Washington Railway and Electric Company, the Washington and Rockville Railway Company of Montgomery County, Braddock Light & Power Company, Incorporated, Potomac Electric Power Company, File No. 70-1403.

Washington Railway and Electric Company (Washington Railway), a registered holding company and a subsidiary of The North American Company, also a registered holding company, and The Washington and Rockville Railway Company of Montgomery County (Rockville Railway), Potomac Electric Power Company (Potomac Electric), and Braddock Light & Power Company, Incorporated (Braddock), subsidiaries of Washington Railway, have filed a joint application and declaration and amendments thereto, pursuant to the applicable provisions of the Public Utility Holding Company Act of 1935 (the Act) regarding the following proposals:

Washington Railway proposes (a) to purchase from Rockville Railway, for a cash consideration of $132,500, 19,250 shares of the outstanding capital stock of Braddock owned by Rockville Railway (the remaining 50,000 shares of the total 69,250 shares of outstanding capital stock of Braddock being owned by Washington Railway), and (b) to sell to Potomac Electric 69, 250 shares (all of the shares outstanding) of the capital stock of Braddock, for a cash consideration of $632,500, representing the cost of such stock to the holding company system of Washington Railway.

Potomac proposes to lend and advance to Braddock, from time to time, funds in the amount (not to exceed in the aggregate $14,000,000) necessary to enable Braddock to finance temporarily the construction of generating facilities which will be used primarily for the purpose of meeting Potomac Electric's anticipated future requirements. In consideration of each loan and advance, and in the amount thereof, Braddock will execute and deliver to Potomac Electric its demand promissory notes, bearing interest at the rate of 3½% per annum, payable on December 31 of each year.

Applicants-declarants request that the Commission in its order with respect to the proposed transfers of the capital stock of Braddock recite appropriate statements conforming to the requirements of section 11 (e) of the act and of supplement R and section 1808 (f) of the Internal Revenue Code, specifying and itemizing the securities to be transferred and reciting that such transfers are necessary or appropriate to effectuate the provisions of section 11 (b) of the act.

The application-declaration having been filed on November 20, 1946, and

notice of filing having been duly given in the manner and form prescribed by Rule U–23 under said act, and the Commission not having received a request for hearing with respect to said declaration within the period specified in such notice, or otherwise, and not having ordered a hearing thereon; and

The applicants-declarants having requested that the Commission issue its order within thirty days after the date of filing the application-declaration; and

Washington Railway having represented that the proposed acquisition by Potomac Electric of all of the outstanding capital stock of Braddock will be in furtherance of and in accordance with the provisions of the amended plan heretofore filed with this Commission on August 30, 1946 (File No. 54–98) pursuant to the provisions of section 11 (e) of the act and the order of this Commission dated April 14, 1942, issued against The North American Company and its subsidiary companies for compliance with the provisions of section 11 (b) of said act; and

The Public Utilities Commission of the District of Columbia having issued its order dated December 19, 1946 approving the proposed acquisition by Washington Railway of the said shares of capital stock of Braddock, the proposed sale of said shares of capital stock of Braddock to Potomac Electric and the proposed loans and advances by the latter company to Braddock; and the State Corporation Commission of Virginia, the State in which Braddock is organized and doing business, having issued its order dated December 4, 1946 authorizing the issuance by Braddock to Potomac Electric of the proposed 3½% demand promissory notes, and subject in substance to the conditions (1) that the interest rate of the proposed notes shall be subject to review by said Commission after December 31, 1947, and subject to adjustment in the event of material changes in the cost of money to the lender, and (2) that the authority granted by said order, to the extent not exercised on or before June 30, 1949, shall thereby become automatically suspended until further action by said Commission.

The Commission finding that the requirements of sections 6 (b), 10 (c) (1) and (2) and 12 (d) of the act and Rules U-43, U-44, U-45 and U-50 are satisfied; that no adverse findings are necessary thereunder, and the Commission deeming it appropriate in the public interest and in the interest of investors and consumers to grant said application and permit said declaration to become effective;

It is hereby ordered, Pursuant to Rule U-23 and the applicable provisions of the act and subject to the terms and conditions prescribed in Rule U-24, that the application (as amended, and subject to the terms and conditions prescribed by the order dated December 4, 1946 of the State Corporation Commission of Virginia) be, and the same is hereby, granted and that the declaration (as amended) be, and the same is hereby, permitted to become effective forthwith.

It is further ordered, and the Commission finds, That the transfer of the 19,250 shares of the capital stock of Braddock Light and Power Company, Incorporated, by The Washington and Rockville Railway Company of Montgomery County to Washington Railway and Electric Company and the transfer by Washington Railway and Electric Company of the 69,250 shares of the capital stock of Braddock Light and Power Company, Incorporated, to Potomac Electric Power Company, are necessary or appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935 and are steps in compliance with the order of this Commission dated April 14, 1942, with respect to The North American Company and its subsidiary companies issued pursuant to section 11 (b) (1) of the act.

By the Commission.

[SEAL] NELLYE A. THORSEN,
Assistant to the Secretary.

[F. R. Doc. 47-f40; Filed, Jan. 7, 1947; 8:49 a. m.]

[File No. 70-1402]

MILWAUKEE ELECTRIC RAILWAY & TRANSPORT CO. AND WISCONSIN ELECTRIC POWER CO.

ORDER APPROVING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 31st day of December 1946.

The Milwaukee Electric Railway & Transport Company, a wholly-owned subsidiary of Wisconsin Electric Power Company, and said Wisconsin Electric Power Company, a subsidiary of The North American Company, a registered holding company, having filed a joint declaration and application, and amendments thereto, pursuant to the applicable provisions of the Public Utility Holding Company Act of 1935 and the General Rules and Regulations promulgated thereunder, relating to the proposal of The Milwaukee Electric Railway & Transport Company (a) to redeem on or about December 31, 1946, at the principal amount thereof plus accrued interest, $950,000 principal amount of its First Mortgage 4% Bonds owned by Wisconsin Electric Power Company, and (b) to purchase for cash at par for retirement 9,500 shares of its capital stock of the aggregate par value of $950,000 from Wisconsin Electric Power Company, and the proposal of Wisconsin Electric Power Company to surrender the bonds and the stock on the basis described; and

The joint declaration and application having been filed on the 15th day of November, 1946, and an amendment to the declaration-application having been filed on December 19, 1946, and notice of said filing having been duly given in the manner and form prescribed by Rule U–23 under said act, and the Commission not having received a request for a hearing with respect to said joint declaration and application, as amended, within the period specified in such notice, or otherwise, and not having ordered a hearing thereon; and request having been made for accelerated action upon the declaration and application, as amended; and

The Commission finding that the requirements of sections 12 (c) and 12 (f) of the act and Rules U–42 and U–43 promulgated thereunder, are satisfied, that no adverse findings are necessary thereunder and that the request for acceleration should be granted; and the Commission deeming it appropriate in the public interest and in the interest of investors and consumers to approve said application and to permit said declaration to become effective;

It is hereby ordered, That, pursuant to said Rule U–23 and the applicable provisions of said act, the joint amended application be, and the same is hereby, approved and the joint amended declaration be, and the same is hereby, permitted to become effective forthwith, subject, however, to the terms and conditions prescribed in Rule U–24 of the general rules and regulations promulgated under the act, and subject further to continuation of the condition imposed on The Milwaukee Electric Railway & Transport Company by the Commission's order of June 29, 1943 (Release No. 4394) by the terms of which it is provided that if, from time to time, in the future additional common stock is retired by said company, its bonds will be retired to the extent necessary in order that the aggregate par amount of stock outstanding will at least equal two and one-half times the aggregate principal amount of the outstanding bonds.

By the Commission.

[SEAL] NELLYE A. THORSEN,
Assistant to the Secretary.

FEDERAL REGISTER

VOLUME 12 NUMBER 6

Washington, Thursday, January 9, 1947

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 9818

ESTABLISHING THE PHILIPPINE ALIEN PROPERTY ADMINISTRATION AND DEFINING ITS FUNCTIONS

By virtue of the authority vested in me by the Constitution and statutes, including the Trading with the Enemy Act of October 6, 1917, 40 Stat. 411, as amended, the Philippine Property Act of 1946, 60 Stat. 418, the First War Powers Act, 1941, 55 Stat. 838, as amended, section 1753 of the Revised Statutes, and the Civil Service Act, 22 Stat. 403, and as President of the United States, it is hereby ordered, in the interest of the internal management of the Government, as follows:

1. There is established in the Office for Emergency Management of the Executive Office of the President the Philippine Alien Property Administration, at the head of which shall be a Philippine Alien Property Administrator appointed by the President, without regard to the civil service laws. The Philippine Alien Property Administrator shall receive compensation at such rate as the President shall approve and in addition shall be entitled to actual and necessary transportation, housing, subsistence, and other expenses incidental to the performance of his duties. Within the limitation of such funds as may be made available for that purpose, and without regard to the civil service laws, the Philippine Alien Property Administrator may appoint assistants and other personnel and delegate to them such functions as he may deem necessary to carry out the provisions of this order. Such personnel of the Office of Alien Property, Department of Justice, as are engaged in the exercise of the functions transferred hereunder, may be transferred to the Philippine Alien Property Administration without loss of such civil-service status or eligibility therefor as they may possess. Any employee of a department or agency of the Federal Government who possesses special qualifications or experience of particular use to the Philippine Alien Property Administrator may, upon request by the Philippine Alien Property Administrator, be transferred with his consent and that of the department or agency in which he is employed, without loss of such civil-service status or eligibility therefor as such person may possess, to a position under the Philippine Alien Property Administrator. Upon application for reemployment made to the original employing department or agency within ninety days after termination of the service of the employee in the position to which he is transferred under the provisions of this section, and upon presentation of a statement by the Philippine Alien Property Administrator or his authorized representatives, reciting the date of termination of such service, that the services of such employee have been satisfactory and that such termination was not the result of delinquency or misconduct on the part of the employee, such employee shall, if qualified to perform the duties of his position, be reemployed in his original position or in a position of like seniority, status and pay, so long as the position the employee left, or one of like seniority, status, and pay is occupied by an employee with lower retention preference.

2. The Philippine Alien Property Administrator is hereby designated to exercise and perform, and there are hereby transferred to him, such rights, privileges, powers, authority, duties and functions, with respect to property located within the Philippines and property transferred pursuant to section 3 hereof, as were vested in or transferred or delegated to the Alien Property Custodian by the Trading with the Enemy Act, as amended, the Philippine Property Act of 1946, Executive Order 9095 of March 11, 1942, as amended, Executive Order 9142 of April 21, 1942, and Executive Order 9725 of May 16, 1946.

3. The Attorney General, or such officer or agency of the Department of Justice as he may designate, is authorized and directed to transfer to the Philippine Alien Property Administrator all property or interests vested in or transferred to him which were located in the Philippines at the time of such vesting or transfer, or the proceeds thereof, subject, however, to such expenses as the Attorney General is authorized to charge against such property or proceeds. Such property or proceeds shall be administered and disposed of under the direction and control of the Philippine Alien Property Administrator in accordance with law.

4. The Philippine Alien Property Administrator shall, except as otherwise

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Division of the Federal Register, the National Archives, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the Code of Federal Regulations, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended June 19, 1937.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15¢) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

NOTICE

General notices of proposed rule making, published pursuant to section 4 (a) of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 238), which were carried under "Notices" prior to January 1, 1947, are now presented in a new section entitled "Proposed Rule Making". Relationship of these documents to material in the Code of Federal Regulations, formerly shown by cross reference under the appropriate Title, is now indicated by a bold-face citation in brackets at the head of each document.

agreed to by the Secretary of State, consult with the Secretary of State before vesting any property or interest pursuant to this executive order.

5. The Attorney General or such officer or agency of the Department of Justice as he may designate, is authorized and directed to transfer to the Philippine Alien Property Administrator such personnel, records, files, furniture, equipment, and supplies as the Director of the Bureau of the Budget may determine to

be necessary for the performance of the functions hereby transferred, but the Administrator shall reimburse the Attorney General for the furniture, equipment, and supplies so transferred.

6. The Philippine Alien Property Administrator, to the extent permitted by law, is authorized to pay out of any funds or other property or interests vested in him or transferred to him all necessary expenses of the Philippine Alien Property Administration in the performance of the functions hereby transferred: *Provided, however*, that the Philippine Alien Property Administrator shall submit to the Director of the Bureau of the Budget at such time or times and in such form as the Director shall require, an estimate of general administrative expenses for the remainder of the current fiscal year, and no general administrative expenses authorized to be paid pursuant to this order shall be incurred or paid by the Philippine Alien Property Administrator in excess of the amounts approved by the Bureau of the Budget upon submissions as herein required. All expenses for the current fiscal year shall, in addition, be reported to the Congress as early as practicable, with a request for ratification thereof; and no general administrative expenses shall be incurred or paid by the Philippine Alien Property Administrator after the fiscal year ending June 30, 1947, except pursuant to a further annual authorization by the Congress.

7. Paragraph 5 of Executive Order 9142 (7 Fed. Reg. 2985) is amended to the extent that it requires that litigation under the Trading with the Enemy Act of October 6, 1917, as amended, and the Philippine Property Act of 1946, instituted in the courts of the Philippine Islands prior to July 4, 1946, be conducted under the supervision of the Attorney General. In any such litigation the Philippine Alien Property Administrator may appear personally or through attorneys appointed by him.

8. No action taken by or on behalf of the Alien Property Custodian or the Attorney General as his successor under Executive Order 9747 of July 3, 1946, shall be challenged on the ground that it was within the jurisdiction of the Philippine Alien Property Administrator.

9. This order supersedes Executive Order 9789 of October 14, 1946, entitled "Establishing the Philippine Alien Property Administration and defining its functions."

HARRY S. TRUMAN

THE WHITE HOUSE,
January 7, 1947.

[F. R. Doc. 47-245; Filed, Jan. 8, 1947; 11:03 a. m.]

TITLE 7—AGRICULTURE

Chapter XI—Production and Marketing Administration (War Food Distribution Orders)

[WFO 63-19]

PART 1596—FOOD IMPORTS

PARTIAL REVISION OF APPENDIX A

Pursuant to the authority vested in me by War Food Order No. 63, as amended (10 F. R. 103, 8950, 10419; 11 F. R. 2630, 5103), Appendix A is hereby revised as follows:

1. By deleting the following items therefrom:

Food and Commerce Import Class No.
Cheese: 0045.100 to 0046.990, inc.
Lentils: 1199.000.
Chickpeas and garbanzos, dried: 1200.000.
Milk, condensed, evaporated, skimmed dried and whole dried: 0040.000, 0040.100, 0040.700, 0041.100, 0041.000.

2. By adding the following item thereto:

Food and Commerce Import Class No.
Milk, condensed: 0040.100.

This amendment shall become effective at 12:01 a. m., e. s. t., January 6, 1947.

(E. O. 9280, December 5, 1942, 7 F. R. 10179; E. O. 9577, June 29, 1945, 10 F. R. 8087; WFO 63, 10 F. R. 8950, 11 F. R. 2630)

Issued this 6th day of January 1947.

[SEAL] JESSE B. GILMER,
Acting Administrator, Production and Marketing Administration.

[F. R. Doc. 47-202; Filed, Jan. 8, 1947; 8:46 a. m.]

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Regs., Serial No. 353-C]

PART 40—AIR CARRIER OPERATING CERTIFICATION

NONCOMPLIANCE WITH REQUIREMENTS WITH RESPECT TO CERTIFICATION OF AIRCRAFT RADIO EQUIPMENT

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 31st day of December 1946.

Special Civil Air Regulation Serial Number 353 waived provision of § 40.253 of the Civil Air Regulations with respect to the certification of aircraft radio equipment.

It appearing that: The lack of available supplies having made it impossible for certain operators to convert certain items of their U. S. Army aircraft radio equipment so that they may be type certificated, a further extension of the effectiveness of Special Civil Air Regulation Serial Number 353 with respect to these items is in the public interest, and notice and public procedure provided for in paragraphs (a) and (b) of section 4 of the Administrative Procedure Act are unnecessary with respect to the regulation hereinafter set forth.

Now, therefore, effective January 1, 1947, Special Civil Air Regulation Serial Number 353, limited to the following items, SCR-522 VHF-transceiver; F-21/ARA-9 and FL-8B range filters; HS-33 headphones; T-17 microphones; LP-31A and LP-31AM loops; and C-166/AIC-3 switch box, is amended by striking the words "January 1, 1947", and inserting in lieu thereof "April 1, 1947."

(52 Stat. 984, 1007; 49 U. S. C. 425, 551)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

[F. R. Doc. 47-178; Filed, Jan. 8, 1947; 8:48 a. m.]

Chapter II—Administrator of Civil Aeronautics, Department of Commerce

PART 550—FEDERAL AID TO PUBLIC AGENCIES FOR DEVELOPMENT OF PUBLIC AIRPORTS

Acting pursuant to the authority vested in me by section 301 of the Civil Aeronautics Act of 1938, as amended (52 Stat. 973, 985, 54 Stat. 1233, 1235, 1236, 49 U. S. C. 401, 451) and the Federal Airport Act (60 Stat. 170, Pub. Law 377, 79th Cong.) I hereby adopt a new part, Part 550, of the regulations of the Administrator of Civil Aeronautics to read as follows:

Sec.
550.1 Definitions.
550.2 National Airport Plan.
550.3 Project programming.
550.4 Distribution of funds within the states.
550.5 Distribution of funds within the Territory of Alaska, Territory of Hawaii, and Puerto Rico.
550.6 Use of apportioned funds.
550.7 Use of discretionary fund.
550.8 Eligible projects.
550.9 Allowable project costs.
550.10 Costs not allowable as project costs.
550.11 United States share of project costs.
550.12 Eligible sponsors.
550.13 Sponsor requirements.
550.14 Submission of project requests; tentative allocation of funds.
550.15 Sponsor's assurance agreement.
550.16 Submission and approval of project application.
550.17 Grant agreement.
550.18 Performance of construction work.
550.19 Accounting procedure.
550.20 Grant payments.
550.21 Memoranda and hearings.

AUTHORITY: §§ 550.1 to 550.21, inclusive, issued under 52 Stat. 973, 985, 54 Stat. 1233, 1235, 1236, Pub. Law 377, 79th Cong.; 60 Stat. 170, 49 U. S. C. 401, 451.

§ 550.1 *Definitions.* All terms in the regulations of this part which are defined in the Federal Airport Act and are not defined in this section shall have the meaning given to them in the act. As used herein unless the context otherwise requires, the following terms shall have the meaning indicated:

(a) "Act" means the Federal Airport Act of 1946 (Public Law No. 377, 79th Congress, 2d session; 60 Stat. 170) (Appendix A).

(b) "CAA" means the Civil Aeronautics Administration of the United States Department of Commerce.

(c) "Administrator" means the Administrator of Civil Aeronautics or his duly authorized representative.

(d) "Regional Administrator" means the directing head of the CAA for the respective CAA region or his duly authorized representative.

(e) "Superintendent of airports" means the director of the Airports Branch of a CAA regional office or his duly authorized representative.

(f) "District Airport Engineer" means the director of a district office of the Airports Branch of a CAA regional office or his duly authorized representative.

(g) "Project" means a project for the accomplishment of airport development with respect to a particular airport as set forth in a project request or project application submitted in accordance with the regulations of this part.

(h) "Sponsor" means any public agency, acting either individually or jointly with one or more other public agencies, which, either itself or through a duly authorized agent, submits to the Administrator, in accordance with the act, a project request or a project application for a grant of funds for airport development.

(i) "Class 4 or larger airport" means an airport which upon completion of the project proposed would, in the opinion of the Administrator, meet generally the standards of Table 3 of the Civil Aeronautics Administration Bulletin, "Airport Design", dated April 1, 1944, for a Class 4 or larger airport. (Appendix C.)

(j) "National Airport Plan" means the plan for the development of public airports in the United States, the Territory of Alaska, the Territory of Hawaii, and Puerto Rico, prepared and revised annually by the Administrator.

(k) "Program" means a program prepared by the Administrator listing proposed projects to be undertaken within the next fiscal year: *Provided, however,* That projects for the fiscal year ending June 30, 1947, will be included in a program prepared during such year.

(l) "Project request" means a preliminary expression of interest in participating in the Federal-aid Airport Program, in the form, and containing the information, required by § 550.14.

(m) "Project application" means a formal application for a grant of Federal funds for a project, submitted as required by § 550.16.

(n) "Land acquisition" means the acquiring of any land or interest therein, or any easement through or other interest in air space.

(o) "Landing area" is that part of an airport which is used, considered, or intended to be used for the landing and taking off of aircraft or taxiing incidental thereto.

(p) "Building area" is that part of an airport other than its "landing area" which is used, considered, or intended to be used for airport buildings or other airport facilities or rights of way together with all airport buildings and facilities located thereon.

§ 550.2 *National Airport Plan.* The National Airport Plan and each annual revision thereof will specify in terms of general location and type the public airport development then considered by the Administrator as necessary to meet the needs of civil aeronautics during the succeeding three years.

§ 550.3 *Project programming.* The submission of a project request or project application will in all instances be necessary before any proposed project will be considered for inclusion in a program. The submission of such request or application does not necessarily imply that the proposed project will be included in the program, nor will it in any way obligate the sponsor to perform any work or expend any funds in connection therewith.

§ 550.4 *Distribution of funds within the states.* Within thirty days after each appropriation the total amount so appropriated will be distributed into three separate funds:

(a) Administrative fund.

(b) Fund available for apportionment to the States.

(c) Discretionary fund.

§ 550.5 *Distribution of funds within the Territory of Alaska, Territory of Hawaii, and Puerto Rico.* Within thirty days after each appropriation the total amount so appropriated will be distributed into two separate funds:

(a) Administrative fund.

(b) Fund available for apportionment to the Territory of Alaska, Territory of Hawaii, and Puerto Rico.

§ 550.6 *Use of apportioned funds.* All sums of money apportioned to a state will thereupon become available only to pay the United States share of the allowable project costs of approved projects which are sponsored by that state or an eligible public agency thereof and, in addition, are located in that state, an adjoining state, a national park, national recreation area, national monument or national forest which lies wholly within the boundaries of that state or of an adjoining state, or that part of a national park, national recreation area, national monument or national forest which lies wholly within the boundaries of that state or of an adjoining state. Where a project has two or more sponsors all of which are not public agencies of the same state, the United States share of the allowable cost of the project will be charged against the moneys apportioned to the states concerned, in proportion to the amounts contributed by these states and their public agencies as the sponsors' share of the costs of the project.

§ 550.7 *Use of discretionary fund.* (a) No allocation will be made from the discretionary fund until all regularly apportioned funds for approved projects in the specific state have been tentatively allocated, except as provided in paragraph (c) of this section.

(b) That part of the discretionary fund made available by the Administrator for any approved project in a state will be used in the same manner, and subject to the same requirements and conditions, as apportioned funds.

(c) The discretionary fund is the only source from which grants will be made for projects sponsored by the United States or an agency thereof and located in national parks, national recreation areas, national monuments or national forests. The discretionary fund is not available to pay any part of the sponsor's share of the allowable costs of such projects. The sponsor's share of such allowable project costs may be paid only out of appropriations specifically authorized for the purpose of paying such share, or moneys contributed to the sponsor for this purpose. The act expressly authorizes the receipt and use by the sponsor of moneys for such purpose.

§ 550.8 *Eligible projects.* A project shall be eligible for inclusion in a program, and for approval by the Administrator, only if it is determined by the Administrator that such project meets all of the applicable requirements of this section and of § 550.9.

(a) *Types of airport development.* A project shall include only such types of airport development as are eligible for inclusion in a project as provided in this section.

(1) *Land acquisition.* The acquisition of land or of any interest therein or easement through or other interest in air space shall be eligible for inclusion in a project only if such acquisition is necessary:

(i) To permit the accomplishment of other airport development, whether such development is to be accomplished as part of the Federal-aid Airport Program or not; or

(ii) To prevent or limit the establishment of airport hazards; or

(iii) To permit proper use, operation, management, and maintenance of the airport as a public facility.

The term "acquisition of land" as used in this section shall include the acquisition of land already developed as a privately owned airport and of all structures, fixtures, improvements, and equipment thereon of a type the construction, installation, or purchase of which would be eligible for inclusion in a construction project pursuant to the regulations of this part.

(2) *Construction work.* The following types of construction work shall be eligible for inclusion in a project:

(i) Clearing, grubbing, filling, and grading of the airport or airport site or any part thereof.

(ii) Dredging of seaplane anchorages and channels.

(iii) Drainage work either on or off the airport or airport site.

(iv) Construction, alteration, and repair of runways, taxiways, aprons, and automobile parking areas within the limits of the airport or airport site.

(v) Construction, alteration, and repair of seaplane ramps, docks, and other seaplane base facilities other than hangars and living quarters.

(vi) Construction, alteration, and repair of access roads and walks, either on or off the airport or airport site.

(vii) Landscaping, seeding, and sodding of the airport or airport site.

(viii) Fencing of the airport or airport site.

(ix) Installation, alteration, and repair of airport lighting facilities and equipment.

(x) Construction, alteration, and repair of administration, terminal, and service buildings, airport control tower structures, repair shops, and structures necessary for the proper use, operation, management, and maintenance of the airport as a public facility, other than hangars and living quarters.

(xi) Construction, installation, and connection of utilities either on or off the airport or airport site.

(xii) Removal, lowering, relocation, marking, and lighting of airport hazards.

(xiii) Such other construction work as may be permissible under the Act and is specifically approved by the Administrator for inclusion in a particular project.

(b) *Minimum development.* A project shall include sufficient airport development to provide, or make possible, the establishment of a safe, usable, and useful airport facility, or to add materially to the safety or utility of an existing airport.

(c) *Maximum development.* A project shall not include any airport development which cannot be expected to be completed within a reasonable time satisfactory to the Administrator.

(d) *Prior commitments.* No airport development shall be eligible for inclusion in a project which the sponsor or any other similar agency is obligated to accomplish by reason of any previous agreement or commitment with the United States for the development of the airport.

(e) *Conformity to CAA standards.* All airport development included in a project shall be in accordance with standards established or approved by the Administrator for such development.

§ 550.9 *Allowable project costs.* The Administrator will pay to the sponsor the United States share, as defined in § 550.11, of all project costs of an airport development accomplished under an eligible project, as defined in § 550.8, to the extent that such project costs are allowable. In order to be an allowable project cost, for the purpose of computing the amount of the grant, a project cost paid or incurred, in the determination of the Administrator, must be necessary and reasonable and must meet the requirements of this section.

(a) *Classification of project costs.* For purposes of determining which costs are allowable, the term "project costs" shall include the types of costs described and classified in this section.

(1) *Land acquisition costs.* If the approved project covered by the Grant Agreement includes land acquisition, the allowable project costs in connection with such acquisition may include the cost of items such as the following:

(i) *Land, easements, and interests in land.* The purchase price of such land acquisition as may be reasonably required for and in connection with an airport development.

(ii) *Incidental expenses connected with land acquisition.* Incidental costs in accomplishing such acquisition, including fees, expenses, cost of appraisal, surveys, options, negotiations, abstracts, title examinations, title guarantees, title insurance, condemnation proceedings (including the fees and expenses of expert witnesses), suits to clear title, advertising, revenue stamps, recording fees, and necessary travel expenses in connection with the foregoing.

(2) *Construction costs; contract.* If the approved project covered by the Grant Agreement includes construction which is accomplished by contract, the allowable project costs in connection with such construction may include such items as the following:

(i) *Construction contract obligations.* Obligations to a contractor for materials furnished or work performed under a construction contract and in compliance with its terms.

(ii) *Sponsor's incidental construction costs.* The cost of performance by the sponsor of any obligations properly imposed or assumed in the performance of such work, including insurance premiums.

(3) *Construction costs; force account (see also § 550.18 (d)).* If any construction under an approved project is accomplished by force account, the allowable project costs in connection with such construction may include items such as the following:

(i) *Wages.* The wages of laborers, mechanics, and others employed for work on the project.

(ii) *Materials and supplies.* Materials and supplies purchased for and incorporated into the project, or materials and supplies furnished by the sponsor from a source of supply owned by it or on hand: *Provided,* That approval is first obtained from the Administrator for the use of such materials and supplies, including quality, location, and the unit price thereof.

(iii) *Rental charges.* The rental of all machinery, tools, and equipment required and employed in the performance of the work, including machinery, tools and equipment owned, purchased or rented for the project by the sponsor: *Provided, however,* That the rental charge for machinery, tools or equipment owned, purchased or rented for the project by the sponsor shall be reasonable and shall not exceed the prevailing current local rate for the rental of such machinery, tools and equipment: *And provided further,* That the use thereof has been specifically approved by the Administrator.

(iv) *Insurance premiums.* All insurance premiums and other costs necessary for insurance protection of the project.

(4) *Engineering costs.* If the approved project covered by the Grant Agreement requires engineering services, the allowable project costs in connection with such services may include items such as the following:

(i) *Tests, data, applications, plans and specifications.* The expenses of formulating and planning a specific project (as distinguished from expenses of general area, urban, or state planning, which are not allowable as project costs), including all costs involved in the making of field surveys and special studies and tests, such as borings and tensility tests, the collection and assembling of data, and the preparation of plans and specifications, charts, sketches, maps, tables, project requests, and project applications, and including the fees, salaries, and other charges for the services of engineers, surveymen, architects, and others who render necessary personal services to the sponsor in connection with such work.

(ii) *Supervision and inspection.* The costs of supervision and inspection of construction work under a project, including the fees, salaries, and other charges for the services of engineers, surveymen, architects, inspectors, and others who render necessary personal services to the sponsor in connection with such work.

(5) *Administrative and other incidental costs.* Administrative and other incidental costs in the accomplishment of an approved project covered by the Grant Agreement are allowable project costs and may include items such as the following:

(i) *Preparation of documents.* All expenses incurred in connection with the preparation of contract documents, advertising for and acceptance of bids, and the awarding and execution of contracts.

(ii) *Necessary fees and salaries.* The costs of legal proceedings and fees, salaries, and other compensation for the services of accountants, attorneys, auditors, clerks, stenographers, and others who are necessarily employed in connection with the project. The compensation of regular and continuing employees of the sponsor who perform work on the project within the scope of their regular employment is not an allowable project cost. Work on or in connection with the project outside of the scope of such employment and for which the sponsor would normally pay additional compensation is an allowable project cost in an amount not to exceed such additional compensation.

(iii) *Necessary incidental expenses.* Travel expenses, expenses for telegrams and telephone calls, and other necessary incidental expenses of agents and employees of the sponsor in connection with the project, *Provided,* That complete and adequate justification in writing accompanies each claim.

(b) *Time.* The project cost must have been incurred for airport development accomplished within the scope of the project described in, and in accordance with, the provisions of the Grant Agreement, and subsequent to the date of execution of such Grant Agreement, except that planning costs as described in paragraphs (a) (4) (i) of this section and land acquisition costs as described in paragraph (a) (1) of this section, and administrative and incidental costs connected therewith, shall be allowable though incurred prior to the execution of such Grant Agreement: *Provided,* That no project cost shall be allowable if incurred prior to May 13, 1946, the date of approval of the act. For the purpose of this section, a cost shall be deemed to have been incurred if the sponsor paid or legally obligated itself to pay any sum of money for or in connection with the accomplishment of the airport development.

§ 550.10 *Costs not allowable as project costs.* Costs of the types hereinafter enumerated, although incurred by the sponsor in connection with the accomplishment of an approved project, will not be included in the allowable project costs for the purpose of computing the amount of the grant, namely:

(a) Any cost of obtaining title to or the use of any lands or any interests in air space under section 16 of the act.

(b) Any cost of rehabilitation or repair for which funds have been appropriated by the Congress under section 17 of the act.

(c) The cost value of hangars or living quarters for personnel (replacement cost, new, minus depreciation) where the project includes the purchase of an existing airport.

(d) The payment of wages or salaries to persons employed in violation of sections 15 (b) or (c) of the act.

(e) The costs of materials and supplies owned by the sponsor or furnished from a source of supply owned by the sponsor and used by it in construction work on a force account project, where such costs are not supported by documentary evidence of quantity and value.

(f) The purchase price of machinery, tools, or equipment purchased by the sponsor for use in prosecuting a force account project.

(g) The costs of general area, urban, or state-wide planning of airports, as distinguished from the planning of a specific project as approved.

(h) Payments of interest made or obligations for interest incurred by the sponsor.

§ 550.11 *United States share of project costs*—(a) *Project costs other than land acquisition costs*—(1) *Class 3 or smaller airports.* The United States share of the project costs (other than costs of land acquisition) of an approved project for the development of a Class 3 or smaller airport, wherever located, shall be 50 percent of the allowable project costs of the project (other than costs of land acquisition), except that this share, in the case of any state containing unappropriated and unreserved public lands and nontaxable Indian lands (individual and tribal) exceeding 5 percent of the total area of all lands therein shall be increased as provided in section 10 (b) of the act (see Appendix D), and except that the United States share shall be 75 percent in the case of the Territory of Alaska.

(2) *Class 4 or larger airports.* The United States share of the project costs (other than costs of land acquisition) of an approved project for the development of a Class 4 or larger airport, wherever located, shall be a percentage of the total allowable project costs of the project (other than costs of land acquisition). Such percentage shall be the percentage which would apply if the project were one for the development of a Class 3 or smaller airport, as prescribed in subparagraph (1) of this paragraph insofar as the allowable project costs, when added to the total allowable project costs incurred in connection with other approved projects, if any, for the development of the same airport (other than the costs of land acquisition), are less than $5,000,000. For each additional $1,000,000 or portion thereof, over and above such $5,000,000 figure and up to $11,000,000, the percentage used in determining the United States share of such portion of the allowable project costs of the project (other than costs of land acquisition) shall be 5 per cent less; for that portion of allowable project costs of the project above $11,000,000 the percentage used in determining the United States share of such portion shall be the same as the percentage applicable to allowable project costs between $10,000,000 and $11,000,000. This formula for determining the United States share of allowable project costs (other than the costs of land acquisition) for approved Class 4 or larger airport projects, other than those in public land states, is set out in the following table:

Increments of cumulative allowable project costs	United States share in Territory of Hawaii, Puerto Rico and States other than public land States			United States percentage share in Alaska
	Percentage	Federal share increments	Cumulative Federal share	
First $5,000,000	50	$2,500,000	$2,500,000	75
Next $1,000,000	45	450,000	2,950,000	70
Next $1,000,000	40	400,000	3,350,000	65
Next $1,000,000	35	350,000	3,700,000	60
Next $1,000,000	30	300,000	4,000,000	55
Next $1,000,000	25	250,000	4,250,000	50
Next $1,000,000	20	200,000	4,450,000	45
Portion exceeding $11,000,000	20			45

(b) *Land acquisition costs.* The United States share of the project costs of an approved project which represent the cost of land acquisition shall be 25 per cent of the allowable cost of such acquisition regardless of the size or location of airport to be developed.

§ 550.12 *Eligible sponsors.* A sponsor shall be eligible to file a project request for Federal aid or a project application if, acting individually or jointly, it is:

(a) The United States Government or an agency thereof, if the project is located in the Territory of Alaska, the Territory of Hawaii, Puerto Rico, a national park, or national recreation area, a national monument, or a national forest; or

(b) A state or agency thereof; or

(c) The Territory of Alaska, the Territory of Hawaii or agency thereof; or

(d) Puerto Rico or agency thereof; or

(e) A municipality or other political subdivision; or

(f) A tax-supported organization.

Provided, however, That when the law of any state prohibits a municipality or other public agency from submitting a project application or from receiving grants of Federal funds for airport development or requires approval by the state prior to the submission of a project application, such municipality or other public agency shall not be eligible unless the submission of the project request and the project application is by, through, or with the approval of the state or appropriate agency thereof and is in accordance with applicable state law.

§ 550.13 *Sponsor requirements.* An eligible sponsor shall meet the requirements and conditions of this section. If the sponsor is acting by or through a duly authorized agent, the contract of agency shall be submitted to the Administrator through the District Airport Engineer. Such contract of agency will be examined as to its scope and the relationship of the parties, and the Administrator may require that the agent meet such of the requirements of this section as he may deem reasonable and necessary.

(a) *Powers.* The sponsor, at the time of the submission of the project application, shall satisfy the Administrator that it has the legal power and authority:

(1) To submit a project application and to receive a grant of Federal funds under the act;

(2) To engage in the airport development as contemplated in the project and in the act;

(3) To acquire, own, or control land needed for the project and the operation of the airport;

(4) To establish, maintain and operate an airport;

(5) To raise necessary funds to meet the sponsor's share of project costs and to finance the operation and maintenance of the airport;

(6) To execute all necessary covenants and agreements and to assume the obligations of sponsorship as required by the regulations of this part.

(b) *Funds.* The sponsor, at the time of the submission of the project application, shall have sufficient funds on hand, or shall submit evidence satisfactory to the Administrator that sufficient funds of the sponsor are, or will be, on hand to pay all estimated costs of the project which are not to be borne by the United States. The availability of such funds shall be evidenced by a certificate from an approved depository stating that a specific amount of money is on deposit with such depository to the credit of the sponsor, in the funds specified in § 550.20, sufficient to meet all estimated costs of the project which are not to be borne by the United States; or to the extent such funds have not been deposited, the sponsor shall furnish assurances satisfactory to the Administrator that proceeds from some specific non-Federal, public or private fund or from the sale of bonds or other evidences of indebtedness, guarantee the availability of such funds as needed.

(c) *Outstanding litigation.* At the time of the submission of the project application, there shall be no pending litigation or other legal proceeding and no misrepresentation of any relevant fact which will interfere with the conduct or completion of the project or with public operation, maintenance, or use of the airport.

(d) *Outstanding obligations.* At the time of the submission of the project application, the sponsor shall not be in default on any obligation to the United States relative to the development, operation, and maintenance of an airport.

(e) *Land*—(1) *Property interests required.* The sponsor shall have or be in a position to acquire good title satisfactory to the Administrator to all lands which in the judgment of the Administrator are necessary for the development of the airport to the class proposed in the current revision of the National Airport Plan, and all easements or other property interests which in the judgment of the Administrator are necessary for the project. The sponsor shall acquire such easements or other property interests as in the judgment of the Administrator may be required for the prevention, abatement, or mitigation of airport hazards; or to permit the flight of aircraft over nearby property, or for drainage, utilities, or ingress to or egress from the airport.

(2) *Time of acquisition.* Prior to the commencement of any construction work under the project, the sponsor shall acquire all necessary property interests; except that required property interests not necessary for any construction work included in the project may be acquired within a reasonable time after construction starts. If there are any property interests required which the sponsor does not possess at the time it executes the sponsor's assurance agreement, such agreement shall contain an express covenant to acquire such property interests within a time specified therein, which shall be subject to the approval of the Administrator.

(3) *Surveys.* A qualified surveyor or engineer shall be employed to prepare a property line map showing each parcel of land and each property interest acquired or to be acquired as a part of a project. Leases, easements, rights in air space, and other interests in land are to be included in the said map. The map shall be made to a sufficient scale to show all pertinent information. The location and boundaries of the approach, turning and transition zones and the applicable height limits shall be superimposed on this property map. CAA Office of Airports, Drawing No. 672, Airport Approach Standards, shall be used in preparing such map.

(4) *Appraisers and appraisals.* The Administrator, in his discretion, may require the sponsor to secure two independent appraisals of any property interests acquired or to be acquired as part of the project. Such appraisals shall be made by competent appraisers, having a background of experience satisfactory to the Administrator. In submitting their appraisals such appraisers shall certify that they have no personal interest, present or prospective, in the property and interests appraised.

(5) *Evidence of title.* Satisfactory evidence of title shall be submitted with respect to all property interests mentioned in subparagraph (1) of this paragraph. Such evidence may be in the form of a title certificate, title insurance policy, or opinion from a qualified attorney, and shall be furnished in duplicate to the Administrator through the District Airport Engineer at the time the project application is submitted, where the acquisition was accomplished prior thereto; otherwise such evidence shall be furnished at the time application is made for payment of the United States share of the cost of such acquisition.

(6) *Final land acquisition report.* Upon completion of all land acquisition included in the project, a summary report of such acquisition shall be submitted on Form ACA 1646 (Appendix E) to the Administrator through the District Airport Engineer. The report shall show, for each parcel, the parcel number, interest acquired by the sponsor, names of immediately preceding owner or owners, appraised value, assessed value, the price paid or award made in condemnation, date of closing and exact surveyed area.

(7) *Reimbursement in event of noncompletion.* Whenever a project involving land acquisition is approved, which upon completion will not result in the establishment of a useful and usable airport facility, written assurance satisfactory to the Administrator must be given by the sponsor that it will refund to the United States a sum equal to all grant payments made for land acquisition for that project, in the event that such a useful and usable airport facility is not completed under the act or otherwise within five years from the date of the Grant Agreement.

(f) *Other requirements.* In addition to the requirements of this section, the sponsor of an approved project shall meet the requirements of § 550.15.

§ 550.14 *Submission of project requests; tentative allocation of funds*—(a) *Project requests.* An eligible sponsor desiring to obtain Federal aid for the development of an eligible project, may, as the first step, submit in quadruplicate to the Administrator through the District Airport Engineer of the District wherein the sponsor is located, a project request for Federal aid on Form ACA 1623 (Appendix F). Co-sponsors of an airport not located in the same District will normally submit the project request to the District Airport Engineer wherein the project is to be located. Such project request will be considered as a preliminary notice of intent in order to permit the District Airport Engineer to evaluate the project in the preparation of a tentative annual program and will serve as the basis and justification for the Administrator's consideration for inclusion of the project in the annual program. Upon receipt of a project request the District Airport Engineer will acknowledge its receipt and to the extent necessary will arrange for consultation with the sponsor concerning the project and for inspection of proposed sites.

(b) *Tentative allocation of funds.* If a project is selected by the Administrator for inclusion in a program, the Administrator will make a tentative allocation of funds for the project and will transmit a notice of such allocation to the sponsor, through the District Airport Engineer.

(c) *Withdrawal of tentative allocation.* A tentative allocation will be subject to withdrawal upon failure of the sponsor to submit a project application, as required by § 550.16 or to comply with the act or the regulations of this part, in some material respect.

§ 550.15 *Sponsor's assurance agreement.* As soon as practicable after the Administrator has made a tentative allocation for a project, the sponsor shall execute a sponsor's assurance agreement and submit such agreement in quadruplicate to the Administrator through the District Airport Engineer. Such agreement shall be executed only if and when the sponsor has the legal power and authority and financial ability to assume the obligations and make the warranties set forth therein. The execution of the sponsor's assurance agreement shall be authorized by an appropriate resolution by the governing body of the sponsor. Such agreement shall follow, in form and substance, Form ACA 1642 (Appendix G) except that it may be changed with the approval of the Administrator when a provision of such agreement does not conform or is not applicable to the facts of the particular case or does not conform to the laws applicable to the sponsor.

§ 550.16 *Submission and approval of project application*—(a) *Submission.* At the earliest practicable date after receiving notice of a tentative allocation of funds, the sponsor shall submit a project application in quadruplicate on Form ACA 1624 (Appendix H) to the Administrator through the District Airport Engineer. Such project application shall be accompanied by the final plans and specifications and, where the project involves land acquisition, by a survey map as provided in § 550.13 (e) (3). The plans and specifications shall be prepared in such manner as to provide for the completion of the project in accordance with the provisions of the regulations of this part and with all the applicable local laws, ordinances, and regulations, except to the extent that valid waivers are obtained from the appropriate authorities. All necessary approvals and permits of state, local, planning, zoning, building, and other boards or bodies or the duly authorized officers thereof, shall be obtained before the construction contracts are awarded.

(b) *Approval.* The Administrator will not approve the project application unless he is satisfied that the applicable requirements of these regulations of this part have been met; that the project, when completed, will contribute to the accomplishment of the purposes of the act; and that the sponsor will carry the project through to final completion in accordance with the requirements of the act and the regulations of this part.

§ 550.17 *Grant agreement.* The offer of the Administrator to pay a portion of the allowable project costs and the acceptance thereof by the sponsor shall constitute the Grant Agreement, Form ACA 1632 (Appendix I).

(a) *Offer.* The Administrator will make an offer to pay the United States share of the allowable project costs of the project. Such offer will be transmitted in quadruplicate to the sponsor through the District Airport Engineer and will state a definite amount as the maximum obligation of the United States.

(b) *Terms and conditions.* In addition to such special terms and conditions as may be applicable to a particular project, the offer shall be subject to the following terms and conditions:

(1) The sponsor in undertaking the development of a project will comply with and carry out the provisions of the act, the regulations of this part the sponsor's assurance agreement, the project application, and the grant agreement, and will complete the project in accordance with the plans and specifications.

(2) The sponsor will accept or reject the offer within sixty days of its receipt, except that in the event of unusual and unforeseen circumstances, which in the judgment of the Administrator, will prejudice the successful accomplishment of the purposes of the act, the Administrator may, in his discretion, extend the time for acceptance.

(3) The sponsor will begin work on the project within a reasonable time after the execution of the grant agreement.

(4) If, prior to acceptance of the offer, it appears that the amount offered is in excess of the amount required to pay the United States share of the allowable

project costs, the Administrator may in his discretion revise the offer accordingly.

(5) If at any time prior to the acceptance of an offer the sponsor determines that the amount offered is insufficient to cover the United States share of the allowable project costs and desires to secure a revised offer, the offer should be returned through the District Airport Engineer not later than the date established pursuant to subparagraph (2) of this paragraph, accompanied by a complete justification in support of a request for a revised offer.

(6) If at any time prior to the acceptance of an offer the Administrator determines that the offer is insufficient to meet the United States share of the allowable project costs, he may in his discretion withdraw the offer, or submit a revised offer, and if desirable, request a revision of the plans, specifications, the project application, and the sponsor's assurance agreement. If it appears that the project cannot be completed at a reasonable cost and within the estimates, or within the limits of the revised offer, he may in his discretion, withdraw the tentative allocation of funds for the project.

(c) *Acceptance.* If the amount of the United States share as stated in the offer and all other terms thereof are satisfactory, it shall be accepted and executed in quadruplicate within the time prescribed in paragraph (b) (2) of this section, by an official of the sponsor duly designated to take such action, by a resolution of the sponsor's governing body, which resolution shall set forth at length the terms of the offer. Three copies of the accepted offer, to each of which a certified copy of the above resolution has been attached, shall be transmitted to the Administrator through the District Airport Engineer.

(d) *Obligation of the United States.* Unless and until a Grant Agreement has been executed in accordance with the requirements of the regulations of this part with respect to a project, the United States shall not pay, nor be obligated to pay, any portion of the project costs which have been or may be incurred in carrying out the project.

§ 550.18 *Performance of construction work*—(a) *Responsibility of sponsor.* The sponsor in developing the project shall be primarily responsible for:

(1) Adherence to standards, policies, and procedures as established or approved by the CAA;

(2) Furnishing to the Administrator a list of the various classes of labor to be employed in construction work;

(3) Advertising for bids;

(4) Opening bids;

(5) Awarding contracts;

(6) Supervision of construction;

(7) Payments to the contractor; and

(8) Securing compliance with the act, the regulations of this part, all construction contracts, and the plans and specifications.

(b) *Construction review by the Administrator.* The sponsor shall permit, and will require of the contractor, that the Administrator may inspect and review all work, materials, payrolls, records of personnel, conditions of employment, invoices of materials, books of accounts, and other relevant data and records with respect to the project. The sponsor shall provide and maintain or will make available during the construction of the project, if required by the Administrator, adequate facilities at the project site for the use of the Administrator's representatives or agents who may be assigned to review the project.

(c) *Construction reports*—(1) *Detailed Estimate of Cost of Contract.* Prior to the start of construction, the sponsor shall prepare and submit five copies of the Detailed Estimate of Cost of Contract on Form ACA 1628 (Appendix J) to the District Airport Engineer for approval. This Detailed Estimate shall be based on the items used in bid proposal. If, during the course of the contract, the sponsor determines that the original Detailed Estimate of Cost of Contract is inaccurate, the sponsor shall submit a revised Detailed Estimate of Cost of Contract for approval. In case of lump sum contracts for buildings, the Detailed Estimate shall be broken down for each class of work, such as excavation, foundation, brickwork, framework, plastering, roofing, flooring, plumbing, and electrical work. The Detailed Estimate for force account projects shall be based on labor, material, rental of equipment, and other pertinent items of cost.

(2) *Periodic cost estimate of contract.* Not later than the 5th of each month, the sponsor shall furnish the District Airport Engineer five copies of a Periodic Cost Estimate of Contract, showing the total cost of the construction performed and materials supplied at the project site to date, by items, on Form ACA 1629 (Appendix K).

(3) *Progress report sketch.* The Periodic Cost Estimate of Contract under subparagraph (2) of this paragraph shall be accompanied by a Progress Report Sketch, the legend of which will indicate the items of work under the contract, and will show the percentage of completion of each item of the report. The sketch will show the airport property, the landing area layout, and location of specific work, and will be illustrated in varicolored pencil. No Progress Report Sketch will be required for projects covering buildings only. The percentage of completion shown on the Periodic Cost Estimate of Contract will be sufficient.

(4) *Cost estimate summary.* Where there has been more than one contract awarded on a project, the sponsor shall submit, with each Periodic Cost Estimate, a Cost Estimate Summary on Form ACA 1630 (Appendix L).

(5) *Payroll reports.* The sponsor shall require each contractor and subcontractor engaged in the work at the site of the project to prepare or the sponsor shall, on a force account project, prepare his payrolls on Form ACA 1645 (Appendix M); and not later than the 7th day after payment of wages, the sponsor or each contractor shall submit to the District Airport Engineer a certified legible copy of each such payroll. Each payroll of a contractor and subcontractor shall be sworn to in accordance with the "Regulations Issued Pursuant to the So-called Kick-Back Statute," Public Law 324, 73d Congress, approved June 13, 1934 (48 Stat. 948) (Appendix B).

(d) *Construction by force account*—(1) *When permissible.* Construction work may be accomplished by force account if the regional Superintendent of Airports determines that the project or portion thereof can be more effectively and economically accomplished in such manner. However, with the exception of Federally sponsored projects and projects in the territories and possessions, construction by force account will in no instance be approved if the United States share of the construction and related engineering costs, except costs incurred in preparation of plans and specifications, for any one project in any one year's program exceeds $15,000.

(2) *Documents required.* The sponsor shall submit to the District Airport Engineer the following in support of its application for authority to undertake construction work by force account:

(i) Adequate plans and specifications showing the nature and extent of the construction work to be done by force account;

(ii) A schedule of the construction equipment available to the sponsor;

(iii) A schedule of operation indicating the date on which the construction equipment will be available for use on the project and the estimated completion date of the project; and

(iv) Assurance that adequate supervisory engineering and inspection personnel will be provided.

(e) *Construction by contract.* With the exception of force account work, all construction work in connection with an approved project shall be accomplished by contract (use of Contract Form ACA 1637, Appendix N, is suggested). Contracts for construction work shall be awarded only after open and competitive bidding.

(1) *Approval of District Airport Engineer.* The sponsor shall not enter into any contract relative to the development of a project without the approval of the District Airport Engineer and shall at all times retain, reserve, and enforce all of its rights under all contracts entered into by it related to the development of the project, and shall not amend or modify or consent to any change in any contract, or waive, release, or compromise any right or claim which it may have under any contract, without the approval of the District Airport Engineer.

(2) *Documents required.* The sponsor shall submit to the District Airport Engineer:

(i) Three copies of each executed contract with any person, firm, or corporation, that furnishes or performs any professional or executive work, or service in connection with the project, including architects, engineers, appraisers, title examiners, attorneys, surveyors, and consultants.

(ii) Three copies of each proposed contract document relating to the development of the project.

(iii) An Abstract of Bids and Recommendations for Award for each contract relating to the construction and equipping of the project, on Form ACA 1631 (Appendix O), and a complete set of the executed contract documents relating to the construction or equipping of the project and three sets of conformed copies

thereof, before any work or service is performed or any material or equipment is furnished thereunder.

(iv) Six copies of each proposed change order, Form ACA 1639 (Appendix P) or form approved by the District Airport Engineer, as to any construction relating to the project, before such order is issued;

(v) All insurance policies issued in connection with the development of the project;

and, after having submitted to the District Airport Engineer the documents mentioned above, except contracts for professional or executive work and insurance policies, the sponsor shall not proceed without being advised, in writing, to do so by the District Airport Engineer.

(f) *Letting of contracts*—(1) *Invitation for bids.* The sponsor may advertise for bids for constructing and equipping a project at any time after the Administrator has approved the plans and specifications and advised the sponsor the minimum wage rates which the contractor shall pay to skilled and unskilled labor. The Invitation for Bids shall be published in accordance with applicable local law but in any event not less than once each week for two consecutive weeks in at least one daily newspaper of general circulation in the state in which the sponsor is located. (Form ACA 1633, Appendix Q, is suggested.) The Invitation for Bids as to all contracts for work involving labor shall contain the minimum wage rates as determined by the Secretary of Labor. The Invitation for Bids shall require that the bidder submit either a Bid Bond equal to 5 per cent of the bid on Form ACA 1634 (Appendix R) or a certified check payable to the sponsor in a sum equal to 5 per cent of the bid, as bid guaranty.

(2) *Safekeeping of bids.* The sponsor shall provide a safe and secure place for the bids to be kept until their opening. No bids shall be opened until the time fixed in the Invitation for Bids, and no person other than the one responsible for the safekeeping of such bids shall be permitted to have access to them.

(3) *Opening of bids.* Bids shall be publicly opened and read aloud at the time and place specified in the Invitation for Bids.

(4) *Award of contract.* After the opening of bids, the sponsor shall submit to the District Airport Engineer the Abstract of Bids and Recommendations for Award, on Form ACA 1631 (Appendix S). Under ordinary circumstances approval will not be given for acceptance of other than the lowest bid received. However, if the sponsor considers the lowest bidder unqualified, incapable, or not responsible, the next lowest bid may be recommended for approval by giving full justification for the proposed action. In no case shall any bid be accepted without written approval of the Regional Administrator. After the Abstract of Bids has been reviewed and the Recommendations for Award have been approved by the Regional Administrator, the sponsor may award the contract. (Use of the Award of Bid, Form ACA 1636, Appendix T, is suggested.)

(g) *Contract security.* The sponsor shall require each construction contractor to furnish a Performance Bond on Form ACA 1638A (Appendix U) as security for the faithful performance of his contract and a Payment Bond on Form ACA 1638B (Appendix V) as security for the payment of all persons performing work and furnishing materials in connection therewith. Each of such bonds shall be in an amount not less than the minimum required by applicable local law: *Provided,* That if local law prescribes no minimum requirement as to the amount of the bonds, or if the minimum requirement is less than 50 per cent of the contract price, or if there is no applicable local law with respect to such bonds, they shall be in an amount not less than 50 percent of the contract price for the first million dollars and decreased thereafter by 5 percent for each additional million dollars or portion thereof.

(h) *Contractor's insurance.* The sponsor shall require each construction contractor to maintain, until the work to be performed under his contract has been accepted by the sponsor, insurance with responsible insurance companies as follows:

(1) Adequate insurance, with the sponsor named as co-insured under each policy, covering all work, labor, and materials furnished by such contractor and all his subcontractors against loss by fire, wind storm, lightning, flood, or explosion and against all additional risks in respect to which insurance is commonly carried on buildings and materials during construction, in the locality in which the project is located: *Provided,* That the sponsor may itself purchase the insurance required in this paragraph in lieu of requiring the contractor to provide such insurance: *And provided further,* That no contractor shall be required to carry insurance on any part of the project after the time at which such part is accepted by the sponsor;

(2) Adequate compensation insurance for all the contractor's employees who will be engaged in work at the site of the project (and if any part of such contractor's contract is sublet, the contractor will require his subcontractor to maintain such insurance for all the subcontractor's employees who will be so engaged, unless the latter's employees are protected by the prime contractor's insurance);

(3) Adequate public liability and property damage insurance to protect the contractor and all of his subcontractors from claims for damages for personal injury, accidental death, or injury or damage to property, which may arise from operations under the contract whether such operations be carried on by the contractor or by any subcontractor or by any one directly or indirectly employed by either of them.

(i) *Contractor's assignments.* The sponsor shall require the contractor to obtain its written consent to any proposed assignment of any interest in or part of any contract relating to the construction or equipping of the project, before such assignment thereof is made.

(j) *Payments to contractor.* The sponsor shall make partial payments to each contractor on the basis of an estimate of work performed and materials delivered to the site as often as may be agreed upon by the sponsor and contractor, but shall retain at least 10 per cent of the amount of each such estimate until final completion and acceptance of all work covered by the particular contract: *Provided,* That when 50 per cent of the work has been completed and if the work is otherwise progressing satisfactorily, the sponsor may make the remaining partial payments in full for the work subsequently completed, but shall retain the prior withheld sums until final payment is authorized. Before making final payment to any contractor, the sponsor shall furnish the District Airport Engineer a Certificate of Completion on Form ACA 1640 (Appendix W) accompanied by a Certificate and Release on Form ACA 1643 (Appendix X) executed by the contractor.

(k) *Labor requirements*—(1) *Qualifications for employment.* The sponsor shall require that no convict labor shall be employed in the development of the project, and that in the employment of labor (except executive, administrative, or supervisory) preference shall be given, where they are qualified, to individuals who have served as persons in the military service of the United States as defined in section 101 (1) of the Soldiers' and Sailors' Civil Relief Act of 1940, and who have been honorably discharged from such service: *Provided,* That such preference shall apply only where such labor is available locally and qualified to perform the work to which the employment relates.

(2) *Minimum wage rates.* The sponsor shall furnish to the District Airport Engineer not less than 60 days prior to the date it proposes to advertise for bids, a list of the various classes of labor to be employed in the construction work of the project, together with a schedule of the minimum wage rates proposed to be paid to skilled and unskilled labor. The minimum wage rates which the contractor shall pay to skilled and unskilled labor will be determined by the Secretary of Labor and will be furnished to the sponsor by the Administrator prior to the issuance of the invitation for bids.

(l) *Accident prevention.* The sponsor shall require of all contractors that precautions shall be exercised at all times for the protection of persons (including employees) and property, that the safety provisions of applicable laws and of applicable building construction codes shall be observed, and that machinery, equipment, and explosives shall be guarded and all hazards shall be eliminated in accordance with the safety provisions of the Manual of Accident Prevention in Construction, published by the Associated General Contractors of America, to the extent that such provisions are not in contravention of applicable law.

§ 550.19 *Accounting procedure.* The sponsor shall establish and maintain an accounting system adequate for an accurate and expeditious determination of the allowable costs of each project. Project costs shall be so segregated and grouped that the sponsor will be able to furnish, whenever required, cost data in the following cost classifications:

(a) *Purchase price of land.* All costs allowable under § 550.9 (a) (1) (i).

(b) *Incidental costs of land acquisition.* All costs allowable under § 550.9 (a) (1) (ii).

(c) *Costs of construction: contract.* All costs allowable under § 550.9 (a) (2).

(d) *Costs of construction: force account.* All costs allowable under § 550.9 (a) (3).

(e) *Engineering costs: plans and design.* All costs allowable under § 550.9 (a) (4) (i).

(f) *Engineering costs: supervision and inspection.* All costs allowable under § 550.9 (a) (4) (ii).

(g) *Other administrative costs.* All costs allowable under § 550.9 (a) (5).

§ 550.20 *Grant payments.* Within ten days after acceptance of the Grant Offer, the sponsor shall designate an official or officials or depository, authorized by law to receive public funds, to receive payments representing the United States share of the project costs. An account shall be established with such official, officials, or depository to handle such payments, together with those funds to be supplied by other than the United States, which shall be separate and distinct from all other accounts, and shall be entitled "Federal Airport Project, (name of airport)". The Administrator will pay the United States share of the project costs to the official or officials or depository so designated and certified by the sponsor. No other funds shall be deposited in said account, except other money for the development of the project. The funds so deposited shall be withdrawn by the sponsor only in payment of the project costs of development of the project. In case any balance or unexpended funds shall remain in the account after completion of the project and the payment of all costs thereof, the sponsor shall refund to the United States, upon demand by the Administrator, any unexpended balance of payments made by the United States into the account.

(a) *Land acquisition.* (1) At any time subsequent to the execution of the Grant Agreement and after completion of any land acquisition included in the project, and after the start of actual construction work on a project if the project includes any such work, the sponsor may apply to the Administrator on Form ACA 1625 (Appendix Y) for payment of the United States share of the allowable project costs of land acquisition. Upon receipt of such application, payment of the United States share as provided in the regulations of this part will be made in full.

(2) The application for payment of the United States share of land acquisition costs may be made separately from the application for payment of the United States share of other project costs.

(b) *Project costs other than land acquisition.* (1) No grant payment will be made to the sponsor except for airport development which has been accomplished as of the date of payment.

(2) *Partial grant payments.* In the absence of an agreement otherwise, application for partial grant payments will be made when the progress of the project has reached the twenty, forty, seventy, and eighty-five percent stages of completion. However, the Administrator and the sponsor may enter into an agreement coincidental with or subsequent to the execution of the Grant Agreement establishing other stages of completion for payment of the United States share: *Provided,* That only one application for partial grant payment may be made by a sponsor in any one calendar month. Form ACA 1625 (Appendix Y) will be used in making applications for partial grant payments. Such partial grant payments, in their aggregate amount, shall not exceed a percentage of the estimated cost of the airport development previously accomplished, as indicated by the latest approved cost estimate. This percentage shall be no more than that percentage of the allowable project costs of such development established by the Grant Agreement as the United States share of such costs and in no event shall exceed the amount stated in the Grant Agreement as the maximum obligation of the United States.

(c) *Progress audits.* Progress audits may be made from time to time at the request of the sponsor or the District Airport Engineer, or at the direction of the Superintendent of Airports, and shall be made at either the seventy or eighty-five percent stage of completion if the United States share of the project is in excess of $250,000.

(d) *Final grant payments.* At such time as the project has been wholly completed and the sponsor has accepted all work on the project by taking the requisite action as required by local laws or regulations and in compliance with the terms of the Grant Agreement, an application for final grant payment may be filed on Form ACA 1625 (Appendix Y). The Administrator shall make the final grant payment only when he has determined that the following conditions have been met:

(1) A final inspection of all work at the project site has been conducted by representatives of the sponsor, the CAA and the contractor;

(2) A final audit of the work done under the project has been completed;

(3) The sponsor has furnished the Administrator five (5) copies each of the final Periodic Cost Estimate, the Final Physical Progress Sketch, the final "as constructed" plans, and Project History;

(4) A certificate has been signed and verified by an officer of the sponsor designated by resolution on Form ACA 1640 (Appendix W) stating that the development of the project has been completed in accordance with the regulations of this part of the construction contract, and the plans and specifications; that all liabilities of the sponsor, actual and contingent, incurred for, or in connection with, the development of the project, except as specifically set forth in this certificate, have been discharged through payment or other means; that those liabilities not yet discharged will be discharged upon receipt by the sponsor of the final grant payment.

(e) *Amount of final grant payment.* Based upon the final inspection, audit, and documents required by paragraph (d) of this section, the Administrator will determine the total amount of the allowable project costs and pay the sponsor the United States share of such amount less the total amount of all prior payments: *Provided, however,* That the aggregate of all payments shall not exceed the amount stated in the Grant Agreement as the maximum obligation of the United States.

§ 550.21 *Memoranda and hearings—*(a) *Memoranda.* Any public agency, person, association, firm, or corporation having a substantial interest in the disposition of any project application, may file a memorandum in support of or in opposition to the project application with the Administrator through the District Airport Engineer of the district in which the proposed project is located. Such party may request a public hearing with respect to the location of the airport, the development of which is proposed. If, in the opinion of the Administrator, the party filing the memorandum has a substantial interest in the matter, a public hearing will be held in accordance with paragraph (b) of this section.

(b) *Hearings.* If a request for a public hearing is made and approved as set forth in paragraph (a) of this section, the time and place of the hearing will be set by the Administrator. The time will be set so as to avoid undue delay in disposing of a project application but so as to afford reasonable time for all parties concerned to prepare for the hearing. The place of hearing will be at a place convenient to the sponsor. The Administrator will give notice of time and place by mail to the party filing the memorandum, to the sponsor, and to such other persons as the Administrator deems necessary.

(c) *Procedure.* A representative of the Administrator will conduct the hearing on behalf of the Administrator in such manner as he deems adequate and decide the time to be consumed, the type of testimony to be heard, and other matters with respect to the conduct of the hearing.

(d) *Record.* A hearing will be recorded in such form and manner as may be determined by the representative of the Administrator and shall become a part of the record of the project application.

This part shall become effective upon publication in the FEDERAL REGISTER.

[SEAL] T. P. WRIGHT,
Administrator of Civil Aeronautics.

NOTE: Appendices A, B, C, E, F, H, I, J, K, L, M, N, O, P, Q, R, S, T, U, V, W, X, and Y to this part have not been filed with the FEDERAL REGISTER, but copies of these appendices are available, upon request, at the office of the District Airport Engineer in each District office of the Civil Aeronautics Administration.

APPENDIX D

United States Percentage Share of Allowable Project Costs in States Containing Unappropriated and Unreserved Public Lands and Nontaxable Indian Lands:

State:	*Percentage*
Arizona	60.53
California	54.12
Colorado	53.34
Idaho	56.36
Montana	53.57
Nevada	62.50
New Mexico	56.87
Oklahoma	51.67
Oregon	56.02
South Dakota	53.09
Utah	62.16
Washington	51.88
Wyoming	57.47

NOTE: The percentages listed hereon may vary as public lands are withdrawn from the category as indicated, but unless so changed, will be used by the Administrator in determining the United States' share of allowable project costs other than land acquisition.

APPENDIX G

Form ACA 1642 (10–46)

DEPARTMENT OF COMMERCE

CIVIL AERONAUTICS ADMINISTRATION

Washington, D. C.

SPONSOR'S ASSURANCE AGREEMENT

SECTION 1. For and in consideration of the execution by the United States of a Grant Agreement obligating the United States to pay a portion of the allowable project costs of a project for development of the _____ _____ airport under the provisions of the Federal Airport Act, and the Regulations promulgated thereunder, the _____ _____ hereinafter called the "sponsor", for itself, its successors, or assigns does hereby covenant and agree with the United States as follows:

a. All terms used in this Agreement which are defined in the Federal Airport Act, and the Regulations promulgated thereunder, shall have the meaning given to them in such Act and Regulations.

b. Insofar as legally possible, the sponsor will maintain a master plan of the airport, including building areas, approach areas, and landing areas indicating present and future proposed development commensurate with the airport and with current approval of the Administrator; and in establishing additional improvements, the sponsor will conform to such master plan or approved changes thereto.

c. During the term of this agreement, the airport will be operated continuously as such and for no other purpose and will at all times be operated for the use and benefit of the public, on fair and reasonable terms and without unjust discrimination.

d. The sponsor will not hereafter use or permit the use of the airport exclusively for air carrier operations, unless there are other public airport facilities in the area adequate to serve other types of users; it will not grant, exercise, or permit the exercise of any exclusive right for use of the airport by one air carrier operator, or for rental of aircraft to the public, for conducting charter flights, or for operating a flying school, and that, after the date of this agreement, it will not grant or authorize the grant of exclusive right at the airport for selling aircraft, aircraft parts or equipment, or for repairing aircraft and engines, or for carrying on other airport services or fixed base operations of an aeronautical nature. Nothing contained herein shall be construed to waive or abrogate the requirements of section 303 of the Civil Aeronautics Act of 1938. In the interest of safety, the Administrator may waive in writing compliance with any or all the provisions of this sub-section.

e. Except as provided in d. above, the sponsor will permit all qualified operators, on reasonable terms and without unjust discrimination, to use the airport for any aeronautical business or operation up to the capacity of the airport.

f. The sponsor will not hereafter grant to any one an exclusive right to sell aviation gasoline or oil.

g. During the term of this agreement the sponsor will continuously maintain in good and serviceable condition and repair the entire airport and all buildings and other improvements, facilities, and equipment, other than facilities or equipment owned or controlled by the United States; provided, however, in meeting this requirement the airport is not expected to be operated and maintained for aeronautical uses during temporary periods when climatic or flood conditions interfere substantially with operation and maintenance during such periods. Essential facilities, including night lighting systems, when installed, will be operated in such a manner as to assure their availability to all users of the airport.

h. The sponsor will replace and repair all buildings, structures, and facilities developed under the project if such are destroyed or damaged, replacing or restoring them to a condition comparable to that preceding the destruction or damage.

i. If the land or improvements thereon, acquired or developed under the project, are sold, condemned, or otherwise disposed of, wholly or in part, the United States will be reimbursed in proportion to its original investment in the property so disposed of, but not exceeding its original share in the portions so disposed of, except that if the proceeds are used by the sponsor for airport purposes within two years or if a transfer is made pursuant to this agreement to another public agency or agencies for operation as an airport, there shall be no reimbursement to the United States.

j. Insofar as is within its powers and reasonably possible the sponsor will prevent the use of any land either within or outside the boundaries of the airport, including the construction, erection, alteration, or growth of any structure or other object thereon, which would be a hazard to the landing, taking-off, and maneuvering of aircraft at the airport, or otherwise limits its usefulness as an airport. With respect to land outside the boundaries of the airport, the sponsor will remove or cause to be removed any growth, structure, or other object thereon which would be a hazard to the landing, taking-off, or maneuvering of aircraft at the airport, or when such is not feasible, it will mark or light such growth, structure, or other object. The airport approach standards to be followed in this connection shall be those established by the Administrator in Office of Airports Drawing No. 672 dated _____, unless otherwise authorized by the Administrator. Insofar as legally possible, the sponsor will adopt and enforce zoning ordinances and regulations to safeguard aircraft flight operations within the airport hazard areas as defined in the above mentioned drawing, prohibiting the creation, establishment, erection, and construction of hazards to air navigation; or insofar as reasonably possible, will acquire such easements or other interests in lands and air space as may be necessary to perform the covenants of this paragraph.

k. All facilities of the airport developed with Federal aid and all those usable for the landing and taking-off of aircraft will be available to the United States at all times without charge for use by military and naval aircraft in common with other aircraft, except, if the use by military and naval aircraft shall be substantial, a reasonable share, proportional to such use, of the cost of operating and maintaining facilities so used, may be charged.

l. The sponsor will furnish to any civil agency of the United States, without charge (except for light, heat, janitor service, and similar facilities and services at the reasonable cost thereof), such space in airport buildings as may be reasonably adequate for use in connection with any airport air traffic control activities, weather-reporting activities and communications activities related to airport air traffic control, which are necessary to the safe and efficient operation of the airport and which such agency may deem necessary to establish and maintain at the airport.

m. The sponsor will maintain a current system of airport accounts and records, using a system of its own choice, sufficient to provide annual statements of income and expense, balance sheet and affiliated fiscal reporting. It shall, upon reasonable request, furnish the Administrator with annual or special financial and operations reports. Such reports may be submitted to the Administrator on forms furnished by him, or may be submitted in such other manner as the sponsor elects, provided the essential data is furnished. The airport and all airport accounts and records will be available for inspection at any time, upon reasonable request, by the regional Superintendent of Airports or his authorized representatives.

n. The sponsor will not enter into any transaction which would operate to deprive it of any of the rights and powers necessary to perform any or all of the covenants made herein, unless by such transaction the obligation to perform all such covenants is assumed by another public agency eligible under the Regulations issued pursuant to the Federal Airport Act, to assume such obligations and having the power, authority, and financial resources to carry out all such obligations. If the management and operation of the airport is relinquished wholly or in part, the sponsor agrees that it will reserve sufficient powers and authority to insure that the airport will be operated and maintained in accordance with the Act and the Regulations.

o. The sponsor will furnish to the Administrator through the District Airport Engineer within ten days after their execution or adoption, three copies of all deeds, leases, operation or management agreements, laws, ordinances, rules and regulations, or other instruments affecting the aeronautical use of the airport. All leases, operation or management agreements, or other instruments affecting the aeronautical use of the airport shall contain a provision that such documents shall be subordinate and subject to the provisions of this agreement.

p. The sponsor will acquire prior to the commencement of construction the following property interests as shown on the outline survey attached hereto as Exhibit "A": ____ _____ _____

The sponsor will acquire prior to _____ the following property interests as shown on Exhibit "A": _____ _____ _____

SEC. 2. In order to satisfy the Administrator that the sponsor is qualified to sponsor the project under the requirements established by the Act and the Regulations, and to induce the United States to enter into a Grant Agreement with respect to the project, the sponsor does hereby warrant and represent to the United States as follows:

a. That it holds the following property interests as shown on Exhibit "A": _____ _____ _____

b. That it has sufficient funds available for that portion of the project costs which is not to be paid by the United States;

c. That it has the power and authority, of itself or through an agent, to receive a grant of Federal funds under the Act;

d. That it has the power and authority to make these assurances and to perform all the covenants and agreements contained herein;

e. That it is legally and financially able to operate and maintain the airport and to perform all the covenants contained herein;

f. That there is no pending litigation or other legal proceeding, and no material or relevant fact, which might adversely affect the prosecution of the project, the operation of the airport, or the performance of any of the covenants contained in Sections 1 and 2 hereof, which has not been brought to the attention of the Administrator.

SEC. 3. This Agreement shall become effective immediately except that Section 1 hereof shall not be effective until the execution of the Grant Agreement. This Agreement shall be incorporated in the Grant Agreement and become part thereof. This Agreement shall remain in full force and effect during the useful life of the facilities developed under the project but in any event not to exceed twenty years from the date of the execution of the Grant Agreement.

SEC. 4. If any provision of this agreement or any application thereof shall be held invalid, such invalidity shall not affect any provision or application of this Agreement which can be given effect without the invalid provision or application.

SEC. 5. This document constitutes the (sponsor's) assurances as required under Sections 9 and 11 of the Act and shall be referred to as the "Sponsor's Assurance Agreement."

EXTRACT FROM THE MINUTES OF A (SPECIAL) (REGULAR) MEETING OF THE (HERE NAME GOVERNING BODY OF THE PUBLIC AGENCY) OF (NAME THE SPONSOR) HELD ON (INSERT DATE)

The following resolution was introduced by ----------, read in full and considered:

Resolution Adopting and Approving the Execution of the Sponsor's Assurance Agreement To Be Submitted to the Administrator of Civil Aeronautics, U. S. Department of Commerce, to Obtain Federal Aid in the Development of (Here Insert Name of Airport) Airport

Be it resolved by the (members) of (governing body) of ----------:

SECTION 1. That (insert name of sponsor) shall enter into a Sponsor's Assurance Agreement for the purpose of obtaining Federal aid in the development of the ---------- Airport and that such agreement shall be as set forth hereinbelow.

SEC. 2. That the (here insert the name of officer or officers of the sponsor) is hereby authorized and directed to execute said Sponsor's Assurance Agreement in quadruplicate on behalf of the (here insert name of sponsor), and the Secretary is hereby authorized and directed to impress the official seal of this (insert name of sponsor) and to attest said execution.

SEC. 3. That the Sponsor's Assurance Agreement referred to hereinabove shall be as follows: (Insert Sponsor's Assurance Agreement in full)

CERTIFICATE

I, ----------, the duly appointed, qualified and acting ----------, of ----------, do hereby certify that the attached extract from the minutes of the ---------- meeting of the ---------- of said ----------, held on ----------, is a true and correct copy of the original minutes of said meeting on file and of record insofar as said original minutes relate to the matters set forth in said attached extract, and I do further certify that the copy of the Resolution appearing in said attached extract is a true and correct copy of such Resolution adopted at said meeting and on file and of record.

In testimony whereof, I have hereunto set my hand and the seal of said ------ this ---------- day of ----------, 19----.

[SEAL] ---

NOTE: This form of resolution is adaptable to any resolution required in the submission of a Project Request, Project Application, Grant Agreement, or the execution of a contract on behalf of the public agency in connection with a project for airport development and for which Federal aid is sought.

[F. R. Doc. 47-199; Filed, Jan. 8, 1947; 8:46 a. m.]

PART 555—ACQUISITION BY PUBLIC AGENCIES FOR PUBLIC AIRPORT PURPOSES OF LANDS OWNED OR CONTROLLED BY THE UNITED STATES

Acting pursuant to the authority vested in me by section 16 of the Federal Airport Act (60 Stat. 170; Pub. Law No. 377, 79th Cong.), I hereby adopt a new part, Part 555, of the regulations of the Administrator of Civil Aeronautics to read as follows:

Sec.
555.1 Definitions.
555.2 Purpose of regulations.
555.3 Requests for conveyance required.
555.4 Public agencies eligible to file requests for conveyance.
555.5 Form and content of requests for conveyance.
555.6 Place of filing requests for conveyance.
555.7 Findings and recommendations of the Regional Administrator.
555.8 Determination by the Administrator.
555.9 Determination by the head of the controlling department or agency.
555.10 Conveyances.
555.11 Covenants, reservation clause, and reverter clause in instruments of conveyance.

AUTHORITY: §§ 555.1 to 555.11, inclusive, issued under sec. 16, 60 Stat. 170, Pub. Law 377, 79th Cong.

§ 555.1 *Definitions.* (a) All terms used in this part which are defined in the Federal Airport Act and are not defined in paragraph (b) of this section shall have the meaning given to them in the act.

(b) As used in this part, unless the context otherwise requires, the following terms shall have the meaning indicated:

(1) "CAA" means the Civil Aeronautics Administration of the United States Department of Commerce.

(2) "Administrator" means the Administrator of Civil Aeronautics or his duly authorized representative.

(3) "Regional Administrator" means the directing head of a regional office of the CAA or his duly authorized representative.

(4) "District Airport Engineer" means the directing head of a district office of the airports branch of a CAA regional office or his duly authorized representative.

(5) "Department or agency" means any executive department, board, bureau, commission, or other agency in the executive branch of the Federal Government or any corporation wholly owned (either directly or through one or more corporations) by the United States.

(6) "Lands owned by the United States" means any lands in which the United States or any department or agency has title.

(7) "Lands controlled by the United States" means any lands not owned by the United States or a department or agency, the use of which is subject to the approval of the United States or any department or agency.

(8) "Property interest" means the title to or any other interest in land or any easement through or other interest in air space.

§ 555.2 *Purpose of regulations.* The regulations of this part apply to the acquisition by public agencies, under section 16 of the Federal Airport Act, of property interests in lands owned or controlled by the United States, the use of which is necessary either for carrying out a project under the Federal-aid Airport Program authorized by the act, or for the operation of a public airport. Section 16 of the act provides that if the Administrator determines that the use of any such lands is reasonably necessary for carrying out a project under the Federal-aid Airport Program or for operation of a public airport, he shall request the head of the department or agency having control of such lands to convey to the public agency sponsoring the project in question or owning or controlling the airport, such a property interest therein as he may deem necessary. The head of such department or agency is directed to determine whether the requested conveyance is inconsistent with the needs of the department or agency, and upon his determination that the requested conveyance is not so inconsistent is authorized and directed, with the approval of the President and the Attorney General of the United States, and without expense to the United States, to make the conveyance requested.

§ 555.3 *Requests for conveyance required.* Any public agency which desires to acquire, under section 16 of the Federal Airport Act, a property interest in lands owned or controlled by the United States, and which is eligible under § 555.4 shall file with the Administrator through the District Airport Engineer a request for conveyance as provided in §§ 555.5 and 555.6.

§ 555.4 *Public agencies eligible to file requests for conveyance.* (a) A public agency shall be eligible to file with the Administrator a request for conveyance to it of a property interest in any lands owned or controlled by the United States, only if such public agency meets the following requirements:

(1) The public agency must be a state, the Territory of Alaska, the Territory of Hawaii, or Puerto Rico, or any agency of any of them; a municipality or other political subdivision; or a tax-supported organization.

(2) The public agency must be planning to use the lands in question for or in connection with (i) the development of a public airport as a project under the Federal-aid Airport Program, or (ii) the improvement, development, or protection of an existing public airport, whether or not work in connection therewith is to be done as a project under the Federal-aid Airport Program, or (iii) the establishment or construction of a new public airport, whether or not work in connection therewith is to be done as a project under the Federal-aid Airport Program.

(3) The agency must have the legal power and authority to accept the conveyance requested; to engage in any airport development, improvement, or construction necessary to derive full benefit from the conveyance requested; to establish, operate, and maintain the proposed or existing airport; and to raise the funds necessary to accomplish the proposed development, improvement, or construction and to finance the operation and maintenance of the airport.

(4) The public agency must have sufficient funds available or be able to obtain sufficient funds, to defray the costs of any development, improvement, or construction which may be necessary to derive reasonable benefit from the conveyance requested, and to operate and maintain the proposed or existing airport.

(5) The public agency must not be in default on any obligation to the Government relative to the development, operation, or maintenance of an airport.

§ 555.5 *Form and content of requests for conveyance.* (a) No special form is required for a request for conveyance under the regulations of this part. However, sufficient facts must be given in order to enable the Administrator to determine that the public agency making the request is eligible to do so, that the use of the lands requested is reasonably necessary for carrying out a project under the Federal-aid Airport Program or for the operation of a public airport, and what property interest therein will be required to accomplish such purpose.

(b) In any event, each public agency filing a request for conveyance must submit with its request, or furnish as soon thereafter as possible, the following information if applicable and available or procurable, together with any further information that may be requested by the Administrator:

(1) Name and address of the public agency requesting the conveyance.

(2) Name, location, and ownership of the subject airport. If the airport is not in existence, the proposed name, the approved location, and the prospective ownership of the airport should be indicated. If the airport is in existence and is being operated under a lease or agreement from the requesting public agency, a copy of such lease or agreement should be submitted.

(3) Statement of the legal power and authority, and financial ability of the requesting public agency to develop, improve, construct, establish, operate, and maintain the subject airport.

(4) Name of the Federal agency owning or having control of the lands requested.

(5) Legal description and acreage of the lands requested.

(6) Description of the specific property interest (title, a leasehold estate, an easement, a permit or license, or an easement or other interest in air space) necessary to meet the needs of the requesting public agency.

(7) Complete justification of the need for acquisition of the property interest in question, supported by such maps, charts, photographs, or documents as may be necessary to show the necessity for the use of the lands requested. If the use of other lands might be suitable to meet the needs of the requesting agency, the particular advantages of the Federally owned lands over such other suitable lands should be explained.

(8) A statement as to the plans and commitments which have been made concerning the financing or accomplishment of any development, improvement, or construction requiring the use of the lands or the property interest requested. An estimated date at which the use of the subject lands or interest will be required should be stated.

(9) The status of any project for the development of the subject airport under the Federal-aid Airport Program.

(c) Each request for conveyance shall state that the requesting public agency has the legal power and authority to accept a conveyance subject to covenants and conditions such as those contemplated by § 555.11.

(d) Each request shall be signed and verified by an officer of the requesting public agency duly authorized and designated to file such request for and on behalf of the requesting public agency.

§ 555.6 *Place of filing requests for conveyance.* A request for conveyance of a property interest in lands owned or controlled by the United States must be filed in quadruplicate with the District Airport Engineer for the area in which such lands are located.

§ 555.7 *Findings and recommendations of the Regional Administrator.* The Regional Administrator will consider each request for conveyance and forward such request with his findings and recommendations to the Administrator.

§ 555.8 *Determination by the Administrator.* The Administrator will review each request for conveyance together with the findings and recommendations of the Regional Administrator and will determine whether or not the requesting public agency is eligible, and a conveyance is proper, under section 16 of the act and the regulations of this part. In the event such determination is in the affirmative, the Administrator will request the head of the department or agency having control of the lands in question to convey to the requesting public agency such a property interest in the lands as he may deem necessary. In all cases, it will be requested that the conveyance be made without consideration other than the benefits to accrue to the public and the United States by virtue of the use of the lands for public airport purposes. In addition, the Administrator will request that the instrument of conveyance include certain covenants and clauses as provided in § 555.11.

§ 555.9 *Determination by the head of the controlling department or agency.* The act provides that the head of any department or agency having control of lands owned or controlled by the United States, upon receipt of a request from the Administrator that an interest in such lands be conveyed to a public agency for airport purposes, shall determine whether the requested conveyance is inconsistent with the needs of the department or agency and shall notify the Administrator of his determination within a period of four months after receipt of the Administrator's request.

§ 555.10 *Conveyances.* The Act provides that if the head of a department or agency determines that a requested conveyance is not inconsistent with the needs of that department or agency, such department or agency head is authorized and directed, with the approval of the President and the Attorney General of the United States, and without any expense to the United States, to perform any acts and to execute any instruments necessary to make the conveyance requested.

§ 555.11 *Covenants, reservation clause, and reverter clause in instruments of conveyance.* (a) The Administrator, in a request to the head of a department or agency for the conveyance of a described property interest in lands owned or controlled by the United States, will request that the instrument of conveyance contain certain covenants, a clause reserving fissionable materials to the United States, and a reverter clause, as follows:

(1) *Covenants.* The Administrator will request the inclusion in an instrument of conveyance of such covenants as he may deem necessary in the specific case involved to assure operation as a public airport of the airport benefited by the use of the lands in question, and in addition, a covenant that any subsequent transfer of the property interest conveyed shall be subject to all of the covenants, conditions, and limitations contained in the said instrument of conveyance. In the event that the airport is to be entirely or in substantial part developed or established on the lands in question, the Administrator will request inclusion in the instrument of conveyance of all covenants which the grantee would be obliged to enter into as the sponsor of a project in the Federal-aid Airport Program if the airport were to be developed under that program.

(2) *Clause reserving fissionable materials.* The Administrator, pursuant to Executive order of the President 9701, dated March 4, 1946 (11 F. R. 2369), will request the inclusion in an instrument of conveyance of a clause reserving to the United States all fissionable materials in the lands in question, together with the right, at any and all times, upon reasonable notice, to enter upon the

lands and prospect for, mine, and remove such materials.

(3) *Reverter clause.* The Administrator will request that the instrument of conveyance include a provision that the conveyance is made on the condition that the property interest conveyed shall automatically revert to the United States, if the Administrator determines that the proposed items of airport development, improvement, or construction are not commenced within a reasonable period of time or that such proposed items of development, improvement, or construction are not diligently prosecuted to completion, or that the lands in question have ceased to be used, or have ceased to be necessary for use, in connection with airport purposes.

This part shall become effective upon publication in the FEDERAL REGISTER.

[SEAL] T. P. WRIGHT,
Administrator of Civil Aeronautics.

[P. R. Doc. 47-200; Filed, Jan. 8, 1947; 8:47 a. m.]

PART 560—CLAIMS FOR REIMBURSEMENT FOR REHABILITATION OR REPAIR OF PUBLIC AIRPORTS DAMAGED BY FEDERAL AGENCIES

The purpose of this part of the regulations of the Administrator of Civil Aeronautics is to establish standards and outline procedures which will enable public agencies to file claims for reimbursement of the cost of necessary rehabilitation or repair of public airports, under the control or management of such public agencies, substantially damaged by any Federal agency. The basis for this part is found in section 17 of the Federal Airport Act (60 Stat. 170; Pub. Law No. 377, 79th Cong.) pursuant to which the Administrator is instructed to prescribe regulations in accordance with which (regulations) he is authorized, on behalf of the United States, to consider, ascertain, adjust and determine such claims, and to certify to Congress as a claim against the United States such amount as he may find to be due to any claimant.

It appearing that this part in its proposed form was submitted to and discussed with interested parties and organizations at a public hearing held for that purpose, notice of which (hearing) was published in the FEDERAL REGISTER (11 F. R. 12221); interested parties and organizations were given an opportunity to present their views at that hearing and to file briefs and memoranda subsequent thereto; all such views, briefs, and memoranda were considered in the final preparation of this part which, in its present form as compared to its proposed form discussed at public hearing, contains changes of only a minor nature which will not impose any burdens upon interested parties and organizations; the parties and organizations affected by this part will be greatly benefitted by its being made effective without delay; in view of the foregoing, sufficient notice and public procedure have been afforded to interested parties and organizations, and further notice or public procedure would serve no useful purpose; and that any further notice and proceedings would serve only to delay the issuance of this part of the regulations of the Administrator which it is in the public interest and benefit to adopt at this time.

And finding that further notice and public procedure provided for in sections 4 (a) and (b) of the Administrative Procedure Act is unnecessary with respect to this part; and that good cause exists to declare this part effective immediately pursuant to section 4 (c) of that act.

Now therefore, acting pursuant to the authority vested in me by section 17 of the Federal Airport Act (60 Stat. 170; Pub. Law No. 377, 79th Cong.) I hereby adopt a new part, Part 560, of the regulations of the Administrator of Civil Aeronautics to read as follows:

Sec.
560.1 Definitions.
560.2 Purpose of regulations.
560.3 Eligible claims.
560.4 Eligible claimants.
560.5 Eligible airports.
560.6 Time limitations.
560.7 Eligible rehabilitation or repair.
560.8 Amount of reimbursement.
560.9 Claims filed with other Federal agencies.
560.10 Form and content of claims.
560.11 Filing of claims.
560.12 Consideration and determination of claims.
560.13 Certification of claims to Congress.
560.14 Penalties.

AUTHORITY: §§ 560.1 to 560.14, inclusive, issued under sec. 17, Pub. Law No. 377, 79th Cong., 60 Stat. 170.

§ 560.1 *Definitions.* (a) All terms used in this part which are defined in the Federal Airport Act and are not defined in paragraph (b) of this section shall have the meaning given to them in the act.

(b) As used in this part, unless the context otherwise requires, the following terms shall have the meaning indicated:

(1) "CAA" means the Civil Aeronautics Administration of the United States Department of Commerce.

(2) "Administrator" means the Administrator of Civil Aeronautics or his duly authorized representative.

(3) "Regional Administrator" means the directing head of a regional office of the CAA or his duly authorized representative.

(4) "District Airport Engineer" means the directing head of a district office of the airports branch of a CAA regional office or his duly authorized representative.

(5) "Federal agency" means any executive department, board, bureau, commission, or other agency in the executive branch of the Government of the United States, or any corporation wholly owned (either directly or indirectly through one or more corporations) by the United States.

(6) "Claimant" means a public agency which files with the Administrator a claim for reimbursement for the rehabilitation or repair of a public airport pursuant to section 17 of the Federal Airport Act.

(7) "Damaged area" means any airport area where damage has occurred, for the repair or rehabilitation of which reimbursement is claimed under the regulations of this part.

(8) "Damaged facility" means any airport building or other airport facility which has suffered damage, for the repair or rehabilitation of which reimbursement is claimed under the regulations of this part.

(9) "Rehabilitation or repair" means any repair, restoration, or reconstruction of a damaged area or damaged facility either to its condition prior to damage or to a better condition and any construction or improvement of an airport area or facility replacing or supplementing a damaged area or damaged facility.

(10) "Reimbursement" means the payment of money to a claimant for sums expended by it or on its behalf for rehabilitation or repair.

§ 560.2 *Purpose of regulations.* The regulations of this part apply to claims for reimbursement under section 17 of the Federal Airport Act for the necessary rehabilitation or repair of public airports substantially damaged by Federal agencies. That section authorizes the Administrator to consider, ascertain, adjust, and determine, in accordance with regulations prescribed by him, any claim submitted by any public agency for reimbursement of the cost of necessary rehabilitation or repair of a public airport, under the control or management of such public agency, substantially damaged by any Federal agency, and to certify to Congress as a claim against the United States such amount as he may find to be due to any claimant. Section 17 further authorizes appropriations for the payment of claims so certified to Congress.

§ 560.3 *Eligible claims.* No claim made under the regulations of this part will be certified by the Administrator to Congress for payment in whole or in part unless such claim is eligible as provided herein. In order to be eligible, a claim (a) must be filed by an eligible claimant (see § 560.4); (b) must cover damage to an eligible airport (see § 560.5); (c) must be filed within certain time limitations (see § 560.6); and (d) must cover eligible rehabilitation or repair (see § 560.7).

§ 560.4 *Eligible claimants.* To be eligible to file a claim, a claimant must meet the following requirements:

(a) The claimant must be a state, the Territory of Alaska, the Territory of Hawaii, or Puerto Rico, or an agency of any of them; a municipality or other political subdivision; or a tax-supported organization;

(b) The claimant must have control or management of the airport to which the claim relates at the time of filing the claim.

§ 560.5 *Eligible airports.* (a) To be eligible as the subject of a claim, an airport must meet the following requirements:

(1) The airport must be located in the continental United States, the Territory of Alaska, the Territory of Hawaii, or Puerto Rico;

(2) The landing area of the airport must be owned by a public agency at the time the claim is filed and must have been owned by a public agency at the time the damage occurred;

(3) The airport must be used, or intended to be used, by and for the benefit of the public at the time the claim is filed, must be under the control of a public agency at such time, and must have been used for public purposes, under the control of a public agency, at the time the damage occurred; and

(4) If the airport was damaged while owned by the United States or a Federal agency, the nucleus of such airport must have been owned by a non-Federal public agency, and used for airport purposes, prior to its acquisition by the United States or by a Federal agency.

(b) To meet the requirements of paragraph (a) of this section, it is not necessary that the public agency controlling an airport be the public agency owning its landing area, or that the public agency controlling an airport, or owning its landing area, at the time a claim is filed, be the public agency which controlled the airport, or owned the landing area, at the time the damage occurred.

(c) If an airport is operated by a private person or concern under a lease or contract from a public agency, such airport will be regarded as "used by and for the benefit of the public" and "under the control of a public agency", as required by paragraph (a) (3) of this section, if the airport is being so used and the lease or contract reserves to the public agency sufficient control over the manner in which the airport is operated to permit such public agency to compel its operation for the use and benefit of the public.

§ 560.6 *Time limitations.* (a) A claim may be filed before, during, or after the accomplishment of the rehabilitation or repair for which reimbursement is claimed. However, if the rehabilitation or repair has not been accomplished at the time a claim is filed, and if such claim is certified to the Congress for payment, the Administrator will recommend to the Congress, as provided in § 560.13 (b), that payments be made only after the repair or rehabilitation has been accomplished and paid for.

(b) No claim will be considered by the Administrator unless such claim is filed within six months after the occurrence of the damage upon which the claim is based: *Provided, however,* That in the event the damage was caused by operations of a military nature during time of war, such notice may be filed within sixty days after the date of termination of the war.

(c) The Administrator will consider a claim based upon damage which occurred prior to approval of the act: *Provided,* That the foregoing time limitations are complied with.

§ 560.7 *Eligible rehabilitation and repair.* Reimbursement for proposed or completed rehabilitation or repair included in an eligible claim will be recommended by the Administrator to Congress only if and to the extent that such rehabilitation or repair is eligible for reimbursement as provided herein. In order to be eligible, such rehabilitation or repair must meet all of the following requirements, in the opinion of the Administrator:

(a) The rehabilitation or repair must be, or have been, necessary to remedy substantial damage to an eligible airport caused or permitted by a Federal agency;

(b) The rehabilitation or repair must be, or have been, for the purpose of remedying damage to an area or facility which was owned by the claimant or other non-Federal public agency at the time the damage occurred, unless the area or facility was owned by the United States or a Federal agency at that time, in which case the area or facility must have been owned by the claimant or other non-Federal public agency prior to its acquisition by the United States or a Federal agency;

(c) The rehabilitation or repair must have, or have had, as its principal abject the remedying of damage for which the claimant, the airport owner, or any other person or agency has never been adequately compensated, reimbursed, or recompensed by the United States or any Federal agency; and

(d) The circumstances must be such that reimbursement would be in the public interest.

§ 560.8 *Amount of reimbursement.* In certifying an eligible claim to Congress, the Administrator will recommend that the claimant be reimbursed for eligible rehabilitation or repair in such amount as he determines to be due as reimbursement for sums expended in payment of costs incurred by the claimant in accomplishing such rehabilitation or repair. In determining the amount due with respect to any particular item of eligible rehabilitation or repair, the Administrator will be guided by the following principles:

(a) If the damage occurred while the airport was in the possession or control of the United States or a Federal agency, reimbursement should be made in an amount equal to the reasonable and necessary cost of restoring the damaged area or damaged facility to a condition equivalent to its condition on the date the United States or the Federal agency took possession or assumed control of the airport;

(b) If the damage occurred while the airport was not in the possession or control of the United States or a Federal agency, reimbursement should be made in an amount equal to the reasonable and necessary cost of restoring the damaged area or damaged facility to a condition equivalent to its condition immediately prior to such damage;

(c) The principles stated in paragraphs (a) and (b) of this section should apply whether the damaged area or damaged facility is actually restored to its condition at the time specified or the rehabilitation or repair results in the construction or improvement of a new area or facility or the improvement of the damaged area or damaged facility to a condition better than its condition at the time specified in paragraph (a) or (b) of this section, whichever is applicable, or is accomplished in accordance with higher standards of airport construction than the original construction.

§ 560.9 *Claims filed with other Federal agencies.* A claim may be filed under the regulations of this part notwithstanding that the claimant has filed prior thereto a claim with the Federal agency which is directly responsible for the damage. In such cases, however, the claimant must notify the Administrator as to the basis for, and current status of, the prior claim.

§ 560.10 *Form and content of claims.* (a) No particular form is required for a claim under the regulations of this part. However, each claimant must submit with its claim, or furnish as soon thereafter as possible, as supplementary information, any information necessary to support and prove the claim, including the following, if applicable and available or procurable:

(1) Name and address of claimant.

(2) Name and location of airport.

(3) Ownership of airport at time of filing claim; if claimant or another public agency is operating the airport under a lease, permit, license, or agreement from another public agency, copies of such instrument must be submitted; if a lessee or assignee of the claimant or another public agency is operating the airport, copies of the operating lease or agreement must be submitted.

(4) Extent to which the airport has ever been operated other than for the use and benefit of the public.

(5) Name of Federal agency causing or permitting the damage.

(6) Date or period when damage occurred.

(7) Ownership of airport, damaged areas, and damaged facilities at time damage occurred; if a Federal agency was at that time in possession under a lease or agreement with the claimant or another non-Federal public agency, copies of such documents must be submitted.

(8) Type, extent, and period of operation of the airport by a Federal agency.

(9) Specific cause of the damage.

(10) Extent to which the damage was covered by insurance.

(11) Nature and extent of the damage, illustrated by maps, plans, or photographs.

(12) Nature and current status of any claim filed with a Federal agency, or any litigation arising out of or in connection with the subject damage; copies of any such claim, or the pleading in any such litigation, must be submitted.

(13) Itemized list of all rehabilitation or repair work accomplished, with breakdown of such work by items and cost; vouchers or other evidence of payments made must be submitted, together with maps, photographs, and other pertinent material.

(14) Itemized list of all proposed rehabilitation or repair considered necessary, with an estimate of cost of each item; all available plans or specifications for such work should be submitted.

(b) In addition, each claim must be accompanied by evidence that the public agency controlling the airport has granted authority to the District Airport Engineer or other representatives of the Administrator to inspect the airport and the damaged areas and damaged facilities, to interview representatives of the claimant and the airport owner, and to examine airport records and documents, as may be deemed necessary by such representatives of the Administrator.

(c) Each claim shall be signed and verified by an officer of the claimant duly authorized and designated to file such claim for and on behalf of the claimant.

§ 560.11 *Filing of claims.* All claims shall be submitted to the appropriate District Airport Engineer in quadruplicate. The date of receipt of a claim by the District Airport Engineer will be considered the date on which such claim was filed with the Administrator.

§ 560.12 *Consideration and determination of claims*—(a) *Consideration by Regional Administrator.* Upon receipt of a claim, the Regional Administrator may request claimant to submit within a reasonable time such additional information or evidence as he may deem necessary. After consideration by him, the Regional Administrator will forward the claim with his findings and recommendations to the Administrator.

(b) *Determination by the Administrator.* The Administrator will consider, ascertain, adjust, and determine each claim submitted. The claimant will be notified in writing of the Administrator's determination of its claim.

§ 560.13 *Certification of claims to Congress.* (a) The Administrator will certify to the Congress as a claim against the United States such amount as he determines to be due any claimant. The certification will include a brief statement of the character of the claim, the amount of the claim, and the amount certified.

(b) If the claim is for completed rehabilitation or repair, the Administrator will recommend that the claimant be paid such amount as is found to be due. If the claim is for proposed rehabilitation or repair in whole or in part, the Administrator will recommend to the Congress that the amount certified be appropriated to the Administrator for disbursement to the claimant as provided herein. Payments from any such fund will be made to the claimant only when eligible rehabilitation or repair has been accomplished and paid for. Upon application by the claimant, progress payments may, in the discretion of the Administrator, be made from such fund as the rehabilitation or repair progresses and is paid for. Each such application shall be submitted to the District Airport Engineer in quadruplicate.

§ 560.14 *Penalties.* Section 80 of Title 18 of the United States Code provides that persons presenting false or fraudulent claims to the United States Government or its officials may be fined not more than $10,000 or imprisoned not more than ten years, or both.

This part shall become effective upon publication in the FEDERAL REGISTER.

[SEAL] T. P. WRIGHT,
Administrator of Civil Aeronautics.

[F. R. Doc. 47-201; Filed, Jan. 8, 1947; 8:47 a. m.]

TITLE 30—MINERAL RESOURCES

Chapter VI—Solid Fuels Administration for War, Department of the Interior

PART 602—GENERAL ORDERS AND DIRECTIVES

STATEMENT OF POLICY RELATING TO DIRECTIONS BY SFAW FOR SHIPMENT OF COAL ON THE GOVERNMENT'S EXPORT PROGRAM COMMENCING JANUARY 1, 1947

UNRRA, through the State Department, and the liberated areas of Europe, through the Reconstruction Finance Corporation, have made arrangements for the purchase of a portion of their coal requirements through the facilities of the Bureau of Federal Supply, United States Treasury Department, at prices not in excess of the maximum prices in effect on November 9, 1946.

The Solid Fuels Administration for War will receive offers, each month, as hereinafter provided, from any person who has or will have surplus coal available, and in filling the allocations under this program, will direct shipments to the extent of the tonnage required only of the best coals offered.

Each direction issued by SFAW will, among other things, specify the period within which the authorized shipments must be made, and will set forth the offered price, which the offerer has represented to be not in excess of the maximum price in effect on November 9, 1946.

No change of or departure from the terms of any direction may be made, except upon written approval of the Washington Office of SFAW.

The furnishing of any false or misleading information in connection with the submission of any offer, or the shipment of coal found not to be in substantial conformity with representations made, may result in the immediate cancellation of any unfilled portions of the direction, the rejection of the shipment before dumping into vessels, the withholding of any future directions, and the imposition of such civil and criminal liabilities as may be provided by law.

Offers which have heretofore been received for shipment during January 1947 will be considered in the light of this Statement of Policy, and directions will be issued in accordance herewith, unless such offers shall be withdrawn. Offers for shipment during February 1947, and thereafter, must be submitted on or before the 20th day of the month preceding the month in which shipments will be made, in duplicate, to the SFAW Area Distribution Manager for the area in which the offered coal will be produced, except that in the case of coal produced in Districts 7, 12, 16, 17, 18, 19, 20, 22 and 23, the filings shall be made with the Solid Fuels Administration for War, Washington 25, D. C.

Any offer submited will be given consideration only if it is accompanied by the following information:

1. Name and address of the person offering the coal for export.
2. The tonnage, by sizes, by mines and by district of origin, of the coal offered.
3. The following information with respect to each mine at which the coal to be supplied will be produced.
   (a) Name and address of producer.
   (b) Name, mine index number and location of mine, the number of the producing district in which it is located, and the name of the railroad, if any, on which it is located.
   (c) Name of seam.
   (d) Is mine a deep or strip mine?
   (e) Is mine a truck-rail or rail mine?
   (f) Is mine equipped with screening facilities?
   (g) What was the effective maximum f. o. b. mine price on November 9, 1946, of the coal offered?
   (h) What is the price at which the offer is made?
   (i) What are the freight rates from mine to loading ports?
   (j) Estimated monthly production of each mine at which the offered coal will be produced.
   (k) A proximate analysis (moisture, volatile matter, fixed carbon, ash, sulphur, B. t. u., coke index number) representative of the coal that will be supplied, as loaded into transportation facilities at the mine.
   (l) The rate at which shipments will be made if the authorization is granted.

This Statement of Policy, effective forthwith, supersedes Statements of Policy issued by SFAW on June 24, 1946, July 12, 1946 and December 11, 1946 (11 F. R. 7128; 11 F. R. 7739; 11 F. R. 14310).

(Sec. 2 (a), 54 Stat. 676, 55 Stat. 236, 56 Stat. 176, 58 Stat. 827, 59 Stat. 658, 60 Stat. 345, Pub. Law 475, 79th Cong.; 41 U. S. C. prec. 1; 50 U. S. C. App. Supp. 1152 (a), 1162, 633, 645; E. O. 9125, Apr. 7, 1942, 7 F. R. 2719; E. O. 9332, Apr. 19, 1943, 8 F. R. 5355)

Issued this 3d day of January 1947.

DAN H. WHEELER,
Deputy Solid Fuels Administrator for War.

TITLE 31—MONEY AND FINANCE: TREASURY

Chapter II—Fiscal Service, Department of the Treasury

PART 280—REGULATIONS FOR THE ADMINISTRATION OF FOREIGN CURRENCIES AND CREDITS UNDER DISPOSITIONS OF SURPLUS PROPERTY ABROAD AND LEND-LEASE SETTLEMENTS

Correction

In Federal Register Document 46-21950, appearing on page 14687 of the issue for Friday, December 27, 1946, the following corrections are made:

1. In § 280.1 the reference "section 32 (b) (2) of the Surplus Property Act of 1944" should read "section 32 (b) (1) of the Surplus Property Act of 1944".

2. In § 280.5 (b) the reference "section 32 (b) (1) of the Surplus Property Act of 1944" should read "section 32 (b) (2) of the Surplus Property Act of 1944".

TITLE 32—NATIONAL DEFENSE

Chapter VI—Selective Service System

[Amdt. 416]

PART 602—SELECTIVE SERVICE PERSONNEL

UNCOMPENSATED SERVICES

Pursuant to authority contained in the Selective Training and Service Act of 1940, as amended, Selective Service Regulations, Second Edition, are hereby amended in the following respect:

Amend § 602.3 to read as follows:

§ 602.3 *Uncompensated services.* The services of registrars, members of local boards, members of boards of appeal, members of medical advisory boards, government appeal agents and associate government appeal agents, examining physicians, reemployment committeemen, interpreters, and all other persons volunteering their services to assist in the administration of the selective service law shall be uncompensated, and no such person shall accept remuneration from any source for services rendered in connection with selective service matters.

The foregoing amendment to the Selective Service Regulations shall be effective within the continental United States immediately upon the filing hereof with the Division of the Federal Register and shall be effective outside the continental limits of the United States on the 30th day after the date of filing hereof with the Division of the Federal Register.

(54 Stat. 885, 55 Stat. 627, 844, 56 Stat. 1018, 59 Stat. 166; 50 U. S. C. App. Sup. 302 et seq.)

LEWIS B. HERSHEY,
Director.

JANUARY 3, 1947.

[F. R. Doc. 47-204; Filed, Jan. 8, 1947; 8:46 a. m.]

[Amdt. 417]

PART 603—SELECTIVE SERVICE OFFICERS

COMPOSITION AND APPOINTMENT

Pursuant to authority contained in the Selective Training and Service Act of 1940, as amended, Selective Service Regulations, Second Edition, are hereby amended in the following respect:

Amend § 603.22 to read as follows:

§ 603.22 *Composition and appointment.* For each board of appeal area, a board of appeal, normally of five members, shall be appointed by the President, upon recommendation of the Governor. The members shall be male citizens of the United States who are not members of the land or naval forces; they shall be residents of the State in which their board is appointed; and they should be at least 38 years old. The board of appeal should be a composite board, representative of all activities of its district, and as such should include one member from labor, one member from industry, one physician, one lawyer, and, where applicable, one member from agriculture. If the number of appeals sent to one board becomes too great for the board to handle without undue delay, additional groups of five members similarly constituted shall be appointed to the board by the President, upon recommendation of the Governor. Each such group shall have full authority to act for the board on all cases assigned to it by the board. Each group shall act separately. An additional member to supervise and coordinate the work of all the groups of a board of appeal may be appointed by the President, upon recommendation of the Governor.

The foregoing amendment to the Selective Service Regulations shall be effective within the continental United States immediately upon the filing hereof with the Division of the Federal Register and shall be effective outside the continental limits of the United States on the 30th day after the date of filing hereof with the Division of the Federal Register.

(54 Stat. 885, 55 Stat. 627, 844, 56 Stat. 1018, 59 Stat. 166; 50 U. S. C. App. Sup. 302 et seq.)

LEWIS B. HERSHEY,
Director.

JANUARY 3, 1947.

[F. R. Doc. 47-205; Filed, Jan. 8, 1947; 8:46 a. m.]

[Amdt. 418]

PART 603—SELECTIVE SERVICE OFFICERS

MISCELLANEOUS AMENDMENTS

Pursuant to authority contained in the Selective Training and Service Act of 1940, as amended, Selective Service Regulations, Second Edition, are hereby amended in the following respect:

1. Amend the regulations by deleting § 603.41 *Composition, appointment, and duties,* in its entirety.

2. Amend § 603.61 to read as follows:

§ 603.61 *Examining physicians.* The President may appoint, from qualified persons recommended by the Governor, an examining physician, and such additional examining physicians, for each local board as he deems necessary for the examination of the registrants of such local board. Where the Director of Selective Service has designated two or more local boards as a local board group, the State Director of Selective Service may authorize, from the examining physicians appointed for the local boards within such local board group, one examining physician, and, if he deems it necessary, one additional examining physician, to examine the registrants of all the local boards within such local board group. The local board examining physician shall make such examinations in connection with the Veterans' Assistance Program as the local board or local group may request. The State Director of Selective Service may authorize any duly appointed examining physician to examine registrants for any local board within the State.

3. Amend the regulations by deleting § 603.62 *Examining dentists* in its entirety.

4. Amend § 603.63 to read as follows:

§ 603.63 *Disqualification.* No examining physician shall examine for a local board any registrant who is his first cousin or a closer relation, either by blood or marriage, or who is an employee or employer, or stands in relation of superior or subordinate in connection with any employment, or is a partner or close business associate of such examining physician.

The foregoing amendments to the Selective Service Regulations shall be effective within the continental United States immediately upon the filing hereof with the Division of the Federal Register and shall be effective outside the continental limits of the United States on the 30th day after the date of filing hereof with the Division of the Federal Register.

(54 Stat. 885; 55 Stat. 627, 844; 56 Stat. 1018; 59 Stat. 166; 50 U. S. C. App. Sup. 302 et seq.)

LEWIS B. HERSHEY,
Director.

Chapter VIII—Office of International Trade, Department of Commerce

Subchapter B—Export Control

[Amdt. 286]

PART 801—GENERAL REGULATIONS

PROHIBITED EXPORTATIONS

Section 801.2 *Prohibited exportations* is amended as follows:

The list of commodities set forth in paragraph (b) is amended by deleting therefrom the following commodities:

Dept. of Com. Sched. B No.	*Commodity*
	Rubber (natural, allied, gums, and synthetic) and manufactures:
	Automobile casings (include retreaded tires and used casings, averaging $2.00 and over each) (report used casings averaging less than $2.00 each in 201200):
206000	Truck and bus casings.
206300	Automobile inner tubes (truck and bus included).
	Other casings and inner tubes:
206400	Earthmover.
206400	Excavator.
206400	Grader.
206400	Off-the-road.
206400	Tractor.

(Sec. 6, 54 Stat. 714; 55 Stat. 206; 56 Stat. 463; 58 Stat. 671; 59 Stat. 270; 60 Stat. 215; 50 U. S. C. App. Sup. 701, 702; E. O. 9630, Sept. 27, 1945, 10 F. R. 12245)

Dated: January 3, 1947.

FRANCIS MCINTYRE,
Deputy Director for Export Control, Commodities Branch.

[Amdt. No. 287]

PART 801—GENERAL REGULATIONS

PROHIBITED EXPORTATIONS

Section 801.2 *Prohibited exportations* is amended as follows:

The list of commodities set forth in paragraph (b) is amended by deleting therefrom the following commodities:

Dept. of Comm. Sched. B No.	*Commodity*
	Cotton manufactures:
	Cotton cloth (gray), medium and coarse yarn fabrics:
303310	Wider than 40": Drills, twills and warp sateens; tent twill only.
303900	Gray cloth, n. e. s. except broadcloth, canton flannel, cotton and rayon fabric, crepe, dimity, flannel and flannelette, lawn, mitten flannel, napped fabrics, oxford, pique, pocketing twill, poplin, sateen, typewriter ribbon cloth over 12 inches wide, and voile.
	Finished cloth, bleached, dyed, printed, stiffened, or otherwise converted, and other colored yarns fabrics:
	Printcloth yarn fabrics (all widths):
	Printcloth:
305110	Bleached; bunting, treated bunting, and tag cloth only.
305210	Dyed in the piece; bunting and treated bunting only.
305220	Printed; bunting and treated bunting only.
	Napped fabrics:
305590	Other napped fabrics in the piece (report cotton flannels, bleached or colored in 305510).
	Colored yarn fabrics:
306100	Colored yarn fabrics, n. e. s. except La Fuente Chambray, seersucker, mattress ticking, silesia and plisse gingham.
	Fine goods and combed cotton fabrics (bleached, dyed, printed, flockdot or clipped):
307300	Marquisettes, combed.
307400	Combed and carded goods, n. e. s. except broadcloth, diaper cloth, dimity, lawn, oxford and oxford shirtings, pique, poplin, sateen, seersucker, shoe buckram, suiting, and typewriter ribbon cloth bleached, over 12 inches wide.
307600	Cotton and wool mixtures (cotton chief value, not less than 80% cotton by weight).
	Other cotton fabrics:
308200	Table damask in the piece.
308400	Tapestry and other upholstery and drapery materials, plain, Jacquard and dobby-woven.
308700	Plush.
308800	Other pile fabrics except corduroy, terry cloth and terry toweling.
308950	Cotton remnants and fabrics, n. e. s. sold by the pound of 2 yds. and over but less than 10 yds. in length.
	Cotton wearing apparel:
309300	Handkerchiefs.
	Garments of woven fabrics:
311300	Men's and boys' jackets and windbreakers.
311400	Overalls, breeches, pants, aprons, and men's work clothing, n. e. s. (report shirts in 311710).
311500	Nightwear, men's and boys'.
311610	Underwear, men's and boys'.
311720	Shirts, men's and boys', except dress shirts (report work shirts in 311710).
312000	Clothing, men's and boys' of woven fabrics, n. e. s.
312200	Women's dresses and ensembles (include eyelet, velveteen and lace) (one-, two- and three-piece as one unit).
312400	Women's and children's underwear and nightwear, not knit, except diapers.
312700	Children's outerwear, not knit.
312900	Women's apparel of woven fabrics, n. e. s. (include blouses, skirts, bathrobes, uniforms and washable apparel, n. e. s.).

(Sec. 6, 54 Stat. 714; 55 Stat. 206; 56 Stat. 463; 58 Stat. 671; 59 Stat. 270; 60 Stat. 215; 50 U. S. C. App. Sup. 701, 702; E. O. 9630, September 27, 1945, 10 F. R. 12245)

Chapter IX—Office of Temporary Controls, Civilian Production Administration

AUTHORITY: Regulations in this chapter unless otherwise noted at the end of documents affected, issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236, 56 Stat. 177, 58 Stat. 827, and Public Laws 270 and 475, 79th Congress; Public Law 388, 79th Congress; E. O. 9024, 7 F. R. 329; E. O. 9040, 7 F. R. 527; E. O. 9125, 7 F. R. 2719; E. O. 9599, 10 F. R. 10155; E. O. 9638, 10 F. R. 12591; C. P. A. Reg. 1, Nov. 5, 1945, 10 F. R. 13714; Housing Expediter's Priorities Order 1, Aug. 27, 1946, 11 F. R. 9507; E. O. 9809, Dec. 12, 1946, 11 F. R. 14281; OTC Reg. 1, 11 F. R. 14311.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 28, as Amended Jan. 8, 1947]

RESTRICTED PRIORITIES ASSISTANCE

§ 944.49 *Priorities Regulation 28*—(a) *Purpose of this regulation.* This regulation describes the very limited scope of priorities assistance which will be granted in the future. It is designed to cover only the brief period of time which is expected to exist before all such priorities assistance will end.

In line with the announced policy of restoring normal buyer-seller relations as soon as possible, the issuance of CC ratings will be limited to cases of non-deferrable need for the military services, cases in connection with the Veterans' Emergency Housing Program, cases of public emergency and a few other exceptional situations mentioned below. CC ratings will no longer be granted for production materials, MRO, capital equipment or construction materials or equipment for the purpose of starting or maintaining any individual plant or business at a minimum economic rate, or to alleviate individual hardship. In addition, general priorities assistance will no longer be given to manufacturers of those products which were formerly listed as critical on Schedule I to this regulation, which has been revoked. CC ratings for export will be granted under this regulation only in rare cases falling under the rules explained in paragraph (d).

In view of the revised terms of the regulation itself drastically curtailing the assignment of CC ratings for all materials, most of the former directions to this regulation which contained similarly restrictive provisions for certain materials, have been revoked as no longer necessary. Provisions in directions which imposed a limit on the quantity of CC rated orders for certain materials which a supplier had to schedule for shipment are in paragraph (e). The directions still in effect are listed at the end of this regulation.

Priorities Regulation 28A, under which special assistance was formerly granted for textile yarn and fabric, has also been revoked. Assistance for these materials from now on will be granted only under the very limited conditions of this regulation.

(b) *Exceptional cases when CC ratings may be assigned.* (1) If all the conditions of paragraph (b) (2) below are met, CC ratings may be granted in the following limited cases:

(i) Where an item is needed to fill a military order which cannot be deferred without serious results to the defense program or to the health and welfare of the enlisted personnel (In this case a certification from the responsible military agencies recommending the issuance of a CC rating is required); or

(ii) Where an item is needed to provide essential utility services or, in an emergency, to eliminate serious hazard to the life, health or safety of a large number of people; or

(iii) Where an item is required in connection with the Veterans' Emergency Housing Program under the following conditions (no ratings will be issued for the purchase of specialized machinery or for an item to be incorporated in construction):

I. To maintain or increase the production of a building material or product which is determined to be in critically short supply; or

II. For capital equipment (except for site preparation equipment) which is a bottleneck in the production or erection of housing accommodations.

(2) When effective assistance of other kinds is not practicable (CPA may locate sources able to ship without ratings), a CC rating may be granted for specific items and quantities of materials in the limited classes of cases described in paragraphs (b) (1) above, upon determination in each instance that all the following conditions are met:

(i) The use of substitute and less scarce materials is not practicable;

(ii) Reasonable efforts have been made to get the required item without a rating; and

(iii) A rating is required to obtain the item by the latest date and in the minimum quantity practicable after taking into consideration material in inventory and material available without a rating.

(c) *How to apply for a CC rating.* Applications for a CC rating under this regulation for uses in the United States, its territories and possessions should be made on Form CPA-541A addressed to the Civilian Production Administration, Washington 25, D. C., Ref: PR-28. Since CC ratings will no longer be given to support a minimum economic rate of production or to give special help to small business or the business needs of veterans, no questions on Form CPA-541A need be answered which were designed for such cases. For example, Questions 7b, 13, and 16 on Form CPA-541A (as revised 4-23-46) may be left unanswered. On the other hand, supporting data required by Item 14 is of major importance and should clearly show how the application qualifies under paragraph (b) above.

(d) *CC ratings for export*—(1) *For Canada.* In the case of materials for export to Canada applications should be filed with the Priorities Officer of Canada, Ottawa, Canada and will be handled on the same basis as United States applications.

(2) *Other exports.* In the case of other exports, upon demonstration that a rating is required CC ratings may be assigned for procurement in this country of minimum quantities of materials necessary to the restoration, development and maintenance of foreign sources of supplies vitally needed in this country; or in other exceptional cases for reasons of public policy. Applications for such ratings should be made to the Office of International Trade, Department of Commerce, Washington 25, D. C., on Form CPA-541A.

(e) *Limit on required acceptance of CC ratings for certain products.* For the products listed below CC ratings which have been assigned in the past might take an undue proportion of a producer's limited supply. To avoid this unfair impact, no manufacturer of any of these items need accept or fill a CC rated order for any such item if it would cause him to deliver on CC rated orders in any calendar month more than 50% of his total deliveries of that item in that month on all orders, both rated and unrated:

(1) The following items of textile machinery:

(i) Women's full fashioned hosiery machinery (30 and 32 section machines only).

(ii) Button sewer machine units.

(iii) Buttonhole machinery.

(iv) 36" high post sewing machines.

(2) The following items of bottling equipment for non-alcoholic beverages:

(i) Filler-Crowners, with rated capacity of 75 cases and under per hour.

(ii) Carbonators, with rated capacity of 300 gallons and under per hour.

(iii) Bottle Washers (Soakers) with rated capacity of 120 cases and under per hour.

(3) The following miscellaneous items:

(i) Cylinders for low-pressure gas (20 lb. and 100 lb. sizes only).

(f) *Existing CC ratings remain valid.* Nothing in this amendment of Priorities Regulation 28 of January 8, 1947 affects the validity of CC ratings granted before then. All orders bearing such CC ratings as well as those with CC ratings assigned under this amended regulation must be accepted and filled in accordance with the Priorities Regulations.

Issued this 8th day of January 1947.

CIVILIAN PRODUCTION ADMINISTRATION,
By J. JOSEPH WHELAN,
Recording Secretary.

DIRECTIONS TO PR-28

The following directions to PR-28 are still in effect (January 8, 1947):

Direction 6 (amended January 8, 1947) Use of CC ratings for trucks.

Direction 18 (amended November 4, 1946) CC ratings for iron castings and steel.

Direction 20 (amended January 8, 1947) Restrictions on use of ratings for equipment to establish veterans in business.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 28, Revocation of Schedule I]

CRITICAL PRODUCTS

Schedule I to Priorities Regulation 28 is revoked. This revocation does not affect any liabilities incurred for violation of this schedule or of actions taken by the Civilian Production Administration under this schedule.

Issued this 8th day of January 1947.

CIVILIAN PRODUCTION ADMINISTRATION,
By J. JOSEPH WHELAN,
Recording Secretary.

[F. R. Doc. 47-251; Filed, Jan. 8, 1947; 11:08 a. m.]

PART 944—REGULATIONS APPLICABLE TO THE OPERATIONS OF THE PRIORITIES SYSTEM

[Priorities Reg. 28, Direction 6, as Amended Jan. 8, 1947]

USE OF CC RATINGS FOR TRUCKS

The following amended direction is issued pursuant to Priorities Regulation 28:

(a) *Purpose of this direction.* The purpose of this direction is to restrict the use of CC ratings which have been assigned for new trucks. This direction no longer provides special rules for the assignment of CC ratings for trucks and the general rules in Priorities Regulation 28 as amended January 8, 1947 apply.

(b) *Definition of truck.* For the purpose of this direction "truck" means any new light, medium or heavy motor truck, truck-tractor or the chassis therefor, or any chassis on which a bus body is to be mounted and which (1) was designed to be propelled or drawn by mechanical power; (2) was designed for use on or off-the-highway, for transportation of property or persons. This definition includes vehicles of the following types: trucks, truck chassis, truck tractors, off-the-highway motor vehicles, bus chassis, carry-all suburbans, sedan deliveries and cab pickups, but does not include station wagons, coupes fitted with pickup boxes, ambulances, hearses, taxicabs and integral type busses.

NOTE: Former paragraph (c) deleted and former paragraph (d) redesignated (c) Jan. 8, 1947.

(c) *Limitation on use of CC ratings.* CC ratings may be used only to purchase new trucks from a distributor or dealer. Notwithstanding the provisions of PR-3, a distributor or dealer may not extend a CC rating.

(e) [Deleted Jan. 8, 1947.]

Issued this 8th day of January 1947.

CIVILIAN PRODUCTION ADMINISTRATION,
By J. JOSEPH WHELAN,
Recording Secretary.

PART 944—REGULATIONS APPLICABLE TO THE OPERATIONS OF THE PRIORITIES SYSTEM

[Priorities Reg. 28, Revocation of Directions 13-17, 19, 21, 23 and 24]

The following published directions to Priorities Regulation 28 are hereby revoked, since they are superseded by that regulation amended simultaneously with this revocation:

Direction 13.
Direction 14.
Direction 15.
Direction 16.
Direction 17.
Direction 19.
Direction 21.
Direction 23.
Direction 24.

These revocations do not affect any liabilities incurred for violation of these directions, or of actions taken by the Civilian Production Administration under these directions.

Issued this 8th day of January 1947.

CIVILIAN PRODUCTION ADMINISTRATION,
By J. JOSEPH WHELAN,
Recording Secretary.

[F. R. Doc. 47-249; Filed, Jan. 8, 1947; 11:06 a. m.]

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 28, Direction 20, as Amended Jan. 8, 1947]

RESTRICTION ON USE OF RATINGS FOR EQUIPMENT TO ESTABLISH VETERANS IN BUSINESS

The following amended direction is issued pursuant to Priorities Regulation 28:

(a) Under this Direction the Civilian Production Administration formerly assigned preference ratings for the assistance of veterans seeking to establish new businesses. It appears that in some cases, veterans are

being used as "fronts" by presently established firms or other persons who are not themselves eligible for rating assistance. Since in many fields available equipment is entirely inadequate to satisfy the demand, it is essential that preferential treatment accorded to veterans not be used illegitimately to obtain equipment by other persons. Consequently, this direction provides for certain special limitations on the use of ratings assigned for equipment, and on the use of equipment obtained with the ratings.

(b) *Policy on issuance of ratings.* CC ratings are no longer issued under this direction, but only under the provisions of Priorities Regulation 28 as amended January 8, 1947. CC ratings were formerly issued to veterans under this direction to obtain equipment to establish new businesses only on a showing of all the following circumstances:

(1) The veteran, or group of veterans, would actively control the business by having at least a 50% interest in the profits and by all being actively engaged in the operation of the business:

(2) The equipment would be installed in premises which the veterans (or the corporation or partnership which they control under the rule in (1) above) own or lease, or have made definite arrangements to buy or lease; and

(3) The premises where the equipment is to be installed are separate from the premises of any established business in the same line.

(c) *Restrictions on use of rating.* For CC ratings assigned under this Direction, the Civilian Production Administration 541A authorization stated that the ratings were "subject to Direction 20 to Priorities Regulation 28". Whenever a person uses such a CC rating he must state in writing on his purchase order, in addition to the certification required by Priorities Regulation 3, that the rating was assigned under Direction 20 to PR-28. In addition, no person may use a CC rating assigned under this direction to get machinery or equipment except under the conditions described in paragraph (b). Where such conditions change after the assignment or use of the CC rating, the person to whom the rating was assigned must immediately cancel any use of the rating and return his authorization to the Civilian Production Administration.

(d) *Restrictions on use of equipment.* (1) During the three months after machinery or equipment is received on a CC rating assigned under this direction, it may be used only if the conditions set forth in paragraph (b) remain valid, unless otherwise specifically authorized by the Civilian Production Administration.

(2) Any item of machinery or equipment obtained with a rating assigned under this direction may not, without specific authorization by the Civilian Production Administration, be sold or otherwise disposed of within three months after the machinery is received.

(e) *Exceptions.* Exceptions from the provisions of this direction may be granted by the Civilian Production Administration. Requests for exceptions must be by letter, in duplicate, to Special Assistance Division, Civilian Production Administration, Washington 25, D. C., describing the special circumstances of the veteran which are the basis for requesting the exception, and indicating the steps which the veteran will take to prevent the diversion of the new equipment to sources not eligible for priorities assistance.

(f) *Applicability.* This direction applies only to ratings assigned to veterans where the authorization Form CPA-541A states "subject to Direction 20 to PR-28". However, in the case of any rating assigned to a veteran before or after October 7, 1946, where a supplier believes that the conditions of paragraph (b) do not apply, he may delay filling the rated order provided that he promptly notifies his customer of his action, and notifies the Civilian Production Administration (Ref: Special Assistance Division) of the facts on which he bases his belief. The Civilian Production Administration will take appropriate action either by cancelling the rating (after contacting the veteran to ascertain the facts) or by notifying the supplier to fill the order.

(g) *Who is a "veteran".* A "veteran" under this Direction means any person who was in the Army, Navy, Marine Corps or Coast Guard on or after September 16, 1940, and was discharged or released under conditions other than dishonorable after active service of 90 days or more, or by reason of an injury or disability incurred in service in line of duty.

(h) *Communications.* All communications concerning this direction should be addressed to the Civilian Production Administration, Special Assistance Division, Washington 25, D. C., Ref: Direction 20 to PR 28.

NOTE: The application and reporting requirements of this direction have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 8th day of January 1947.

CIVILIAN PRODUCTION ADMINISTRATION,
By J. JOSEPH WHELAN,
Recording Secretary.

[F. R. Doc. 47-247; Filed, Jan. 8, 1947; 11:05 a. m.]

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 28A, Revocation]

SPECIAL PROVISIONS FOR THE ASSIGNMENT OF CC RATINGS FOR COTTON, SYNTHETIC AND WOOL FABRIC AND YARNS

Section 944.49a *Priorities Regulation 28A* is revoked. It is superseded by Priorities Regulation 28, as amended January 8, 1947. Preference ratings assigned under Priorities Regulation 28A remain in full force and effect and are not affected by this revocation.

This revocation does not affect any liabilities incurred for violation of the regulation or of actions taken by the Civilian Production Administration under the regulation.

Issued this 8th day of January 1947.

CIVILIAN PRODUCTION ADMINISTRATION,
By J. JOSEPH WHELAN,
Recording Secretary.

Chapter XXIII—War Assets Administration

[Reg. 2, Amdt. 1]

PART 8302—DISPOSAL OF SURPLUS PERSONAL PROPERTY TO PRIORITY CLAIMANTS

War Assets Administration Regulation 2, November 27, 1946, entitled "Disposal of Surplus Personal Property to Priority Claimants" (11 F. R. 14267) is hereby amended in the following respects:

1. Section 8302.4 is amended by deleting paragraph (b) thereunder and substituting the following in lieu thereof:

(b) In disposing of property to veterans under this section, disposal agencies may establish the maximum and minimum quantities which may be acquired by any one veteran at any one time during a given period of time. When the supply of any type of surplus property offered at any time will be insufficient to fill the orders of the eligible veterans, equitable distribution among such veterans may be accomplished (1) on a first-come, first-served basis in fixed price sales or (2) on such other basis as shall be approved by the Administrator; *Provided*, That in any method adopted there shall be equitable distribution among veterans desiring to acquire property for their own personal use and veterans desiring to acquire it for business, professional, or agricultural use. In giving public notice of availability of any property, disposal agencies shall specify the method by which distribution of such property will be made among veterans.

2. Exhibit A of this part, "Property to be set aside for Veterans," is amended by changing the description under "Motors" (Commodity Code Classification 90 3130) to read as follows:

Fractional horsepower motors include all 110 and 220 volt, single phase, alternating current and direct current, standard listed ratings.

This amendment shall become effective January 9, 1947.

(Surplus Property Act of 1944, as amended (58 Stat. 765, as amended; 50 U. S. C. App. Sup. 1611); Pub. Law 181, 79th Cong. (59 Stat. 533; 50 U. S. C. 1614a, 1614b) and Executive Order 9689 (11 F. R. 1265))

ROBERT M. LITTLEJOHN,
Administrator.

JANUARY 6, 1947.

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans' Administration

PART 36—REGULATIONS UNDER SERVICEMEN'S READJUSTMENT ACT OF 1944

ADJUSTMENTS AND AUTHORIZATIONS OF SUBSISTENCE ALLOWANCE

1. Paragraph (b) (iii) of § 36.203 (9 F. R. 10502) is hereby revoked and superseded as follows:

§ 36.203 *Jurisdiction as to award of subsistence allowance.* * * *

(b) * * *

(iii) The $65 or the $90 rate of subsistence allowance will be authorized according to the assertion of the veteran on his application for education or training, except that the $90 rate will not be authorized based upon the assertion of dependency of a parent, but the veteran will be informed of the necessity to submit competent proof of dependency, and that until such competent proof is received in the Veterans' Administration subsistence allowance on the basis of dependency of a parent will not be authorized. If competent evidence of dependency of a parent is received within one year of date of request therefor, subsistence allowance paid upon the dependency may be authorized as from the effective date of the receipt of the application.

(*a*) Where the $90 rate is authorized on the basis of the assertion in the veteran's application, he will be informed of the necessity to submit formal proof of relationship or dependency, and that in the event it is not submitted within 60 days subsistence allowance will be authorized on the basis of a veteran without a dependent from the effective date of the original authorization.

(*b*) In the event claimant's application is not complete, he will be advised of the evidence necessary to complete the application, and if such evidence is not received within one year from the date of request therefor, increased subsistence allowance on the basis of dependency will not be paid by virtue of that application.

(c) In any case where the application of a veteran contains his assertion of a dependent or dependents of any class, and it is shown that the course of education or training entered by the veteran will be of 90 days or less duration, subsistence allowance will not be authorized in the amounts provided on the basis of dependency in the absence of competent evidence establishing relationship or dependency.

(*d*) Except as provided in § 36.272 (f) (1) (11 F. R. 9805), relating to reductions in rates of subsistence allowance under the circumstances stated, all reductions and discontinuances of subsistence allowance for whatever reason will be in accordance with the facts found in any case, subject to the governing regulations and procedures applicable to waivers and recoveries. (58 Stat. 284; Pub. Law 679, 79th Cong.; 38 U. S. C. 693.)

2. Paragraphs (c) and (d) of § 36.205 *Awards of subsistence allowance and effective date* (9 F. R. 10502, 10 F. R. 12005) are hereby revoked.

(58 Stat. 284; 38 U. S. C., Sup. ch. 11c)

FEDERAL POWER COMMISSION

[Docket No. G-669]

MICHIGAN-WISCONSIN PIPE LINE CO.

ORDER FIXING DATE OF HEARING ON REOPENED PROCEEDINGS FOR LIMITED PURPOSES

JANUARY 3, 1947.

It appearing to the Commission that:

On December 30, 1946, by its order of that date the Commission reopened the record in the above-entitled proceeding limited to "the receipt of further evidence with respect to subdivision (viii) of paragraph (b) of the Commission's order of November 30, 1946, as modified by order of December 14, 1946";

The Commission orders that:

(a) A hearing in this proceeding be held commencing at 10:00 a. m. (e. s. t.) on January 15, 1947, in the Hearing Room of the Federal Power Commission, Hurley-Wright Building, 1800 Pennsylvania Avenue, N. W., Washington, D. C., limited to the receipt of evidence with respect to the above-mentioned subdivision (viii) of paragraph (b), to the extent indicated in the Commission's order of December 30, 1946.

(b) Interested State commissions and interveners of record may participate in this further proceeding as provided in the provisional rules of practice and regulations under the Natural Gas Act.

Date of issuance: January 6, 1947.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

DEPARTMENT OF JUSTICE

Office of Alien Property

[Vesting Order 7939]

OAHU JUNK CO., LTD.

Under the authority of the Trading with the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation:

1. It having been found and determined by Vesting Order 1756, dated June 25, 1943, that Oahu Junk Company, Ltd., a Hawaiian corporation, is a business enterprise within the United States and that Oahu Junk Company, Ltd., Yotaro Fujino and Chiyono Fujino are nationals of a designated enemy country (Japan) and having by said order vested 404 shares (44.89%) of the $100 par value capital stock of Oahu Junk Company, Ltd.;

2. It is hereby found:

That of the issued and outstanding capital stock of Oahu Junk Company, Ltd., consisting of 900 shares of $100 par value common capital stock, 496 shares (55.11%) registered in the names of the persons listed below in the number appearing opposite each name are beneficially owned by, or controlled by, Yotaro Fujino and, together with the 404 shares (44.89%) heretofore vested by Vesting Order 1756, are evidence of ownership of Oahu Junk Company, Ltd.:

Names	*Number of shares*
Kaname Fujino	200
	25
	1
Katsue Fujieki	117
	14¾
	1
Shizue Maneki	117
	14¾
	1
Tadashi Fujieki	1
	1/8
Mitsugi Maneki	1
	1/8
Tokuichi Tsuda	1
	1/8
Yasuo Tsutsumi	1
	1/8
Total	496

and it is hereby determined:

3. That Kaname Fujino, Katsue Fujieki, Tadashi Fujieki, Shizue Maneki, Mitsugi Maneki, Tokuichi Tsuda, Yasuo Tsutsumi are controlled by or acting for or on behalf of and as cloaks for a designated enemy country (Japan) or persons within such country and are nationals of a designated enemy country (Japan);

4. That to the extent that the persons named above are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Japan).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the 496 shares of $100 par value common capital stock of Oahu Junk Company, Ltd., more fully described in subparagraph 2 hereof, together with all declared and unpaid dividends thereon, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national", "designated enemy country" and "business enterprise within the United States" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

(40 Stat. 411; 50 U. S. C. App. 1; 55 Stat. 839, 50 U. S. C. App. Sup. 616; Pub. Law 322, 79th Cong.; 60 Stat. 50; Pub. Law 671, 79th Cong., 60 Stat. 925; E. O. 9193, July 6, 1942, 7 F. R. 5205, 3 CFR, Cum. Supp.; E. O. 9567, June 6, 1945, 10 F. R. 6917, 3 CFR, 1945 Supp.; E. O. 9788, Oct. 14, 1946, 11 F. R. 11981)

Executed at Washington, D. C., on January 3, 1947.

For the Attorney General.

[SEAL] DONALD C. COOK,
Director.

INTERSTATE COMMERCE COMMISSION

[S. O. 422, Special Permit 22]

RAILROADS TO UNLOAD BOX CARS

Pursuant to the authority vested in me by paragraph (c) of the first ordering paragraph of Service Order No. 422 (11 F. R. 250), permission is granted for any common carrier by railroad subject to the Interstate Commerce Act:

To disregard the provisions of Service Order No. 422 insofar as it applies to the holding under load until 11:59 p. m., January 2, 1947, by the Pennsylvania Railroad at its New York and New Jersey terminals in and around greater New York, N. Y., of cars SAL 4138, L&N 15742, Sou. 14084 and 60 other cars all containing carloads of miscellaneous freight; also cars B&O 381578, NYC 290710, IC 37962 and 434 other cars all containing L. C. L. merchandise freight.

The waybills shall show reference to this special permit.

A copy of this special permit has been served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and notice of this permit shall be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

Issued at Washington, D. C., this 30th day of December 1946.

[SEAL] V. C. CLINGER,
Director,
Bureau of Service.

[S. O. 664]

UNLOADING OF TRACTOR SCRAPER AT SAN FRANCISCO, CALIF.

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 3d day of January A. D. 1947.

It appearing, that a car containing a tractor scraper at San Francisco, California, on the Southern Pacific Company has been on hand for an unreasonable length of time and that the delay in unloading said car is impeding its use; in the opinion of the Commission an emergency exists requiring immediate action. It is ordered, that:

(a) *Tractor scraper at San Francisco, Calif., be unloaded.* The Southern Pacific Company, its agents or employees, shall unload immediately Milw 650374 loaded with a tractor scraper now on hand at San Francisco, California, for transshipment.

(b) *Demurrage.* No common carrier by railroad subject to the Interstate Commerce Act shall charge or demand or collect or receive any demurrage or storage charges, for the detention under load of any car specified in paragraph (a) of this order, for the detention period commencing at 7:00 a. m., January 6, 1947, and continuing until the actual unloading of said car or cars is completed.

(c) *Provisions suspended.* The operation of any or all rules, regulations, or practices, insofar as they conflict with the provisions of this order, is hereby suspended.

(d) *Notice and expiration.* Said carrier shall notify V. C. Clinger Director, Bureau of Service, Interstate Commerce Commission, Washington, D. C., when it has completed the unloading required by paragraph (a), and such notice shall specify when, where, and by whom such unloading was performed. Upon receipt of that notice this order shall expire.

It is further ordered, That this order shall become effective immediately; that a copy of this order and direction be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission, at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

(40 Stat. 101; sec. 402, 41 Stat. 476; sec. 4, 54 Stat. 901, 911; 49 U. S. C. 1 (10)–(17), 15 (2))

By the Commission, Division 3.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-1416]

COLUMBIA GAS & ELECTRIC CORP. AND ATLANTIC SEABOARD CORP.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 31st day of December 1946.

Columbia Gas & Electric Corporation ("Columbia"), a registered holding company, and its wholly-owned subsidiary, Atlantic Seaboard Corporation ("Seaboard"), also a registered holding company, having filed a joint declaration pursuant to the provisions of section 12 (b) of the Public Utility Holding Company Act of 1935 and Rule U-45 promulgated thereunder, regarding a cash contribution of $500,000 by Columbia to Seaboard and a like contribution by Seaboard to its subsidiary, Virginia Gas Transmission Corporation ("Virginia"), for the purpose of enabling Virginia to meet obligations incurred in connection with its construction program;

The transaction having been approved by the State Corporation Commission of Virginia by its order dated December 16, 1946;

Said declaration having been filed on December 13, 1946, and an amendment thereto having been filed on December 26, 1946, and notice of such filing having been duly given in the manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for hearing with respect to said declaration within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to said declaration that the requirements of the applicable provisions of the act and the rules thereunder are satisfied and that no adverse findings are necessary thereunder and deeming it appropriate in the public interest and in the interests of investors and consumers that said declaration be permitted to become effective; and

Columbia and Seaboard having requested that the Commission take appropriate action to accelerate its order herein and that the order become effective forthwith, and the Commission deeming it appropriate to grant such request:

It is hereby ordered, Pursuant to Rule U-23 and the applicable provisions of said act and subject to the terms and conditions prescribed in Rule U-24 that the aforesaid declaration, as amended, be, and the same hereby is, permitted to become effective.

By the Commission.

[SEAL] For: ORVAL L. DUBOIS,
Secretary.

[File No. 70-1417]

COLUMBIA GAS & ELECTRIC CORP.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 31st day of December 1946

Columbia Gas & Electric Corporation ("Columbia"), a registered holding company, having filed a declaration pursuant to the provisions of section 12 (b) of the Public Utility Holding Company Act of 1935 and Rule U-45 promulgated thereunder regarding a cash contribution of $1,000,000 to its public utility subsidiary, United Fuel Gas Company ("United"), for the purpose of enabling United to meet obligations incurred in connection with its construction program;

Said declaration having been filed on December 13, 1946 and notice of such filing having been duly given in the manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for hearing with respect to said declaration within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to said declaration that the require-

ments of the applicable provisions of the act and the rules thereunder are satisfied and that no adverse findings are necessary thereunder and deeming it appropriate in the public interest and in the interests of investors and consumers that said declaration be permitted to become effective; and

Colombia having requested that the Commission take appropriate action to accelerate its order herein and that the order become effective forthwith, and the Commission deeming it appropriate to grant such request:

It is hereby ordered, Pursuant to Rule U-23 and the applicable provisions of said act and subject to the terms and conditions prescribed in Rule U-24 that the aforesaid declaration be, and the same hereby is, permitted to become effective.

By the Commission.

TITLE 6—AGRICULTURAL CREDIT

Chapter II—Production and Marketing Administration (Commodity Credit)

[1946 C. C. C. Soybean Bulletin I (Loan)]

PART 257—SOYBEAN LOANS AND PURCHASES

SUBPART 1946

This bulletin states the requirements with respect to the 1946 Soybean Loan Program formulated by Commodity Credit Corporation (hereinafter referred to as CCC), and the Production and Marketing Administration. Loans will be made available on soybeans produced in 1946 (hereinafter referred to as the "commodity") in accordance with this bulletin.

Sec.

257.85 Administration of program.
257.86 Availability of loans.
257.87 Approved lending agencies.
257.88 Eligible producer.
257.89 Eligible commodity.
257.90 Eligible storage.
257.91 Approved forms.
257.92 Determination of quantity.
257.93 Determination of foreign material and dockage.
257.94 Liens.
257.95 Service fees.
257.96 Set-offs.
257.97 Basic loan rates.
257.98 Interest rate.
257.99 Transfer of producer's equity.
257.100 Safeguarding of the commodity.
257.101 Insurance.
257.102 Loss or damage to the commodity.
257.103 Personal liability.
257.104 Maturity and satisfaction.
257.105 Removal of the commodity.
257.106 Release of the commodity.
257.107 Storage allowance.
257.108 Purchase of notes.
257.109 Office of Director of Grain Branch.

AUTHORITY: §§ 257.85 to 257.109, inclusive, issued under Article Third, par. (b) of Corporate Charter of Commodity Credit Corporation; sec. 7 (a), 49 Stat. 4, as amended, sec. 4 (a), 55 Stat. 498, 56 Stat. 768; 15 U. S. C. and Sup. 713 (a), 713a-8 (a).

§ 257.85 *Administration of program.* The program will be administered by the county agricultural conservation committees under the general supervision of the respective State committees. Forms may be obtained from county committees, or from the office of the Director of the Grain Branch, 208 South LaSalle Street, Chicago 4, Illinois. State and county committees will determine or cause to be determined the quantity and grade of the commodity and the amount of the loan. All loan documents will be completed and approved by the county committee, which will retain copies of all documents: *Provided, however*, That the county committee may designate in writing certain employees of the county agricultural conservation association to execute such forms on behalf of the committee. The county committee will furnish the borrower with the names of local lending agencies approved for making disbursements on loan documents, or with the address of the Director of the Chicago Office of the Grain Branch to which loan documents may be forwarded for disbursement.

§ 257.86 *Availability of loans*—(a) *Area.* Loans will be made available to eligible producers on soybeans stored on the farm in approved storage facilities in the States of Illinois, Indiana, Iowa, Kansas, Kentucky, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, South Dakota, Wisconsin, and other States as may be approved by CCC except that loans will not be made on soybeans in Alabama, Arkansas, Connecticut, Florida, Georgia, Louisiana, Maine, Massachusetts, Mississippi, New Hampshire, Oklahoma, Rhode Island, South Carolina, Texas, and Vermont.

(b) *Time.* Loans will be available from harvest through January 31, 1947.

§ 257.87 *Approved lending agencies.* An approved lending agency shall be any bank, cooperative marketing association, corporation, partnership, individual, or other legal entity with which CCC has entered into a Lending Agency Agreement (Form PMA-97) or other lending agency agreement prescribed by CCC.

§ 257.88 *Eligible producer.* An eligible producer shall be an individual,

partnership, association, corporation, or other legal entity producing the commodity in 1946, as landowner, landlord, tenant, or share cropper.

§ 257.89 *Eligible commodity.* Soybeans eligible for loans shall be of any class grading No. IV or better with respect to factors other than moisture, and having a moisture content not in excess of 14 percent, which were produced in 1946, the beneficial interest in which is in the producer and has always been in him or in him and a former producer whom he succeeded before the soybeans were harvested. Soybeans grading weevily, musty, sour, or which are heating or have any objectionable foreign odor, shall not be eligible for loan.

§ 257.90 *Eligible storage.* Eligible farm storage shall include structures meeting the requirements for safe storage as prescribed by the Field Service Branch.

§ 257.91 *Approved forms.* The approved forms constitute the loan documents which govern the rights and responsibilities of the producer, and should be read carefully. Any fraudulent representation made by a producer in obtaining a loan or in executing any of the loan documents will render him subject to prosecution under the United States Criminal Code.

(a) Approved forms for farm storage shall consist of producer's notes on C. C. C. Commodity Form A, secured by chattel mortgages on C. C. C. Commodity Form AA.

(b) Notes and chattel mortgages must be dated on or before January 31, 1947, and executed in accordance with these instructions, with State and documentary revenue stamps affixed thereto where required by law. Notes and chattel mortgages executed by an administrator, executor, or trustee, will be acceptable only where legally valid.

§ 257.92 *Determination of quantity.* Loans shall be made at values expressed in cents per bushel. A bushel shall be 60 pounds of soybeans free of dockage and foreign material in excess of 2 percent when determined by weight, or 1.25 cubic feet of soybeans testing 60 pounds per bushel, when determined by measurement. In determining the quantity of soybeans by measurement the following adjustment shall be made, fractional pounds of the test weight being disregarded:

For soybeans testing	*Percent*
60 pounds or over	100
59 pounds or over but less than 60	98
58 pounds or over but less than 59	97
57 pounds or over but less than 58	95
56 pounds or over but less than 57	93
55 pounds or over but less than 56	92
54 pounds or over but less than 55	90
53 pounds or over but less than 54	88
52 pounds or over but less than 53	87
51 pounds or over but less than 52	85
50 pounds or over but less than 51	83
49 pounds or over but less than 50	82

§ 257.93 *Determination of foreign material and dockage.* Dockage and foreign material other than dockage, which, singly or in combination total 2 percent or less shall not be deducted from the gross weight of the soybeans. If the total weight of foreign material and dockage combined is in excess of 2 percent, the excess shall be deducted from the total gross weight of soybeans in the determination of the net number of bushels of soybeans. For the purpose of this determination, dockage shall be computed in whole percents. Less than 1 percent actual dockage shall be disregarded and fractional percentages in excess of 1 percent shall be rounded to the next lower whole percent. Foreign material percentages shall be stated in tenths.

§ 257.94 *Liens.* The commodity must be free and clear of all liens and encumbrances, or if liens or encumbrances exist on the commodity, proper waivers must be obtained.

§ 257.95 *Service fees.* Where the commodity is farm-stored the producer shall pay a service fee of 1 cent per bushel.

§ 257.96 *Set-offs.* A producer who is listed on the county debt register as indebted to any agency or corporation of the United States Department of Agriculture shall designate the agency or corporation to which he is indebted as the payee of the proceeds of the loan to the extent of such indebtedness, but not to exceed that portion of the proceeds remaining after deduction of the service fees and amounts due prior lien-holders. Indebtedness owing to the CCC shall be given first consideration after claims of prior lien-holders.

§ 257.97 *Basic loan rates.* Basic loan rates, and settlement values where applicable, for the designated grades and subclasses are set out in 1946 C. C. C. Soybean Bulletins 1, Supplement 1.

§ 257.98 *Interest rate.* Loans shall bear interest at the rate of 3 percent per annum; and interest shall accrue from the date of disbursement of the loan, notwithstanding the printed provisions of the note.

§ 257.99 *Transfer of producer's equity.* The right of the producer to transfer his right to redeem the commodity or his remaining interest may be restricted by CCC.

§ 257.100 *Safeguarding of the commodity.* The producer is obligated to maintain the farm-storage structures in good repair, and to keep the commodity in good condition.

§ 257.101 *Insurance.* CCC will not require the producer to insure the commodity placed under farm-storage loan; however, if the producer does insure such commodity such insurance shall inure to the benefit of CCC to the extent of its interest, after first satisfying the producer's equity in the commodity involved in the loss.

§ 257.102 *Loss or damage to the commodity.* The producer is responsible for any loss in quantity or quality to farm-stored commodity, except that uninsured physical loss or damage occurring without fault, negligence, or conversion on the part of the producer resulting solely from an external cause other than insect infestation or vermin will be assumed by CCC, provided the producer has given the county committee immediate notice in writing of such loss or damage, and provided there has been no fraudulent representation made by the producer in the loan documents or in obtaining the loan.

§ 257.103 *Personal liability.* The making of any fraudulent representation by the producer in the loan documents or in obtaining the loan, or the conversion or unlawful disposition of any portion of the commodity by him, shall render the producer personally liable for the amount of the loan and for any resulting expense incurred by any holder of the note.

§ 257.104 *Maturity and satisfaction.* Loans mature on demand but not later than April 30, 1947. In the case of farm-storage loans, the producer is required to pay off his loan on or before maturity date, or to deliver the mortgaged commodity within 60 days after maturity date. Credit will be given for the total quantity delivered, provided it was stored in the cribs or bins in which the commodity under loan was stored, at the applicable settlement rate, according to grade and/or quality. If the settlement value of the commodity delivered exceeds the amount due on the loan, the amount of the excess shall be paid to the producer. If the settlement value of the commodity is less than the amount due on the loan, the amount of the deficiency, plus interest shall be paid by the producer to CCC, and may be set off against any payment which would otherwise be made to the producer under any agricultural programs administered by the Secretary of Agriculture, or any other payments which are due or may become due to the producer from Commodity Credit Corporation or any other agency of the United States. In the event the

farm is sold or there is a change of tenancy, the commodity may be delivered before the maturity date of the loan upon prior approval by the county committee.

§ 257.105 *Removal of the commodity.* If the loan is not satisfied upon maturity by payment or delivery, the holder of the note may remove the commodity and sell it, either by separate contract or after pooling it with other lots of the same commodity similarly held. The producer has no right of redemption after the commodity is pooled, but shall share ratably in any overplus remaining upon liquidation of the pool. The Commodity Credit Corporation shall have the right to treat a pooled commodity as a reserve supply to be marketed under such sales policies as CCC determines will promote orderly marketing, protect the interests of producers and consumers, and not unduly impair the market for the current crop of the commodity, even though part or all of such pooled commodity is disposed of under such policies at prices less than the current domestic price for such commodity. Any sum due the producer as a result of the sale of the commodity or of insurance proceeds thereon, or any ratable share resulting from the liquidation of a pool, shall be payable only to the producer without right of assignment by him.

§ 257.106 *Release of the commodity.* A producer may obtain release of the commodity by paying to the holder of the note, or note and loan agreement, the principal amount thereof, plus interest. If the note is held by an out-of-town lending agency or by Commodity Credit Corporation, the producer may request that the note be forwarded to a local bank for collection. In such case, where Commodity Credit Corporation is the holder of the note, the local bank will be instructed to return the note if payment is not affected within 15 days. All charges in connection with the collection of the note shall be paid by the producer. Upon payment of a farm-storage loan, the county committee should be requested to release the mortgage by filing an instrument of release or by a marginal release on the county records. Partial releases of the commodity may be arranged with the county committee by paying to the holder of the note the amount of the loan, plus charges and accrued interest, represented by the quantity of the commodity to be released.

§ 257.107 *Storage allowance.* No storage allowance shall be advanced at the time any farm-stored loan is made but a storage payment of 7 cents per bushel shall be made to the producer (a) if the soybeans are delivered to CCC on or after April 30, 1947, or (b) if, pursuant to demand by CCC for the repayment of the loan, the soybeans are delivered to the CCC prior to April 30, 1947, provided such demand for repayment was not due to any fraudulent representation on the part of the producer or to the fact that the soybeans or any part thereof, were converted, damaged, threatened with damage, abandoned, or otherwise impaired: If delivery is made prior to April 30, 1947, at the request of the producer with the consent or approval of CCC, a storage payment will be made on the quantity delivered in accordance with the following schedule, provided, the producer has not made any fraudulent representation, herein, in the chattel mortgage, or in connection with the loan:

6 cents per bushel if delivered during the month of April 1947.
5 cents per bushel if delivered during the month of March 1947.
4 cents per bushel if delivered during the month of February 1947.
3 cents per bushel if delivered during the month of January 1947.
2 cents per bushel if delivered during the month of December 1946.

No storage payment shall be earned if the soybeans are delivered prior to December 1946.

In the case of losses assumed by CCC, CCC will pay the producer the full storage payment of 7 cents per bushel for the soybeans lost, regardless of when the loss occurs.

§ 257.108 *Purchase of notes.* Commodity Credit Corporation will purchase, from approved lending agencies, notes evidencing approved loans which are secured by chattel mortgages or negotiable warehouse receipts. The purchase price to be paid by Commodity Credit Corporation will be the principal sums remaining due on such notes, plus accrued interest from the date of disbursement to the date of the purchase at the rate of 1½ percent per annum. Lending agencies are required to submit a weekly report to CCC and to the county committees on 1940 C. C. C. Form F, or such other form as CCC may prescribe, of all payments received on producer's notes held by them, and are required to remit promptly to CCC an amount equivalent to 1½ percent interest per annum, on the amount of the principal collected, from the date of disbursement to the date of payment. Lending agencies should submit notes and reports to the Grain Branch office serving the area.

§ 257.109 *Office of Director of Grain Branch.* The address of the office of the Director of the Grain Branch administering this loan program is, 208 South LaSalle Street, Chicago 4, Illinois.

Date program announced, September 25, 1946.

[1946 C. C. C. Soybean Bulletin I (Purchases)]

PART 257—SOYBEAN LOANS AND PURCHASES

SUBPART 1946

This bulletin states the requirements with respect to the 1946 Soybean Purchase Program formulated by Commodity Credit Corporation (hereinafter referred to as C. C. C.) and the Production and Marketing Administration (hereinafter referred to as PMA). Purchases will be made on soybeans produced in 1946 (hereinafter referred to as "commodity") in accordance with this bulletin.

Sec.
257.110 Administration of program.
257.111 Availability of purchase.
257.112 Eligible producer.
257.113 Eligible commodity for purchase.
257.114 Basic purchase price.
257.115 Determination of quantity.
257.116 Foreign material and dockage.
257.117 Method of receiving soybeans.
257.118 Soybeans received by country warehouses approved under the Uniform Grain Storage Agreement.
257.119 Soybeans received by county committees.
257.120 Grade analysis.

AUTHORITY: §§ 257.110 to 257.120, inclusive, issued under Article Third, par. (b) of Corporate Charter of Commodity Credit Corporation; sec. 7 (a) 49 Stat. 4, as amended, sec. 4 (a), 55 Stat. 498, 56 Stat. 768; 15 U. S. C. and Sup. 713 (a), 713a-8 (a).

§ 257.110 *Administration of program.* The program will be administered by the county agricultural conservation committees under the general supervision of the respective State committees. Forms may be obtained from county committees, or from the office of the Director of the Grain Branch, 208 South La Salle Street, Chicago 4, Illinois. State and county committees will determine or cause to be determined the quantity and grade of the commodity and the amount of the purchase. All purchase documents will be completed and approved by the county committee, which will retain copies of all documents: *Provided, however,* That the county committee may designate in writing certain employees of the county agricultural conservation association to execute such forms on behalf of the committee. The county committee will furnish the seller with the address of the Grain Branch office in Chicago to which purchase documents may be forwarded for disbursement.

§ 257.111 *Availability of purchase—*(a) *Area.* Purchases will be made in all States.

(b) *Time.* Purchases will be made from harvest through June 30, 1947.

§ 257.112 *Eligible producer.* An eligible producer shall be any individual, partnership, association, corporation, or other legal entity producing the commodity in 1946, as landowner, landlord, tenant, or share cropper.

§ 257.113 *Eligible commodity for purchase.* Soybeans eligible for purchase shall be soybeans of all classes and grades, which were produced in 1946, the beneficial interest in which is in the producer and has always been in him, or has been in him and a former producer whom he succeeded before the soybeans were harvested.

§ 257.114 *Basic purchase price.* Basic purchase prices, and settlement values where applicable, for the designated grades and subclasses are set out in 1946 C. C. C. Soybean Bulletins 1, Supplement 1.

(a) *Green damage odor.* Soybeans grading sample because of having an odor due to green damage or being sour due to green damage shall be purchased at rates for such soybeans had such odor(s) not been present.

(b) *Out-of-condition soybeans.* Soybeans grading weevily, sour (other than because of green damage), or musty, or which are heating or have a "commercially objectionable foreign odor" shall be subject to such discounts as may be agreed upon at the time of purchase.

§ 257.115 *Determination of quantity.* Purchases shall be made at values expressed in cents per bushel. A bushel shall be 60 pounds of soybeans free of dockage and foreign material in excess of 2 percent.

§ 257.116 *Foreign material and dockage.* Dockage and foreign material other than dockage, which, singly or in combination total 2 percent or less, shall not be deducted from the gross weight of the soybeans. Therefore, a net bushel shall be considered to be 60 pounds of soybeans containing not in excess of 2 percent dockage and foreign material. If the total weight of foreign material and dockage combined is in excess of 2 percent, the excess shall be deducted from the total gross weight of soybeans in the determination of the net number of bushels of soybeans. For the purpose of this determination, dockage shall be computed in whole percents. Less than 1.0 percent dockage shall be disregarded and fractional percentages shall be disregarded. Foreign material percentages shall be stated in tenths of a percent.

§ 257.117 *Method of receiving soybeans.* (a) Country warehousemen may receive soybeans for immediate shipment to processors, terminal warehousemen having contracts with CCC, or for storage in the elevator or CCC bins. In order to receive soybeans for CCC, a country warehouseman must have executed Uniform Grain Storage Agreement (CCC Form H) and supplements thereto. Approval by the county committee must be obtained before any soybeans are placed in CCC bins.

(b) County agricultural conservation committees may receive soybeans for storage in bins owned by CCC, storage in other facilities, or for shipment. However, soybeans shall not be stored in CCC bins if other facilities are available. No car shall be loaded without prior approval from the Director of the Chicago Office of the Grain Branch.

§ 257.118 *Soybeans received by country warehouses approved under the Uniform Grain Storage Agreement.* The country warehouseman shall receive soybeans and store them in his warehouse, or in CCC bins upon prior approval of, and under supervision of, the county committee; or shall receive and grade the soybeans for sale to processors or to terminal warehousemen who have contracts with CCC. Producers shall file an offer of sale memorandum (C. C. C. Purchase Form B) with the county committee listing all lien holders and containing lien waivers, and shall designate to whom the proceeds of the soybeans sold shall be paid in the case of saybeans sold to CCC.

(a) *Storage in warehouse for CCC.* The warehouseman shall issue separate warehouse receipts for each lot of soybeans stored for CCC showing the weight, moisture, class, and grade, and all other information necessary to determine the premiums and discounts. The warehouseman shall deliver to the producer said warehouse receipt and inspection certificates or upon request of the producer, the warehouseman shall deliver such warehouse receipt and inspection certificates to the county office. The county committee shall issue the producer a non-interest-bearing sight draft for each purchase. The information on the warehouse receipt or inspection certificate shall be transferred to the sight draft. The sight draft shall be prepared in triplicate, the original given to the producer, one copy retained by the county committee, and one copy mailed on the date of issuance to the State PMA office. The State committee will review the drafts and if found to be in order shall immediately forward such drafts to the Chicago Office of the Grain Branch. The sight draft and attachments may be presented to a local bank or direct to CCC for payment. Charges shall accrue against the warehouse receipts in accordance with the Uniform Grain Storage Agreement, except that the charge for handling the soybeans in and out of the warehouse shall be 5 cents per bushel. The warehouseman shall be responsible for weights and grades to CCC.

(b) *Storage in bins owned by CCC.* Eligible soybeans containing not more than 14 percent moisture and eligible soybeans grading sample (due to green damage only) and containing not more than 14 percent moisture and reasonably free from dockage and foreign material may be stored in bins owned by CCC upon prior approval by the county committee. All soybeans stored in CCC bins must be placed in the bins under the direct supervision of the committee. Soybeans to be stored in CCC bins for CCC should be segregated according to color, except that soybeans of Classes I and II which contain a total of less than 5 percent of Classes III and IV may be considered as the same color. If necessary, soybeans of the same color but different grades may be mixed. The warehouseman shall issue scale tickets and inspection certificates showing moisture, class, grade, and percent of damage where applicable, and deliver such tickets and inspection certificates to the producer or upon request from the producer deliver such scale tickets and inspection certificates to the county office. The county committee shall issue the producer a non-interest-bearing sight draft for each purchase in an amount due the producer for the quantity, quality, class, and grade of soybeans delivered. The information on the scale tickets or inspection certificates shall be transferred to the sight draft.

§ 257.119 *Soybeans received by county committees.* In areas where there are no approved warehousemen, country warehousemen, or warehousemen's agents available at usual shipping points or where warehousemen do not cooperate in the purchase program, the county committee or an agent designated by the county committee will receive soybeans and make immediate shipment or if necessary store in CCC bins.

Soybeans containing in excess of 14 percent moisture shall not be stored in CCC bins. However, producers may, by filing C. C. C. Purchase Form B with the county committee, deliver their soybeans for purchase to a point designated by the county committee, without first obtaining a grade determination, provided the soybeans do not have a moisture content in excess of 14 percent in the opinion of the producer and the county committee.

In the event the producer is requested by the county committee to deliver his soybeans to a point more distant than his usual delivery point for the purpose of assembling in carload lots, CCC will allow not more than 5 cents per ton per mile haul for the additional distance necessary to make such delivery. In no event shall the county committee approve payments for an additional haul in excess of 4 cents per bushel without prior approval of the Director of the Chicago Office of the Grain Branch. The approval of payment for additional mileage shall be submitted on C. C. C. Grain Form J (Revised) by the county committee to the State PMA office. The State committee will review the forms and if found to be in order shall immediately forward such forms to the Chicago Office of the Grain Branch for payment. The amount claimed for additional mileage shall not be included in the amount of the sight draft.

County committees will weigh and load soybeans into CCC bins and will obtain a representative sample which shall be forwarded to the State PMA laboratory or to an inspector licensed to grade soybeans. Upon receipt of the grade analysis which shall include an entry for all grade factors needed to determine purchase price, the county committee shall draw a non-interest-bearing sight draft in favor of the producer on CCC for the total purchase price of the beans delivered in the same manner and follow the same instructions as when the soybeans are placed in bins by the warehouseman.

§ 257.120 *Grade analysis.* Where requested by the producer the warehouseman shall furnish the producer a complete grade analysis which shall include class, grade, test weight, moisture, percentage of splits, percentage of total damage, percentage of green damage, percentage of foreign material other than dockage, percentage of brown and/or black soybeans in case green or yellow soybeans are being offered for sale, and percentage of dockage.

If the warehouse is not equipped to furnish all grade factors, a representative sample of the soybeans delivered shall be taken by the warehouseman and producer and sent to the State PMA office laboratory, or to an inspector licensed to grade soybeans, for grade determina-

tion before any payment is made to the producer.

All settlements with the producer by the county agricultural conservation committee shall be based upon an agreement as to grade factors between the warehouseman and producer.

The producer may call for another grade if, in his opinion, any grade factors furnished by the warehouseman are incorrect. In such cases, a representative sample taken by the warehouseman and producer shall be forwarded to a qualified licensed inspector for analysis, and settlement shall then be made on the basis of such analysis. The individual requesting the second grade shall pay the cost of obtaining grade determination.

Date program announced. September 25, 1946.

[SEAL] C. C. FARRINGTON,
Vice President,
Commodity Credit Corporation.

[F. R. Doc. 47-243; Filed, Jan. 9, 1947; 8:54 a. m.]

[1946 C. C. C. Soybean Bulletins 1, Supp. 1]

PART 257—SOYBEAN LOANS AND PURCHASES

SUBPART—1946

Pursuant to the provisions of Article Third, paragraph (b) of the Corporate Charter of Commodity Credit Corporation; section 7 (a) of the Act of January 31, 1935, as amended (15 U. S. C. Sup. V, 713 (a)); section 4 (a) of the Act of July 1, 1941, as amended (55 Stat. 498, 56 Stat. 768, 15 U. S. C., Sup. V, 713a-8 (a)), Commodity Credit Corporation and the Production and Marketing Administration have authorized the making of loans and purchases of soybeans produced in 1946 in accordance with the regulations in this part (1946 C. C. C. Soybean Bulletin 1 (Purchase), and 1946 C. C. C. Soybean Bulletin 1 (Loans)), §§ 257.85 to 257.120, inclusive. Such regulations are hereby supplemented as follows:

Section 257.97 *Basic loan rate*, is supplemented by adding to the end thereof the following:

(a) *Rates and specifications.* The basic loan rate per net bushel of eligible Class I (Yellow) and Class II (Green) soybeans, containing 14 percent moisture and grading No. 2 or better except for green damage in accordance with U. S. Grain Standards, stored in approved farm storage or sold and delivered to normal delivery points, shall be $2.04 per bushel.

The basic rate of Class III (Brown), Class IV (Black) and Class V (Mixed) soybeans shall be 20 cents per bushel less than the comparable basic rate for Class I and Class II soybeans.

Mixtures of Classes I and II eligible soybeans which contain 5 percent (actual) or less of Classes III and IV soybeans and bi-colored soybeans, either singly or in combination, shall take the applicable rate for Classes I and II soybeans. If more than 5 percent of Classes III and IV and bi-colored soybeans, either singly or in combination, are contained in a mixture of eligible soybeans which otherwise would take the rate for Classes I and II soybeans, the mixture shall take the applicable rate for Classes III, IV, and V soybeans. Mixtures of green soybeans in Class I and yellow soybeans in Class II shall be disregarded for purposes of determining applicable loan rates.

(b) *Premiums and discounts.* Premiums and discounts for soybeans from the basic loan rate shall be in accordance with the attached schedule.

Section 257.114 *Basic purchase price*, is supplemented in that the purchase rates, specifications, premiums, and discounts shall be the loan rates, etc., as set forth in paragraphs (a) and (b) of § 257.97.

(Article Third, par. (b) Corporate Charter of Commodity Credit Corp.; sec. 7a, 49 Stat. 4, as amended; sec. 4a, 55 Stat. 498; 56 Stat. 768; 15 U. S. C. and Sup., 713 (a), 713a-8 (a))

Date program announced, September 25, 1946.

[SEAL] C. C. FARRINGTON,
Vice President,
Commodity Credit Corporation.

[1946 C. C. C. Barley Bulletin 1]

PART 264—BARLEY LOANS

SUBPART—1946

This bulletin states the requirements with respect to the 1946 Barley Loan Program formulated by Commodity Credit Corporation and the Production and Marketing Administration. Loans will be made available on barley produced in 1946 (hereinafter referred to as the "commodity") in accordance with this bulletin.

Sec.
264.30 Administration of program.
264.31 Availability of loans.
264.32 Approved lending agencies.
264.33 Eligible producer.
264.34 Eligible commodity.
264.35 Eligible storage.
264.36 Approved forms.
264.37 Determination of quantity of barley.
264.38 Determination of dockage.
264.39 Liens.
264.40 Service fees.
264.41 Set-offs.
264.42 Loan rates.
264.43 Interest rate.
264.44 Transfer of producer's equity.
264.45 Safeguarding of the commodity.
264.46 Insurance.
264.47 Loss or damage to the commodity.
264.48 Personal liability.
264.49 Maturity and satisfaction.
264.50 Removal of the commodity.
264.51 Release of the commodity.
264.52 Storage allowance.
264.53 Purchase of notes.
264.54 Offices of directors of Grain Branch.

AUTHORITY: §§ 264.30 to 264.54, inclusive, issued pursuant to Article Third, par. (b) of Corporate Charter of Commodity Credit Corporation; sec. 7 (a), 49 Stat. 4, as amended, sec. 302 (a), 52 Stat. 48, as amended, sec. 4 (b) 55 Stat. 498, 56 Stat. 768; 15 U. S. C., and Sup., 713 (a), 713a-8 (b), 7 U. S. C. 1302 (a).

§ 264.30 *Administration of program.* The program will be administered by the county agricultural conservation committees under the general supervision of the respective State committees.

Forms may be obtained from county committees in areas where loans are available, or from the office of the director of the Grain Branch serving the area. State and county committees will determine or cause to be determined the quantity and grade of the commodity and the amount of the loan. All loan documents will be completed and approved by the county committee, which will retain copies of all documents: *Provided, however,* That the county committee may designate in writing certain employees of the county agricultural conservation association to execute such forms on behalf of the committee.

The county committee will furnish the borrower with the names of local lending agencies approved for making disbursements on loan documents, or with the address of the Grain Branch office to which loan documents may be forwarded for disbursement.

§ 264.31 *Availability of loans.* Loans will be available on eligible barley stored in approved public grain warehouses or in acceptable storage structures located on farms.

(a) *Areas in which loans will be made.* Loans will be made on eligible barley stored in approved public grain warehouses wherever located.

Loans are available on eligible barley stored on farms in the following areas:

All counties in the States of Arizona, California, Colorado, Delaware, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Maryland, Michigan, Minnesota, Missouri, Montana, Nebraska, Nevada, New Mexico, New York, New Jersey, North Carolina, North Dakota, Ohio, Oregon, Pennsylvania, South Dakota, Tennessee, Utah, Virginia, Washington, West Virginia, Wisconsin, and Wyoming, and in the following counties of Oklahoma and Texas:

Oklahoma: Alfalfa, Beaver, Beckham, Blaine, Caddo, Canadian, Cimarron, Cleveland, Comanche, Cotton, Craig, Creek, Custer, Dewey, Ellis, Garfield, Grady, Grant, Greer, Harmon, Harper, Jackson, Kay, Kingfisher, Kiowa, Lincoln, Logan, McClain, Major, Mayes, Noble, Nowata, Okfuskee, Oklahoma, Okmulgee, Osage, Ottawa, Pawnee, Payne, Pottawatomie, Roger Mills, Rogers, Texas, Tillman, Tulsa, Wagoner, Washington, Washita, Woods, and Woodward.

Texas: Andrews, Archer, Armstrong, Bailey, Baylor, Borden, Briscoe, Callahan, Carson, Castro, Childress, Clay, Cochran, Collingsworth, Coleman, Cottle, Crosby, Dallam, Dawson, Deaf Smith, Dickens, Donley, Fisher, Floyd, Foard, Gaines, Garza, Gray, Hale, Hall, Hansford, Hardeman, Hartley, Haskell, Hemphill, Hockley, Howard, Hutchinson, Jones, Kent, King, Knox, Lamb, Lipscomb, Lubbock, Lynn, Martin, Mitchell, Moore, Motley, Nolan, Ochiltree, Oldham, Parmer, Potter, Randall, Roberts, Runnels, Scurry, Shakelford, Sherman, Stonewall, Swisher, Taylor, Terry, Throckmorton, Wheeler, Wichita, Wilbarger, Yoakum, and Young.

(b) *Time.* Loans shall be available from harvest through December 31, 1946.

§ 264.32 *Approved lending agencies.* An approved lending agency shall be any bank, cooperative marketing association, corporation, partnership, individual, or other legal entity with which the Commodity Credit Corporation has entered into a Lending Agency Agreement (Form PMA-97) or other lending agency agreement prescribed by Commodity Credit Corporation.

§ 264.33 *Eligible producer.* An eligible producer shall be any individual, partnership, association, corporation, or other legal entity producing the commodity in 1946, as landowner, landlord, tenant, or share cropper.

§ 264.34 *Eligible commodity.* Barley of any class grading No. 5 or better which was produced in 1946, the beneficial interest in which is now in the producer and always has been in him, or has been in him and a former producer whom he succeeded before the barley was harvested, shall be eligible as collateral for such loans. Barley grading tough, stained, blighted, smutty, garlicky, weevily, ergotty, or bleached shall not be eligible for loan.

(a) *When stored on farms.* Barley stored on the farm must have been stored in the granary at least 30 days prior to its inspection for measurement, sampling, and sealing, except as approved by State committees and regional directors of the Field Service Branch of Production and Marketing Administration. Barley containing in excess of 14 percent moisture shall not be eligible for farm-storage loans.

(b) *When stored in warehouses.* Loans will be made only on insured negotiable warehouse receipts covering eligible barley pledged as collateral issued by any public grain warehouse which has executed the Uniform Grain Storage Agreement, as amended, and has been approved by the Grain Branch.

§ 264.35 *Eligible storage.* Loans will be made on eligible barley stored in approved public grain warehouses or in acceptable storage structures located on farms.

(a) *Farm.* Farm-storage structures shall meet the requirements as determined by the Field Service Branch.

(b) *Warehouse.* Eligible warehouse storage shall include public grain warehouses which meet the requirements of Commodity Credit Corporation and which have executed the Uniform Grain Storage Agreement. Warehousemen desiring approval should communicate with the director of the office of the Grain Branch serving the area in which the warehouse is located. A list of approved warehouses will be furnished State and county committees by directors of Grain Branch offices.

§ 264.36 *Approved forms.* The approved forms constitute the loan documents which govern the right and responsibilities of the producer, and should be read carefully. Any fraudulent representation made by a producer in obtaining a loan or in executing any of the loan documents will render him subject to prosecution under the United States Criminal Code.

(a) Approved forms for farm storage shall consist of producer's notes, C. C. C. Commodity Form A, secured by chattel mortgages, C. C. C. Commodity Form AA.

(b) Approved forms for warehouse storage shall consist of note and loan agreements, C. C. C. Commodity Form B, secured by negotiable warehouse receipts representing the commodity stored in approved warehouses.

Warehouse receipts must be issued in the name of the producer, must be dated on or prior to the date of the related note, must be properly assigned by an endorsement in blank so as to vest title in the holder, and must be issued by an approved warehouseman. Unless the warehouse receipts are stamped or printed "insured" there must be attached and included in the certificate of the warehouseman a statement that the barley is insured for not less than the market value against the hazards of fire, lightning, inherent explosion, windstorm, cyclone, and tornado. Commodity Credit Corporation will not accept warehouse receipts indicating any lien for charges prior to unloading in or delivery to the warehouse issuing such receipts. Lien for handling and storage charges will be recognized only from May 15, 1946, or the date of the warehouse receipt, whichever is later. Such receipts must set out in their written or printed terms the gross weight, the grade, class, subclass, test weight, and all other factors and statements required to be stated in the written or printed terms of negotiable warehouse receipts under the provisions of section 2 of the Uniform Warehouse Receipts Acts or be accompanied by a certificate of the warehouseman, identified with such warehouse receipt, setting out such information, and shall

be based on the in-bound movement or delivery of the barley to the warehouse.

(c) Notes and note and loan agreements must be dated prior to January 1, 1947, and executed in accordance with these instructions, with State and documentary revenue stamps affixed thereto where required by law. Notes and note and loan agreements executed by an administrator, executor, or trustee will be acceptable only where legally valid.

§ 264.37 *Determination of quantity of barley.* A bushel shall be 48 pounds of clean barley free of dockage when determined by weight, or 1.25 cubic feet of barley testing 48 pounds per bushel when determined by measurement. In determining the quantity of barley in farm storage by measurement, fractional pounds of the bushel test weight will be disregarded, and the quantity determined as above will be the following percentages of the quantity determined for 48-pound barley:

For barley testing	*Percent*
48 pounds or over	100
47 pounds or over, but less than 48 pounds	98
46 pounds or over, but less than 47 pounds	96
45 pounds or over, but less than 46 pounds	94
44 pounds or over, but less than 45 pounds	92
43 pounds or over, but less than 44 pounds	90
42 pounds or over, but less than 43 pounds	88
41 pounds or over, but less than 42 pounds	85
40 pounds or over, but less than 41 pounds	83
39 pounds or over, but less than 40 pounds	81
38 pounds or over, but less than 39 pounds	79
37 pounds or over, but less than 38 pounds	77
36 pounds or over, but less than 37 pounds	75
35 pounds or over, but less than 36 pounds	73

§ 264.38 *Determination of dockage.* Determination of dockage shall be made on the basis of a representative sample analyzed by an approved laboratory in accordance with the Official Grain Standards of the United States.

§ 264.39 *Liens.* The commodity must be free and clear of all liens and encumbrances, or if liens or encumbrances exist on the commodity, proper waivers must be obtained.

§ 264.40 *Service fees.* Where the commodity is farm-stored the producer shall pay a service fee of 1 cent per bushel; and where the commodity is warehouse-stored the producer shall pay a service fee of ½ cent per bushel.

§ 264.41 *Set-offs.* A producer who is listed on the county debt register as indebted to any agency or corporation of the United States Department of Agriculture shall designate the agency or corporation to which he is indebted as the payee of the proceeds of the loan to the extent of such indebtedness, but not to exceed that portion of the proceeds remaining after deduction of the service fees and amounts due prior lienholders. Indebtedness owing to the Commodity Credit Corporation shall be given first consideration after claims of prior lien-holders.

§ 264.42 *Loan rates*—(a) *Basic loan rate at terminal markets.* 1946 loan rates per bushel for No. 1 barley stored in approved public grain warehouses at the following terminal markets shall be as follows:

Market	*Loan rate per. bu.*
Kansas City, Mo.; Omaha, Nebr.; and Minneapolis, Minn	$0.93
Chicago, Ill.; and St. Louis, Mo	.97
Memphis, Tenn	1.03
Philadelphia, Pa.; and Baltimore, Md	1.08
Portland, Oreg.; Los Angeles and San Francisco, Calif	1.00

All barley eligible for loan at the foregoing loan rates must have been shipped on a domestic freight rate basis. The loan rate at the designated terminal market will be reduced by the difference between the freight paid and the domestic rate on any barley shipped at other than the domestic rate.

The foregoing schedule of loan rates applies to barley delivered to any of the above designated terminal markets in carload lots which have been shipped by rail from a country shipping point to one of the designated terminal markets, as evidenced by paid freight bills duly registered for transit privileges and other documents as required herein: *Provided*, That, in the event the amount of paid-in freight is insufficient to guarantee minimum proportional rate from the terminal market, there shall be deducted from the applicable terminal loan rate the difference between the amount of freight actually paid in and the amount required to be paid in to guarantee minimum proportional basis on the outbound movement: *And provided further*, That Commodity Credit Corporation will accept in lieu of such bills, warehouse receipts on which a statement, signed by the warehouseman, has been typed in the form hereinafter set forth or a certificate of the warehouseman containing such a certification or such other form of certification as may be approved by Commodity Credit Corporation. A deduction of 6 cents per bushel shall be made if evidence is not submitted that paid freight bills have been registered for transit privileges.

FREIGHT CERTIFICATE FOR TERMINALS

The barley represented by attached warehouse receipt No. _____ was received by rail freight from _____ (Town) _____ (County) _____ point of origin, as evidenced (State) by freight bill described as follows: Way Bill, Date _____ No. _____ Car No. _____ Int. _____ Freight Bill, Date _____ No. _____ Carrier _____ Transit Weight _____ Freight Rate in _____ Amount Collected _____ Number Unused Transit Stops _____.

The above-described paid freight bills have been officially registered for transit and will be held in accordance with the provisions of paragraph 22 of the Uniform Grain Storage Agreement.

_____
Date of Signature

_____
Warehouseman's Signature

_____
Address

Barley trucked to a designated terminal market and stored in a warehouse shall have a loan rate equal to the higher of (1) the terminal loan rate minus 6 cents per bushel, or, (2) the county loan rate for the county in which the barley is stored.

(b) *Basic loan rates at country points.* Commodity Credit Corporation will determine county loan rates on barley in storage on the farm or in country warehouses by deducting from the designated terminal market loan value an amount equal to 4 cents more than the applicable county average freight rate, plus freight tax, to such terminal market.

Each approved warehouse will be advised as to the loan rate applicable to barley stored in such warehouse. Producers may obtain from their respective county committees the loan rates applicable to barley stored on farms and in the public warehouses.

The loan rate for eligible barley stored in approved warehouses (other than those situated in the designated terminal markets) which was shipped by rail may be determined by deducting from the appropriate designated terminal market loan value an amount equal to the transit balance of the through freight rate from point of origin for such barley to such terminal market, plus freight tax on such transit balance; *Provided*, That in the case of barley stored at any railroad transit point, taking a penalty by reason of out-of-line movement, or for any other reason, to the appropriate designated market, there shall be added to such transit balance an amount equal to any out-of-line or other costs, as determined by Commodity Credit Corporation, incurred in storing loan barley in such position. Arrangements have been made for the railroads to indicate transit balance of the through rate on the in-bound paid freight bills on a basis of 100 pounds. To obtain the loan rate as determined above, the warehouse receipts, in addition to other required documents, must be accompanied by the original paid freight bills duly registered for transit privileges; *Provided*, That Commodity Credit Corporation will accept in lieu of such bills a statement signed by the warehouseman typed on the warehouse receipt, or on a supplemental certificate containing the certification set forth in paragraph (a) of this section, with the following additional information added:

Transit Balance, if any, of through freight rate to _____ of _____ per 100 pounds.

(c) *Variations for grades.* The loan rate for No. 2 shall be 2 cents per bushel less than for No. 1. The loan rate for No. 3 shall be 5 cents per bushel less than for No. 1. The loan rate for No. 4 shall be 8 cents per bushel less than for No. 1. The loan rate for No. 5 shall be 15 cents per bushel less than for No. 1. In addition, there shall be a discount of 2 cents per bushel for "mixed" barley.

(d) *County loan rates.* (1) Seven cents per bushel shall be deducted from the applicable loan rate for barley stored in warehouses unless evidence of prepaid storage is submitted.

(2) Barley trucked to a designated terminal market and stored in a warehouse shall have a loan rate equal to the higher of (i) the terminal loan rate minus 6 cents per bushel, or (ii) the county loan rate for the county in which the barley is stored. (Subparagraph (1) also applies to terminal market storage.)

§ 264.43 *Interest rate.* Loans shall bear interest at the rate of 3 percent per annum; and interest shall accrue from the date of disbursement of the loan, notwithstanding the printed provisions of the note.

§ 264.44 *Transfer of producer's equity.* The right of the producer to transfer either his right to redeem the commodity

or his remaining interest may be restricted by Commodity Credit Corporation.

§ 264.45 *Safeguarding of the commodity.* The producer is obligated to maintain the farm-storage structures in good repair, and to keep the commodity in good condition.

§ 264.46 *Insurance.* Commodity Credit Corporation will not require the producer to insure the commodity placed under farm-storage loan; however, if the producer does insure such commodity such insurance shall inure to the benefit of Commodity Credit Corporation to the extent of its interest, after first satisfying the producer's equity in the commodity involved in the loss.

§ 264.47 *Loss or damage to the commodity.* The producer is responsible for any loss in quantity or quality to farm-stored commodity, except that uninsured physical loss or damage occurring without fault, negligence, or conversion on the part of the producer resulting solely from an external cause other than insect infestation or vermin will be assumed by the Corporation, provided the producer has given the county committee immediate notice in writing of such loss or damage, and provided there has been no fraudulent representation made by the producer in the loan documents or in obtaining the loan.

§ 264.48 *Personal liability.* The making of any fraudulent representation by the producer in the loan documents or in obtaining the loan, or the conversion or unlawful disposition of any portion of the commodity by him, shall render the producer personally liable for the amount of the loan and for any resulting expense incurred by any holder of the note.

§ 264.49 *Maturity and satisfaction.* Loans mature on demand but not later than April 30, 1947. In the case of farm-storage loans, the producer is required to pay off his loan on or before maturity date, or to deliver the mortgaged commodity within 60 days after maturity date. Credit will be given for the total quantity delivered, provided it was stored in the cribs or bins in which the commodity under loan was stored, at the applicable settlement rate, according to grade and/or quality. If the settlement value of the commodity delivered exceeds the amount due on the loan, the amount of the excess shall be paid to the producer. If the settlement value of the commodity is less than the amount due on the loan, the amount of the deficiency, plus interest, shall be paid by the producer to the Corporation, and may be set off against any payment which would otherwise be made to the producer under any agricultural programs administered by the Secretary of Agriculture, or any other payments which are due or may become due to the producer from Commodity Credit Corporation or any other agency of the United States. In the event the farm is sold or there is a change of tenancy, the commodity may be delivered before the maturity date of the loan upon prior approval of the county committee.

§ 264.50 *Removal of the commodity.* If the loan is not satisfied upon maturity by payment or delivery, the holder of the note may remove the commodity and sell it, either by separate contract or after pooling it with other lots of the same commodity similarly held. The producer has no right of redemption after the commodity is pooled, but shall share ratably in any overplus remaining upon liquidation of the pool. The Commodity Credit Corporation shall have the right to treat a pooled commodity as a reserve supply to be marketed under such sales policies as the Corporation determines will promote orderly marketing, protect the interests of producers and consumers, and not unduly impair the market for the current crop of the commodity, even though part or all of such pooled commodity is disposed of under such policies at prices less than the current domestic price for such commodity. Any sum due the producer as a result of the sale of the commodity or of insurance proceeds thereon, or any ratable share resulting from the liquidation of a pool, shall be payable only to the producer without right of assignment by him.

§ 264.51 *Release of the commodity.* A producer may obtain release of the commodity by paying to the holder of the note, or note and loan agreement, the principal amount thereof, plus interest. If the note is held by an out-of-town lending agency or by Commodity Credit Corporation, the producer may request that the note be forwarded to a local bank for collection. In such case, where Commodity Credit Corporation is the holder of the note, the local bank will be instructed to return the note if payment is not effected within 15 days. All charges in connection with the collection of the note shall be paid by the producer. Upon payment of a farm-storage loan, the county committee should be requested to release the mortgage by filing an instrument of release or by a marginal release on the county records. Partial releases of the commodity may be arranged with the county committee by paying to the holder of the note the amount of the loan, plus charges and accrued interest, represented by the quantity of the commodity to be released. In case of warehouse-storage loans, each partial release must cover all of the commodity under one warehouse receipt number.

§ 264.52 *Storage allowance.* No farm-storage allowance shall be made. On barley stored in public warehouse, 7 cents per bushel shall be deducted from the applicable loan rate unless evidence of prepaid storage is submitted in substantially the following form:

Storage charges through April 30, 1947, on the barley represented by this warehouse receipt have been paid or otherwise provided for, and lien for such charges will not be claimed by the warehouseman from Commodity Credit Corporation or any subsequent holder of this warehouse receipt.

Address

Warehouseman

§ 264.53 *Purchase of notes.* Commodity Credit Corporation will purchase, from approved lending agencies, notes evidencing approved loans which are secured by chattel mortgages or negotiable warehouse receipts. The purchase price to be paid by Commodity Credit Corporation will be the principal sums remaining due on such notes, plus accrued interest from the date of disbursement to the date of purchase at the rate of 1½ percent per annum. Lending agencies are required to submit a weekly report to the Corporation and to the county committees on 1940 C. C. C. Form F or such other form as the Corporation may prescribe, of all payments received on producers' notes held by them, and are required to remit promptly to Commodity Credit Corporation an amount equivalent to 1½ percent interest per annum, on the amount of the principal collected, from the date of disbursement to the date of payment. Lending agencies should submit notes and reports to the Grain Branch office serving the area.

§ 264.54 *Offices of directors of Grain Branch.* The offices of the directors of the Grain Branch and the areas served by them, are shown below:

Address and Area

208 South LaSalle Street, Chicago 4, Ill.: Delaware, Illinois (except East St. Louis), Indiana, Kentucky, Maryland, Michigan, New York, Ohio, Pennsylvania, Tennessee, Virginia, West Virginia, Southern Wisconsin, and States not otherwise listed.

212 West 14th Street, Kansas City 8, Mo.: Alabama, Arkansas, Colorado, Florida, Georgia, Kansas, Louisiana, Mississippi, Missouri (also East St. Louis), Nebraska, New Mexico, Oklahoma, South Carolina, Texas, and Wyoming.

328 McKnight Building, Minneapolis 1, Minn.: Minnesota, Montana, North Dakota, South Dakota, and Northern Wisconsin.

Eastern Outfitting Building, 515 Southwest Tenth and Washington Streets, Portland 5, Oreg.: Arizona, California, Idaho, Nevada, Oregon, Utah, and Washington.

Date program announced, June 11, 1946.

NOTE: The foregoing document covers 1946 C. C. C. Barley Bulletin 1 issued by Commodity Credit Corporation June 11, 1946, and Supplements 1 and 2 to said Bulletin issued on June 11, 1946.

[SEAL] C. C. FARRINGTON,
Vice President,
Commodity Credit Corporation.

[1946 C. C. C. Seed Bulletin I (Purchase) as Amended]

PART 274—SEED LOANS AND PURCHASES

SEED PURCHASE PROGRAM

This bulletin states the requirements with respect to the 1946 Winter Cover Crop Seed Purchase Program formulated by Commodity Credit Corporation and the Production and Marketing Administration under which purchases will be made of seed produced in 1946 (hereinafter referred to as the "commodity") delivered to designated delivery points in accordance with this bulletin.

Sec.
274.01 Administration of program.
274.02 Location and season of purchases.
274.03 Payment.
274.04 Eligible producer.
274.05 Eligible seed.
274.06 Handling of seeds.
274.07 Approved forms.
274.08 Determination of quantity.
274.09 Determination of quality.
274.10 Liens.
274.11 Charges to be paid by producers.
274.12 Set-offs.
274.13 Pricing basis.
274.14 Offices of directors of Grain Branch.

AUTHORITY: §§ 274.01 to 274.14, inclusive, issued under Article Third, par. (b) and (j) of the Corporate Charter of the Commodity Credit Corporation; sec. 7 (a), 49 Stat. 4, as amended, sec. 4 (b), 55 Stat. 498, 56 Stat. 768, 15 U. S. C. and Sup. 713 (a), 713a–8 (b).

§ 274.01 *Administration of programs.* The program will be administered at the county level by the county agricultural conservation committees under the general supervision of the respective State PMA committees.

Forms may be obtained from county committees, or from the office of the director of the Grain Branch serving the area. State and county committees will determine or cause to be determined the quantity and grade of the commodity and the amount of the purchase. All purchase documents will be completed and approved by the county committee, which will retain copies of all documents; *Provided, however,* That the county committee may designate in writing certain employees of the county agricultural conservation association to execute such forms on behalf of the committee.

The county committee will furnish sellers with the address of the Grain Branch office in the area to which purchase documents are forwarded for disbursement.

§ 274.02 *Location and season of purchases*—(a) *Area.* Purchases will be made from producers in the area where facilities are available for cleaning and packaging the seed.

(b) *Purchase period.* Purchases of seed will be made from the 1946 harvest-time through April 30, 1947.

§ 274.03 *Payment.* Payments will be made direct to producers and others designated by producers (on CCC Purchase Form A) by the regional director of Grain Branch, Production and Marketing Administration, serving the area in which purchases are made.

§ 274.04 *Eligible producer.* An eligible producer is any person, partnership, association, or corporation harvesting the seed in 1946 as landowner, landlord, tenant or custom harvester.

§ 274.05 *Eligible seed.* Hairy vetch, Willamette vetch, crimson clover and annual (common) ryegrass seed (hereinafter called "seed"), shall be eligible when harvested in 1946 by eligible producers (hereinafter called "producer"), as defined herein.

(a) *Specifications.* The seed must, by official test, be equal to or better than the lowest of the specifications for the particular kind of seed as shown in attached Purchase Supplements 1 and 2.

(b) *Packaging.* The seed shall be packaged in bags of approved quality (as described in attached Supplement 3), of 100 pounds net, or either 100 pounds net or 150 pounds net in the case of crimson clover grown east of the Rocky Mountains.

(c) *Fumigation.* The seed shall be fumigated, if necessary, to eradicate or prevent insect infestation.

§ 274.06 *Handling of seeds.* Seed dealers, cooperative associations, or others having adequate facilities for handling the seed who have agreed in Memorandum of Understanding with the county committee to provide certain services in connection with seed purchased under the program will assemble the seed and prepare it for delivery. Instructions for shipment of the purchased seeds will be issued by the regional office of the Grain Branch and transmitted to the dealers through the State PMA and county offices.

§ 274.07 *Approved forms.* The Memorandum of Purchase (CCC Purchase Form A) shall constitute the purchase document which will govern the conditions under which the purchase is made.

The Memorandum of Understanding (Supplement 4 or 5) contains the conditions for handling the seeds being purchased and the procedure to be followed by the dealers and county committees.

§ 274.08 *Determination of quantity.* The net weight of the seed shall constitute the quantity of seed purchased.

§ 274.09 *Determination of quality.* All determinations of germination and purity shall be on the basis of an official test of a representative sample.

NOTE: For purposes of this program, an "official test" is an analysis made by a seed-testing laboratory approved by the State PMA committee.

§ 274.10 *Liens.* The commodity must be free and clear of all liens and encumbrances, or if liens or encumbrances exist on the commodity, proper waivers must be obtained.

§ 274.11 *Charges to be paid by producers.* In the case of seed purchased by Commodity Credit Corporation, the producer shall pay all cleaning expenses and other expenses (including bagging and cost of bags), except analysis expense, whether covered herein or not, which are necessary to prepare the seed to meet all eligibility requirements. Producers shall pay all charges (including charges for the issuance of reports) in connection with the sampling and analysis of seed which, by official test, is not of an eligible quality.

§ 274.12 *Set-offs.* A producer who is listed on the county debt register as indebted to any agency or corporation of the United States Department of Agriculture shall designate the agency or corporation to which he is indebted as the payee of the proceeds of the sale to the extent of such indebtedness, but not to exceed that portion of the proceeds remaining after deduction of the service fees and amounts due prior lienholders. The Commodity Credit Corporation shall be given first consideration for outstanding indebtedness after claims of prior lienholders.

§ 274.13 *Pricing basis.* The prices to be paid for the seed shall be computed in accordance with the applicable schedule (Supplements 1 and 2 attached hereto) for the area.

§ 274.14 *Offices of directors of Grain Branch.* The offices of the directors of the Grain Branch referred to herein and the areas served by them under these instructions are shown below:

Address of Director and area

208 South La Salle Street, Chicago 4, Ill.: Connecticut, Delaware, Illinois (except East St. Louis), Indiana, Iowa, Kentucky, Maryland, Maine, Massachusetts, Michigan, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, Tennessee, Vermont, Virginia, and West Virginia.

212 West 14th Street, Kansas City 8, Mo.: Alabama, Arkansas, Colorado, Georgia, Florida, Kansas, Louisiana, Mississippi, Missouri (also East St. Louis), Nebraska, New Mexico, Oklahoma, South Carolina, Texas, and Wyoming.

Eastern Outfitting Building, 515 Southwest Tenth and Washington Streets, Portland 5, Oreg.: Arizona, California, Idaho, Nevada, Oregon, Utah, and Washington.

326 McKnight Building, Minneapolis 1, Minn.: Minnesota, Montana, North Dakota, South Dakota, and Wisconsin.

Dated: June 15, 1946.

[SEAL] C. C. FARRINGTON,
Vice President,
Commodity Credit Corporation.

NOTE: The foregoing document covers 1946 C. C. C. Seed Bulletin I (purchase), issued by Commodity Credit Corporation June 15, 1946, and amendment No. 1 to said Bulletin issued on June 15, 1946.

1946 CCC Seed Bulletin 1 (Purchase), Supp. 1.

1946 WINTER COVER CROP SEED PURCHASE PROGRAM, SCHEDULE OF SPECIFICATIONS AND PRICES

[East Central and Southern regions]

	Crimson clover	Hairy vetch	Common ryegrass
Base specifications:			
Germination (live seed including hard seed)	85%	90%	90%
Pure seed	98%	99%	98%
Base price per cwt.	$12.50	$13.00	$8.50
Applicable discounts per cwt. for—			
A. Each 1% below base specifications:			
1. Germination (for crimson clover seed with germination of less than 85%, the following prices will apply: 80% to 84%, $12.00 per cwt.; 75% to 79%, $11.50 per cwt.)	------	$0.16	$0.10
2. Pure seed	$0.20	$0.09	$0.10
B. Wild onion (Kentucky only)[1]	$1.00	------	------
Minimum eligibility specifications:			
Germination	75%	70%	75%
Pure seed	96%	70%	95%
Total Winter legumes	------	98%	------
Noxious weed—maximum	None	------	------
Weed seed—maximum	1.0%	------	2.0%
Other crop seed—maximum	2.0%	------	------

Where no entries appear, no requirements or discounts have been established.

[1] In Kentucky, seed containing not more than 5 wild onion bulblets per ounce will also be purchased at a discount of $1.00 per cwt.

1946 CCC Seed Bulletin 1 (Purchase), Supp. 2.

SCHEDULE OF SPECIFICATIONS AND PRICES APPLICABLE TO 1946 SEED PURCHASE PROGRAM

[Western region]

	Hairy vetch[1]	Willamette vetch[1]	Crimson clover	Ryegrass
1. Basic price per pound	[2] $0.12	[2] $0.06	$0.115	$0.075
2. Basic price requirements:				
Germination [3]	[4] 90	[4] 90	85	90
Purity	95	98	98	98
Total winter legume	98	98	(5)	(5)
Noxious weeds permitted	(5)	(5)	None	(5)
Common weed not to exceed	-------	(5)	1%	2%
Other crop seed permitted	(5)	(5)	2%	(5)
3. Discount per cwt. applicable for each percent below the basic price requirements for:				
Germination [3]	$0.16	$0.09	$0.16	$0.10
Purity	$0.09	$0.025	$0.20	$0.10
4. Minimum eligibility requirements:				
Germination [3]	[4] 70	[4] 70	63	75
Purity	70	70	96	95
Total winter legume	98	98	(5)	(5)
Noxious weeds permitted	(5)	(5)	None	(5)
Common weed not to exceed	-------	(5)	1%	2%
Other crop seed permitted	(5)	(5)	2%	(5)

[1] Price of hairy vetch shall not be discounted due to the presence of woollypod.

[2] Subject to announced bag discounts per cwt.

[3] Live seed including hard seed.

[4] The weighted average germination may be used in determining the germination of mixture of winter legume seed.

[5] No requirements specified for this item. However, the total winter legume requirements where specified and the purity requirement for crimson clover and ryegrass must be met in order for seed to be eligible for purchase.

[6] Minimum requirement for Willamette vetch will be in accordance with the rules and regulations of the authorized certification agency of the State wherein the crop was produced.

[7] Hairy vetch and woollypod vetch will qualify as Willamette vetch provided there is at least 70 percent Willamette vetch present.

1946 CCC Seed Bulletin 1 (Purchase), Supp. 3.

APPROVED BAGS

The following chart indicates the types of new bags approved for use in packaging seed of the 1946 crop and the discounts per cwt. where applicable:

Type	Net capacity	Discount per cwt.
a. For vetches:		
(1) 3-harness twill: (a) 36-inch 8-oz. or heavier	*Lbs.* 100	None
(2) Try-sax:		
(a) 36-inch 7.5-oz. or heavier	100	None
(b) 40-inch 8.25-oz. or heavier	100	None
(3) Osnaburg:		
(a) 36-inch 7-oz. or heavier	100	None
(b) 40-inch 2.05-yard or heavier	100	None
(4) Burlap: (a) 10-oz. or heavier	100	None
b. For crimson clover:		
(1) Try-sax (double seam):		
(a) 36-inch 7.5-oz. or heavier	100	None
(b) 40-inch 8.25-oz. or heavier	100	None
(2) Osnaburg (seamless or double seam): (a) 36-inch 7-oz. or heavier	100	None
(3) Seamless cotton 16-oz.	150	None
c. For common ryegrass:		
(1) Try-sax:		
(a) 36-inch 7.5-oz. or heavier	100	None
(b) 40-inch 8.25-oz. or heavier	100	None
(2) Osnaburg: (a) 30-inch 7-oz. or heavier	100	None
(3) Burlap: (a) 8-oz. or heavier	100	None

[1946 C. C. C. Seed Bulletin I (Loan) as Amended]

PART 274—SEED LOANS AND PURCHASE

SUBPART—1946

This bulletin states the requirements with respect to the 1946 Seed Loan Program formulated by Commodity Credit Corporation and the Production and Marketing Administration. Loans will be made available on winter cover crop and legume and grass seed (hereinafter referred to as the "commodity") produced in 1946 in accordance with this bulletin.

Sec.

274.15 Administration of program.
274.16 Availability of loans.
274.17 Approved lending agencies.
274.18 Eligible producer.
274.19 Eligible commodity.
274.20 Eligible storage.
274.21 Approved forms.
274.22 Determination of quantity.
274.23 Determination of quality.
274.24 Liens.
274.25 Charges to be paid by producer.
274.26 Set-offs.
274.27 Loan rates.
274.28 Interest rate.
274.29 Transfer of producer's equity.
274.30 Safeguarding of the commodity.
274.31 Insurance.
274.32 Loss or damage to the commodity.
274.33 Personal liability.
274.34 Maturity and satisfaction.
274.35 Removal of the commodity.
274.36 Release of the commodity.
274.37 Storage allowance.
274.38 Purchase of notes.
274.39 Offices of directors of Grain Branch.

AUTHORITY: §§ 274.15 to 274.39, inclusive, issued under Article Third, par. (b) of Corporate Charter of Commodity Credit Corporation; sec. 7 (a), 49 Stat. 4, as amended, sec. 302 (a) 52 Stat. 43, as amended, sec. 4 (b) 55 Stat. 498, 56 Stat. 768; 15 U. S. C. and Sup. 713 (a), 713a-8 (b), 7 U. S. C. 1302 (a).

§ 274.15 *Administration of program.* The program will be administered at the county level by the county agricultural conservation committees under the general supervision of the respective State committees.

Forms may be obtained from county committees in areas where loans are available, or from the office of the Director of the Grain Branch serving the area. State and county committees will determine or cause to be determined the quantity and grade of the commodity and the amount of the loan. All documents will be completed and approved by the county committee, which will retain copies of all documents: *Provided, however,* That the county committee may designate in writing certain employees of the county agricultural conservation association to execute such forms on behalf of the committee.

The county committee will furnish the borrower with the names of local lending agencies approved for making disbursements on loan documents, or with the address of the Grain Branch office to which loan documents may be forwarded for disbursement.

§ 274.16 *Availability of loans.* (a) Seed loans shall be available in the areas where the seed is produced. Insofar as is practicable, warehouse rather than farm storage shall be required by the county committee in all areas.

(b) Seed loans shall be available after the 1946 harvest season begins. Loan documents must be completed prior to September 1, 1946, for blue lupine and February 15, 1947, for other seeds.

§ 274.17 *Approved lending agencies.* An approved lending agency shall be any bank, cooperative marketing association, corporation, partnership, individual, or other legal entity with which the Commodity Credit Corporation has entered into a Lending Agency Agreement (Form PMA-97) or other lending agency agreement prescribed by Commodity Credit Corporation.

§ 274.18 *Eligible producer.* An eligible producer shall be any individual, partnership, association, corporation, or other legal entity producing the commodity in 1946, as landowner, landlord, tenant, share cropper, or custom harvester.

§ 274.19 *Eligible commodity*—(a) *Eligible seed.* Any seed specified in the attached schedule (Supplement 1, to this bulletin) of specifications and loan rates which is harvested in 1946 by an eligible producer, which can be or is cleaned to meet the specifications, and which does not contain noxious weeds or seeds of White Top, Canada Thistle, Dodder, Quackgrass, Johnson Grass, Bindweed, Russian Knapweed, Perennial Sow Thistle, or Leafy Spurge singly or combined in excess of 45 seeds per pound (90 in unhulled lespedeza seed) is eligible for a loan when placed in proper storage, if the beneficial interest is and always has been in the eligible producer tendering the seed for a loan, or in him and a former producer whom he succeeded before, or at the time, the seed was harvested.

(b) *Alfalfa areas.* In determining seed specifications for alfalfa, three regional areas, northern, central, and southern, are recognized based on adaptation. The Northern Region includes all producing areas north of the southern boundaries of Idaho, Nebraska, Oregon, and Wyoming, and eastward in counties which are north of, or intersected by, the 40th degree of latitude. The Central Region includes all the producing areas south of the Northern Region and north of the 37th degree of latitude (excluding California north of the 37th degree of latitude except the counties of Plumas, Tehama, and those counties north of the 40th degree of latitude, but including all counties south of the 37th degree of latitude in Kentucky, Missouri, Nevada, and Virginia). Approved origin alfalfa seed in Oklahoma tagged and sealed with the official tags and seals of the Oklahoma Crop Improvement Association will be at the rates specified for the Central Region. The Southern Region includes all the producing areas south of the Central Region.

(c) *Certified seed.* Varieties or strains of hay and pasture seeds designated by State agricultural experiment stations in cooperation with State seed certifying agencies, and Bureau of Plant Industry, Soils and Agricultural Engineering of the U. S. Department of Agriculture will be eligible for loans as "certified seed." Seed of these varieties or strains are to be certified by the State seed certifying agency of the State where grown. The standards and procedures for certification of each State must be approved by the executive committee of the International Crop Improvement Association or its designated agent.

§ 274.20 *Eligible storage*—(a) *Farm.* Only inspected and approved structures will qualify. Farm storage is applicable only to Sudan grass seed, uncertified orchard grass seed, and to Kobe lespedeza and only in areas designated by the Field Service Branch. Farm storage shall consist of farm buildings which are of such substantial and permanent construction as determined by the county agricultural conservation committee as to afford safe storage of the seed for a period of 2 years and permit effective fumigation for the destruction of insects and afford protection against rodents, other animals, thieves, and weather.

(b) *Warehouse.* Seed shall be stored in a warehouse which has executed a Seed Cleaning and Storage Agreement on CCC Seed Form A and which complies with other provisions of the bulletin. Upon delivery of the seeds to producers on payment of their loans, warehousemen shall label all seed as required by the Federal Seed Act and the applicable State seed law. Upon delivery of the seed to CCC, warehousemen shall label all seed as required by the Federal Seed Act and the seed law of the State or country into which shipment is directed by CCC.

§ 274.21 *Approved forms.* The approved forms constitute the loan documents which govern the rights and responsibilities of the producer, and should be read carefully. Any fraudulent representation made by a producer in obtaining a loan or in executing any of the loan documents will render him subject to prosecution under the United States Criminal Code.

(a) Approved forms for farm storage shall consist of producer's notes on CCC Commodity Form A, secured by chattel mortgages on CCC Commodity Form AA.

(b) Approved forms for warehouse storage shall consist of note and loan agreements, CCC Commodity Form B, secured by negotiable warehouse receipts representing the commodity stored in approved warehouses.

(c) Notes and note and loan agreements must be executed in accordance with these instructions, with State and documentary revenue stamps affixed thereto where required by law. Notes and note and loan agreements executed by an administrator, executor, or trustee will be acceptable only where legally valid.

§ 274.22 *Determination of quantity.* The actual weight of the seed shall constitute the quantity of seed to be under loan; except that the quantity of Sudan Grass or Kobe Lespedeza Seed in farm storage may be determined by multiplying the number of net cubic feet in the bin times 30 for Sudan and 22 for Kobe, times the percent of pure seed as determined by the analysis, and the product shall be the pounds of seed to be placed under loan. The quantity of uncertified orchard grass in farm storage may be determined by multiplying the number of net cubic feet in the bin, times 11, times the percent of pure seed as determined by the analysis and the product shall be the pounds of seed to be placed under loan. Measurements and computation shall be according to instructions in AAA Commodity Loan Form 2, Part 1.

§ 274.23 *Determination of quality.* The county agricultural conservation committee shall arrange for the securing of a representative sample for the determination of quality. The sample shall be sent to a laboratory approved by the Field Service Branch for analysis and germination test. The analysis shall show pure seed, other crop seed, weed seed, inert matter, and noxious weed seeds and germination.

§ 274.24 *Liens.* The commodity must be free and clear of all liens and encumbrances, or if liens or encumbrances exist on the commodity, proper waivers must be obtained.

§ 274.25 *Charges to be paid by producer*—(a) *Service fees.* Where the commodity is farm-stored the producer shall pay a service fee of 2 cents per hundredweight but not less than $3.00; and where the commodity is warehouse-stored the producer shall pay a service fee of 1 cent per hundredweight but not less than $1.50.

(b) *Other charges.* Costs of cleaning, bags and bagging, testing, tagging, fumigating if necessary, and transportation to approved warehouses are to be borne by the producer. Such costs should not exceed the charges provided in the CCC cleaning and storage agreement for seed processors. In case of warehouse storage in bulk or otherwise where the seed is not ready for merchandising, the cost of the above items not paid for by the producer shall be deducted from the amount of the loan.

§ 274.26 *Set-offs.* A producer who is listed on the county AAA debt register as indebted to any agency or corporation of the United States Department of Agriculture shall designate the agency or corporation to which he is indebted as the payee of the proceeds of the loan to the extent of such indebtedness, but not to exceed that portion of the proceeds remaining after deductions of the service fees and amounts due prior lienholders. Indebtedness owing to the Commodity Credit Corporation shall be given first consideration after claims of prior lien-holders.

§ 274.27 *Loan rates.* Loan and settlement rates for the designated qualities of seed are set out in attached 1946 CCC Seed Bulletin 1 (Loan), Supplement 1.

§ 274.28 *Interest rate.* Loans shall bear interest at the rate of 3 percent per annum; and interest shall accrue from the date of disbursement of the loan, notwithstanding the printed provisions of the note.

§ 274.29 *Transfer of producer's equity.* The right of the producer to transfer either his right to redeem the commodity or his remaining interest may be restricted by Commodity Credit Corporation.

§ 274.30 *Safeguarding of the commodity.* The producer is obligated to maintain the farm-storage structures in good repair, and to keep the commodity in good condition.

§ 274.31 *Insurance.* Commodity Credit Corporation will not require the producer to insure the commodity placed under farm-storage loan; however, if the producer does insure such commodity such insurance shall inure to the benefit of Commodity Credit Corporation to the extent of its interest, after first satisfying the producer's equity in the commodity involved in the loss.

§ 274.32 *Loss or damage to the commodity.* The producer is responsible for any loss in quantity or quality to farm-stored commodity, except that uninsured physical loss or damage occurring without fault, negligence, or conversion on the part of the producer resulting solely from an external cause other than insect infestation or vermin will be assumed by the Corporation, provided the producer has given the county committee immediate notice in writing of such loss or damage, and provided there has been no fraudulent representation made by the producer in the loan documents or in obtaining the loan.

§ 274.33 *Personal liability.* The making of any fraudulent representation by the producer in the loan documents or in obtaining the loan, or the conversion or unlawful disposition of any portion of the commodity by him, shall render the producer personally liable for the amount of the loan and for any resulting expense incurred by any holder of the note.

§ 274.34 *Maturity and satisfaction.* Loans mature on demand but not later than September 1, 1946, for blue lupine, March 15, 1947, for all varieties of lespedeza and uncertified orchard grass, and April 30, 1947, for other seeds. In the case of farm-storage loans, the producer is required to pay off his loan on or before maturity date, or to deliver the mortgaged commodity within 60 days after maturity date. Credit will be given for the total quantity delivered, provided it was stored in the bins in which the commodity under loan was stored, at the applicable settlement rate, according to quality. If the settlement value of the commodity delivered exceeds the amount due on the loan, the amount of the excess shall be paid to the producer. If the settlement value of the commodity is less than the amount due on the loan, the amount of the deficiency, plus interest, shall be paid by the producer to the Corporation, and may be set off against any payment which would otherwise be made to the producer under any agricultural programs administered by the Secretary of Agriculture, or any other payments which are due or may become due to the producer from Commodity Credit Corporation or any other agency of the United States. In the event the farm is sold or there is a change of tenancy, the commodity may be delivered before the maturity date of the loan upon prior approval by the county committee.

§ 274.35 *Removal of the commodity.* If the loan is not satisfied upon maturity by payment, or delivery, the holder of the note may remove the commodity and sell it, either by separate contract or after pooling it with other lots of the same

commodity similarly held. The producer has no right of redemption after the commodity is pooled, but shall share ratably in any overplus remaining upon liquidation of the pool. The Commodity Credit Corporation shall have the right to treat a pooled commodity as a reserve supply to be marketed under such sales policies as the Corporation determines will promote orderly marketing, protect the interests of producers and consumers, and not unduly impair the market for the current crop of the commodity, even though part or all of such pooled commodity is disposed of under such policies at prices less than the current domestic price for such commodity. Any sum due the producer as a result of the sale of the commodity or of insurance proceeds thereon, or any ratable share resulting from the liquidation of a pool, shall be payable only to the producer without right of assignment by him.

§ 274.36 *Release of the commodity.* A producer may obtain release of the commodity by paying to the holder of the note, or note and loan agreement, the principal amount thereof, plus interest. If the note is held by an out-of-town lending agency or by Commodity Credit Corporation, the producer may request that the note be forwarded to a local bank for collection. In such case, where Commodity Credit Corporation is the holder of the note, the local bank will be instructed to return the note if payment is not effected within 15 days. All charges in connection with the collection of the note shall be paid by the producer. Upon payment of a farm-storage loan, the county committee should be requested to release the mortgage by filing an instrument of release or by a marginal release on the county records. Partial releases of the commodity may be arranged with the county committee by paying to the holder of the note the amount of the loan, plus charges and accrued interest, represented by the quantity of the commodity to be released. In case of warehouse-storage loans, each partial release must cover all of the commodity under one warehouse receipt number.

§ 274.37 *Storage allowance.* On farm-stored Sudan Grass and Kobe Lespedeza seed a storage allowance of 10 cents per 100 pounds on the quantity of seed shown on the loan document less any amount owing the Corporation will be paid borrowers if the seed is delivered to Commodity Credit Corporation after March 15 for Kobe Lespedeza or after April 30, 1947, for Sudan Grass, provided there has been no fraudulent representation or conversion of any part of the collateral by the producer, and the collateral has not been abandoned or has not become damaged or impaired through the fault or negligence of the producer. The storage allowance will also be paid if, pursuant to demand by the Corporation or agreement for repayment of the loan, the Kobe Lespedeza or Sudan Grass seed is delivered to the Corporation before March 15 for Kobe Lespedeza or April 30, 1947, for Sudan Grass, provided the demand for repayment was not due to any fraudulent representation on the part of the borrower or was not made because the seed was damagd, threatened with damage, abandoned, or otherwise impaired.

For other seeds, the maximum warehousing charges that may be paid by Commodity Credit Corporation if the seed becomes the property of CCC is stated in attached CCC Seed Form A, Supplement 1–1946.

§ 274.38 *Purchase of notes.* Commodity Credit Corporation will purchase, from approved lending agencies, notes evidencing approved loans which are secured by chattel mortgages or negotiable warehouse receipts. The purchase price to be paid by Commodity Credit Corporation will be the principal sums remaining due on such notes, plus accrued interest from the date of disbursement to the date of purchase at the rate of 1½ percent per annum. Lending agencies are required to submit a weekly report to the Corporation and to the county committees on 1940 CCC Form F or such other form as the Corporation may prescribe, of all payments received on producer's notes held by them, and are required to remit promptly to Commodity Credit Corporation an amount equivalent to 1½ percent interest per annum, on the amount of the principal collected, from the date of disbursement to the date of payment. Lending agencies should submit notes and reports to the Grain Branch office serving the area.

§ 274.39 *Offices of Directors of Grain Branch.* The offices of the area directors of the Grain Branch, and the areas served by them, are shown below:

Address of Director and Area

208 South La Salle Street, Chicago, Ill.: Connecticut, Delaware, Illinois (except East St. Louis), Indiana, Iowa, Kentucky, Maryland, Maine, Massachusetts, Michigan, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, Tennessee, Vermont, Virginia, and West Virginia.

212 West 14th Street, Kansas City 8, Mo.: Alabama, Arkansas, Colorado, Georgia, Florida, Kansas, Louisiana, Mississippi, Missouri (also East St. Louis), Nebraska, New Mexico, Oklahoma, South Carolina, Texas, and Wyoming.

Eastern Outfitting Building, 515 S. W. Tenth and Washington Street, Portland 5, Oreg.: Arizona, California, Idaho, Nevada, Oregon, Utah, and Washington.

308 McKnight Building, Minneapolis 1, Minn.: Minnesota, Montana, North Dakota, South Dakota, and Wisconsin.

Date of program announcement, May 20, 1946.

[SEAL] C. C. FERRINGTON,
Vice President,
Commodity Credit Corporation.

NOTE: The foregoing document covers 1946 C. C. C. Seed Bulletin I (loan), issued by Commodity Credit Corporation May 20, 1946, and amendment No. 1 to said Bulletin issued on August 29, 1946.

1946 CCC SEED BULLETIN 1 (LOAN), SUPPL. 1.

TABLE I—SCHEDULE OF LOAN RATES WITH BASIC SPECIFICATIONS FOR HAY AND PASTURE SEEDS

[Percentage of seed purity, germination, maximum weed content and maximum mixture of other crops for the various crop seeds]

Kind of seed	Basic specifications		Loan rate [11]		Maximum weed seed	Maximum other crops	Minimum pure seed	Minimum germination [1]	Percentage discount in loan rate for specified percentage below basic specifications

Timothy	99	60		6	.5	[9] 5	96	80	1	5	5	7
Weeping lovegrass	90	90	50		2	5	75	70	5	15	10	14
Mixed bluestem [9]					2	[10] 5	30	30				
Mixed grama [12]					2	[12] 5	25	55				

[1] Percentage of germination includes hard seed.
[2] Not more than 2 percent of sweetclover.
[3] Not more than 15 percent hard seed.
[4] Including approved origin alfalfa seed in Oklahoma.
[5] In Alabama, Florida, Georgia, Louisiana and Mississippi only.
[6] Does not include Korean lespedeza.
[7] Not more than 25 percent hard seed.
[8] Not in excess of 30 percent of seed with hulls removed.
[9] Not more than 1 percent sand dropseed.
[10] Southern Clover Mixture (Black Medic, White, Hop and Persian Clover Mixture). Loans will be made at the respective rates on quantities of Black Medic, White Clover, Hop Clover and Persian Clover in the mixture. The pure seed of the mixture and the germination of each component will be used in determining the value. Maximum weed seed 1 percent. Maximum other crop seed 5 percent.
[11] Mixed Bluestem. Loans will be made at the respective rates on quantities of big bluestem, little bluestem and sand bluestem in the mixture; provided the mixture contains at least 30 percent of two or more of these seeds; not more than 1 percent sand dropseed and not more than 5 percent of grass seeds other than switchgrass, side-oats grama and Indian grass. The pure seed of the mixture and the germination of each component will be used in determining the value. Maximum weed seed 2 percent.
[12] Mixed Grama: Loans will be made at the respective rates on quantities of blue grama and side-oats grama in the mixture; provided the mixture contains at least 25 percent of blue grama and side-oats grama; not more than 1 percent sand dropseed and not more than 5 percent of grass seeds other than Buffalo grass, bluestems, switchgrass and Indian grass. The pure seed of the mixture and the germination of each component will be used in determining the value. Maximum weed seed 2 percent.
[13] Loans on farm-stored seed:
Loans will be made on farm-stored Sudan grass seed on the basis of the pure seed content at the following rate per 100 pounds:
Germination—85 to 100% @ $3.03, 80 to 84% @ $2.77, [illegible] 79% @ $2.55.
Loans will be made on farm-stored Kobe Lespedeza seed on the basis of the pure seed content at the following rate per 100 pounds: Germination—90 to 100% @ $9.09, 85 to 89% @ $8.37, 80 to 84% @ $7.74.
Loans will be made on farm-stored Sudan and Kobe Lespedeza seeds only in approved major-producing areas.
Loans will be made on farm-stored uncertified orchard grass seed on the basis of pure seed content at the following rate per 100 pounds: Germination—85 to 100% @ $7.00, 80 to 84% @ $6.48, 75 to 79% @ $5.95.
[14] Total winter legumes 98 percent.
[15] For mixtures of winter legumes seed the weighted average germination may be used.
[16] For seed produced in the Southern and East Central Regions add 1 cent per pound.
[17] Total winter legumes must be not less than 80 percent Rough Pea.
[18] Loan rates are also settlement rates if the commodity is delivered to CCC.
[19] Orchard grass seed shall not contain more than 15 onion bulblets per 50 grams.

TABLE II—SCHEDULE OF SEED LOAN RATES PER 100 POUNDS AND SEED SPECIFICATIONS

Kind of seed	Pure seed (percent)	Germination and hard seed		
		90 to 100 percent	85 to 89 percent	80 to 84 percent
Alfalfa, northern common (maximum—1 percent weed seed; 5 percent other crop seed; 2 percent sweetclover).	98	$33.60	$30.69	$28.38
	97	32.01	29.70	27.39
	96	31.02	28.71	26.40
	95	30.03	27.72	25.41
Alfalfa, northern certified (maximum—1 percent weed seed; 5 percent other crop seed; 2 percent sweetclover).	98	40.09	37.20	34.41
	97	38.80	36.00	33.20
	96	37.60	34.80	32.00
Alfalfa, central common (includes Oklahoma approved origin seed) (Maximum—1 percent weed seed; 5 percent other crop seed; 2 percent sweetclover).	95	36.40	33.60	30.80
	98	34.00	27.90	25.80
	97	29.10	27.60	24.50
	96	28.20	26.10	24.00
	95	27.30	25.20	23.10
Alfalfa, central certified (maximum—1 percent weed seed; 5 percent other crop seed; 2 percent sweetclover).	98	37.00	34.41	31.82
	97	35.89	33.30	30.71
	96	34.78	32.19	29.60
	95	33.67	31.08	28.49
Alfalfa, southern common (maximum—1 percent weed seed; 5 percent other crop seed; 2 percent sweetclover).	98	26.00	24.18	22.36
	97	25.22	23.40	21.58
	96	24.44	22.62	20.80
	95	23.66	21.84	20.02
Alfalfa, southern certified (maximum—1 percent weed seed; 5 percent other crop seed; 2 percent sweetclover).	98	33.00	30.69	28.38
	97	32.01	29.70	27.39
	96	31.02	28.71	26.40
	95	30.03	27.72	25.41
Red clover, common (maximum—1 percent weed seed; 5 percent other crop seed; 2 percent sweetclover).	98	28.00	26.04	24.08
	97	27.16	25.20	23.24
	96	26.32	24.36	22.40
	95	25.48	23.52	21.56
Red clover, certified (maximum—1 percent weed seed; 5 percent other crop seed; 2 percent sweetclover).	98	34.00	31.62	29.24
	97	32.98	30.60	28.22
	96	31.96	29.58	27.20
	95	30.94	28.56	26.18
Alsike clover (maximum—1 percent weed seed; 5 percent other crop seed).	97	25.00	23.25	21.50
	96	24.25	22.50	20.75
	95	23.50	21.75	20.00
Ladino clover, certified (maximum—5 percent weed seed, 5 percent other crop seed).	99	135.00	125.55	116.10
	98	132.30	122.85	113.40
	97	129.60	120.15	110.70
	96	126.90	117.45	108.00
	95	124.20	114.75	105.30
White clover (maximum—0.5 percent weed seed; 5 percent other crop seed).	98	50.00	46.50	43.00
	97	49.00	45.50	42.00
	96	48.00	44.50	41.00
	95	47.00	43.50	40.00

Kind of seed	Pure seed (percent)	Germination and hard seed		
		90 to 100 percent	85 to 89 percent	80 to 84 per cent
Alyce clover (maximum-1 percent weed seed; 5 percent other crop seed).	98	$18.00	$16.74	$15.48
	97	17.46	16.20	14.94
	96	16.92	15.66	14.40
	95	16.38	15.12	13.86
Cluster clover or Persian clover (maximum—1 percent weed seed; 5 percent other crop seed).	97	25.00	23.25	21.50
	96	24.25	22.50	20.75
	95	23.50	21.75	20.00
Yellow hop clover (maximum—1 percent weed seed; 5 percent other crop seed).	97	35.00	32.55	30.10
	96	33.95	31.50	29.05
	95	32.90	30.45	28.00
Black medic (maximum—1 percent weed seed; 5 percent other crop seed).	97	20.00	18.60	17.20
	96	19.40	18.00	16.60
	95	18.80	17.40	16.00
Biennial white or yellow sweetclover, common (maximum—1 percent weed seed; 5 percent other crop seed; 15 percent hard seed).	98	8.00	7.44	6.88
	97	7.76	7.20	6.64
	96	7.52	6.96	6.40
	95	7.28	6.72	6.16
Biennial white or yellow sweetclover, certified (maximum—1 percent weed seed; 5 percent other crop seed; 15 percent hard seed).	98	15.00	13.95	12.90
	97	14.55	13.50	12.45
	96	14.10	13.05	12.00
	95	13.65	12.60	11.55
Biennial mixed sweetclover (maximum—1 percent weed seed; 5 percent other crop seed; 15 percent hard seed).	98	7.00	6.51	6.02
	97	6.79	6.30	5.81
	96	6.58	6.09	5.60
	95	6.37	5.88	5.39
Hubam sweetclover (maximum—1 percent weed seed; 5 percent other crop seed; 15 percent hard seed).	98	8.00	7.44	6.88
	97	7.76	7.20	6.64
	96	7.52	6.96	6.40
	95	7.28	6.72	6.16
Sericea lespedeza (maximum—1 percent weed seed; 5 percent other crop seed).	98	15.00	13.95	12.90
	97	14.55	13.50	12.45
	96	14.10	13.05	12.00
	95	13.65	12.60	11.55
Sericea lespedeza, scarified (maximum—1 percent weed seed; 25 percent hard seed).	98	18.00	16.74	15.48
	97	17.46	16.20	14.94
	96	16.92	15.66	14.40
	95	16.38	15.12	13.86
Tennessee No. 76 or common lespedeza (not Korean) (maximum-1 percent weed seed; 5 percent other crop seed).	98	16.00	14.88	13.76
	97	15.52	14.40	13.28
	96	15.04	13.92	12.80
	95	14.56	13.44	12.32
Kobe lespedeza (maximum—1 percent weed seed; 5 percent other crop seed).	98	12.00	11.16	10.32
	97	11.64	10.80	9.96
	96	11.28	10.44	9.60
	95	10.92	10.08	9.24

TABLE II—SCHEDULE OF SEED LOAN RATES PER 100 POUNDS AND SEED SPECIFICATIONS—Continued

Kind of seed	Pure seed (percent)	Germination and hard seed			
		90 to 100 percent	85 to 89 percent	80 to 84 percent	75 to 79 percent
Kobe lespedeza, farm stored		$9.00	$8.37	$7.74	
Austrian winter peas (minimum total winter legume 98 percent) (maximum-1 percent weed seed; 2 percent other crop seed.)	90	3.50	3.25	3.00	$2.75

TITLE 7—AGRICULTURE

Subtitle A—Office of the Secretary of Agriculture

PART 7—PRICE DECONTROL AND RECONTROL

FILING OF PRICE DECONTROL PETITIONS

The regulations governing the filing of petitions for the decontrol of agricultural commodities issued by the Secretary of Agriculture on August 23, 1946, as amended (11 F. R. 9419, 9923) are hereby further amended as follows:

1. Section 7.1 *Applicability of the regulations in this part,* is amended by deleting therefrom all that part of said section beginning with the third sentence thereof.

2. Section 7.2 (f) is revised to read as follows:

§ 7.2 *General form and content of petitions.* * * *

(f) Each petition must contain a statement that in the judgment of the committee either (1) the supply of the agricultural commodity equals or exceeds requirements for such commodity for the current marketing season, or (2) the commodity is not important in relation to business costs or living costs. Such statement must be supported by evidence in accordance with the provisions of § 7.5.

3. Section 7.5 is amended by changing the first sentence thereof to read as follows:

§ 7.5 *Matters to be covered by petitions and evidence in support thereof.* Any petition requesting decontrol on the basis that the commodity is no longer in short supply must contain analyses and written evidence directed to a showing that supply of the commodity equals or exceeds requirements for the current marketing season.

4. Section 7.5 is further amended by adding the following at the end of said § 7.5: "Any petition requesting decontrol on the basis of the nonimportance of the commodity must contain analyses and written evidence directed to a showing that the commodity is not important in relation to either business costs or living costs."

Effective date. This amendment shall become effective January 1, 1947.

Issued this 6th day of January 1947.

[SEAL] N. E. DODD,
Acting Secretary.

Chapter XI—Production and Marketing Administration (War Food Distribution Orders)

[WFO 63-20]

PART 1596—FOOD IMPORTS

PARTIAL REVISION OF APPENDIX A

Pursuant to the authority vested in me by War Food Order No. 63, as amended (10 F. R. 103, 8950, 10419; 11 F. R. 2630, 5105), Appendix A is hereby revised as follows:

1. By deleting the following items therefrom:

Food	Commerce import class No.
Cocoa beans or cacao beans	1501.300
Cocoa butter (cacao butter)	1420.000
Cocoa, unsweetened and sweetened	1502.100, 1502.300, 1502.900

2. By adding the following item thereto:

Food	Commerce import class No.
Cocoa, sweetened	1502.300, 1502.900

This amendment shall become effective at 12:01 a. m., e. s. t., January 7, 1947.

(E. O. 9280, Dec. 5, 1942, 7 F. R. 10179; E. O. 9577, June 29, 1945, 10 F. R. 8087)

Issued this 7th day of January 1947.

[SEAL] E. A. MEYER,
Assistant Administrator, Production and Marketing Administration.

TITLE 8—ALIENS AND NATIONALITY

Chapter II—Office of Alien Property, Department of Justice

[Gen. Order 6. Reg. 2]

PART 501—RULES OF PROCEDURE

COPY OF PROCESS REQUIRED TO BE SENT TO OFFICE OF ALIEN PROPERTY IN CERTAIN CASES

Under the authority of the Trading with the Enemy Act, as amended, and Executive orders issued thereunder, and pursuant to law, the undersigned hereby issues the following regulation:

§ 501.6–2 *Copy of process required to be sent to Office of Alien Property in certain cases.* (a) A copy of any process or notice in any court or administrative action or proceeding involving property in the United States in which on December 31, 1946, a person in a designated enemy country had an interest, or income from such property accruing on or after December 31, 1946, which process or notice is to be served upon any such person, must in addition be sent by registered mail to the Office of Alien Property, Department of Justice, Washington 25, D. C. not less than 30 days prior to the date on which action pursuant to such process or notice is to be taken.

(b) Such process or notice shall otherwise conform to the rules, orders, or practice of the court or administrative body issuing such process or notice.

(c) For the purpose of this section:

(1) "Person" shall mean any individual, partnership, association, corporation, or body politic;

(2) "Income" shall include, without limitation, any interest, dividend, increment, proceeds, exchange, conversion, or other derivative, direct or indirect;

(3) "Designated enemy country" shall mean any foreign country against which the United States has declared war (Germany, Italy, Japan, Bulgaria, Hungary, and Rumania);

(4) Heirs-at-law and next-of-kin shall be deemed to have an interest in the estate of their decedent whether or not they are legatees under the will of said decedent.

(d) The provisions of this section shall not be applicable to any service of process or notice upon any person within Italy, Bulgaria, Hungary, or Rumania who is not a citizen or subject of Germany or Japan, in any court or administrative action or proceeding within the United States originally initiated or commenced after April 15, 1946.

(e) The receipt by the Office of Alien Property of a copy of any process or notice sent to it pursuant to this section shall not be considered service of such process or notice upon a person in an enemy country as provided for in § 501.6, unless:

(1) Specific request is made that it be so considered, and

(2) The Attorney General, or his duly authorized representative, files acceptance of such process or notice in the manner provided for in § 501.6.

(40 Stat. 411; 55 Stat. 839; 60 Stat. 50, 925; 50 U. S. C. App. 1, 50 U. S. C. App. Sup. 616; E. O. 9193, July 6, 1942, 7 F. R. 5205, 3 CFR, Cum. Supp.; E. O. 9788, Oct. 14, 1946, 11 F. R. 11981)

Executed at Washington, D. C. this 7th day of January 1947.

For the Attorney General.

[SEAL] DONALD C. COOK,
Director.

TITLE 10—ARMY: WAR DEPARTMENT

Chapter X—Areas Restricted for National Defense Purposes

[Public Proclamation 26]

PART 1005—ESTABLISHMENT OF MILITARY AREAS

HANFORD MILITARY AREA

NOVEMBER 12, 1946.

To: The people within the States of Washington, Oregon, California, Montana, Idaho, Utah, Arizona and Nevada, and the public generally.

Whereas, the Secretary of War, on 2 May 1946, designated the Commanding General, Sixth Army, as the Military Commander to carry out the duties and responsibilities imposed by Presidential Executive Order No. 9066, dated 19 February 1942 (7 F. R. 1407) for that portion of the United States embraced within the geographical limits of the Sixth Army Command and directed that all orders, proclamations and amendments thereto, presently in effect, issued pursuant to the said Executive order by the Commanding General, Western Defense Command, were to remain in full force and effect unless and until modified or canceled by the Commanding General, Sixth Army or other competent authority; and

Whereas, that portion of the United States lying within the States of Arizona, Utah, Idaho, Montana, Nevada, Wash-

ington, Oregon and California is within the geographical limits of the Sixth Army Command; and

Whereas, despite the cessation of hostilities, a state of war and the emergencies created thereby continue to exist which require the maintenance of military measures for protection against espionage and sabotage in order that the objectives thus far achieved by our arms may be secured and that the said state of war be successfully concluded; and

Whereas, important national defense materials, premises and utilities are located in the vicinity of Hanford, State of Washington, which are endangered by sabotage and espionage conducted in connection therewith, and by Public Proclamation No. 18 (8 F. R. 10289), Headquarters Western Defense Command, the area wherein the said materials, premises and utilities are located was established and designated as "Total Exclusion Area No. 3"; and

Whereas, in order to prevent such sabotage and espionage, military necessity requires that the said area be continued as a Military Area, that two sections of land be added thereto, and that restrictions imposed upon the rights of persons to enter, remain in, or leave the said area be continued.

Now, therefore, I, George P. Hays, Major General, U. S. Army, by virtue of the authority vested in me by the President of the United States and by the Secretary of War and my powers and prerogatives as Commanding General, Sixth Army, do hereby declare and proclaim that:

§ 1005.26 *Hanford Military Area.* (a) Pursuant to the determination and statement of military necessity and authority above set forth, the following described area, formerly designated as "Total Exclusion Area No. 3," is hereby established as a Military Area and designated "Hanford Military Area":

Beginning at the North East corner of Section 20, T15N, R27E, in Grant County, Washington, thence:

West along the North line of Sections 20, 19, T15N, R27E, 24, 23, 22, T15N, R26E, to the North West corner of Section 22, thence:

South along the West line of said Section 22, to its South West corner, thence:

West along the North line of Section 28, T15N, R26E, to its North West corner, thence:

South along the West line of said Section 28, to its South West corner, thence:

West along the North line of Section 32, in said township, to its North West corner, thence:

South along the West line of said Section 32, to its South West corner, thence:

West along the North line of Section 6, T14N, R26E, to its North West corner, thence:

South along the West line of said Section 6, to its South West corner, thence:

West along the North line of Section 12, T14N, R25E, to its North West corner, thence:

South along the West line of said Section 12, to its South West corner, thence:

West along the North line of Sections 14, 15, 16, 17, 18, T14N, R25E, to the North West corner of said Section 18, thence:

South along the West line of said Section 18, to its South West corner, thence:

West along the North line of Section 24, T14N, R24E, to its North West corner, thence:

South along the West line of said Section 24, to its South West corner, thence:

West along the North line of Section 26, T14N, R24E, to its North West corner, thence:

South along the West line of Sections 26, 35, T14N, R24E, and Section 2, T13N, R24E, to the South West corner of Section 2, thence:

West along the North line of Sections 10, 9, 8, 7, T13N, R24E, to the North West corner of said Section 7, thence:

North along the East line of Section 1, T13N, R23E, to its North East corner, thence:

West along the North line of Sections 1, 2, 3, T13N, R23E, to the North West corner of said Section 3, thence:

South along the West line of said Section 3, to its South West corner, thence:

East along the South line of said Section 3, to the South East corner of said Section 3, thence:

South along the West line of Section 11 to the South West corner of said Section 11, thence:

East along the South line of Sections 11 and 12 to the South East corner of said Section 12, thence:

South along the West line of Section 18, T13N, R24E, to the South West corner of said Section 18, thence:

East along the South line of Sections 18, 17, 16, 15, T13N, R24E, to the East line of the West half of said Section 15, thence:

South along the West line of the East half of Section 22, T13N, R24E, to the North line of Section 27, in said township, thence:

East along the South line of said Section 22 to its South East corner, thence:

South along the West line of Sections 26, 35, T13N, R24E, Sections 2, 11, 14, 23, 26, 35, T12N, R24E, and Sections 2, 11, 14, T11N, R24E, to the South West Corner of Section 14, last mentioned, thence:

East along the South line of said Section 14 to its South East corner, thence:

South along the West line of Section 24, T11N, R24E, to its South West corner, thence:

East along the South line of Section 24, T11N, R24E, and along the South line of Sections 19, 20, 21, 22, 23, T11N, R25E, to the South East corner of said Section 23, thence:

South along the West line of Section 25, T11N, R25E, to its South West corner, thence:

East along the South line of said Section 25 to its South East corner, thence:

South along the West line of Section 31, T11N, R26E, to its South West corner, thence:

East along the South line of said Section 31 to its South East corner, thence:

South along the West line of Section 5, T10N, R26E, to its South West corner, thence:

East along the South line of Sections 5 and 4, T10N, R26E, to the South East corner of said Section 4, thence:

South along the West line of Section 10, T10N, R26E, to its South West corner, thence:

East along the South line of said Section 10 to its South East corner, thence:

South along the West line of Section 14, in said township to its South West corner, thence:

East along the South line of Section 14, 13, T10N, R26E, to the South East corner of said Section 13, thence:

South along the West line of Section 19 to the South West corner of Section 19, T10N, R27E, thence:

East along the South line of said Section 19 to the North or left bank of the Yakima River, thence:

North Easterly and South Easterly, through Sections 19, 20, 17, 16, 9, 4, 3, T10N, R27E along the North or left bank of the Yakima River to the South line of Section 3 in said township and range, thence:

East to the South East corner of said Section 3, thence:

North along the East line of said Section 3 to the center line of the Richland-White Bluffs Highway, thence:

South Easterly through Sections 11, 12, T10N, R27E, Sections 7, 18, 17, T10N, R28E along the center line of said highway to its intersection with the East line of Section 17, T10N, R28E, thence:

South along the West lines of Sections 16, 21, 28, 33, in said township and range and along the West line of Section 4, T9N, R28E, to the North, or left bank of the Yakima River, thence:

Southerly along the North or left bank of the Yakima River, passing through Sections 4, 5, 9, 16, 15, 22, 23, 24, T9N, R28E, to a point on the North or left bank of the Yakima River on the West line of Section 19, T9N, R29E, thence:

Along the South East end of a peninsula formed by the Yakima and Columbia Rivers in said Section 19 and thence in a general northerly direction along the West or right bank of the Columbia River and passing through Sections 19, 18, T9N, R29E, Sections 13, 14, 11, 2, 1, T9N, R28E, Sections 36, 25, 24, 23, 14, 11, 2, T10N, R28E, Sections 35, 26, 23, 14, 11, 2, T11N, R28E, Sections 35, 26, T12N, R28E, to the North line of said Section 26, thence:

East along the North lines of Sections 26 and 25, T12N, R28E, and along the North line of Section 30, T12N, R29E, to the North West corner of said section, thence:

North along the East line of Section 19 T12N, R29E to the North East corner of said Section 19, thence:

West along the North line of said Section 19 to its North West corner, thence:

North along the East line of Sections 13, 12, 1, T12N, R28E, to the North East corner of said Section 1, thence:

West along the township line common to Townships 12 and 13 North, Range 28 East to the South East corner of Section 35, T13N, R28E, thence:

North along the East line of Sections 36, 25, T13N, R28E, to the North East corner of said Section 25, thence:

West along the North line of said Section 25 to its North West corner, thence:

North along the East line of Section 23, T13N, R28E, to its North East corner, thence:

West along the North line of said Section 23 to its North West corner, thence:

North along the East line of Section 15, T13N, R28E, to its North East corner, thence:

West along the North line of said Section 15 to its North West corner, thence:

North along the East line of Section 9, T13N, R28E, to its North East corner, thence:

West along the North line of said Section 9 to its North West corner, thence:

North along the East line of Section 5, T13N, R28E, to its North East corner, thence:

North along the East line of Section 32, T14N, R28E, to its North East corner, thence:

West along the North line of said Section 32 to its North West corner, thence:

North along the East line of Section 30, 19, T14N, R28E, to the North East corner of said Section 19, thence:

West along the North line of said Section 19 to its North West corner, thence:

North along the East line of Sections 13, 12, T14N, R27E, to the North East corner of said Section 12, thence:

West along the North line of said Section 12 to its North West corner, thence:

North along the East line of Section 2, T14N, R27E, to its North East corner, thence:

West along the North line of said Section 2 to its North West corner, thence:

North along the East line of Section 34, T15N, R27E, to its North East corner, thence:

West along the North line of said Section 34 to its North West corner, thence:

North along the East line of Section 28, T15N, R27E, to its North East corner, thence:

West along the North line of said Section 28 to its North West corner, thence:

North along the East line of Section 20, T15N, R27E, to its North East corner to the "point of beginning".

(b) No person shall have the right or shall be permitted to enter, remain in, or leave the above described "Hanford Military Area" except on permission by and in accordance with terms and conditions prescribed by the District Engineer, Manhattan District, Office of the Chief of Engineers, U. S. Army. All orders and restrictions presently in effect, issued pursuant to Public Proclamation No. 18, Headquarters Western Defense Command, by the said District Engineer shall apply to "Hanford Military Area" as hereby established and shall remain in full force and effect unless and until modified or canceled by the said District Engineer.

(c) Any person violating the provisions of this proclamation, or any of the terms or conditions prescribed in accordance with paragraph (b) of this section for entering, remaining in, or leaving the said "Hanford Military Area" will be subject to the criminal penalties provided in Public Law No. 503, 77th Congress, approved March 21, 1942, entitled, "An Act to Provide a Penalty for the Violation of Restrictions or Orders with Respect to Persons Entering, Remaining in, Leaving or Committing any Act in Military Areas or Zones." (56 Stat. 173, 18 U. S. C., sec. 97a), as well as to prosecution under applicable Federal and State laws against loitering or trespassing.

(d) Pursuant to the authority granted by Executive Order No. 9066, the undersigned will enforce compliance with all orders and restrictions now in existence or to be issued pursuant to this proclamation by all lawful military means within his command, including the use of troops.

(e) The following public proclamations issued by the Commanding General, Western Defense Command, are hereby rescinded:

(1) Public Proclamation No. 1, dated March 2, 1942, (7 F. R. 2320) which established Military Areas Nos. 1 and 2, as changed by Public Proclamations No. 9 (7 F. R. 5719), 13 (7 F. R. 8565), 14 (8 F. R. 282), 16 (8 F. R. 3256) and 21 (10 F. R. 53);

(2) Public Proclamation No. 2 dated March 16, 1942, (7 F. R. 2405) which established Military Areas Nos. 3, 4, 5 and 6, as changed by Public Proclamations Nos. 13, 16 and 21;

(3) Public Proclamation No. 18, dated July 14, 1943, (8 F. R. 10289) which established Total Exclusion Area No. 3.

(f) This proclamation shall not affect any offense heretofore committed nor any conviction or penalty incurred because of violations of the provisions of the said Public Proclamations Nos. 1 and 2, as changed, or those of the said Public Proclamation No. 18, nor shall it affect the validity of any orders previously issued under the said proclamations.

(g) The effect of the recission of Public Proclamations Nos. 1 and 2 by paragraph (e) of this section is to abolish Military Areas Nos. 1, 2, 3, 4, 5, and 6 which were established in the territory embraced by the States of Washington, Oregon, California, Idaho, Montana, Nevada and Utah and to remove all restrictions and controls applicable to those areas as such. The only restrictions and controls now in force and effect are those which are applicable to "Hanford Military Area" as provided herein.

(h) This proclamation shall become effective at midnight December 2, 1946.

[SEAL] GEORGE P. HAYS,
Major General, U. S. Army.

Confirmed:

EDWARD F. WITSELL,
Major General,
The Adjutant General.

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 51591]

PART 10—ARTICLES CONDITIONALLY FREE, SUBJECT TO A REDUCED RATE, ETC.

BAGGAGE

Correction

In Federal Register Document 46-21964, appearing at page 14701 of the issue for Saturday, December 28, 1946, the third line of paragraph (l) of § 10.17 is corrected to read: "returned from or through a contiguous".

TITLE 24—HOUSING CREDIT

Chapter VIII—Office of Housing Expediter

[Premium Payments Regs., General Interpretation 1]

PART 805—PREMIUM PAYMENTS REGULATIONS UNDER VETERANS' EMERGENCY HOUSING ACT OF 1946

INVALIDATION OF CLAIMS FOR VIOLATIONS OF OPA PRICE CEILINGS OCCURRING PRIOR TO NOVEMBER 10, 1946

Upon the removal of OPA ceilings, outstanding premium payment regulations were amended to delete all specific references to OPA, including the power of the Expediter to invalidate claims for payment for price violations. The effect of these amendments is prospective only, as they were merely intended to eliminate provisions which could no longer apply to future operations. Accordingly, the Expediter retains the power to invalidate claims for price violations which occurred prior to the effective date of such amendments.

Issued this 8th day of January 1947.

ADOLPH H. ZWERNER,
General Counsel.

[F. R. Doc. 47-289; Filed, Jan. 8, 1947; 4:34 p. m.]

[Premium Payments Reg. 10, as Amended, Incl. Int. 1]

PART 805—PREMIUM PAYMENTS REGULATIONS UNDER VETERANS' EMERGENCY HOUSING ACT OF 1946

SAND-LIME BRICK

Purpose and findings. This general regulation is issued to stimulate additional production of sand-lime brick by providing for premium payments with respect to units of additional production above established quotas. It describes how quotas are established, and the methods, procedures and conditions under which such payments may be obtained. This regulation is issued pursuant to the authority of the Veterans' Emergency Housing Act of 1946.

All available means of increasing the supply of sand-lime brick for the veterans' emergency housing program and for other construction, maintenance and repair essential to the national well-being have been considered. Based on such consideration the Expediter finds that premium payments are temporarily necessary to increase the supply of such materials and to stimulate additional production with greater rapidity, economy, and certainty than other available methods. The premium payments provided herein are applied at a uniform rate within the industry. In applying premium payments to necessary additional production in this industry, emphasis has been placed upon avoiding either economic dislocations or adverse effects upon established business.

§ 805.10 *Sand-lime brick*—(a) *Definitions.* As used in this section:

(1) "Brick" and "Sand-lime brick" mean brick of the type described in "Federal Specification for Brick; Sand-lime", approved June 28, 1932 and published in section IV, Part 5 of the Federal Standard Stock Catalog and identified as document SS-B-681. No sand-lime product having a gross volume, computed from actual overall dimensions, in excess of 176 cubic inches shall be deemed to be "sand-lime brick" under this section.

(2) "Sand-lime product" means any product manufactured in a plant in which sand-lime brick is produced and for which the manufacturing process and the production facilities are substantially similar to those employed in the manufacture of sand-lime brick.

(3) "Person" means an individual, corporation, partnership, association, or any other organized group of any of the foregoing, or legal successor or representative of any of the foregoing, but does not include the United States, any of its political subdivisions or any agency thereof, any other Government, any of its political subdivisions or any agency thereof.

(4) "Producer" means a person who operates a plant for the production of sand-lime brick.

(5) "Plant" means an integrated manufacturing establishment for the production of sand-lime brick (within the United States, its Territories, possessions or the District of Columbia) occupying

a single site and, where consisting of several complete manufacturing units, using common shipping and storing facilities and common operating supervision.

(6) "Standard size brick" means brick having a gross volume, computed from actual overall dimensions, of 75 cubic inches.

(7) "Production" and "Units of Production" mean the number of units of sand-lime brick and other sand-lime products computed pursuant to paragraph (b) of this section and stated in terms of standard size brick equivalents.

(8) "Month" means a calendar month: *Provided, however,* That any producer on whom this provision works a hardship may apply by letter to the Expediter for authorization to submit his application for quota and claims for payments on the basis of a stipulated fiscal month. With respect to a producer who has received such authorization this section shall become effective on the first day of his fiscal month beginning on or after October 1, 1946, and shall terminate on the same date as this section terminates as to other producers.

(9) "Full operating month" means a month during which a plant operated at least twenty working days except for February, during which the plant must have operated at least eighteen working days.

(10) "New producer". A person who did not operate prior to the effective date of this section any plant for the production of sand-lime brick shall be a new producer as to any plant operated by him for the production of sand-lime brick which was not, prior to the effective date of this section, substantially completed as a plant capable of producing sand-lime brick.

(11) "Claim" means a claim for payment filed pursuant to this section.

(12) "Expediter" means the Housing Expediter as defined in the Veterans' Emergency Housing Act of 1946, or his duly authorized representative.

(13) "OHE" means the Office of the Housing Expediter.

(b) *Computation of production for quotas and claims.* For the purpose of determining the quota of a plant and the amount of a claim, production shall be computed by counting the number of units of all sand-lime products completely cured in the month involved stated in terms of standard size brick equivalents. The number of standard size brick equivalents for all sand-lime products shall be computed by using 75 cubic inches as the gross volume equivalent to one standard size brick. For example: A sand-lime brick or other sand-lime product having actual dimensions of 3¾" x 5" x 8" and with a gross volume of 150 cubic inches equals 2 brick equivalent. In computing the gross volume of modular size brick for the purpose of converting to standard size brick equivalents, the nominal dimensions of the modular brick should be used rather than its actual dimensions.

(c) *Establishment of quota.* (1) A separate quota shall be established for each and every plant of the producer as follows:

(i) With respect to a plant where sand-lime products were produced for at least five full operating months during January through September 1946, the quota shall be the lower of the following: (a) The arithmetical monthly average of the production of all sand-lime products for the three months of highest production during January through September 1946 or (b) 90 percent of the production of all sand-lime products for the month of highest production during January through September 1946.

(ii) With respect to a plant where sand-lime products were produced less than five but at least two full operating months during January through September 1946, the quota shall be 90 percent of the production of all sand-lime products for the month of highest production during January through September 1946.

(iii) With respect to a plant where sand-lime products were produced prior to June 1, 1945, but where no sand-lime products of any kind were produced during the period from June 1, 1945 through September 30, 1946, the quota for each month shall be two-thirds of the production of all sand-lime brick during such month and premium payments will be made on the remaining one-third.

(iv) With respect to all other plants, a special quota shall be established by the Expediter: *Provided, however,* That no such quota shall be established for a new producer which would result in the application of premium payments to more than 50 percent of the value (in terms of the producer's selling price) of the total output of such producer.

(v) Upon application therefor, on form NHA 14-113, a special quota adjusted for any number of consecutive months of the year may be established by the Expediter with respect to a plant where, customarily, because of the effect of weather conditions on plant operations the production of sand-lime brick during said months is substantially less than production in the other months of the year.

(2) In the case of a producer with two or more plants, if the production in any plant falls below the quota for that plant in any month, the Expediter may establish a combined quota for any or all plants of such producer if the Expediter determines that production has been shifted among such plants so as to increase the producer's total claims without a corresponding increase in total output.

(3) If the production of sand-lime brick in a plant in any claim period is below the sand-lime brick component of such plant's quota, then the plant's quota for the next succeeding claim period shall consist of its established quota plus the amount of the deficit in the production of sand-lime brick in the preceding claim period: *Provided, however,* That if on the producer's application the Expediter determines that the deficit was due to unusual circumstances beyond the control of the producer, such deficit shall not be added to the established quota. Such application for waiver of the deficit carry-over shall consist of form NHA 14-112 filled out as an information return and filed with the Reconstruction Finance Corporation Loan Agency with which the claims for that plant are filed within 15 days after the end of the month in which the deficit occurred, except that applications with respect to deficits incurred during the months of October, November and December, 1946, may be filed up to and including January 31, 1947.

[Above subparagraph (3) as amended shall become effective as of October 1, 1946]

(d) *Application for quota.* (1) Every producer who wishes to receive premium payments under this section shall file promptly with the Expediter an application for the establishment of quotas for each of his plants on form NHA 14-111 which may be obtained from any Reconstruction Finance Corporation Loan Agency. A producer may find out in which RFC Loan Agency district he is located by consulting his bank.

(2) Each application for an adjustment of quota pursuant to subdivision (c) (1) (v) of this section must be filed not later than January 31, 1947: *Provided, however,* that with respect to any plant which has not operated for the production of sand-lime brick between October 1, 1946, and December 31, 1946, such application may be filed not later than 30 days following the end of the month in which production first occurs subsequent to December 31, 1946.

[Above subparagraph (2) as amended shall become effective as of October 1, 1946]

(e) *Rate and computation of premium payment.* (1) A premium payment of $5.00 for each thousand units of production in excess of established quotas will be made. The amount payable for each month will be computed by subtracting from the total number of units of production of all sand-lime products during the month the amount of the established quota (including any deficit carried over from the previous month as set forth in subparagraph (c) (3) of this section) and multiplying the remainder by $5.00 per thousand units.

(2) In the case of a plant whose quota includes sand-lime products other than sand-lime brick, the production for the month covered by the claim may include such other sand-lime products up to but not exceeding the amount of other sand-lime products in its quota. The other sand-lime products in the quota shall be determined as follows:

(i) With respect to a plant whose quota is the arithmetic average of production in the three months of highest production, take the arithmetic average of the production of other sand-lime products in these three months.

(ii) With respect to a plant whose quota is 90% of production in the month of highest production, take 90% of production of other sand-lime products in that month.

Example: A plant has a quota of 1,000 standard size brick equivalent, made up of 800 in sand-lime brick and 200 in other sand-lime products. In October it produces 1,500 standard size brick equivalent of all sand-lime products made up of 1,200 sand-lime brick and 300 other sand-lime products. The claim for October should be for 400 standard size brick equivalents of production in excess of quota, computed as follows:

Sand-lime brick produced	1,200
Other sand-lime products produced (but not in excess of amount in quota)	200
Total production in claim	1,400
Quota	1,000
Production in excess of quota	400

(f) *Claim for payment.* (1) Each claim shall be filed on form NHA 14-112. These forms may be obtained from any RFC Loan Agency.

(2) Each claim shall be filed on or before the last day of the month following the end of the month in which the production occurred: *Provided, however,* That a producer obtaining a special quota for any plant shall file all previously accrued claims on account of production in that plant not later than the last day of the month following the end of the month in which the special quota was established by the Expediter. Notwithstanding any provision contained in this subparagraph (f) (2), claims based upon production occurring during the months of October, November and December, 1946, may be filed not later than January 31, 1947.

[Above subparagraph (2) as amended shall become effective as of October 1, 1946]

(3) With respect to any plant, no claim shall accrue on account of production occurring prior to the first day of the month in which the application for quota for such plant is filed with the Expediter: *Provided, however,* That this provision shall not become effective until February 1, 1947.

[Above subparagraph (3) as amended shall become effective as of October 1, 1946]

(4) Each claim for payment shall include all of the production of the month for which claim is made and no other. Any producer whose production in any month is insufficient to permit the payment of a premium shall nevertheless file form NHA 14-112 on or before the end of the month following the month in which the deficit occurred as an information return to indicate the amount of the deficit.

(5) Each claim or information return on form NHA 14-112 shall be filed with RFC at the Loan Agency for the District in which the main office of the plant is located, except that a producer operating more than one plant shall simultaneously file the claims or information returns for all of his plants at the Loan Agency for the District in which his main office is located.

(6) No claim under this section shall be assignable except as a part of the bona fide transfer of the plant to a legal successor.

(g) *Payment*—(1) *Review by RFC.* In reviewing claims, the RFC will determine whether such claims appear to have been correctly and properly prepared.

(2) *Terms of payment.* If the claim or any part thereof is accepted by RFC subject to final verification, RFC will then pay the claimant that part of the claim so accepted: *Provided, however,* That with respect to claims for the last two months during which this section is in effect RFC may require that bond be furnished in form and amount satisfactory to it before making payment.

Preliminary acceptance and payment of a claim shall not constitute final acceptance of the validity or amount of the claim. If, after review or audit, there is cause to question the validity of any claim, RFC may:

(i) Require that bond be furnished in form and amount satisfactory to it before making further payments, or,

(ii) Suspend further payments.

(3) *Verification of claims.* (i) Upon receipt of claims, RFC will forward copies to the Expediter for verification and such investigation or audit as may be deemed appropriate.

(ii) If the amount verified and approved by the Expediter is less than the amount previously paid, the claimant shall upon demand by RFC refund the overage to RFC together with interest thereon at the rate of 4% per annum calculated from the date of such overpayment to the date repayment is made to the RFC or such overage plus interest may be deducted from any accrued or subsequent claim for any payment by RFC to the claimant.

(iii) In the event that the Expediter establishes a combined quota under paragraph (c) (2) of this section, payment shall be made on the basis of the amount by which total production of those plants whose quotas have been combined exceeds the total quotas of those plants.

(4) *Invalidation of claims.* The Expediter shall have the right at any time to declare invalid any claim of a producer, and such producer shall upon demand refund to RFC any payment on such claim, if the Expediter finds that the producer has failed:

(i) To comply with any of the requirements of this section, or,

(ii) To comply with directives, certifications, allocations, orders or regulations of the Civilian Production Administration or OHE on sand-lime brick.

[Subdivision (ii) as amended shall become effective as of November 10, 1946]

(h) *Records.* Every producer shall prepare and preserve for inspection for a period of not less than two years after the date of termination of this section, all books, records and other documents which furnish information in support of its applications for quota and claims for payment. The Expediter or his designated agents shall have the right at any time to make such examinations and audits of these books, records and other documents as may be necessary to verify the representations in the producer's applications for quota and claims for payment or as may be required by the Expediter.

(i) *Reports.* Producers must furnish such reports as may be required by the Expediter from time to time, subject to approval by the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(j) *Official interpretations.* Official interpretations of this section may be given only in writing by the General Counsel of the Office of the Expediter, or his duly authorized representative. A request for an official interpretation must be filed in writing directly with the Expediter or the General Counsel.

(k) *Termination.* This section shall terminate on May 31, 1947. In the event that the Expediter finds that any substantive amendments become necessary, including but not limited to an amendment of the termination date, no such amendments will be issued until after adequate notice to and discussion with representatives of the producers covered by this section.

Termination shall not preclude the filing of claims for payment during the month following such termination on account of production during the immediately preceding month. Such claims shall be dealt with in accordance with the provisions of this section in the same manner as if it had not been terminated.

[Above paragraph as amended shall become effective as of November 10, 1946]

(l) *Effective date.* This section shall become effective as of October 1, 1946.

NOTE: The reporting and record keeping requirements of this regulation have been approved by the Bureau of the Budget, in accordance with the Federal Reports Act of 1942.

(60 Stat. 207)

Issued this 8th day of January 1947.

FRANK R. CREEDON,
Housing Expediter.

INTERPRETATION 1

MEANING OF "SAND-LIME BRICK"

In order to meet the requirements for sand-lime brick set forth in paragraph (a) (1) of EPRR 10, a sand-lime brick must include the ingredients set forth in the Federal Specification for sand-lime brick and may also include cement but only when, and to the extent that, this is necessary to overcome strength deficiencies. In all cases, sand-lime brick must be cured under high steam pressure to develop the chemical reaction characteristic of sand-lime brick (Industry practice requires the use of a chamber or auto-clave within which an average of not less than 110 pounds per sq. in. steam pressure is developed and maintained for at least eight hours). (Issued December 11, 1946.)

PART 1010—SUSPENSION ORDERS

[Suspension Order S–1020]

JOSEPH W. LUEPNITZ

Joseph W. Luepnitz, St. Ignace, Michigan, in June, 1946, without authorization from the Civilian Production Administration began the construction in St. Ignace, Michigan, of a combination business building and apartment estimated to cost not less than $3,000. He filed an application with the Civilian Production Administration on September 26, 1946, for authorization to construct the building which was denied on October 17, 1946, but continued construction thereafter. This was in violation of Veterans' Housing Program Order No. 1, and has diverted critical materials to uses not authorized by the Civilian Production Administration. In view of the foregoing, it is hereby ordered that:

§ 1010.1020 *Suspension Order No. S–1020.* (a) Neither Joseph W. Luepnitz, his successors or assigns, nor any other person shall do any further construction on the building in St. Ignace, Michigan, including putting up, completing or altering the structure, unless hereafter specifically authorized in writing by the Civilian Production Administration.

(b) Joseph W. Luepnitz shall refer to this order in any application or appeal which he may file with the Civilian Production Administration or the Federal Housing Administration for authorization to carry on construction.

(c) Nothing contained in this order shall be deemed to relieve Joseph W. Luepnitz, his successors or assigns, from any restriction, prohibition, or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 8th day of January 1947.

CIVILIAN PRODUCTION ADMINISTRATION,
By J. JOSEPH WHELAN,
Recording Secretary.

[F. R. Doc. 47–288; Filed, Jan. 8, 1947; 4:31 p. m.]

PART 1010—SUSPENSION ORDERS

[Suspension Order No. S–1062]

BEN C. RICHARDS

Ben C. Richards, the owner of about 10 acres of land on Hillsborough Avenue at Dale Mabry Highway, Tampa, Florida, about July 15, 1946 commenced construction of a project known as a trailer park, consisting of nine separate buildings; namely, a combination residence and office, a grocery store, six utility buildings containing toilets and shower baths, and a laundry, at an estimated cost in excess of $10,000. An application for authority from the Civilian Production Administration to do this construction was denied on September 12, 1946, nevertheless, he continued construction thereafter of the combination residence and office at an estimated cost of between $8,000 and $10,000 without authorization and in wilful violation of Veterans' Housing Program Order No. 1. This violation has diverted critical materials to uses not authorized by the Civilian Production Administration. In view of the foregoing, it is hereby ordered that:

§ 1010.1062 *Suspension Order No. S–1062.* (a) Neither Ben C. Richards, nor any other person shall do any construction on the said trailer park property or any part thereof located at Hillsborough Avenue at Dale Mabry Highway, Tampa, Florida, including completing, putting up, or the altering of said proposed structures on said premises, and including the combination office-residence now under construction, unless hereafter specifically authorized in writing by the Civilian Production Administration or the Federal Housing Administration.

(b) Ben C. Richards shall refer to this order in any application or appeal which he may file with the Civilian Production Administration for priorities assistance or for authorization to carry on construction.

(c) Nothing contained in this order shall be deemed to relieve Ben C. Richards, from any restriction, prohibition, or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

(d) The restrictions and prohibitions contained herein shall apply to Ben C. Richards, doing business as Vic's Trailer Park or under any other name, his successors and assigns, or persons acting in his behalf. Prohibitions against the taking of any action include the taking indirectly as well as directly of any such action.

Issued this 8th day of January 1947.

CIVILIAN PRODUCTION ADMINISTRATION,
By J. JOSEPH WHELAN,
Recording Secretary.

[F. R. Doc. 47–286; Filed, Jan. 8, 1947; 4:31 p. m.]

PART 1010—SUSPENSION ORDERS

[Suspension Order S–1069]

THOMPSON AND SMITH, AND JOHN S. COOK

Emory J. Thompson and E. Brook Smith, d/b/a Thompson and Smith, reside in Cumberland, Maryland, and own the premises on the south side of U. S. Highway Route No. 40, approximately 1 mile west of Cumberland, Maryland. John S. Cook, 1 North Liberty Street, Cumberland, Maryland, is a Builder and Contractor. Subsequent to March 26, 1946, Emory J. Thompson and E. Brook Smith, owners, and John S. Cook, builder, began the construction of a commercial building on this property at an estimated cost of $12,000, without authorization from the Civilian Production Administration. The beginning and carrying on of this construction, subsequent to March 26, 1946, without authorization of the Civilian Production Administration constituted a wilful violation on the part of Emory J. Thompson and John S. Cook, and, at least, a grossly negligent violation on the part of E. Brook Smith, of Veterans' Housing Program Order No. 1. This violation has diverted critical materials to uses not authorized by the Civilian Production Administration. In view of the foregoing, it is hereby ordered that:

§ 1010.1069 *Suspension Order No. S–1069.* (a) Neither Emory J. Thompson, E. Brook Smith, or John S. Cook, their successors or assigns, nor any other person shall do any further construction on the premises of Thompson & Smith, located on the south side of U. S. Highway Route No. 40, approximately 1 mile west of Cumberland, Maryland, including completing, putting up or altering of any structure located thereon, unless hereafter specifically authorized in writing by the Civilian Production Administration.

(b) Emory J. Thompson, E. Brook Smith, and John S. Cook shall refer to this order in any application or appeal which they may file with Civilian Production Administration for priorities assistance, or for authorization to carry on construction.

(c) Nothing contained in this order shall be deemed to relieve Emory J Thompson, E. Brook Smith, or John S Cook, their successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 8th day of January 1947.

Chapter XI—Office of Temporary Controls, Office of Price Administration

PART 1499—COMMODITIES AND SERVICES

[SR 14F, Amdt. 27]

MODIFICATION OF MAXIMUM PRICES ESTABLISHED BY GENERAL MAXIMUM PRICE REGULATION FOR CERTAIN CHEMICALS, DRUGS, AND PAINTS

A statement of the considerations accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Section 10 (f) (1) is amended to read as follows:

(1) *Manufacturers:* $0.247 per gallon.

This amendment shall become effective as of October 29, 1946.

Issued this 9th day of January 1947.

PHILIP B. FLEMING,
Temporary Controls Administrator.

Statement of the Considerations Involved in the Issuance of Amendment No. 27 to SR 14F

Order 55 under section 19a of the General Maximum Price Regulation, effective October 10, 1946, permitted manufacturers of linseed replacement oil to sell this commodity under adjustable pricing until such time as the Office of Price Administration took final action with respect to applications filed by them for an increase in the maximum prices for this commodity.

On the basis of the data before this Office, it appears that an adjustment of $0.084 per gallon in the manufacturers' maximum prices for linseed replacement oil would have been appropriate under the Price Administrator's standards prior to October 29, 1946, the date when maximum prices for this commodity were decontrolled.

Accordingly, this amendment effectuates the increase indicated above which applies to all sales by manufacturers of this commodity prior to October 29, 1946, in accordance with Adjustable Pricing Order 55 under section 19a of the General Maximum Price Regulation. The increase permitted by this amendment results in a total increase of $0.247 per gallon over the maximum prices for this commodity originally established under SR 14F.

[F. R. Doc. 47–304; Filed, Jan. 9, 1947; 11:18 a. m.]

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix—Public Land Orders

[Public Land Order 336]

MONTANA

EXCLUSION OF CERTAIN LANDS FROM THE BOWDOIN NATIONAL WILDLIFE REFUGE

By virtue of the authority vested in the President and pursuant to Executive Order No. 9337 of April 24, 1943, it is ordered as follows:

Executive Order No. 7295 of February 14, 1936, establishing the Lake Bowdoin Migratory Waterfowl Refuge, in Montana, the designation of which was changed to the Bowdoin National Wildlife Refuge by Executive Order No. 8592, of November 12, 1940, is hereby revoked so far as it affects the following described lands:

PRINCIPAL MERIDIAN

[Public Land Order 337]

ALASKA

REVOKING EXECUTIVE ORDER NO. 4625 OF APRIL 1, 1927, RESERVING CERTAIN LOTS IN FEDERAL ADDITION TO THE TOWN SITE OF SEWARD

By virtue of the authority vested in the President by the act of March 12, 1914, 38 Stat. 305, and pursuant to Executive Order No. 9337 of April 24, 1943, it is ordered as follows:

Executive Order No. 4625 of April 1, 1927, reserving lots 11 and 12, block 8, in the Federal Addition to the town site of Seward, Alaska, for the use of the Forest Service of the United States Department of Agriculture, is hereby revoked.

(Sec. 1, 38 Stat. 305; 48 U. S. C. 303; E. O. 9337, Apr. 24, 1943, 3 CFR Cum. Supp.)

WARNER W. GARDNER,
Assistant Secretary of the Interior.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

PART 1—RULES RELATING TO ORGANIZATION AND PRACTICE AND PROCEDURE

SAFETY AND SPECIAL SERVICES DIVISION

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 24th day of December 1946;

It appearing, that it is necessary and desirable to amend section 1.76 of the Commission's rules and regulations so as to reflect the present assignment of duties in the Safety and Special Services Division; and

It further appearing, that general notice of proposed rules making is not required with respect hereto pursuant to the provisions of section 4 (a) of the Administrative Procedure Act;

It is ordered, That § 1.76 (11 F. R. 177A–404) of the Commission's rules and regulations be, and it is hereby, amended to read as follows:

§ 1.76 *Safety and Special Services Division.* The Safety and Special Services Division is divided into the following sections:

(a) Aviation and General Mobile section, which reviews and prepares legal opinions, reports and recommendations (other than those involving common carrier operations) with respect to applications for radio station authorizations in the aviation service, both in the established and experimental stages and in the experimental general mobile service; reviews and makes recommendations with respect to formal and informal petitions and complaints; conducts investigations and hearings with respect to these services; drafts proposed legislative amendments and prepares Commission reports, orders, rules and regulations affecting these services.

(b) Marine, Operator and Amateur Section, which is responsible for all legal matters (other than those involving common carrier operations) relating to radio installations and operations aboard ships, whether voluntary or required by Title III, Part II, of the Communications Act of 1934, as amended, and the International Convention for the Safety of Life at Sea, and to land radio installations communicating with or sending signals to radio stations aboard ship, both in the experimental and established stages; to radio installations and operations in the Amateur Radio Service; and to all licensed radio operators, both amateur and non-amateur, whether performing service aboard ships, aircraft, or on land; participates in the enforcement of the requirements of the International Convention for the Safety of Life at Sea; reviews and makes recommendations to the Commission with respect to formal and informal petitions and complaints in marine, amateur, and operator matters; conducts investigations and hearings relating to marine, amateur, and operator matters; and as affecting such matters prepares Commission reports, orders, rules and regulations.

(c) Emergency, Experimental and Miscellaneous Section, which reviews and prepares legal opinions, reports and recommendations with respect to applications for radio station authorizations (other than those involving or looking toward common carrier operations) in the Emergency Services (police, fire, forestry and special emergency stations), the Experimental Service; conducts investigations and hearings affecting these services; reviews and makes recommendations with respect to formal and informal complaints; and prepares Commission reports, orders, rules and regulations affecting these services. (Sec. 4 (i), 48 Stat. 1068, sec. 5 (e), 48 Stat. 1068; 47 U. S. C. 154 (i), 155 (e))

It is further ordered, That the foregoing amendment to § 1.76 of the Commission's rules and regulations be, and it is hereby effective immediately.

[SEAL] FEDERAL COMMUNICATIONS COMMISSION,
T. J. SLOWIE,
Secretary.

[F. R. Doc. 47–219; Filed, Jan. 9, 1946; 8:49 a. m.]

PART 3—RULES GOVERNING RADIO BROADCAST SERVICES

ORDER EXTENDING EXEMPTION FROM EXISTING RULES

At a meeting of the Federal Communications Commission at its offices in Washington, D. C., on December 26, 1946,

The Commission having before it the request of the Television Broadcasters Association, Inc. for an extension to June 30, 1947 of the action of the Commission of October 17, 1946 waiving the requirements of § 3.661 (a) of the rules and regulations of the Federal Com-

munications Commission until December 31, 1946; and

Whereas, it appears that because of construction and operating difficulties the deferment of the effect of § 3.661 (a), which requires television licenses to broadcast a minimum of 2 hours of broadcast service in any given broadcast day and not less than 28 hours broadcast service per week, should be continued until March 31, 1947.

It is hereby ordered, That § 3.661 (a) be amended so that the footnote at the end of § 3.661 (a) will read as follows:

[1] The requirements of § 3.661 (a) are waived until March 31, 1947.

This order is an exemption from existing Commission rules and it is necessary that it become effective immediately upon the expiration on December 31, 1946, of a similar exemption. Hence the public notice and procedure required by section 4 of the Administrative Procedure Act are hereby found to be unnecessary and this order is hereby made effective December 31, 1946.

[SEAL] FEDERAL COMMUNICATIONS COMMISSION,
T. J. SLOWIE,
Secretary.

[F. R. Doc. 47-210; Filed, Jan. 9, 1947; 8:50 a. m.]

[Order 110-E]

PART 3—RULES GOVERNING RADIO BROADCAST SERVICES

TERMINATION OF LICENSES FOR INTERNATIONAL BROADCAST STATIONS

DECEMBER 26, 1946.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 26th day of December 1946.

The Commission having under consideration Order No. 110-D (11 F. R. 12573) adopted September 30, 1946, providing for the extension of the licenses of international broadcast stations:

It is hereby ordered, That the license term for every international broadcast station presently licensed shall end at the earlier of the following dates: (a) April 1, 1947, or (b) the first day on which its operations are not controlled, by agreement or otherwise, by the State Department, Office of International Information and Cultural Affairs, or other governmental agency supervising the operation of international broadcasting; *Provided*, That this shall be without prejudice to the consideration of any application filed for operation otherwise, in the light of provisions of the "Departments of State, Justice, Commerce and the Judiciary Appropriation Act, 1947" (Pub. L. 490, 79th Cong.) appropriating funds for use by the Department of State in connection with the operation of an information program outside the continental United States.[1]

[1] The provisions referred to provide in part that "funds herein appropriated shall not be used to purchase more than 75 per centum of the effective daily broadcasting time from any person or corporation holding an international shortwave broadcasting license from the Federal Communications Commission without the consent of such licensee. . ."

It is further ordered, That the portion of § 3.718 (11 F. R. 10300, 12573) of the Commission's rules and regulations which establishes for international broadcast stations a normal license term of one year is hereby suspended until further order of the Commission.

[SEAL] T. J. SLOWIE,
Secretary.

[F. R. Doc. 47-211; Filed, Jan. 9, 1947; 8:50 a. m.]

TITLE 49—TRANSPORTATION AND RAILROADS

Chapter I—Interstate Commerce Commission

Subchapter B—Carriers by Motor Vehicle

PART 205—REPORTS OF MOTOR CARRIERS

MOTOR CARRIER ANNUAL REPORT FORM A[2]

At a session of the Interstate Commerce Commission, Division 1, held at its office in Washington, D. C., on the 2d day of January A. D. 1947.

The matter of Annual Reports from Class I Motor Carriers of Property and Class I Motor Carriers of Passengers being under consideration:

It is ordered, That the order of October 11, 1945, in the matter of Annual Reports from Class I Motor Carriers of Property and Class I Motor Carriers of Passengers be, and it is hereby modified with respect to annual reports for the year ended December 31, 1946, and subsequent years, as follows:

§ 205.1 *Form prescribed for annual reports.* Each Class I Common and Contract Motor Carrier of Property and each Class I Common and Contract Motor Carrier of Passengers shall file under oath an annual report for the year ended December 31, 1946, and for each succeeding year until further order, in accordance with Motor Carrier Annual Report Form A (Class I Motor Carriers of Property and Passengers) which is hereby approved and made a part of this section. The annual report shall be filed, in duplicate, in the Bureau of Motor Carriers, Interstate Commerce Commission, Washington, D. C., on or before March 31 of the year following the one to which it relates. (49 Stat. 563, sec. 24, 54 Stat. 926; 49 U. S. C. 320.)

NOTE: The reporting requirement of this order has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

By the Commission, Division 1.

[SEAL] W. P. BARTEL,
Secretary.

[F. R. Doc. 47-217; Filed, Jan. 9, 1947; 8:49 a. m.]

PART 11—ESTABLISHMENT, ETC., OF NATIONAL WILDLIFE REFUGES

BOWDOIN NATIONAL WILDLIFE REFUGE

CROSS REFERENCE: For order affecting the tabulation contained in § 11.1, see Public Land Order 336 under Title 43, *supra*, relating to the exclusion of certain lands from the Bowdoin National Wildlife Refuge, Montana.

PROPOSED RULE MAKING

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR, Part 3]

STANDARDS OF GOOD ENGINEERING PRACTICE CONCERNING STANDARD BROADCAST STATIONS

NOTICE OF PROPOSED RULE MAKING

DECEMBER 27, 1946.

At a meeting of the Federal Communications Commission at its offices in Washington, D. C., on December 20, 1946:

1. Notice is hereby given of proposed rule making in the above entitled matter.

2. The Standards of Good Engineering Practice Concerning Standard Broadcast Stations is proposed to be revised to the following extent:

a. The method for computing RSS interference appearing in paragraph 2 on page 7 of the Standards of Good Engineering Practice Concerning Standard Broadcast Stations is to be amended to read as follows:

With respect to the root-sum-square values of interfering field intensities referred to herein, calculation is accomplished by considering the signals in order of decreasing magnitude, adding the squares of the values and extracting the square root of the sum, excluding those signals which are less than 50% of the RSS value of the higher signals already included.

The RSS value will not be considered to be increased when a new interfering signal is added which is less than 50% of the RSS value of interference from existing stations, and which at the same time is not greater than the smallest signal included in the RSS value of interference from existing stations. However, for the purpose of studying the gains and losses in service in cases where it is proposed to add a new interfering signal in excess of the value permitted above, the RSS limitation after the addition of the new signal shall be calculated without excluding any signal previously included. Similarly, for the purpose of studying the gains or losses where it is proposed to increase the value of one of the existing interfering signals in the RSS value the RSS limitation after the increase shall be calculated without excluding the interference from any source previously included.

Examples

1. Existing interferences:
Station No. 1—1.0 mv/m.
Station No. 2—0.59 mv/m.
Station No. 3—0.58 mv/m.
Station No. 4—0.57 mv/m.

The RSS value from Nos. 1, 2 & 3 is 1.29 mv/m; therefore interference from No. 4 is excluded for it is less than 50% of 1.29 mv/m.

2. Station A receives interference from:
Station No. 1—1.0 mv/m.
Station No. 2—0.59 mv/m.
Station No. 3—0.58 mv/m.

It is proposed to add a new limitation = 0.67 mv/m. This is more than 50% of 1.29 mv/m, the RSS value of Nos. 1, 2 & 3. The RSS of Station No. 1 and of the proposed station would be 1.20 mv/m which is more than twice as large as the limitation from Station No. 2 or No. 3. However, under the above provision the new signal and the three existing interferences are nevertheless calculated for purposes of comparative studies, resulting in an RSS value of 1.46 mv/m. However, if the proposed station is ultimately authorized, only No. 1 and the new signal are included in all subsequent calculations for the reason that Nos. 2 and 3 are less than 50% of 1.20 mv/m, the RSS value of the new signal and No. 1.

3. Station A receives interference from:
Station No. 1—1.0 mv/m.
Station No. 2—0.59 mv/m.
Station No. 3—0.58 mv/m.

No. 1 proposes to increase the limitation it imposes on Station A to 1.20 mv/m. Although Stations Nos. 2 and 3 are less than 50% of the 1.20 limitation, under the above provision they are nevertheless included for comparative studies. However, if the increase proposed by Station No. 1 is authorized, the RSS value then calculated is 1.20 mv/m because Stations Nos. 2 and 3 are excluded in view of the fact that the limitations they impose are less than 50% of 1.20 mv/m.

b. That portion set forth in lines 7 to 13 inclusive on page 3 of Standards of Good Engineering Practice Concerning Standard Broadcast Stations covering the method for computing the nighttime limitation on local channels is amended to read as follows:

Class IV stations operate on local channels normally rendering primary service only to a city or town and the suburban and rural areas contiguous thereto with powers not less than 0.1 kw or more than 0.25 kw. These stations are normally protected to 500 uv/m groundwave contour daytime. On local channels the separation required for the daytime protection shall also determine the nighttime separation. The actual nighttime limitation will be calculated.[3a]

[3a] The following approximate method may be used. It is based on the assumption of constant skywave reflection coefficient with distance less than 250 miles, of 0.25λ antenna height, and 88 mv/m at one mile effective field for 250 watts power. Zones defined by circles of various radii specified below are drawn about the desired station and the interfering 10% skywave signal from each station in a given zone is considered to be the value tabulated below. The effective interfering 10% skywave signal is taken to be the RSS of all signals originating within these zones. (Stations beyond 500 miles are neglected.)

Zone	Inner radius	Outer radius miles	10 percent skywave signal
			Mv/m
A		50	0.13
B	50	60	.15
C	60	70	.17
D	70	90	.19
E	90	250	.21
F	250	300	.19
G	300	350	.17
H	350	400	.15
I	400	450	.13
J	450	500	.12

Where the power of the interfering station is not 250 watts the 10% skywave signal should be adjusted by the square root of the ratio of the power to 250 watts.

c. Page 1, footnote 3 of present standards (to be substituted for present footnote 3):

[3] The secondary service area of a Class I station is not protected from adjacent channel interference. However, if it is desired to make a determination of the area in which adjacent channel groundwave interference (10 kc removed) to skywave service exists, it may be considered as the area where the ratio of the desired 50% skywave of the Class I station to the undesired groundwave of a station 10 kc removed is 1 to 4.

d. Page 11, of present standards (to be substituted for page 10, beginning "The night separation tables," through Table VII–H on page 16).

The following table is to be used for determining the minimum ratio of field intensity of a desired to an undesired signal for interference-free service. In the case of a desired groundwave signal interfered with by two or more skywave signals on the same frequency, the RSS value of the latter is used.

TABLE V—INTERFERENCE RATIOS

Frequency separation of desired to undesired signals	Desired groundwave to		Desired 50 percent skywave to undesired 10 percent skywave
	Undesired ground wave	Undesired 10 percent skywave	
0 kc	20:1	20:1	20:1
10 kc	1:1	1:5	(1)
20 kc	1:30		

[1] See footnote 3, p. 1.

Stations with the same general groundwave service area may be licensed for operation on channels as close as 40 kc separation. Although no interference ratio is specified in Table V for 30 kc separation since most receivers are sufficiently selective to tolerate a high level of interfering signal at this separation, other effects, such as cross-modulation of signals may result depending upon the relative location of two stations with such frequency separation. Accordingly, no station will be licensed for operation with a 30 kc separation from another station, if the area enclosed by the 25 mv/m groundwave contours of the two stations overlap. Moreover, at 20 kc and 10 kc separation the minimum ratio for interference free service permits the interfering signal to be stronger than the desired signal which results in a decrease in the area of interference for closer spacing of the transmitters. This frequency separation is nevertheless considered inappropriate for stations with the same general urban coverage and therefore no station will be licensed for operation with less than 30 kc frequency separation if the area enclosed by the 25 mv/m groundwave contour of either one overlaps the area enclosed by the 2 mv/m groundwave contour of the other.

Two stations, one with a frequency twice that of the other, should not be assigned in the same groundwave service area unless special precautions are taken to avoid interference from the second harmonic of the lower frequency. In selecting a frequency, consideration should be given to the fact that occasionally the

frequency assignment of two stations in the same area may bear such a relation to the intermediate frequency of some broadcast receivers as to cause so-called "image" interference. However, since this can usually be rectified by readjustment of the intermediate frequency of such receivers, the Commission in general will not take this kind of interference into consideration in allocation problems.

Two stations operating with synchronized carriers[2] and carrying the identical program will have their groundwave service subject to some distortion in areas where the signals from the two stations are of comparable intensity. For the purpose of estimating coverage of such stations areas in which the signal ratio is between 1 to 2 and 2 to 1 will not be considered as having satisfactory service.

3. The proposed amendments had been widely discussed with interested persons, specifically with Engineering Committees appointed to advise the Commission in the matter of Clear Channel Broadcasting in the Standard Broadcast Band (Docket No. 6741), with Industry Committees meeting to advise the Commission concerning proposals to be made to the North American Regional Radio-Engineering Meeting concerning the extension of the North American Regional Broadcasting Agreement and testimony concerning those amendments was taken in the hearing being held in Docket No. 6741.

4. The proposed amendments are issued under the authority of sections 303 (b), 303 (f) and 303 (r) of the Communications Act of 1934, as amended.

5. Any interested person who is of the opinion that the proposed amendments should not be adopted in the form set forth may file with th Commission by January 23, 1947, a written statement or brief setting forth his comments. The Commission will consider these written statements before adopting the proposed amendments and if comments are submitted which appear to warrant the Commission to hold an oral argument notice of time and place of such oral argument will be given.

[SEAL] FEDERAL COMMUNICATIONS COMMISSION,
T. J. SLOWIE,
Secretary.

[F. R. Doc. 47-218; Filed, Jan. 9, 1947; 8:49 a. m.]

[2] Two stations are considered to be operated synchronously when the carriers are maintained within one-fifth of a cycle per second of each other and they transmit identical programs.

[47 CFR, Parts 16 and 17]

FREQUENCY TOLERANCE FOR CERTAIN LOW POWER RADIO TRANSMITTERS

NOTICE OF PROPOSED RULE MAKING

DECEMBER 20, 1946.

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. The rules and regulations as proposed for revision are set forth in an appendix attached to this notice.

3. The proposed rules are issued under the authority of sections 303 (e) and 303 (f) of the Communications Act of 1934, as amended.

4. Any interested person who is of the opinion that these proposed revisions of the rules should not be adopted, or should not be adopted in the form set forth, may file with the Commission, on or before Jan. 13, 1947 a written statement or brief setting forth his comments. The Commission will consider these written comments before adopting the proposed rules, and, if comments are submitted which request or appear to warrant the Commission holding an oral argument, notice of the time and place of such oral argument will be given.

§ 16.63 *Channel width and modulation.* (a) In the frequency band 30–100 Mc, the width of each channel assigned is 40 kc; in the 100–216 Mc band, the channel width is 60 kc. Each frequency which appears on a station license or other instrument of station authorization is the center or mid-point of a frequency channel. All emissions outside of an assigned channel shall be attenuated at least sixty (60) decibels below the maximum level of emissions within the assigned frequency channel.

(b) When the radio frequency carrier is amplitude modulated, modulation shall be sufficient to provide effective communication, but shall not exceed one hundred percent on peaks.

(c) When the radio frequency carrier is frequency modulated, the positive or the negative frequency deviation arising from modulation plus the deviation of the carrier from the assigned frequency due to frequency instability shall not exceed one-half the assigned channel width.

§ 16.64 *Frequency stability.* (a) A Railroad Radio Service permittee or licensee shall maintain the carrier frequency of each authorized transmitter within the following percentage of the assigned frequency, except as provided in paragraph (b) of this section:

	Percent
(1) Below 50 Mc	0.01
(2) Above 50 Mc	0.005

(b) The requirements of paragraph (a) of this section shall not apply to any mobile or portable station or transmitter unit thereof when operated with less than three watts plate power input to the final radio stage. For such equipment, compliance with the requirements of § 16.63 regarding channel width and modulation is sufficient.

§ 17.142 *Frequency stability.* (a) A Utility Radio Service permittee or licensee shall maintain the carrier frequency of each authorized transmitter within the following percentage of the assigned frequency; except as provided in paragraph (b) of this section.

	Percent
(1) Below 50 Mc	0.01
(2) Above 50 Mc	0.005

(b) The requirements of paragraph (a) of this section shall not apply to any mobile or portable station or transmitter unit thereof when operated with less than three watts plate power input to the final radio stage. For such equipment, compliance with the requirements of § 17.146 regarding channel width and modulation is sufficient.

§ 17.146 *Channel width and modulation.* (a) In the frequency band 30–100 Mc, the width of each channel assigned is 40 kc; in the 100–216 Mc band the channel width is 60 kc. Each frequency which appears on a station license or other instrument of station authorization is the center or mid-point of a frequency channel. All emissions outside of an assigned channel shall be attenuated at least sixty (60) decibels below the maximum level of emissions within the assigned frequency channel.

(b) When the radio frequency carrier is amplitude modulated, modulation shall be sufficient to provide effective communication, but shall not exceed one hundred percent on peaks.

(c) When the radio frequency carrier is frequency modulated, the positive or the negative frequency deviation arising from modulation plus the deviation of the carrier from the assigned frequency due to frequency instability shall not exceed one-half the assigned channel width.

NOTE: Footnote 3 to § 17.146 has been deleted.

[SEAL] FEDERAL COMMUNICATIONS COMMISSION,
T. J. SLOWIE,
Secretary.

[F. R. Doc. 47-209; Filed, Jan. 9, 1947; 8:50 a. m.]

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

CALIFORNIA

CLASSIFICATION ORDER

DECEMBER 18, 1946.

1. Pursuant to the authority delegated to me by the Secretary of the Interior (43 CFR 4.275 (a) (39), 11 F. R. 9080), I hereby classify under the Small Tract Act of June 1, 1938 (52 Stat. 609), as amended July 14, 1945 (59 Stat. 467, 43 U. S. C. sec. 682a) for leasing, as hereinafter indicated, the following described public lands in the Los Angeles, California, land district, embracing 481.49 acres:

SMALL TRACT CLASSIFICATION NO. 110

CALIFORNIA NO. 45

For all of the purposes mentioned in the act except business and camp sites.

SAN BERNARDINO MERIDIAN

T. 5 S., R. 6 E.,
Sec. 4, SW¼;
Sec. 6, lots 1 and 2 of NE¼;
Sec. 8, S½N½.

2. These lands are located in Riverside County, California, on the west side of Coachella Valley about 125 miles southeast of Los Angeles and about 66 miles southeast of Riverside. The area is located in the northern part of the township, at an elevation of about 200 feet, where the surface is nearly level. The township is approximately 5½ miles from Indio and 14 miles from Palm Springs. Both of these towns serve as trade and social centers for large desert areas, and both are readily accessible over State Highway No. 111. Stores, schools and other community services are available. The Southern Pacific railroad tracks cross the northeast corner of the township.

3. This is an arid section of California where the precipitation averages about 5 inches a year. The average winter temperatures vary from 50 degrees to 60 degrees and those of the summer from 80 degrees to 90 degrees. The climate is reported to be especially favorable for the alleviation of bronchial, pulmonary and other disorders. Surface water supplies are limited. Water can be secured from underground sources in the valley portions of the township at depths of from 150 to 250 feet.

4. Pursuant to § 257.8 of the Code of Federal Regulations (43 CFR, Part 257, Cum. Supp., as amended by Circ. 1613, February 27, 1946), a preference right to a lease is accorded to those applicants whose applications (a) were regularly filed, under the regulations issued pursuant to the act, prior to 11:55 a. m. on April 26, 1946, and (b) are for the type of site for which the land subject thereto has been classified. As to such applications, this order shall become effective upon the date on which it is signed.

5. As to the land not covered by the applications referred to in paragraph 4, this order shall not become effective to permit the leasing of such land under the small tract act of June 1, 1938, cited above, until 10:00 a. m. on February 19, 1947. At that time such land shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-day period for other preference right filings.* For a period of 90 days from 10:00 a. m. on February 19, 1947, to close of business on May 20, 1947, inclusive, to (1) application under the Small Tract Act of June 1, 1938, by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. secs. 279–283), subject to the requirements of applicable law, and (2) application under any applicable public land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications by such veterans shall be subject to claims of the classes described in subdivision (2).

(b) *Advance period for simultaneous preference-right filings.* All applications by such veterans and persons claiming preference rights superior to those of such veterans filed at or after 11:55 a. m. on April 26, 1946, together with those presented at 10:00 a. m. on January 30, 1947, shall be treated as simultaneously filed.

(c) *Date for nonpreference right filings authorized by the public-land laws.* Commencing at 10:00 a. m. on May 21, 1947, any of the land remaining unappropriated shall become subject to application under the small tract act by the public generally.

(d) *Advance period for simultaneous nonpreference-right* filings. Applications under the small tract act by the general public filed at or after 11:55 a. m. on April 26, 1946, together with those presented at 10:00 a. m. on May 1, 1947, shall be treated as simultaneously filed.

6. Veterans shall accompany their applications with certified copies of their certificates of discharge, or other satisfactory evidence of their military or naval service. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated affidavits in support thereof, setting forth in detail all facts relevant to their claims.

7. All applications for the lands referred to in paragraphs 4 and 5 which shall be filed in the District Land Office at Los Angeles 12, California, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations (Circ. 324, May 22, 1914, 43 L. D. 254), to the extent that such regulations are applicable. Applications under the small tract act of June 1, 1938, shall be governed by the regulations contained in Part 257 of Title 43 of the Code of Federal Regulations.

8. Lessees under the Small Tract Act of June 1, 1938, will be required, within a reasonable time after execution of the lease, to construct upon the leased land, to the satisfaction of the Director, Bureau of Land Management, improvements which, under the circumstances, are presentable, substantial, and appropriate for the use for which the lease is issued. Leases will be for a period of five years, at an annual rental of $5, payable yearly in advance.

9. The land will be leased in tracts of approximately five acres, or aliquot parts thereof, each being approximately 330 x 660 feet, or aliquot dimensions thereof. The tracts should conform in description with the rectangular system of surveys as one compact unit.

10. Preference right leases referred to in paragraph 4 will be issued for the land described in the application, provided the tract is made to conform to the areas and dimensions specified above.

11. Where only one five-acre tract in a ten-acre subdivision is embraced in a preference right application, however, the Acting Manager is authorized to accept applications for the remaining five-acre tract or aliquot parts thereof extending in the same direction so as to fill out the subdivision.

12. All inquiries relating to these lands shall be addressed to the Acting Manager, District Land Office, Los Angeles 12, California.

FRED W. JOHNSON,
Acting Director.

FEDERAL COMMUNICATIONS COMMISSION

[Docket 6651]

REVISED FREQUENCY SERVICE ALLOCATIONS BETWEEN 1,000 AND 13,000 MEGACYCLES TO NON-GOVERNMENT FIXED AND MOBILE SERVICES

ORDER POSTPONING ORAL ARGUMENTS

At a session of the Federal Communications Commission held at its offices in Washington, D. C. on the 23d day of December 1946;

It is ordered, That the oral argument in the above-entitled matter heretofore scheduled to be held on January 28, 1947, be, and it is hereby, postponed until February 4, 1947.

By the Commission.

[SEAL] T. J. SLOWIE.
Secretary.

[F. R. Doc. 47-234; Filed, Jan. 9, 1947, 8:46 a. m.]

CESSATION OF FM BROADCAST OPERATIONS IN THE BAND OF 42–44 MEGACYCLES

TEMPORARY ASSIGNMENTS

DECEMBER 20, 1946.

In order to clear the band of 42–44 megacycles for use by the non-government fixed and mobile services to which that band has been allocated, the Commission today announced the following temporary assignments for FM broadcast

stations now operating in the 42–44 megacycle region:

Call letters	Licensee	Present temporary assignment	New temporary assignment	Regular assignment
		Mc	Mc	Mc
W2XMN	Edwin H. Armstrong, Alpine, N. J.	42.8	44.1	68.9
WINX–FM	WINX B'cg Co., Washington, D. C.	43.2	44.7	92.9
WMNE	The Yankee Network, Inc., Boston, Mass., T—Mt. Washington, N. H.	43.9	45.1	98.1
WBEZ	Board of Education, Chicago, Ill.	42.5	44.3	91.7
WBKY	University of Kentucky, Lexington, Ky.	42.9	44.3	91.3
WBCE	Board of Education, Cleveland, Ohio.	42.5	44.3	90.1
KALW	Board of Education, San Francisco, Calif.	42.1	44.3	91.7
WNYE[1]	Board of Education, city of New York, Brooklyn, N. Y.	42.1	44.9	91.7
WIUC[1]	University of Illinois, Urbana, Ill.	42.9	44.7	91.5

[1] Stations WNYE and WIUC have indicated that they propose to cease operation until their equipment is ready for operation on their regular assignment.

The above changes are effective January 1, 1947, or as soon thereafter as equipment may be modified, and in no event later than February 1, 1947.

The Commission has not yet fixed the date when all FM operation in the 44–50 Mc band must cease and all FM operation be confined to the 88–106 Mc band. As previously announced, the Commission will endeavor to continue the temporary operation of stations in the lower band until FM receivers for the higher band are generally available.

[SEAL] FEDERAL COMMUNICATIONS COMMISSION,
T. J. SLOWIE,
Secretary.

[Designation Order No. 5]

DESIGNATION OF MOTIONS COMMISSIONER FOR JANUARY 1947

At a session of the Federal Communications Commission held at its offices in Washington, D. C. on the 26th day of December 1946;

It is ordered, Pursuant to § 1.111 of the Commission's rules and regulations, that Paul A. Walker, Commissioner be, and he is hereby designated as Motions Commissioner, for the month of January 1947.

It is further ordered, That in the event said Motions Commissioner is unable to act during any part of said period the Chairman or Acting Chairman will designate a substitute Motions Commissioner.

[SEAL] FEDERAL COMMUNICATIONS COMMISSION,
T. J. SLOWIE,
Secretary.

NEW CITIZENS' RADIOCOMMUNICATION SERVICE

DEVELOPMENT AND CONSTRUCTION OF EQUIPMENT

DECEMBER 20, 1946.

On November 13, 1946 the Commission released Public Notice Number 99764 (11 F. R. 13704) which contained the proposed technical requirements for equipment to be used in the frequency band 460–470 Mc. for the Citizens Radiocommunication Service. It was stated that any comments or suggestions relating to the development or operation of such equipment should be submitted to the Commission at Washington, D. C., not later than December 31, 1946. It now appears that additional time would be desirable. Accordingly, this date has been extended to January 15, 1947.

[Docket No. 7896]

COLUMBIA BROADCASTING SYSTEM, INC.

PETITION FOR CHANGES IN RULES AND STANDARDS OF GOOD ENGINEERING PRACTICE CONCERNING TELEVISION BROADCAST STATIONS

DECEMBER 23, 1946.

The Commission today announced that it has ordered a resumption of its color television hearing for the week beginning Monday, January 27, 1947. The hearing will reopen in New York City in a federal court room to be subsequently specified and at that time the petitioner, Columbia Broadcasting System, is requested to be prepared to repeat for the record actual demonstrations of its color television system, similar to those which have been made to the Commission and other interested persons.

All parties are requested to be present at the New York hearing and demonstration, if possible, so that they may have the opportunity to cross-examine petitioner concerning all phases of the demonstration and to offer any evidence they may have concerning the demonstration.

Any other party to the proceeding desiring to have a demonstration made at the public hearing may do so during the week of January 27. Parties desiring to avail themselves of this opportunity should communicate with the Commission counsel no later than January 6, 1947.

Following those demonstrations the hearing will resume in Washington.

[Docket 7922, 7923]

NORTHWESTERN THEOLOGICAL SEMINARY AND BIBLE TRAINING SCHOOL

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Northwestern Theological Seminary and Bible Training School, Minneapolis, Minnesota, for construction permits; Docket No. 7922, File No. B4–P–5273; Docket No. 7923, File No. B4–PH–970.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 17th day of December 1946;

The Commission having under consideration the above-entitled application requesting construction permits for a new standard broadcast and FM station to operate at Minneapolis, Minn.

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said applications be, and they are hereby, designated for consolidated hearing at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant corporation, its officers, directors and members to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to receive service from the proposed stations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed stations would involve objectionable interference with any existing or proposed broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

By the Commission.

[SEAL] WM. P. MASSING,
Acting Secretary.

[F. R. Doc. 47–235; Filed, Jan. 9 1947; 8:46 a. m.]

[Docket No. 7858]

MEDICAL DIATHERMY EQUIPMENT AND INDUSTRIAL HEATING EQUIPMENT

CONDITIONAL ASSIGNMENT OF FREQUENCY

By public notice of September 20, 1946, the Commission announced proposed rules and regulations governing the operation of medical diathermy equipment and industrial heating equipment and specified November 6, 1946, for oral argument and hearing on such proposed rules and regulations. In its public notice of September 20, 1946, the Commission also stated that in the oral argument and hearing referred to above consideration would be given to the question whether an additional frequency band should be assigned for the operation of medical diathermy equipment and industrial heating equipment in the 3000 megacycle region of the spectrum. By subsequent notice dated October 9, 1946, the said oral argument and hearing was postponed to December 18, 1946, and in a further notice of November 14, 1946, particular attention was called to the fact that consideration would be given to allocation of a frequency in the 3000 megacycle region of the spectrum for industrial, medical and scientific purposes and all interested parties were invited to submit comments and participate in the scheduled oral argument and hearing.

The oral argument and hearing referred to above was held on December 18 and 19, 1946, and upon the basis of the evidence received at that time the Commission has determined that the public interest would be served by a grant of the request for allocation of space in the 3000 megacycle region of the spectrum which would be available for industrial, medical, and scientific purposes. Accordingly, the Commission has adopted the order set out below providing for allocation of the frequency 2450 megacycles for such purposes and requiring that emissions radiated in the course of operation on that frequency be confined within the range 2400–2500 megacycles.

The regulations under consideration in Docket 7858 with respect to operation of industrial heating and medical diathermy equipment in the 13, 27 and 40 megacycle regions of the spectrum are inapplicable to this operation on 2450 megacycles and detailed regulations with respect to operation on that frequency have not yet been promulgated. However, rather than postpone the availability of the frequency in question for general use until such standards have been determined, the Commission is making the frequency 2450 megacycles available for immediate non-exclusive use without a license for industrial, medical, and scientific purposes in compliance with certain conditions set forth in the order. It should be noted particularly that operation at this time rather than at a later date after the promulgation of engineering standards is expressly made subject to such regulations as the Commission may in the future decide to be appropriate with respect to operation upon the frequency in question. Persons who make use of that frequency now are accordingly placed on notice that such regulations may be adopted and be applicable to their operation.

At a meeting of the Federal Communications Commission in its offices in Washington, D. C. on December 26, 1946,

The Commission having under consideration a request for assignment of a frequency in the 3000 megacycle region of the radio spectrum for industrial, medical, and scientific purposes without a license; and

The Commission on December 18 and 19, 1946, having held a public hearing, after due notice to all interested parties, to receive evidence upon the question whether such a band should be assigned for such purposes; and

The Commission having considered the evidence presented during such hearing and having determined upon such consideration that the public interest, convenience, and necessity would be served by such an allocation;

Now, therefore, *It is hereby ordered*, That the frequency 2450 megacycles be, and the same is hereby, assigned, for industrial, medical, and scientific purposes upon a non-exclusive basis. Operation for such purposes upon the frequency 2450 megacycles may be conducted without a license only upon the following conditions:

(1) The emissions of radiofrequency energy resulting from such operation shall be confined to that portion of the spectrum between 2400–2500 megacycles.

(2) The energy radiated and the band width of emissions of all industrial, medical and scientific equipment operated as provided for herein shall be reduced to the greatest extent practicable. No interference shall be caused to authorized communication services from spurious or harmonic radiations. In the event of such interference from spurious or harmonic radiations, operation of the equipment causing such interference shall cease and shall not be resumed until steps necessary to eliminate such interference have been taken.

(3) Operation upon the assigned frequency as specified above shall be subject to such future regulations as may be found by the Commission to be appropriate.

By direction of the Commission.

[SEAL] T. J. SLOWIE,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

[File Nos. 54–9, 59–12]

AMERICAN GAS AND ELECTRIC CO. ET AL.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 6th day of January A. D. 1947

In the matter of American Gas and Electric Company, Atlantic City Electric Company, Deepwater Operating Company, South Pennsgrove Realty Company, File Nos. 54–9 and 59–12.

The Commission having heretofore on December 26, 1945 entered its order pursuant to section 11 (b) (1) of the Public Utility Holding Company Act of 1935, directing American Gas and Electric Company ("American"), a registered holding company, to limit the operations of its holding company system by severing its relationships with Atlantic City Electric Company ("Atlantic City"), Deep Water Operating Company ("Deep Water"), South Pennsgrove Realty Company ("Pennsgrove"), The Scranton Electric Company ("Scranton") and West Pittston-Exeter Railroad Company ("Pittston"):

Notice is hereby given that on December 20, 1946, American filed with this Commission an application requesting a one-year extension of time pursuant to section 11 (c) of the act within which to comply with the Commission's order of December 26, 1945 with respect to divestment of Atlantic City, Deep Water, and Pennsgrove.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to said application and that said application shall not be granted except pursuant to the further order of the Commission:

It is hereby ordered, That a hearing be held upon said application on January 21, 1947 at 11:00 a. m., e. s. t. at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. On such day the hearing room clerk in Room 318 will advise as to the room where such hearing will be held.

It is further ordered, That Allen MacCullen or any other officer or officers of the Commission designated by it for that purpose, shall preside at such hearing. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That the Secretary of the Commission shall serve by registered mail a copy of this order on the applicant herein, and that notice of said hearing be given to all other persons by publication of this order in the FEDERAL REGISTER.

It is further ordered, That, without limiting the scope of the issues presented by said application, particular attention will be directed at said hearing to the following matters and questions:

(1) Whether sufficient reason can be shown why the Commission's order of December 26, 1945 with respect to the divestment of Atlantic City, Deep Water and Pennsgrove has not been complied with.

(2) Whether and to what extent a further extension of time for compliance with said order of December 26, 1945 is necessary or appropriate in the public interest or for the protection of investors and consumers.

(3) Whether in the event the application shall be granted in whole or in part, it is necessary to impose terms and conditions to assure compliance with the order of December 26, 1945.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 47-212; Filed, Jan. 9, 1947; 8:50 a. m.]

[File Nos. 59-88, 59-9]

PHILADELPHIA CO. ET AL.

ORDER POSTPONING HEARING AND EXTENDING TIME TO ANSWER

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 3d day of January 1947.

In the matter of Philadelphia Company and certain of its subsidiary companies and Standard Power and Light Corporation and Standard Gas and Electric Company, Respondents, File No. 59-88; Standard Power and Light Corporation, Standard Gas and Electric Company and subsidiary companies thereof, Respondents, File No. 59-9.

The Commission having on the 5th day of December 1946, pursuant to sections 11 (b) (1) and 11 (b) (2) of the Public Utility Holding Company Act of 1935, issued a notice of and order for hearing in the above-captioned consolidated proceedings and having ordered that such hearing be held at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania, on the 21st day of January, 1947 and having further ordered that answers herein be filed on or before fifteen days prior to the date set for hearing; and

Philadelphia Company and certain of its subsidiary companies and Standard Gas and Electric Company, respondents herein, having on January 2, 1947 filed petitions requesting that the Commission extend for a period of at least sixty days the time for filling answers herein, and postpone the date for hearing for a period of at least thirty days subsequent to the date to be fixed for filing answers, and Standard Power and Light Corporation, another respondent herein, having also requested an extension of time for the filing of its answer herein; and

It appearing to the Commission that the various petitions do not show sufficient cause for the granting of the continuance for the periods requested, but that it is appropriate in the public interest that some extension of time be granted for the filing of answers and that the said hearing be postponed to extent hereinafter ordered;

It is ordered, That the time for filing answers in this proceeding be and is hereby extended until February 10, 1947, and the date for hearing in this matter be and is hereby postponed to February 25, 1947, at the same time and place heretofore designated.

By the Commission.

OFFICE OF TEMPORARY CONTROLS

Civilian Production Administration

[C-470]

ALBERT MARIANO

CONSENT ORDER

Albert Mariano, North Miles Road, Moreland Hills Village, Ohio, is charged by the Civilian Production Administration with violating Veterans' Housing Program Order 1 in that in August, 1946, he began construction and thereafter carried on and participated in the construction of a one and a half story garage and warehouse building located on North Miles Road, Moreland Hills Village, Ohio, at a cost in excess of $1,000 without authorization of the Civilian Production Administration.

Albert Mariano admits the violation as charged and has consented to the issuance of this order.

Wherefore, upon the agreement and consent of Albert Mariano, the Regional Compliance Director and the Regional Attorney, and upon the approval of the Compliance Commissioner, *It is hereby ordered*, That

(a) Neither Albert Mariano, his successors and assigns, nor any other person shall do any further construction on the commercial structure located on North Miles Road, Moreland Hills Village, Ohio, including the putting up, completing or altering the garage and warehouse structure located on said premises unless hereafter specifically authorized in writing by the Civilian Production Administration.

(b) Albert Mariano shall refer to this order in any application or appeal which he may file with the Civilian Production Administration for priorities assistance or for authority to carry on construction.

(c) Nothing contained in this order shall be deemed to relieve Albert Mariano, his successors and assigns, from any provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 8th day of January 1947.

CIVILIAN PRODUCTION ADMINISTRATION,
By J. JOSEPH WHELAN,
Recording Secretary.

FEDERAL REGISTER

VOLUME 12 NUMBER 8

Washington, Saturday, January 11, 1947

TITLE 7—AGRICULTURE

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders)

[Orange Reg. 107]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN THE STATE OF FLORIDA

LIMITATION OF SHIPMENTS

§ 933.320 *Orange Regulation 107*—(a) *Findings.* (1) Pursuant to the amended marketing agreement and the order, as amended (7 CFR, Cum. Supp. 933.1 et seq.; 11 F. R. 9471), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, issued under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., January 13, 1947, and ending at 12:01 a. m., e. s. t., January 20, 1947, no handler shall ship:

(i) Any oranges, including Temple oranges, grown in the State of Florida, which grade U. S. Combination Russet, U. S. No. 2 Russet, U. S. No. 3, or lower than U. S. No. 3 grade, as such grades are defined in the United States standards for citrus fruits (11 F. R. 13239); or

(ii) Any oranges, except Temple oranges, grown in the State of Florida, which are of a size smaller than a size that will pack 250 oranges, packed in accordance with the requirements of a standard pack (as such pack is defined in the aforesaid United States standards), in a standard box (as such box is defined in the standards for containers for citrus fruit established by the Florida Citrus Commission pursuant to section 3 of Chapter 20449, Laws of Florida, Acts of 1941 (Florida Laws Annotated § 595.09)).

(2) As used herein, "handler," "variety," and "ship" shall have the same meaning as is given to each such term in said amended marketing agreement and order. (48 Stat. 31, 670, 675; 49 Stat. 750; 50 Stat. 246; 7 U. S. C. 601 et seq.)

Done at Washington, D. C., this 9th day of January 1947.

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Division of the Federal Register, the National Archives, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the Code of Federal Regulations, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended June 19, 1937.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15¢) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

NOTICE

General notices of proposed rule making, published pursuant to section 4 (a) of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 238), which were carried under "Notices" prior to January 1, 1947, are now presented in a new section entitled "Proposed Rule Making". Relationship of these documents to material in the Code of Federal Regulations, formerly shown by cross reference under the appropriate Title, is now indicated by a bold-face citation in brackets at the head of each document.

provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong., 2d Sess.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) The quantity of oranges grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., January 12, 1947, and ending at 12:01 a. m., P. s. t., January 19, 1947, is hereby fixed as follows:

(i) *Valencia oranges.* (*a*) Prorate Districts Nos. 1, 2, and 3, no movement.

(ii) *Oranges other than Valencia oranges.* (*a*) Prorate District No. 1, 1,150 carloads; (*b*) Prorate District No. 2, 150 carloads; and (*c*) Prorate District No. 3, unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference. The Orange Administrative Committee, in accordance with the provisions of the said order, shall calculate the quantity of oranges which may be handled by each such handler during the period specified in subparagraph (1) of this paragraph.

(3) As used herein, "handled," "handler," "carloads," and "prorate base" shall have the same meaning as is given to each such term in the said order; and "Prorate District No. 1," "Prorate District No. 2," and "Prorate District No. 3" shall have the same meaning as is given to each such term in § 966.107 of the rules and regulations (11 F. R. 10258) issued pursuant to said order. (48 Stat. 31, 670, 675; 49 Stat. 750; 50 Stat. 246; 7 U. S. C. 601 et seq.)

Done at Washington, D. C., this 9th day of January 1947.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

[Grapefruit Reg. 79]

PART 933 — ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN THE STATE OF FLORIDA

LIMITATION OF SHIPMENTS

§ 933.321 *Grapefruit Regulation 79*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and the order, as amended (7 CFR, Cum. Supp., 933.1 et seq., 11 F. R. 9471), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, issued under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., January 13, 1947, and ending at 12:01 a. m., e. s. t., January 20, 1947, no handler shall ship:

(i) Any grapefruit of any variety, grown in the State of Florida, which grade U. S. No. 3, or lower than U. S. No. 3 grade (as such grades are defined in the United States standards for citrus fruits (11 F. R. 13239));

(ii) Any seeded grapefruit, other than pink grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 80 grapefruit, packed in accordance with the requirements of a standard pack (as such pack is defined in the aforesaid United States standards), in a standard box (as such box is defined in the standards for containers for citrus fruit established by the Florida Citrus Commission pursuant to section 3 of Chapter 20449, Laws of Florida, Acts of 1941 (Florida Laws Annotated § 595.09));

(iii) Any seedless grapefruit, other than pink grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 96 grapefruit, packed in accordance with the requirements of a standard pack (as such pack is defined in the aforesaid United States standards), in a standard box (as such box is defined in the aforesaid standards for containers for citrus fruit); or

(iv) Any pink grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 126 grapefruit, packed in accordance with the requirements of a standard pack (as defined in the aforesaid United States standards), in a standard box (as such box is defined in the aforesaid standards for containers for citrus fruit).

(2) As used herein, "variety," "handler," and "ship" shall have the same meaning as is given to each such term in said amended marketing agreement and order. (48 Stat. 31, 670, 675; 49 Stat. 750; 50 Stat. 246; 7 U. S. C. 601 et seq.)

Done at Washington, D. C., this 9th day of January 1947.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

[F. R. Doc. 47-317; Filed, Jan. 10, 1947; 8:46 a. m.]

[Lemon Reg. 204]

PART 953—LEMONS GROWN IN THE STATES OF CALIFORNIA AND ARIZONA

LIMITATIONS OF SHIPMENTS

§ 953.311 *Lemon Regulation 204*—(a) *Findings.* (1) Pursuant to the marketing agreement and the order (7 CFR, Cum. Supp., 953.1 et seq.), regulating the handling of lemons grown in the State of California or in the State of Arizona, issued under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong., 2d Sess.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., January 12, 1947, and ending at 12:01 a. m., P. s. t., January 19, 1947, is hereby fixed at 250 carloads, or an equivalent quantity.

(2) The prorate base of each handler who has made application therefor, as provided in the said marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached to Lemon Regulation 203 (12 F. R. 61) and made a part hereof by this reference. The Lemon Administrative Committee, in accordance with the provisions of the said marketing agreement and order, shall calculate the quantity of lemons which may be handled by each such handler during the period specified in subparagraph (1) of this paragraph.

(3) As used in this section, "handled," "boxes," "handler," "carloads," and "prorate base" shall have the same meaning as is given to each such word in the said marketing agreement and order. (48 Stat. 31, 670, 675; 49 Stat. 750; 50 Stat. 246; 7 U. S. C. 601 et seq.)

Done at Washington, D. C., this 9th day of January 1947.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

[F. R. Doc. 47-314; Filed, Jan. 10, 1947; 8:46 a. m.]

[Tangerine Reg. 60]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN THE STATE OF FLORIDA

LIMITATION OF SHIPMENTS

§ 933.322 *Tangerine Regulation 60*—(a) *Findings.* (1) Pursuant to the amended marketing agreement and the order, as amended (7 CFR, Cum. Supp., 933.1 et seq.; 11 F. R. 9471), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, issued under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of tangerines, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., January 13, 1947, and ending at 12:01 a. m., e. s. t., January 20, 1947, no handler shall ship:

(i) Any tangerines, grown in the State of Florida, which grade U. S. No. 2 Russet, U. S. No. 3, or lower than U. S. No. 3 grade (as such grades are defined in the U. S. Standards for Tangerines, issued by the United States Department of Agriculture, effective September 29, 1941, as amended);

(ii) Any tangerines, grown in the State of Florida, which are of a size smaller than the size that will pack 210 tangerines, packed in accordance with the requirements of a standard pack (as such pack is defined in the aforesaid U. S. Standards), in a half-standard box (inside dimensions 9½ x 9½ x 19⅛ inches; capacity 1,726 cubic inches); or

(iii) Any tangerines, grown in the State of Florida, which are of a size larger than the size that will pack 120 tangerines, packed in accordance with the requirements of a standard pack (as such pack is defined in the aforesaid U. S. Standards), in a half-standard box (inside dimensions 9½ x 9½ x 19⅛ inches; capacity 1,726 cubic inches).

(2) As used herein, "handler" and "ship" shall have the same meaning as is given to each such term in said amended marketing agreement and order. (48 Stat. 31, 670, 675; 49 Stat. 750; 50 Stat. 246; 7 U. S. C. 601 et seq.)

Done at Washington, D. C., this 9th day of January 1947.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

TITLE 6—AGRICULTURAL CREDIT

Chapter III—Farmers Home Administration

Subchapter G—Farm Ownership

PART 364—REGULATIONS

FARM OWNERSHIP LOAN LIMITS

For the purposes of Title I of the Bankhead-Jones Farm Tenant Act, as amended, average values of efficient family-type farm-management units and loan limits for the counties in the States of Nevada and Texas named herein are determined to be as herein set forth; and § 364.11 (b), Part 364 of Title 6 of the Code of Federal Regulations, as amended November 14, 1946 (11 F. R. 13611), is amended by adding said counties, average values, and loan limits to the tabulations appearing in said section under the States of Nevada and Texas:

County	Average value	Loan limit
NEVADA		
Elko	$14,000	$12,000
Lyon	14,000	12,000
Pershing	14,000	12,000
TEXAS		
Dallam	19,200	12,000
El Paso	25,000	12,000
Hudspeth	25,000	12,000
Taylor	13,000	12,000

TITLE 10—ARMY: WAR DEPARTMENT

Chapter V—Military Reservations and National Cemeteries

PART 505—MOTION PICTURE SERVICE

UNITED STATES ARMY MOTION PICTURE SERVICE

The regulations contained in Part 505 are amended as set forth below:

1. Rescind § 505.2 and substitute the following:

§ 505.2 *Definitions.* (a) An Army theater as an adjunct of the Army, exhibits commercial entertainment motion pictures at an admission charge to specified persons and is financed by nonappropriated funds.

(b) Army theaters are operated by the installation commanders under the supervision of the appropriate army and air force commanders and the Army Motion Picture Service, Special Services Division, as set forth in §§ 505.3 and 505.5.

(c) Where the term "installation" is used in these regulations it will be construed to mean posts, camps, stations, air bases, depots, airfields, or any similar Army establishment.

(d) Regional and branch offices of the Army Motion Picture Service, Special Services Division, are class II installations reporting direct to the Chief, Special Services Division, War Department, on all matters. The commanders listed in § 505.5 have no responsibilities in connection with the operation of these regional offices.

2. Amend § 505.3 by revising paragraphs (b), (c) and (d) as follows:

§ 505.3 *Army Motion Picture Service.* • • •

(b) The Army Motion Picture Service is an adjunct of the Army operated by the War Department as a nonappropriated fund activity under the Chief, Special Services Division, War Department. This service provides supervision as hereinafter defined in the operation of Army theaters.

(c) Such regional and branch offices as may be necessary for efficient operation, and the engineering depot will be maintained, reporting direct to the Chief, Special Services Division.

(d) The Army Motion Picture Service will carry adequate insurance of the kinds and on such plans and forms as may be prescribed from time to time by the Chief, Special Services Division, in conformity with policies established by the Chief of Finance. Theater officers, assistant theater officers, and theater employees will be bonded under a blanket position bond and theater funds insured as described in TM 28-405, Operation of the Army Theater: Army Motion Picture Service.

3. Rescind §§ 505.4 and 505.5 and substitute the following in lieu thereof:

§ 505.4 *Regional offices of the Army Motion Picture Service.* The regional offices will perform functions pertaining to the booking and circuiting of entertainment films, the procuring and distributing of advertising material, and such additional functions as may be delegated by the Chief, Special Services Division, from time to time.

§ 505.5 *Command responsibility.* The following will exercise command responsibilities in the supervision of the entertainment motion picture service at Army theaters, and all policy matters will be channeled through them for such action or recommendation as may be appropriate:

(a) Army commanders (ZI).

(b) Commanding generals of the major air force commands in the United States.

(c) Commanding general, Military District of Washington.

4. In § 505.6 paragraph (a) (1) is revised and paragraph (a) (3) is rescinded as follows:

§ 505.6 *Films*—(a) *Supply.* (1) All entertainment motion pictures for exhibition at installations in the area prescribed in § 505.1 will be secured from the Army Motion Picture Service with the following exceptions:

(i) American Red Cross service for patients in hospitals.

(ii) 16-mm entertainment motion pictures will not ordinarily be shown at installations where Army theaters are operated. Any unusual conditions that would appear to justify a departure from this policy will be communicated through the appropriate command channels the Chief, Special Services Division, for approval.

(2) • • •

(3) [Rescinded]

5. Rescind §§ 505.9 and 505.10 and substitute the following in lieu thereof:

§ 505.9 *Patronage eligibility.* Admission to motion picture shows will be restricted as follows:

(a) Military personnel on active duty may attend any Army theater. Such military personnel when not in uniform will present appropriate identification.

(b) Members of the households of military personnel on active duty may attend showing at Army theaters located at the installations to which the military personnel are assigned although not in the company of such military personnel, provided proper identification is presented.

(c) Members of the households of military personnel on active duty may attend showings at Army theaters located at installations other than that to which the military personnel are assigned, but only when in the company of such military personnel and provided proper identification is presented.

(d) Civilians residing within the limits of Army installations may attend showings at Army theaters at the installation where they reside provided proper identification is presented.

§ 505.10 *Employment of theater personnel.* (a) The number and names of the positions and the maximum rates of pay that may be paid employees of Army theaters will be as designated by the Army Motion Picture Service, Special Services Division.

(b) All authorized Army theater positions will be part time, and compensation therefor in the case of assistant managers, chief projectionists, assistant projectionists, assistant manager-cashiers, cashiers, ticket takers, and ushers will be on a performance basis. In the case of janitors, supervising assistant managers, and projection supervisors, compensation will be at a flat rate per show day.

(c) Military personnel will occupy theater positions only as a part time employment during their off-duty time, which will not interfere with the performance of their normal military duties.

[AR 210–390, 6 Dec. 1946] (R. S. 161; 5 U. S. C. 22)

[SEAL] EDWARD F. WITSELL,
Major General,
The Adjutant General.

TITLE 32—NATIONAL DEFENSE

Chapter IX—Office of Temporary Controls, Civilian Production Administration

AUTHORITY: Regulations in this chapter unless otherwise noted at the end of documents affected, issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236, 56 Stat. 177, 58 Stat. 827, and Public Laws 270 and 475, 79th Congress; Public Law 388, 79th Congress; E. O. 9024, 7 F. R. 329; E. O. 9040, 7 F. R. 527; E. O. 9125, 7 F. R. 2719; E. O. 9599, 10 F. R. 10155; E. O. 9638, 10 F. R. 12591; C. P. A. Reg. 1, Nov. 5, 1945, 10 F. R. 13714; Housing Expediter's Priorities Order 1, Aug. 27, 1946, 11 F. R. 9507; E. O. 9809, Dec. 12, 1946, 11 F. R. 14281; OTC Reg. 1, 11 F. R. 14311.

PART 1010—SUSPENSION ORDERS

[Suspension Order S–1064]

HERMAN BAUM

Herman Baum, 204 E. Third Street, Fort Worth, Texas, on or about September 12, 1946, began construction of a one story building at 1015 Henderson Street, Fort Worth, Texas. The building was designed for use as an automobile agency and the estimated cost of the project was approximately $89,000. The Civilian Production Administration had authorized the construction of a retaining wall 20′ x 180′ x 20′ in length to prevent caving and resulting damage from excavation of the property. Without further authorization or making further application, Herman Baum, through his duly authorized agents, ordered additional construction. The beginning and carrying on of this additional construction constituted a wilful violation of Veterans' Housing Program Order No. 1 and has diverted critical materials to uses not authorized by the Civilian Production Administration. In view of the foregoing, it is hereby ordered that:

§ 1010.1064 *Suspension Order No. S–1064.* (a) Neither Herman Baum, his successors or assigns, nor any other person shall do any construction on the premises located at 1015 Henderson Street, Fort Worth, Texas, (except the completion of the retaining wall as authorized) unless hereafter specifically authorized in writing by the Civilian Production Administration.

(b) Herman Baum shall refer to this order in any application or appeal which he may file with the Civilian Production Administration for authorization to carry on construction.

(c) Nothing contained in this order shall be deemed to relieve Herman Baum, his successors or assigns, from any restriction, prohibition, or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 9th day of January 1947.

CIVILIAN PRODUCTION ADMINISTRATION,
By J. JOSEPH WHELAN,
Recording Secretary.

[F. R. Doc. 47–318; Filed, Jan. 9, 1947; 4:31 p. m.]

PART 1010—SUSPENSION ORDERS

REVOCATIONS

In view of the revocation of General Preference Order M–38, the Chief Compliance Commissioner has directed that the suspension orders hereinafter listed be revoked forthwith.

It is therefore hereby ordered that the following suspension orders be revoked, effective January 9, 1947: *Provided, however,* That this revocation does not affect any liabilities incurred for violations of the suspension order prior to revocation.

§ 1010.983	S–983	Apex Battery Manufacturing Company
§ 1010.931	S–931	Associated Battery Manufacturing Company
§ 1010.974	S–974	Blasco Wilson Company
§ 1010.958	S–958	Bowers Battery and Spark Plug Company
§ 1010.943	S–943	DuBois Electric Storage Battery Company
§ 1010.953	S–953	Electro Battery Manufacturing Company
§ 1010.1043	S–1043	Keystone Storage Battery Company
§ 1010.940	S–940	William S. Knoblock
§ 1010.992	S–992	Mule Battery Manufacturing Company
§ 1010.1012	S–1012	Universal Battery Company
§ 1010.994	S–994	Volta Battery Company
§ 1010.981	S–981	Wonch Battery Company

Issued this 9th day of January 1947.

CIVILIAN PRODUCTION ADMINISTRATION,
By J. JOSEPH WHELAN,
Recording Secretary.

TITLE 49—TRANSPORTATION AND RAILROADS

Chapter I—Interstate Commerce Commission

Subchapter B—Carriers by Motor Vehicle

PART 205—REPORTS OF MOTOR CARRIERS

SUPPLEMENT TO MOTOR CARRIER ANNUAL REPORT FORM A

At a session of the Interstate Commerce Commission, Division 1, held at its office in Washington, D. C., on the 6th day of January A. D. 1947.

It appearing, that by order of March 1, 1946, certain Class I common carriers by motor vehicle were required to keep their accounts and compile statistics which would permit them to report certain information as a Supplement to Motor Carrier Annual Report Form A for 1946, it is ordered, that:

§ 205.2 *Supplement to Motor Carrier Annual Report Form A—1946.* Each Class I common carrier by motor vehicle engaged predominantly in intercity service as a carrier of general commodities which had gross operating revenues for the year 1945 of $400,000 or more shall file a supplement to its annual report for the year 1946 in accordance with Supplement to Annual Report Form A for the year 1946 which is hereby approved and made a part of this order. Such Supplement shall contain information for the nine months ended December 31, 1946, and shall be filed, in duplicate, in the Bureau of Motor Carriers, Interstate Commerce Commission, Washington, D. C., on or before March 31, 1947. (49 Stat. 563, sec. 24, 54 Stat. 926; 49 U. S. C. 320)

NOTE: The reporting requirement of this order has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

By the Commission, Division 1.

[SEAL] W. P. BARTEL,
Secretary.

SUPPLEMENT TO ANNUAL REPORT FORM A FOR THE YEAR 1946

INCOME STATEMENT FOR THE NINE MONTHS ENDED DECEMBER 31, 1946, COMMON CARRIERS WITH GROSS REVENUES OF $400,000 OR MORE PER ANNUM ENGAGED PREDOMINANTLY IN INTERCITY TRANSPORTATION OF GENERAL FREIGHT

[Administrative Order 1185]

ALLOCATION OF FUNDS FOR LOANS

DECEMBER 4, 1946.

Stonewall Electric Company, on November 8, 1946, transferred all of its properties and assets in the State of Colorado to Monument Electric Company in consideration of the assumption by Monument Electric Company of all the contractual and other obligations of Stonewall Electric Company pertaining to such properties and assets, including, without limitation, all such contractual and other obligations of Stonewall Electric Company to United States of America arising from loans made by United States of America pursuant to the Rural Electrification Act of 1936, as amended. Therefore, I hereby amend:

(a) Administrative Order No. 328, dated March 22, 1939, by changing the project designation appearing therein as "Colorado R9021A1 T. E. T. R. & G.", in the amount of $39,000, (amended to read "Colorado R9021A1 S. E." by Administrative Order No. 347, dated May 19, 1939) to read "Colorado 43A M. E.";

(b) Administrative Order No. 936, dated July 23, 1945, by changing the project designation appearing therein as

"Colorado 46021-B1 S. E.", in the amount of $64,741, to read "Colorado 43B M. E."

[SEAL] WILLIAM J. NEAL,
Acting Administrator.

DEPARTMENT OF LABOR

Wage and Hour Division

LEARNER EMPLOYMENT CERTIFICATES

ISSUANCE TO VARIOUS INDUSTRIES

Notice of issuance of special certificates for the employment of learners under the Fair Labor Standards Act of 1938.

Notice is hereby given that special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rate applicable under section 6 of the act have been issued to the firms hereinafter mentioned under section 14 of the act, 29 CFR, Part 522 (August 16, 1940, 5 F. R. 2862, and as amended June 25, 1942, 7 F. R. 4725), and the determinations, orders and/or regulations hereinafter mentioned. The names and addresses of the firms to which certificates were issued, industry, products, number of learners, learner occupations, wage rates, learning periods, and effective and expiration dates of the certificates are as follows:

Independent Telephone Learner Regulations, July 17, 1944 (9 F. R. 7125).

The special learner certificate issued to the following company under the above regulations provides for the employment of learners in the occupation of commercial switchboard operator for a period not in excess of 480 hours at not less than 30 cents per hour for the first 320 hours and 35 cents per hour for the remaining 160 hours of the learning period. The number of learners authorized to be employed depends on the number of operators in the exchange, i. e., one learner if the exchange employs 8 operators or less, two learners if the exchange employs from 9 to 18 operators, etc. See 29 CFR, 522.083.

Citizens Telephone Company, Higginsville, Missouri; effective December 4, 1946, expiring December 3, 1947.

Regulations, Part 522—Regulations Applicable to the Employment of Learners (*supra*).

General Farm Equipment Company, Avenida Rossy, Santurce, Puerto Rico; Metal, Plastics, Machinery, Instrument, Transportation Equipment and Allied Industries; three (3) learners as mechanic, at not less than 20 cents an hour for the first 520 hours, not less than 25 cents an hour for the second 520 hours, not less than 30 cents an hour for the third 520 hours, not less than 33 cents an hour for the fourth 520 hours, and for every hour thereafter not less than the minimum established by any applicable wage order that may be in effect at the termination of the learning period; effective October 25, 1946, expiring October 24, 1947.

The employment of learners under these certificates is limited to the terms and conditions therein contained and is subject to the provisions of the applicable determinations, orders and/or regulations cited above. These certificates have been issued upon the employers' representations that experienced workers for the learner occupations are not available for employment and that they are actually in need of learners at subminimum rates in order to prevent curtailment of opportunities for employment. The certificates may be cancelled in the manner provided in the regulations and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of 29 CFR, Part 522.

Signed at New York, New York, this 2d day of December 1946.

PAULINE C. GILBERT,
Authorized Representative of the Administrator.

[Vesting Order 7935]

KARL M. AUCH

In re: Estate of Karl M. Auch, deceased. File D-28-11112; E. T. sec. 15523.

Under the authority of the Trading with the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Ernest (Earnest) Auch, Elsie (Elise) Kayser, Ernest (Earnest) Auch, Marta Strobel, Ella Strobel, and Lina Auch, whose last known address is Germany, are residents of Germany and nationals of a designated enemy country (Germany);

2. That all right, title, interest and claim of any kind or character whatsoever of the persons named in subparagraph 1 hereof in and to the estate of Karl M. Auch, deceased, is property payable or deliverable to, or claimed by, the aforesaid nationals of a designated enemy country (Germany);

3. That such property is in the process of administration by the Clerk, Orphans' Court of Northampton County, acting under the judicial supervision of the Orphans' Court of Northampton County, Easton, Pennsylvania;

and it is hereby determined:

4. That to the extent that the persons named in subparagraph 1 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

[Vesting Order 7936]

ANNA GEIER

In re: Estate of Anna Geier, deceased. File D-28-9724; E. T. sec. 13629.

Under the authority of the Trading with the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Maria Arle, whose last known address is Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the children, names unknown, of Maria Arle, who there is reasonable cause to believe are residents of Germany, are nationals of a designated enemy country (Germany);

3. That all right, title, interest and claim of any kind or character whatsoever of the persons identified in subparagraphs 1 and 2 hereof, and each of them, in and to the Estate of Anna Geier, deceased, is property payable or deliverable to, or claimed by, the aforesaid nationals of a designated enemy country (Germany);

4. That such property is in the process of administration by Paul J. Hettwer, as Executor, acting under the judicial supervision of the County Court of Washington County, Wisconsin;

and it is hereby determined:

5. That to the extent that the above-named person and children, names unknown, of Maria Arle, are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany);

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

[Vesting Order 7937]

AUGUST LACHER

In re: Estate of August Lacher, also known as August Lasher, deceased. File No. D-28-9769; E. T. sec. No. 13728.

Under the authority of the Trading with the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Paulina Lacher, also known as Pauline Lacher and as Paula Lacher, Anna Lacher, Auguste Lacher, also known as August Lacher, whose last known address is Germany, are residents of Germany and nationals of a designated enemy country (Germany);

2. That all right, title, interest and claim of any kind or character whatsoever of the persons named in subparagraph 1 hereof in and to the estate of August Lacher, also known as August Lasher, deceased, is property payable or deliverable to, or claimed by, the aforesaid nationals of a designated enemy country (Germany);

3. That such property is in the process of administration by Wilhelm Mueller and Philip L. Wiener, as Executors, acting under the judicial supervision of the Surrogate's Court, Queens County, New York;

and it is hereby determined:

4. That to the extent that the persons named in subparagraph 1 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

(40 Stat. 411; 55 Stat. 839; Pub. Law 322, 79th Cong.; 60 Stat. 50; Pub. Law 671, 79th Cong.; 60 Stat. 925; 50 U. S. C. 1, 616; E. O. 9193, July 6, 1942, 7 F. R. 5205; E. O. 9567, June 8, 1945, 10 F. R. 6917; E. O. 9788, Oct. 14, 1946, 11 F. R. 11981)

Executed at Washington, D. C., on January 3, 1947.

[Vesting Order 7968]

PAUL HUMMEL

In re estate of Paul Hummel, deceased. File No. D-28-10188; E. T. sec. No. 14521.

Under the authority of the Trading with the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

That the property described as follows:

All right, title, interest and claim of any kind of character whatsoever of Friedrick Hummel, Lina Hummel, Willie Hummel and Louise H. Tauber, and each of them, in and to the estate of Paul Hummel, deceased,

is property payable or deliverable to, or claimed by, nationals of a designated enemy country, Germany, namely,

Nationals and Last Known Address

Friedrick Hummel, Germany.
Lina Hummel, Germany.
Willie Hummel, Germany.
Louise H. Tauber, Germany.

That such property is in the process of administration by Martha Aharonian, as Administratrix of the estate of Paul Hummel, deceased, acting under the judicial supervision of the Passaic County Orphans' Court, Paterson, New Jersey;

And determined—that to the extent that such nationals are persons not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany);

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

[Vesting Order 7962]

JOHN BAKO

In re: Estate of John Bako, deceased. File D-34-869; E. T. sec. 14414.

Under the authority of the Trading with the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That George Bako, Joseph Bako and Rosa Magashazi, whose last known address is Hungary, are residents of Hungary and nationals of a designated enemy country (Hungary);

2. That the surviving issue of Joseph Bako and the surviving issue of Rosa Magashazi, names unknown, who there is reasonable cause to believe are residents of Hungary, are nationals of a designated enemy country (Hungary);

3. That all right, title, interest and claim of any kind or character whatsoever of the persons identified in subparagraphs 1 and 2 hereof, and each of them, in and to the estate of John Bako, deceased, is property payable or deliverable to, or claimed by, the aforesaid nationals of a designated enemy country (Hungary);

4. That such property is in the process of administration by Mary Papp, as Executrix, acting under the judicial supervision of the Superior Court of the State of California, in and for the County of Los Angeles;

and it is hereby determined:

5. That to the extent that the above named persons and the surviving issue of Joseph Bako and the surviving issue of Rosa Magashazi, names unknown, are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Hungary).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest.

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt within the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

[Docket No. G-793]

KANSAS-NEBRASKA NATURAL GAS CO., INC.

ORDER FIXING DATE OF HEARING

JANUARY 7, 1947.

Upon consideration of the application filed September 30, 1946, in Docket No. G-793 by Kansas-Nebraska Natural Gas Company, Inc., (Applicant) a Kansas corporation with its principal place of business at Phillipsburg, Kansas, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to authorize Applicant to construct and operate the following described natural-gas pipeline facilities subject to the jurisdiction of the Federal Power Commission:

A 4½-inch O. D. natural gas pipeline, approximately three miles in length, in Adams County, Nebraska, from Applicant's town border meter and regulator station north of the City of Hastings, Nebraska, running in a southeasterly direction approximately three miles to the Hastings, Nebraska, Naval Ammunition Depot, and a meter and regulator station at the latter point.

It appearing to the Commission that:

(a) Applicant proposes the construction and operation of the aforesaid des-

cribed facilities for the purpose of transporting natural gas for the use of the Naval Ammunition Depot at Hastings, Nebraska; and

(b) This proceeding is a proper one for disposition under the provisions of rule 32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure (effective September 11, 1946), Applicant having requested that its application be heard under the shortened procedure provided by the aforesaid rule for noncontested hearings, and no request to be heard, protest or petition having been filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on October 11, 1946 (11 F. R. 11835);

The Commission, therefore, orders that:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, as amended, and the Commission's rules of practice and procedure (effective September 11, 1946), a hearing be held on the 24th day of January, 1947, at 9:30 a. m. (EST) in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue, N. W., Washington, D. C., concerning the matters of fact and law asserted in the application filed in the above entitled proceedings: *Provided, however,* That if no request to be heard, or protest or petition to intervene raising in the judgment of the Commission an issue of substance, has been filed or allowed prior to the date hereinbefore set for hearing, the Commission may after a noncontested hearing forthwith dispose of the proceeding by order upon consideration of the application and the evidence filed therewith and incorporated in the record of the proceeding, together with such additional evidence as may be available or as the Commission may require to be filed and incorporated in the record for its consideration.

(B) Interested State commissions may participate as provided by Rules 8 and 37 (b) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure (effective September 11, 1946).

Date of issuance: January 7, 1947.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 47-283; Filed, Jan. 10, 1947; 8:49 a. m.]

[Docket No. G-604]

CITIES SERVICE GAS CO.

NOTICE OF APPLICATION

JANUARY 3, 1947.

Notice is hereby given that on December 16, 1946, Cities Service Gas Company, a Delaware corporation with its principal place of business in Oklahoma City, Oklahoma, filed with the Federal Power Commission an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, for authority to construct and operate a positive meter setting at a point on Applicant's 4-inch pipe line in the Southwest Quarter (SW¼) of Section 3, Township 26 North, Range 13 East, Washington County, Oklahoma, for the sale of emergency gas to D. M. Tyler; and for authority to construct and operate a positive meter setting at a mutually convenient point to Applicant and Suburban Gas Company on Applicant's 4-inch pipe line in the Northwest Quarter (NW¼) of Section 33, Township 27 North, Range 13 East, Washington County, Oklahoma, for the sale of emergency gas to Suburban Gas Company.

Applicant has been recently advised that the pipe line system of D. M. Tyler and of Suburban Gas Company, both located east of Bartlesville in Washington County, Oklahoma, are one and the same system and that the affairs and business of said system are now being conducted under the name of Suburban Gas Company, a partnership, with its principal office at Dewey, Oklahoma. The present contract under which natural gas is now being delivered by Applicant to D. M. Tyler under temporary authority issued by the Commission on December 14, 1944 will be assigned to the Suburban Gas Company.

Applicant has been advised by D. M. Tyler and Suburban Gas Company that available local supplies of gas have become depleted to such an extent that emergency service is required in order to insure an adequate supply of gas to D. M. Tyler and Suburban Gas Company when near-freezing or sub-freezing temperatures prevail and to augment such local supply Applicant proposes to deliver additional quantities of gas as can be safely spared over and above Applicant's requirements for its other customers being supplied from Applicant's transportation system. D. M. Tyler and Suburban Gas Company have both stated that such purchases will have no effect on the rates charged their customers.

The above facilities for deliveries to D. M. Tyler were installed at a cost of $673 and the facilities for deliveries to Suburban Gas Company are estimated to cost $579, to be paid from funds on hand.

Any interested State commission is requested to notify the Federal Power Commission whether the application shall be considered under the cooperative provisions of Rule 37 of the Commission's rules of practice and procedure and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and further to specify whether it desires a conference, the creation of a board, or a joint or concurrent hearing as defined in said rule and the reasons for such request.

Any person desiring to be heard or to make any protest with reference to the application of Cities Service Gas Company should file with the Federal Power Commission, Washington 25, D. C., not later than 15 days from the date of the publication of this notice in the FEDERAL REGISTER, a petition or protest in accordance with the Commission's rules of practice and procedure. The time and place of hearing herein will subsequently be duly given.

FEDERAL TRADE COMMISSION

[Docket No. 5433]

INDEPENDENT GROCERS ALLIANCE DISTRIBUTING CO. ET AL.

ORDER APPOINTING TRIAL EXAMINER AND FIXING TIME AND PLACE FOR TAKING TESTIMONY

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 7th day of January A. D. 1947.

In the matter of Independent Grocers Alliance Distributing Company, a corporation, and its Directors: J. Frank Grimes, L. G. Groebe, William W. Thompson, James D. Godfrey, Ned N. Fleming, and Robert H. Perlitz; Grocers Company, a corporation, and its Directors: James D. Godfrey, Ned N. Fleming, Robert H. Perlitz, T. G. Harrison, Robert McLain, E. F. Brewster, Joseph Parker,

Normal Younglove, and Harry K. Grainger; Jersey Cereal Company, a corporation; Stokely Brothers & Company, Inc., a corporation; Dean Milk Company, a corporation; Cupples Company, a corporation; Franklin MacVeagh & Company, a corporation; E. R. Godfrey & Sons Company, a corporation; Winston & Newell Company, a corporation; and Wetterau Grocer Company, Inc., a corporation.

This matter being at issue and ready for the taking of testimony and the receipt of evidence, and pursuant to authority vested in the Federal Trade Commission,

It is ordered, That Everett F. Haycraft, a Trial Examiner of this Commission, be and he hereby is designated and appointed to take testimony and receive evidence in this proceeding and to perform all other duties authorized by law;

It is further ordered, That the taking of testimony and the receipt of evidence begin on Tuesday, February 4, 1947, at two o'clock in the afternoon of that day (Central Standard Time), in Room Number 1123, New Post Office Building, 433 West Van Buren Street, Chicago, Illinois.

Upon completion of the taking of testimony and the receipt of evidence in support of the allegations of the complaint, the Trial Examiner is directed to proceed immediately to take testimony and receive evidence on behalf of the respondents. The Trial Examiner on the completion of the taking of testimony and the receipt of evidence will then close the case and make and serve on the parties at issue a recommended decision which shall include recommended findings and conclusions, as well as the reasons or basis therefor, upon all the material issues of fact, law, or discretion presented on the record, and an appropriate recommended order; all of which shall become a part of the record in said proceeding.

By the Commission.

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 9819

APPOINTMENT OF THE MEMBERS AND THE ALTERNATE MEMBER OF A MILITARY TRIBUNAL ESTABLISHED FOR THE TRIAL AND PUNISHMENT OF MAJOR WAR CRIMINALS IN GERMANY

By virtue of the authority vested in me by the Constitution and the statutes, and as President of the United States and Commander in Chief of the Army and Navy of the United States, it is ordered as follows:

1. I hereby designate Fitzroy Donald Phillips, Judge of a Superior Court in the State of North Carolina, Robert Morrell Toms, Judge of the Third Judicial Circuit Court, Detroit, Michigan, and Captain Michael A. Musmanno, (S), USNR, O86622, as the members, and John Joshua Speight as the alternate member, of one of the several military tribunals established by the Military Governor for the United States Zone of Occupation within Germany pursuant to the quadripartite agreement of the Control Council for Germany, enacted December 20, 1945, as Control Council Law No. 10, and pursuant to Articles 10 and 11 of the Charter of the International Military Tribunal, which Tribunal was established by the Government of the United States of America, the Provisional Government of the French Republic, the Government of the United Kingdom of Great Britain and Northern Ireland, and the Government of the Union of Soviet Socialist Republics, for the trial and punishment of major war criminals of the European Axis. Such members and alternate member may, at the direction of the Military Governor of the United States Zone of Occupation, serve on any of the several military tribunals above mentioned.

2. The functions of these Tribunals being essentially military, Captain Musmanno will, during the tenure of this assignment, be subject to War Department orders, through the Commanding General of the European Theater, and will retain his status as an officer on the active list of the United States Naval Reserve.

3. The members and the alternate member herein designated shall receive such compensation and allowances for expenses as may be determined by the Secretary of War and as may be payable from appropriations or funds available to the War Department for such purposes, except that Captain Musmanno shall receive such compensation and allowances for expenses to which he may be entitled by reason of his military rank and service and as may be payable from appropriations or funds available to the Navy Department for such purposes.

4. The Secretary of State, the Secretary of War, the Attorney General, and the Secretary of the Navy are authorized to provide appropriate assistance to the members and the alternate member herein designated in the performance of their duties and may assign or detail such personnel under their respective jurisdictions, including members of the armed forces, as may be requested for the purpose. Personnel so assigned or detailed shall receive such compensation and allowances for expenses as may be determined by the Secretary of War and as may be payable from appropriations or funds available to the War Department for such purposes, except that personnel assigned or detailed from the Navy Department shall receive such compensation and allowances for expenses to which they may be entitled by reason of their military rank and service and as may be payable from appropriations or funds available to the Navy Department for such purposes.

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Division of the Federal Register, the National Archives, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the Code of Federal Regulations, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended June 19, 1937.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15¢) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

NOTICE

General notices of proposed rule making, published pursuant to section 4 (a) of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 238), which were carried under "Notices" prior to January 1, 1947, are now presented in a new section entitled "Proposed Rule Making". Relationship of these documents to material in the Code of Federal Regulations, formerly shown by cross reference under the appropriate Title, is now indicated by a bold-face citation in brackets at the head of each document.

WHEREAS the powers, functions, and duties of the Housing Expediter under the Veterans' Emergency Housing Act of 1946 (approved May 22, 1946) were merged with the powers, functions, and duties vested in the National Housing Administrator by Executive Order No. 9070 of February 24, 1942, the Lanham Act of October 14, 1940, and other statutes, and have been exercised and performed through the Office of the Administrator, National Housing Agency; and

WHEREAS the Housing Expediter was recently appointed as an independent officer of the Government, and it is necessary that his powers, functions, and duties be segregated so that they may be properly exercised and performed by him:

NOW, THEREFORE, by virtue of and pursuant to the authority vested in me by the said Veterans' Emergency Housing Act of 1946, and as President of the United States, it is hereby ordered, in the interest of the internal management of the Government, as follows:

1. All of the powers, functions, and duties of the Housing Expediter under the Veterans' Emergency Housing Act of 1946 which were merged with the powers, functions, and duties of the National Housing Administrator and exercised and performed through the Office of the Administrator, National Housing Agency, are hereby segregated and shall be exercised and performed by the Housing Expediter as an independent officer of the Government.

2. All personnel (as determined by joint certification by the Housing Expediter and the National Housing Administrator) appointed or transferred to positions which were required for the exercise and performance of the powers, functions, and duties of the Housing Expediter, as segregated by paragraph 1 of this order, are hereby transferred to the Office of the Housing Expediter for the exercise and performance of such powers, functions, and duties by the Housing Expediter as an independent officer of the Government: *Provided*, That with respect to the heads of offices and branches and special assistants in positions allocated to grade P–8 or grade CAF–15 who are engaged in the administration of functions of both the Housing Expediter and the National Housing Administrator, the transfer of any such personnel to the Office of the Housing Expediter or their retention in the Office of the National Housing Administrator shall be determined by joint certification by such Expediter and such Administrator. The joint certifications required by this section shall be made within 30 days from the date of this order.

3. All assets, contracts, and property, including office equipment and records, used or held in the administration, exercise, or performance of the powers, functions, and duties of the Housing Expediter, as segregated by paragraph 1 of this order, are hereby transferred to the Office of the Housing Expediter.

4. So much of the unexpended balances of appropriations, authorizations, allocations, or other funds available to the Office of the Administrator, National Housing Agency, for use in connection with the administration, exercise, or performance of the powers, functions, and duties of the Housing Expediter (as segregated by section 1 of this order) as the Director of the Bureau of the Budget shall determine shall be transferred to the Office of the Housing Expediter for use in connection with the said powers, functions, and duties. In determining the amount of funds to be transferred, the Director of the Bureau of the Budget may include an amount to provide for the liquidation of obligations incurred against such appropriations, authorizations, allocations, or other funds prior to transfer.

5. All unexpended balances of appropriations, authorizations, allocations, or other funds transferred under this order shall be used only for the respective purposes and in the administration of the respective functions for which such funds were made available.

6. Such further measures and dispositions as may be determined by the Director of the Bureau of the Budget to be necessary to effectuate the purposes and provisions of this order shall be carried out in such manner as the Director of the Bureau of the Budget may direct and by such agencies as he may designate.

HARRY S. TRUMAN

THE WHITE HOUSE,

EXECUTIVE ORDER 9821

AMENDING EXECUTIVE ORDER NO. 9070 OF FEBRUARY 24, 1942, CONSOLIDATING THE HOUSING AGENCIES AND FUNCTIONS OF THE GOVERNMENT INTO THE NATIONAL HOUSING AGENCY

By virtue of the authority vested in me as President of the United States, and in the interest of the internal management of the Government, it is hereby ordered as follows:

1. Executive Order No. 9070 of February 24, 1942, consolidating the housing agencies and functions of the Government into the National Housing Agency, is hereby amended by deleting from the first sentence of paragraph 2 the comma and the words "and shall receive a salary of $12,000 a year unless the Congress shall otherwise provide," so that the sentence shall read "The National Housing Administrator shall be appointed by the President, by and with the advice and consent of the Senate."

2. This order shall be effective as of December 15, 1946.

HARRY S. TRUMAN

THE WHITE HOUSE,
January 11, 1947.

[F. R. Doc. 47-353; Filed, Jan. 13, 1947; 10:06 a. m.]

TITLE 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 22—REGULATIONS GOVERNING APPEALS OF REFERENCE ELIGIBLES UNDER THE VETERANS PREFERENCE ACT OF 1944

MISCELLANEOUS AMENDMENTS

1. Paragraphs (b) and (c) of § 22.8 are amended to read as follows:

§ 22.8 *Investigations.* * * *

(b) *Manner of taking testimony.* Testimony of witnesses will be by affidavit, without any pledge of confidence, but where it is impracticable to obtain testimony under oath from a witness such statement will be obtained, without any pledge of confidence, from the witness as the circumstances will permit, and such weight will be given to the unsworn testimony as the record will warrant: *Provided, however*, That where the adverse action of the administrative officer with respect to the appellant was based on grounds raising a question of the appellant's loyalty to the Government of the United States, testimony and evidence will be obtained under a pledge of confidence and the source of the information secured will not be divulged.

(c) *Information obtained discussed with agency and with employee.* The evidence submitted by the employee in connection with his appeal will be discussed by the investigator of the Commission with the administrative officer who made the decision and other proper officials of the employing agency concerned, and such officials shall be requested to state their side of the case. Similarly, the employee should be informed of the information furnished by the officials of the agency and given the opportunity to insert his side of the case into the record of investigation: *Provided, however*, That in cases where the adverse action of the administrative officer with respect to the appellant was based on grounds raising a question of the appellant's loyalty to the Government of the United States, only such information should be furnished either party as will be consistent with the pledge of confidence attached to testimony and evidence in such cases.

2. Paragraph (c) of § 22.9 is amended to read as follows:

§ 22.9 *Hearings.* * * *

(c) *How conducted.* Hearings will be conducted by a representative of the Commission in an informal manner with an opportunity afforded for the introduction of evidence, including testimony and statements by the appellant and his designated representative and witnesses and representatives of the employing agency and witnesses, and for the cross-examination of witnesses: *Provided, however*, That where the adverse action of the administrative officers with respect to the appellant was based on grounds raising a question of the appellant's loyalty to the Government of the United States, the appellant will be accorded such hearing as will be consistent with the pledge of confidence attached to testimony and evidence in such cases.

3. Paragraphs (a) and (c) of § 22.10 are amended to read as follows:

§ 22.10 *Decision in the Commission—*(a) *By whom made; contents.* The decision on the appeal shall be made by the Chief Law Officer or the regional office, as appropriate, in a formal finding, consisting of an analysis of the evidence, the reasons for the conclusions reached and a recommendation for action to be taken by the employing agency concerned; *Provided, however*, That where the adverse action of the administrative officer with respect to the appellant was based on grounds raising a question of the appellant's loyalty to the Government of the United States, the case will, after investigation and hearing, be referred to the Loyalty Rating Board of the Commission in Washington, D. C., for consideration and recommendation to the Commissioners for their decision. The contents of the formal finding on such loyalty aspects in cases under section 14 will not contain information which will be inconsistent with the pledge of confidence attached to testimony and evidence in such cases.

* * * * *

(c) *Report by agencies to Commission of action taken or proposed to be taken on finding favorable to employee.* When the finding and recommendation is that the employee be restored to his position, or is otherwise favorable to the employee, the employing agency will, at the time the finding and recommendation is transmitted to it, be requested to report to the Chief Law Officer, the regional office or the Loyalty Rating Board, as the case may be, within seven (7) days of the receipt of such finding and recommendation, regarding the action taken or proposed to be taken by the employing agency.

4. Paragraph (a) of § 22.11 is amended to read as follows:

§ 22.11 *Further appeals to the Commission—*(a) *Time limit for filing.* An appeal may be made by the employee from a decision of the Chief Law Officer or Regional Office (and of the Commissioners in loyalty cases) to the Commissioners, the United States Civil Service Commission, within thirty (30) days of

the date of receipt of notification of the decision. An appeal may be made to the Commissioners by the employing agency within seven (7) days of the date of receipt of such notification.

5. These amendments shall be effective upon publication in the FEDERAL REGISTER.

NOTE: These amendments are intended to facilitate the processing of appeals under this part in which there is involved the question of the appellant's loyalty to the Government of the United States. Because of the importance of the availability of these procedures to appeals that may be currently pending the Commission finds that good cause exists for making them effective as of the date of publication in the FEDERAL REGISTER.

Chapter I—Bureau of the Census, Department of Commerce

[Foreign Commerce Statistical Decision 58 [1]]

PART 30—FOREIGN TRADE STATISTICS

ARTICLES PLACED ABOARD VESSELS FOR CARE AND FEEDING OF LIVESTOCK EN ROUTE TO DESTINATION

§ 30.49 *Export declarations; articles placed aboard vessels for the care and feeding of livestock en route to destination.* (a) Foreign Commerce Statistical Decision 43,[2] issued August 13, 1943, provides that the Shipper's Export Declaration (Commerce Form 7525-V)[2] and the Defense Aid (Lend-Lease) Shipper's Export Declaration (Commerce Form 7525-DA-V)[2] will not be required for shipments of sea stores, ships' stores, vessel supplies and vessel equipment of the departing vessel.

(b) Hay, straw, feed and other appurtenances necessary to the care and feeding of livestock while en route on the ocean shall be considered part of the sea stores of the carrying vessel and the Shipper's Export Declaration will not be required for the portion consumed during the voyage.

(c) The Shipper's Export Declaration is, however, required for that portion which will remain after the voyage and will be delivered to the consignee. Estimated quantities, values, and shipping weights may be shown on export declarations covering the residual cargo. (32 Stat. 826; 5 U. S. C. 601)

[2] Not filed with the Division of the Federal Register.

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Federal Security Agency

PART 141—TESTS AND METHODS OF ASSAY FOR ANTIBIOTIC DRUGS

MISCELLANEOUS AMENDMENTS

By virtue of the authority vested in the Federal Security Administrator by the provisions of section 507 of the Federal Food, Drug, and Cosmetic Act (52 Stat. 1040, as amended by 59 Stat. 463; 21 U. S. C., Sup. V, 357) the regulations for tests and methods of assay of antibiotic drugs (11 F. R. 12128), as amended, are hereby further amended as indicated below:

1. Paragraph (e) *Preparation of plates* of § 141.1 *Sodium penicillin, calcium penicillin and potassium penicillin; potency* is amended by inserting "and stored for 24 hours at room temperature" between "37° C." and "with" in the 14th sentence and is further amended by changing the 16th sentence to read: "Incubate 24 hours at 37° C. and store for 24 hours at room temperature".

2. Part 141 is amended by adding the following new section:

§ 141.19 *Buffered crystalline penicillin.* Proceed as directed in §§ 141.1, 141.2, 141.3, 141.4, 141.5, and 141.6.

This order, which provides for the marketing of a new penicillin product, shall become effective upon publication in the FEDERAL REGISTER since both the public and the penicillin industry will benefit by the earliest effective date, and I so find.

Notice and public procedure are not necessary prerequisites to the promulgation of this order and would be contrary to the public interest, and I so find, since it was drawn in collaboration with interested members of the affected industry, and since it would be against public interest to delay the marketing of a new penicillin product.

(Sec. 507, 52 Stat. 1040, as amended, 59 Stat. 463; 21 U. S. C., Sup. 357)

Dated: January 8, 1947.

[SEAL] MAURICE COLLINS,
Acting Administrator.

[F. R. Doc. 47-310; Filed, Jan. 13, 1947; 8:48 a. m.]

PART 146—CERTIFICATION OF BATCHES OF PENICILLIN-CONTAINING DRUGS

MISCELLANEOUS AMENDMENTS

By virtue of authority vested in the Federal Security Administrator by the provisions of section 507 of the Federal Food, Drug, and Cosmetic Act (52 Stat. 1040, as amended by 59 Stat. 463; 21 U. S. C., Sup. V, 357), the regulations for the certification of batches of penicillin-containing drugs (11 F. R. 12136), as amended, are hereby amended as indicated below:

1. Section 146.25 *Penicillin in oil and wax* is amended by deleting the words "potassium penicillin" wherever they appear and substituting therefor the words "crystalline penicillin".

2. Part 146 is amended by adding the following new section:

§ 146.37 *Buffered crystalline penicillin.* Buffered crystalline penicillin conforms to all requirements prescribed by § 146.24 for crystalline penicillin, and is subject to all procedures prescribed by such section for crystalline penicillin, except that:

(a) It contains the buffer sodium citrate in a quantity not less than 4.0 percent and not more than 5.0 percent by weight of its total solids; such sodium citrate conforms to the standards prescribed therefor by the U. S. P.;

(b) The circular or other labeling within or attached to the package, if it is packaged for dispensing, shall bear, in lieu of the statement prescribed for crystalline penicillin by § 146.24 (c) (3) (iii), the statement "Sterile solution may be kept in refrigerator for one week without significant loss of potency";

(c) A person who requests certification of a batch shall submit with his request a statement showing the quantity of sodium citrate used in making the batch, that such sodium citrate conforms to the requirements prescribed therefor by this section, and in case of an initial request for certification he shall submit an accurately representative sample of such sodium citrate consisting of approximately 5 grams; and

(d) The fee for the services rendered with respect to the sample of sodium citrate submitted in accordance with the requirements prescribed therefor by this section shall be $4.00.

This order, which provides for the marketing of a new penicillin product, shall become effective upon publication in the FEDERAL REGISTER since both the public and the penicillin industry will benefit by the earliest effective date, and I so find.

Notice and public procedure are not necessary prerequisites to the promulgation of this order and would be contrary to the public interest, and I so find, since it was drawn in collaboration with interested members of the affected industry, and since it would be against public interest to delay the marketing of a new penicillin product.

(Sec. 507, 52 Stat. 1040, as amended, 59 Stat. 463; 21 U. S. C., Sup. 357)

Dated: January 8, 1947.

[SEAL] MAURICE COLLINS,
Acting Administrator.

TITLE 24—HOUSING CREDIT

Chapter VI—Federal Public Housing Authority

PART 611—LOW-RENT HOUSING AND SLUM CLEARANCE: POLICY

DEFINITION OF TERMS

Section 611.1 (11 F. R. 177A-910) is amended, effective January 17, 1947, to read as follows:

§ 611.1 *Definition of terms.* Definitions as used in this statement of policy and in contracts of the FPHA are as follows:

(a) *Contract rent.* The term "contract rent" means the rent charged a tenant for use of the dwelling accommodation, equipment, services and utilities provided by the project. "Contract rent" does not include charges for a utility or fuel which may be purchased by the project and sold to tenants as a transaction separate from the payment of rent, charges for any excess utility consumption, or charges for dwelling furniture.

(b) *Gross rent.* The term "gross rent" means "contract rent" plus the estimated average monthly (or weekly, if rent is on a weekly basis) cost to the tenant of utilities not provided by the project.

(c) *Shelter rent.* The term "shelter rent," unless otherwise qualified, means the portion of "contract rent" exclusive of the charges or estimated charges for utilities furnished by the project. When properly qualified, however, the term may have other meanings; for example, "economic shelter rent" refers to that portion of economic rent exclusive of the cost to the project of utilities furnished by the project. (50 Stat. 888; 42 U. S. C. 1401-30)

[SEAL] D. S. MYER,
Commissioner.

(v) Application by builder under Housing Permit Regulation.

OTHER PROVISIONS

(w) Communications and appeals.
(x) Record-keeping requirements.
(y) Reporting requirements.
(z) Violations.

§ 803.6 *Prefabricated housing under the Veterans' Emergency Housing Program.*—(a) *What this section provides.* Under this section, Housing Expediter Priorities Regulation 6, and previously under Direction 8 to CPA Priorities Regulation 33, priorities assistance was issued to prefabricators for certain materials to be used in the factory production of prefabricated sections, panels, and packages, under the Veterans' Emergency Housing Program. Since December 24, 1946 priorities assistance has no longer been granted under this section.

However, unless expressly provided otherwise by the Housing Expediter or the Civilian Production Administration, all the conditions and restrictions imposed on prefabricators and dealers by this section and other applicable NHA and CPA regulations are still in effect. This section explains which regulations and orders of the Civilian Production Administration control (1) the prefabricator's use of an HH rating under authorizations previously granted, (2) the materials which may be obtained with their use, (3) the use of materials so obtained, and (4) prefabricators' and dealers' sales of prefabricated houses, sections, panels, and packages.

DEFINITIONS

(b) *Definitions.* For the purpose of this section:

(1) "Prefabricator" means a person engaged in the business of manufacturing prefabricated houses, sections, panels, or packages.

(2) "Prefabricated house" means a house of which at least the exterior walls are formed by the assembly of prefabricated panels or sections as defined below. The term "prefabricated house" does not include house trailers.

(3) "Prefabricated section" means a house section which encloses living, storage or utility space on at least two sides, is manufactured in a factory, is transported to the building site without being taken apart, and is designed to be used in combination with one or more prefabricated sections, prefabricated panels or conventionally constructed elements to produce housing accommodations.

(4) "Prefabricated panel" means a floor, wall, partition, ceiling, roof or truss panel which is manufactured in a factory, is designed to be used in combination with one or more prefabricated sections, prefabricated panels, or conventionally constructed elements to produce a prefabricated house, and meets whichever of the following standards of minimum prefabrication is applicable:

(i) *Wood panels.* A prefabricated exterior wall panel constructed principally of wood shall consist of at least a completely assembled structural wood frame or panel core, with surfacing material or wall sheathing attached to at least one side.

A prefabricated partition, ceiling or truss panel constructed principally of wood shall consist of at least a completely assembled structural wood frame or panel core.

A prefabricated floor or roof panel constructed principally of wood shall consist of at least a completely assembled structural wood frame or panel core with surfacing material, subfloor or roof sheathing attached to at least one side.

(ii) *Metal panels.* A prefabricated exterior wall panel constructed principally of metal shall consist of at least (*a*) a completely assembled panel frame or core with surfacing material or wall sheathing attached to at least one side, (*b*) a specially fabricated sheet of metal designed to serve both sheathing and structural purposes, or (*c*) a combination of specially fabricated metal sheets and structural frame (or core) members, either assembled or unassembled, designed and fabricated for incorporation in a prefabricated house of a specific design.

A prefabricated floor, partition, ceiling, roof or truss panel constructed principally of metal shall consist of at least (*a*) a completely assembled panel frame

or core, (*b*) a specially fabricated metal sheet designed and fabricated for incorporation in a prefabricated house of a specific design, (c) specially fabricated structural frame (or core) members designed and fabricated for incorporation in a prefabricated house of a specific design, or (*d*) a combination of (*b*) and (*c*), either assembled or unassembled.

(iii) *Concrete panels.* A prefabricated exterior wall panel constructed principally of concrete shall consist of at least (*a*) a precast concrete slab having an area of 15 square feet or more on one surface or (*b*) a combination of such a precast concrete slab and structural framing members, either assembled or unassembled, designed and manufactured for incorporation in a prefabricated house of a specific design.

A prefabricated floor, partition, ceiling, roof or truss panel constructed principally of concrete shall consist of at least (*a*) a precast concrete slab having an area of 15 square feet or more on one surface, or (*b*) precast concrete structural panel frame (or core) members designed and manufactured for incorporation in a prefabricated house of a specific design, or (c) a combination of (*a*) and (*b*), either assembled or unassembled, designed and manufactured for incorporation in a prefabricated house of a specific design.

A prefabricated panel may, but need not, incorporate such items as window and door frames, sash, doors, builders' hardware, wiring, piping, etc.

(5) The terms "prefabricated section" and "prefabricated panel" do not include: (i) fabricated structural steel such as standard columns and standard beams or stock metal siding or roofing, etc., primarily designed for use in conventional construction, (ii) concrete blocks, precast joists, precast concrete panels and similar concrete items primarily designed for use in conventional construction, (iii) millwork, including kitchen cabinets, as defined in Order L–359 of the Civilian Production Administration, (iv) items of furniture and equipment not designed to be permanently attached to and made a part of a house, or (v) building materials cut to size and shape for assembly at the building site, if not specifically covered by the definitions in subparagraphs (3) and (4) of this paragraph.

(6) "Prefabricated package" means the aggregation of prefabricated sections and panels, building materials, and equipment which is shipped in a lot by a prefabricator, to be incorporated in a prefabricated house. (See paragraph (h) of this section on authorizations for loose materials and equipment to be included in a prefabricated package.)

(7) "Loose materials and equipment" included in a prefabricated package means the materials and equipment in the package which are not permanently attached to or incorporated in the prefabricated sections and panels comprising the rest of the package. "Loose materials and equipment" shipped with a prefabricated section means those which are not permanently attached to or incorporated in the prefabricated section at the time it is shipped.

(8) "Schedule A materials" means the items listed in Schedule A to Priorities Regulation 33 (§ 944.54) of the Civilian Production Administration. These are the items for which priorities assistance was given to prefabricators on or before December 24, 1946.

(9) A prefabricator's "approved production" for a particular quarter means the number of units which he can produce with the amount of the materials listed in paragraph (l) (1) of this section for which priorities assistance was authorized by the National Housing Agency for that quarter.

(10) "NHA" means the National Housing Agency.

(11) "CPA" means the Civilian Production Administration.

(12) "This section" means this regulation, Housing Expediter Priorities Regulation 6.

PREFABRICATORS' APPLICATIONS FOR PRIORITIES ASSISTANCE

(c) *Filing of applications.* Priorities assistance for "Schedule A materials" was issued under this section to prefabricators who made quarterly applications on Form NHA 14–53. The applications were filed with the National Housing Agency, Washington, D. C., which considered the applications for approval as explained in paragraphs (e) through (j) of this section. Applications for priorities assistance may no longer be filed under this section.

(d) [Deleted January 10, 1947.]

NHA CONSIDERATION OF APPLICATIONS

(e) *VEHP use.* Priorities assistance was given under this section only for quantities of Schedule A materials to be used fully in prefabricated housing under the Veterans' Emergency Housing Program.

(f) *Technical standards.* Priorities assistance was given under this section for Schedule A materials to be used for the following purposes only:

(1) The manufacture of prefabricated panels designed to be incorporated in prefabricated houses found by the National Housing Agency to meet standards of space, arrangement, and construction known as "HH Minimum Property Requirements."

(2) The making up of prefabricated packages designed to be incorporated in prefabricated houses found by the National Housing Agency to meet the HH Minimum Property Requirements.

(3) The manufacture and installation of prefabricated sections designed to be incorporated in houses (whether prefabricated or not) found by the National Housing Agency to meet the HH Minimum Property Requirements.

The findings by the National Housing Agency referred to in this paragraph were based upon information submitted by the prefabricator on Form NHA 14–54 or in such other manner as required by the National Housing Agency. Information regarding the HH Minimum Property Requirements is available at the National Housing Agency, Washington 25, D. C., and at all State and District Offices of the Federal Housing Administration.

(g) *Prefabricated panels.* Priorities assistance for Schedule A materials to be incorporated in prefabricated panels was given under this section only to those prefabricators who met one of the following tests:

(1) The prefabricator ships, to each purchaser, all the prefabricated exterior wall panels (as defined in paragraph (b) (4) of this section) of a prefabricated house.

(2) The prefabricator (i) submitted evidence of an agreement he had entered into with one or more prefabricators dividing among them the production responsibility for the manufacture of prefabricated elements designed to be incorporated in a prefabricated house, and (ii) together, these prefabricators ship, to each purchaser, all the prefabricated exterior wall panels of a prefabricated house.

(h) *Prefabricated packages.* The following are special rules on priorities assistance for Schedule A materials to be incorporated in prefabricated packages:

(1) In addition to prefabricated sections and panels, a prefabricated package produced under this section may contain, in the amount provided for in subparagraph (2) of this paragraph, the following "loose materials and equipment":

(i) Mechanical, plumbing, heating, and electrical material and equipment; cooking, refrigeration, and laundry equipment; kitchen cabinets; and

(ii) Other loose materials and equipment.

(2) Priorities assistance was given under this section for Schedule A materials to be included in a prefabricated package as loose materials and equipment only if the dollar value of all loose materials and equipment not listed in subparagraph (1) (i) of this paragraph which are contained in the package is less than one half of the following amount: the dollar value of the entire prefabricated package minus the dollar value of all materials and equipment in the package—whether "loose" or not—listed in subparagraph (1) (i) of this paragraph.

(i) *Prefabricated sections.* Priorities assistance was given under this section for Schedule A materials to be shipped with a prefabricated section to be incorporated in a house whether or not the house is prefabricated. However, such assistance was given only for Schedule A materials listed in paragraph (h) (1) (i) of this section required for installation in or attachment to the prefabricated section, and for the minimum quantities of other loose materials and equipment required for the installation of the prefabricated section.

(j) *Production standards.* Priorities assistance was given under this section only after the National Housing Agency took into consideration the following factors:

(1) The prefabricator's use of scarce materials,

(2) The suitability of his product for low and moderate cost housing under the Veterans' Emergency Housing Program, and

(3) The prefabricator's apparent ability to produce, based upon plant facilities and methods, general experience, distribution facilities and methods, and other relevant considerations.

GRANTING OF AUTHORIZATIONS

(k) *Nature of authorizations.* Priorities assistance granted on Form NHA 14–53 was in the form of authority to place HH rated orders or certified orders for approved quantities of "Schedule A materials" (see paragraph (b) (8) of this section). The authorization covers quantities to be so ordered for delivery in a particular quarter. It may also include an advance authorization enabling the prefabricator (subject to the delivery date restrictions referred to in paragraph (o) of this section) to place such orders for a part of his requirements to be delivered in the next quarter, pending receipt of his regular authorization for that quarter.

(l) *Quantities authorized.* Form NHA 14–53 authorizations are for the following quantities of Schedule A materials:

(1) For the following materials, the permitted quantities are the quantities numerically expressed in the authorization: housing construction lumber, millwork (other than built-in kitchen cabinets), residential hardwood flooring, gypsum board and lath, building board, and construction plywood (softwood).

(2) For the other Schedule A materials (excluding those listed in subparagraph (1) of this paragraph, but including built-in kitchen cabinets), the permitted quantities are the minimum quantities needed to meet the prefabricator's "approved production" requirements (see paragraph (b) (9) of this section).

PREFABRICATORS' USE OF PRIORITIES ASSISTANCE

(m) *Extending customers' ratings.* In accordance with applicable CPA regulations (Priorities Regulation 3 (32 CFR, 944.22) and Direction 8 to Priorities Regulation 33 (32 CFR, 944.54)), a prefabricator must not extend (pass on to his supplier) an HH rating which he receives from a customer.

(n) *Placing orders.* A prefabricator who has been granted priorities assistance on Form NHA 14–53 may place orders for the approved quantities of Schedule A materials (for delivery during the quarter covered by the authorization), as follows:

(1) *Certified orders for construction plywood (softwood).* For construction plywood (softwood), he may place certified orders as explained in CPA Order L–358.

(2) *HH rated orders for other Schedule A materials.* For the other Schedule A materials, he may use an HH rating on his purchase orders. The HH rating may be applied to a purchase order by placing on the order a written certificate as explained in Schedule A to CPA Priorities Regulation 33. This certificate is as set out below:

VETERANS' EMERGENCY HOUSING PROGRAM
APPLICATION SERIAL NUMBER —

I certify to the U. S. Government that an HH rating has been assigned for the materials covered by this order. The materials will be used only for housing accommodations as authorized.

Purchaser

(3) *Former rule for some Schedule A materials.* Before January 1, 1947, CPA Order L–359 provided that prefabricators could place "certified orders," rather than HH rated orders, for housing construction lumber, residential hardwood flooring, and millwork. To place a certified order, a prefabricator used the certificate previously shown in Order L–359, rather than the Schedule A certificate now shown in subparagraph (2) of this paragraph. Purchase orders which have already been placed with the former L–359 certificate need not be re-certified. However, after January 1, 1947, they will be treated as rated orders rather than certified orders.

(o) *Delivery date restrictions.* In accordance with Direction 8 to CPA Priorities Regulation 33 (32 CFR, 944.54), a prefabricator placing certified or HH rated orders under this section must not specify a delivery date which is (1) more than 30 days before the time the materials are to be used by him or (2) later than the end of the third calendar month after the month in which the order is placed. "Delivery date" means the date of delivery at the prefabricator's plant or warehouse.

(p) *Effect of orders placed by prefabricator.* The effect of HH rated and certified orders is controlled by CPA Priorities Regulation 1 (32 CFR, 944.1–20) and certain other CPA regulations and orders. For construction plywood (softwood), the other applicable CPA order is Order L–358. For lumber, residential hardwood flooring, and millwork, it is CPA Order L–359. For all other Schedule A materials, the other applicable CPA regulation is Schedule B to PR 33.

(q) *Use of materials.* In accordance with applicable CPA regulations (PR 1 and Direction 8 to PR 33), materials obtained with priorities assistance may be used only for the purposes for which that assistance was granted. This rule applies to materials obtained under this section or under Direction 8 to CPA Priorities Regulation 33. The rule will continue to apply after December 24, 1946 even though no additional priorities assistance will be granted after that date.

(r) *Disposal of materials.* If a prefabricator is unable to use materials obtained with priorities assistance under this section, or under Direction 8 to CPA Priorities Regulation 33, for the purposes for which the assistance was granted, he may use or dispose of them only as follows:

(1) By "special sale," in accordance with Priorities Regulation 13 (32 CFR, 944.34) of the Civilian Production Administration.

(2) By such other use as may be authorized in writing by the National Housing Agency, upon written application from the prefabricator.

SALES AND PURCHASE RESTRICTIONS

(s) *Prefabricators' and dealers' sales.* In accordance with Direction 8 to CPA Priorities Regulation 33, a prefabricator or a dealer (wholesale or retail) must observe the following rules:

(1) *Unerected sales.* In selling unerected prefabricated sections, panels, or packages produced under this section or Direction 8, a prefabricator or dealer must accept and fill rated orders in preference to unrated orders in accordance with the rules of CPA Priorities Regulation 1.

(2) *Erected sales.* In selling erected prefabricated houses, sections, panels, or packages produced under this section or Direction 8, a prefabricator or dealer must comply with the rules of CPA Priorities Regulation 33, Housing Expediter Priorities Regulation 5, or the Housing Permit Regulation, whichever is applicable. (See paragraphs (u) and (v) of this section.)

(t) *Dealers' purchases.* In accordance with Direction 8 to CPA Priorities Regulation 33, a dealer who receives an HH or HHH rated order from a customer for a prefabricated section, panel, or package produced under this section or Direction 8 may extend the rating to get the item for sale to that customer, or to replace an item sold out of inventory to that customer. A dealer may also place unrated orders.

(u) *Application by builder under HEPR 5.* On or before December 24, 1946 a person eligible under the Veterans' Emergency Housing Program to erect a prefabricated house or section could apply under Housing Expediter Priorities Regulation 5 (§ 802.5) for an authorization to construct and an HH rating. (Before September 10, 1946, such applications were made under CPA Priorities Regulation 33.)

If his application was approved and he begins construction under the authorization issued to him, the builder is subject to all the requirements of the priorities regulation under which his application was approved, including restrictions on sales price and rents, and requirements for preference to veterans, where applicable. When the application was approved, the builder was assigned an HH rating, which he may use to get a prefabricated section, panel, or package and the necessary quantities of the other Schedule A materials. This rating may be applied in accordance with, and sub-

ject to, the limitations of Schedule A to PR 33 and other applicable CPA regulations. (If the builder has not begun construction under an authorization issued under HEPR 5 or PR 33, see paragraph (v) of this section.)

A prefabricator or a dealer could apply in the same way as any other builder, on or before December 24, 1946, if he wished to erect a prefabricated house or section. A prefabricator acting as an erector is subject to the same requirements of HEPR 5 (or PR 33) as a builder.

(v) *Application by builder under Housing Permit Regulation.* On or after December 24, 1946, a person eligible under the Veterans' Emergency Housing Program to erect a prefabricated house or section may apply under the Housing Permit Regulation for an authorization to erect, called a "construction permit." No priorities assistance will be given, however, with a construction permit. Therefore, such a builder may not place rated orders for prefabricated sections, panels, or packages produced under Direction 8 to CPA Priorities Regulation 33 or under this section.

If a builder's application under Housing Expediter Priorities Regulation 5 or Priorities Regulation 33 was approved, but he has not begun construction under the authorization issued to him, he may elect to surrender his authorization and his HH rating and re-apply for a construction permit under the Housing Permit Regulation. In this case he is subject to the requirements of the latter regulation and not HEPR 5 or PR 33, and also may not place HH rated orders.

OTHER PROVISIONS

(w) *Communications and appeals.* Communications regarding the provisions of this section should be addressed to the National Housing Agency, Washington 25, D. C. Any person who considers that compliance with any provision in this section would result in an exceptional and unreasonable hardship on him may appeal for relief. An appeal shall be in the form of a letter in triplicate, addressed to the National Housing Agency, Washington 25, D. C., clearly stating the specific provision appealed from and the grounds for claiming an exceptional and unreasonable hardship.

(x) *Record-keeping requirements.* Each person subject to this section must keep and preserve for at least two years records showing quantities of all Schedule A materials (including prefabricated sections and panels) received and dates of receipt. In addition, each person participating in any transaction to which any rule, regulation or order of the Civilian Production Administration applies must keep and preserve for at least two years the records described in CPA Priorities Regulation 1. The record-keeping requirements of this section have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(y) *Reporting requirements.* Information and reports relating to matters covered by this section, or by Direction 8 to CPA Priorities Regulation 33, may be required from time to time by the National Housing Agency (or person or agency authorized by NHA to make such requests), subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942. The reporting requirements of this section have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(z) *Violations.* Any person who wilfully violates any provision of this section and any person who knowingly makes any statement to any department or agency of the United States, as to any matter within its jurisdiction, which is false in any respect, or who wilfully conceals a material fact in any certificate required to be filed under this section, or who wilfully falsifies any records required to be kept under this section shall, upon conviction thereof, be subject to fine or imprisonment or both, under the Second War Powers Act of 1942, Veterans' Emergency Housing Act of 1946, and other applicable Federal Statutes. Any person who violates any provision of this section may be prohibited from making or obtaining any further deliveries of, or from using, any materials or facilities suitable for housing construction, and may be deprived of priorities assistance for such materials or facilities.

(60 Stat. 207; 56 Stat. 177, as amended; E. O. 9638, 10 F. R. 12591; CPA Directive 42, 11 F. R. 9514)

Issued this 10th day of January 1947.

FRANK R. CREEDON,
Housing Expediter.

[F. R. Doc. 47-349; Filed, Jan. 10, 1947; 4:56 p. m.]

TITLE 30—MINERAL RESOURCES

Chapter VI—Solid Fuels Administration for War, Department of the Interior

[SFAW Order 43]

PART 602—GENERAL ORDERS AND DIRECTIVES

INTERIM DIRECTION TO SHIPPERS OF BITUMINOUS COAL

Notice of Interim Direction No. 10 (11 F. R. 14183), as amended by Amendment No. 1 thereto (11 F. R. 14310), was issued to assure that retail dealers and consumers having the lowest number of days' supply would have an opportunity to acquire at least minimum operating stocks of bituminous coal upon resumption of mining, and to effect an orderly restoration of distribution to the end that the uses most essential to the health and safety of the Nation, and other industrial and commercial activities, would be maintained. Although approximately 25,000,000 tons of coal were lost from production because of the strike, the rate of production is now such as to permit shipments in accordance with the provisions of Revised Regulation No. 32, as amended (11 F. R. 8575, 10282, 11560).

Therefore, *It is ordered*, That:

Notice of Interim Direction No. 10, issued December 8, 1946 (11 F. R. 14183), as amended by Amendment No. 1 thereto (11 F. R. 14310), be and it hereby is revoked.

Distribution of bituminous coal be continued in conformity with the provisions of Revised Regulation No. 32, as amended (11 F. R. 8575; 11 F. R. 10282; 11 F. R. 11560), which remains in full force and effect.

This order does not affect civil or criminal liabilities resulting from violations of Notice of Interim Direction No. 10, as amended (11 F. R. 14183, 14310).

This order shall become effective immediately.

(Sec. 2 (a), 54 Stat. 676; 55 Stat. 236; 56 Stat. 176; 58 Stat. 827; 59 Stat. 658; 60 Stat. 345; Pub. Law 475, 79th Cong.; 41 U. S. C. Prec. 1; 50 U. S. C. App. Sup. 1152 (a), 1162, 633, 645; E. O. 9125, Apr. 7, 1942, 7 F. R. 2719; E. O. 9332, Apr. 19, 1943, 8 F. R. 5355)

Issued this 8th day of January 1947.

J. A. KRUG,
Solid Fuels Administrator for War.

[F. R. Doc. 47-303; Filed, Jan. 13, 1947; 8:46 a. m.]

TITLE 32—NATIONAL DEFENSE

Chapter II—National Guard and State Guard, War Department

PART 201—NATIONAL GUARD REGULATIONS

WARRANT OFFICERS OF THE NATIONAL GUARD

Sections 201.7 to 201.13, inclusive, are hereby rescinded and the following §§ 201.7 to 201.13a are submitted in lieu thereof.

Sec.
201.7 Procurement.
201.8 Eligibility.
201.9 Appointing authorities.
201.10 Federal recognition.
201.11 Warrants.
201.12 Certificate of eligibility.
201.13 Appointments and status in the National Guard of the United States.
201.13a Warrant officers band leaders.

AUTHORITY: §§ 201.7 to 201.13a, inclusive, issued under 48 Stat. 155; 32 U. S. C. 4.

§ 201.7 *Procurement*—(a) *Initial procurement.* In the initial reorganization of the National Guard, Federal recognition and the appointment in the National Guard of the United States in the grade of warrant officer, junior grade, and chief warrant officer will be limited to those individuals with honorable and creditable service as officers or warrant officers and enlisted men of the first three grades in the armed forces of the United States: *Provided*, That in cases where applicants have satisfactorily demonstrated their ability by actual performance of duties commensurate with the appointment for which they are making application for a period of not less than 6 months during the period September 16, 1940, to December 31, 1946, while on duty with the Army of the United States or the National Guard of the United States, the written examination may be waived at the discretion of the president of the board.

(b) *Continuing procurement.* After initial reorganization, warrant officers will be obtained from the following sources:

(1) Individuals with honorable and creditable service as officers or warrant officers in the armed forces of the United States.

(2) Qualified noncommissioned officers with appropriate length of service.

(3) Graduate aviation cadets.

§ 201.8 *Eligibility*—(a) *Leadership.* An applicant must have demonstrated positive qualities of leadership.

(b) *Character.* No applicant who has been sentenced to confinement in a penitentiary, or who has been convicted in any civil or military court for an offense denounced as a felony, will be eligble for appointment. Evidence of the applicant's character while in the military service will be considered in forwarding application.

(c) *Age.* An applicant must have attained his twenty-first birthday and must not have reached his sixtieth birthday on the date of appointment.

(d) *Citizenship.* An applicant must be a citizen of the United States.

(e) *Physical.* The standard of final physical examination will be that required for commission in the Army of the United States.

(f) *Education and experience.* An applicant must have such education or practical experience as will insure his satisfactory performance of the duties in the classification for which application is made.

§ 201.9 *Appointing authorities.* Appointment will be made by the Governor of the State or Territory concerned and for the District of Columbia by the President of the United States.

§ 201.10 *Federal recognition*—(a) *Application.* Application for recognition of a warrant officer will be made by the State adjutant general to the Chief, National Guard Bureau, on the form provided for application for recognition of officers and will be accompanied by the following:

(1) Oath of office made out on WD NGB Form 337.[1]

(2) Report of physical examination on WD NGB Form 63.[1]

(3) Copy of order announcing appointment.[1]

(4) Results of the examination entered on WD NGB Form 89.[1]

(b) *Requirements for Federal recognition.* Federal recognition will not be granted to a warrant officer unless requirements have been met.

(c) *Termination of recognition.* The recognitions of National Guard warrant officers terminate under the same provisions as those of officers.

(d) *Withdrawal of recognition.* The recognitions of National Guard warrant officers will be withdrawn under the same provisions as those of officers.

[1] Forms not filed with Division of the Federal Register.

§ 201.11 *Warrants.* Warrants will be issued by order of the appointing power and will correspond in form to those issued to warrant officers of the Regular Army.

§ 201.12 *Certificate of Eligibility.* WD NGB Form 89a[1] (Certificate of Eligibility) is a written statement by the Chief, National Guard Bureau, that the individual named therein has satisfactorily completed the test and has met the qualifications prescribed for warrant officers in a particular classification and is therefore qualified for appointment as such. If appointment for which an applicant is certified as eligible is made within 2 years from the date shown on this certificate, Federal recognition will be extended without further examination other than physical.

§ 201.13 *Appointments and status in the National Guard of the United States.* (a) Warrant officers of the National Guard may be appointed in the National Guard of the United States, and hold warrants in the Army of the United States, under the same regulations as apply to officers of the National Guard.

(b) Warrant officers of the National Guard may qualify for appointment as officers in the National Guard of the United States under the provisions of Army Regulations.

§ 201.13a *Warrant officers band leaders*—(a) *General.* The provisions of §§ 201.7 to 201.13, inclusive, apply to warrant officer band leaders.

(b) *Examining boards.* The examining board will consist of two commissioned officers and one band leader not below the grade of warrant officer, junior grade.

(c) *Examinations*—(1) *Preliminary examination.* The preliminary examination will be as prescribed by the examining board.

(2) *Final examination.* A candidate to be eligible for warrant officer band leader will first demonstrate aptitude for conducting. Failure to demonstrate this qualification to a satisfactory degree will disqualify the candidate. The subject matter to be included in the entire examination is:

(i) Conducting a military band.
(ii) Dictation.
(iii) Sight singing.
(iv) Pitch discrimination.
(v) Instructor test (personal selection of one instrument, band or orchestra, including piano or organ).
(vi) Questionnaire (general musical topics).
(vii) Arranging (for military band from piano and organ scores).
(viii) Harmony.

[National Guard Regulations No. 22, 12 Nov. 1946]

[SEAL] EDWARD F. WITSELL,
Major General,
The Adjutant General.

[F. R. Doc. 47-305; Filed, Jan. 13, 1947; 8:46 a. m.]

Chapter XI—Office of Temporary Controls, Office of Price Administration

PART 1305—ADMINISTRATION

[Gen. Order 76]

HEARING ADMINISTRATOR AND HEARING COMMISSIONERS; DELEGATION OF AUTHORITY

Pursuant to the authority conferred upon the Administrator by the Emergency Price Control Act of 1942, as amended, and the Stabilization Act of 1942, as amended, and by Executive Order No. 9250 of October 3, 1942, Executive Order No. 9328 of April 8, 1943, and Executive Order No. 9809 of December 12, 1946 and in furtherance of section 7 (b) (2) of Directive No. 41, issued by the Economic Stabilization Director on April 23, 1945, the following order is prescribed:

(a) The Hearing Administrator, the Deputy Hearing Administrator, the Assistant Hearing Administrators, and the several Hearing Commissioners are authorized:

(1) To determine whether any subsidy applicant has violated any substantive provision of a meat or livestock regulation or order heretofore or hereafter issued by the Office of Price Administration pursuant to the Emergency Price Control Act of 1942, as amended, and to issue a determination setting forth findings of fact and conclusions of law with respect to the violations alleged, including the period of time during which any violation is found to have occurred;

(2) To administer oaths and affirmations, to hold and preside over hearings in such determination proceedings and to exercise any discretion necessary or appropriate to the conduct of such hearings;

(3) To sign and issue subpoenas requiring any person to appear and testify or to appear and produce books or records or any other documentary or physical evidence, or both, at such hearings.

(b) The Hearing Administrator is authorized to consider and determine all appeals from such determinations and to issue such orders and take such action thereon as may be appropriate in the premises. Whenever the Hearing Administrator shall declare himself personally disqualified or shall for any other reason be unable or consider it impracticable personally to exercise the authority delegated in this paragraph, then the Deputy Hearing Administrator or, upon designation by the Hearing Administrator, any Assistant Hearing Administrator is authorized to perform the functions set forth in this paragraph.

(c) Any decision made, order issued or action taken by the Hearing Administrator, the Deputy Hearing Administrator, the Assistant Hearing Administrators, or by any Hearing Commissioner pursuant to this General Order 76, shall have the same force and effect, as if made, issued or taken by the Administrator.

(d) This General Order 76 shall become effective on the 13th day of January 1947.

Issued this 13th day of January 1947.

PHILIP B. FLEMING,
Administrator.

[F. R. Doc. 47-368; Filed, Jan. 13, 1947; 11:40 a. m.]

Chapter XVII—Office of Scientific Research and Development

[Administrative Order 6]

PART 1900—ORGANIZATION

MISCELLANEOUS AMENDMENTS

DECEMBER 20, 1946.

Pursuant to the authority contained in Executive Order No. 8807, dated June 28, 1941, Executive Order No. 9389, dated October 18, 1943, and other provisions of law, and in order to effect the orderly and economical liquidation of the affairs of the Office of Scientific Research and Development; *It is hereby ordered*, That:

Effective December 31, 1946, this administrative order supersedes Administrative Order No. 4, dated November 8, 1943, as amended, which is hereby rescinded, together with Administrative Orders No. 1, 2, and 3, without prejudice, however, to any lawful and proper act performed prior to December 31, 1946 pursuant to authority contained in said Administrative Orders No. 1, 2, 3, and 4.

1. Section 1900.3 (11 F. R. 177A–711) is revised to read as follows:

§ 1900.3 *Principal subdivisions.* The principal subdivisions of the Office of Scientific Research and Development shall be:

(a) The National Defense Research Committee, created by section 7 of Executive Order No. 8807, the duties of which shall be to advise and assist the Director as specified in section 7.

(b) The Committee on Medical Research, created by section 8 of Executive Order No. 8807, the duties of which shall be to advise and assist the Director as specified in section 8.

(c) The Administrative Office, at the head of which shall be an Executive Secretary appointed by the Director. Under the general supervision and direction of the Director and subject to the provisions of section 10 of Executive Order No. 8807, the Administrative Office shall have charge of (1) the administrative affairs of the Office of Scientific Research and Development, (2) such scientific and technical affairs of the Office of Scientific Research and Development, necessary for or incidental to the liquidation thereof, as may be transferred or assigned to the Administrative Office by the Director, the Chairman of the National Defense Research Committee, or the Chairman of the Committee on Medical Research (3) the records of the Office of Scientific Research and Development.

2. Section 1900.4 (11 F. R. 177A–711) is revised to read as follows:

§ 1900.4 *Delegations of authority.* (a) Subject to all the limitations and restrictions applicable to the acts of the Director, the Chairman of the National Defense Research Committee is authorized (1) to discharge all duties and to exercise all powers of the Director during the absence or disability of the Director, (2) to discharge such duties and to exercise such powers of the Director in the field of the National Defense Research Committee designated by section 7 of Executive Order 8807, as amended, as may be delegated to him from time to time by the Director, and (3) to delegate any power or duty of the Chairman except the powers and duties set forth in subparagraph (1) of this paragraph to such assistant as he may designate with the approval of the Director.

(b) Subject to all limitations and restrictions applicable to acts of the Director, the Chairman of the Committee on Medical Research is authorized: (1) to discharge such duties and exercise such powers of the Director in the field of the Committee on Medical Research designated by section 8 of Executive Order No. 8807, as may be delegated to him from time to time by the Director, and (2) to delegate any power or duty of the Chairman to such assistant as he may designate with the approval of the Director.

(c) Subject to all the limitations and restrictions applicable to the acts of the Director and under the general supervision and direction of the Director, the Executive Secretary is authorized (1) to negotiate and enter into contracts and supplements, amendments, modifications or extensions of contracts, heretofore or hereafter made in connection with the functions of the Office of Scientific Research and Development and its officers, (2) to approve or disapprove the form, terms, and/or conditions of subcontracts under prime contracts of the Office of Scientific Research and Development, (3) to incur and release such obligations and to settle such contract claims as may be necessary to accomplish such functions, *Provided*, That settlement of all contract or subcontract termination claims in excess of $25,000 shall be subject to the approval of the Office of Scientific Research and Development Contract Settlement Review Board, (4) to authorize Office of Scientific Research and Development contractors to settle with subcontractors termination claims not exceeding $10,000, without further review by the Government whenever the reliability of the contractor, the amount or nature of the claim, or other reasons appear to justify such action, (5) to issue such regulations as the Executive Secretary deems necessary to carry out the policies, principles, methods, procedures, and standards prescribed by the Contract Settlement Act of 1944 and the regulations issued thereunder by the Director of the Office of Contract Settlement, (6) to review and approve or disapprove in accordance with the requirements of the General Accounting Office vouchers submitted under contracts and all other types of vouchers, (7) to authorize or approve travel, use of extra-fare trains, superior Pullman accommodations, and seats in sleeping or parlor cars for trips of two hours duration or less, and certify long distance telephone calls in connection with such functions, (8) acting as Contracting Officer of the Office of Scientific Research and Development to designate as his "authorized representatives" under contracts the appropriate officials, employees, or appointees of the Office of Scientific Research and Development or officials, employees, or appointees of other Government agencies who have been detailed to the Office of Scientific Research and Development, (9) to exercise the powers and duties vested in the Director and/or the Office of Scientific Research and Development by Appropriation Acts applicable to the Office of Scientific Research and Development, the Surplus Property Act of 1944, the Contract Settlement Act of 1944, Executive Order No. 9218, and all other applicable laws concerning acquisition, use and disposition of property, (10) to effect transfers and retransfers of funds, (11) to exercise such powers and duties as may be delegated to him by the Director, the Chairman of NDRC, and the Chairman of CMR, or any of them, and (12) to delegate any power or duty of the Executive Secretary hereof to such official of the OSRD as he may designate with the approval of the Director.

(E. O. 8807, June 28, 1941, 3 CFR, Cum Supp., E. O. 9389, Oct. 18, 1943, 3 CFR, 1943 Supp.)

VANNEVAR BUSH,
Director, Office of Scientific Research and Development.

TITLE 49—TRANSPORTATION AND RAILROADS

Chapter I—Interstate Commerce Commission

PART 95—CAR SERVICE

[S. O. 662-A]

RESTRICTION OF CORN FOR EXPORT THROUGH GULF PORTS

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 7th day of January A. D. 1947.

Upon further consideration of Service Order No. 662 (11 F. R. 14730), and good cause appearing therefor: it is ordered, that:

Service Order No. 662 (codified as 49 CFR § 95.662), *Corn for export through Gulf ports restricted*, be, and it is hereby, suspended.

It is further ordered, that this order shall become effective at 12:01 a. m., January 8, 1947; that a copy of this order and direction be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission, at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

(40 Stat. 101; sec. 402, 41 Stat. 476; sec. 4, 54 Stat. 901; 49 U. S. C. 1 (10)–(17))

By the Commission, Division 3.

[SEAL] W. P. BARTEL,
Secretary.

[F. R. Doc. 47-308; Filed, Jan. 13, 1947; 8:47 a. m.]

NOTICES

DEPARTMENT OF JUSTICE

Office of Alien Property

TRANSFER OF VESTED PROPERTY TO THE PHILIPPINE ALIEN PROPERTY ADMINISTRATOR

Under the authority of the Trading with the Enemy Act, as amended, the Philippine Property Act of 1946, Executive Order 9788, Executive Order 9818, and pursuant to law, it is hereby found:

1. That all property vested by the Vesting Orders enumerated and described in Exhibit A, attached hereto and by reference made a part hereof, which Vesting Orders are by reference made a part hereof, was located in the Philippines at the time of such vesting.

2. That all of the property described in Exhibit B, attached hereto and by reference made a part hereof, and any and all claims for rents refunds, benefits and other payments arising from the ownership of said property, vested by the Vesting Orders therein designated, was located in the Philippines at the time of such vesting.

3. That the property described in Exhibit C, attached hereto and by reference made a part hereof, vested by the Vesting Orders therein designated was located in the Philippines at the time of such vesting, and, by an instrument dated August 22, 1946, executed by and between James E. Markham, as Alien Property Custodian of the United States of America, and Manuel Roxas, as President of the Philippines, was transferred to the Philippine Government, upon agreement for indemnification of the United States by the Philippine Government for certain claims, and reimbursement for certain costs and expenses of administration,

4. That the property vested by Vesting Order No. P–5, dated January 25, 1946, effective January 31, 1946, and published in the FEDERAL REGISTER on February 2, 1946 (11 Fed. Reg. 1320) consisting of 1200 rolls or bobbins of white cigarette paper manufactured by the Nippon Fujikawa Paper Manufacturing Co., Ltd., of Japan, which, at the effective date of such Vesting Order No. P–5, was stored in the warehouse of La Serpiente Cigar and Cigarette Factory, 141 Gral. Geronimo Street, District of Sampaloc, City of Manila, Commonwealth of the Philippines, being part of those described in EPC–F2 (Receipt No. 77) signed by Lt. K. M. Thompson, Purchasing and Contracting Division, Hq. Base X, U. S. Army, was located in the Philippines at the time of such vesting, has been sold by the Alien Property Custodian and that the proceeds of such property are presently in the possession of the Attorney General of the United States.

There is hereby transferred to the Philippine Alien Property Administrator, pursuant to the direction of the President of the United States by, and in compliance, with, said Executive Order

(a) All right, title and interest of the Attorney General in and to the property described in the Vesting Orders enumerated and described in Exhibit A, attached hereto and by reference made a part hereof, together with all income therefrom held by the Attorney General of the United States, which income constitutes proceeds of such property.

(b) All right, title and interest of the Attorney General in and to the property described in Exhibit B, attached hereto and by reference made a part hereof, and any and all claims for rents, refunds, benefits and other payments arising from the ownership of such property, together with all income therefrom, which income constitutes proceeds of such property.

(c) All right to indemnification by the Philippine Government for claims payable by the United States under the Trading with the Enemy Act, as amended, with respect to the property described in Exhibit C, attached hereto and by reference made a part hereof, which property was transferred by the agreement described in sub-paragraph 3 hereof, which right arises out of the obligation for indemnification assumed by the Philippine Government by said agreement and all right of reimbursement from the Philippine Government pursuant to said agreement for such costs and expenses of administration with respect to the property transferred thereunder, arising after the date hereof, as may by law be charged and

(d) All right, title and interest of the Attorney General in and to the proceeds received from the sale of the property described in sub-paragraph 4 hereof;

subject, however, to such costs and expenses of the Alien Property Custodian, the Office of Alien Property Custodian, and the Office of Alien Property, Department of Justice, as are chargeable against such property by or on behalf of the Attorney General, pursuant to arrangements for the collection of such expenses heretofore made between the Director, Office of Alien Property, and the Philippine Alien Property Administrator.

(40 Stat. 411; 55 Stat. 839; 60 Stat. 50; Pub. Law 322, 79th Cong., 60 Stat. 418; Pub. Law 485, 79th Cong.; Pub. Law 671, 79th Cong.; 50 U. S. C. App. 1; 50 U. S. C. App. Sup. 616; E. O. 9788, Oct. 14, 1946, 11 F. R. 11981; E. O. 9818, Jan. 7, 1947, 12 F. R. 133)

Executed at Washington, D. C., on January 9, 1947.

For the Attorney General.

[SEAL] DONALD C. COOK,
Director.

Approved:

TOM C. CLARK,
Attorney General.

EXHIBIT B

1. All property of any nature whatsoever located within the Philippines, which was vested by Vesting Order No. P–1, dated January 7, 1946, effective January 21, 1946, and published in the FEDERAL REGISTER on January 23, 1946 (11 F. R. 850), and which was, on the effective date of said Vesting Order, owned or controlled by, payable or deliverable to, or held on behalf of or on account of or owing to the Manila, P. I. branch of The Yokohama Specie Bank, Ltd., including but not limited to the cash which was on deposit with the Manila Clearing House Association on December 29, 1941, in the amount of 2,886,570.68 Philippine pesos.

2. All property of any nature whatsoever located within the Philippines, which was vested by Vesting Order No. P–4, dated January 7, 1946 effective January 21, 1946, and published in the FEDERAL REGISTER on January 23, 1946 (11 F. R. 850), and which was, on the effective date of said Vesting Order, owned or controlled by, payable or deliverable to, or held on behalf of or on account of, or owing to, the branches in the Philippines of the Bank of Taiwan, Ltd., including but not limited to the cash which was on deposit with

the Manila Clearing House Association on December 29, 1941, in the amount of 233,410.26 Philippine pesos.

3. Real property vested by Vesting Order No. P-13, dated March 11, 1946, effective March 29, 1946, and published in the FEDERAL REGISTER on April 2, 1946 (11 F. R. 3424), which property is particularly described in Exhibit A of said Vesting Order and all other property of any nature whatsoever located within the Philippines which was, on the effective date of said Vesting Order, owned or controlled by, payable or deliverable to, or held on behalf of or on account of, or owing to Baguio Japanese Association, including all right, title and interest of whatsoever kind or nature of any and all of the members of Baguio Japanese Association and of each and all other nationals, whomsoever they may be, of Germany and Japan, in and to said property on such effective date, all of which property was vested by said Vesting Order No. P-13.

4. Real property vested by Vesting Order No. P-14, dated March 11, 1946, effective March 29, 1946, and published in the FEDERAL REGISTER on April 2, 1946 (11 F. R. 3425), which property is particularly described in Exhibit A of said Vesting Order; and 20 shares of stock of The Shoko Shimpo Sha, Inc., a corporation organized under Philippine law, which shares of stock are described in said Vesting Order No. P-14, together with all declared and unpaid dividends thereon; and all other property of any nature whatsoever located within the Philippines which was, on the effective date of said Vesting Order, owned or controlled by, payable or deliverable to, or held on behalf of or on account of, or owing to Japanese Association of Manila, Inc., including all right, title and interest of whatsoever kind or nature of each and all members of Japanese Association of Manila, Inc., and each and all other nationals, whomsoever they may be, of Germany and Japan, in and to said property on such effective date, all of which property was vested by said Vesting Order No. P-14.

5. Real property, vested by Vesting Order No. P-19, dated March 29, 1946, effective April 19, 1946, and published in the FEDERAL REGISTER on April 23, 1946 (11 F. R. 4479), which property is more particularly described in Exhibits A and B attached to said Vesting Order No. P-19, and all other property of any nature whatsoever located in the Philippines which was, on the effective date of said Vesting Order, owned or controlled by, payable or deliverable to, or held on behalf of or on account of or owing to, the Nippon Club, Manila, Philippine Islands, all of which property was vested by said Vesting Order No. P-19.

6. Real property vested by Vesting Order No. P-35, dated May 10, 1946, effective June 5, 1946, and published in the FEDERAL REGISTER on June 7, 1946 (11 F. R. 6217), which property is described as

Real property (excepting timber concessions), situated in the Sitio of Pata, Municipality of Glaveria, Province of Cagayan, Republic of the Philippines, together with all hereditaments, fixtures, improvements and appurtenances thereto, and any and all claims for rent, refunds, benefits or other payments arising from the ownership of such property transferred by a certain Deed of Sale dated November 3, 1943, executed by and between Philippine Red Lumber Co., Inc., through its president, Dee Hong Lue, as vendor, and Nippon Mokuzai Kabushiki Kaisha, as vendee; and

all other property of any nature whatsoever located in the Philippines, which was, on the effective date of said Vesting Order, owned or controlled by, payable or deliverable to, or held on behalf of or on account of, or owing to, Nippon Mokuzai Kabushiki Kaisha, all of which property was vested by said Vesting Order No. P-35.

7. Real property vested by Vesting Order No. P-38, dated May 10, 1946, effective June 5, 1946, and published in the FEDERAL REGISTER on June 7, 1946 (11 F. R. 6218), including that real property which is particularly described in Exhibit A attached to said Vesting Order No. P-38, and all other property of any nature whatsoever located in the Philippines which was, on the effective date of said Vesting Order, owned or controlled by, payable or deliverable to, or held on behalf of or on account of, or owing to, or which was evidence of ownership or control by, Onoda Cement Company, including but not limited to that certain Membership Fee Certificate in Wack Wack Golf and Country Club, Inc., a corporation organized under Philippine law, which Membership Fee Certificate was on such effective date registered in the name of Onoda Cement Company, and all rights evidenced by said Certificate, all of which property was vested by said Vesting Order No. P-38.

8. Real property vested by Vesting Order No. P-42, dated May 20, 1946, effective June 5, 1946, and published in the FEDERAL REGISTER on June 7, 1946 (11 F. R. 6221), which property is particularly described in Exhibit A attached to said Vesting Order No. P-42, and all other property of any nature whatsoever located in the Philippines which was, on the effective date of said Vesting Order, owned or controlled by, payable or deliverable to, or held on behalf of or on account of, or owing to the Davao Commercial Co., Inc., including but not limited to personal property located in the improvements to the real property described above, which personal property is particularly described in Exhibit B attached to said Vesting Order No. P-42, all of which property was vested by said Vesting Order No. P-42.

9. Real property vested by Vesting Order No. P-43, dated May 20, 1946, effective June 5, 1946, and published in the FEDERAL REGISTER on June 7, 1946 (11 F. R. 6222), which property is particularly described in Exhibits A, B and C attached to said Vesting Order No. P-43, and all other property of any nature whatsoever located in the Philippines which was, on the effective date of said Vesting Order, owned or controlled by, payable or deliverable to, or held on behalf of or on account of, or owing to, Hito Kopura Toosei Komiai, also known as the Philippine Copra Control Association, all of which property was vested by said Vesting Order No. P-43.

10. Real property vested by Vesting Order No. P-45, dated May 20, 1946, effective June 5, 1946, and published in the FEDERAL REGISTER on June 7, 1946 (11 F. R. 6223) including that real property which is particularly described in Exhibit A attached to said Vesting Order No. P-45, and all other property of any nature whatsoever located in the Philippines which was, on the effective date of said Vesting Order, owned or controlled by, payable or deliverable to, or held on behalf of or on account of, or owing to, or which was evidence of ownership or control by, Tokyo Seiko Kabushiki Kaisha, including but not limited to two Membership Fee Certificates in Wack Wack Golf and Country Club, Inc., a corporation organized under Philippine law, which membership Fee Certificates were on such effective date registered in the name of Tokyo Seiko Kabushiki Kaisha or Tokyo Seiko Kaisha, Ltd., and all rights evidenced by said Certificates, all of which property was vested by said Vesting Order No. P-45.

11. Real property vested by Vesting Order No. P-49, dated May 29, 1946, effective June 13, 1946, and published in the FEDERAL REGISTER on June 18, 1946 (11 F. R. 6741), which property is particularly described in Exhibit A attached to said Vesting Order No. P-49, and all other property of any nature whatsoever located in the Philippines which was, on the effective date of said Vesting Order, owned or controlled by, payable or deliverable to, or held on behalf of or on account of, or owing to, The Hito Unkobu, also known as the Philippine Marine Transportation Bureau, all of which property was vested by said Vesting Order No. P-49.

EXHIBIT C

(a) That property vested by Vesting Order No. P-2, dated January 7, 1946, effective January 8, 1946, and published in the FEDERAL REGISTER on January 10, 1946 (11 F. R. 495) consisting of 9,975 shares of the ₱100 par value capital stock of Furukawa Plantation Company, a corporation organized and doing business under the laws of the Philippines and any and all additional shares of stock of Furukawa Plantation Company or the right to subscribe to and receive such additional shares which accrued or may accrue to the shares herein described, or the holders thereof, by virtue of any action taken to increase the capital stock of Furukawa Plantation Company;

(b) That property vested by Vesting Order No. P-3, dated January 7, 1946 effective January 8, 1946, and published in the FEDERAL REGISTER on January 10, 1946 (11 F. R. 497), consisting of 2,430 shares of ₱100 par value capital stock of Ohta Development Company, Inc., a corporation organized and doing business under the laws of the Philippines, and any and all additional shares of stock of Ohta Development Company, Inc., or the right to subscribe to and receive such additional shares which accrued or may accrue to the shares described herein, or the holders thereof, by virtue of any action taken to increase the capital stock of Ohta Development Company, Inc., and

(c) That property vested by Vesting Order No. P-22, dated April 1, 1946 effective April 19, 1946, and published in the FEDERAL REGISTER on April 23, 1946 (11 F. R. 4481), being all of the capital stock of Gui Hing Plantation Company, a corporation organized under the laws of the Philippines, together with all declared and unpaid dividends thereon.

INTERSTATE COMMERCE COMMISSION

[S. O. 396, General Permit 4]

RECONSIGNMENT OF PERISHABLES AT PHILADELPHIA, PA.

Pursuant to the authority vested in me by paragraph (f) of the first ordering paragraph of Service Order No. 396 (10 F. R. 15008), permission is granted for any common carrier by railroad subject to the Interstate Commerce Act:

To disregard entirely the provisions of Service Order No. 396 insofar as it applies to the reconsignment at Philadelphia, Pennsylvania, prior to 11:59 p. m., January 8, 1947, of any carload shipment of perishables which arrived at Philadelphia prior to 12:00 noon, January 7, 1947.

The waybill shall show reference to this general permit.

A copy of this general permit has been served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and notice of this permit shall be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

Issued at Washington, D. C., this 7th day of January 1947.

V. C. CLINGER,
Director,
Bureau of Service.

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 9822

DISPOSAL OF CERTAIN FINNISH MERCHANT VESSELS TO THE FORMER OWNERS THEREOF

WHEREAS the United States Maritime Commission, by virtue of the authority vested in it by Executive Order No. 8771 of June 6, 1941, took over title to and possession of the M. S. SAIMAA, S. S. AAGOT, S. S. OLIVIA, S. S. ADVANCE, S. S. KUURTANES, and S. S. KOURA, foreign merchant vessels then owned by nationals of Finland and lying idle in waters within the jurisdiction of the United States; and

WHEREAS the Finnish Government has requested that the said vessels be immediately returned to their former owners when the United States shall no longer have need thereof; and

WHEREAS the United States no longer has need of the said vessels:

NOW, THEREFORE, by virtue of the authority vested in me by section 1 of the act of June 6, 1941, 55 Stat. 242, it is hereby ordered that the United States Maritime Commission, upon execution on behalf of the former owners of the said vessels, or their successors, of an agreement or agreements satisfactory to the Commission providing for offset of the fair and reasonable value of the said vessels at the time of their return from the compensation payable for their taking, is authorized and directed to convey and redeliver the said vessels immediately to the former owners thereof or their successors and to leave to later determination, pursuant to the said agreement or agreements and to the applicable provisions of law, all questions as to the compensation payable to the former owners or their successors by virtue of the said takings for title and as to the amount to be offset against such compensation on account of the fair and reasonable value of said vessels at the time of their return hereunder.

Mid-Continent Airlines, Inc., et al.; Kansas City-Memphis-Florida case 242
National Airlines, Inc., et al.; Mississippi Valley case 241

Civilian Production Administration
Rules and regulations:
Cotton fabric distribution (M-317A, Revocation) 224
Cotton textile distribution (M-317, Revocation) 225
Duck for cotton pick sacks (M-317, Revocation of Dir. 23) 225

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Division of the Federal Register, the National Archives, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the Code of Federal Regulations, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended June 19, 1937.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15¢) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

NOTICE

General notices of proposed rule making, published pursuant to section 4 (a) of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 238), which were carried under "Notices" prior to January 1, 1947, are now presented in a new section entitled "Proposed Rule Making". Relationship of these documents to material in the Code of Federal Regulations, formerly shown by cross reference under the appropriate Title, is now indicated by a bold-face citation in brackets at the head of each document.

(1) By inspectors employed by U. S. Department of Agriculture—Con.
(ii) At stills and other points away from inspector's official station:
Grading only, up to 400 drums, per drum $0.08
Next 200 drums, per drum .04
All over 600 drums, per drum .02
Up to 500 bags, per bag .02
All over 500 bags, per bag .01
Extra charge for weighing, per drum .03
(iii) At processing plants, on call, grading by approved batch sampling procedure:
Per drum .05
Per bag .01
(2) By licensed inspector at eligible processing plant, grading by approved batch sampling procedure:
Per drum .02
Per bag .004
Per tank car 2.00
(3) For issuance of a loan and sale certificate for United States graded rosin:
Per drum .01
Minimum charge per lot 1.00

(c) *Other naval stores and related commodities (by inspectors employed by U. S. Department of Agriculture).*

(1) Pinene, dipentene, pine oil, other terpene oils: Per drum $0.06
(2) Pine tar, pine pitch, tarene, tall oil, B wood resin, other miscellaneous resins and naval stores: Per drum .05

§ 160.202 *Fees payable to United States for laboratory analysis and testing*—(a) *Spirits of turpentine.*

(1) Comprehensive analysis and tests for purity, chemical and physical properties, specification compliance, etc.:
Single sample $12.00
Each additional sample 8.00
(2) Limited laboratory tests for kind, grade, or physical condition related to quality: Each sample 2.00

(b) *Rosin.* Since the scope and cost of rosin analysis varies widely with the purposes of the tests, the approximate charge must first be determined and the interested person advised thereof. The work will be undertaken only after his authority to proceed has been obtained.

(c) *Other naval stores and related commodities.*

Single sample $10.00–$15.00
Two or more samples, one kind, each $8.00–$10.00

(The cost of such analysis will depend on the amount of work involved in the tests indicated or required. The reduced charge will apply when multiple samples of one kind from the same source can be handled and tested simultaneously.)

§ 160.203 *Permit fees for eligible processing plants.*

Annual permit fee for each eligible processing plant at which licensed inspection of naval stores is authorized $10.00

§ 160.204 *Limitation upon applicability of fees prescribed.* The fees specified in §§ 160.201 and 160.202 apply to the usual inspection and laboratory services. However, should unusual services be required or should services be requested by persons not regularly using the Department of Agriculture naval stores inspection service, and the fee basis charge not be sufficient to defray the cost to the Government of rendering the service, the charge may be computed on a time basis, plus any travel costs incurred by the Government, as provided in the regulations. Advance notice will be given, so far as it is practical to do so, when it appears that the time basis charge will apply.

Effective date. The fees specified herein for the inspection of naval stores under the Naval Stores Act shall become effective on and after January 26, 1947, and the fees specified herein for the inspection of other commodities shall become effective 30 days after publication of this notice.

NOTE: Inasmuch as determination of the cost of inspection service for naval stores and related commodities depends entirely upon facts within the knowledge of the Department of Agriculture, notice and public procedure on the establishment of fees equal to the cost of the service are deemed unnecessary under the Administrative Procedure Act, and inasmuch as the fees presently provided by regulations for inspections under the Naval Stores Act will cease to be in force on January 26, 1947, under an amendment to such regulations, good cause under the Administrative Procedure Act appears for the establishment of the foregoing fees relating to naval stores effective less than 30 days after publication.

(42 Stat. 1435; 7 U. S. C. 91–99)

Issued this 10th day of January 1947.

H. C. ALBIN,
Director, Special Commodities Branch, Production and Marketing Administration.

TITLE 10—ARMY: WAR DEPARTMENT

Subtitle A—Organization, Functions and Procedures

PART 2—ORGANIZATION, FUNCTIONS AND PROCEDURES OF AGENCIES DEALING WITH THE PUBLIC

TRANSPORTATION CORPS

Pursuant to the provisions of section 3 (a) (1) and (2) of the Administrative Procedure Act of 11 June 1946, paragraph (b) of § 2.151, appearing at 11 FR 177A-792, is amended as follows:

1. Revise paragraphs (b) (2) and (b) (3) and change the headnotes of paragraphs (b) (4) and (b) (6) as follows:

§ 2.151 *The Transportation Corps.*
• • •
(b) *Organization.* • • •
(2) *Assistant Chief of Transportation.* Assists the Chief of Transportation in formulating plans and policies, and directing their execution, with principal duties of general supervision of movements control; commercial traffic; water, highway, and railway transportation activities.
(3) *Executive.* Acts on matters which in his judgment do not require the personal attention of the Chief of Transportation; coordinates matters involving two or more groups; relieves the Chief of Transportation of administrative burdens.
(4) *Control Group.* • • •
• • • • • •
(6) *Military Training Group.* • • •

2. Delete the headnotes of paragraphs (b) (7) and (b) (8) and combine entire text of paragraph (b) (8) under paragraph (b) (7), headnote now designated *"Personnel Group"*.

3. Insert new paragraph (b) (8) to read as follows:

(b) *Organization.* • • •
(8) *Movements Control Group.* Exercises staff supervision and control over movements of troops and other War Department passengers and all War Department owned and controlled freight and cargo, requiring coordination between various modes of transportation, to and from overseas theaters and within the Zone of the Interior.

4. Change the headnote of paragraph (b) (9) to read: *"Research and Development Group."*

5. Change the headnote of paragraph (b) (10) to read: *"Supply Group."*

6. Change the headnote of paragraph (b) (11) to read: *"Legal Group."*

7. Change the headnote of paragraph (b) (12) to read: *"Fiscal Group."*

8. Change the headnote of paragraph (b) (13) to read: *"Field Services Group."*

9. Revise paragraph (b) (14) to read as follows:

(b) *Organization.* * * *

(14) *Planning and Intelligence Group.* Initiates, coordinates, and prepares long-range transportation plans; prepares estimates and forecasts of transportation resources and requirements, and evaluates operational plans in the light of such resources and requirements; compiles, evaluates, and disseminates positive intelligence on foreign and domestic surface transportation systems; provides representation for the Chief of Transportation and coordinates the work of other divisions of the Office of the Chief of Transportation on committees and subcommittees of agencies of the Combined and Joint Chiefs of Staff; maintains liaison with transportation planners of the Navy and with other Government transportation planners as required; acts as Top Secret Control Officer for the Office of the Chief of Transportation; and exercises staff supervision over CIC activities at ports of embarkation.

10. Change the headnote of paragraph (b) (15) to read: *"Commercial Traffic Service Group".*

11. Change the headnote of paragraph (b) (16) to read: *"Water Transport Service Group".*

12. Change the headnote of paragraph (b) (17) to read: *"Highway Transport Service Group".*

13. Change the headnote of paragraph (b) (18) to read: *"Military Railway Service Group".*

14. Change the headnote of paragraph (b) (19) to read: *"Industrial Mobilization Planning Group".*

(R. S. 161; 5 U. S. C. 22)

[SEAL] EDWARD F. WITSELL,
Major General,
The Adjutant General.

[F. R. Doc. 47-329; Filed, Jan. 14, 1947; 8:49 a. m.]

TITLE 14—CIVIL AVIATION

Chapter II—Administrator of Civil Aeronautics, Department of Commerce

[Amdt. 96]

PART 600—DESIGNATION OF CIVIL AIRWAYS

REDESIGNATION OF CIVIL AIRWAYS

It appearing that (1) The increased volume of air traffic at certain points necessitates, in the interest of safety in air commerce, the immediate establishment of control areas at such points;

(2) The immediate realignment of civil airways in certain areas is necessary to expedite traffic control in such areas; and

(3) The establishment of the control areas referred to in (1) above, and the realignment of civil airways referred to in (2) above, have been coordinated with the civil operators involved, the Army and the Navy through the Air Coordinating Committee, Airspace Subcommittee; and finding that: The general notice of proposed rule making and public procedure provided for in section 4 (a) of the Administrative Procedure Act is impracticable and unnecessary.

Now, therefore, acting pursuant to the authority vested in me by section 302 of the Civil Aeronautics Act of 1938, as amended, I hereby amend Part 600 of the regulations of the Administrator of Civil Aeronautics as follows:

Redesignation of Civil Airways: Green Civil Airways Nos. 2 and 5; Amber Civil Airway No. 2; Red Civil Airways Nos. 23, 33, 38, 45, 49, and 54; Blue Civil Airways Nos. 14, 18, and 20

1. By amending § 600.10001 to read as follows:

§ 600.10001 *Green civil airway No. 2 (Seattle, Washington, to Boston, Massachusetts).* From the King County Airport, Seattle, Washington, via the Seattle, Washington, radio range station; Ellensburg, Washington, radio range station; Ephrata, Washington, radio range station; Spokane, Washington, radio range station; Coeur D'Alene, Idaho, radio range station; Mullan Pass, Idaho, radio range station; Superior, Montana, radio range station; Missoula, Montana, radio range station; Drummond, Montana, radio range station; Helena, Montana, radio range station; the intersection of the center lines of the on course signals of the southeast leg of the Helena, Montana, radio range and the northwest leg of the Bozeman, Montana, radio range; Bozeman, Montana, radio range station; the intersection of the center line of the on course signals of the southeast range and the west leg of the Livingston, Montana, radio range; Livingston, Montana, radio marker station; Billings, Montana, radio range station; Custer Montana, radio range station; Miles City, Montana, radio range station; the intersection of the center lines of the on course signals of the northeast leg of the Miles City, Montana, radio range and the west leg of the Dickinson, North Dakota, radio range; Dickinson, North Dakota, radio range station; Bismarck, North Dakota, radio range station; Fargo, North Dakota, radio range station; Alexandria, Minnesota, radio range station; Minneapolis, Minnesota, radio range station; La Crosse, Wisconsin, radio range station; Lone Rock, Wisconsin, radio range station; Madison, Wisconsin, radio range station; Milwaukee, Wisconsin, radio range station; Muskegon, Michigan, radio range station; Grand Rapids, Michigan, radio range station; Lansing, Michigan, radio range station; the intersection of the center lines of the on course signals of the southeast leg of the Lansing, Michigan, radio range and the northwest leg of the Romulus, Michigan, radio range; and the Romulus, Michigan, radio range station to the intersection of the center line of the on course signal of the east leg of the Romulus, Michigan, radio range and the U. S.-Canadian Border. From the intersection of the center line of the on course signal of the east leg of the Clear Creek, Ontario, Canada, radio range and the U. S.-Canadian Border via the intersection of the center lines of the on course signals of the east leg of the Clear Creek, Ontario, Canada, radio range and the southwest leg of the Buffalo, New York, radio range; Buffalo, New York, radio range station; the intersection of the center lines of the on course signals of the east leg of the Buffalo, New York, radio range and the southwest leg of the Rochester, New York, radio range; Rochester, New York, radio range station; the intersection of the center lines of the on course signals of the southeast leg of the Rochester, New York, radio range and the west leg of the Syracuse, New York, radio range; Syracuse, New York, radio range station; Utica, New York, radio range station; Albany, New York, radio range station; Westfield, Massachusetts, radio range station; the intersection of the center lines of the on course signals of the southeast leg of the Westfield, Massachusetts, radio range and the southwest leg of the Boston, Massachusetts, radio range to the Boston, Massachusetts, radio range station.

2. By amending § 600.10004 *Green civil airway No. 5 (Los Angeles, California, to Washington, D. C.)* to read as follows:

§ 600.10004 *Green civil airway No. 5 (Los Angeles, California, to Boston, Massachusetts).* From the Los Angeles, California, radio range station via the Riverside, California, radio range station; the intersection of the center lines of the on course signals of the east leg of the Riverside, California, radio range and the west leg of the Blythe, California, radio range; Blythe, California, radio range station; Phoenix, Arizona, radio range station; the intersection of the center lines of the on course signals of the south leg of the Phoenix, Arizona, radio range and the northwest leg of the Tucson, Arizona, radio range; Tucson, Arizona, radio range station; the intersection of the center lines of the on course signals of the southeast leg of the Tucson, Arizona, radio range and the west leg of the Cochise, New Mexico, radio range; Cochise, New Mexico, radio range station; Rodeo, New Mexico, radio range station; Columbus, New Mexico, radio range station; El Paso, Texas, radio range station; Salt Flat, Texas, radio range station; Wink, Texas, radio range station; Big Spring, Texas, radio range station; Abilene, Texas, radio range station; Fort Worth, Texas, radio range station; Texarkana, Arkansas, radio range station; Memphis, Tennessee, radio range station; Jacks Creek, Tennessee, radio range station; Nashville, Tennessee, radio range station; the intersection of the center lines of the on course signals of the northeast leg of the Nashville, Tennessee, radio range and the northwest leg of the Smithville, Tennessee, radio range; Smithville, Tennessee, radio range station; the intersection of the center lines of the on course signals of the east leg of the Smithville, Tennessee, radio range and the west leg of the Knoxville, Tennessee, radio range, excluding that portion which lies more than two miles north of the center line of the on course signal of the west leg of the Knoxville, Tennessee, radio range between the intersection of the center lines of the on course signals of the east leg of the Smithville, Tennessee, radio range and the west leg of the Knoxville, Tennessee, radio range and a point thirteen miles west of the Knoxville, Tennessee, radio range station; Knoxville, Tennessee, radio range station; Tri-City, Tennessee, radio range station; Pulaski, Virginia, radio range station; Roanoke, Virginia, radio range station; Gordonsville, Virginia, radio range station; the intersection of the center lines of the on course signals of the northeast leg of the Gordonsville, Virginia, radio range and the south leg of the Washington, D. C., radio range; a point at latitude 38°41'50", longtitude 76°51'47"; the Millville, New Jersey, radio range station, the intersection of the center lines of the on course signals of the northeast leg of the Millville, New Jersey, radio range and the southwest leg of the Mitchel Field, New York (Army), radio range; the Mitchel Field, New York (Army), radio range station, the intersection of the center lines of the on course signals of the northeast leg of the Mitchel Field, New York (Army), radio range and the southwest leg of the Boston, Massachusetts, radio range to the Boston, Massachusetts (Logan) Airport.

3. By amending § 600.10101 to read as follows:

§ 600.10101 *Amber civil airway No. 2 (Long Beach, California, to Fairbanks, Alaska).* From the Long Beach, California, radio range station to the intersection of the center lines of the on course signals of the northeast leg of the Long Beach, California, radio range and the east leg of the Los Angeles, California, radio range. From the Daggett, California, radio range station via the Silver Lake, California, radio range station; Las Vegas, Nevada, radio range station; the intersection of the center lines of the on course signals of the northeast leg of the Las Vegas, Nevada, radio range and the southwest leg of the Enterprise, Utah, radio range; Enterprise, Utah, radio range station; Milford, Utah, radio range station; Delta, Utah, radio range station; Fairfield, Utah, radio range station; the intersection of the center lines of the on course signals of the northeast leg of the Fairfield, Utah, radio range and the south leg of the Salt Lake City, Utah, radio range; Salt Lake City, Utah, radio range station; Ogden, Utah, radio range station; Malad City, Idaho, radio range station; Pocatello, Idaho, radio range station; the Idaho Falls, Idaho, radio range station; DuBois, Idaho, radio range station; Dillon, Montana, radio range station; Whitehall, Montana, radio range station; Helena, Montana, radio range station; the intersection of the center lines of the on course signals of the

north leg of the Helena, Montana, radio range and the southwest leg of the Great Falls, Montana, radio range; Great Falls, Montana, radio range station and the Cut Bank, Montana, radio range station to the intersection of the center line of the on course signal of the northwest leg of the Cut Bank, Montana, radio range and the U. S.-Canadian Border. From the intersection of the center line of the on course signal of the northwest leg of the Snag, Yukon Territory, radio range and the U. S.-Canadian Border via the Northway, Alaska, radio range station; the Tanacross, Alaska, radio range station; Big Delta, Alaska, radio range station and the intersection of the center lines of the on course signals of the northwest leg of the Big Delta, Alaska, radio range and the south leg of the Fairbanks, Alaska, radio range to the Fairbanks, Alaska, radio range station.

4. By amending § 600.10222 to read as follows:

§ 600.10222 *Red civil airway No. 23 (U. S.-Canadian border to New York, New York).* From the intersection of the center line of the on course signal of the southeast leg of the Toronto, Ontario, radio range and the U. S.-Canadian Border, via the intersection of the center lines of the on course signals of the southeast leg of the Toronto, Ontario, radio range and the northeast leg of the Buffalo, New York, radio range; the intersection of the center lines of the on course signals of the east leg of the Buffalo, New York, radio range and the northwest leg of the Elmira, New York, radio range, the Elmira, New York, radio range station; the New York, New York (LaGuardia Field), radio range station to the intersection of the center lines of the on course signals of the east leg of the New York, New York (LaGuardia), radio range and the northeast leg of the Mitchel Field, New York (Army), radio range.

5. By amending § 600.10232 *Red civil airway No. 33 (Baltimore, Maryland, to Boston, Massachusetts)* to read as follows:

§ 600.10232 *Red civil airway No. 33 (Gordonsville, Virginia, to Boston, Massachusetts).* From the Gordonsville, Virginia, radio range station via the Arcola, Virginia, radio range station; the intersection of the center line of the on course signals of the northeast leg of the Arcola, Virginia, radio range and the southwest leg of the Allentown, Pennsylvania, radio range; the Allentown Pennsylvania, radio range station to the Stewart Field, New York, radio range station. From the intersection of the center lines of the on course signals of the west leg of the Providence, Rhode Island, radio range and the southwest leg of the Boston, Massachusetts, radio range to the intersection of the center lines of the on course signals of the southeast leg of the Westfield, Massachusetts, radio range and the southwest leg of the Boston, Massachusetts, radio range.

6. By amending § 600.10237 *(Red civil airway No. 38 (Big Spring, Texas, to San Antonio, Texas)* to read as follows:

§ 600.10237 *Red civil airway No. 38 (Big Spring, Texas, to San Antonio, Texas).* From the intersection of the center lines of the on course signal of the southeast leg of the Big Spring, Texas, radio range and the southwest leg of the San Angelo, Texas, radio range via the San Angelo, Texas, radio range station to the intersection of the center lines of the on course signal of the southeast leg of the San Angelo, Texas, radio range and the southeast leg of the Big Spring, Texas, radio range.

7. By amending § 600.10244 *Red civil airway No. 45 (Washington, D. C., to Baltimore, Maryland)* to read as follows:

§ 600.10244 *Red civil airway No. 45 (Washington, D. C., to Allentown, Pennsylvania).* From the Washington, D. C., radio range station via a point located at 39°01' north latitude and 76°33'30" west longitude; the Baltimore, Maryland, radio range station to the intersection of the center line of the on course signals of the north leg of the Baltimore, Maryland, radio range and southwest leg of the Allentown, Pennsylvania, radio range.

8. By amending § 600.10248 *Red civil airway No. 49 (Burley, Idaho, to Fort Bridger, Wyoming)* to read as follows:

§ 600.10248 *Red civil airway No. 49 (Elko, Nevada, to Fort Bridger, Wyoming).* From the Elko, Nevada, radio range station via the Wendover, Utah, radio range station; the intersection of the center lines of the on course signals of the east leg of the Wendover, Utah, radio range and the west leg of the Salt Lake City, Utah, radio range; the Salt Lake City, Utah, radio range station; to the Fort Bridger, Wyoming, radio range station.

9. By amending § 600.10253 *Red civil airway No. 54 (Elko, Nevada, to Salt City, Utah)* to read as follows:

§ 600.10253 *Red civil airway No. 54 (Burley, Idaho, to Salt Lake City, Utah).* From the Burley, Idaho, radio range station to a point located at 40°56' north latitude and 112°16" west longitude.

10. By amending § 600.10313 *Blue civil airway No. 14 (Riverside, California, to Bakersfield, California)* to read as follows:

§ 600.10313 *Blue civil airway No. 14 (El Centro, California, to Bakersfield, California).* From the Mt. Laguna, California, non-directional radio marker beacon to the Oceanside, California, non-directional radio marker beacon. From the Riverside, California, radio range station via the intersection of the center lines of the on course signals of the northwest leg of the Riverside, California, radio range and the southeast leg of the Palmdale, California, radio range and the Palmdale, California, radio range station to the intersection of the center lines of the on course signals of the northwest leg of the Palmdale, California, radio range and the south leg of the Bakersfield, California, radio range.

11. By amending § 600.10317 *Blue civil airway No. 18 (Newark, New Jersey,*

to Burlington, Vermont) to read as follows:

§ 600.10317 *Blue civil airway No. 18 (Philadelphia, Pennsylvania, to Burlington, Vermont).* From the intersection of the center line of the on course signals of the northeast leg of the Philadelphia, Pennsylvania, radio range and the southwest leg of the Idlewild, New York, radio range via the Idlewild, New York, radio range station to the intersection of the center line of the on course signals of the northeast leg of the Idlewild, New York, radio range and the east leg of the New York, New York (LaGuardia), radio range. From the intersection of the center line of the on course signals of the northwest leg of the New York, New York (LaGuardia), radio range and the southwest leg of the New Hackensack, New York, radio range via the New Hackensack, New York, radio range station, excluding that portion which lies more than two miles west of the center line of the on course signals of the southwest leg of the New Hackensack, New York, radio range between a point 30 miles northeast from the intersection of the center line of the on course signals of the northwest leg of the New York, New York (LaGuardia), radio range and the southwest leg of the New Hackensack, New York, radio range and a point 10 miles south of the New Hackensack, New York, radio range; the Albany, New York, radio range station to the Burlington, Vermont, radio range station.

12. By amending § 600.10319 *Blue civil airway No. 20 (Philadelphia, Pennsylvania, to Allentown, Pennsylvania)* to read as follows:

§ 600.10319 *Blue civil airway No. 20 (Millville, New Jersey, to Allentown, Pennsylvania).* From the Millville, New Jersey, radio range station via the intersection of the center line of the on course signals of the northwest leg of the Millville, New Jersey, radio range and the southwest leg of the Philadelphia, Pennsylvania, radio range, the Philadelphia, Pennsylvania, radio range station to the Allentown, Pennsylvania, radio range station.

(Sec. 302, 52 Stat. 985; 54 Stat. 1233, 1235, 1236; 49 U. S. C. 452)

This amendment shall become effective 0001 e. s. t., January 15, 1947.

[SEAL] T. P. WRIGHT,
Administrator of Civil Aeronautics.

[Amdt. 150]

PART 601—DESIGNATION OF AIRWAY TRAFFIC CONTROL AREAS, AIRPORT APPROACH ZONES, AIRPORT TRAFFIC ZONES AND RADIO FIXES

REDESIGNATION OF AIRWAY TRAFFIC CONTROL AREAS AND RADIO FIXES

It appearing that: (1) The increased volume of air traffic at certain points necessitates, in the interest of safety in air commerce, the immediate establishment of control areas, including airport traffic zones and radio fixes, at such points;

(2) The immediate realignment of civil airways in certain areas is necessary to expedite traffic control in such areas; and

(3) The establishment of the control areas referred to in (1) above, and the realignment of civil airways referred to in (2) above, have been coordinated with the civil operators involved, the Army and the Navy through the Air Coordinating Committee, Airspace Subcommittee; and finding that: The general notice of proposed rule making and public procedure provided for in section 4 (a) of the Administrative Procedure Act is impracticable and unnecessary.

Now, therefore, acting pursuant to the authority vested in me by section 308 of the Civil Aeronautics Act of 1938, as amended, and Special Regulation No. 197 (6 F. R. 6348) of the Civil Aeronautics Board, I hereby amend Part 601 of the regulations of the Administrator of Civil Aeronautics as follows:

Redesignation of Airway Traffic Control Areas: Green Civil Airway No. 5; Red Civil Airways Nos. 33, 45, 49, and 54; Blue Civil Airways Nos. 14, 18, and 20, Redesignation of Radio Fixes: Green Civil Airway No. 5; Amber Civil Airway No. 7; Red Civil Airways Nos. 33, 45, 49, and 54; Blue Civil Airways Nos. 14, 18, and 20

1. By amending § 601.1005 *Green civil airway No. 5, airway traffic control areas (Los Angeles, California, to Washington, D. C.)* to read as follows:

§ 601.1005 *Green civil airway No. 5 airway traffic control areas (Los Angeles, California, to Boston, Massachusetts).* All of Green civil airway No. 5.

2. By amending § 601.10233 *Red civil airway No. 33 airway traffic control areas (Baltimore, Maryland, to Boston, Massachusetts)* to read as follows:

§ 601.10233 *Red civil airway No. 33 airway traffic control areas (Gordonsville, Virginia, to Boston, Massachusetts).* All of Red civil airway No. 33.

3. By amending § 601.10245 *Red civil airway No. 45 airway traffic control areas (Washington, D. C., to Baltimore, Maryland)* to read as follows:

§ 601.10245 *Red civil airway No. 45 airway traffic control areas (Washington, D. C., to Allentown, Pennsylvania).* All of Red civil airway No. 45.

4. By amending § 601.10249 *Red civil airway No. 49 airway traffic control areas (Burley, Idaho, to Fort Bridger, Wyoming)* to read as follows:

§ 601.10249 *Red civil airway No. 49 airway traffic control areas (Elko, Nevada, to Fort Bridger, Wyoming).* All of Red civil airway No. 49.

5. By amending § 601.10254 *Red civil airway No. 54 airway traffic control areas (Timpic, Utah, to Salt Lake City, Utah)* to read as follows:

§ 601.10254 *Red civil airway No. 54 airway traffic control areas (Burley, Idaho, to Salt Lake City, Utah).* All of Red civil airway No. 54.

6. By amending § 601.10314 *Blue civil airway No. 14 airway traffic control areas (Riverside, California, to Bakersfield, California)* to read as follows:

§ 601.10314 *Blue civil airway No. 14 airway traffic control areas (El Centro, California, to Bakersfield, California).* All of Blue civil airway No. 14.

7. By amending § 601.10318 *Blue civil airway No. 18 airway traffic control areas (Newark, New Jersey, to Burlington, Vermont)* to read as follows:

§ 601.10318 *Blue civil airway No. 18 airway traffic control areas (Philadelphia, Pennsylvania, to Burlington, Vermont).* All of Blue civil airway No. 18.

8. By amending § 601.10320 *Blue civil airway No. 20 airway traffic control areas (Philadelphia, Pennsylvania, to Allentown, Pennsylvania)* to read as follows:

§ 601.10320 *Blue civil airway No. 20 airway traffic control areas (Millville, New Jersey, to Allentown, Pennsylvania).* All of Blue civil airway No. 20.

9. By amending § 601.4005 *Green civil airway No. 5 (Los Angeles, California, to Washington, D. C.)* to read as follows:

§ 601.4005 *Green civil airway No. 5 (Los Angeles, California, to Boston, Massachusetts).* Los Angeles, California, radio range station; Riverside, California, radio range station; Blythe, California, radio range station; Phoenix, Arizona, radio range station; Tucson, Arizona, radio range station; Rodeo, New Mexico, radio range station; Columbus, New Mexico, radio range station; the Harrington Ranch fan type radio marker station or the intersection of the center lines of the on course signals of the west leg of the El Paso, Texas, radio range and the south leg of the Engle, New Mexico, radio range; El Paso, Texas, radio range station; Salt Flat, Texas, radio range station; Wink, Texas, radio range station; Big Spring, Texas, radio range station; Abilene, Texas, radio range station; Fort Worth, Texas, radio range station; Texarkana, Arkansas, radio range station; Memphis, Tennessee, radio range station; Jacks Creek, Tennessee, radio range station; Nashville, Tennessee, radio range station; Smithville, Tennessee, radio range station; Knoxville, Tennessee, radio range station; Tri-City, Tennessee, radio range station; Pulaski, Virginia, radio range station; Roanoke, Virginia, radio range station; Gordonsville, Virginia, radio range station; Doncaster, Maryland, fan type radio marker station or the intersection of the center lines of the on course signals of the northeast leg of the Gordonsville, Virginia, radio range and the south leg of the Washington, D. C., radio range; Millville, New Jersey, radio range station.

10. By amending § 601.4017 *Amber civil airway No. 7 (Key West, Florida, to Caribou, Maine)*, to read as follows:

§ 601.4017 *Amber civil airway No. 7 (Key West, Florida, to Caribou, Maine).* Key West, Florida, radio range station; Miami, Florida, radio range station; Morrison Field, West Palm Beach, Florida, radio range station; Melbourne, Florida, radio range station; Daytona Beach, Florida, radio range station; Savannah, Georgia, radio range station; Charleston, South Carolina, radio range station; Florence, South Carolina, radio range station; Raleigh, North Carolina, radio range station; Washington, D. C., radio range station; the intersection of the center lines of the on course signals of the northeast leg of the Washington, D. C., radio range and the west leg of the Baltimore, Maryland, radio range; Newark, New Jersey, radio range station.

11. By amending § 601.40233 *Red civil airway No. 33 (Baltimore, Maryland, to Boston, Massachusetts)* to read as follows:

§ 601.40233 *Red civil airway No. 33 (Gordonsville, Virginia, to Boston, Massachusetts).* Arcola, Virginia, radio range station.

12. By amending § 601.40245 *Red civil airway No. 45 (Washington, D. C., to Baltimore, Maryland)* to read as follows:

§ 601.40245 *Red civil airway No. 45 (Washington, D. C., to Allentown, Pennsylvania).* No radio fix designation.

13. By amending § 601.40249 *Red civil airway No. 49 (Burley, Idaho, to Fort Bridger, Wyoming)* to read as follows:

§ 601.40249 *Red civil airway No. 49 (Elko, Nevada, to Fort Bridger, Wyoming).* Wendover, Utah, radio range station.

14. By amending § 601.40254 *Red civil airway No. 54 (Timpic, Utah, to Salt Lake City, Utah)* to read as follows:

§ 601.40254 *Red civil airway No. 54 (Burley, Idaho, to Salt Lake City, Utah).* No radio fix designation.

15. By amending § 601.40314 *Blue civil airway No. 14 (Riverside, California, to Bakersfield, California)* to read as follows:

§ 601.40314 *Blue civil airway No. 14 (El Centro, California, to Bakersfield, California).* No radio fix designation.

16. By amending § 601.40318 *Blue civil airway No. 18 (Newark, New Jersey, to Burlington, Vermont)* to read as follows:

§ 601.40318 *Blue civil airway No. 18 (Philadelphia, Pennsylvania, to Burlington, Vermont).* No radio fix designation.

17. By amending § 601.40320 *Blue civil airway No. 20 (Philadelphia, Pennsylvania, to Allentown, Pennsylvania)*, to read as follows:

§ 601.40320 *Blue civil airway No. 20 (Millville, New Jersey, to Allentown, Pennsylvania).* No radio fix designation.

(Sec. 308, 52 Stat. 986, 54 Stat. 1233, 1235, 1236; 49 U. S. C. 458)

This amendment shall become effective 0001 e. s. t., January 15, 1947.

[SEAL] T. P. WRIGHT,
Administrator of Civil Aeronautics.

[F. R. Doc. 47-343; Filed, Jan. 14, 1947; 8:47 a. m.]

TITLE 8—ALIENS AND NATIONALITY

Chapter I—Immigration and Naturalization Service, Department of Justice

PART 60—FIELD SERVICE DISTRICTS AND OFFICERS

PART 110—PRIMARY INSPECTION AND DETENTION

TRANSFER OF JURISDICTION OVER ISLE ROYALE, MICH., FROM DETROIT DISTRICT TO CHICAGO DISTRICT

DECEMBER 18, 1946.

1. Section 60.1 *Field Districts,*[1] Chapter I, Title 8, Code of Federal Regulations, is hereby amended as follows:

a. The definition of District No. 8, with headquarters at Detroit, Michigan, is amended by changing the language preceding the first semicolon to read as follows: "Includes the State of Michigan, except Isle Royale, and the States of Indiana and Kentucky".

b. The definition of District No. 9, with headquarters at Chicago, Illinois, is amended by inserting after the first semicolon, the following: "Isle Royale, Michigan;".

2. Section 110.1, *Ports of entry for aliens,*[2] Chapter I, Title 8, Code of Federal Regulations, is amended by deleting "Isle Royale, Mich." from the list of Class A ports of entry in District No. 8 and by inserting "Isle Royale, Mich." between "Chicago, Ill." and "Baudette, Minn." in the list of Class A ports of entry in District No. 9.

The foregoing amendments are made in the interest of the internal management of the Government.

This order shall become effective on the date of its publication in the FEDERAL REGISTER.

(Sec. 23, 39 Stat. 892; sec. 24, 43 Stat. 166; sec. 37 (a), 54 Stat. 675; 8 U. S. C. 102, 222, 458; sec. 1, Reorg. Plan No. V, 3 CFR, Cum. Supp., Ch. IV; 8 CFR, 1943 Supp., 90.1)

UGO CARUSI,
Commissioner of Immigration and Naturalization.

Approved: January 7, 1947.

TOM C. CLARK,
Attorney General.

TITLE 17—COMMODITY AND SECURITIES EXCHANGES

Chapter II—Securities and Exchange Commission

PART 230—GENERAL RULES AND REGULATIONS, SECURITIES ACT OF 1933

PROSPECTUSES FOR EMPLOYEES' SAVINGS, PROFIT-SHARING OR PENSION PLANS

The Securities and Exchange Commission, acting pursuant to the Securities Act of 1933, particularly sections 7, 10, and 19 (a) thereof, and deeming such action necessary and appropriate in the public interest and for the protection of investors and necessary to carry out the provisions of the act hereby adopts § 230.882 (Rule 882). The Commission finds that § 230.882 (Rule 882) primarily embodies provisions presently contained in the Instruction Book for Form A–2 (17 CFR 239.2), that the adoption of such rule does not alter the substantive rights of any person and that notice and public procedure pursuant to section 4 (a) and (b) of the Administrative Procedure Act are unnecessary. § 230.882 (Rule 882) shall read as herein below set forth and shall become effective April 1, 1947:

§ 230.882 *Prospectuses for employees' savings, profit-sharing or pension plans.* (a) Any prospectus for shares of stock of an issuer in which funds of a savings, profit-sharing or pension plan for employees of the issuer are to be invested need contain only the information specified below if the prospectus is sent or given only to employees of the issuer who have previously received a prospectus for registered interests or participations in the plan and for registered shares of stock of the issuer and who have become members of the plan prior to receipt of the prospectus prepared in accordance with this rule:

(1) Such information (other than financial statements) in regard to the plan and the administration thereof and in regard to the issuer of the underlying stock and its subsidiaries as may be necessary to bring up to date the corresponding information furnished to members of the plan in previous prospectuses.

(2) Financial statements of the plan corresponding to those included in previous prospectuses for each fiscal year after the last fiscal year for which financial statements of the plan were furnished to members of the plan in previous prospectuses.

(3) Financial statements of the issuer of the underlying stock and its subsidiaries corresponding to those included in previous prospectuses for each fiscal year after the last fiscal year for which financial statements of the issuer and its subsidiaries were furnished to members of the plan in previous prospectuses.

(b) The financial statements specified in paragraph (a) of this section may be omitted from any prospectus used in the manner specified in that paragraph if:

(1) The fiscal year of the issuer of the underlying stock has ended within ninety days prior to the date when it is desired to distribute the prospectus to members of the plan.

(2) The prospectus contains, or is accompanied by, financial statements (which need not be certified) substantially meeting the requirements of paragraph (a) of this section.

(3) Within 120 days after the close of the fiscal year the financial statements omitted from the prospectus pursuant to this paragraph are made conveniently available to all members of the plan at their respective places of employment.

(4) There is set forth in conspicuous print on the first page of the prospectus a statement as to the manner in which and the approximate date on which the

---

[1] 9 F. R. 5367.
[2] 8 CFR, Cum. Supp., 110.1.

financial statements will be made available to members of the plan pursuant to subparagraph (3) of this paragraph. (Secs. 7, 10 and 19 (a), 48 Stat. 78, 81, 85; 15 U. S. C. 77f, 77j, 77s)

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

JANUARY 8, 1947.

[F. R. Doc. 47-325; Filed, Jan. 14, 1947; 8:49 a. m.]

PART 239—FORMS PRESCRIBED UNDER THE SECURITIES ACT OF 1933

MISCELLANEOUS AMENDMENTS

Amendment to Form S-1 (17 CFR 239.11) for registration of securities under the Securities Act of 1933; Rescission of Form A-1 (17 CFR 239.1) and Form A-2 (17 CFR 239.2).

1. The Securities and Exchange Commission, acting pursuant to the Securities Act of 1933, particularly sections 7, 10 and 19 (a) thereof, and deeming such action necessary and appropriate in the public interest and for the protection of investors and necessary to carry out the provisions of the act, hereby amends Form S-1 (17 CFR 239.11) to read as set forth in copies thereof dated January 15, 1947. Form S-1 (17 CFR 239.11) as so amended shall be effective April 1, 1947. However, as it appears that certain registrants may wish to use the amended form prior to that date, the Commission, acting pursuant to section 4 (c) of the Administrative Procedure Act, hereby declares that such form may, at the option of the registrant, be used for statements filed with the Commission on or after January 15, 1947.

2. The Securities and Exchange Commission, acting pursuant to the Securities Act of 1933, particularly sections 7, 10, and 19 (a) thereof, and deeming such action necessary and appropriate in the public interest and for the protection of investors and necessary to carry out the provisions of the act, hereby rescinds Form A-1 (17 CFR 239.1) and Form A-2 (17 CFR 239.2) and the Instruction Book for Form A-2 (17 CFR 239.2). The foregoing action shall be effective April 1, 1947. (Secs. 7, 10 and 19 (a), 48 Stat. 78, 81, 85; 15 U. S. C. 77g, 77j, 77s)

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

JANUARY 8, 1947.

TITLE 20—EMPLOYEES' BENEFITS

Chapter II—Railroad Retirement Board

PART 325—REGISTRATION AND CLAIMS FOR BENEFITS

METHOD OF REGISTRATION

Pursuant to the authority contained in section 12 of the act of June 25, 1938 (sec. 12, 52 Stat. 1107; 45 U. S. C. 362 (1)), § 325.12 (a) of the regulations of the Railroad Retirement Board under such act (5 F. R. 2111, 4815; 9 F. R. 3192) is amended, effective December 19, 1946, by Board Order 46-517 dated December 19, 1946, so that subparagraph (2) of the first proviso thereof shall read as follows:

§ 325.12 *Registration*—(a) *Method of registration.* * * *

(2) Benefits have already been payable to him for 130 days of unemployment: * * *

(Sec. 12, 52 Stat. 1107; 45 U. S. C. 362 (1))

Dated: January 7, 1947.

By authority of the Board.

TITLE 32—NATIONAL DEFENSE

Chapter II—National Guard and State Guard, War Department

PART 201—NATIONAL GUARD REGULATIONS

MISCELLANEOUS AMENDMENTS

1. Section 201.50 is hereby rescinded.

2. Amend § 201.20 by designating the text immediately following the headnote as paragraph (a), and by adding paragraph (b) as follows:

§ 201.20 *Age.* (a) The enlistment * * *

(b) Enlistments in the National Guard of persons over 35 years of age will be limited to those who have had active Federal service in the National Guard of the United States, Army, Navy, or Marine Corps, terminated by honorable discharge, *Provided*, Their total active Federal service equals or exceeds that shown in the following table:

Age:	*Minimum active Army service*
35 under 36	3 months.
36 under 37	1 year.
37 under 38	2 years.
38 under 39	3 years.
39 under 40	4 years.
40 and over	5 years.

Chapter IX—Office of Temporary Controls, Civilian Production Administration

AUTHORITY: Regulations in this chapter unless otherwise noted at the end of documents affected, issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236, 56 Stat. 177, 58 Stat. 827, and Public Laws 270 and 475, 79th Congress; Public Law 388, 79th Congress; E. O. 9024, 7 F. R. 329; E. O. 9040, 7 F. R. 527; E. O. 9125, 7 F. R. 2719; E. O. 9599, 10 F. R. 10155; E. O. 9638, 10 F. R. 12591; C. P. A. Reg. 1, Nov. 5, 1945, 10 F. R. 13714; Housing Expediter's Priorities Order 1, Aug. 27, 1946, 11 F. R. 9507; E. O. 9809, Dec. 12, 1946, 11 F. R. 14281; OTC Reg. 1, 11 F. R. 14311.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 13, Revocation of Direction 15]

SALE OF SOLDER, ANTIMONIAL LEAD DIE METAL, AND BATTERY LEAD SCRAP BY WAR ASSETS CORPORATION

Direction 15 to Priorities Regulation 13 is revoked. This revocation does not affect any liabilities incurred for violation of the Direction or of actions taken by the Civilian Production Administration under the Direction.

Issued this 14th day of January 1947.

CIVILIAN PRODUCTION ADMINISTRATION,
By J. JOSEPH WHELAN,
Recording Secretary.

[F. R. Doc. 47-439; Filed, Jan. 14, 1947; 11:23 a. m.]

PART 3290—TEXTILE, CLOTHING, AND LEATHER

[Supplementary Order M-317A, Revocation]

COTTON FABRIC DISTRIBUTION

Section 3290.116 *Supplementary Order M-317A* is revoked. This revocation does not affect any liabilities incurred for violation of the order or for violation of actions taken by the War Production Board or Civilian Production Administration under the order.

Any person who has obtained any cotton fabrics with a certificate provided for the former set-asides for cotton components for apparel, and for cotton components for men's suits, must still use or dispose of the fabrics, if possible, in accordance with the certificate which he has given. The set-asides for this purpose were contained in paragraph (f), and in column 8 of the Distribution Tables of the order.

Some of the rules formerly in this order are superseded by those now in Order M-328, as amended simultaneously with this revocation.

Issued this 14th day of January 1947.

CIVILIAN PRODUCTION ADMINISTRATION,
By J. JOSEPH WHELAN,
Recording Secretary.

PART 3290—TEXTILE, CLOTHING, AND LEATHER

[General Conservation Order M-317, Revocation]

COTTON TEXTILE DISTRIBUTION

Section 3290.115 *General Conservation Order M-317* is revoked. This revocation does not affect any liabilities incurred for violation of the order or for violation of actions taken by the War Production Board or Civilian Production Administration under the order.

Some of the rules formerly in this order are superseded by those now in Order M-328, as amended simultaneously with this revocation.

Issued this 14th day of January 1947.

CIVILIAN PRODUCTION ADMINISTRATION,
By J. JOSEPH WHELAN,
Recording Secretary.

[F. R. Doc. 47-443; Filed, Jan. 14, 1947; 11:24 a. m.]

PART 1010—SUSPENSION ORDERS

[Suspension Order S-1072]

HARVEY NELSON

Harvey Nelson, of Shelby, Michigan, on April 15, 1946, without authorization of the Civilian Production Administration, began and thereafter carried on construction of a structure on the west side of Highway US-31, one-quarter of a mile south of Shelby, Michigan, for use as a recreational establishment and barber shop. The beginning and carrying on of this construction at an estimated cost in excess of $1,000 constituted a violation of Veterans' Housing Program Order No. 1. This violation has diverted scarce materials to uses not authorized by the Civilian Production Administration. In view of the foregoing, it is hereby ordered that:

§ 1010.1072 *Suspension Order S-1072.* (a) Neither Harvey Nelson, his successors nor assigns, nor any other person shall do any further construction on the structure referred to above, located on the west side of Highway US-31, one-quarter of a mile south of Shelby, Michigan, including putting up, completing or altering the structure, unless hereafter authorized in writing by the Civilian Production Administration.

(b) Harvey Nelson shall refer to this order in any application or appeal which he may file with the Civilian Production Administration or the Federal Housing Administration for priorities assistance or for authorization to carry on construction.

(c) Nothing contained in this order shall be deemed to relieve Harvey Nelson, his successors or assigns, or any other person from any restriction, prohibition or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 14th day of January 1947.

CIVILIAN PRODUCTION ADMINISTRATION,
By J. JOSEPH WHELAN,
Recording Secretary.

[F. R. Doc. 47-446; Filed, Jan. 14, 1947; 11:25 a. m.]

PART 3290—TEXTILE, CLOTHING, AND LEATHER

[Conservation Order M-317, Revocation of Direction 23]

DUCK FOR COTTON PICK SACKS

Direction 23 to Conservation Order M-317 is revoked. This revocation does not affect any liabilities incurred for violation of the direction or of actions taken by the Civilian Production Administration under the direction.

Any person who has obtained any flat duck with a certificate provided under this direction may now use and dispose of the fabric without regard to the provisions of the certificate or of the direction. Any duck obtained with a preference rating, however, must still be used or disposed of, if possible, for the purpose for which the rating was granted.

Issued this 14th day of January 1947.

CIVILIAN PRODUCTION ADMINISTRATION,
By J. JOSEPH WHELAN,
Recording Secretary.

PART 3290—TEXTILE, CLOTHING AND LEATHER

[Conservation Order M-328, as Amended Jan. 14, 1947]

PROVISIONS APPLICABLE TO TEXTILES, CLOTHING AND RELATED PRODUCTS

The fulfillment of requirements for the defense of the United States has created shortages in the supplies of textiles, clothing, leather and related products for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3290.118 *Conservation Order M-328*—(a) *Definitions.* As used in this order: (1) The term "textile, clothing and related products" includes the following items:

(i) Animal bristles and hair.
(ii) Clothing, footwear (including safety shoes, hats, gloves, and all other outer or under garments or apparel, if made in whole or in part of leather or textile yarn, staple fiber, or fabrics). However, this does not include rubber footwear, professional rubber gloves, or the following items when such items are specifically designed and used to furnish protection against occupational hazards (other than weather):
Asbestos clothing.
Gauntlet type welders' leather gloves and mittens, and electricians' leather protector or cover gloves.
Metal mesh gloves, aprons and sleeves.
Other safety leather gloves or mittens, but only if steel-stitched or steel-reinforced.
Plastic and fiber safety helmets.
Safety belts and harnesses.
Safety clothing impregnated or coated for the purposes of making the same resistant against fire, acids or other chemicals or abrasives.
Safety industrial leather clothing other than gloves or mittens.
Safety industrial rubber gloves and hoods, and linemen's rubber gloves and sleeves.
(iii) Cotton, wool and synthetic yarns and blends of the foregoing.
(iv) Woven, felted, knitted and braided fabrics of cotton, wool or synthetic yarns and blends of the foregoing, including but not limited to:
Bedsheets.
Pillow cases.
Blankets.
Towels.
Diapers.
Face cloths.
Table "linens."
(v) Dyestuffs, which means organic coloring matter even though the matter itself appears colorless. The term does not include inorganic pigments extended or otherwise processed with resinates, with dispersing agents, or with other substantially colorless organic material.
(vi) The following metal shoe findings:
Arch supports.
Box toes and caps.
Heel rims and plates.
Heel washers.
Shoe shanks.
Toe rims and plates.
Steel wire shoe nails.
(vii) Hides, skins, furs and leather and products made primarily therefrom.
(viii) Manila, agave, istle, hemp (cannabis sativa), jute, coir yarn and other fibers, suitable for cordage (rope and twine), and cordage products made primarily therefrom.
(ix) Mops.
(x) Slide fasteners.
(xi) Sponges, marine and loofa.
(xii) Textile fibers (animal, vegetable, or synthetic, including curled istle) and products made primarily from textile fibers or textiles. This does not include fabrics after they have been coated or impregnated, fire hose, fire hose jackets, sisal processors' mill waste or sisal bagasse.
(xiii) Steel tacks (except thumb tacks).
(xiv) Synthetic rubber thread and products made therefrom.

(2) "Cotton fabric" means any fabric 12" or more in width woven or braided from cotton yarn which contains 50% or more by weight of cotton or cotton waste

or any combination of the two. The term includes not only fabrics in the grey and yarn dyed fabrics, original mill or regular finish, but also fabrics which have been bleached, Sanforized, dyed or printed; and includes shorts, seconds, remnants or mill ends. The term does not include blankets or blanketing containing 25% or more by weight of wool; or fabrics (other than blankets or blanketing) containing wool produced on the woolen or worsted system.

(3) "Producer," with respect to cotton fabrics, means any person who weaves for his own account, or has woven for his account, any cotton fabric in the forty-eight States or the District of Columbia. A person who weaves cotton fabric for the account of another is not a producer of that fabric for the purpose of this order.

(4) "Rayon fabrics" means any woven or knitted (both circular and warp) fabric, containing less than 25% wool by weight, but of which the remaining fibers are more than 50% of synthetic fiber (filament or spun yarn, or their blends) by weight. For example, a fabric containing 20% wool, 41% rayon, and 39% cotton is a rayon fabric. Except where otherwise indicated, it includes such fabrics, whether grey, original mill, or regular finish, bleached, dyed, printed, or otherwise processed as fabric.

(5) With respect to rayon fabrics, "producer" means any person who weaves or knits rayon fabrics from yarn owned by him, or who has rayon fabrics woven or knitted for his account from yarn owned by him, whether he delivers them in the grey, finished, or partially finished state. If a person supplies yarn to a weaver or knitter for processing on a basis under which a part of the fabric produced from that yarn is to be owned by the yarn supplier, and part by the weaver or knitter, the yarn supplier is the producer of that part of the fabric which he will get, and the weaver or knitter is the producer of the remainder. Where a person supplies yarn to a weaver or knitter in exchange for fabric not made from the yarn supplied, the weaver or knitter is the producer of all of the fabric made from the yarn which he gets in this way, as well as of any other fabric produced by him.

(6) "Finished goods supplier" means any person who finishes, or has finished for his account, rayon fabrics which he owns, whether he produces them in the grey, finished, or partially finished state.

(7) "Cotton textile" means any of the following:

(i) Cotton yarn containing 50% or more by weight of cotton or cotton waste or any combination of the two, spun on roving, ring, tube twister or converted twister spindles, or produced on the woolen system. The term includes grey, bleached, mercerized, colored, glazed or polished yarn, whether single, ply, twisted or braided and including thread, sash cord, rope, twine and cordage (for example, tying, sail or seine twine, and cotton tire cords, including cotton tire cord held together loosely or by one or more picks) or

(ii) Cotton fabric; or

(iii) The following cotton fabric products: Bedsheets, pillow cases, blankets, towels, diapers, face cloths, table "linens", and fish netting.

(b) *CPA may issue directions.* The Civilian Production Administration may issue published directions, or specific directions to individual producers or processors of textile, clothing and related products, with respect to the production, fabrication, processing or delivery of items to meet particular military or civilian requirements, and no person shall produce, fabricate, process, deliver or accept delivery contrary to these directions.

The general policy of CPA, however, will be not to issue further directions, published or unpublished, for the manufacture or distribution of textile, clothing, and related products.

These materials are no longer subject to price controls, and most of the former CPA controls over production and distribution have been eliminated. Military requirements were greatly reduced many months ago, and now represent a small part of total consumption. Supplies for industrial, commercial, agricultural and other civilian uses should now be obtainable by persons making adequate and timely efforts to fill their needs, from among the many sources of supply. Even when the most desirable materials may not be readily available, usable substitutes should be obtainable. Some further readjustments between sources of supply and purchasers may occur, but this readjustment might well be delayed, rather than avoided, by additional directions.

In general, therefore, directions will not be issued, unless an unforeseeable emergency should arise, such as that caused by fire, flood, or other disaster, and would clearly cause severe community or other hardship to a large number of people if such action by CPA is not taken.

(c) *Rating ceilings*—(1) *Producers.* No producer need accept or fill MM or CC rated orders which would cause him to deliver during any calendar quarter on such rated orders more of any cotton or rayon fabric than a quantity equal to the percentage, specified in the attached table, applied to a figure equal to his total production of that fabric during the previous calendar quarter (the term "any cotton or rayon fabric" refers to any group of fabrics having the same Item Number in the CPA–658 form indicated).

(2) *Rayon finished goods suppliers.* No finished goods supplier need accept or fill MM or CC rated orders which would cause him to deliver during any calendar quarter on such rated orders more of any rayon fabric than a quantity equal to the percentage, specified in the attached table, applied to a figure equal to his total deliveries of that fabric during the previous calendar quarter (the term "any rayon fabric" refers to any group of fabrics having the same Item Number in the CPA–658 form indicated).

(3) *General rating ceiling provisions.* The rating ceilings established in this order are separate for each fabric or group of fabrics having the same Item Number, and deliveries on rated orders in excess of one of these ceilings may not be charged against any of the other ceilings. Within the ceiling for the fabrics covered by any Item Number, MM rated orders must be accepted and filled in preference to undelivered orders with CC ratings, in accordance with Priorities Regulation 1, and all other rules of that regulation also apply.

(4) *Kinds of ratings affected.* Paragraphs (c) (1) and (c) (2) above refer to MM and CC rated orders. Orders rated AAA must be accepted and filled regardless of the rating ceiling.

(d) *Information required on rated orders for cotton textiles.* (1) Each person applying or extending a preference rating for any cotton textile shall add to his rating certificate a statement as to the source of the rating substantially as follows:

This rating has been assigned on Form CPA ------, Serial Number ---- (insert the CPA Form Number and Serial Number; or if the rating was not assigned on a CPA Form, state the source of the rating by specifying the military contract number).

(2) The above requirement does not apply to the United States Army, Navy, or Maritime Commission on their direct purchase orders.

(e) *Restriction on serving ratings on another producer*—(1) *Cotton yarn.* No producer of cotton yarn shall use any preference rating to obtain cotton yarn from another producer, except to the extent authorized by the Civilian Production Administration, upon his showing in writing that his own production is insufficient or unsuitable.

(2) *Cotton fabric.* No producer of cotton fabric shall use any preference rating to obtain cotton fabric from another producer, except to the extent authorized by the Civilian Production Administration, upon his showing in writing that his own production is insufficient or unsuitable.

(f) *Integrated operations.* Requisitions for intra-company deliveries of fabrics from the producing mill shall be treated as if they were purchase orders, for the purposes of this order.

(g) *Applicability of regulations.* Except as otherwise provided in this order or any direction under it, this order and such direction and all transactions affected thereby are subject to all applicable regulations of the Civilian Production Administration.

(h) *Appeals.* (1) Any appeal from the provisions of this order or of any direction to it shall be made by filing a letter in triplicate, referring to the particular provision appealed from, and stating fully the grounds of the appeal.

(2) No direction or order relating to textile, clothing or related products (whether or not it refers to Order M–328) shall be deemed to require the furnishing of materials or facilities to the Civilian Production Administration. If a direction or order requires the furnishing of materials or facilities to a contracting agency or to its contractors, or the production of a specified amount of a material or product, or restricts all or part of a person's production or inventory to specified purposes, and if the person affected cannot get firm orders to cover the materials, facilities, production or inventory involved, he may appeal, and the Civilian Production Administration will grant appropriate relief.

(i) *Reports.* Producers of cotton textiles and rayon fabrics shall file reports on Forms CPA–658A, 658B, 658C, and 658E, in accordance with the instructions on those forms. Producers of woven fabrics made on woolen and worsted looms, felt and hat bodies, shall file reports on Form CPA–1420, in accordance with the instructions on that form. These reporting requirements have been approved by the Bureau of the Budget under the Federal Reports Act of 1942.

(j) *Records.* Each person participating in any transaction to which this order applies shall keep and preserve for at least two years accurate and complete records of the details of each such transaction and his inventories of the material involved, in accordance with § 944.15 of Priorities Regulation 1.

(k) *Violations and false statements.* Any person who wilfully violates any provision of this order, or any direction under it, or who in connection with this order, or any such direction, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance.

(l) *Communications.* All reports to be filed hereunder and communications concerning this order or any direction under it shall, unless otherwise directed, be addressed to the Civilian Production Administration, Textile Division, Washington 25, D. C., Ref. M–328.

Issued this 14th day of January 1947.

CIVILIAN PRODUCTION ADMINISTRATION,
By J. JOSEPH WHELAN,
Recording Secretary.

RATING CEILING TABLE

Item numbers—Cotton fabrics	*Ceiling percentage for MM and CC ratings*
Fine cotton goods:	
1, 2, 7, 11–29, 32, 35, 37–39, 42, 47–51 on Form CPA–658C; and 43, 45, 157–159 on Form CPA–658B	5

[1] Rayon twills and serges, 88 to 140 sley, inclusive, are listed above as Item No. 62 if made entirely of rayon, and as Item No. 93B if made with rayon warp and cotton filling.

LIST OF DIRECTIONS TO ORDER M–328 AS OF JANUARY 14, 1947

All published directions to Order M–328, issued before January 14, 1947, have been revoked, except those listed below.

Direction 31. Cotton and rayon fabrics for processing in Puerto Rico, first and second calendar quarters, 1946.

Direction 32. Cotton and rayon fabrics for processing in Puerto Rico.

[F. R. Doc. 47–441; Filed, Jan. 14, 1947; 11:24 a. m.]

PART 3290—TEXTILE, CLOTHING, AND LEATHER

[Conservation Order M-328, Revocation of Direction 27]

SEQUENCE OF FILLING RATED EXPORT ORDERS

Direction 27 to Order M-328 is revoked. This revocation does not affect any liabilities incurred for violation of the direction or of actions taken by the War Production Board or Civilian Production Administration under the direction.

Issued this 14th day of January 1947.

CIVILIAN PRODUCTION ADMINISTRATION,
By J. JOSEPH WHELAN,
Recording Secretary.

Chapter XI—Office of Temporary Controls, Office of Price Administration

PART 1300—PROCEDURE

[2d Rev. Procedural Reg. 4,[1] Amdt. 1]

PROCEDURE FOR ISSUANCE OF RATIONING AND PRIORITIES SUSPENSION ORDERS AND DETERMINATIONS OF VIOLATIONS

Second Revised Procedural Regulation 4 is amended in the following respects:

1. The statement of authority is amended by substituting a semicolon for the period at the end thereof and adding the following: "56 Stat. 23, as amended; 56 Stat. 767, as amended; E. O. 9250, 7 F. R. 7871; E. O. 9328, 8 F. R. 4681; E. O. 9809, 11 F. R. 14281; O. E. S. Dir. No. 41, as amended, 10 F. R. 10031."

2. The text of § 1200.151 (a) is amended to read as follows:

§ 1300.151 *Scope of regulation.* (a) This regulation governs suspension proceedings and determination proceedings of the Office of Price Administration. A suspension proceeding is a proceeding instituted to determine whether a rationing suspension order or a priorities suspension order should be issued. A determination proceeding is a proceeding instituted to ascertain whether there has been a violation of a rationing regulation or order, or of a meat or livestock price regulation or order.

3. The text of § 1300.153 (c) is amended to read as follows:

(c) A copy of Second Revised Procedural Regulation 4 and any amendments thereof shall be attached to the notice of hearing served upon any respondent.

4. The text of § 1300.166 (a) is amended to read as follows:

§ 1300.166 *Suspension order or determination of Hearing Commissioner.* (a) If the Hearing Commissioner finds in a rationing suspension proceeding that a respondent has violated a rationing regulation or order, he may issue a rationing suspension order. If the Hearing Commissioner finds in a priorities suspension proceeding that a respondent has violated any regulation, order or directive implementing or in furtherance of the Veterans' Emergency Housing program, the enforcement of which has been delegated to the Office of Price Administration, he may issue a priorities suspension order. If the Hearing Commissioner finds in a determination proceeding that a respondent has violated a rationing regulation or order, or a meat or livestock price regulation or order, he may issue a determination of violation.

5. Section 1300.184 is amended by adding the following paragraph (h):

(h) "Meat or livestock price regulation or order" means any regulation or order of the Office of Price Administration issued pursuant to the Emergency Price Control Act of 1942, as amended, pertaining to the purchase and/or slaughter of livestock.

[1] 11 F. R. 14014.

This amendment shall become effective January 14, 1947.

Issued this 14th day of January 1947.

PHILIP B. FLEMING,
Temporary Controls Administrator.

[F. R. Doc. 47-453; Filed, Jan. 14, 1947; 11:38 a. m.]

PART 1300—PROCEDURE

[Procedural Reg. 17,[1] Amdt. 1]

PROCEDURES FOR STATUTORY DECONTROL

Procedural Regulation 17 is amended in the following respects:

1. Section 1300.751 (a) is amended by deleting therefrom all that part of said section beginning with the second sentence thereof.

2. Section 1300.751 (d) is amended to read as follows:

(d) Communications with respect to decontrol may be addressed to the Secretary, Office of Price Administration, Office of Temporary Controls, Washington 25, D. C.

3. The first sentence of the second undesignated paragraph of Article II is amended to read as follows: "This article has general and special provisions relating to all petitions filed under subsection (d) of section 1A of the Emergency Price Control Act of 1942, as amended."

4. The third undesignated paragraph of Article II is deleted.

5. Section 1300.752 (h) is amended by changing the first sentence thereof to read as follows: "Each petition must contain a statement that in the judgment of the committee either (1) the supply of the commodity exceeds or is in approximate balance with the demand therefor (including appropriate inventory requirements), or (2) the commodity is not important in relation to business costs or living costs."

6. Section 1300.754 is amended to read as follows:

§ 1300.754 *Filing petitions.* Each petition must be filed in an original and 4 copies with the Secretary, Office of Price Administration, Office of Temporary Controls, Washington 25, D. C.

7. Section 1300.755 is amended to read as follows:

§ 1300.755 *Form and contents of petitions based on non-importance of commodity.* Any petition requesting decontrol on the basis of the non-importance of the commodity must contain analyses and written evidence directed to a showing that the commodity is not important in relation to either business costs or living costs.

8. Section 1300.756 is amended by changing the first sentence thereof to read as follows: "Any petition requesting decontrol of a commodity on the basis that the supply thereof exceeds or is in approximate balance with the demand therefor (including appropriate inventory requirements) must contain analyses and written evidence directed to a showing that supply of the commodity equals or exceeds requirements for the current marketing season."

[1] 11 F. R. 9345.

9. In the first sentence of § 1300.757 the word "Price" is deleted.

10. Section 1300.760 (d) is amended to read as follows:

(d) The request must be filed in an original and 4 copies with the Secretary, Office of Price Administration, Office of Temporary Controls, Washington 25, D. C.

11. Section 1300.762 is amended to read as follows:

§ 1300.762 *Evidence on behalf of the Consumers Advisory Committee and the Labor Advisory Committee.* The Consumers Advisory Committee and the Labor Advisory Committee may present written evidence relating to the petition. Such written evidence must be in original and 4 copies in the form provided in § 1300.752 of this regulation (for written evidence accompanying the petition) and must be filed with the Secretary, Office of Price Administration, Office of Temporary Controls, not less than 5 days prior to the date of the hearing.

12. Section 1300.763 is amended by changing the last paragraph thereof to read as follows: "Briefs or written arguments may be filed at the time of the hearing in substitution for or in addition to oral arguments, filed in original and 4 copies with the Secretary, Office of Price Administration, Office of Temporary Controls, Washington 25, D. C."

13. In the last sentence of § 1300.766 the words "Secretary, Office of Price Administration, Office of Temporary Controls, Washington 25, D. C." are substituted for the words "Decontrol Division."

14. In the second sentence of § 1300.767, the words "Office of the Secretary, Office of Price Administration, Office of Temporary Controls, Washington 25, D. C." are substituted for the words "Decontrol Division."

15. Section 1300.769 is deleted.

16. In the first sentence of § 1300.770 the words "Secretary, Office of Price Administration, Office of Temporary Controls, Washington 25, D. C." are substituted for the words "Decontrol Division."

17. In the 5th sentence of § 1300.772 the words "Secretary, Office of Price Administration, Office of Temporary Controls, Washington 25, D. C." are substituted for the words "Decontrol Division."

This amendment shall become effective January 14, 1947.

NOTE: All reporting provisions of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 14th day of January 1947.

PHILIP B. FLEMING,
Temporary Controls Administrator.

[F. R. Doc. 47-454; Filed, Jan. 14, 1947; 11:39 a. m.]

PART 1388—DEFENSE-RENTAL AREAS

[Housing,[1] Amdt. 109 (§ 1388.1181)]

HOUSING

The rent regulation for housing is amended in the following respects:

1. Section 1 (b) (3) is amended to read as follows:

(3) *Rooms in hotels, rooming houses and motor courts.* All accommodations in transient hotels, and all rooms in residential hotels, rooming houses and motor courts, or housing accommodations which have been, with the consent of the Administrator, brought under the control of the rent regulation for transient hotels, residential hotels, rooming houses and motor courts pursuant to the provisions of that regulation.

2. Section 1 (b) (7) is amended to read as follows:

(7) *Structures in which individual rooms are exempt.* Entire structures or premises in which all of the individual housing accommodations rented or offered for rent are exempt under section 1 (b) (6) of this regulation or section 1 (b) (7) of the rent regulation for transient hotels, residential hotels, rooming houses and motor courts.

3. The third unnumbered paragraph of section 5 is amended by adding (a) (15) after (a) (14).

4. The unnumbered paragraphs of section 5 are amended by adding the following paragraph.

In cases under paragraph (a) (15) of this section the adjustment shall be the amount of the rent increase granted by the appropriate agency of the United States.

5. Section 5 (a) is amended by adding paragraph (15).

(15) The maximum rent was established under section 4 (f) and prior to final completion of all units included in a single priority application, but subsequent to the first renting of said accommodations, the landlord made a written request to the appropriate agency of the United States to approve a higher rent than the rent initially approved because of increased costs of construction, and a higher rent was approved by such agency.

6. Section 13 (a) (11) is amended to read as follows:

(11) "Transient hotels" means an establishment which (a) is customarily known as a hotel in the community, (b) contains more than twenty-five rooms, (c) provides services customarily supplied by transient hotels, and (d) had less than 50% of its accommodations occupied by permanent guests (on monthly or weekly basis) during the quota month (under the rent regulation for transient hotels, residential hotels, rooming houses and motor courts) or, if the establishment was not in operation during the quota month, during the month of June 1946.

[1] 11 F. R. 12055, 13028, 13309, 14013.

7. Section 13 (a) (12) is amended to read as follows:

(12) "Rooming house" means, in addition to its customary usage, a building or portion of a building other than a hotel or motor court in which a furnished room or rooms not constituting an apartment are rented on a short term basis of daily, weekly or monthly occupancy to more than two paying tenants, not members of the landlord's immediate family. The term includes boarding houses, dormitories, trailers, residence clubs and all other establishments of a similar nature.

8. Section 13 (a) shall be amended by adding the following two paragraphs:

(13) "Residential hotel" means an establishment which (a) is customarily known as a hotel in the community, (b) contains more than twenty-five rooms, (c) provides services customarily supplied by residential hotels, and (d) had 50% or more of its accommodations occupied by permanent guests (on monthly or weekly basis) during the quota month (as defined in the rent regulation for transient hotels, residential hotels, rooming houses and motor courts), or if the establishment was not in operation during the quota month, during the month of June 1946.

(14) "Motor court" means an establishment renting rooms, cottages or cabins; supplying parking or storage facilities for motor vehicles in connection with such renting and other services and facilities customarily supplied by such establishments; and commonly known as a motor, auto or tourist court in the community.

This amendment shall become effective January 15, 1947.

Issued this 14th day of January 1947.

PHILIP B. FLEMING,
Temporary Controls Administrator.

Statement to Accompany Amendment 109 to the Rent Regulation for Housing; Amendment 33 to the Rent Regulation for Housing in the New York City Defense-Rental Area, Amendment 25 to the Rent Regulation for Housing in the Atlantic County Defense-Rental Area and Amendment 29 to the Rent Regulation for Housing in the Miami Defense-Rental Area

The amendment to section 1 (b) (3) is purely formal and was necessitated by amendment 97 to the hotel regulations which changed the title of that regulation to the Rent Regulation for Transient Hotels, Residental Hotels, Rooming Houses and Motor Courts and provided for the classification of establishments which are subject to the regulation.

Section 1 (b) (7) was amended to correct an error in the wording of amendment 108. This section as amended refers to "individual housing accommodations" rather than "individual rooms."

Section 5 (a) (15) is added to the Housing Regulation to provide that a landlord may obtain increases in maximum rents established under section 4 (f) (housing built with priority assistance) when prior to final completion of

all units included in a single priority application, but subsequent to the first renting of some of the accommodations, the landlord made a written request to the appropriate agency to approve higher rents because of increased costs of construction, and such agency approved higher rents.

The rent regulations provide generally that, in establishing maximum rents for newly constructed housing accommodations, due consideration shall be given to increased costs of construction since the maximum rent date or, in the case of construction initiated after November 23, 1945, since 1939. Where accommodations are constructed with priority rating the rent regulations establish the maximum rent in general at the amount approved prior to initial renting by the agency which grants priority rating. Under the regulations of that agency, now the National Housing Agency, a builder incurring increased construction costs may, prior to completion of all the units covered by a single priority application, apply for approval of a rent higher than the rent initially approved because of such increased construction costs. Section 4 (f) of the housing regulation provides that where the landlord prior to the initial renting of priority housing makes a written request of the appropriate agency for a higher rent than initially approved by such agency, the maximum rent is the higher rent approved.

It has come to the attention of the Administrator that, in some instances, a builder of priority housing has made a written request of the National Housing Agency for approval of a higher rent because of increased construction costs, after renting some of the units included in a single priority application but prior to the completion of all of such units. Prior to this amendment the builder in the circumstances outlined above, could not obtain a higher maximum rent for the unit which had been rented even though the National Housing Agency approved a higher rent.

The Administrator has concluded that it is appropriate to give relief in such cases where the builder has a higher rent approved because of increased construction costs, but the maximum rent had been fixed on some units at the amount for which they were first rented and which did not take such increased costs into consideration. It is to the public interest to have such units rented upon completion without the necessity of the builder waiting until construction of the project as a whole is virtually complete and he is able to ascertain his total costs with sufficient accuracy to determine whether an application for a higher rent schedule to the agency granting the priority is justified.

The unnumbered paragraphs of section 5 are amended by an additional paragraph providing that in cases under paragraph (a) (15) of section 5 the rent adjustment shall be the amount of the rent increase granted by the appropriate agency.

Section 13 (a) (11), 13 (a) (12) are amended to provide uniformity in the definitions of "transient hotel" and "rooming house" respectively, as contained in the housing and hotel regulations.

Section 13 (a) is further amended by adding paragraphs defining "residential hotel" and "motor court" respectively, as shown above in the text of the amendment.

Corresponding changes are made in the rent regulation for housing in the New York City Defense-Rental Area, the rent regulation for housing in the Atlantic County Defense-Rental Area, the rent regulation for housing in the Miami Defense-Rental Area.

In the judgment of the Price Administrator, these amendments are necessary and proper in order to effectuate the purposes of the Emergency Price Control Act.

No provisions which might have the effect of requiring a change in established rental practices have been included in the amendments unless such provisions have been found necessary to achieve effective rent control and to prevent circumvention or evasion of the rent regulations and the act. To the extent that the provisions of these amendments compel or may operate to compel changes in established rental practices, such provisions are necessary to prevent circumvention or evasion of the rent regulations and the act.

[F. R. Doc. 47-449; Filed, Jan. 14, 1947; 11:38 a. m.]

PART 1388—DEFENSE-RENTAL AREAS

[Housing, New York City Area,[1] Amdt. 33 (§ 1388.1281)]

HOUSING IN NEW YORK CITY AREA

The rent regulation for housing in the New York City Defense-Rental Area is amended in the following respects:

1. Section 1 (b) (3) is amended to read as follows:

(3) *Rooms in hotels, rooming houses and motor courts.* All accommodations in transient hotels, and all rooms in residential hotels, rooming houses and motor courts, or housing accommodations which have been, with the consent of the Administrator, brought under the control of the rent regulation for transient hotels, residential hotels, rooming houses and motor courts in the New York City Defense-Rental Area pursuant to the provisions of that regulation.

2. Section 1 (b) (7) is amended to read as follows:

(7) *Structures in which individual rooms are exempt.* Entire structures or premises in which all of the individual housing accommodations rented or offered for rent are exempt under section 1 (b) (6) of this regulation or section 1 (b) (7) of the rent regulation for transient hotels, residential hotels, rooming houses and motor courts in the New York City Defense-Rental Area.

3. The third unnumbered paragraph of section 5 is amended by adding (a) (15) after (a) (14).

4. The unnumbered paragraphs of section 5 are amended by adding the following paragraph:

In cases under paragraph (a) (15) of this section the adjustment shall be the amount of the rent increase granted by the appropriate agency of the United States.

5. Section 5 (a) is amended by adding paragraph (15).

(15) The maximum rent was established under section 4 (f) and prior to final completion of all units included in a single priority application, but subsequent to the first renting of said accommodations, the landlord made a written request to the appropriate agency of the United States to approve a higher rent than the rent initially approved because of the increased costs of construction, and a higher rent was approved by such agency.

6. Section 13 (a) (11) is amended to read as follows:

(11) "Transient hotels" means an establishment which (a) is customarily known as a hotel in the community, (b) contains more than twenty-five rooms, (c) provides services customarily supplied by transient hotels, and (d) had less than 50% of its accommodations occupied by permanent guests (on monthly or weekly basis) during the quota month (under the rent regulation for transient hotels, residential hotels, rooming houses and motor courts in the New York City Defense-Rental Area) or, if the establishment was not in operation during the quota month, during the month of June 1946.

7. Section 13 (a) (12) is amended to read as follows:

(12) "Rooming house" means, in addition to its customary usage, a building or portion of a building other than a hotel or motor court in which a furnished room or rooms not constituting an apartment are rented on a short term basis of daily, weekly or monthly occupancy to more than two paying tenants, not members of the landlord's immediate family. The term includes boarding houses, dormitories, trailers, residence clubs and all other establishments of a similar nature.

8. Section 13 (a) shall be amended by adding the following two paragraphs:

(13) "Residential hotel" means an establishment which (a) is customarily known as a hotel in the community, (b) contains more than twenty-five rooms, (c) provides services customarily supplied by residential hotels, and (d) had 50% or more of its accommodations occupied by permanent guests (on monthly or weekly basis) during the quota month (as defined in the rent regulation for transient hotels, residential hotels, rooming houses and motor courts in the New York City Defense-Rental Area), or if the establishment was not in operation during the quota month, during the month of June 1946.

(14) "Motor court" means an establishment renting rooms, cottages or cabins; supplying parking or storage facilities for motor vehicles in connection with such renting and other services and facilities customarily supplied by such establishments; and commonly known as a motor, auto or tourist court in the community.

This amendment shall become effective January 15, 1947.

Issued this 14th day of January 1947.

PHILIP B. FLEMING,
Temporary Controls Administrator.

Statement Accompanying Amendment 109 to the Rent Regulation for Housing, Amendment 33 to the Rent Regulation for Housing in the New York City Defense-Rental Area, Amendment 25 to the Rent Regulation for Housing in the Atlantic County Defense-Rental Area and Amendment 29 to the Rent Regulation for Housing in the Miami Defense-Rental Area

The amendment to section 1 (b) (3) is purely formal and was necessitated by amendment 97 to the hotel regulations which changed the title of that regulation to the Rent Regulation for Transient Hotels, Residential Hotels, Rooming Houses and Motor Courts and provided for the classification of establishments which are subject to the regulation.

Section 1 (b) (7) was amended to correct an error in the wording of amendment 108. This section as amended refers to "individual housing accommodations" rather than "individual rooms".

Section 5 (a) (15) is added to the housing regulation to provide that a landlord may obtain increases in maximum rents established under section 4 (f) (housing built with priority assistance) when prior to final completion of all units included in a single priority application, but subsequent to the first renting of some of the accommodations, the landlord made a written request to the appropriate agency to approve higher rents because of increased costs of construction, and such agency approved higher rents.

The rent regulations provide generally that, in establishing maximum rents for newly constructed housing accommodations, due consideration shall be given to increased costs of construction since the maximum rent date or, in the case of construction initiated after November 23, 1945, since 1939. Where accommodations are constructed with priority rating the rent regulations establish the maximum rent in general at the amount approved prior to initial renting by the agency which grants priority rating. Under the regulations of that agency, now the National Housing Agency, a builder incurring increased construction costs may, prior to completion of all the units covered by a single priority application, apply for approval of a rent higher than the rent initially approved because of such increased construction costs. Section 4 (f) of the housing regulation provides that where the landlord prior to the initial renting of priority housing makes a written request of the appropriate agency for a higher rent than initially approved by such agency, the maximum rent is the higher rent approved.

[F. R. Doc. 47-450; Filed, Jan. 14, 1947; 11:38 a. m.]

It has come to the attention of the Administrator that, in some instances, a builder of priority housing has made a written request of the National Housing Agency for approval of a higher rent because of increased construction costs, after renting some of the units included in a single priority application but prior to the completion of all of such units. Prior to this amendment the builder in the circumstances outlined above, could not obtain a higher maximum rent for the unit which had been rented even though the National Housing Agency approved a higher rent.

The Administrator has concluded that it is appropriate to give relief in such cases where the builder has a higher rent approved because of increased construction costs, but the maximum rent had been fixed on some units at the amount for which they were first rented and which did not take such increased costs into consideration. It is to the public interest to have such units rented upon completion without the necessity of the builder waiting until construction of the project as a whole is virtually complete and he is able to ascertain his total costs with sufficient accuracy to determine whether an application for a higher rent schedule to the agency granting the priority is justified.

The unnumbered paragraphs of section 5 are amended by an additional paragraph providing that in cases under paragraph (a) (15) of section 5 the rent adjustment shall be the amount of the rent increase granted by the appropriate agency.

Section 13 (a) (11), 13 (a) (12) are amended to provide uniformity in the definitions of "transient hotel" and "rooming house" respectively, as contained in the housing and hotel regulations.

Section 13 (a) is further amended by adding paragraphs defining "residential hotel" and "motor court" respectively, as shown above in the text of the amendment.

Corresponding changes are made in the rent regulation for housing in the New York City Defense-Rental Area, the rent regulation for housing in the Atlantic County Defense-Rental Area, the rent regulation for housing in the Miami Defense-Rental Area.

In the judgment of the Price Administrator, these amendments are necessary and proper in order to effectuate the purposes of the Emergency Price Control Act.

No provisions which might have the effect of requiring a change in established rental practices have been included in the amendments unless such provisions have been found necessary to achieve effective rent control and to prevent circumvention or evasion of the rent regulations and the act. To the extent that the provisions of these amendments compel or may operate to compel changes in established rental practices, such provisions are necessary to prevent circumvention or evasion of the rent regulations and the act.

PART 1388—DEFENSE-RENTAL AREAS

[Housing, Atlantic County Area,[1] Amdt. 25 (§ 1388.1411)]

HOUSING IN ATLANTIC COUNTY

The rent regulation for housing in the Atlantic County Defense-Rental Area is amended in the following respects:

1. Section 1 (b) (3) is amended to read as follows:

(3) *Rooms in hotels, rooming houses and motor courts.* All accommodations in transient hotels, and all rooms in residential hotels, rooming houses and motor courts, or housing accommodations which have been, with the consent of the Administrator, brought under the control of the rent regulation for transient hotels, residential hotels, rooming houses and motor courts pursuant to the provisions of that regulation.

2. Section 1 (b) (8) is amended to read as follows:

(8) *Structures in which individual rooms are exempt.* Entire structures or premises in which all of the individual housing accommodations rented or offered for rent are exempt under section 1 (b) (6) of this regulation or section 1 (b) (7) of the rent regulation for transient hotels, residential hotels, rooming houses and motor courts.

3. The third unnumbered paragraph of section 5 is amended by adding (a) (15) after (a) (14).

4. The unnumbered paragraphs of section 5 are amended by adding the following paragraph.

In cases under paragraph (a) (15) of this section the adjustment shall be the amount of the rent increase granted by the appropriate agency of the United States.

5. Section 5 (a) is amended by adding paragraph (15).

(15) The maximum rent was established under section 4 (f) and prior to final completion of all units included in a single priority application, but subsequent to the first renting of said accommodations, the landlord made a written request to the appropriate agency of the United States to approve a higher rent than the rent initially approved because of increased costs of construction, and a higher rent was approved by such agency.

6. Section 13 (a) (11) is amended to read as follows:

(11) "Transient hotel" means an establishment which (a) is customarily known as a hotel in the community, (b) contains more than twenty-five rooms, (c) provides services customarily supplied by transient hotels, and (d) had less than 50% of its accommodations occupied by permanent guests (on monthly or weekly basis) during the quota month (under the rent regulation for transient hotels, residential hotels, rooming houses and motor courts) or, if the establishment was not in operation during the quota month, during the month of June 1946.

[1] 11 F. R. 12084.

7. Section 13 (a) (12) is amended to read as follows:

(12) "Rooming house" means, in addition to its customary usage, a building or portion of a building other than a hotel or motor court in which a furnished room or rooms not constituting an apartment are rented on a short term basis of daily, weekly or monthly occupancy to more than two paying tenants, not members of the landlord's immediate family. The term includes boarding houses, dormitories, trailers, residence clubs and all other establishments of a similar nature.

8. Section 13 (a) shall be amended by adding the following two paragraphs:

(13) "Residential hotel" means an establishment which (a) is customarily known as a hotel in the community, (b) contains more than twenty-five rooms, (c) provides services customarily supplied by residential hotels, and (d) had 50% or more of its accommodations occupied by permanent guests (on monthly or weekly basis) during the quota month (as defined in the rent regulation for transient hotels, residential hotels, rooming houses and motor courts), or if the establishment was not in operation during the quota month, during the month of June 1946.

(14) "Motor court" means an establishment renting rooms, cottages or cabins; supplying parking or storage facilities for motor vehicles in connection with such renting and other services and facilities customarily supplied by such establishments; and commonly known as a motor, auto or tourist court in the community.

This amendment shall become effective January 15, 1947.

Issued this 14th day of January 1947.

PHILIP B. FLEMING,
Temporary Controls Administrator.

Statement Accompanying Amendment 109 to the Rent Regulation for Housing, Amendment 33 to the Rent Regulations for Housing in the New York City Defense-Rental Area, Amendment 25 to the Rent Regulation for Housing in the Atlantic County Defense-Rental Area and Amendment 29 to the Rent Regulation for Housing in the Miami Defense-Rental Area

The amendment to section 1 (b) (3) is purely formal and was necessitated by amendment 97 to the hotel regulations which changed the title of that regulation to the Rent Regulation for Transient Hotels, Residential Hotels, Rooming Houses and Motor Courts and provided for the classification of establishments which are subject to the regulation.

Section 1 (b) (7) was amended to correct an error in the wording of amendment 108. This section as amended refers to "individual housing accommodations" rather than "individual rooms".

Section 5 (a) (15) is added to the housing regulation to provide that landlord may obtain increases in maximum rents established under section 4 (f) (housing built with priority assistance (when prior to final completion of all units included in a single priority application, but subsequent to the first renting of some of the accommodations, the landlord made a written request to the appropriate agency to approve higher rents because of increased costs of construction, and such agency approved higher rents.

The rent regulations provide generally that, in establishing maximum rents for newly constructed housing accommodations, due consideration shall be given to increased costs of construction since the maximum rent date or, in the case of construction initiated after November 23, 1945, since 1939. Where accommodations are constructed with priority rating the rent regulations establish the maximum rent in general at the amount approved prior to initial renting by the agency which grants priority rating. Under the regulations of that agency, now the National Housing Agency, a builder incurring increased construction costs may, prior to completion of all the units covered by a single priority application, apply for approval of a rent higher than the rent initially approved because of such increased construction costs. Section 4 (f) of the housing regulation provides that where the landlord prior to the initial renting of priority housing makes a written request of the appropriate agency for a higher rent than initially approved by such agency, the maximum rent is the higher rent approved.

It has come to the attention of the Administrator that, in some instances, a builder of priority housing has made a written request of the National Housing Agency for approval of a higher rent because of increased construction costs, after renting some of the units included in a single priority application but prior to the completion of all of such units. Prior to this amendment the builder in the circumstances outlined above, could not obtain a higher maximum rent for the unit which had been rented even though the National Housing Agency approved a higher rent.

The Administrator has concluded that it is appropriate to give relief in such cases where the builder has a higher rent approved because of increased construction costs, but the maximum rent had been fixed on some units at the amount for which they were first rented and which did not take such increased costs into consideration. It is to the public interest to have such units rented upon completion without the necessity of the builder waiting until construction of the project as a whole is virtually complete and he is able to ascertain his total costs with sufficient accuracy to determine whether an application for a higher rent schedule to the agency granting the priority is justified.

The unnumbered paragraphs of section 5 are amended by an additional paragraph providing that in cases under paragraph (a) (15) of section 5 the rent adjustment shall be the amount of the rent increase granted by the appropriate agency.

Section 13 (a) (11), 13 (a) (12) are amended to provide uniformity in the definitions of "transient hotel" and "rooming house" respectively, as contained in the housing and hotel regulations.

Section 13 (a) is further amended by adding paragraphs defining "residential hotel" and "motor court" respectively, as shown above in the text of the amendment.

PART 1388—DEFENSE-RENTAL AREAS

[Housing, Miami Area,[1] Amdt. 29 (§ 1388.1341)]

HOUSING IN MIAMI AREA

The rent regulation for housing in the Miami Defense-Rental Area is amended in the following respects:

1. Section 1 (b) (3) is amended to read as follows:

(3) *Rooms in hotels, rooming houses and motor courts.* All accommodations in transient hotels, and all rooms in residential hotels, rooming houses and motor courts.

2. Section 1 (b) (7) is amended to read as follows:

(7) *Structures in which individual rooms are exempt.* Entire structures or premises in which all of the individual housing accommodations rented or offered for rent are exempt under section 1 (b) (6) of this regulation or section 1 (b) (7) of the rent regulation for transient hotels, residential hotels, rooming houses and motor courts in the Miami Defense-Rental Area.

3. The unnumbered paragraphs of section 5 are amended by adding the following:

In cases under paragraph (a) (14) of this section the adjustment shall be the amount of the rent increase granted by the appropriate agency of the United States.

4. Section 5 (a) is amended by adding paragraph (14).

[1] 11 F. R. 12984.

(14) The maximum rent was established under section 4 (c) and prior to final completion of all units included in a single priority application, but subsequent to the first renting of said accommodations, the landlord made a written request to the appropriate agency of the United States to approve a higher rent than the rent initially approved because of increased costs of construction, and a higher rent was approved by such agency.

5. Section 13 (a) (11) is amended to read as follows:

(11) "Transient hotels" means an establishment which (a) is customarily known as a hotel in the community, (b) contains more than twenty-five rooms, (c) provides services customarily supplied by transient hotels, and (d) had less than 50% of its accommodations occupied by permanent guests (on monthly or weekly basis) during the quota month (under the rent regulation for transient hotels, residential hotels, rooming houses and motor courts in the Miami Defense-Rental Area) or, if the establishment was not in operation during the quota month, during the month of June 1946.

6. Section 13 (a) (12) is amended to read as follows:

(12) "Rooming house" means, in addition to its customary usage, a building or portion of a building other than a hotel or motor court in which a furnished room or rooms not constituting an apartment are rented on a short term basis of daily, weekly or monthly occupancy to more than two paying tenants, not members of the landlord's immediate family. The term includes boarding houses, dormitories, trailers, residence clubs and all other establishments of a similar nature.

7. Section 13 (a) shall be amended by adding the following two paragraphs:

(13) "Residential hotel" means an establishment which (a) is customarily known as a hotel in the community, (b) contains more than twenty-five rooms, (c) provides services customarily supplied by residential hotels, and (d) had 50% or more of its accommodations occupied by permanent guests (on monthly or weekly basis) during the quota month (as defined in the rent regulation for transient hotels, residential hotels, rooming houses and motor courts in the Miami Defense-Rental Area), or if the establishment was not in operation during the quota month, during the month of June 1946.

(14) "Motor court" means an establishment renting rooms, cottages or cabins; supplying parking or storage facilities for motor vehicles in connection with such renting and other services and facilities customarily supplied by such establishments; and commonly known as a motor, auto or tourist court in the community.

This amendment shall become effective January 15, 1947.

Issued this 14th day of January 1947.

PHILIP B. FLEMING,
Temporary Controls Administrator.

Statement Accompanying Amendment 109 to the Rent Regulation for Housing, Amendment 33 to the Rent Regulation for Housing in the New York City Defense-Rental Area, Amendment 25 to the Rent Regulation for Housing in the Atlantic County Defense-Rental Area and Amendment 29 to the Rent Regulation for Housing in the Miami Defense-Rental Area

The amendment to section 1 (b) (3) is purely formal and was necessitated by amendment 97 to the hotel regulations which changed the title of that regulation to the Rent Regulation for Transient Hotels, Residential Hotels, Rooming Houses and Motor Courts and provided for the classification of establishments which are subject to the regulation.

Section 1 (b) (7) was amended to correct an error in the wording of amendment 108. This section as amended refers to "individual housing accommodations" rather than "individual rooms".

Section 5 (a) (15) is added to the housing regulation to provide that a landlord may obtain increases in maximum rents established under section 4 (f) (housing built with priority assistance) when prior to final completion of all units included in a single priority application, but subsequent to the first renting of some of the accommodations, the landlord made a written request to the appropriate agency to approve higher rents because of increased costs of construction, and such agency approved higher rents.

The rent regulations provide generally that, in establishing maximum rents for newly constructed housing accommodations, due consideration shall be given to increased costs of construction since the maximum rent date or, in the case of construction initiated after November 23, 1945, since 1939. Where accommodations are constructed with priority rating the rent regulations establish the maximum rent in general at the amount approved prior to initial renting by the agency which grants priority rating. Under the regulations of that agency, now the National Housing Agency, a builder incurring increased construction costs may, prior to completion of all the units covered by a single priority application, apply for approval of a rent higher than the rent initially approved because of such increased construction costs. Section 4 (f) of the housing regulation provides that where the landlord prior to the initial renting of a priority housing makes a written request of the appropriate agency for a higher rent than initially approved by such agency, the maximum rent is the higher rent approved.

It has come to the attention of the Administrator that, in some instances, a builder of priority housing has made a written request of the National Housing Agency for approval of a higher rent because of increased construction costs, after renting some of the units included in a single priority application but prior to the completion of all of such units. Prior to this amendment the builder in the circumstances outlined above, could not obtain a higher maximum rent for the unit which had been rented even though the National Housing Agency approved a higher rent.

The Administrator has concluded that it is appropriate to give relief in such cases where the builder has a higher rent approved because of increased construction costs, but the maximum rent had been fixed on some units at the amount for which they were first rented and which did not take such increased costs into consideration. It is to the public interest to have such units rented upon completion without the necessity of the builder waiting until construction of the project as a whole is virtually complete and he is able to ascertain his total costs with sufficient accuracy to determine whether an application for a higher rent schedule to the agency granting the priority is justified.

The unnumbered paragraphs of section 5 are amended by an additional paragraph providing that in cases under paragraph (a) (15) of section 5 the rent adjustment shall be the amount of the rent increase granted by the appropriate agency.

Section 13 (a) (11), 13 (a) (12) are amended to provide uniformity in the definitions of "transient hotel" and "rooming house" respectively, as contained in the housing and hotel regulations.

Section 13 (a) is further amended by adding paragraphs defining "residential hotel" and "motor court" respectively, as shown above in the text of the amendment.

Corresponding changes are made in the rent regulation for housing in the New York City Defense-Rental Area, the rent regulation for housing in the Atlantic County Defense-Rental Area, the rent regulation for housing in the Miami Defense-Rental Area.

In the judgment of the Price Administrator, these amendments are necessary and proper in order to effectuate the purposes of the Emergency Price Control Act.

No provisions which might have the effect of requiring a change in established rental practices have been included in the amendments unless such provisions have been found necessary to achieve effective rent control and to prevent circumvention or evasion of the rent regulations and the act. To the extent that the provisions of these amendments compel or may operate to compel changes in established rental practices, such provisions are necessary to prevent circumvention or evasion of the rent regulations and the act.

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans' Administration

[Instruction 2, Title II, Section 201, Pub Law 719, 79th Cong.]

PART 5—ADJUDICATION: DEPENDENTS CLAIMS (APPENDIX)

AWARDS OF DEATH COMPENSATION OR PENSION INVOLVING PAYMENT OF SURVIVORS' INSURANCE BY FEDERAL SECURITY AGENCY

1. *Initial awards of death compensation or pension.* Veterans' Administra-

tion Instruction No. 1, Title II, section 201, Public Law 719, 79th Congress (section 210, Social Security Act as amended) (11 F. R. 11506), provides among other things that where an award of death compensation or pension is made in favor of the same person to whom an award of benefits has been made by the Federal Security Agency pursuant to the provisions of section 210, as shown by a Form OA–C651, the award of death compensation or pension will be made to commence as of the date of approval of the award. In such cases it will be necessary that the award account card bear a notation indicating that the award is subject to the provisions of this law. Accordingly, on the reverse side of the award account card, the citation of laws under which the award is made will be followed by the notation "(P. L. 719)."

(a) The instruction further provides that in any case in which Form OA–C651 is received and an award of death compensation or pension is subsequently approved either in favor of the same person named on the Form OA–C651 or in favor of some other person, a VA Form 8–640 will be executed in triplicate. One copy will be retained in the case file. The original and one copy will be forwarded to the appropriate Social Security Area Office as notice of the approval of the award and to ascertain the amount of survivors' insurance which has been paid under section 210. Upon receipt of the VA Form 8–640, the Social Security Area Office will discontinue all payments being made under section 210, whether such payments are being made to the same person to whom an award of death compensation or pension has been made or to any other person. The form will then be endorsed to show the names of all persons to whom awards of survivors' insurance have been certified under section 210, the period covered by the award, and the total amount of survivors' insurance which has been paid to each payee. The duplicate of the form will be returned to the Veterans' Administration.

(b) Upon receipt of the completed VA Form 8–640 in the Veterans' Administration, if it is shown that no award of benefits under section 210 has been made to the person to whom death compensation or pension has been awarded, the form will be filed without further action. If it is shown that benefits under section 210 have been paid to the same person to whom death compensation or pension has been awarded, or if an award of compensation or pension is subsequently made to a person who has received benefits under section 210, the procedure outlined in the following paragraphs will be observed in adjusting the award or in determining the amount of death compensation or pension which is payable.

2. *Definitions.* (a) The term "accrued" compensation or pension appearing in this instruction means the amount of death compensation or pension covering the period beginning with the appropriate commencing date of the award (e. g., the day following the date of the veteran's death or the date of filing claim) and ending with the day prior to the date of approval of the initial award.

(b) The term "offset" appearing in this instruction will consist of payments made by the Federal Security Agency under section 210 either in a lump sum or in monthly installments covering any period on or after the first of any month for which death compensation or pension would be payable under the applicable law, but in no event will the "offset" exceed the "accrued" compensation or pension as defined in subparagraph (a) of this paragraph.

3. *Computation of offset on award.* A determination of the amount to be offset against the payment of death compensation or pension accrued to the date of approval of the initial award will be made by the adjudicating agency. This determination will be made as set forth in the following examples:

(a) *Award commencing day after veteran's death.* If the amount of $600 death compensation or pension has accrued for periods prior to the date of approval of the initial award and the certification on the VA Form 8–640 shows that a total of $500 has been paid under section 210, the offset will be $500. This amount will constitute the offset even though the certification shows that the award under section 210 covers a period subsequent to the date of approval of the initial award of death compensation or pension: e. g., through the end of the month in which such award was approved. If the certification shows that the payments made under section 210 total $625, the offset will be $600, which is the amount of compensation or pension accrued prior to date of approval of the initial award. (In the latter instance, the provisions of paragraph 5 will apply, and amended award action will not be in order if the award of death compensation or pension has been made to commence effective the date of approval of the award.)

(b) *Award commencing later than day after veteran's death.* If the initial award of death compensation or pension was approved on November 17 and the award is effective June 3, only those payments which have been made under section 210 for periods on and after June 1 will be offset. If $300 is payable as death compensation or pension accrued for the period between June 3 and November 16, inclusive, and $450 has been paid under section 210 at the monthly rate of $25, ending with the November check, the offset will be $150.

4. *Amendment of awards.* If it is determined that there is any additional amount of death compensation or pension payable (see paragraph 3), the award will be made to commence effective the date provided by the applicable law. The following statement will be entered under "Remarks" on the award brief face:

Subject to prior payment of $____ survivors' insurance under Title II, Public No. 719, 79th Congress.

Notice of the action taken will be forwarded to the payee and other persons in interest. The letter to the payee will include a statement that adjustment of the award is subject to payments in the amount of $____ which the payee has received from Federal Security Agency under the provisions of section 210 of the Social Security Act as amended.

5. *Offset equals Veterans' Administration adjustment.* If it is determined that the survivors' insurance paid under section 210 equals or exceeds the amount of death compensation or pension accrued prior to the date of approval of the initial award, and the offset therefor equals the accrued, VA Form 8–640 will be filed without action, and notice will be forwarded to the claimant and other persons in interest that information has been received from Federal Security Agency indicating that the claimant has received survivors' insurance pursuant to the provisions of section 210 of the Social Security Act as amended in an amount which equals (or exceeds) the amount of death compensation or pension payable by the Veterans' Administration for periods prior to _____, the commencing date of the initial award, and that under these circumstances, compension or pension is not payable for any period prior to that date.

6. *Survivors' insurance paid to widow for use of children.* Where survivors' insurance is payable to a widow and minor children of a deceased person, these amounts are paid separately. The award on behalf of a minor child is customarily made to the widow "for the use of" the child. When a VA Form 8–640 is dispatched notifying Federal Security Agency that an award of death compensation or pension has been made in favor of a widow, the certification by the Social Security Area Office on the lower half of the form will include a report of amounts paid to the widow "for the use of" a minor child or children of the veteran.

(a) *Award of death compensation or pension to widow.* Where the VA Form 8–640 shows that benefits have been paid under section 210 "for the use of" a child or children who are in the custody of the widow such amounts will be included in computing the total amount to be offset against the award of death compensation or pension to the widow.

(b) *Award of death compensation or pension to or for a child.* Where the award of death compensation or pension is made to or for a child, only those amounts paid under section 210 to any person "for the use of" that child will be included in the amount to be offset against the death compensation or pension award.

7. *Award made by Veterans Administration prior to receipt of Form OA–C651.* Under certain circumstances an award of death compensation or pension may have been approved prior to receipt of notice that an award of benefits has been certified by Federal Security Agency under section 210 to the same person. In such cases, when the Form OA–C651 is received showing that benefits have been certified for payment to the same person to whom death compensation or pension is being paid, action will be taken to authorize suspension of payments of death compensation or pension. This action will be taken without regard to the fact that the initial award may have been approved prior to the enactment of this act. The claimant will be notified of the suspension and the reason. VA Form 8–640 will be executed and dispatched as provided in paragraph 8, Veterans Administration Instruction No. 1 (11 F. R. 11506), and paragraph 1 of this instruction under this law. Upon receipt of the necessary information from the Social Security Area Office certifying the amount of benefits paid under section 210, an amended award of death compensation or pension will be made. The amended award will be governed by the procedure set forth in paragraph 4 of this instruction. In computing the amount to be offset, as outlined in paragraph 3 of this instruction, the date of approval of the initial award will determine the maximum amount which may be offset against the payment of death compensation or pension.

(Public Law 719, 79th Cong.)

[SEAL] OMAR N. BRADLEY,
General, U. S. Army,
Administrator of Veterans Affairs.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR, Parts 725, 726]

BURLEY, FLUE-CURED, FIRE-CURED, AND DARK AIR-CURED TOBACCO

NOTICE OF FORMULATION OF REGULATIONS RELATING TO MARKETING OF TOBACCO, COLLECTION OF MARKETING PENALTIES, AND RECORDS AND REPORTS, 1947–48

Pursuant to the authority contained in the applicable provisions of the Agricultural Adjustment Act of 1938, as amended (7 U. S. C. 1311–1314; 1372–1375), the Secretary of Agriculture is preparing to formulate marketing quota regulations governing the issuance of marketing cards, the identification of tobacco, the collection and refund of penalties, and the reports and records incident thereto, on the marketing of Burley, flue-cured, fire-cured and dark air-cured tobacco for the 1947–48 marketing year. Prior to the final adoption and issuance of such regulations, consideration will be given to any data, views, and recommendations pertaining thereto which are submitted in writing to the Director, Tobacco Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C. All submissions must be postmarked not later than 30 days from the date of publication of this notice in the FEDERAL REGISTER.

Issued at Washington, D. C. this 10th day of January 1947.

[SEAL] JESSE B. GILMER,
Acting Administrator.

[7 CFR, Part 930]

MILK IN TOLEDO, OHIO, MARKETING AREA

NOTICE OF REPORT AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED AMENDMENTS TO ORDER AND TO PROPOSED MARKETING AGREEMENT

Pursuant to the rules of practice and procedure, as amended, covering proceedings to formulate marketing agreements and marketing orders (7 CFR, Cum. Supp., 900.1 et seq.; 10 F. R. 11791; 11 F. R. 7737), notice is hereby given of the filing with the Hearing Clerk of this report of the Assistant Administrator, Production and Marketing Administration, United States Department of Agriculture, with respect to proposed amendments to the order, as amended, and a proposed marketing agreement, regulating the handling of milk in the Toledo, Ohio, marketing area, to be made effective pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended.

Interested parties may file exceptions to this report with the Hearing Clerk, Office of the Solicitor, Room 0308, South Building, United States Department of Agriculture, Washington 25, D. C., not later than the close of business on the 15th day after the publication of this report in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

The public hearing, on the record of which the proposed amendments to the order, as amended, and the proposed marketing agreement were formulated, was called by the Production and Marketing Administration, United States Department of Agriculture, following receipt of a petition filed by the Northwestern Cooperative Sales Association, Inc., Toledo, Ohio.

The principal issues developed at the hearing were concerned with the following: (1) The revision of the definitions of "producer" and "handler" and the addition of definitions for "cooperative association," "fluid milk plant," "other source milk," and "proration milk"; (2) the classification and pricing of skim milk and butterfat separately; (3) the reclassification of buttermilk; (4) the reduction of plant shrinkage allowance in Class III milk; (5) the revision of interhandler and nonhandler transfer provisions; (6) the revision of the method of allocating milk classified to the various sources of receipts; (7) the revision of the level of class prices and the revision of alternate basic formula prices upon which class prices are determined; (8) the revision of the producer butterfat differential; and (9) the revision of the application of the assessment for administrative expenses.

The conclusions reached with respect to these issues, together with some of the supporting reasons for such conclusions, are set forth below:

(1) The term "producer" should be revised to include a specification that producer milk shall be reproduced in conformity with the applicable health regulations in that portion of the marketing area for which such milk is produced, and to include as a producer any person who produces milk, under the above conditions, which is diverted by a handler or a cooperative association to a plant from which no Class I milk is disposed of in the marketing area.

The term "handler" should be revised also for purposes of clarification.

The terms "cooperative association," "other source milk," "Department of Agriculture," "producer-handler," "producer milk," "fluid milk plant," and "nonhandler" should be included for the sake of clarity and a better correlation of provisions of the order;

(2) The classification of milk should be revised to provide for the accounting and pricing of skim milk and butterfat separately in order to establish a basis for more specific accounting and pricing of producer milk;

(3) Plain buttermilk and creamed buttermilk should be classified as Class I milk;

(4) Actual plant shrinkage of producer milk up to two percent of the skim milk and butterfat therein should be classified as Class III milk and any excess of shrinkage should be Class I milk. Actual plant shrinkage of other source milk should be classified as Class III milk;

(5) The interhandler and nonhandler transfer provision should be revised to include more specific language relating to certain types of transactions and to make it unnecessary for the market administrator to follow milk, skim milk, or cream more than 100 miles from Toledo to audit its utilization if moved in fluid form;

(6) The amount of other source milk allowed to be prorated should be limited to the amount by which 120 percent of a handler's gross sales of Class I milk exceeds the receipts of producer milk by such handler, and any receipts of other source milk in excess of the above amount should be allocated to the lowest-priced uses available;

(7) The Class I and Class II price formulas should be revised to provide differentials over the manufacturing price level on a seasonal basis establishing relatively higher prices in the fall months and relatively lower prices in the spring months as an encouragement to a shift to fall milk production.

The basic formula price provision should be revised to broaden the basis

for establishing the Class I and Class II prices by including a formula based on the average price paid for milk by 18 specified manufacturing milk plants located in Michigan and Wisconsin, by including a formula based on the market prices of butter and cheese, and by revising the formula in the current order which is based on the market prices of butter and nonfat dry milk solids.

A butterfat differential applicable to each class for variations in butterfat content from 3.5 percent should be included in order to give identity to the value of butterfat in each class to conform with the proposed method for classifying skim milk and butterfat separately;

(8) The "ceiling" on the producer butterfat differential as currently provided should be removed by determining such differential in direct ratio to the market price of butter; and

(9) The administrative assessment provision should be made applicable to other source milk classified as Class I milk and Class II milk as well as to receipts of producer milk.

(10) Numerous changes in language in other provisions should be made for the purpose of further clarification and brevity.

The following provisions are recommended as the detailed means by which these conclusions may be carried out. The proposed marketing agreement is not included in this report because its substantive provisions would be the same as those set forth below with respect to the order, as amended.

Provisions

§ 930.1 *Definitions.* The following terms as used herein shall have the following meanings:

(a) "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C., 601 et seq.).

(b) "Secretary" means the Secretary of Agriculture or such other officer or employee of the United States authorized to exercise the powers or to perform the duties of the said Secretary.

(c) "Department of Agriculture" means the United States Department of Agriculture or such other Federal agency authorized to perform the price reporting functions specified in § 930.5 and § 930.7

(d) "Person" means an individual, partnership, corporation, association, or any other business unit.

(e) "Toledo, Ohio, marketing area," hereinafter called the "marketing area," means the territory within the corporate limits of the city of Toledo, and the towns and villages of Ottawa Hills, Maumee, Sylvania, Harbor View, and Trilby in Lucas County, also the townships of Monclova, Springfield, Adams, Sylvania, Washington, Jerusalem, and Oregon in Lucas County, and the village of Rossford and the townships of Perrysburg, Ross, and Lake in Wood County, all in the State of Ohio; the village of Lakeside, and the territory within the townships of Whiteford, Bedford, and Erie in Monroe County, in the State of Michigan.

(f) "Delivery period" means the calendar month, or the portion thereof, during which the provisions hereof are effective.

(g) "Fluid milk plant" means a plant or other facilities used in the preparation or processing of milk for sale or disposition, in the marketing area, as Class I milk on the premises or to a wholesale or retail stop(s) other than a plant of a handler or nonhandler.

(h) "Producer" means any person who produces milk received (1) at a fluid milk plant, or (2) at any other plant by diversion from a fluid milk plant on the account of a handler or a cooperative association: *Provided*, That the person producing milk holds a dairy farm inspection permit issued by the appropriate health authority of the community for which the milk is produced, if such community requires such permit for milk for disposition as Class I milk therein.

(i) "Handler" means (1) any person who operates a fluid milk plant, or (2) any association of producers with respect to producer milk diverted by it from a fluid milk plant to any plant of a nonhandler for the account of such association.

(j) "Producer-handler" means a person who is a handler and who produces milk, but receives no milk from other producers.

(k) "Producer milk" means milk produced by one or more producers under the conditions set forth in paragraph (h) of this section.

(l) "Other source milk" means all skim milk and butterfat in any form (1) other than that contained in producer milk or in any product received and disposed of in the same form, or (2) transferred from a producer-handler to a handler. "Other source milk" shall include, but shall not be limited to, milk, skim milk, cream, or any milk product received at a fluid milk plant under an emergency permit issued by the appropriate health authority in the marketing area.

(m) "Nonhandler" means any person who is not a handler, but who operates a milk manufacturing or processing plant.

(n) "Cooperative association" means any cooperative marketing association of producers which the Secretary determines, after application by the association: (1) To be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act"; (2) to have full authority in the sale of milk of its members and to be engaged in making collective sales or marketing milk or its products for its members; and (3) to have all of its activities under the control of its members.

§ 930.2 *Market administrator*—(a) *Designation.* The agency for the administration hereof shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal by the Secretary.

(b) *Powers.* The market administrator shall have the following powers with respect to this order;

(1) To administer its terms and provisions;

(2) To receive, investigate, and report to the Secretary complaints of violations;

(3) To make rules and regulations to effectuate its terms and provisions; and

(4) To recommend amendments to the Secretary.

(c) *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this order, including, but not limited to, the following:

(1) Within 30 days following the date on which he enters upon his duties execute and deliver to the Secretary a bond, effective as of the date on which he enters upon such duties and conditioned upon the faithful performance of such duties, is an amount and with surety thereon satisfactory to the Secretary;

(2) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(3) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(4) Pay, out of the funds provided by § 930.8:

(i) The cost of his bond and of the bonds of his employees;

(ii) His own compensation; and

(iii) All other expenses, except those incurred under § 930.9, necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(5) Keep such books and records as will clearly reflect the transactions provided for herein, and, upon request by the Secretary surrender the same to such other person as the Secretary may designate;

(6) Publicly announce, unless otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any person who, within 10 days after the day upon which he is required to perform such acts, has not made (i) reports pursuant to § 930.3, or (ii) payments pursuant to §§ 930.7, 930.8, 930.9, or 930.10;

(7) Submit his books and records to examination by the Secretary and furnish such information and reports as may be requested by the Secretary;

(8) Audit records of all handlers to verify the reports and payments required pursuant to the provisions hereof; and

(9) Publicly announce, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the prices determined for each delivery period as follows:

(i) On or before the 5th day after the end of such delivery period, the minimum class prices and the butterfat differential for each class computed pursuant to § 930.5, and

(ii) On or before the 12th day after the end of such delivery period, the uniform price computed pursuant to § 930.6 (b) and the butterfat differential computed pursuant to § 930.7 (c).

§ 930.3 *Reports, records, and facilities*—(a) *Delivery period reports of receipts and utilization.* On or before the 5th day after the end of each delivery period, each handler, except a producer-handler, shall report to the market administrator with respect to all milk received from producers, all milk, skim milk, cream, and milk products received from other handlers, all other source milk received during the delivery period at his fluid milk plant(s), and milk diverted pursuant to § 930.1 (h) (2), in the detail and on forms prescribed by the market administrator: (1) the quantities of butterfat and skim milk contained in such receipts, and their sources; (2) the utilization of such receipts; and (3) such other information with respect to such receipts and utilization as the market administrator may prescribe.

(b) *Other reports.* Each handler shall report to the market administrator, in the detail and on forms prescribed by the market administrator, as follows, except that each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may request:

(1) On or before the 20th day after the end of each delivery period his producer pay roll for the preceding delivery period, which shall show (i) the pounds of milk and the percentages of butterfat contained therein received from each producer; (ii) the amounts and dates of payments to each producer or cooperative association; and (iii) the nature and amount of each deduction or charge involved in the payments referred to in subdivision (ii) of this subparagraph.

(2) On or before the 5th day after request by the market administrator, a schedule of rates which are charged and paid for the transportation of milk from the farm of each producer to such handler's fluid milk plant. Any changes made in this schedule of transportation rates and the effective dates thereof shall be reported to the market administrator within 5 days of such change.

(c) *Records and facilities.* Each handler shall maintain, and make available to the market administrator during the usual hours of business, such accounts and records of all of his operations and such facilities as, in the opinion of the market administrator, are necessary to verify reports, or to ascertain the correct information, with respect to (1) the receipts and utilization of all skim milk and butterfat received, including milk products received and disposed of in the same form; (2) the weights and tests for butterfat and for other contents of all milk and milk products handled; and (3) payments to producers and cooperative associations.

§ 930.4 *Classification*—(a) *Basis of classification.* All (1) producer milk received by a handler, and (2) other source milk received by a handler at a fluid milk plant, shall be classified in the classes set forth in paragraph (b) of this section.

(b) *Classes of utilization.* Subject to the conditions set forth in paragraphs (c), (d), (e), (f), (g), and (h) of this section, the classes of utilization shall be:

(1) Class I milk shall be all skim milk and butterfat disposed of in fluid form as (i) milk; skim milk or buttermilk, except for livestock feed; or flavored milk or flavored milk drink; and (ii) all skim milk and butterfat not accounted for as Class II milk or Class III milk.

(2) Class II milk shall be all skim milk and butterfat disposed of as sweet or sour cream; any cream product in fluid form which contains less than the minimum butterfat required for fluid cream; eggnog; or creamed cottage cheese.

(3) Class III milk shall be all skim milk and butterfat accounted for (i) as used to produce a product other than those specified in subparagraphs (1) and (2) of this paragraph, (ii) as actual plant shrinkage of skim milk and butterfat received in producer milk, but not to exceed 2 percent of such receipts of skim milk and butterfat, respectively, and (iii) as actual plant shrinkage of skim milk and butterfat, respectively, in other source milk received: *Provided*, That if producer milk is utilized as milk, skim milk, or cream in conjunction with other source milk, the shrinkage allocated to producer milk shall be computed pro rata according to the proportions of the volumes of skim milk and butterfat respectively, received from such sources to their total.

(c) *Interhandler and nonhandler transfers.* (1) Skim milk and butterfat disposed of by a handler to another handler in the form of milk or skim milk shall be Class I milk, and skim milk and butterfat so disposed of in the form of cream shall be Class II milk, unless utilization in another class is mutually indicated in writing to the market administrator by both handlers on or before the 5th day after the end of the delivery period within which such transfer was made: *Provided*, That in no event shall the amount so reported be greater than the amount used in such class by the receiving handler.

(2) Skim milk and butterfat disposed of by a handler to a producer-handler in the form of milk or skim milk shall be Class I milk, and skim milk and butterfat so disposed of in the form of cream shall be Class II milk.

(3) Skim milk and butterfat disposed of in the form of milk or skim milk by a handler to a nonhandler's plant located less than 100 miles from the City Hall at Toledo, Ohio, by the shortest highway distance as determined by the market administrator, shall be Class I milk, and skim milk and butterfat so disposed of in the form of cream shall be Class II milk, unless (i) utilization is mutually indicated in writing to the market administrator by both the handler and nonhandler on or before the 5th day after the end of the delivery period within which such transfer was made, and (ii) the nonhandler maintains books and records showing the utilization of all skim milk and butterfat at his plant which are made available if requested by the market administrator for the verification of such mutually indicated utilization.

(4) Skim milk and butterfat disposed of in the form of milk or skim milk by a handler to a nonhandler's plant located 100 miles or more from the City Hall at Toledo, by the shortest highway distance as determined by the market administrator, shall be Class I and skim milk and butterfat so disposed of in the form of cream shall be Class II milk.

(d) *Responsibility of handlers and reclassification of milk.* (1) All skim milk and butterfat shall be classified as Class I milk unless the handler who first receives such skim milk or butter fat proves to the market administrator that such skim milk or butterfat should be classified otherwise.

(2) Any skim milk or butterfat classified in one class shall be reclassified if used or reused by such handler or by another handler in another class.

(e) *Computation of skim milk and butterfat in each class.* For each delivery period the market administrator shall correct for mathematical and for obvious errors the delivery period report submitted by each handler and compute the total pounds of skim milk and butterfat, respectively, in Class I milk, Class II milk, and Class III milk for such handler.

(f) *Allocation of butterfat classified.* The pounds of butterfat remaining after making the following computations shall be the pounds in each class allocated to producer milk:

(1) Subtract from the total pounds of butterfat in Class III milk the total pounds of butterfat shrinkage pursuant to subdivisions (ii) and (iii) of paragraph (b) (3) of this section;

(2) Subtract from the pounds of butterfat remaining in each class the pounds of butterfat received from other handlers and used in such class;

(3) Determine the pounds of butterfat in other source milk to be prorated pursuant to subparagraph (5) of this paragraph as the smallest of the following amounts:

(i) The pounds of butterfat in other source milk received in the form of milk or skim milk;

(ii) The difference by which the pounds of butterfat received in producer milk are less than 1.2 times the pounds of butterfat in the handler's Class I milk, not including that disposed of to other fluid milk plants; and

(iii) The total pounds of butterfat in other source milk less the amount of the butterfat shrinkage on other source milk substracted pursuant to subparagraph (1) of this paragraph;

(4) Subtract from the pounds of butterfat remaining in each class, in series beginning with the lowest-priced utilization, the pounds of butterfat in other source milk other than (i) butterfat shrinkage on other source milk subtracted pursuant to subparagraph (1) of this paragraph, and (ii) butterfat in other source milk determined pursuant to subparagraph (3) of this paragraph;

(5) Subtract pro rata from the pounds of butterfat remaining in each class, the pounds of butterfat in other source milk determined pursuant to subparagraph (3) of this paragraph; and

(6) Add to the pounds of butterfat remaining in Class III milk the pounds of butterfat shrinkage in producer milk subtracted pursuant to subparagraph (1) of this paragraph; or if the remaining pounds of butterfat in all classes ex-

ceed the pounds of butterfat in milk received from producers, subtract such excess from the remaining pounds of butterfat in each class in series beginning with the lowest-priced utilization.

(g) *Allocation of skim milk classified.* Allocate the pounds of skim milk in each class to producer milk in a manner similar to that prescribed for butterfat in paragraph (f) of this section.

(h) *Determination of producer milk in each class.* Add the pounds of butterfat and pounds of skim milk allocated to producer milk in each class, respectively, as computed pursuant to paragraphs (f) and (g) of this section, and determine the percentage of butterfat in each class.

§ 930.5 *Minimum prices*—(a) *Class prices.* Subject to the provisions of paragraphs (c) and (d) of this section, each handler shall pay not less than the following prices per hundredweight, on the basis of 3.5 percent butterfat content, for producer milk received.

(1) *Class I milk price.* To the basic formula price add the following amounts for the delivery periods indicated:

Delivery period:	*Amount*
May and June	$0.75
September, October, November and December	1.05
All others	.95

(2) *Class II milk price.* To the basic formula price add the following amounts for the delivery periods indicated:

Delivery period:	*Amount*
May and June	$0.15
September, October, November and December	.45
All others	.35

(3) *Class III milk price.* The Class III milk price shall be the average (computed to the nearest tenth of a cent) of the basic (or field) prices per hundredweight for milk of 3.5 percent butterfat content received from farmers during the delivery period at the following locations for which prices have been reported to the market administrator or to the Department of Agriculture on or before the 5th day after the end of the delivery period by the companies indicated below:

Company and Location

Van Camp Milk Co., Wauseon, Ohio.
Pet Milk Co., Delta, Ohio.
Defiance Milk Products Co., Defiance, Ohio.
Pet Milk Co., Hudson, Mich.

(b) *Basic formula price.* The basic formula price per hundredweight (computed to the nearest tenth of a cent) to be used in determining the class prices pursuant to paragraph (a) of this section shall be the highest of the prices per hundredweight for milk of 3.5 percent butterfat content computed pursuant to paragraph (a) (3) of this section, or to subparagraphs (1), (2), and (3) of this paragraph.

(1) The average of the basic (or field) prices reported to have been paid or to be paid per hundredweight for milk of 3.5 percent butterfat content received from farmers during the delivery period at the following plants or places for which prices have been reported to the market administrator or to the Department of Agriculture on or before the 5th day after the end of the delivery period by the companies indicated below:

Companies and Location

Borden Co., Black Creek, Wis.
Borden Co., Greenville, Wis.
Borden Co., Mt. Pleasant, Mich.
Borden Co., New London, Wis.
Borden Co., Orfordville, Wis.
Carnation Co., Berlin, Wis.
Carnation Co., Jefferson, Wis.
Carnation Co., Chilton, Wis.
Carnation Co., Oconomowoc, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Sparta, Mich.
Pet Milk Co., Belleville, Wis.
Pet Milk Co., Coopersville, Mich.
Pet Milk Co., Hudson, Mich.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Wayland, Mich.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

(2) The price per hundredweight computed as follows:

(i) Multiply by six the average daily wholesale price per pound of 92-score butter at Chicago as reported by the Department of Agriculture during the delivery period;

(ii) Add an amount equal to 2.4 times the arithmetical average of the weekly prevailing price per pound of "Twins" during the delivery period on the Wisconsin Cheese Exchange at Plymouth, Wisconsin: *Provided*, That if the price of "Twins" is not quoted on the Wisconsin Cheese Exchange the weekly prevailing price per pound of "Cheddars" shall be used; and

(iii) Divide by seven, and add 30 percent thereof, and then multiply by 3.5.

(3) The price per hundredweight computed by adding together the plus values pursuant to subdivisions (i) and (ii) of this subparagraph:

(i) From the average daily wholesale price per pound of 92-score butter in the Chicago market, as reported by the Department of Agriculture during the delivery period, substract three cents, add 20 percent thereof, and then multiply by 3.5; and

(ii) From the arithmetical average of the carlot prices per pound for nonfat dry milk solids (not including that specifically designated animal feed), spray and roller process, f. o. b. manufacturing plants in the Chicago area, as published by the Department of Agriculture during the delivery period, deduct 5.5 cents, multiply by 8.5, and then multiply by 0.965, except that if such agency does not publish such prices f. o. b. manufacturing plants, there shall be used for the purpose of this computation the arithmetical average of the carlot prices thereof, delivered at Chicago, Illinois, as published weekly by such agency during the delivery period; and in the latter event the figure "7.5" shall be substituted for "5.5" in the above formula.

(c) *Butterfat differentials to handlers.* If the weighted average butterfat test of that portion of producer milk which is classified, respectively, in any class of utilization for a handler, pursuant to § 930.4 (h), is more or less than 3.5 percent, there shall be added to, or subtracted from, as the case may be, the price for such class of utilization, for each one-tenth of one percent that such weighted average butterfat test is above or below, respectively, 3.5 percent, a butterfat differential (computed to the nearest tenth of a cent) calculated for each class of utilization as follows:

(1) *Class I milk.* Multiply by 1.3 the average daily wholesale price per pound of 92-score butter in the Chicago market, as reported by the Department of Agriculture during the delivery period, and divide the result by 10;

(2) *Class II milk.* Multiply by 1.25 the average daily wholesale price per pound of 92-score butter in the Chicago market, as reported by the Department of Agriculture during the delivery period, and divide the result by 10; and

(3) *Class III milk.* Multiply by 1.2 the average daily wholesale price per pound of 92-score butter in the Chicago market, as reported by the Department of Agriculture during the delivery period, and divide the result by 10;

(d) *Emergency price provisions.* Whenever the provisions hereof require the market administrator to use a specific price (or prices) for milk or any milk product for the purpose of determining minimum class prices or for any other purpose, the market administrator shall add to the specified price the amount of any subsidy, or other similar payment, being made by any Federal agency in connection with the milk, or product, associated with the price specified: *Provided*, That if for any reason the price specified is not reported or published as indicated, the market administrator shall use the applicable maximum price established by regulations of any Federal agency plus the amount of such subsidy or other similar payment: *Provided further*, That if the specified price is not reported or published and there is not applicable maximum uniform price, or if the specified price is not reported or published and the Secretary determines that the market price is below the applicable maximum uniform price, the market administrator shall use a price determined by the Secretary to be equivalent to or comparable with the price specified.

§ 930.6 *Handler's obligation and uniform price*—(a) *Value of milk.* The value of producer milk of each handler for each delivery period shall be a sum of money computed by the market administrator by multiplying by the respective class prices pursuant to § 930.5, the amounts in each class computed pursuant to § 930.4 (h), and adding together such amounts: *Provided*, That if a handler, after the subtraction of other source milk and receipts from other handlers, has disposed of skim milk or butterfat in excess of the skim milk or butterfat which on the basis of his report for the delivery period pursuant to § 930.3 (a) has been credited to his producers as having been received by them, there shall be added an amount equal to the value of such skim milk or butterfat at the applicable price for the use from which such skim milk or butterfat was subtracted pursuant to paragraphs (f) (6) and (g) of § 930.4.

(b) *Uniform price.* For each delivery period the market administrator shall compute for each handler a "uniform price" per hundredweight, on the basis of 3.5 percent butterfat content, for producer milk received by such handler as follows:

(1) From the value of milk computed for such handler pursuant to paragraph (a) of this section, deduct, if the weighted average butterfat test of all producer milk received by him is greater than 3.5 percent or add, if the weighted average butterfat test of such milk is less than 3.5 percent, an amount computed by multiplying the total pounds of butterfat represented by the variance of such weighted average butterfat test from 3.5 percent by the butterfat differential computed pursuant to § 930.7 (c) multiplied by 10;

(2) Add or subtract, as the case may be, the amount necessary to correct errors in classification for previous delivery periods as disclosed by audit of the market administrator;

(3) Adjust the resulting amount by the sum of money used in adjusting the uniform price, pursuant to subparagraph (5) of this paragraph, for the previous delivery period to the nearest cent;

(4) Divide the result by the total hundredweight of producer milk represented by the value computed pursuant to paragraph (a) of this section; and

(5) Adjust the resulting figure to the nearest cent.

(c) *Notification.* On or before the 12th day after the end of each delivery period, the market administrator shall mail to each handler, at his last known address, a statement showing:

(1) The amount and value of his producer milk in each class;

(2) The uniform price for such handler pursuant to paragraph (b) of this section and the butterfat differential computed pursuant to § 930.7 (c); and

(3) The totals of the amounts to be paid by such handler pursuant to §§ 930.8 and 930.9.

§ 930.7 *Payment for milk*—(a) *Time and method of final payment.* On or before the 15th day after the end of each delivery period, each handler shall make payment to each producer for milk received from such producer during such delivery period at not less than the uniform price for such handler adjusted by the butterfat differential pursuant to paragraph (c) of this section, less the amount of the payment made pursuant to paragraph (b) of this section.

(b) *Partial payments.* On or before the last day of each delivery period, each handler shall make payment to each producer at not less than the uniform price for such handler for the preceding delivery period, for milk received from such producer by such handler during the first 15 days of such delivery period: *Provided*, That in the event such producer discontinues shipping to such handler during the delivery period, such partial payments shall not be made and full payment for all milk received from such producer during the delivery period shall be made on the 15th day after the end of the delivery period pursuant to paragraph (a) of this section.

(c) *Producer butterfat differential.* In making payments pursuant to paragraph (a) of this section the uniform price for each handler shall be adjusted, for each one-tenth of one percent of such butterfat content in the milk of each producer above or below 3.5 percent, as the case may be, by a butterfat differential (computed to the nearest tenth of a cent) calculated as follows: Multiply by 1.2 the average daily wholesale price per pound of 92-score butter in the Chicago market, as reported by the Department of Agriculture during the delivery period, and divide the result by 10.

§ 930.8 *Expense of administration.* As his pro rata share of expense incurred pursuant to § 930.2 (c) (4), each handler shall pay the market administrator, on or before the 15th day after the end of such delivery period, 2 cents per hundredweight, or such lesser amount as the Secretary may from time to time prescribe, to be announced by the market administrator on or before the 12th day after the end of such delivery period, with respect to receipts, during the delivery period, of (a) milk from producers (including such handler's own production), and (b) other source milk received at a fluid milk plant and classified as Class I milk or Class II milk.

§ 930.9 *Marketing services*—(a) *Deductions for marketing services.* Except as set forth in paragraph (b) of this section, each handler, in making payments to producers pursuant to § 930.7 (a), with respect to all milk received from each producer (except milk of such handler's own production) at a plant not operated by a cooperative association of which such producer is a member, shall deduct 4 cents per hundredweight, or such lesser amount as the Secretary may from time to time prescribe, to be announced by the market administrator on or before the 12th day after the end of such delivery period; and on or before the 15th day after the end of such delivery period, shall pay such deductions to the market administrator. Such monies shall be expended by the market administrator to verify weights, samples, and tests of milk of such producers and to provide such producers with market information, such services to be performed by the market administrator, or by an agent engaged by and responsible to him.

(b) *Cooperative associations.* In the case of producers whose milk is received at a plant not operated by a cooperative association of which such producers are members, and for whom a cooperative association is actually performing the services described in paragraph (a) of this section, as determined by the market administrator, each handler shall make, in lieu of the deductions specified in paragraph (a) of this section, such deductions from payments required pursuant to § 930.7 (a) as may be authorized by such producers, and pay such deductions on or before the 15th day after the end of such delivery period to the cooperative association rendering such services of which such producers are members.

§ 930.10 *Adjustments of accounts*—(a) *Errors in payments.* Whenever audit by the market administrator of any handler's reports, books, records, or accounts discloses errors resulting in monies due (1) the market administrator from such handler, or such handler from the market administrator pursuant to §§ 930.8 or 930.9, or (2) any producer or cooperative association from such handler pursuant to § 930.7, the market administrator shall promptly notify such handler of any such amount due; and said payment thereof shall be made on or before the next date for making payment set forth in the provision under which such error occurred, following the 5th day after such notice.

§ 930.11 *Application of provisions*—(a) *Exempt milk.* Milk received at a plant of a handler the handling of which the Secretary determines to be subject to the pricing and payment provisions of any other Federal milk marketing agreement or order issued pursuant to the act for any fluid milk marketing area shall not be subject to the pricing and payment provisions hereof.

(b) *Milk caused to be delivered by cooperative associations.* Milk referred to herein as received from producers by a handler shall include milk of producers caused to be delivered directly from the farm to the fluid milk plant of such handler by a cooperative association which is authorized to collect payment for such milk.

(c) *Diverted milk.* (1) Producer milk diverted by an operator of a fluid milk plant from such plant to a nonhandler's plant shall be deemed to have been received by the fluid milk plant from which such milk was diverted.

(2) Producer milk diverted by a cooperative association from a fluid milk plant to a nonhandler's plant shall be deemed to have been received by such association.

(d) *Producer-handlers.* Sections 930.4, 930.5, 930.6, 930.7, 930.8, 930.9, and 930.10 shall not apply to the milk of a producer-handler.

§ 930.12 *Effective time.* The provisions hereof, or of any amendment hereto, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated.

§ 930.13 *Suspension or termination*—(a) *When suspended or terminated.* The Secretary shall, whenever he finds that this order, or any provision thereof, obstructs or does not tend to effectuate the declared policy of the act, terminate or suspend the operation of this order or any such provision thereof.

(b) *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this order, there are any obligations thereunder the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

(c) *Liquidation.* Upon the suspension of the provisions hereof, except this section, the market administrator, or such other liquidating agent as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and exe-

cute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated all assets, books, and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

§ 930.14 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions hereof.

§ 930.15 *Separability of provisions.* If any provision hereof, or its application to any person or circumstances, is held invalid, the application of such provision, and of the remaining provisions hereof, to other persons or circumstances shall not be affected thereby.

This report filed at Washington, D. C., this 9th day of January 1947.

[SEAL] E. A. MEYER,
Assistant Administrator, Production and Marketing Administration.

NOTICES

DEPARTMENT OF JUSTICE

Office of Alien Property

[Vesting Order 6213, Amdt.]

KARL AUGUST HEINRICH MULLER ET AL.

In re: Interests in bond and second mortgage, property insurance policy and claim owned by Karl August Heinrich Muller, Max Friedrich Edward Muller, Leo Karl Muller, Herman Wilhelm August Muller and Alvire Ottilie Herms.

Vesting Order 6213, dated April 23, 1946, is hereby amended as follows and not otherwise:

By deleting subparagraph 2–a and substituting therefor the following:

a. An undivided five-ninths interest in and to a certain mortgage executed on April 1, 1925, by Louis A. Lehman and Marie Lehman, his wife, as mortgagors, in favor of Auguste Miller, also known as Auguste Muller, as mortgagee, and recorded on April 14, 1925, in the Office of the Clerk of Queens County, New York, in Liber 2574 of Mortgages, Page 433, which mortgage was assigned by James W. Brown, Public Administrator of Bronx County, New York, by assignment, dated March 24, 1937, and recorded April 15, 1937, in the Office of the Clerk of Queens County, New York, in Liber 4336 of Mortgages, Page 275, to the persons named in subparagraph 1, among others, and any and all obligations secured by said interests in the mortgage, including but not limited to all security rights in and to any and all collateral (including the aforesaid mortgage) for any and all such obligations and the right to enforce and collect such obligations and the right to possession of any and all notes, bonds and other instruments evidencing such obligations,

All other provisions of said Vesting Order 6213 and all actions taken by or on behalf of the Alien Property Custodian or the Attorney General of the United States in reliance thereon, pursuant thereto and under the authority thereof are hereby ratified and confirmed.

(40 Stat. 411; 55 Stat. 839; Pub. Law 322, 79th Cong.; 60 Stat. 50; Pub. Law 671, 79th Cong.; 60 Stat. 925; 50 U. S. C. App. 1, 616; E. O. 9193, July 6, 1942, 7 F. R. 5205; E. O. 9567, June 8, 1945, 10 F. R. 6917; E. O. 9788, Oct. 14, 1946, 11 F. R. 11981)

Executed at Washington, D. C., on January 10, 1947.

For the Attorney General.

[Vesting Order 7950]

HAROLD SHOTARO TODA

In re: Stock owned by and debts owing to Harold Shotaro Toda, also known as Harold S. Toda, H. S. Toda, Shotaro Harold Toda and S. H. Toda.

Under the authority of the Trading with the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9789, and pursuant to law, after investigation, it is hereby found:

1. That Harold Shotaro Toda, also known as Harold S. Toda, H. S. Toda, Shotaro Harold Toda and S. H. Toda, whose last known address is 7 Aobacho, Shibuya-Ku, Tokyo, Japan, is a resident of Japan and a national of a designated enemy country (Japan);

2. That the property described as follows:

a. Ten (10) shares of no par value $7 cumulative first preferred capital stock of Hawley Pulp and Paper Company, Oregon City, Oregon, a corporation organized under the laws of the State of Delaware, evidenced by certificates numbered PPO 1613 and PPO 1692 for five (5) shares each and represented by voting trust certificate number 950 registered in the names of Harold S. Toda and Kiku Toda, as joint tenants with right of survivorship but not as tenants in common, together with all declared and unpaid dividends thereon,

b. Ten (10) shares of no par value prior preference capital stock of Puget Sound Power & Light Company, 860 Stuart Building, Seattle 1, Washington, a corporation organized under the laws of the State of Massachusetts, evidenced by certificates numbered DC 149 and DC 168 for five (5) shares each, registered in the names of Harold S. Toda and Kiku Toda, as joint tenants with right of survivorship and not as tenants in common, presently in the custody of Martha Toda, 19 Compton Street, New Haven 11, Connecticut, together with all declared and unpaid dividends thereon,

c. Two (2) shares of no par value prior preference capital stock of Puget Sound Power & Light Company, 860 Stuart Building, Seattle 1, Washington, a corporation organized under the laws of the State of Massachusetts, evidenced by certificate number BPO 2415, registered in the names of Harold S. Toda and Kiku Toda, as joint tenants with right of survivorship and not as tenants in common, presently in the custody of Stone & Webster Service Corporation, 49 Federal Street, Boston 7, Massachusetts, together with all declared and unpaid dividends thereon,

d. Sixteen (16) shares of $0.10 par value common capital stock of The Equity Corporation, 420 Lexington Avenue, New York, New York, a corporation organized under the laws of the State of Delaware, evidenced by certificate number JCO 35307, registered in the names of Harold S. Toda and Kiku Toda, as joint tenants with right of survivorship and not as tenants in common, presently in the custody of Martha Toda, 19 Compton Street, New Haven 11, Connecticut, together with all declared and unpaid dividends thereon,

e. That certain debt or other obligation owing to Harold Shotaro Toda, also known as Harold S. Toda, H. S. Toda, Shotaro Harold Toda and S. H. Toda, by the Bank of California National Association, Portland 8, Oregon, in the amount of $420, as of October 23, 1945, together with any and all accruals thereto, and any and all rights to demand, enforce and collect the same, and

f. Those certain debts or other obligations owing to Harold Shotaro Toda, also known as Harold S. Toda, H. S. Toda, Shotaro Harold Toda and S. H. Toda, by Puget Sound Power & Light Company, 860 Stuart Building, Seattle 1, Washington, evidenced by certain dividend checks issued by said Puget Sound Power & Light Company in the names of Harold S. Toda and Kiku Toda, Joint Tenants, and presently in the custody of Stone & Webster Service Corporation, 49 Federal Street, Boston, Massachusetts, and any and all rights to demand, enforce and collect the aforesaid debts or other obligations and any and all accruals thereto, together with any and all rights in, to and under, including particularly the right to possession of, the aforesaid dividend checks,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country (Japan);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Japan).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

(40 Stat. 411; 55 Stat. 839; 60 Stat. 50; Pub. Law 322, 79th Cong.; Pub. Law 671, 79th Cong.; 50 U. S. C. App. 1, 50 U. S. C. App. Sup. 616; E. O. 9193, July 6, 1942, 7 F. R. 5205, 3 CFR, Cum. Supp.; E. O. 9567, June 8, 1945, 10 F. R. 6917, 3 CFR, 1945 Supp.; E. O. 9788, Oct. 14, 1946, 11 F. R. 11981)

Executed at Washington, D. C., on January 3, 1947.

DEPARTMENT OF LABOR

Wage and Hour Division

LEARNER EMPLOYMENT CERTIFICATES

ISSUANCE TO VARIOUS INDUSTRIES

Notice of issuance of special certificates for the employment of learners under the Fair Labor Standards Act of 1938.

Notice is hereby given that special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rate applicable under section 6 of the act have been issued to the firms hereinafter mentioned under section 14 of the act, Part 522 of the regulations issued thereunder (August 16, 1940, 5 F. R. 2862, and as amended June 25, 1942, 7 F. R. 4725), and the determinations, orders and/or regulations hereinafter mentioned. The names and addresses of the firms to which certificates were issued, industry, products, number of learners, learner occupations, wage rates, learning periods, and effective and expiration dates of the certificates are as follows:

Independent Telephone Learner Regulations, July 17, 1944 (9 F. R. 7125).

The special learner certificates issued to the following companies under the above regulations provide for the employment of learners in the occupation of commercial switchboard operator for a period not in excess of 480 hours at not less than 30 cents per hour for the first 320 hours and 35 cents per hour for the remaining 160 hours of the learning period. The number of learners authorized to be employed depends on the number of operators in the exchange, i. e., one learner if the exchange employs 8 operators or less, two learners if the exchange employs from 9 to 18 operators, etc. See Regulations, Part 522, § 522.083.

Central Iowa Telephone Company, Hartley, Iowa; effective January 5, 1947, expiring January 4, 1948.

Central Iowa Telephone Company, Rolfe, Iowa; effective January 12, 1947, expiring January 11, 1948.

The employment of learners under these certificates is limited to the terms and conditions therein contained and is subject to the provisions of the applicable determinations, orders and/or regulations cited above. These certificates have been issued upon the employers' representations that experienced workers for the learner occupations are not available for employment and that they are actually in need of learners at subminimum rates in order to prevent curtailment of opportunities for employment. The certificates may be cancelled in the manner provided in the regulations and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of regulations, Part 522.

Signed at New York, New York, this 8th day of January 1947.

PAULINE C. GILBERT,
Authorized Representative of the Administrator.

CONSOLIDATED GAS UTILITIES CORP.

NOTICE OF APPLICATION

JANUARY 9, 1947.

Notice is hereby given that on December 30, 1946, Consolidated Gas Utilities Corporation (Applicant), a Delaware corporation having its principal place of business at Oklahoma City, Oklahoma, and authorized to do business in the States of Texas, Oklahoma and Kansas, filed an application (an application for a temporary certificate having been filed on December 9, 1946) for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to authorize Applicant to construct and operate the following facilities and to transport natural gas for Cities Service Gas Company (Cities Service) from a point near Wichita, Kansas, to Hutchinson and Lyons, Kansas:

(1) A measuring station and facilities to be installed at a connection between the pipe line of Applicant and the pipe line of Cities Service Gas Company in the North Half of Section 31, Township 23 South, Range 5 West, Reno County, Kansas;

(2) A meter installation to be installed at a connection between the pipe line of Applicant and the pipe line of Cities Service Gas Company in the Northeast Quarter of Section 10, Township 20 South, Range 8 West, Rice County, Kansas.

Applicant recites that Cities Service will deliver gas to Applicant at the intersection of the 10-inch lines of the two companies at a point north of Wichita, Kansas, through Cities Service meter No. 5288. Applicant will transport such gas through its 10-inch line and redeliver such gas to Cities Service at the points hereinbefore described as (1) and (2) (Hutchinson and Lyons, Kansas). Applicant states that the quantity of gas so to be transported is such quantity as Cities Service Gas Company may desire up to the capacity of Applicant's facilities after supplying the natural gas requirements of all of Applicant's own present and future customers. Applicant estimates that the maximum amount of gas which will be delivered through said facilities on the peak day of any year will be 10,000 Mcf of gas and that no deliveries of gas will be made through said facilities during the summer months.

Applicant states that it will receive 1½¢ per Mcf for gas transported to Lyons, Kansas, and 1¢ per Mcf for gas transported to Hutchinson, Kansas, in acordance with a proposed rate schedule on file with the Commission.

Applicant further seeks authority to construct and operate a measuring station and facilities to be installed at a connection between the 14-inch pipeline of Applicant and the 20-inch pipeline of the Cities Service Gas Company in the center of the Northwest Quarter of Section 24, Township 28 South, Range 1 West, Sedgwick County, Kansas.

Applicant proposes to redeliver to Cities Service through this measuring station natural gas transported by it for Cities Service by virtue of the certificate issued in Docket No. G-687. Applicant states that by making delivery to Cities Service at this second point of delivery, the gas will be delivered into Cities Service pipeline ahead of Cities Service Wichita compressor station, enabling Cities Service to compress such gas for further transportation. Applicant estimates the maximum amount of gas which will be delivered through said facilities on the peak day of any year will be 6,500 Mcf of gas and that no deliveries of gas will be made through said facilities during the summer months.

Applicant estimates that the overall capital cost of construction of all the facilities above enumerated will total $5,720 to be financed from its funds on hand.

Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of the Commission's rules of practice and procedure, and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with the reasons for such request.

Any person desiring to be heard or to make any protest with reference to the application of Consolidated Gas Utilities Corporation should file with the Federal Power Commission, Washington, D. C., not later than fifteen days from the date of publication of this notice in the FEDERAL REGISTER, a petition or protest in accordance with the Commission's rules of practice and proccdure.

[SEAL] LEON M. FUQUAY, *Secretary.*

[Docket No. G-606]

TENNESSEE GAS AND TRANSMISSION CO. AND THE CHICAGO CORP.

ORDER POSTPONING HEARING

JANUARY 10, 1947.

It appearing to the Commission that:

(a) On November 5, 1946, the Commission ordered that a public hearing in the above-docketed matter be held commencing on January 20, 1947, at 10:00 a. m. (e. s. t.) in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C.

(b) Good cause exists for postponing the date of hearing as hereinafter provided.

The Commission orders that:

The public hearing in the above-docketed matter is hereby postponed to February 3, 1947, commencing at 10:00 a. m. (e. s. t.), in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C.

Date of issuance: January 10, 1947.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 47-341; Filed, Jan. 14, 1947; 8:48 a. m.]

[Docket No. G-837]

COLORADO INTERSTATE GAS CO. AND CANADIAN RIVER GAS CO.

NOTICE OF APPLICATION

JANUARY 7, 1947.

Notice is hereby given that on December 20, 1946, Colorado Interstate Gas Company (Applicant), a Delaware corporation having its principal place of business at Colorado Springs, Colorado, and Canadian River Gas Company (Applicant), a Delaware corporation having its principal place of business in the State of Texas, filed joint applications with the Federal Power Commission for certificates of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to authorize Applicants to construct and operate certain natural gas facilities subject to the jurisdiction of the Federal Power Commission, described in the application as follows:

PLAN I

Construction by Colorado Interstate Gas Company. (a) Approximately 207 miles of 20-inch natural gas pipe line from a metering station site to be located near the city limits and northeast of Denver, Colorado, extending to a point near Holly, Prowers County, Colorado, designated as Holly Junction.

(b) A 16-inch natural gas pipe line extending from Holly Junction, Colorado, to a field compressor station site to be selected in either Finney County or Kearney County, in the Hugoton Gas Field, in Kansas.

(c) A 16-inch natural gas pipe line commencing at Holly Junction, Colorado, and extending through Prowers and Baca Counties, Colorado, and Cimarron County, Oklahoma, to the Oklahoma-Texas boundary line.

Construction by Canadian River Gas Company. (d) Approximately 69 miles of 16-inch natural gas pipe line extending from the Oklahoma-Texas boundary line to the present Bivins Compressor Station in Moore County, Texas or a field station just north of Bivins Station.

PLAN II

Construction by Colorado Interstate Gas Company. (a) Approximately 268 miles of 20-inch natural gas pipe line extending in a southeasterly direction from the city of Denver, Colorado, to the Texas-Oklahoma boundary.

(b) Three natural gas compressor stations spaced from 69 to 73 miles apart.

Construction by Canadian River Gas Company. (c) Approximately 68 miles of natural gas pipe line extending from a point on the Texas-Oklahoma boundary and being the end point of construction described in (a) above, extending in a southeasterly direction to Bivins Compressor Station located in Moore County, Texas.

The application states the principal market of Colorado is the city and county of Denver and its environs, where natural gas has been sold by Colorado Interstate Gas Company to Public Service Company of Colorado under a contract expiring on June 23, 1948, on file with the Commission as Colorado's Rate Schedule FPC No. 1; that the franchise under which Public Service Company distributes natural gas in Denver will expire in February 1947; that prior to the making of an application for a renewal of its franchise rights for 20 years Public Service Company and Colorado Interstate negotiated for an extension of the present agreement, and that they worked on studies to develop the future requirements of Public Service Company; and that these studies indicate large increases in the requirements of the consumers of Public Service Company, both on a peak day and an annual basis, which will require additional pipe line capacity to enable Colorado Interstate to supply the requirements of Public Service during the proposed extended franchise period.

Applicant, Colorado Interstate, avers that it cannot commence the construction of the facilities immediately required unless such agreement becomes effective as a rate schedule under the Natural Gas Act for, without the protection afforded Colorado Interstate by the obligations assumed by Public Service Company under said agreement, Colorado Interstate would not be justified in making an expenditure of almost $12,000,000 and a future estimated additional expenditure, by Colorado Interstate and Canadian River Gas Company, of another $12,000,000; and that, therefore, this application is conditioned upon Public Service Company obtaining a requisite extension of franchise rights from the city of Denver and the filing of the said agreement by the Applicants hereto as a rate schedule, and the same becoming effective as a rate schedule under the provisions of the Natural Gas Act.

The application states that, subject to the conditions stated, the facilities described are proposed to be constructed in accordance with two plans; and that under Plan I and contingent upon Applicant, Colorado Interstate, being able to obtain satisfactory gas supply contracts for that portion of the load which will be supplied from the Hugoton Gas Field, Applicant proposes the construction described in paragraphs (a) and (b), facilities under paragraph (c) to be constructed if and when the market requirements necessitate additional capacity. Applicant, Canadian River Gas Company, states that it proposes to construct the facilities described in paragraph (d) of Plan I if and when the future market requirements necessitate the construction of the facilities described in paragraph (c) by Applicant, Colorado Interstate.

Applicant indicates that the facilities described under paragraphs (a) and (b) of Plan I will provide a capacity of 84 million cubic feet per day and that by constructing the extensions contemplated under paragraphs (c) and (d) together with additional horsepower at the Hugoton Field, a delivery capacity of 125 million cubic feet per day can be furnished.

Applicants assert that, by the addition of horsepower in the Texas field station and the construction of a line compressor station at Holly Junction, the facilities proposed to be constructed under Plan I may be adapted to provide 152 million cubic feet of delivery capacity; and that an ultimate maximum capacity of 179 million cubic feet for the proposed facilities could be reached by the future addition of horsepower in the Texas field station, an additional horsepower at Holly Junction, and the construction of two line stations on Colorado Interstate section of the line.

The application states, in the event Colorado Interstate is unable to obtain a satisfactory gas supply in the Hugoton Field, facilities under Plan II, paragraph (a), are proposed which would provide an increased capacity of 84 million cubic feet of gas per day; and that, by the subsequent installation of additional horsepower at the field station, and the addition of the three line compressor stations described, in paragraph (b), the ultimate delivery capacity can be made approximately that of Plan I.

Applicant, Colorado Interstate, states that because of the increased demands of consumers served by its customers, the growth of population, increase in housing construction, and other factors, the public convenience and necessity require the construction and operation of the proposed facilities.

The application further states that no definite financial arrangements have been made for the proposed facilities and construction; but that funds will be available in the form of bank or institutional loans at reasonable rates.

The application further states that the rates to be charged by Applicants will be those rates effective now or later to be filed with the Commission; and that it is not anticipated any immediate increase in rates will be required.

The application states that the cost to Colorado of the facilities proposed immediately to be constructed to increase the daily capacity by 84 million cubic feet will be $11,630,400 under Plan I and $10,307,800 under Plan II.

There will be no expenditures required by Canadian under Plan I until additional capacity is required. Under Plan II, however, Canadian will be required to make an immediate expenditure of $4,916,206.

Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of the Commission's rules of practice and procedure, and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter, and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with the reasons for such request.

Any person desiring to be heard or to make any protest with reference to the application of Colorado Interstate Gas Company and Canadian River Gas Company should file with the Federal Power Commission, Washington 25, D. C., not later than 15 days from the date of publication of this notice in the FEDERAL REGISTER, a petition or protest in accordance with the Commission's rules of practice and procedure.

SECURITIES AND EXCHANGE COMMISSION

[File Nos. 54-132, 70-1149, 70-1150, and 70-1419]

ENGINEERS PUBLIC SERVICE CO. ET AL.

ORDER APPROVING AMENDED PLAN

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 8th day of January A. D. 1947.

In the matter of Engineers Public Service Company, File No. 54-132; El Paso Electric Company, File No. 70-1149; Gulf States Utilities Company, File No. 70-1150; Virginia Electric and Power Company, File No. 70-1419.

Engineers Public Service Company ("Engineers"), a registered holding company, having filed on September 10, 1945, an application pursuant to the provisions of section 11 (e) and other applicable sections of the Public Utility Holding Company Act of 1935 and the rules and regulations of the Commission promulgated thereunder, for approval of a plan of reorganization for the purpose of complying with the provisions of section 11 (b) (1) of the act and with orders of this Commission dated September 16, 1942, and October 6, 1942; and El Paso Electric Company ("El Paso"), Gulf States Utilities Company ("Gulf States") and Virginia Electric and Power Company ("Virginia"), having filed declarations pursuant to section 7 of said act for the purpose of facilitating the effectuation of such plan;

Public hearings having been held on the plan of reorganization and declarations filed pursuant to section 7 in consolidated proceedings after appropriate notice in which all interested persons were given opportunity to be heard, briefs having been filed and oral argument having been heard; and the Commission having on December 4, 1946, issued its findings and opinion stating that if within a period of 30 days from the date of said findings and opinion the plan were amended in accordance with the views expressed therein, an appropriate order approving said plan as so amended would be entered; and the applicants having filed on December 17, 1946 an amendment to the plan and amendments to the declarations filed pursuant to section 7 of the act; and the applicants having filed certain other amendments to said amended plan of reorganization and said declarations on December 31, 1946, January 2, 1947 and January 3, 1947;

Public hearings having been held on said amended plan and said amended declarations after appropriate notice in which all interested persons were given opportunity to be heard and oral argument having been heard;

The applicants having requested that the Commission enter an order finding that the proposed transactions are necessary to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935, fair and equitable to the persons affected thereby, and that such order contain recitals in accordance with the requirements of sections 371 and 1808 (f) and Supplement R of the Internal Revenue Code, as amended; and having further requested the Commission to enter an order permitting said declarations, as amended, to become effective forthwith; and having also requested the Commission pursuant to section 11 (e) of the act, to apply to the appropriate United States District Court to enforce and carry out the terms of the amended plan of reorganization;

The Commission having considered the record and oral argument herein, and having on January 8, 1947 made and filed its supplemental findings and opinion herein; and

The Commission having found that the amended plan of reorganization is necessary to effectuate the provisions of section 11 (b) and is fair and equitable to the persons affected thereby and the Commission having further found that said declarations, as amended, should be permitted to become effective;

It is ordered, Pursuant to the applicable provisions of the act that the amended plan of reorganization be, and hereby is, approved, and that said declarations filed pursuant to section 7 be permitted to become effective, respectively, subject, however, to the conditions specified in Rule U-24 and subject to the following terms and conditions:

1. That jurisdiction be and it hereby is reserved to the Commission to approve, disapprove, modify, allocate or award from the estate of Engineers by further order or orders, all fees or other compensation and all remuneration or expenses claimed or hereafter claimed by any persons in connection with the amended plan, the transactions incident thereto and the consummation thereof;

2. That jurisdiction be and it hereby is reserved to the Commission to take such further action as the Commission may deem necessary or appropriate to effectuate the requirements of section 11 (b) of the act; and

3. That jurisdiction be and it hereby is reserved to the Commission to entertain such further proceedings, to make such supplemental findings and to take such further action as the Commission may deem appropriate in connection with the amended plan, the transactions incident thereto and the consummation thereof, and in the event such amended plan be not consummated, to enter such further orders as the Commission may deem appropriate under sections 11 (b), 11 (f) and 20 (a) of the act.

It is further ordered, That counsel for the Commission be, and they hereby are, authorized and directed to make application forthwith on behalf of the Commission to an appropriate United States District Court pursuant to the provisions of section 11 (e) and subsection (f) of section 18 of the act, to enforce and carry out the terms and provisions of the amended plan.

It is further ordered, That this order shall not be operative to authorize the consummation of any of the transactions proposed in the amended plan until an appropriate United States District Court shall, upon application thereto, enter an order enforcing such amended plan.

It is further ordered and recited, That all steps and transactions involved in the consummation of the amended plan, including particularly the issuances, transfers, exchanges, conveyances, expenditures, acquisitions, receipts, distributions and sales, hereinafter described and recited in subparagraphs I through VIII below, are necessary or appropriate to the integration and simplification of the Engineers Public Service Company holding company system and are necessary or appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935, are hereby authorized, approved and directed; the stock and securities and other property which are ordered to be issued, exchanged, received, acquired, transferred, conveyed, distributed or sold upon such transactions, and the expenditures which are ordered to be made, being specified and itemized as follows:

I. (a) Engineers, except as recited below, will issue and distribute by mail to the holders of its common stock of record on a date to be specified by its Board of Directors, without the surrender by such stockholders of their certificates for Engineers common stock, warrants described in the amended plan evidencing the right to acquire from Engineers 1,909,968 shares of common stock (reclassified) of Gulf States, on a share for share basis and on the terms hereinafter more particularly set forth.

(b) In cases where the addresses of the record holders of Engineers common stock are unknown or are outside the continental United States and Canada, such warrants will not be mailed, but will be held in the name of a Transfer Agent and will be issued and distributed upon instructions of said record owners, or their duly authorized agents, until the opening of business on the second business day before the expiration date of the warrant period, at which time all warrants so held with respect to which no such instructions have been received will be sold by Engineers, subject to the provisions of paragraph 9 of Division C of the amended plan and the pro rata shares of the aggregate net proceeds, if any, will be remitted to each holder of common stock of Engineers on whose behalf warrants are so sold, or, in cases where such remittance is not lawful or the addresses are unknown, held for the account of each such stockholder subject to payment upon receipt of lawful instructions. In cases where the Engineers common stockholder cannot be located and where no valid claim is made for such proceeds within a period of ten years from the effective date of the amended plan, such net proceeds will be paid to Gulf States.

II. Pursuant to the provisions of the above-mentioned warrants, Engineers will transfer and deliver Gulf States common stock to those persons who exercise said warrants before the expiration date thereof, and upon such exercise the holders of said warrants will either (1) pay Engineers $11.50 for each share of Gulf States common stock so acquired, or (2) deliver to Engineers in exchange for said Gulf States common stock whole shares of Engineers preferred stock on the basis of equivalent values, assigning $11.50 per share for each share of Gulf States common stock, and $105 plus accrued dividends to the expiration date of the warrant for each share of Engineers $5 preferred stock and $110 plus accrued dividends to the expiration date of the warrant for each share of Engineers $5.50 preferred stock and $6 preferred stock: *Provided*, That, on the basis of the relative values above stated, the value of the whole shares of Engineers preferred stock to be exchanged under the warrants will not exceed the value of the shares of Gulf States common stock which the warrant holder is entitled to and intends to acquire, and to the extent that the value of such shares of Engineers preferred stock exchanged for Gulf States common stock under said warrants is less than the value of such shares of Gulf States common stock to which the warrant holder is entitled and intends to acquire, the difference will be paid by the warrant holder to Engineers in cash.

III. Any of the 1,909,968 shares of Gulf States common stock not sold or exchanged upon exercise of the above-mentioned warrants will be sold by Engineers, subject to the provisions of paragraph 9 of Division C of the amended plan.

IV. Engineers will thereafter deposit in trust with a solvent bank or trust company for the benefit of its preferred stockholders an amount equal to $105 per share plus accrued dividends to the date of such deposit for each share of its $5 preferred stock, and $110 per share plus accrued dividends to the date of such deposit for each share of its $5.50 preferred stock and $6 preferred stock, not surrendered in exchange upon exercise of the above-mentioned warrants, in cancellation of all its preferred stock.

V. (a) Engineers will dissolve and, promptly thereafter, distribute pro rata to the holders of its common stock, without surrender by said holders of their certificates for common stock of Engineers:

(1) The entire 381,994 shares of El Paso common stock (reclassified) which will then be held by Engineers, on the basis of one-fifth of a share of El Paso common stock for each share of Engineers common stock held, and

(2) Approximately 94.4% (2,769,453 shares) of the common stock of Virginia, on the basis of 1.45 shares of Virginia common stock for each share of Engineers common stock held.

(b) In any case where the above proportions would result in a fraction of a share of common stock of either El Paso or Virginia, instead of fractional shares Engineers, through a Transfer Agent, will issue and distribute scrip, as described in the amended plan, exchangeable, when combined in lots aggregating one or more full shares of stock, for certificates for said shares, together with any dividends which shall have been paid in respect of such shares to stockholders of record on any date subsequent to the effective date of the amended plan and prior to the date of exchange.

(c) Upon surrender for exchange of such scrip aggregating one or more full shares of common stock of El Paso or Virginia, prior to the date of sale of such stock hereinafter referred to, said Transfer Agent will, in exchange for said scrip, deliver to the holder thereof a share or shares of such stock, together with any dividends which shall have been paid in respect of such shares to stockholders of record on any date subsequent to the effective date of the amended plan and prior to the date of exchange, and new scrip for any fraction in excess of a full share or shares.

(d) All shares of common stock of El Paso or Virginia reserved for delivery upon exchange of such scrip which shall not have been delivered in connection with such exchange within two years of the effective date of the amended plan will be sold by the Transfer Agent, subject to the provisions of paragraph 9 of Division C of the amended plan, and the Transfer Agent will distribute to the holders of scrip certificates not theretofore surrendered their proportionate part of the net proceeds of sale, plus their proportionate part of any dividends which shall have been declared to holders of record as of a date after the effective date of the amended plan and prior to the date of sale; except that in cases where the Engineers common stockholders cannot be located and where no valid claim is made for the net proceeds from the sale of said stock and the proportionate part of dividends referred to above within 10 years from the effective date of the amended plan, such net proceeds and proportionate part of dividends will be paid, with respect to net proceeds of El Paso stock and dividends, to El Paso, and with respect to net proceeds of Virginia stock and dividends, to Virginia.

(e) In cases where an Engineers common stockholder cannot be located and where no valid claim is made within 10 years from the effective date of the amended plan for the whole shares of El Paso or Virginia common stock distributable to such stockholder, such shares of stock will be returned to the issuing company for cancellation and the claims to dividends payable to holders of record of said shares after the effective date of the amended plan will be cancelled.

VI. Engineers will thereafter collect its assets and settle its debts and liabilities, and in connection therewith will, to the extent determined by its Board of Directors and subject to the provisions of paragraph 9 of Division C of the amended plan, sell and dispose of any or all of the assets not distributed as aforesaid, including all or any part of the Virginia common stock not theretofore distributed as above provided.

VII. After the final settlement of the affairs of Engineers and the payment of or provision for its debts and liabilities, it will distribute to its common stockholders its remaining assets, either in kind or in cash, in exchange for the certificates of Engineers common stock, and the Engineers common stockholders will surrender said certificates in exchange for such final distribution.

VIII. The foregoing transactions or any of them may be effected through and deliveries may be made to or through trustees, attorneys, transfer, exchange or other agents, or otherwise, and/or the stock and securities and other property may be delivered directly to those ultimately entitled thereto, all in any manner consistent with the Court order enforcing the amended plan and within the time limits, if any, specified in the amended plan or in said Court order.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

LAWRENCE R. LEEBY AND CO.

ORDER DIRECTING ADMISSION TO MEMBERSHIP IN NATIONAL SECURITIES ASSOCIATION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 6th day of January A. D. 1947.

In the matter of the application of Lawrence R. Leeby, doing business as Lawrence R. Lebby & Co., for membership in the National Association of Securities Dealers, Inc.

The National Association of Securities Dealers, Inc., a national securities association registered pursuant to section 15A of the Securities Exchange Act of 1934, having disapproved an application for membership made to it by Lawrence R. Leeby, doing business as Lawrence R. Leeby & Co.;

Lawrence R. Leeby having filed an application pursuant to section 15A (b) (4) of that act for an order approving or directing his admission to membership in said Association;

A hearing having been held after appropriate notice, and the Commission being duly advised and having this day issued its findings and opinion herein;

It is ordered, On the basis of said findings and opinion, that the National Association of Securities Dealers, Inc. be and it hereby is directed to admit Lawrence R. Leeby to membership in said Association.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 47-326; Filed, Jan. 14, 1947; 8:49 a. m.]

[File Nos. 54-129 and 59-80]

KINGS COUNTY LIGHTING CO. AND LONG ISLAND LIGHTING CO.

ORDER APPROVING AMENDED PLAN

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 9th day of January 1947.

In the matters of Kings County Lighting Company, File No. 54-129; Kings County Lighting Company, Long Island Lighting Company, File No. 59-80.

Kings County Lighting Company ("Kings"), a subsidiary company of Long Island Lighting Company ("Long Island"), a registered holding company, having filed an amended plan of recapitalization pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 ("act"), such plan providing, in general, for the reduction of its capitalization so as to have outstanding $2,200,000 aggregate par value of a new 4% cumulative preferred stock and a new no par value common stock having an aggregate stated value of $2,200,000 and the distribution of such new stocks, plus cash, to the holders of its presently outstanding preferred and common stocks; and

The Commission having instituted proceedings under section 11 (b) (2) of the act with respect to Kings, and the two proceedings having been consolidated for purposes of hearing and disposition; and

The Commission having issued its notice of filing and order for hearing on said amended plan and on said proceeding instituted pursuant to section 11 (b) (2) of the act; and

Copies of said notice of filing and order for hearing and copies of said amended plan having been mailed to each of the holders of preferred and common stocks of Kings (insofar as the identity of such security holders was known and available), notice having been given to all interested persons, public hearings having been held, at which hearings security holders of Kings and other interested persons were afforded an opportunity to be heard and requests for specific findings, briefs and oral argument having been waived; and

The Commission having considered the record and on December 13, 1946 having issued its findings and opinion finding said amended plan to be necessary to effectuate the provisions of section 11 (b) of the act but finding, among other things, that the allocation proposed in the amended plan with respect to the new securities and cash was not fair and equitable as between the holders of the preferred stock as a class and the holders of the common stock as a class, nor as among the holders of the three series of preferred stock, and stating that such allocations were required to be modified in the manner indicated in said findings and opinion before the amended plan could be found to be fair and equitable; and

Kings having filed on January 8, 1947, an amendment to the amended plan containing the modifications suggested by the Commission in its findings and opinion of December 13, 1946, and requesting the Commission, pursuant to section 11 (e) of the act, to apply to a court in accordance with the provisions of subsection (f) of section 18 of the act to enforce and carry out the terms and provisions of the amended plan, as modified; and

Kings having requested that the Commission enter an order finding that the transactions proposed in the amended plan, as modified, are necessary and appropriate to effectuate the provisions of section 11 (b) of the act and necessary and appropriate to effectuate the simplification of the Long Island Lighting Company holding company system in which Kings is a majority owned subsidiary and fair and equitable to the persons affected thereby, and that the order conform to the pertinent requirements of section 1808 (f) of the Internal Revenue Code and of Supplement R of the Internal Revenue Code, including section 371 and section 373 (a) thereof, and contain the recitals, specifications and itemizations therein required;

It is found, in accordance with said findings and opinion dated December 13, 1946, that the amended plan, as modified, is fair and equitable to the persons affected thereby, and that the suggested recitals, specifications and itemizations are appropriate.

It is ordered, Pursuant to section 11 (e) and the other applicable provisions of the act, that the amended plan, as modified, be, and hereby is, approved, subject to the conditions specified in Rule U-24 and subject to the reservation of jurisdiction over the reasonableness and appropriate allocation of all fees and expenses incurred and to be incurred in connection with the amended plan, as modified.

It is further ordered, That jurisdiction be, and hereby is, reserved to the Commission to entertain such further proceedings, to make such supplemental findings, and to take such further action as it may deem appropriate in connection with the amended plan, as modified, the transactions incident thereto and the consummation thereof, and, in the event that the amended plan, as modified, is not consummated with reasonable promptness, to enter such further orders as it may deem appropriate under section 11 (b) (2) of the act without further proceedings.

It is further ordered, That counsel for the Commission be, and they hereby are, authorized and directed to make application forthwith on behalf of the Commission to an appropriate United States District Court pursuant to the provisions of section 11 (e) and in accordance with subsection (f) of section 18 of the act, to enforce and carry out the terms and provisions of the amended plan, as modified.

It is further ordered, That this order shall not be operative to authorize the consummation of the transactions proposed in the amended plan, as modified, until an appropriate United States District Court shall, upon application thereto, enter an order enforcing said amended plan, as modified.

It is further ordered, That Long Island shall divest itself of all its interest in the new common stock of Kings to be acquired by it within one year following acquisition thereof, or within such longer period (not to exceed one additional year) as may be permitted for good cause pursuant to section 11 (c) of the act.

It is further ordered, And recited pursuant to and in exercise of the power and authority vested in the Commission by section 11 (b) of the Public Utility Holding Company Act of 1935, that the steps and transactions involved in the consummation of the amended plan, as modified, and recited in paragraphs 1 through 8 set forth below, are necessary and appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935 and are necessary and appropriate to effectuate the simplification of the Long Island Lighting Company holding company system in which Kings County Lighting Company is a majority owned subsidiary and fair and equitable to the persons affected thereby, and are hereby authorized, approved and directed; the steps and transactions which are hereby ordered, being specified and itemized as follows:

1. The issuance by Kings County Lighting Company of 44,000 shares of new 4% Preferred Capital Stock with a par value of $50 per share and with other rights and terms as set forth in the amended plan, as modified.

2. The issuance by Kings County Lighting Company of 440,000 shares of new Common Capital Stock without par value but with a value for capital purposes of $5 per share and in accordance with the terms set forth in the amended plan, as modified.

3. The distribution by Kings County Lighting Company of $194,871 in cash.

4. The transfer to Kings County Lighting Company, and the exchange by the present holders of the old Series B 7% Preferred Capital Stock of their stock for cash and securities upon the following basis: One share of old Series B 7% Preferred Capital Stock for one share of new 4% Preferred Capital Stock with a par value of $50 and 11 shares of new Common Capital Stock without par value and $9 in cash.

5. The transfer to Kings County Lighting Company and the exchange by the present holders of the old Series C 6% Preferred Capital Stock of their stock for cash and securities upon the following basis: One share of old Series C 6% Preferred Capital Stock for one share of new 4% Preferred Capital Stock with a par value of $50 and 9.2285+ shares of the new Common Capital Stock without par value and $8 in cash.

6. The transfer to Kings County Lighting Company and the exchange by the present holders of the old Series D 5% Preferred Capital Stock of their stock for cash and securities upon the following basis: One share of old Series D 5% Preferred Capital Stock for one share of new 4% Preferred Capital Stock with a par value of $50 and 8 shares of new Common Capital Stock without par value and $1 in cash.

7. The transfer to Kings County Lighting Company and the exchange by the present holders of the old Common Stock of their stock for securities upon the following basis: One share of old Common Stock for $^{6}/_{100}$ shares of the new Common Stock without par value but with a value for capital purposes of $5 per share.

8. The cancellation by Kings County Lighting Company of all of the old Series B 7% Preferred Capital Stock, old Series C 6% Preferred Capital Stock, old Series D 5% Preferred Capital Stock and old Common Stock received by Kings County Lighting Company from its stockholders pursuant to the transfers and exchanges listed in paragraphs 4 to 7 set forth above.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

Washington, Thursday, January 16, 1947

TITLE 7—AGRICULTURE

Chapter VIII—Production and Marketing Administration (Sugar Branch)

PART 802—SUGAR DETERMINATIONS

DETERMINATION OF FAIR AND REASONABLE WAGE RATES FOR PERSONS EMPLOYED IN PRODUCTION, CULTIVATION, OR HARVESTING OF SUGARCANE IN VIRGIN ISLANDS DURING CALENDAR YEAR 1947

Pursuant to the provisions of section 301 (b) of the Sugar Act of 1937, as amended, and after investigation and due consideration of the evidence obtained at the hearing held in Christiansted, Virgin Islands, on October 18, 1946, the following determination is hereby issued:

§ 802.51e *Fair and reasonable wage rates for persons employed in the production, cultivation, or harvesting of sugarcane in the Virgin Islands during the calendar year 1947.* The requirements of section 301 (b) of the Sugar Act of 1937, as amended, shall be deemed to have been met with respect to the production, cultivation, or harvesting of sugarcane in the Virgin Islands during the calendar year 1947, if all persons employed on the farm during that period in the production, cultivation, or harvesting of sugarcane shall have been paid in full for all such work and shall have been paid in cash therefor at rates not less than the following:

(a) *Basic time rates.* Per day of 8 hours $2.00. For a working day longer or shorter than 8 hours the rate shall be in proportion. For an individual whose productive capacity is impaired by age or physical or mental deficiency the wage rate shall be as agreed upon between the producer and the laborer, provided such rate is approved by the local supervisor of the Field Service Branch of the Production and Marketing Administration.

(b) *Wage bonus payment.* For each 25 cents that the New York price of raw sugar (duty paid, delivered basis), which is used as the basis for sale of the 1947 sugar crop, averages more than $5.94 per hundredweight, a bonus of 6 cents shall be paid for each day of work during the period covered by this determination.

(c) *Piece rates.* If work is performed on a piece rate basis, the average earnings for the time involved on each separate unit of work for which a piece rate is agreed upon shall be not less than the applicable daily or hourly rate provided under paragraphs (a) and (b) of this section.

(d) *General provisions.* (1) If the producer and laborer agree upon a wage rate for any class of work higher than that prescribed herein, payment in full of the agreed upon rate must be made to qualify the producer for payment.

(2) The producer shall furnish to the laborer, without charge, the perquisites customarily furnished by him such as a dwelling, garden plot, pasture lot, and medical services.

(3) The producer shall not, through any subterfuge or device whatsoever, reduce the wage rates to laborers below those determined above.

(Sec. 301, 50 Stat. 909; 7 U. S. C. 1131)

Issued this 10th day of January 1947.

[SEAL] CLINTON P. ANDERSON,
Secretary of Agriculture.

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Division of the Federal Register, the National Archives, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the Code of Federal Regulations, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended June 19, 1937.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15¢) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

NOTICE

General notices of proposed rule making, published pursuant to section 4 (a) of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 238), which were carried under "Notices" prior to January 1, 1947, are now presented in a new section entitled "Proposed Rule Making". Relationship of these documents to material in the Code of Federal Regulations, formerly shown by cross reference under the appropriate Title, is now indicated by a bold-face citation in brackets at the head of each document.

PART 131—GENERAL LICENSES UNDER EXECUTIVE ORDER NO. 8389, APRIL 10, 1940, AS AMENDED, AND REGULATIONS ISSUED PURSUANT THERETO

EXEMPTION OF TRANSACTIONS WITH RESPECT TO CERTAIN CURRENCIES AND SECURITIES

JANUARY 16, 1947.

Amendment to General License No. 87 under Executive Order No. 8389, as amended, Executive Order No. 9193, as amended, section 5 (b) of the Trading with the Enemy Act, as amended by the First War Powers Act, 1941, relating to foreign funds control.

Section 131.87 (General License No. 87) is hereby amended to read as follows:

§ 131.87 *Exemptions from section 2A (2) of the order and from General Ruling No. 5*—(a) *Transactions exempted from section 2A (2) of the order.* A general license is hereby granted exempting all transactions from the provisions of section 2A (2) of the order, except transactions with respect to any securities or evidences thereof which, whether in registered or bearer form, are transferable or assignable and which either

(1) Were issued or guaranteed prior to December 7, 1941, by the United States or any State, territory, district, possession, or other political subdivision, agency or instrumentality of or in the United States or by any partnership, association, corporation or other organization organized or having its principal place of business in the United States; or

(2) Were issued prior to December 7, 1941, and are payable in the United States exclusively or alternatively in United States dollars, regardless of the nature or location of the issuer;

Provided, That this exception shall not be deemed to preclude transactions with respect to securities or evidences thereof which are physically situated in Great Britain, Canada, Newfoundland, or Bermuda, or to which Form TFEL–2 has been attached, or with respect to which a certification under paragraph (1) of General License No. 95 has been issued.

(b) *Exemption of certain currencies and securities from General Ruling No. 5.* The following currencies and securities are hereby exempted from the provisions of General Ruling No. 5:

(1) United States currency in denominations of $20 or less and all foreign currencies; and

(2) All securities other than those to which the exception of paragraph (a) of this section applies.

(Sec. 5 (b), 40 Stat. 415, 966; sec. 2, 48 Stat. 1; 54 Stat. 179; sec. 301, 55 Stat. 839; 12 U. S. C. 95a; 50 U. S. C. App. Sup., 5 (b); E. O. 8389, Apr. 10, 1940, as amended by E. O. 8785, June 14, 1941, E. O. 8832, July 26, 1941, E. O. 8963, Dec. 9, 1941, and E. O. 8998, Dec. 26, 1941; E. O. 9193, July 6, 1942, as amended by E. O. 9567, June 8, 1945; 3 CFR, Cum. Supp., 10 F. R. 6917; Regulations, Apr. 10, 1940, as amended June 14, 1941, Feb. 19, 1946, June 28, 1946, and Jan. 1, 1947; 31 CFR, Cum. Supp., 130.1–7, 11 F. R. 1769, 7184, 12 F. R. 6)

NOTIFICATION TO EIGHTEEN YEAR OLD REGISTRANTS

Pursuant to the provisions of the Administrative Procedures Act, the following directive issued under authority of the Selective Training and Service Act of 1940, as amended, is hereby made a matter of record:

§ 671.204 *Notification to eighteen year old registrants*—(a) *Purpose.* As a result of the decision of the War Department suspending inductions through the Selective Service System, it is believed that registrants who are presently 18 years of age have little knowledge of, or have overlooked, their potential liability for military training and service and their responsibilities under the Selective Training and Service Act of 1940, as amended. Under the circumstances, therefore, it has been determined that each such person, upon approaching the age of 19 years, should be given formal notification that his case will soon come before his local board for the determination of his Selective Service classification.

(b) *Action by local boards.* Local boards should forward such formal notification to each 18 year old registrant approximately 30 days before his nineteenth birthday. He should be advised that his classification will be considered by his local board when he reaches the age of 19 years and that, in order that his classification may be fairly determined upon the basis of all pertinent information, he should submit in writing to his local board for its consideration any and all evidence he believes will have a bearing upon his classification.

(c) *Form of notification.* Each State Director should prepare a form letter to be used by the local boards within his State in forwarding such notification to 18 year old registrants. (54 Stat. 885 as amended, 50 U. S. C. and Sup. App. 310)

LEWIS B. HERSHEY,
Director.

[F. R. Doc. 47-430; Filed, Jan. 15, 1947; 8:47 a. m.]

[State Director Advice No. 258, Issued: 1/18/44, as Amended: 1/15/47]

PART 672—STATE DIRECTOR ADVICES

DISPOSAL OF RECORDS

Pursuant to the provisions of the Administrative Procedures Act, the following directive issued under authority of the Selective Training and Service Act of 1940, as amended, is hereby made a matter of record:

§ 672.258 *Disposal of records*—(a) *Statutory requirements and procedures*—(1) *Authorization required.* Records of the Selective Service System will be finally disposed of only as authorized by the Director of Selective Service. The term "records" as used herein includes all forms, regulations, memoranda, papers, maps, films, directives, books, pamphlets, and documentary material of any kind, created or received by or designed for official use by the Selective Service System, and all correspondence or copies of correspondence, as well as Cover Sheets, Classification Records, Minute Books and Registration Cards.

(2) *Requests by State Directors for disposal authorization.* Requests for authority to dispose of forms or other records in State Headquarters or local boards may be initiated by the State Director having jurisdiction. The request for disposal authorization will include the following information: identification, source of data, use, period of use, distribution, approximate number and location, and will be accompanied by two working copies withdrawn from the files. Upon receipt of a State Director's recommendation, the Director will, if in agreement, issue instructions in the manner outlined in subparagraph (3) of this paragraph.

(3) *Issuance of disposal authorization.* Authorization for the final disposal of records at State Headquarters, local boards, and boards of appeal, will be issued in the following manner:

(i) Local Board Memoranda will be issued by the Director for the disposal of local board records not readily adaptable to Form Disposal Instructions, and for general instruction purposes.

(ii) Form Disposal Instructions will be issued by the Director, authorizing the disposal of designated copies of completed DSS Forms and Standard Forms.

(iii) Authorization to dispose of State Headquarters records which are more or less common to all States will be included in this State Director Advice. Additional authorizations will be added from time to time as the necessity occurs.

(iv) Authorization to dispose of records created by the State Director for use within, and peculiar to, an individual State will be issued by the Director in individual letters of authorization.

(4) *State Director instructions to local boards.* F. F. A. Bulletin, Supplies and Equipment, 8-2, provides for the issuance by State Directors of instructions to local boards covering the sale, salvage, or other disposal of waste paper.

(5) *Microfilming.* State Directors will not authorize or engage in the microfilming of any records whatsoever without first obtaining the approval of the Director of Selective Service.

(6) *Definitions.* In the preparation of Form Disposal Instructions, certain terminology is used. The definitions of these terms are set forth below:

(i) *Mutilation.* (*a*) Blank forms: Destruction sufficient to prohibit their reuse.

(*b*) Completed forms or documents: Destruction sufficient to separate the registrant's name from the record content.

(ii) *Maceration.* Destruction by chemical equipment (available only in certain areas).

(iii) *Shredding.* Destruction by mechanical shredder (available only in certain areas).

(iv) *Burning.* Destruction by fire.

(v) *Identification of copy.* A copy will be referred to in the nomenclature outlined herewith:

(*a*) Original—The ribbon copy.

(*b*) First Copy—Will designate the duplicate.

(*c*) Second Copy—Will designate the triplicate.

(*d*) Third Copy—Will designate the quadruplicate.

(*e*) All Copies—Will designate the ribbon copy and all existing copies.

(vi) *Permanent record or permanent record copy.* The file group or copy designated for preservation.

(vii) *Salvage.* The delivery of material by sale, gift, or donation to a third party for conversion into paper products.

(viii) *Identical copies.* Copies will be considered identical when there is complete duplication of content, including signature and marginal notes.

(ix) *Confidential records.* Any record that has been classified in accordance with Local Board Memorandum No. 58, or falls within the provisions of § 605.31 of this chapter.

(x) *Disposal.* The term "disposal" will include destruction, transfer, permanent filing, or storage.

(7) *Transfers of records to State agencies.* (i) In a letter dated August 10, 1945 (0-18-247), each State Director was requested to express the interest of his State, or of an agency within his State, with respect to the acquisition of Selective Service records authorized for disposal. At a recent State Directors' Conference at this Headquarters, the possibility that all Selective Service records pertaining to an individual State would be made a permanent record of that State was discussed, and received considerable favorable comment. The following instructions relative to the transfer of records which have been authorized for destruction, are not to be construed as part of any contemplated action looking toward the centralization of current records at State Headquarters, or plans for the permanent filing of Cover Sheets, Registration Cards, and Classification Records within the States. These instructions are prepared to cover only records authorized for destruction and their transfer to State agencies which are beyond the administrative control of the Selective Service System. The procedure to be followed is outlined in subdivisions (iv) and (v) of this subparagraph.

(ii) Regulations of the National Archives Council adopted July 30, 1945, provide, in part, that records authorized for disposal may be transferred, with the approval of the Archivist of the United States and without cost to the Federal Government, to any governmen, organization, institution, corporaion, or person that has made application for them.

(iii) While the regulations of the National Archives Council provide that records may be transferred to institutions, corporations and persons, it has been administratively determined that the transfer of Selective Service Records will be restricted to State governmental, and quasi-governmental agencies, supported wholly, or in part, by State funds and for the public benefit. It has been further administratively determined that confidential records will not normally be transferred to non-Federal agencies.

(iv) State Directors should advise interested agencies within their respective States of the policy in this connection. A request for the transfer or acquisition of records should be initiated in writing by the agency concerned, including (*a*) name and address, (*b*) location of depository, (*c*) identity of record, including form number and title when applicable, (*d*) purpose for which desired, and (*e*) a statement that the requesting agency is governmental or quasi-governmental in character.

(v) Upon receipt of a request for the transfer or acquisition of records, the State Director will transmit such request to the Director of Selective Service, who will forward it to the Archivist of the United States for approval. The State Director, upon receipt of and in accordance with the decision of the Archivist of the United States, transmitted through the Director of Selective Service, shall transfer the physical custody of such records, or destroy them in accordance with the previously issued Disposal Instructions. It is emphasized that only those non-confidential records which have been authorized for destruction will be available for transfer to a State agency, and that the approval of the Archivist of the United States is required. All such transfers must be made without cost to the Federal Government.

(*b*) *Record groups authorized for disposal*—(1) *State publications and reports.* (i) State Directors have from time to time prescribed (*a*) Instructional Bulletins and Circulars, and (*b*) letters, lists, and schedules of transmittal. A letter to all State Directors dated April 5, 1945 (0-18-203), requested that a complete set of all instructional bulletins and circulars, including transmittal media, be furnished National Headquarters for archival purposes. State Directors are responsible for the assembling and transmittal of copies of these media to this Headquarters.

(ii) Selective Service Regulations covering the registration of the several age groups required that local boards report to the Governor or the State Director their state of readiness, the number of completed registration cards filed, and the total registration for each local board area. In addition, certain State Directors required that local boards prepare and submit lists and reports in connection with each registration.

(iii) State Directors have required local boards to submit special reports peculiar to their jurisdictions concerning classification, deferment, occupation, appeals, delinquency, induction, and the veterans' assistance program. These reports have been, in large part, supplemental to reports prescribed by this Headquarters.

(iv) State Directors are authorized to dispose of, after retention for three months, or after administrative need has been fulfilled, whichever is the greater period, all material described in subdivisions (i), (ii), and (iii) of this subparagraph. This authorization will not be construed to include reports pertaining to personnel or fiscal matters, or material filed in Cover Sheets.

(2) *Personnel records.* (i) This Headquarters has returned to State Directors the temporary personnel folders of employees separated from service, which had been maintained hereat for administrative purposes during such employees' tenure of office. State Directors have previously been instructed to incorporate in the permanent personnel folder all such material not duplicated therein, and to place such duplicated material in a separate transfer case or file pending the issuance of disposal instructions.

(ii) Extra copies of the following personnel records may be disposed of, by mutilation and salvage, after the lapse of the period of time shown, or after administrative needs have been fulfilled, whichever is the greater period, provided that when such material is confidential to an employee, it shall be macerated, shredded, or burned:

(*a*) Copies of personnel forms and correspondence received from National Headquarters in accordance with subdivision (i) of this subparagraph, which are duplicates of material already on file in the permanent personnel file maintained at State Headquarters, after three months' retention.

(b) Copies of Standard Form 50, Notification of Personnel Action, which are duplicates of other copies in the permanent personnel folder maintained at State Headquarters, after three months' retention.

(iii) All copies of the following personnel records and correspondence, not specified for filing in the personnel folder of individual employees, may be disposed of by mutilation and salvage after the lapse of the period of time shown, or after administrative needs have been fulfilled, whichever is the greater period:

(a) Notice of efficiency ratings, except Standard Form 51 or equivalent, after six months' retention.

(b) Letters and telegrams offering appointments, after six months' retention.

(c) Welcoming Letters, after six months' retention.

(d) Letters of Introduction, after six months' retention.

(e) Papers submitted in examinations to determine the suitability of employees for promotion or reassignment, after one year's retention.

(f) Statistical work reports on interviews, separations, and other personnel actions, after eighteen months' retention.

(g) Lists of names for, and papers relating to, changes in employee and telephone directories, after six months' retention.

(h) Reports of tardiness, after eighteen months' retention.

(i) Daily, weekly, semi-monthly and monthly reports of absence and time, excluding Standard Forms 72 and 72a, Time and Attendance Report. All record copies, except record copies in agency fiscal offices, after eighteen months' retention.

(iv) All copies of the following uncompensated personnel records, relating only to registrars and transitory volunteer workers, will be disposed of by mutilation and salvage after the administrative needs of the State Director have been fulfilled:

(a) Oaths taken by registrars in accordance with section XII, Volume Two, Registration, Selective Service Regulations, First Edition.

(b) Oaths of office and waivers of pay executed by registrars and transitory volunteer workers only.

(c) Lists of registrars and transitory volunteer workers.

(d) Control, index, and administrative records pertaining to registrars and volunteer workers.

(3) *Fiscal, accounting, and property records.* (i) The disposal of fiscal records involves problems of personal and legal responsibility on the part of State Procurement Officers which can be resolved, in a large part, by the individual officers concerned. The Comptroller General of the United States, as the officer responsible for the audit of disbursements of Selective Service Funds, has agreed that certain second copies of fiscal documents in possession of the Selective Service System are non-record in character, preserved solely for convenience of reference, and therefore disposable after settlement and adjustment. The Chief of Finance, U. S. Army, as the accountable officer charged with disbursement of Selective Service Funds, has stated that that office has no objection to the destruction of second copies of such fiscal documents. The original, or record documents, with supporting papers, are on file in the General Accounting Office, while first copies thereof, with some supporting papers, are retained in the office of the Chief of Finance, U. S. Army.

(ii) No fiscal records shall be destroyed against which obligations are outstanding. Where an exception has been taken or a discrepancy exists, such documents shall be retained until final clearance and settlement. Fiscal records released for destruction which the State Procurement Officer wishes to retain for personal reasons, may be delivered into his custody with the consent of the State Director, and the approval of this Headquarters.

(iii) State Directors are hereby authorized to dispose of second copies of the documents listed below, after administrative needs have been fulfilled. It will be noted that the date of the document is the controlling factor in determining its disposability. When several dates appear in the document and supporting papers, the latest date will control:

(a) Copies of Vouchers, Per Diem and/or Reimbursement of Expenses (Standard Form 1012-a) including copies of Continuation Sheet (Standard Form 1012-c) with all attachments, dated prior to July 1, 1943.

(b) Copies of Statement of Travel by Motor Vehicle (Standard Form 1012-e, Revised), with all attachments, dated prior to July 1, 1943.

(c) Copies of Vouchers for Purchases and Services other than personal (memorandum), (Standard Form 1034-c) (Revised), including Continuation Sheet of Memorandum (Standard Form 1035-A, Revised), with all attachments, dated prior to July 1, 1943.

(d) Copies of Schedules of Disbursements (Standard Form 1064), with all attachments, dated prior to July 1, 1943.

(e) Copies of Mileage Vouchers (Memorandum), (Standard Form 1071-a, Revised), with attachments, dated prior to July 1, 1943.

(f) Copies of Vouchers for Transfer Between Appropriation and/or Final Accounts (Standard Form 1080-a, Revised), (Memorandum Disbursement Voucher—Yellow), and (Standard Form 1080-c, Revised), (Memorandum of Collection Voucher—Green), with all attachments, dated prior to July 1, 1943, if not current or in force.

(g) Copies of Standard Forms of Government Lease (Real Estate), (Standard Form 2), Request for Approval of Lease, (Public Buildings Administration Form P-S-C-6), Notice of Renewal of Lease (DSS Form 19), Supplement to Lease (DSS Form 244), and Statement of Fair Market Value (DSS Form 270), with all attachments, dated prior to July 1, 1943, if not current or in force.

(h) Copies of Standard Forms of Government Bid (Supply), (Standard Form 31), Contract (Supplies), Standard Form of Contract, (Standard Form 33), including Standard Government Form of Continuation Sheet (Standard Form 36), with all attachments, dated prior to July 1, 1943, if not current or in force.

(i) Copies of Contracts for Telephone Service (Standard Form 48), and Standard Government Form of Contract (Coal), with all attachment, dated prior to July 1, 1943, if not current or in force.

(iv) Form Disposal Instructions covering prescribed DSS Forms relating to fiscal matters, referred to in subdivision (iii) (g) of this subparagraph, will also be found in Part Two of the Form Manual.

(v) State Directors who have created fiscal records peculiar to their own jurisdiction should advise this Headquarters, requesting authority to dispose of such records, attaching copies and a brief description of their function.

(4) *Miscellaneous record groups.* (i) Correspondence between State Directors and the various administrative agencies of the Selective Service System pertaining to individual registrants, as well as with other persons not connected with the System, has resulted in a large accumulation of material at many State Headquarters. It would appear that this State Headquarters correspondence is, in a great majority of instances, a duplication of the information in the Cover Sheet (DSS Form 53) of the registrant concerned. Requests have been received from some State Directors for authority to dispose of this correspondence.

(ii) Correspondence which, in the discretion of the State Director, belongs in the Cover Sheet (DSS Form 53) should be forwarded to the appropriate local board for filing.

(iii) State Directors are hereby authorized to dispose of, by macerating or shredding, and salvage, after administrative needs have been fulfilled, or after three months' retention, whichever is the greater period, all copies of the material described in subdivision (i) of this subparagraph, when in their opinion it is a duplication of the information contained in the Cover Sheet of the registrant concerned. When macerating or shredding equipment is not available, this material shall be burned.

(iv) State Directors have created and maintained certain records at State Headquarters and local boards for the purpose of controlling incoming communications. These records are of a varied character, consisting, in the greater part, of mailing lists; records of the receipt and routing of incoming mail; production reports of types of communications handled and work performed; records of remittances such as checks, cash, money orders, and other enclosures received in incoming mail; records of incoming and outgoing registered, insured, and special delivery mail, parcel post, express, telegrams, and radiograms; return receipts of registered, insured, and special delivery mail; reports of postage used on outgoing mail; statements of the mailing of canceled or metered matter; reports of loss, rifling, delay, wrong delivery, or other improper treatment of mail matters; records of official penalty mail sent, and requisitions for postage stamps. These mailroom functions have involved the use of U. S. Post Office Department Forms, or their equivalent, and forms or control records devised by State Headquarters. State Directors are hereby authorized to dispose of after retention for one year, all records referred to in this subparagraph and similar records created by the State Director and used in the normal functions of a mailroom. This authority does not apply to the record of official penalty mail sent, which must be retained two years, nor to copies of requisitions for postage stamps, rubber stamps, and other mailroom items involving the expenditure of funds when such copies are used as supporting documents to payment vouchers.

(v) State Directors have in their files certain material which may best be described as "Informational Services and Relations with the Public." These records consist of mailing lists; correspondence and other records relating to changes in mailing lists; requests for publications and acknowledgments and replies to such acknowledgments of inquiries and requests which have been referred to other government agencies; requests for information and replies thereto involving no administrative action, no policy decisions, and no special compilations or research for reply, including requests for information and inquiries to which replies are made by printed or duplicated material; and anonymous letters and letters of commendation, complaint, criticism and suggestion, and replies to such. State Directors are authorized to dispose of, after retention for six months, all such records as are referred to in this subparagraph, excluding those letters of complaint on the basis of which investigations were made, or administrative action was taken, or those incorporated in individual personnel records.

(c) *Record of disposals*—(1) *Records disposal action and report.* (i) Each State Headquarters will maintain a record of all records disposed of at State Headquarters, in addition to the Certificate of Disposal of Confidential Records (DSS Form 380) received from local boards. These records should contain the following data:

(a) Identity of disposal authorization.

(b) Quantity (In cubic feet or pounds).

(c) Manner of disposal.

(d) Certificate of disposal of confidential records (When applicable).

(ii) From time to time National Headquarters will ask for a report on the volume of all records disposed of at State Headquarters, and the volume of confidential records disposed of at local boards. The above records are considered adequate to meet any anticipated requirements for data of this nature.

(d) *Rescission of certain state director advices; purpose of this section.* This State Director Advice is issued for the purpose of combining and condensing herein the provisions of all State Director Advices pertaining to the disposal of records. State Director Advice No. 258-A, Issued: 10/2/44, Subject: Records, State Director Advice No. 258-C, Issued: 6/26/45, Subject: Disposal of Certain State Publications, State Director Advice No. 258-F, Issued: 10/12/45, Subject: Disposal of Records—State Reports, State Director Advice No. 258-G (11 F. R. 12045); Issued 1/5/46, As Amended: 10/11/46, Subject: Disposal of Personnel Records, State Director Advice No. 258-I, Issued: 5/28/46, Subject: Disposal of Records—Correspondence Files at State Headquarters, State Director Advice No. 258-J (11 F. R. 12046); Issued: 10/11/46, Subject: Disposal of Records—Transfers to State Agencies, and State Director Advice No. 258-K (11 F. R. 12046); Issued: 10/11/46, Subject: Disposal of Records: (a) Mail and Postal Records, (b) Records of Informational Services and Relations with the Public, have been incorporated herein and are therefore hereby rescinded. State Director Advice No. 258-D, Issued: 6/29/45, Subject: Disposal of Records of Fourth Registration, State Director Advice No. 258-E, Subject: Disposal of Records—Replacement Schedules—Manning Tables, and State Director Advice No. 258-H, Issued: 3/4/46, Subject: Disposal of Records—Veterans Assistance Record, have served their purpose and are therefore hereby rescinded. (54 Stat. 885 as amended, 50 U. S. C. and Sup. App. 310)

LEWIS B. HERSHEY,
Director.

[State Director Advice No. 344, Issued: 1/14/47]

PART 672—STATE DIRECTOR ADVICES

OCCUPATIONAL CLASSIFICATION OF MEN IN MERCHANT MARINE

Pursuant to the provisions of the Administrative Procedures Act, the following directive issued under authority of the Selective Training and Service Act of 1940, as amended, is hereby made a matter of record:

§ 672.344 *Local Board Memorandum No. 115;*[1] *certification plan; occupational classification of men in the Merchant Marine.* (a) Pursuant to a request from the Office of Temporary Controls, the certification of certain registrants specified in Part IV of Local Board Memorandum No. 115 as previously authorized is continued. The Office of Temporary Controls has requested the Civilian Production Administration of the Office of Temporary Controls, the United States Office of Education, and the National Housing Agency to assist the Selective Service System in the program. The functions previously performed by the Office of Scientific Research and Development have been assumed by the Civilian Production Administration of the Office of Temporary Controls, Washington 25, D. C., with the exception of the certification of advanced students in the physical sciences or engineering and of registrants engaged in university research in the physical sciences or engineering (Part IV, paragraphs 1 and 2), which functions have been assumed by the United States Office of Education.

(b) As of January 1, 1947, the United States Maritime Commission discontinued the submission of deferment requests for registrants employed as merchant seamen in the Merchant Marine. Employers have been notified by the United States Maritime Commission that they will be required to file requests for occupational deferment under policies and procedures described in Part II, paragraphs 1 and 3, of Local Board Memorandum No. 115.

(54 Stat. 885 as amended; 50 U. S. C. and Sup. App. 310)

LEWIS B. HERSHEY,
Director.

[Amdt. 289]

PART 801—GENERAL REGULATIONS

PROHIBITED EXPORTATIONS

Section 801.2 *Prohibited exportations* is amended as follows:

The list of commodities set forth in paragraph (b) is amended in the following particulars:

1. The following commodities are hereby added to the list of commodities:

Dept. of Com. Sched. B No.	Commodity	Unit	GLV dollar value limits country group	
			K	E
630301	Aluminum sheets, plates, and strips.	Lb...	100	25

2. The following commodities are hereby deleted from the list of commodities:

Dept. of Comm. Sched. B No.	Commodity
	Naval stores, gums and resins:
211000	Gum rosin.
211100	Wood rosin.
218909	Colophony.
218909	Rosin oil.
218909	Sulfate wood rosin.
	Construction and conveying machinery:
723100	Concrete block machines, except multiple-mold.
	Other industrial machinery:
775098	Brick making machinery and parts.
	Chemical specialties:
825100	Ester gums in powder, flake or liquid form (include scrap).
825300	Rosin-modified maleic and fumaric resins.
825500	Pentaerythritol esters of rosin, glycol esters of rosin, and methyl esters of rosin.
829990	Rosin size.
	Industrial chemicals:
837900	Sodium resinate.

Shipments of the commodities added to the list of commodities which were on dock, on lighter, laden aboard an exporting carrier, or in transit to a port of exit pursuant to an actual order for export prior to the effective date of this

amendment may be exported under the previous general license provisions. This amendment shall become effective immediately except that, with respect to the commodities added to the list of commodities, it shall become effective on January 22, 1947.

(Sec. 6, 54 Stat. 714; 55 Stat. 206; 56 Stat. 463; 58 Stat. 671; 59 Stat. 270; 60 Stat. 215; 50 U. S. C. App. Sup. 701, 702; E. O. 9630, September 27, 1945, 10 F. R. 12245)

Dated: January 8, 1947.

FRANCIS MCINTYRE,
Deputy Director for Export Control, Commodities Branch.

[Amdt. 288]

PART 801—GENERAL REGULATIONS

PROHIBITED EXPORTATIONS

Section 801.2 *Prohibited exportations* is amended as follows:

The list of commodities set forth in paragraph (b) is amended in the following particulars:

1. The following commodities are hereby added to the list of commodities:

Dept. of Com. Sched. B No.	Commodity	Unit	GLV dollar value limits country group	
			K	E
806000	Benzol	Gal...	100	25
892300	Phenol	Lb...	100	25
825500	Synthetic gums and resins: In powder, flake or liquid form (scrap included): Tar-acid resins; phenol-formaldehyde resins only.	Lb...	100	25
826000	Sheets, plates, rods, tubes, and other unfinished forms: Laminated; phenol-formaldehyde resins only.	Lb...	100	25
826100	Not laminated; phenol-formaldehyde resins only.	Lb...	100	25

2. The following commodities are hereby deleted from the list of commodities:

Dept. of Comm. Sched. B No.	Commodity
	Iron and steel manufactures:
615698	Crosscut and hand saws and parts.
618000	Door locks and lock sets of iron, steel, brass, and bronze; panic bolts, prison locks, and rim deadlocks only.
618200	Hinges and butts, iron and steel; cabinet and furniture hinges only.
618300	Other builders' hardware, except barrel bolts, casement handles, catches, door bolts, door knobs, door pulls, door springs, (coil), hasps, hinge parts, latches, lock parts, sash adjusters, sash balances, sash fasteners, storm window operators, window catches, window fasteners, and window latches.
	Iron and steel manufactures—Con.
	Iron and steel manufactures, n. e. s.:
620998	Robertson protected metal roofing sheets; roofing, steel, asbestos-coated; roofing, steel, asphalt-coated; and roofing, tile, vitrified steel.
620998	Metal sheet culverts.
	Brass and bronze manufactures:
645600	Plumbers' brass goods; thermostatic water mixing valves only.
646500	Hinges and butts of brass or bronze; cabinet and furniture hinges only.
647998	Brass and bronze window strips, windows, and parts.

3. A qualifying footnote reference meaning "Requires individual license for export to all areas except the Philippine Islands and all countries in North America and South America as listed in Schedule C of the Bureau of the Census, U. S. Department of Commerce" is hereby added with respect to the following commodities:

Dept. of Comm. Sched. B No.	Commodity
	Grains and Preparations:
103500	Grain sorghums (bu. 56 lbs.) except seed (report grain sorghum for seed in 241990).

Shipments of the commodities added to the list of commodities which were on dock, on lighter, laden aboard an exporting carrier, or in transmit to a port of exit pursuant to an actual order for export prior to the effective date of this amendment may be exported under the previous general license provisions. This amendment shall become effective immediately except that, with respect to the commodities added to the list of commodities it shall become effective on January 22, 1947.

(Sec. 6, 54 Stat. 714; 55 Stat. 206; 56 Stat. 463; 58 Stat. 671; 59 Stat. 270; 60 Stat. 215; 50 U. S. C. App. Sup. 701, 702; E. O. 9630, September 27, 1945, 10 F. R. 12245)

Dated: January 8, 1947.

Chapter IX—Office of Temporary Controls, Civilian Production Administration

AUTHORITY: Regulations in this chapter unless otherwise noted at the end of documents affected, issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236, 56 Stat. 177, 58 Stat. 827, and Public Laws 270 and 475, 79th Congress; Public Law 388, 79th Congress; E. O. 9024, 7 F. R. 329; E. O. 9040, 7 F. R. 527; E. O. 9125, 7 F. R. 2719; E. O. 9599, 10 F. R. 10155; E. O. 9638, 10 F. R. 12591; C. P. A. Reg. 1, Nov. 5, 1945, 10 F. R. 13714; Housing Expediter's Priorities Order 1, Aug. 27, 1946, 11 F. R. 9507; E. O. 9809, Dec. 12, 1946, 11 F. R. 14281; OTC Reg. 1, 11 F. R. 14311.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-1067]

W. C. MOSS AND HARRY S. KRAMER, JR.

W. C. Moss and Harry S. Kramer, Jr., are partners doing business as Broadview Investment Company and as such own and operate the Broadview Hotel building at 4th and Broadway in East St. Louis, Illinois. On June 18, 1946, they filed application on Form CPA-4423 for authorization to make alterations upon the hotel to improve dining room service, at a cost of $9,500, which was authorized July 8, 1946. Thereafter they began and carried on construction of a new cocktail lounge in a room at the opposite end of the hotel and across the hotel lobby from the dining room at a cost greatly in excess of the amount authorized for alterations to improve dining room service. This construction was not in accordance with the terms of the authorization and was in violation of Veterans' Housing Program Order No. 1. This violation has diverted critical materials to uses not authorized by the Civilian Production Administration. In view of the foregoing, it is hereby ordered that:

§ 1010.1067 *Suspension Order No. S-1067.* (a) Neither W. C. Moss and Harry S. Kramer, Jr., doing business as Broadview Investment Company, nor any other person shall do any further construction or alteration in the room approximately 40 feet by 60 feet intended to be a cocktail lounge located in the southwest corner of the Broadview Hotel building at 4th and Broadway Streets, East St. Louis, Illinois, including completing or altering such room, unless hereafter specifically authorized in writing by the Civilian Production Administration.

(b) W. C. Moss and Harry S. Kramer, Jr., shall refer to this order in any application or appeal which they may file with the Civilian Production Administration for authorization to carry on construction.

(c) Nothing contained in this order shall be deemed to relieve W. C. Moss or Harry S. Kramer, Jr., doing business as Broadview Investment Company, or otherwise, their or its successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 15th day of January 1947.

CIVILIAN PRODUCTION ADMINISTRATION,
By J. JOSEPH WHELAN,
Recording Secretary.

[F. R. Doc. 47-498; Filed, Jan. 15, 1947; 11:19 a. m.]

Chapter XVIII—Office of Temporary Controls, Office of War Mobilization and Reconversion (Stabilization)

[Directive 144]

PART 4003—SUBSIDIES: SUPPORT PRICES

SUGAR BEETS, 1947 CROP

§ 4003.4c *Sugar beets, 1947 crop.* The Secretary of Agriculture has recommended to me changes in the 1947 Sugar Beet Price Support Program, as authorized and directed in Directive 138 (11 F. R. 13422) of the Director of the Office of War Mobilization and Reconversion, issued November 6, 1946. The Secretary recommends that the proposed contract between Commodity Credit Corporation and the processors of sugar beets in the United States should properly include an agreement by Commodity Credit Corporation to reimburse such processors to the extent that a weighted average seaboard basis price for refined cane sugar for the 1947-crop marketing year for beet sugar is less than $8.20 per 100 pounds, rather than $8.10 per 100 pounds as originally contemplated, in order for such processors to guarantee to growers a payment for 1947-crop sugar beets equivalent to a national average of $14.50 per ton.

The Secretary also recommends that the contract, as originally proposed, should include an agreement by Commodity Credit Corporation to make a payment to such processors in the event that it should undertake subsidies with respect to 1947-crop or 1948-crop Cuban sugar to the extent that these subsidies prevent the price of fine granulated sugar in the United States from reaching a level as far above $8.20 per 100 pounds as would otherwise be required to permit Commodity Credit Corporation to sell such sugar without loss. The amount of this payment, if the subsidy is undertaken with respect to 1947-crop Cuban sugar, would be made on all beet sugar sold during 1947; if the subsidy is undertaken with respect to 1948-crop Cuban sugar, the payment would be restricted to 1947-crop beet sugar sold in 1948.

After careful consideration, I hereby find that the proposed amendment to the program authorized and directed in Directive 138 of the Director of the Office of War Mobilization and Reconversion is necessary to insure the maximum necessary production and distribution of domestic beet sugar from the 1947 crop of sugar beets.

The Department of Agriculture is authorized and directed to carry out, through the Commodity Credit Corporation, the price support program for the 1947 crop of domestic sugar beets as authorized and directed in Directive 138 of the Director of the Office of War Mobilization and Reconversion, with the amendments described herein (and as described in further detail in the letter of December 26, 1946, from the Secretary of Agriculture and the supplementing documents), to the extent that such program involves the payment of subsidies within the meaning of that term as used in the Emergency Price Control Act, as amended, and the Price Control Extension Act of 1946. (56 Stat. 765; 58 Stat. 632, 642, 784; 59 Stat. 306; Pub. Law 548, 79th Cong.; 15 U. S. C. 713a-8, 713a-8 note, 50 U. S. C. App. Sup. 901-903, 921-925, 961-971; E. O. 9250, Oct. 3, 1942, 7 F. R. 7871; E. O. 9328, Apr. 8, 1943, 8 F. R. 4681, E. O. 9599, Aug. 18, 1945, 10 F. R. 10155, E. O. 9651, Oct. 30, 1945, 10 F. R. 13487, E. O. 9697, Feb. 14, 1946, 11 F. R. 1691, E. O. 9699, Feb. 21, 1946, 11 F. R. 1929, E. O. 9762, July 25, 1946, 11 F. R. 8073, E. O. 9809, Dec. 12, 1946, 11 F. R. 14281)

Issued and effective this 9th day of January 1947.

PHILIP B. FLEMING,
Temporary Controls Administrator.

[F. R. Doc. 47-483; Filed, Jan. 15, 1947; 8:46 a. m.]

Chapter XXIII—War Assets Administration

[Reg. 14, Amdt. 1]

PART 8314—DISPOSAL TO NONPROFIT INSTITUTIONS AND DISCOUNTS FOR EDUCATIONAL OR PUBLIC-HEALTH INSTITUTIONS OR INSTRUMENTALITIES

War Assets Administration Regulation 14, October 1, 1946, entitled "Disposal to Nonprofit Institutions and Discounts for Educational or Public-Health Institutions or Instrumentalities" (11 F. R. 11505) is hereby amended in the following respects:

1. Section 8314.1 (b) is amended by adding a new subparagraph (5) at the end thereof to read as follows:

(5) "Commercially unsalable property" as used herein is distinguished from property of no commercial value as used in Part 8319[1] and means property (i) which by reason of its condition resulting from damage, wear, obsolescence, or otherwise has no reasonable prospect of sale except as scrap or salvage, or (ii) with respect to which the estimated cost of care and handling and disposition will exceed the estimated proceeds unless it is promptly sold as scrap or salvage.

2. Section 8314.2 is amended by deleting the second sentence therefrom and substituting the following in lieu thereof: "It shall not apply to any disposals of real property; nor to personal property appurtenant to or assigned for disposal in connection with real property and disposed of under Parts 8305,[2] 8310,[3] 8316,[4] or 8320[5]; nor to aeronautical property disposed of pursuant to Order 4[6] under Part 8304.[7]"

3. Section 8314.5 is amended by inserting the following new material:

§ 8314.5 *Disposal of commercially unsalable property.* Upon a determination by the disposal agency that surplus property in its possession is commercially unsalable, such property may be disposed of as salvage or scrap at prices which will reflect the benefit which has accrued or may accrue to the United States from the use of such property by nonprofit educational or public-health institutions or instrumentalities: *Provided*, That such nonprofit institutions are exempt from taxation under section 101 (6) of the Internal Revenue Code.

4. Section 8314.8 (b) is amended to read as follows:

§ 8314.8 (b) *Acquisition at competitive sales.* (1) Any nonprofit institution shall be entitled to compete on the same terms and conditions as other classes of purchasers whenever surplus property which has been previously offered for sale at fixed prices to priority claimants is offered at competitive bid sales.

(2) Institutions eligible for discounts pursuant to the provisions of § 8314.9 (b) of this part shall be accorded such discounts when acquiring surplus property at competitive bid sales in those cases where the property has not previously been offered to priority claimants and when the fair value for priority claimants is fixed after examining the competitive bids.

Surplus Property Act of 1944 as amended; 58 Stat. 765 as amended; 50 U. S. C. App. Sup. 1611; Pub. Law 181, 79th Cong.; 59 Stat. 533; 50 U. S. C. 1614a, 1614b; and E. O. 9689 (11 F. R. 1265)

This amendment shall become effective January 13, 1947.

ROBERT M. LITTLEJOHN,
Administrator.

JANUARY 13, 1947.

[Reg. 17,[1] Order 6]

PART 8317—STOCK PILING OF STRATEGIC AND CRITICAL MATERIALS

DIRECT SALES OF COPPER AND LEAD SCRAP BY OWNING AGENCIES OUTSIDE THE CONTINENTAL LIMITS OF THE UNITED STATES

Pursuant to the provisions of § 8317.8 of this part, the Civilian Production Administration has determined that a deficiency in the supply of certain strategic and critical materials presently exists for the current requirements of industry. Among the materials determined to be in short supply are copper and lead in scrap form. The War Department has advised that varying quantities of such materials are located in the several theatres of operation outside the continental limits of the United States.

On December 10, 1946, the Director, Office of War Mobilization and Reconversion, requested that the Secretary of State permit the reimportation of all ferrous and non-ferrous scrap metal from all sources into the United States in order to alleviate the industrial deficiency in such materials. Acting pursuant thereto, the Secretary of State issued Supplement 3[2] to Order 6, FLC Regulation 8, dated December 24, 1946, to allow the reimportation of all ferrous and non-ferrous scrap metal.

In accordance with the provisions of § 8317.9 of this part, it is hereby ordered, that:

§ 8317.56 *Direct sales of copper and lead scrap by owning agencies outside the continental limits of the United States.* Notwithstanding the provisions of § 8317.5 of this part, owning agencies are

[1] SPA Reg. 19 (10 F. R. 14966; 11 F. R. 3691).
[2] Reg. 5 (11 F. R. 12717).
[3] Reg. 10 (11 F. R. 7583, 12017).
[4] Reg. 16 (11 F. R. 7427, 8361).
[5] SPA Reg. 20 (11 F. R. 182, 561, 3302, 7431).
[6] Reg. 4, Order 4 (11 F. R. 1471, 14104).
[7] Reg. 4 (11 F. R. 5868).

[1] 11 F. R. 9573, 12306.
[2] 11 F. R. 14634.

authorized, without the need for reporting to, or utilizing the services of, Reconstruction Finance Corporation, to make sales of copper and lead in scrap form, located outside the Continental limits of the United States, to purchasers who will undertake to ship such materials to the United States for use in the domestic economy.

Reports of such sales by owning agencies shall be made to Reconstruction Finance Corporation, Strategic Materials Unit, Washington 25, D. C., indicating the amount, description, and payment received.

(Surplus Property Act of 1944, as amended (58 Stat. 765, as amended; 50 U. S. C. App. Sup. 1611); Pub. Law 181, 79th Cong. (59 Stat. 533; 50 U. S. C. App. Sup. 1614a, 1614b); E. O. 9689 (11 F. R. 1265); and Pub. Law 520, 79th Cong., 2d Sess.)

NOTE: All reporting requirements of this section have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This section shall become effective January 16, 1947.

ROBERT M. LITTLEJOHN,
Administrator.

JANUARY 8, 1947.

TITLE 49—TRANSPORTATION AND RAILROADS

Chapter I—Interstate Commerce Commission

[Docket No. 3666]

PARTS 71-85—EXPLOSIVES AND OTHER DANGEROUS ARTICLES

MISCELLANEOUS AMENDMENTS

In the matter of regulations for transportation of explosives and other dangerous articles.

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 31st day of December A. D. 1946.

It appearing that, pursuant to section 233 of the Transportation of Explosives Act approved March 4, 1921 (41 Stat. 1445), and Part II of the Interstate Commerce Commission Act, the Commission has formulated and published certain regulations for transportation of explosives and other dangerous articles:

It further appearing that in applications received we are asked to amend the aforesaid regulations as set forth in provisions made part hereof;

It is ordered, That the aforesaid regulations for transportation of explosives and other dangerous articles be, and are hereby, amended as follows:

Part 3—Regulations Applying to Shippers (CFR 75)

Superseding and amending paragraph (n) (2), section 303 (*Liquefied petroleum gas*), order December 18, 1941, and January 25, 1945, to read as follows:

(n) (2) *Spec. 3, 3A, 3B, 3E, 4, 4A, 4B, 4B240X, 4B240FLW, 25, 26, or 38.* Cylinders authorized under 303 (p) (2) to 303 (p) (6) may be used.

Because of the present emergency and until further order of the Commission, non-ICC specification containers used for liquefied gases prior to June 15, 1943, under laws and rules, or regulations of the States in which they are located, and so long as they are maintained in safe transportation condition, are authorized for use in the transportation of those gases by common, contract, or private carrier by motor vehicle, in intrastate commerce only, within those states. All other requirements of the Commission for such transportation must be complied with. This authority does not apply to cargo tanks of tank motor vehicles.

Appendix to Part 3—Shipping Container Specifications (CFR 72)

Amending Spec. 4B, order Aug. 16, 1940, as follows (add):

23. Special type with fusion-welded longitudinal seam authorized because of the present emergency and until further order of the Commission. Cylinders to have 240 pounds nominal water capacity, a service pressure of 240 pounds per square inch, and be made in compliance with all the requirements of this specification, except those applicable to longitudinal seams, and with all of the following additional requirements, which apply to cylinders with fusion-welded longitudinal seams:

(a) Cylinders shall be inspected by competent and disinterested inspectors acceptable to the Bureau of Explosives.

(b) Steel shall be plain carbon steel of American Society for Testing Materials firebox quality with carbon content not in excess of 0.25 percent.

(c) Calculated wall stress at two times the service pressure shall not exceed 18,000 pounds per square inch.

(d) Each cylinder shall be thermally stress-relieved after all initial welding and seam repair welding operations have been completed and prior to the hydrostatic test.

(e) Each cylinder shall be subjected to the hydrostatic test as specified in paragraphs 13 (a), (b), and (c) of Specification 3A. Test pressure shall be at least two and two-thirds times the service pressure. Following this test, each cylinder shall be subjected to a dry air-pressure test of two times the service pressure. The cylinder shall be thoroughly dry before air test is applied, and during test welded seams shall be examined for leaks, either by submerging the cylinders in liquid, or by painting all welded seams with a solution suitable for the detection of leaks.

(f) (1) Longitudinal fusion-welded seam shall be of the double-welded butt type. Filler metal may be added from one side when and if means are provided for accomplishing complete penetration and reinforcement on both sides of the joint. Welding procedure and welding operators shall be qualified for the manufacture of pressure vessels in accordance with paragraph U-69 of the Rules for Construction of Unfired Pressure Vessels, Section VIII of the American Society of Mechanical Engineers Boiler Construction Code, 1943 Edition including Addenda to 1946 Edition.

(2) One finished cylinder out of each lot, which appears to the inspector to be the least likely to meet the test, shall be selected by the inspector from each lot of 200 or less successively produced and shall be hydrostatically tested to destruction and shall not burst at a pressure less than six times the service pressure.

(3) *Guided bend test.* A bend test specimen shall be cut from the cylinder used for the physical tests specified in paragraph 15 (a). Specimen shall be taken across the seam, shall be 1½ inches wide, edges shall be parallel and rounded with a file, and back-up strip, if used, shall be removed by machining. The specimen shall be bent to refusal in the guided bend test jig illustrated in Appendix to paragraph 22 of Specification 4B effective December 18, 1941 (except that the radius of the male member shall be two times the nominal thickness of the specimen and the radius of the female member shall be three times the nominal thickness of the specimen plus 1/32 inch). The root of the weld (inside surface of the cylinder) shall be located away from the ram of the jig. No specimen shall show a crack exceeding ⅛ inch in any direction upon completion of the test. Should this specimen fail to meet the requirements, two additional specimens from the same cylinder shall be tested, and if either of these fails to meet the requirements, the entire lot represented shall be rejected.

(4) In addition to the guided bend test, a reduced section tension test shall be made transverse to the weld and meet the requirements of paragraph Q-109 of Section IX of the American Society of Mechanical Engineers Boiler Construction Code, 1943 Edition including Addenda to 1946 Edition. Should this specimen fail to meet the requirements, two additional specimens from the same cylinder shall be tested, and if either of these fails to meet the requirements, the entire lot represented shall be rejected.

(g) One finished longitudinal seam shall be selected at random from each lot of 100 or less successively produced and be radiographically examined throughout its length in accordance with subparagraph (h) of paragraph U-68 of the American Society of Mechanical Engineers Unfired Pressure Vessel Code. Should the radiographs fail to meet the requirements two additional seams of the same lot shall be examined, and if either of these fails to meet the requirements the entire lot shall be rejected.

(h) Marking required on each cylinder. By stamping plainly and permanently on shoulder, top head, or neck as follows:

(1) ICC-4B240-FLW.

(2) A serial number and an identifying symbol (letters); location of number to be just below the ICC mark; location of symbol to be just below the number. The symbol and numbers must be those of purchaser, user, or maker. The symbol must be registered with the Bureau of Explosives; duplications unauthorized.

(3) Inspector's official mark near serial number, date of test (such as 12-46 for December 1946), so placed that dates of subsequent test can be easily added.

It is further ordered, That this order shall become effective on December 31, 1946, and shall remain in full force and effect until further order of the Commission;

And it is further ordered, That a copy of this order shall be served upon all parties of record herein; and notice shall be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

(41 Stat. 1445, 49 Stat. 546, 52 Stat. 1237, 54 Stat. 921, 56 Stat. 176; 18 U. S. C. 383, 49 U. S. C. 304)

By the Commission, Division 3.

[SEAL] W. P. BARTEL,
Secretary.

[S. O. 87, Amdt. 6]

PART 95—CAR SERVICE

SUSPENSION OF DEMURRAGE RULES

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 10th day of January A. D. 1947.

Upon further consideration of Service Order No. 87 (7 F. R. 8066), as amended (7 F. R. 8434; 11 F. R. 4737, 8451; 11 F. R. 12726, 14650), and good cause appearing therefor:

It is ordered, that Service Order No. 87, as amended (codified as § 95.500 CFR), be, and it is hereby, further amended by substituting the following paragraphs (a) and (c) for paragraphs (a) and (c) thereof:

§ 95.500 *Suspension of demurrage rules; Trunk Line Tariff Bureau Tariff No. 139-C I. C. C. No. A-751 coal.* (a) The operation of demurrage rule contained in Trunk Line Tariff Bureau Tariff No. 139-C I. C. C. No. A-751, and supplements thereto or reissues thereof, is hereby suspended, to the extent that the free time allowed on cars loaded with bituminous and cannel coal and the coal products described in said tariff exceeds six days; that the average free time on cars delivered to storage plants for subsequent delivery to vessels exceeds three days; subject to the exception shown below, that the settlement period for the average account exceeds two months; and that the operation of all of the provisions of said tariff inconsistent with this order is hereby suspended.

Exception. Any excess debits accruing at any point specified in the above named tariff in the account of any particular consignor or consignee during the settlement period ending at 7:00 a. m., November 1, 1946, which are not offset by credits accruing to the same party during that same period at the same point because sufficient such credits have not accrued to the particular consignor or consignee due to the recently terminated coal miners' strike may be offset by excess credits accruing at the same point to the same consignor or consignee in the settlement period ending at 7:00 a. m., February 1, 1947.

* * * * *

(c) This order, as amended, shall expire at 7:00 a. m., May 1, 1947, unless otherwise modified, changed, suspended or anulled by order of this Commission.

It is further ordered, This amendment shall become effective at 7:00 a. m., January 11, 1947; that a copy of this order and direction be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission, at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

(40 Stat. 101, sec. 402, 41 Stat. 476, sec. 4, 54 Stat. 901; 49 U. S. C. 1 (10)-(17))

By the Commission.

[SEAL] W. P. BARTEL,
Secretary.

[F. R. Doc. 47-403; Filed, Jan. 15, 1947; 8:48 a. m.]

[S. O. 234, Amdt. 3]

PART 95—CAR SERVICE

FREE TIME ON LESS-THAN-CARLOAD FREIGHT AT MEXICAN BORDER POINTS

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 10th day of January A. D. 1947.

Upon further consideration of the provisions of Service Order No. 234 (9 F. R. 11653), as amended (11 F. R. 8452, 10710), and good cause appearing therefor:

It is ordered, that Service Order No. 234, as amended (codified as § 95.234 CFR), be, and it is hereby, further amended by substituting the following paragraph (d) for paragraph (d) thereof:

§ 95.234 *Reduction of free time on less-than-carload freight at Mexican border points.* * * *

(d) This order, as amended, shall expire at 11:59 p. m., June 30, 1947, unless otherwise modified, changed, suspended or annulled by order of this Commission.

It is further ordered, that this amendment shall become effective at 12:01 a. m., January 20, 1947; that a copy of this order and direction be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

(40 Stat. 101, sec. 402, 41 Stat. 476, sec. 4, 54 Stat. 901, 49 U. S. C. 1 (10-(17))

By the Commission, Division 3.

[SEAL] W. P. BARTEL,
Secretary.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

PART 1—ORGANIZATION, PRACTICE AND PROCEDURE

TEMPORARY EXPEDITING PROCEDURE FOR STANDARD BROADCAST APPLICATIONS

CROSS REFERENCE: For public notice of temporary expediting procedure for standard broadcast applications (§ 1.373, 11 F. R. 177A-415, 13973), see F. R. Doc. 47-370 under Federal Communications Commission in the Notices section, *infra*.

[Order 115-C]

PART 12—RULES GOVERNING AMATEUR RADIO SERVICE

EXTENSION OF AMATEUR RADIO OPERATOR LICENSES

At a meeting of the Federal Communications Commission held at its offices in Washington, D. C., on the 3d day of January 1947;

Whereas the Commission has, by Orders 115 (8 F. R. 7356), 115-A (9 F. R. 14211), 115-B (10 F. R. 14824), 130-F (11 F. R. 4611), adopted between May 25, 1943 and April 7, 1946, reinstated and extended certain amateur operator licenses issued on or between December 7, 1938 and December 7, 1943 so that the expiration dates of those amateur operator licenses fell within the period December 7, 1946 and December 7, 1947, and validated certain amateur station licenses for the term, as extended, of the amateur operator license held by the licensee of the station; and

Whereas it is now desirable to establish a clear and uniform understanding of the status of all amateur operator and station licenses and to eliminate the effects of certain misunderstandings that have occurred in connection with the application of the above-mentioned orders and to provide for the orderly processing of applications for new, renewed, or modified amateur licenses;

It is ordered, That all amateur operator licenses issued on or between December 7, 1938 and December 31, 1944, except amateur operator licenses heretofore at any time or hereafter suspended or voluntarily surrendered, are hereby extended, and if expired on or since December 7, 1946 are hereby reinstated and extended, until 1948, at 3 A. M., Eastern Standard Time, the same day and month as the date of issuance.

It is further ordered, That all amateur station licenses held by operators whose operator licenses are extended, or reinstated and extended, by this order, except amateur station licenses heretofore at any time or hereafter revoked or voluntarily surrendered, are hereby validated, and if expired on or since December 7, 1946 are hereby reinstated and validated, for the term, as extended, of the operator license held by the licensee of the station;

It is further found and ordered, That, whereas, authority for this order is contained in sections 303 (l) and (r) of the

Communications Act of 1934, as amended, and the effect of the order is to extend for an additional period after December 7, 1946 the relief from certain restrictions as has been or now is afforded by Commission Orders 115, 115–A, 115–B and 130–F, and is noncontroversial, and it is in the public interest that this order be made effective immediately, notice and public procedure required by section 4 of the Administrative Procedure Act are, hereby, found unnecessary, and this order should be, and is hereby, made effective immediately.

(Secs. 4 (i), 303 (c), 48 Stat. 1068, 1082; 47 U. S. C. 154 (i), 303 (c))

[Order 130–L]

PART 12—RULES GOVERNING AMATEUR RADIO SERVICE

FREQUENCIES AND FREQUENCY BANDS

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 2d day of January 1947;

Whereas, by Order No. 130–A,[1] dated November 14, 1945, as amended from time to time, the Commission has made available for use by amateur radio stations certain frequencies and frequency bands and types of emission; and

Whereas, §§ 12.111, 12.114 and 12.116 of the Commission's rules and Commission Order No. 130–A, as amended by Commission Order No. 130–H, allocate the frequency bands of 3500 to 4000 kc with type A1 emission and 3850 to 4000 kc with type A3 emission for use by amateur radio stations, but Footnote 3 to § 12.111 restricts the use of such bands except pursuant and subject to the limitations and restrictions prescribed by Commission orders; and

Whereas, the frequency band 3500 to 3625 kc with type A1 emission is now available for use by amateur radio stations within the Territory of Hawaii, and the frequency bands 3500 to 4000 kc with type A1 emission and 3850 to 4000 with type A3 emission are now available for use by amateur stations within all United States possessions lying west of the Territory of Hawaii to 170° west longitude; and

Whereas, because of possible interference to radio communications transmitted to and from United States military installations in the Western Pacific and Japan, the military authorities of the United States have requested that the use by amateurs, at any amateur station located within the Territory of Hawaii or within any United States possession lying west of the Territory of Hawaii to 170° west longitude, of any frequency in the band between 3500 and 4000 kc be subject to a 500 watt power limitation;

Now, therefore, it is ordered, That the second ordering clause of Order No. 130–A, as amended, be, and it is hereby further amended to read as follows:

2. (a) The following frequencies and frequency bands are available for use for amateur station operation, subject to the limitations and restrictions set forth herein:

(1) 3500 to 4000 kc. Use of this band is restricted to amateur radio stations as follows:

(i) 3500 to 4000 kc, using type A1 emission, to those stations located within the continental limits of the United States, the Territory of Alaska, Puerto Rico, and the Virgin Islands; 3850 to 4000 kc, using type A3 emission, to those stations located within the continental limits of the United States, the Territory of Alaska, Puerto Rico, and the Virgin Islands, subject to the further restriction that type A3 emission may be used only by an amateur station which is licensed to an amateur operator holding Class A privileges and then only when operated and controlled by an amateur operator holding Class A privileges;

(ii) 3500 to 4000 kc, using type A–1 emission, to those stations located within the Territory of Hawaii and within all United States possessions lying west of the Territory of Hawaii to 170° west longitude, subject to the further restriction that the power input to the radio stage supplying energy to the antenna shall not exceed 500 watts; 3850 to 4000 kc using type A–3 emission to those stations within the Territory of Hawaii and within all United States possessions lying west of the Territory of Hawaii to 170° west longitude, subject to the further restriction that A3 emission may be used only by an amateur station which is licensed to an amateur operator holding Class A privileges and then only when operated and controlled by an amateur operator holding Class A privileges, and to the further restriction that the power input to the radio stage supplying energy to the antenna shall not exceed 500 watts.

(2) 7,000 to 7,300 kc, using type A1 emission.

(3) 14,000 to 14,400 kc, using type A1 emission, and, on frequencies 14,200 to 14,300 kc, type A3 emission, subject to the restriction that type A3 emission may be used only by an amateur station which is licensed to an amateur operator holding Class A privileges and then only when operated and controlled by an amateur operator holding Class A privileges.

(4) 27.185 to 27.455 Mc, using types A0, A1, A2, A3 and A4 emissions, and also special emissions for frequency modulation (radio-telephone transmissions and radio-telegraph transmissions employing carrier shift or other frequency modulation techniques). This band is subject to use also for operation of scientific, industrial and medical apparatus.

(5) 28.0 to 29.7 Mc, using type A1 emission.

(6) 28.5 to 29.7 Mc, using type A3 emission.

(7) 29.0 to 29.7 Mc, using special emission for frequency modulation (radiotelephone transmissions and radiotelegraph transmissions employing carrier shift or other frequency modulation techniques).

(8) 50.0 to 54.0 Mc, using types A1, A2, A3 and A4 emissions and, on frequencies 52.5 to 54.0 Mc, special emission for frequency modulation (radiotelephone transmissions and radiotelegraph transmissions employing carrier shift or other frequency modulation techniques).

(9) 144 to 148 Mc, using types A0, A1, A2, A3, and A4 emissions and special emissions for frequency modulation (radiotelephone transmissions and radiotelegraph transmissions employing carrier shift or other frequency modulation techniques). The portion of this band between 146.5 and 148 Mc shall not be used, however, by any amateur station located within 50 miles of Washington, D. C., Seattle, Washington, or Honolulu, T. H.

(10) 235 to 240 Mc, using types A0, A1, A2, A3 and A4 emissions and special emissions for frequency modulation (radiotelephone transmissions and radiotelegraph transmissions employing carrier shift or other frequency modulation techniques).

(11) 420 to 430 Mc, using types A0, A1, A2, A3, A4 and A5 emissions, and special emissions for frequency modulation (radiotelephone transmissions and radiotelegraph transmissions employing carrier shift or other frequency modulation techniques). Peak antenna power shall not exceed 50 watts.

(12) 1215 to 1295 Mc, 2300 to 2450 Mc, 3300 to 3500 Mc, 5650 to 5850 Mc, 10,000 to 10,500 Mc, 21,000 to 22,000 Mc, and any frequency or frequencies above 30,000 Mc, using on these frequencies types A0, A1, A2, A3, A4 and A5 emissions, special emissions for frequency modulation (radiotelephone transmissions and radiotelegraph transmissions employing carrier shift or other frequency modulation techniques), and pulse emissions.

(b) No frequencies or types of emission other than those assigned in this order shall be used for amateur operation.

It is further found and ordered, That, whereas, authority for the release of frequencies as specified in subparagraph 2 (a) (1) (ii) of Order 130–A, as hereby amended, is contained in sections 303 (b), (c) and (r) of the Communications Act of 1934, as amended, and such release relieves an existing restriction, is non-controversial and in the public interest, and whereas, authority to impose a 500 watt power limitation on amateur stations located within the Territory of Hawaii and within United States possessions lying west of the Territory of Hawaii to 170° west longitude is contained in sections 303 (b), (c) and (r) of the Communications Act of 1934, as amended, and such power limitation is imposed at the request of United States military authorities to prevent possible interference to radio communications transmitted to and from United States military installations in the Western Pacific and Japan, notice and public procedure required by section 4 of the Administrative Procedure Act, are, hereby found unnecessary and this order should be, and is hereby, made effective at 3 a. m., e. s. t., January 3, 1947.

[F. R. Doc. 47-372; Filed, Jan. 15, 1947; 8:47 a. m.]

PART 35—UNIFORM SYSTEM OF ACCOUNTS FOR WIRE-TELEGRAPH AND OCEAN-CABLE CARRIERS[1]

At a session of the Federal Communications Commission held at its offices in Washington, D. C. on the 17th day of December 1946;

It appearing, that it is necessary and desirable to amend Part 35 of the Commission's rules and regulations so as to simplify the accounting prescribed in said Part 35 by providing a list of retirement units for outside plant of wire-telegraph and ocean-cable carriers (see § 35.1–6–1);

It further appearing, that all persons subject to Part 35 of the Commission's rules and regulations have been given notice of the proposed amendment thereof and have been afforded an opportunity to comment thereon, and that no adverse comments have been received with respect thereto;

It further appearing, that, for the foregoing reasons, general notice of proposed rule making and public procedure thereon as provided in section 4 (a) of the Administrative Procedure Act is unnecessary with respect to the foregoing proposed amendment;

It is ordered, That, pursuant to section 220 (a) and (g) of the Communications Act of 1934, as amended, Part 35 of the Commission's rules and regulations be, and it is hereby, amended effective as of July 1, 1947: *Provided, however,* That any carrier affected thereby may effect the adoption of said list of retirement units in its accounting procedures at any earlier date.

Part 35, as amended by the addition of a list of retirement units (§ 35.1–6–1), reads as follows:

APPLICABILITY

Sec.	
35.01–1	Carriers subject to this system of accounts.
35.01–2	Classification of carriers.
35.01–3	Determination of class.
35.01–4	Effective date.

DEFINITIONS

35.02–1	Restrictive use of certain terms.

INSTRUCTIONS; GENERAL

35.03–1	Classes of records.
35.03–2	Basis of entries in books of account.
35.03–3	Records supporting accounting entries.
35.03–4	Transactions with affiliates.
35.03–5	Summary accounts, subaccounts, aditional clearing accounts, and temporary or experimental accounts.
35.03–6	Transferring balances from accounts previously maintained.
35.03–7	Charges to be just and reasonable.
35.03–8	Entries involving telephone or radiotelegraph service.
35.03–9	Sequence of accounts.
35.03–10	Preliminary investigations and research.
35.03–11	Interpretation of the prescribed accounting.
35.03–12	Interpretation of item lists.
35.03–13	Delayed items.
35.03–14	Unaudited items.
35.03–15	Unusual items.
35.03–16	Transactions involving foreign currency.
35.03–17	Apportioning amounts among accounts.
35.03–18	Transactions involving joint operations.
35.03–19	Transactions involving interchange of traffic.
35.03–20	Commissions.
35.03–21	Transactions involving leased property.

INSTRUCTIONS; DEPRECIATION ACCOUNTING

35.04–1	Classes of depreciable operated plant.
35.04–2	Computation of depreciation rates.
35.04–3	Depreciation charges.
35.04–4	Extraordinary retirements.

INSTRUCTIONS FOR CLASS B CARRIERS

35.05–1	Primary operating-revenue accounts for class B carriers.
35.05–2	Primary operating-expense accounts for class B carriers.

REPORTING REQUIREMENTS

35.06–1	Provisions that require the specific approval of the Commission before the accounting is performed.
35.06–2	Provisions that require certain special reports to be filed.

BALANCE-SHEET ACCOUNTS

INSTRUCTIONS

35.10–1	Purpose of balance-sheet accounts.
35.10–2	Current assets.
35.10–3	Prepayments.
35.10–4	Deferred charges.
35.10–5	Current liabilities.
35.10–6	Long-term debt.
35.10–7	Book cost of securities owned.
35.10–8	Exchange of securities.
35.10–9	Capital stock.
35.10–10	Surplus.
35.10–11	Provisions for future settlements.
35.10–12	Deferred credits.
35.10–13	Discount, expense, and premium capital stock.
35.10–14	Discount, expense, and premium on long-term debt.
35.10–15	Irrevocable trusts.
35.10–16	Contingent assets and liabilities.
35.10–17	Nominally issued securities.
35.10–99	Contemplated form of balance sheet.

PRESCRIBED ACCOUNTS

Communication Plant

35.1000	Operated plant in carrier's service.
35.1100	Operated plant leased to others.
35.1200	Improvements and replacements of operated plant leased from others.
35.1300	Plant under construction.
35.1400	Plant held for future communication use.
35.1510	Plant-acquisition adjustment.
35.1515	Allowance for depreciation, wire-telegraph and ocean-cable plant.
35.1520	Allowance for amortization; wire-telegraph and ocean-cable plant.
35.1530	Telephone and radiotelegraph plant.
35.1535	Allowance for depreciation and amortization; telephone and radiotelegraph plant.
35.1540	Plant in process of reclassification.
35.1545	Plant adjustments.
35.1599	Foreign investment in communication plant.

Investments and Funds

35.1610	Miscellaneous physical property.
35.1615	Allowance for depreciation; Miscellaneous physical property.
35.1620	Investments in affiliates.
35.1629	Other investments.
35.1630	Debt-redemption funds.
35.1635	Employees' provident funds
35.1640	Insurance funds.
35.1645	Miscellaneous funds held by trustees.
35.1659	Other miscellaneous funds.
35.1698	Amortized discount and premium on investment securities.
35.1699	Allowance for doubtful investments.

Current Assets

35.1710	Cash.
35.1715	Special cash deposits.
35.1720	Working cash advances.
35.1725	Temporary investments.
35.1730	Receivable from customers.
35.1742	Traffic settlements receivable from affiliates.
35.1749	Other receivables from affiliates.

Receivables From Nonaffiliates

35.1751	Notes receivable.
35.1752	Traffic settlements receivable.
35.1753	Matured interest receivable.
35.1754	Declared dividends receivable.
35.1755	Matured rents receivable.
35.1759	Other accounts receivable.
35.1765	Allowance for uncollectible receivables.
35.1770	Unmatured accrued receivables.
35.1775	Subscriptions to capital stock.
35.1780	Deposits on subscriptions to capital stock.
35.1785	Subscriptions to bonds.
35.1790	Deposits on subscriptions to bonds.
35.1795	Material and supplies.
35.1799	Other current assets.

Prepayments

35.1810	Prepaid insurance.
35.1815	Prepaid rents.
35.1820	Prepaid taxes.
35.1899	Other prepayments.

Deferred Charges

35.1910	Extraordinary maintenance, depreciation, and retirements.
35.1915	Capital-stock expense.
35.1920	Long-term debt expense.
35.1925	Discount on capital stock.
35.1930	Unamortized discount on debt.
35.1935	Preliminary survey and investigation charges.
35.1940	Debit balances in clearing accounts.
35.1999	Other deferred charges.

Long-Term Debt

35.2010	Bonds actually issued.
35.2015	Bonds reacquired.
35.2020	Bonds subscribed—Unissued.
35.2025	Receivers' and trustees' securities.
35.2030	Advances from affiliates.
35.2099	Other long-term debt.

Current Liabilities

35.2101	Unpaid wages.
35.2111	Liability for tax collections.
35.2113	Unpaid money-orders.
35.2115	Customers' deposits.
35.2120	Matured long-term debt.
35.2122	Traffic settlements payable to affiliates.
35.2129	Other payables to affiliates.

Payable to Nonaffiliates

35.2131	Notes payable.
35.2132	Traffic settlements payable.
35.2133	Matured interest payable.
35.2134	Dividends payable.
35.2135	Matured rents payable.
35.2139	Other accounts payable.

[1] The numerical sequence of sections in this part follows the established sequence of accounts prescribed thereby.

Sec.
35.2155 Advance billings.
35.2160 Liability on installment-plan sales of capital stock.

Liability Accruals

35.2164 Dividends declared.
35.2165 Interest accruals.
35.2170 Rent accruals.
35.2175 Tax accruals.
35.2180 Other liability accruals.
35.2199 Other current liabilities.

Provisions for Future Settlements

35.2210 Provisions for employees' pensions and welfare.
35.2215 Provisions for self-carried insurance.
35.2220 Provisions for equalization of maintenance expenses.
35.2225 Provisions for depreciation and replacement of operated plant leased from others.
35.2230 Leased operated plant retired.
35.2299 Other provisions for future settlements.

Deferred Credits

35.2310 Unamortized premium on debt.
35.2315 Advances for construction.
35.2320 Credit balances in clearing accounts.
35.2399 Other deferred credits.

Capital Stock

35.2410 Capital stock issued.
35.2415 Capital stock reacquired.
35.2420 Capital stock subscribed; unissued.
35.2425 Obligations for stock conversion.

Capital Surplus

35.2510 Premiums and assessments on capital stock.
35.2515 Contributions of plant.
35.2599 Other capital surplus.

Earned Surplus

35.2610 Contractual reserves.
35.2615 Reserve against impairment of stated capital.
35.2620 Miscellaneous reserves.
35.2699 Unappropriated earned surplus.

OPERATED PLANT ACCOUNTS

INSTRUCTIONS

35.1-1 Purpose and content of operated plant accounts.
35.1-2 Accounting for plant acquisitions.
35.1-3 Components of construction costs.
35.1-4 Overhead construction costs.
35.1-5 Expenditures on operated plant leased from others.
35.1-6 Additions, retirements, and replacements of operated plant.
35.1-7 Transfers of plant.
35.1-8 Continuous property-record required.
35.1-99 Contemplated form of plant statement.

PRESCRIBED ACCOUNTS

Real Estate

35.11 Land used for right of way.
35.12 Land used for building sites.
35.13 Land used for other operations.
35.14 Land improvements.
35.15 Buildings.

Outside Communication Lines

35.21 Poles.
35.22 Aerial wire.
35.23 Aerial cable.
35.24 Underground cable.
35.25 Buried cable.
35.26 Submarine cable.
35.27 House cable.
35.28 Underground conduit.
35.29 Pneumatic tubes.
35.31 Ocean cable.

Sec.
35.41 Message transmitting and receiving equipment.
35.42 Repeater and terminal equipment.
35.43 Switchboards and distributing frames.
35.44 Pneumatic-tube and conveyer equipment.
35.45 Power equipment.
35.46 Messenger call-circuit equipment.
35.47 Time-service equipment.
35.48 Ticker and commercial news service equipment.
35.49 Office cable and conduit.
35.51 Equipment furnished customers.
35.59 Other inside communication plant.

Office and Messenger Equipment

35.61 Furniture and office appliances.
35.65 Messenger uniforms.
35.69 Other office and messenger equipment.

Work Equipment

35.71 Vehicles.
35.72 Shop equipment.
35.73 Store and warehouse equipment.
35.74 Tools and implements.
35.75 Floating equipment.
35.76 Railway equipment.
35.77 Emergency facilities.
35.78 Laboratory equipment.

Intangibles

35.81 Organization.
35.82 Franchises.
35.83 Patent rights.
35.84 Leaseholds.
35.85 Research and development.
35.89 Other intangibles.

Other Plant Accounts

35.91 Plant acquired; undistributed charges.
35.92 Plant sold; undistributed credits.

INCOME AND EARNED-SURPLUS ACCOUNTS

INSTRUCTIONS

35.30-1 Purpose of income accounts.
35.30-2 Income from debt-redemption and other funds.
35.30-3 Rents includible in income accounts.
35.30-4 Disposition of balances in income accounts.
35.30-5 Purpose of earned-surplus accounts.
35.30-6 Disposition of balances in earned-surplus accounts.
35.30-99 Contemplated form of income and earned-surplus statement.

INCOME ACCOUNTS

Ordinary Income; Communication

35.3000 Operating revenues.
35.3710 Foreign exchange; revenue differential.

Operating-Revenue Deductions

35.4000 Operating expenses.
35.4910 Depreciation.
35.4915 Amortization; intangible operated plant.
35.4920 Amortization of plant-acquisition adjustments.
35.4925 Extraordinary plant losses.
35.4931 Social security taxes; operating.
35.4932 Other taxes; operating.
35.4935 Uncollectible revenues.
35.4945 Telephone and radiotelegraph operating-revenue deductions.
35.4950 Revenue-contract payments.
35.4998 Foreign exchange; expense differential.
35.4999 Other operating-revenue deductions.

Other Communication Income

35.5010 Income from operated plant leased to others.
35.5015 Income from telephone and radiotelegraph plant leased to others.
35.5020 Profit from general services, licenses, and royalties.
35.5089 Income from foreign operations.
35.5099 Other communication income.

Ordinary Income; Noncommunication

35.5110 Income from miscellaneous physical property.
35.5115 Income from merchandising, jobbing, and contracting.
35.5120 Dividend income.
35.5125 Interest income.
35.5135 Income from debt-redemption and other funds.
35.5140 Gain or loss on foreign currency exchange.
35.5199 Other noncommunication income.

Deductions from Ordinary Income

35.5205 Rent for lease of operated plant.
35.5210 Interest on long-term debt.
35.5215 Interest on indebtedness to affiliates.
35.5220 Amortization of debt discount.
35.5225 Interest charged to construction—Cr.
35.5230 Amortization of debt premium—Cr.
35.5233 Interest on past-due tax assessments.
35.5235 Other interest charges.
35.5240 Taxes assumed on interest.
35.5245 Amortization of debt expense.
35.5250 Miscellaneous taxes.
35.5255 Amortization of plant-acquisition adjustments.
35.5260 Revenue-contract payments.
35.5298 Foreign exchange—Income differential.
35.5299 Other deductions from ordinary income.

Extraordinary Income

35.6110 Extraordinary current income credits.
35.6120 Extraordinary current income charges.
35.6210 Delayed income credits.
35.6220 Delayed income charges.

Deductions From Net Income

35.7010 Income taxes.
35.7099 Other deductions from net income.

EARNED-SURPLUS ACCOUNTS

Earned Surplus; Credits

35.8110 Balance transferred from income accounts.
35.8199 Miscellaneous credits to earned surplus.

Earned Surplus; Charges

35.8299 Miscellaneous charges to earned surplus.
35.8310 Contractual appropriations of earned surplus.
35.8315 Earned surplus employed in reacquisition of capital stock.
35.8320 Miscellaneous appropriations of earned surplus.
35.8399 Divided appropriations of earned surplus.

OPERATING-REVENUE ACCOUNTS

INSTRUCTIONS

35.31-1 Purpose of operating-revenue accounts.
35.31-2 Basis of credits to the operating-revenue accounts.
35.31-3 Divisions of operating revenues.
35.31-4 Services furnished without direct charge.
35.31-5 Preparation for allocation of wire-telegraph revenues to continental communication and to foreign communication (under domestic-service classification).
35.31-6 Preparation for allocation of ocean-cable revenues to foreign communication and to insular communication.
35.31-99 Contemplated form of operating-revenue statement.

PRESCRIBED ACCOUNTS

Wire-Telegraph Transmission Revenues

35.3110 Public message revenue.
35.3115 United States government message revenue.
35.3125 Press message revenue.
35.3130 Money-order message revenue.
35.3135 News (CND) service revenue.
35.3140 Contract (CAK) message revenue.
35.3145 Facsimile or photogram service revenue.
35.3155 Telephone service revenue.
35.3160 Wire-telegraph revenue on cable and radio messages.
35.3199 Other wire-telegraph transmission revenues.

Ocean-Cable Transmission Revenues

35.3210 Public message revenue.
35.3215 United States government message revenue.
35.3220 Other governments message revenue.
35.3225 Press message revenue.
35.3230 Money-order message revenue.
35.3235 News (CND) service revenue.
35.3245 Facsimile or photogram service revenue.
35.3255 Telephone service revenue.
35.3299 Other ocean-cable transmission revenues.

Terminal Commission Revenues

35.3350 Terminal commissions.

Wire-Telegraph Nontransmission Revenues

35.3410 Leased-circuit revenue.
35.3415 Measured-service revenue.
35.3420 Other leased-plant revenue.
35.3425 Code-registration revenue.
35.3430 Errand-service revenue.
35.3435 Money-order charges.
35.3440 Time-service revenue.
35.3499 Other wire-telegraph nontransmission revenues.

Ocean-Cable Nontransmission Revenues

35.3510 Leased-circuit revenue.
35.3515 Measured-service revenue.
35.3520 Other leased-plant revenue.
35.3525 Code-registration revenue.
35.3530 Errand-service revenue.
35.3535 Money-order charges.
35.3540 Time-service revenue.
35.3599 Other ocean-cable nontransmission revenues.

Other Telecommunication Revenues

35.3610 Telephone revenue; telephone systems.
35.3625 Radiotelegraph revenue; radiotelegraph systems.

OPERATING-EXPENSE ACCOUNTS

INSTRUCTIONS

35.41-1 Purpose of operating-expense accounts.
35.41-2 Basis of charges to the operating-expense accounts.
35.41-3 Operating expenses applicable to leased plant.
35.41-4 Subdivisions of operating-expense accounts.
35.41-5 Supervision and engineering.
35.41-6 Expenses of holding or servicing departments.
35.41-7 Maintenance expenses.
35.41-99 Contemplated form of operating-expense statement.

PRESCRIBED ACCOUNTS

Maintenance Expenses

35.4110 Testing and regulating.
35.4120 Maintenance of inside plant.
35.4130 Maintenance of aerial plant.
35.4140 Maintenance of underground plant.
35.4150 Maintenance of real estate.
35.4160 Maintenance of ocean cable.
35.4180 Maintenance-expense equalization.
35.4199 Other maintenance expenses.

Conducting-Operations Expenses

35.4211 Supervision of operations.
35.4212 Wages of operators.
35.4213 Wages of operating-office clerks.
35.4214 Wages of solicitors.
35.4215 Wages of messengers.
35.4219 Wages of other operating-office employees.
35.4221 Field-supervision expense.
35.4223 Advertising and soliciting expense.
35.4231 Messenger-uniform expense.
35.4239 Other messenger expense.
35.4240 Operating power.
35.4251 House service; operating offices.
35.4255 Postage and stationery; operating offices.
35.4259 Other supplies; operating offices.
35.4261 Rents for operating offices.
35.4269 Rents for other facilities.
35.4271 Telephone company service.
35.4273 Terminal commission charges.
35.4275 Terminal commissions; expense credit.
35.4279 Obtaining news (CND) services.
35.4281 Traffic-damage awards.
35.4285 Traffic-damage expense.
35.4291 Rest and lunch rooms.
35.4295 Employment and training.
35.4299 Other conducting-operations expenses.

General Expenses

35.4311 Legal services.
35.4315 General services, licenses, and royalties—Dr.
35.4317 General services, licenses, and royalties—Cr.
35.4321 Insurance.
35.4323 Workmen's compensation.
35.4325 Injuries and damages.
35.4327 Relief and pensions.
35.4341 Franchise requirements.
35.4399 Other general expenses.

Administrative Expenses

35.4410 Salaries of general officers and executives.
35.4420 Salaries of general office employees.
35.4430 Expenses of general officers and general office employees.
35.4499 Other administrative expenses.

CLEARING ACCOUNTS

INSTRUCTIONS

35.90-1 Purpose of clearing accounts.
35.90-2 Disposition of balances in clearing accounts.
35.90-3 Subdivisions of clearing accounts.

PRESCRIBED ACCOUNTS

35.9011 Research and development clearing account.
35.9012 Vehicle clearing account.
35.9013 Shop clearing account.
35.9014 Tool and implement clearing account.
35.9015 Plant-supervision clearing account.
35.9016 Supply clearing account.
35.9017 House-service clearing account.
35.9018 Floating-equipment clearing account.
35.9019 Railway-equipment clearing account.

RETIREMENT UNITS

Sec.
35.1-6-1 List of units to be used in connection with the accounting provided in § 35.1-6.

NOTE: In preparing this compilation, the Commission has had in mind the necessity for an arrangement which would make the rules conveniently accessible and one which would also make provision for future amendments. To this end all the existing rules have been logically arranged under 32 parts, which have been suitably subdivided, employing nonconsecutive part numbers from 1 to 65, making provision for substitution and additions.

This system of accounts (Part 35 of the Commission's rules and regulations) supersedes §§ 35.01-0 to 35.709, inclusive, previously published under this part number in the Code of Federal Regulations. Neither the superseded sections nor this system of accounts purports to provide for a complete comparative evaluation of the benefits extended and received under reciprocal agreements with railroad companies and others.

The several section numbers indicate the relationship among the instructions and accounts of Part 35, as follows:

Examples:
(1) § 35.01-1.
(2) § 35.10-1.
(3) § 35.1-2.
(4) § 35.1000.
(5) § 35.11.
(6) § 35.1515.

Explanation:

The number "35" (appearing to the left of the decimal point) indicates the part number.

The dash (—) indicates an instruction that is applicable to several accounts. (See examples (1), (2), and (3).)

With the exception of the instructions that are applicable to more than one group of accounts (which are indicated by a zero following the decimal point), the number between the decimal point and the dash indicates the group of accounts to which the instruction is applicable by the use of a mnemonic method of indication consisting of the first two digits of the first account in a group composed of four-digit account numbers, and the first digit of the first account in a group composed of two-digit account numbers (applicable only to the plant accounts in this system of accounts). Thus, in the foregoing examples:

Section 35.01-1 refers to several groups of accounts;

Section 35.10-1 refers to the balance-sheet accounts (beginning with account 1000);

Section 35.1-2 refers to the plant accounts (beginning with account 11).

When no dash appears in the section number, the number to the right of the decimal point is an account number. (See examples (4), (5), and (6).) A colon (:) indicates the subdivision of an account, the number to the right of the colon being the subaccount number. Where references throughout the regulations are to an account, as such, only the account number is used.

APPLICABILITY

§ 35.01-1 *Carriers subject to this system of accounts.* This system of accounts applies to carriers engaged primarily in furnishing wire-telegraph or ocean-cable service. (See also § 35.03-8.)

§ 35.01-2 *Classification of carriers.* (a) For the purpose of applying this system of accounts wire-telegraph and ocean-cable carriers are divided into two classes, as follows:

Class A. Carriers having average annual operating revenues exceeding $100,000. Such carriers shall keep all the accounts that are applicable to their affairs.

Class B. Carriers having average annual operating revenues exceeding $50,000, but not exceeding $100,000. Such carriers shall keep all the accounts that are applicable to their affairs, except that their accounts for operating revenues and operating expenses may be kept under the condensed primary classifications provided in §§ 35.05–1 and 35.05–2.

(b) Carriers having average annual operating revenues not exceeding $50,000 may (but are not required to) keep the accounts prescribed in this system of accounts.

§ 35.01–3 *Determination of class.* (a) The class to which any carrier belongs shall be determined by the average of its annual operating revenues for the 3 years immediately preceding the effective date of this system of accounts. If at the close of any subsequent calendar year the average of its annual operating revenues for the latest 3 years is greater than the amount applicable to the class in which the carrier has been previously includible, the accounts applicable to the higher class shall be adopted.

(b) Carriers not engaged in furnishing wire-telegraph or ocean-cable service over the 3-year period immediately preceding the effective date of this system of accounts shall estimate the amount of their annual operating revenues and shall keep the accounts applicable to carriers having actual revenues in the amount estimated.

§ 35.01–4 *Effective date.* The effective date of this system of accounts shall be extended to January 1, 1943: *Provided, however,* That the carriers to which this system of accounts is applicable shall continue to pursue with all possible diligence the major studies essential to providing accounting consistent with this system of accounts, particularly with respect to (1) the determination of original cost, (2) leased property, and (3) depreciation; and each such carrier shall advise the Commission promptly of any definite determination resulting from such studies to the end that appropriate adjustment may be made irrespective of the effective date of this system of accounts.

DEFINITIONS

§ 35.02–1 *Restrictive use of certain terms.* When used in this system of accounts, unless otherwise indicated, the term or expression:

"Accounts" or "these accounts" means the accounts prescribed in "this system of accounts."

"Acquisition cost" means the amount of money actually paid (or the then current money value of any consideration other than money given) by the "carrier" for property, including the preliminary expenses incurred in connection with the acquisition.

"Act" or "the act" means the Communications Act of 1934 as amended.

"Actually issued," as applied to securities issued or assumed by the "carrier," means (1) those securities that have been sold to bona-fide purchasers for a valuable consideration (including those issued in exchange for other securities or other property), (2) those that have been issued in accordance with contractual requirements directly to trustees of debt-redemption and other funds, and (3) those that have been issued in payment of dividends on stock.

"Actually outstanding," as applied to securities issued or assumed by the "carrier," means those securities that have been "actually issued" and are neither retired nor held by or for the "carrier": *Provided, however,* That securities held by trustees of debt-redemption and other funds shall be regarded and treated as actually outstanding.

"Affiliate" means (and "affiliated" relates to) a "person" that, directly, or indirectly through one or more intermediaries, "controls," is "controlled by," or is "under common control with," the "carrier."

"Amortization" means the gradual extinguishment of an amount in an account by prorating such amount over a fixed period.

"Book amount," as applied to securities issued or assumed by the "carrier," means (1) the amount duly authorized for inclusion in account 2410, "Capital stock issued," for stock having no par value, and (2) the "face amount" of all other securities.

"Book cost" means the amount at which property is recorded in an account without the deduction of amounts in related or other accounts.

"Carrier" means the accounting carrier.

"Class," as applied to depreciable plant (see § 35.04–1), means that portion of the total plant that is represented by a single primary plant account.

"Commission" means the Federal Communications Commission.

"Communication" or "communication service" means the "transmission" of writing, signs, signals, pictures, and sounds of all kinds, by aid of wire, cable, or radio, between the point of origin and the point of reception of such "transmission," including all instrumentalities, facilities, apparatus, and services (among other things, the receiving, forwarding, and delivery of communications) incidental to such "transmission."

"Compensation," as applied to officers and employees, means salaries, wages, commissions, bonuses, and other remuneration (such as subsistence furnished in lieu of wages) for services.

"Continental communication" means "communication" when both the point of origin and the point of destination are located within the "continental United States."

"Continental United States" means the several States of the United States, the District of Columbia, and the Territory of Alaska.

"Contingent asset" means an item representing a possible source of value to the "carrier" dependent upon the fulfillment of conditions regarded as uncertain.

"Contingent liability" means an item representing a possible source of obligation of the "carrier" dependent upon the fulfillment of conditions regarded as uncertain.

"Control" means (and the terms "controlling," "controlled by," and "under common control with" relate to) the direct or indirect possession of the power (including the veto power) to direct or to cause the direction of the management, important acts, and policies of a "person," whether such power is exercised through one or more intermediary "persons," or alone, or in conjunction with, or pursuant to an agreement with, one or more other "persons," and whether such power is established through a majority or a minority ownership or voting of securities, common directors, officers, or stockholders, voting trusts, holding trusts, affiliates, contracts, or any other direct or indirect means. "Control" shall not be viewed as altered by a new status of any "person" that may be occasioned by pending proceedings in bankruptcy or by any situation of receivership, trusteeship, or fiduciary relationship resulting from proceedings of a like nature.

"Cost," as applied to plant, means the "original cost" of plant acquired from predecessors as substantially complete operating systems or operating units and the "acquisition cost" of all other plant. Except as applied to plant, "cost" means the amount of money actually paid (or the then current money value of any consideration other than money given) by the "carrier" for property or services.

"Cost of removal" means the cost of demolishing, dismantling, tearing down, or otherwise removing plant, including the cost of transportation and handling incidental thereto.

"Date of installation," as applied to plant acquired from predecessors as substantially complete operating systems or operating units, means the date at which such plant was first dedicated to public use. As applied to all other plant, the term means the date at which such plant was placed in "communication service" by the "carrier."

"Date of retirement" means the date at which plant is retired from "communication service."

"Debt expense" means all expenses incurred by or for the "carrier" in connection with the issuance and sale of evidences of debt (exclusive of the sale of reacquired securities), such as fees for drafting mortgages and trust deeds; fees and taxes for issuing or recording evidences of debt; cost of engraving and printing bonds, certificates of indebtedness, and other commercial paper; specific costs of obtaining governmental authority for issuance and filing notices thereunder; fees for legal services; fees and commissions paid underwriters, brokers and salesmen for marketing such evidences of debt; fees and expenses of listing on exchanges; and other like costs.

"Delayed items" means items relating to transactions that occured during a prior calendar year and require further accounting treatment for a true statement. It includes adjustments of errors in the operating-revenue, operating-expense, and other income accounts for prior years.

"Depreciation," as applied to depreciable "operated plant," means the loss in "service value" not restored by current maintenance, incurred in connection with the consumption or prospective "retirement" of such plant in the course of

service from causes known to be in current operation against which the "carrier" is not protected by insurance and the effect of which can be forecast with a reasonable approach to accuracy. Among the causes to be given consideration are wear and tear, decay, action of the elements, obsolescence, inadequacy, changes in the art, changes in demand, and requirements of public authorities.

"Discount," as applied to securities issued or assumed by the "carrier," means the excess of (1) the "book amount" of the securities over (2) the then current money value of the consideration received from their sale less the amount included therein for interest accrued or for dividends.

"Face amount," as applied to securities issued or assumed by the "carrier," means the amount of principal of indebtedness, or par value of stock, as set forth in the documents themselves.

"Foreign communication" means "communication" when either the point of origin or the point of destination is located without the "United States."

"Includible" means properly includible under the provisions of "this system of accounts."

"Insular communication" means "communication" between the insular territories or possessions of the United States (excluding the Philippine Islands and the Canal Zone) and the "continental United States," or among the insular territories or possessions of the United States (excluding the Philippine Islands and the Canal Zone).

"Investment advances" means advances, represented by notes or by book accounts only, which it is mutually agreed or intended between the creditor and the debtor shall be settled by the issuance of capital stock or evidences of long-term debt, or shall not be subject to current settlement. Advances with respect to which amounts have been, or will be, included in the current accounts for more than one year will be considered not subject to current settlement.

"Matured" means due and payable (or receivable) as at a date not later than the first day following the date of the balance sheet.

"Minor items," as applied to plant, means those quantities of depreciable "operated plant" not designated as "retirement units" in § 35.1–6–1.

"Mobile communication" means "communication" when either the point of origin or the point of destination is located on aircraft, on a ship, or on a land vehicle regularly used in "communication service."

"Net book cost," as applied to all, or to a specific portion of plant, means the "book cost" minus the recorded depreciation (or amortization) allowance that is assignable thereto.

"Net salvage value" means the "salvage value" of "plant retired" after deducting the "cost of removal" incidental to its "retirement."

"Nominally issued," as applied to securities issued or assumed by the "carrier," means those securities that have been signed, certified, or otherwise executed, and placed with the proper officer for sale and delivery, or pledged or otherwise placed in some special fund of the "carrier," but have not been sold or issued directly to trustees of debt-redemption or other funds in accordance with contractual requirements.

"Nominally outstanding," as applied to securities issued or assumed by the "carrier," means those "actually issued" securities that have been reacquired by or for the "carrier" under circumstances that prohibit considering them retired: *Provided, however,* That securities held by trustees of debt-redemption or other funds shall be regarded and treated as "actually outstanding."

"Ocean-cable plant" means plant used or useful in furnishing "ocean-cable service."

"Ocean-cable service" means record "communication service" furnished prevailingly by means of transoceanic-type cable and associated facilities located at ocean-cable termini, as well as incidental services so intimately related to such "communication service" as to make impracticable the determination of the extent to which the use of plant or the operating income, revenues, or expenses are applicable to such incidental services.

"Operated plant" means the physical plant used in "wire-telegraph service" and "ocean-cable service" together with the associated intangible items.

"Original cost," as applied to plant, means the actual money cost of (or the then current money value of any consideration other than money given for) property at the time it was first dedicated to the public use, whether by the "carrier" or by any other "person."

"Person" means an individual, a corporation, a partnership, an association, a joint-stock company, a business trust, or any other organized group, or any receiver or trustee.

"Plant retired" means plant that has been removed, sold, abandoned, destroyed, or for any cause withdrawn from "communication service."

"Premium," as applied to securities or assumed by the "carrier," means the excess of (1) the then current money value of the consideration received from their sale, less the amount included therein for interest accrued or for dividends, over (2) their "book amount."

"Primary account" means (1) any account the name or title of which appears in the table of contents of "this system of accounts" or (2) any additional clearing account or experimental account optionally maintained pursuant to the provisions of § 35.03–5.

"Replacement" means the construction or installation of plant in place of "plant retired."

"Retirement." (See "plant retired.")

"Retirement units" means the quantities of depreciable "operated plant" listed in § 35.1–6–1.

"Salvage value" means the amount received for "plant retired," if sold, less any expenses incurred in connection with such sale or in preparing the property for sale; or, if retained, the amount at which the material recovered is chargeable to account 1795, "Material and supplies," or other appropriate account.

"Service life" means the period between the "date of installation" of plant and the "date of retirement" thereof.

"Service value" means the difference between the "cost" of plant and its "net salvage value."

"Stock expense" means all expenses incurred by or for the "carrier" in connection with the issuance and sale of capital stock (exclusive of the sale of reacquired capital stock), such as fees and commissions paid to promoters, underwriters, brokers, and salesmen; fees for legal services; cost of soliciting subscriptions for capital stock, including fees, commissions, and advertising; specific costs of obtaining governmental authority for issuance and filing notices thereunder; fees and taxes for issuance of capital stock and listing on exchanges; and the cost of preparing, engraving, printing, issuing, and distributing prospectuses and stock certificates.

"Straight-line method," as applied to "depreciation" accounting, means the plan under which the "service value" of depreciable "operated plant" is charged to depreciation, clearing, and other accounts and credited to the depreciation-allowance account through equal annual charges (as nearly as may be) during its "service life."

"Subclass," as applied to depreciable plant (§ 35.04–1), means that portion of a "class" of plant, preferably corresponding to one or more "subprimary" plant accounts, to the cost of which a specific percentage rate of depreciation is applied in accounting for "depreciation," which percentage rate differs from those that are applied with respect to other "subclasses" of the same "class" of such plant.

"Subprimary account" or "subaccount" means any account, required or permitted by "this system of accounts," the balance in which, if combined with the balances in all the other accounts subprimary to the same account, will produce the balance in that "primary account."

"System of accounts" or "this system of accounts" means the rules embodied in this part.

"Transmission" means the movement of "communication." It includes the receiving, forwarding, and delivery of communications.

"United States" means the several States and Territories, the District of Columbia, and the possessions of the United States, but does not include the Philippine Islands or the Canal Zone.

"Wire-telegraph plant" means plant used or useful in furnishing "wire-telegraph service."

"Wire-telegraph service" means record "communication service" furnished prevailingly by means of metallic conductors and associated terminal facilities (excluding "ocean-cable plant"), as well as incidental services so intimately related to such "communication service" as to make impracticable the determination of the extent to which the use of plant or the operating income, revenues, or expenses are applicable to such incidental services.

INSTRUCTIONS; GENERAL

§ 35.03–1 *Classes of records.* (a) The records to be maintained in accordance with the provisions of this system of accounts are divided into two classes: viz, (1) books of account, containing the primary and subprimary accounts defined in § 35.02–1, and (2) supporting records. (See also §§ 35.03–2 and 35.03–3.)

(b) All records are to be retained permanently except as otherwise provided in Part 42 (Destruction of Records) of this chapter.

§ 35.03–2 *Basis of entries in books of account.* (a) Amounts entered in the books of account shall be in denominations of United States currency. When subsidiary records are kept in which entries are made in terms of foreign currencies, the translation to terms of United States currency for entry in the books of account shall be effected as prescribed in § 35.03–16.

(b) The books of account shall be so maintained that when the full information is not recorded therein the entries shall contain sufficient reference to the supporting records to permit ready identification.

(c) Each carrier shall keep its books of account on a calendar-month basis so that for each month all transactions applicable thereto, as nearly as may be ascertained, will be entered in the books. The final entries for any month shall be made not later than 60 days after the last day of the month for which the accounts are stated, except that the period within which the final entries for the month of December shall be made may be extended to such date as will not interfere with the preparation and filing of annual reports as required by section 219 of the act.

(d) The books of account shall be maintained independently for each carrier and shall not be combined with those of any other person.

§ 35.03–3 *Records supporting accounting entries.* Supporting records shall be maintained in which shall be shown the full details concerning any entry in the books of account for which the details are not shown in the accounts themselves. The supporting records referred to herein include, in addition to the accounting records in a limited technical sense, all records such as minute-books, stock-books, reports, correspondence, memoranda, maps, plans, specifications, quantity surveys, inventories, and any and all other records that would be useful in developing the history of or the facts regarding any transaction. These supporting records shall be so filed as to be readily accessible for examination by representatives of the Commission.

§ 35.03–4 *Transactions with affiliates.* Each carrier shall so maintain its accounts and records as to be able to furnish accurately and expeditiously a statement of all transactions with affiliates. This statement shall show the general nature of the transactions, the amounts involved therein, and the amounts included in each account prescribed herein with respect to such transactions.

§ 35.03–5 *Summary accounts, subaccounts, additional clearing accounts, and temporary or experimental accounts.* (a) Accounts that are clearly summaries of other accounts or of subaccounts provided for herein are not required to be kept in the carrier's books of accounts. However, such accounts may be opened in the general books for control purposes.

(b) All accounts kept shall conform in number and title to those prescribed herein, except that:

(1) Carriers may subdivide any of the prescribed accounts or subaccounts, provided that such subdivisions do not impair the integrity of the prescribed accounts. The titles of all such subdivisions shall refer by number or title to the account or accounts of which they are subdivisions.

(2) Clearing accounts in addition to those prescribed and temporary or experimental accounts may be kept, provided that such additional accounts do not impair the integrity of the prescribed accounts.

(3) Within 90 days from the effective date of this system of accounts, the carrier shall notify the Commission of the nature and purpose of (i) the subdivisions of the prescribed accounts, (ii) the temporary accounts, (iii) the experimental accounts, and (iv) the additional clearing accounts opened under authority of this section. The carrier shall continue to keep the Commission informed of all additional accounts (or subaccounts) of these types that are opened after such effective date.

NOTE: Only one item need be reported for a group of subaccounts that differ from each other only with respect to geographical location or type of material.

(c) When so required by a State commission or other authority exercising jurisdiction, the carriers' records may be so maintained that the amounts of plant, operating revenues, operating expenses, and other operating-revenue deductions applicable to operations within such jurisdiction may be stated separately, provided that such separate statement does not impair the integrity of any primary account or subaccount required to be maintained under this system of accounts.

§ 35.03–6 *Transferring balances from accounts previously maintained.* As at the effective date of this system of accounts, the several accounts prescribed herein shall be opened by transferring thereto the balances carried in the accounts previously maintained by the carrier. The carrier is authorized to make such subdivisions, reclassifications, or consolidations of these balances as are necessary to meet the requirements of this system of accounts. Entries that require the determination of cost by estimates shall be supported by records showing in complete detail the methods used in arriving at or computing the amounts thereof. Copies of journal entries recorded to effect the transfers, and a detailed statement of the methods used in arriving at or computing estimated costs, shall be filed with the Commission within 90 days from the dates of the entries. (See also paragraph (g) of § 35.1–1.)

§ 35.03–7 *Charges to be just and reasonable.* All charges to the accounts prescribed in this system of accounts for plant, for operating revenues, and for operating expenses and other operating-revenue deductions shall be just and reasonable, and any payments by the carrier in excess of such just and reasonable charges shall be included in account 5299, "Other deductions from ordinary income."

§ 35.03–8 *Entries involving telephone or radiotelegraph service.* (a) When wire-telegraph or ocean-cable carriers are engaged also in furnishing telephone or radiotelegraph service through the utilization of distinctive portions of their facilities devoted exclusively or primarily to such service, they shall maintain accounts for the plant, operating revenues, operating expenses, and other items applicable to each such service in conformity with the respective effective accounts prescribed for carriers engaged primarily in furnishing such service. In the reports to the Commission the amounts in these accounts shall be indicated as provided in paragraph (b) of this section.

(b) The cost of distinctive telephone or radiotelegraph plant (whether operated by the carrier or others) shall be included in account 1530, "Telephone and radiotelegraph plant." The amounts of the allowances for depreciation and amortization of such plant shall be included in account 1535, "Allowance for depreciation and amortization; telephone and radiotelegraph plant." The amounts of revenue derived from the operation of such plant by the carrier shall be credited to account 3610, "Telephone revenue; telephone systems," or account 3625, "Radiotelegraph revenue; radiotelegraph systems," as appropriate. The amounts of operating-revenue deductions (including operating expenses) applicable to the operation of such plant shall be charged to account 4945, "Telephone and radiotelegraph operating-revenue deductions." The rentals received from telephone or radiotelegraph plant leased to others as substantially complete operating systems or operating units shall be credited to account 5015, "Income from telephone and radiotelegraph plant leased to others," and the amounts of operating-revenue deductions applicable to the operation of such plant shall be charged to account 4945. Rentals from telephone or radiotelegraph facilities not constituting substantially complete operating systems or operating units shall be credited to the appropriate operating-revenue accounts.

(c) When the major use of a particular portion of the carrier's plant is in wire-telegraph or ocean-cable service, but the same facilities are used also in other types of communication service in a manner preventing the distinction of the physical elements associable with such services, the distribution of the operating revenues, operating expenses, and other deductions from operating revenues among the several classes of communication service where directly applicable shall be accomplished by subdivisions of the prescribed accounts, except that revenues derived from telephone service rendered through the use of such plant shall be included in account 3155, "Telephone service revenue" (wire-telegraph), or account 3255, "Telephone service revenue" (ocean-cable), as appropriate. (See also § 35.03–17.)

§ 35.03–9 *Sequence of accounts.* The order in which the accounts are presented in this system of accounts is not to be considered as necessarily indicative of the order in which they will be scheduled at all times in reports to the Commission. The sequence contemplated (until further notice) will be as indicated in the respective forms which immediately precede the texts for the several groups of accounts.

§ 35.03–10 *Preliminary investigations and research.* (a) The cost of preliminary surveys, plans, and investigations made for the purpose of determining the feasibility of contemplated major projects shall be charged to account 1935, "Preliminary survey and investigation charges," and subsequently cleared therefrom in accordance with the text of that account.

(b) The cost of research and development work such as laboratory expenses and other research items that cannot be assigned to specific construction projects shall be charged to account 9011, "Research and development clearing account," and subsequently cleared therefrom in accordance with the text of that account.

§ 35.03–11 *Interpretation of the prescribed accounting.* (a) The parenthetical cross-references and the notes following the texts of various instructions and accounts are for the purpose of indicating the particularly applicable provisions of other sections. Such references are not to be construed as compromising a complete list of the instructions relating to a particular subject, since the definitions, the general instructions, and the instructions at the beginning of each group of accounts must be given consideration in determining the prescribed accounting.

(b) All questions of doubtful interpretation of the prescribed accounting shall be submitted, by responsible accounting officials of the carrier, to the Commission for consideration and decision.

§ 35.03–12 *Interpretation of item lists.* The lists of items following the texts of the several accounts are for the purpose of indicating the application of the prescribed accounting in specific cases. The lists are not to be considered as comprising all the items to be reflected in the several accounts, but merely representative of them. Although the same item may appear in more than one list, its appearance in a list warrants the reflection of such item in the account concerned only when the text of the account also so indicates. The proper entry in each instance must be determined by the text of the account.

§ 35.03–13 *Delayed items.* Delayed items shall be charged or credited to the same accounts that would have been charged or credited if the items had not been delayed; *Provided*, That, when the amount of a delayed item is relatively so large that its inclusion in the accounts for a single year would seriously distort the accounts for that year, the carrier shall charge or credit the amount to account 6220, "Delayed income charges," or account 6210, "Delayed income credits," as appropriate. Not later than the date of filing its next annual report to the Commission the carrier shall file with the Commission a statement showing the full particulars concerning each such item, including the accounts and years that would have been affected had the item not been delayed.

§ 35.03–14 *Unaudited items.* (a) When, at the end of a calendar year or at such other time as a financial statement may be required by the Commission, it is known that a transaction has occurred which affects these accounts but the amount involved in the transaction and its effect upon the accounts cannot be accurately determined, an estimate thereof shall be included in the appropriate accounts. The carrier is not required to anticipate minor items that would not appreciably affect these accounts.

(b) If, during the interval between the date of initial estimate of the item and the date on which it is audited, a substantial difference from the initial estimate is determined, appropriate adjustment to cover such difference shall be made in the accounts for the month in which the difference is determined.

(c) When the item is audited, the necessary adjustment shall be made in the appropriate account for the month in which the item is audited.

(d) Any substantial difference determined in accordance with paragraph (b) or (c) shall be accounted for as provided in § 35.03–13 or § 35.03–15, as appropriate.

§ 35.03–15 *Unusual items.* When the amount of any item includible in an operating-revenue, operating-expense, or other income account for a single month is relatively so large that its inclusion in the accounts for that month would seriously distort that account, it may be included in account 1999, "Other deferred charges," or account 2399, "Other deferred credits," as appropriate, and distributed in equal amounts to the accounts for the current and remaining months of the calendar year.

§ 35.03–16 *Transactions involving foreign currency.* (a) Revenues when collected, billed, or for other reasons given initial treatment in the accounts in terms of foreign currency, shall be stated in the operating-revenue accounts (3100 to 3699, inclusive) in terms of United States currency on the basis of a fixed uniform rate of foreign exchange. Concurrently adjustments from such fixed uniform rate to the then current rate of exchange shall be recorded in account 3710, "Foreign exchange; revenue differential."

(b) Under uniform practices, adopted by the carriers and reported to the Commission, operating-revenue deductions (including operating expenses) when paid, vouchered, or for other reason given initial treatment in the accounts in terms of foreign currency shall be stated in accounts 4000 to 4999, inclusive (other than account 4998), in terms of United States currency on the basis of a fixed uniform rate of foreign exchange. Concurrently, adjustments from such fixed uniform rate of exchange to the then current rate of exchange shall be recorded in account 4998, "Foreign exchange; expense differential."

(c) Under uniform practices, adopted by the carriers and reported to the Commission, ordinary income items (other than those provided for in paragraphs (a) and (b) of this section and the operating-revenue deductions) given initial treatment in the accounts in terms of foreign currency shall be stated in income accounts 5000 to 5299, inclusive (other than accounts 5140 and 5298), in terms of United States currency on the basis of the fixed uniform rate of foreign exchange. Concurrently, adjustments from such fixed uniform rate of exchange to the then current rate of exchange shall be recorded in account 5298, "Foreign exchange; Income differential."

(d) Current assets and liabilities or net current assets, recorded in the first instance in terms of foreign currency, shall be recorded in terms of United States currency at the end of each month at the then current rate of exchange. The net difference arising out of such translation at the beginning and at the end of the monthly accounting period shall be recorded as a charge or a credit to account 5140, "Gain or loss on foreign currency exchange."

(e) Differences in terms of United States currency between (1) amounts initially recorded (or resulting from the most recent translation) in the asset or liability accounts and (2) amounts required for settlement or derived from conversion, by reason of such transactions as the effecting of traffic settlements, the payment of rents or the receipt of rentals, or the settlement of loans, shall be recorded in account 5140, "Gain or loss on foreign currency exchange."

§ 35.03–17 *Apportioning amounts among accounts.* (a) When it is necessary to apportion amounts among accounts or subaccounts, the carrier shall be prepared to describe the basis of such apportionment.

(b) The pay and expenses of officers or employees regularly assigned to specific duties who perform incidental services of a different nature involving small expense shall be included in the expense accounts appropriate for the duties to which such officers or employees are regularly assigned.

(c) The pay and expenses of officers or employees engaged in activities of a varying nature, such as an engineer who may be assigned to supervise construction, maintenance, or operations work, shall be included in the appropriate ac-

counts upon the basis of the actual time devoted to the respective classes of work, except that the pay and expenses of an officer or employee who performs substantially the same variety of duties from day to day may be distributed upon the basis of a study of the time actually devoted by him to these duties during a representative period.

§ 35.03–18 *Transactions involving joint operations.* (a) In accounting for operating expenses incurred under arrangements for apportionment between the persons concerned, the creditor shall show the distribution of the charges in its bills and such distribution shall be adhered to in the accounts of any debtor to which this system of accounts is applicable.

(b) Any amounts included in the settlement representing return on investment in the plant used under joint-operation arrangements shall be charged or credited, as the case may be, to the appropriate rent-expense account or to the appropriate rent-revenue account.

§ 35.03–19 *Transactions involving interchange of traffic.* (a) A traffic-settlement account shall be maintained with each communication carrier with which traffic is interchanged (separately from the accounts maintained for other transactions with such carriers), and there shall be included in each such account both (1) amounts representing the accounting carrier's portion of revenues receivable from interchange of traffic with the respective carrier and (2) amounts representing the accounting carrier's obligation to such other carrier for traffic interchanged with it. (See also § 35.31–3.)

(b) In stating the balance sheet, the total of the debit balances remaining in these traffic-settlement accounts that have net debit balances shall be reported in account 1742, "Traffic settlements receivable from affiliates," and account 1752, "Traffic settlements receivable," as appropriate, and the total of the credit balances remaining in these traffic-settlement accounts that have net credit balances shall be reported in account 2122, "Traffic settlements payable to affiliates," and account 2132, "Traffic settlements payable," as appropriate.

§ 35.03–20 *Commissions.* (a) Commissions are amounts payable to a person acting as agent for the accounting carrier for services rendered, or amounts receivable by the accounting carrier for services rendered as agent of another person, whether such amounts are computed on a percentage basis or on a fixed unit rate.

(b) Commissions for terminal services in originating and terminating messages or similar communication services rendered to the carrier by other communication carriers, transportation companies, hotels, service stations, or other persons not employees of the carrier shall be included in account 4273, "Terminal commission charges."

(c) Commissions for services rendered by employees shall be included in the operating-expense account appropriate for the compensation of such employees.

(d) Commissions for terminal services rendered by the carrier to other carriers shall be included in account 3350, "Terminal commissions," particularly when such amounts are the result of operating agreements that provide a substantial source of revenue.

NOTE. Inconsequential amounts receivable for terminal services rendered to other carriers, particularly when there is no element of profit involved, may be included in account 4275, "Terminal commissions; expense credit."

§ 35.03–21 *Transactions involving leased property.* (a) When, under the terms of a lease, the carrier obtains exclusive possession of a substantially complete operating system or operating unit, the following information applicable to such plant shall be obtained from the lessor:

Date of installation.
Original cost.
Estimated service life.
Estimated cost of removal.
Estimated salvage value.
Depreciation accrued by the lessor to effective date of leasing agreement.

Such information shall be made the basis of the memorandum records required under the provisions of paragraph (h) of § 35.1–5.

(b) When, under the terms of a lease, the carrier as lessor surrenders exclusive possession of a substantially complete operating system or operating unit, the information enumerated in paragraph (a) of this section shall be furnished to the lessee. The cost of such property shall be recorded in the accounts of the lessor as provided in §§ 35.1100 and 35.1–1.

(c) When, under the terms of a lease, improvements made by the lessee revert to the lessor and constitute a part of the consideration paid for the use of the plant, the cost of such improvements shall be included in the appropriate plant accounts of the lessor and in account 1815, "Prepaid rents," in the accounts of the lessee, and shall be otherwise accounted for as provided in paragraph (b) of § 35.1–5.

(d) Depreciation of the leased property shall be accounted for as provided in paragraphs (d) and (e) of § 35.1–5 and in paragraphs (b), (c), and (d) of § 35.30–3. (See also §§ 35.1515, 35.1520, 35.2225, 35.2230, 35.4910, and 35.4915.)

INSTRUCTIONS; DEPRECIATION ACCOUNTING

§ 35.04–1 *Classes of depreciable operated plant.* The classes of depreciable operated plant and the plant accounts in which the cost of such plant is includible are as folows:

Land used for right of way (account 11).
Land improvements (account 14).
Buildings (account 15).
Outside communication lines (accounts 21 to 39, inclusive).
Inside communication plant (accounts 41 to 59, inclusive).
Office and messenger equipment (accounts 61 to 69, inclusive).
Work equipment (accounts 71 to 79, inclusive).

NOTE A: Special instructions are provided for the accounting for the depreciation on messenger uniforms. (See particularly note B in § 35.65.)

NOTE B: Depreciation charges on work equipment are includible in the appropriate clearing accounts.

§ 35.04–2 *Computation of depreciation rates.* (a) Annual depreciation rates applicable to the cost of each class or subclass of depreciable plant shall be established on the basis of the estimated service values and service lives developed by a study of the carrier's history and experience and such engineering and other information as may be available with respect to prospective future conditions, but shall not include any allowance for loss in service value of property expected to be acquired in the future. These percentage rates shall be such that the loss in service value of plant, except losses excluded under the definition of depreciation, shall be accounted for under the straight-line method of depreciation accounting.

(b) The carrier shall keep such records of plant and plant retirements as will reflect the service life of plant that has been retired or will permit the determination of service-life indications by mortality, turnover, or other appropriate methods and also such records as will reflect the percentage of net salvage value for plant retired from each class of depreciable plant.

(c) When with respect to any class or subclass of plant the factors causing depreciation (and consequently occasioning the amount of the current net book cost and the rate of depreciation previously applied in the accounts) commence at any time (including the accounting period—year or month—immediately preceding retirement) to operate at a new rate, that fact shall be recognized in the accounts by applying (actually or in effect) such a new percentage rate to the cost of that plant or portion thereof as will dispose of the difference between its current net book cost and its estimated net salvage value during the period (known or estimated) of its remaining life.

§ 35.04–3 *Depreciation charges.* (a) The current depreciation charges applicable to operated plant the cost of which is includible in account 1000, "Operated plant in carrier's service," and account 1200, "Improvements and replacements of operated plant leased from others," shall be determined by applying monthly to the amounts in each account or subaccount one-twelfth of the annual percentage rate, determined in accordance with § 35.04–2 as applicable thereto. Such amounts shall be recorded monthly in account 4910, "Depreciation," or in the clearing accounts, as appropriate, and corresponding credits shall be recorded in account 1515, "Allowance for depreciation; Wire - telegraph and ocean-cable plant." The amount remaining in account 1515, with respect to any class or subclass of operated plant for which a separate specific percentage rate is computed, shall at no time, be in excess of the depreciation-allowance requirement computed on the basis of the then applicable depreciation rate (see § 35.04–2) and the remaining life expectancy of such class or subclass of operated plant. (See also § 35.03–21.)

(b) When, under the terms of a lease, the carrier, as lessor, is required to replace or to restore the condition of operated plant the cost of which is includible in account 1100, "Operated plant leased to others," the current depreciation charges shall be recorded monthly in account 5010, "Income from operated plant leased to others," and corresponding credits shall be recorded in account 1515, "Allowance for depreciation; Wire-telegraph and ocean-cable plant." (See also § 35.30–3.)

(c) When, under the terms of a lease, the carrier, as lessee, is required to replace or to restore the condition of operated plant leased from others, depreciation charges with respect to such original leased plant shall be computed and applied as provided in § 35.1–5.

(d) Depreciation charges initially accounted for by the lessor shall be reported to and accounted for by the lessee as provided in paragraph (c) of § 35.30–3.

§ 35.04–4 *Extraordinary retirements.* The initial accounting for the retirement of operated plant for causes not contemplated in prior allowances for depreciation shall be as provided in §35.1–6. If retirement losses are covered by commercial insurance, the amounts recovered therefrom shall be credited to account 1515, "Allowance for depreciation Wire-telegraph and ocean-cable plant." If retirements occasion losses for which provision has been made in account 2215, "Provisions for self-carried insurance," the amounts of such losses shall be charged to that account and credited to account 1515 to the extent of the amounts so provided. To the extent that the loss is not covered by insurance the carrier may, upon approval by the Commission, credit account 1515 and charge account 1910, "Extraordinary maintenance, depreciation, and retirements," with the unprovided-for loss in service value, and distribute it from the latter account to account 4925, "Extraordinary plant losses," over such period as the Commission may approve or direct. The carrier's application to the Commission for permission to charge account 1910 shall give particulars concerning the plant retired, the unprovided-for service loss, and the period over which, in the carrier's judgment, such charges should be distributed.

INSTRUCTIONS FOR CLASS B CARRIERS

§ 35.05–1 *Primary operating-revenue accounts for class B carriers.* Class B carriers shall keep all the operating-revenue accounts prescribed for class A carriers that are applicable to their affairs, except that they may keep the following accounts in lieu of the nontransmission revenue accounts:

3400 *Wire-telegraph nontransmission revenues.* This account shall include the carrier's portion of revenues from wire-telegraph operations other than transmission. It shall include all the operating revenues includible by class A carriers in accounts 3410 to 3499, inclusive.

3500 *Ocean-cable nontransmission revenues.* This account shall include the carrier's portion of revenues from ocean-cable operations other than transmission. It shall include all the operating revenues includible by class A carriers in accounts 3510 to 3599, inclusive.

§ 35.05–2 *Primary operating-expense accounts for class B carriers.* Class B carriers shall keep all the operating-expense accounts prescribed for class A carriers that are applicable to their affairs, except that certain accounts may be combined as follows:

4210 *Compensation of conducting-operations employees.* This account shall include the amounts of compensation of employees engaged in conducting operations. It shall include all the amounts includible by class A carriers in accounts 4211 to 4219, inclusive.

4260 *Operating rents.* This account shall include the amounts of expenses incurred as rents for the use of operating property. It shall include all the amounts includible by class A carriers in accounts 4261 to 4269, inclusive.

4290 *Other conducting-operations expenses.* This account shall include the amounts of expenses incurred in conducting operations not provided for elsewhere. It shall include all the amounts includible by class A carriers in accounts 4221 to 4259, inclusive, and accounts 4271 to 4299, inclusive.

4300 *General expenses.* This account shall include the general expenses of the carrier. It shall include all the expenses includible by class A carriers in accounts 4311 to 4399, inclusive.

4400 *Administrative expenses.* This account shall include the administrative expenses of the carrier. It shall include all the expenses includible by class A carriers in accounts 4410 to 4499, inclusive.

REPORTING REQUIREMENTS

§ 35.06–1 *Provisions that require the specific approval of the Commission before the accounting is performed.* (a) Specific authority shall be obtained from the Commission before charges representing unprovided-for losses in service value are entered in account 1910, "Extraordinary maintenance, depreciation, and retirements." (See § 35.04–4.)

(b) The plan of accounting proposed to record the exchange of securities issued or assumed by the carrier shall be submitted to the Commission for consideration and approval prior to the recording of the journal entries applicable thereto. (See § 35.10–8.)

(c) The plan of accounting proposed to record (1) the issuance of no-par capital stock, (2) the appropriation of surplus for transfer to the no-par capital-stock account, (3) the reduction of capital surplus through the use of the no-par capital-stock account, or (4) the reduction of the amount in account 2410, "Capital stock issued," through the creation of surplus or the reduction of the book value of assets, shall be submitted to the Commission for consideration and approval prior to the recording of the journal entries applicable thereto. (See paragraph (c) of § 35.10–9.)

(d) Specific authority shall be obtained from the Commission if, in connection with the refinancing of an issue or series of bonds or other long-term debt, the carrier desires to amortize any of the discount, expense, or premium associated with the issuance or redemption of the prior issue over a period subsequent to the date of its redemption. (See paragraph (f) of § 35.10–14.)

(e) Specific authority shall be obtained from the Commission before the carrier disposes of amounts entered in account 1510, "Plant-acquisition adjustments." (See paragraph (d) of § 35.1510, paragraph (b) of § 35.1520, and §§ 35.4920 and 35.5255.)

(f) Specific authority shall be obtained from the Commission before charges are made to any account other than account 6120, "Extraordinary current income charges," to create a credit balance, as at the effective date of this system of accounts, in account 1520, "Allowance for amortization Wire-telegraph and ocean-cable plant," equal to the expired service value of certain intangibles. (See paragraph (c) of § 35.1520.)

(g) Amounts included in account 1545, "Plant adjustments," shall not be disposed of except upon the specific approval or direction of the Commission. (See paragraph (b) of § 35.1545.)

(h) Carriers desiring to change the optional procedure adopted for recording foreign investments and foreign income shall submit notice thereof to the Commission for its consideration and approval at least 90 days before the proposed effective date of such change. (See paragraphs (d) of § 35.1599 and (d) of § 35.5089.)

(i) Specific authority shall be obtained from the Commission before charging any account other than account 6120, "Extraordinary current income charges," with amounts included in account 1935, "Preliminary survey and investigation charges," applicable to projects that have been abandoned when such costs are borne by the carrier. (See paragraph (a) of § 35.1935.)

(j) Specific authority shall be obtained from the Commission before using account 2220, "Provisions for equalization of maintenance expenses," and account 4180, "Maintenance-expense equalization." (See paragraph (a) of § 35.2220 and § 35.4180.)

(k) Specific authority shall be obtained from the Commission before transferring any amounts credited to account 2515, "Contributions of plant," to another account. (See paragraph (b) of § 35.2515.)

(l) The accounting with respect to the acquisition of duplicate and other plant from predecessors, which is intended to be retired by the carrier in the reconstruction of the acquired plant or in its consolidation with the previously owned property, shall be submitted to the Commission for consideration and approval. (See paragraph (e) of § 35.1–2.)

(m) Specific authority shall be obtained from the Commission before there is included in construction cost any interest covering a period of more than 6 months from the date of suspension of construction work. (See paragraph (c) (8) of § 35.1–3.)

(n) Balances transferred to account 1999, "Other deferred charges," and account 2399, "Other deferred credits," after settlements with lessees upon the termination of leases shall not be disposed of except upon the specific approval of the Commission. (See paragraph (g) of § 35.1–5.)

(o) Amounts included in account 2225, "Provisions for depreciation and replacement of operated plant leased from

others," and account 2230, "Leased operated plant retired," with respect to expired leases shall not be disposed of except upon the specific approval or direction of the Commission. (See paragraph (k) of § 35.1–6.)

(p) Each carrier that has adopted the accrual plan of accounting for pensions shall make no change in the accounting therefor or in the method of computing the amounts of the accruals without first submitting full particulars of the proposed changes and a detailed statement of the reasons therefor to the Commission for its consideration and approval. (See paragraph (d) of § 35.4327.)

(q) Accruals charged to account 4327, "Relief and pensions," to provide for the payment of termination allowances or similar benefits shall be made only after the approval by the Commission of the carrier's plan for administering such payments and of the amounts of the accruals therefor. (See paragraph (f) of § 35.4327.)

(r) Specific authority shall be obtained from the Commission before the carrier transfers any amounts charged to account 9011, "Research and development clearing account," that are applicable to projects that have been abandoned to any account other than account 6120, "Extraordinary current income charges," when such costs are borne by the carrier. (See paragraph (b) of § 35.9011.)

(s) Specific authority shall be obtained from the Commission before the elimination of or substitution for retirement units. (See paragraph (b) of § 35.1–6–1.)

§ 35.06–2 *Provisions that require certain special reports to be filed.* (a) A statement indicating the nature and purpose of subdivisions of the prescribed accounts, of experimental accounts, of temporary accounts, and of additional clearing accounts that have been opened in the books of account shall be filed with the Commission within 90 days of the effective date of this system of accounts. The carrier shall continue to keep the Commission informed of all the additional accounts or subaccounts of these types that are subsequently opened. (See paragraph (b) (3) of § 35.03–5.)

(b) Copies of the journal entries recorded to effect the transfers of balances carried in the accounts previously maintained by the carrier, and a detailed statement of the method used in computing estimated cost, shall be submitted to the Commission within 90 days from the dates of the actual entries. (See § 35.03–6.)

(c) A statement showing the full particulars concerning any relatively large delayed item included in account 6210, "Delayed income credits," or account 6220, "Delayed income charges," shall be filed with the Commission not later than the date of filing its next annual report to the Commission. (See § 35.03–13.)

(d) A transcript of the capital-surplus accounts, together with a summary statement of the charges and credits, maintained prior to the effective date of this system of accounts shall be filed with the Commission within 90 days of the effective date of this system of accounts. (See paragraph (c) of § 35.10–10.)

(e) Carriers electing to use account 1599, "Foreign investment in communication plant," and account 5089, "Income from foreign operations," shall advise the Commission of that fact at least 60 days before the effective date of this system of accounts. (See paragraphs (d) of § 35.1599 and (d) of §35.5089.)

(f) Not later than January 1, 1946 each carrier shall have submitted to the Commission the entries it proposes to make to carry out the reclassification of its plant in accordance with the accounts prescribed in this system of accounts. (See paragraph (f) of § 35.1–1.)

(g) Not later than January 1, 1946 each carrier shall have submitted to the Commission a comparative balance sheet showing, as at January 1, 1943, the amounts includible in the respective accounts prescribed in this system of accounts (1) before and (2) after effect has been given to the proposed entries relating to the classification of the plant. (See paragraph (f) of § 35.1–1.)

(h) Copies of the journal entries recording the acquisition of certain major properties shall be submitted to the Commission within 90 days from the dates of the actual entries. (See paragraph (h) of § 35.1–2.)

(i) Copies of the journal entries recording the completion of the prescribed accounting for plant acquisitions shall be submitted to the Commission within 90 days from the date that the clearing entries relating to each acquisition are made. Within 90 days from the date of any entry recording an acquisition, the carrier shall submit to the Commission a statement indicating the approximate date contemplated for the completion of the clearing entries relating thereto. (See particularly paragraph (h) of § 35.1–2 and paragraph (b) of § 35.91.)

(j) Not later than June 30, 1943, each carrier shall submit to the Commission for consideration and approval a complete plan for the establishment and maintenance of a continuous property-record. (See paragraph (b) of § 35.1–8.)

(k) Before adopting the accrual plan of accounting for pensions the carrier shall inform the Commission of the details of its pension plan and related matters. (See paragraph (d) of § 35.4327.)

(l) A report shall be submitted to the Commission annually with respect to retirement units in accordance with the provisions of paragraph (d) of § 35.1–6–1.

Balance-Sheet Accounts

Instructions

§ 35.10–1 *Purpose of balance-sheet accounts.* The balance-sheet accounts are designed to show the financial position of the carriers as at a given date.

§ 35.10–2 *Current assets.* (a) Current assets are cash, those assets that are readily convertible into cash or are held for current use in operations or construction, current claims against others the settlement of which is reasonably assured, and amounts accruing to the carrier that are subject to current settlement, except that bonds and other obligations of others classified by the carrier in investment and fund accounts at the time of acquisition shall remain so classified until the date of payment, sale, or other disposition thereof.

(b) There shall not be included in the group of accounts designated as current assets any item the collectibility of which is not reasonably assured unless adequate allowance has been made therefor in account 1765, "Allowance for uncollectible receivables." Items of current character but of doubtful value may be reduced in amount and, for record purposes, carried in these accounts at nominal value. The amounts of such reductions, or the amounts provided by credits to account 1765, shall be charged to account 4935, "Uncollectible revenues," account 5299, "Other deductions from ordinary income," or account 6120, "Extraordinary current income charges," as appropriate.

§ 35.10–3 *Prepayments.* (a) Prepayments are amounts paid by the carrier for services to be rendered by others during a subsequent accounting period.

(b) When an advance payment is made, the appropriate prepayment account shall be charged with the amount of such payment. As the term expires for which the advance payment was made the prepayment account shall be credited (at monthly intervals) and the appropriate expense account or other account shall be charged with the proportionate amount applicable thereto.

§ 35.10–4 *Deferred charges.* Deferred charges are amounts representing (1) debit items held in suspense pending determination of their actual status, (2) costs of services that have been rendered to the carrier but are chargeable to future operations, and (3) items which for other reasons are allocable to other appropriate accounts for a future period or a succession of future periods.

§ 35.10–5 *Current liabilities.* (a) Current liabilities are those obligations that have become matured at the date of the balance sheet or that will become due within 1 year from the date thereof (except bonds, receivers' and trustees' securities, and similar obligations, which shall be classified as long-term debt until the date of maturity); accrued taxes, such as income taxes, which shall be classified (in the balance sheet) as current liabilities even though payable more than 1 year from the balance-sheet date; and minor amounts payable in installments, which may be classified as current liabilities.

(b) The liability-accrual accounts shall include the amounts of interest, taxes, rents, and other items (other than unpaid wages) with respect to which amounts eventually payable have been recorded as deductions from revenue or income but which have not matured. (See also § 35.03–14.)

(c) Excepting amounts includible in account 2115, "Customers' deposits," or in account 2155, "Advance billings," (for which provision is made in section 4935, "Uncollectible revenues"); amounts that have been included in the several primary accounts for current liabilities (accounts 2101 to 2160, inclusive) or have been represented by outstanding checks or similar instruments for a period of 2 years or more because of inability to identify or locate the payee may (in the absence of statutory provision to the contrary) be written down, or reinstated in account 1710, "Cash," and credited to account 6110, "Extraordinary current income credits": *Provided*, That nominal amounts (one item representing each class of liability) shall thereafter be included in an appropriate subaccount of account 2199, "Other current liabilities." The entry recording the nominal amount, representative of a particular class of liability, as a credit to account 2199 shall contain a description of the records in which are entered the pertinent facts concerning all the items of that particular class that have been written off. Subsequent journal entries accomplishing further write-offs of, or cash reinstatements relating to, the same class of liability shall make reference to such original entry or to the records referred to therein.

§ 35.10–6 *Long-term debt.* (a) When evidences of debt that, according to their terms, do not mature until more than 1 year from date of issuance are issued or assumed by the carrier or by a receiver or an operating trustee of the carrier, the face amount of such evidences of debt shall be recorded in the appropriate account listed under the group caption "Long-term debt." (See also § 35.10–14.)

(b) If a liability, other than minor amounts payable in installments, is due more than 1 year from date of issuance or assumption by the carrier, it shall be credited to a long-term debt account appropriate for the transaction, but, for the purpose of classification in the balance sheet, a debt (except bonds, receivers' and trustees' securities, and similar obligations) shall be classified as a current liability is due within 1 year from the balance-sheet date.

§ 35.10–7 *Book cost of securities owned.* (a) Securities of others acquired by the carrier shall be recorded in these accounts at cost. Such cost shall not include any amount paid for dividends or for interest accrued.

(b) The carrier's records shall be so maintained as to show separately the cost of (1) common stock, (2) preferred stock, and (3) long-term debt.

(c) The carrier's records shall be so maintained that in the reports to the Commission the securities, classified as in paragraph (b) of this section, that are pledged as collateral security for any of the carrier's or other persons' long-term debt or short-term loans or to secure the performance of contracts may be shown separately from the securities, similarly classified, that are unpledged.

(d) There shall not be included in the accounts designated as investment and fund accounts any amount the ultimate realization of which is not reasonably assured unless adequate allowance has been made therefor in account 1699, "Allowance for doubtful investments." The book cost of securities includible in such accounts shall be reduced to a nominal amount if there is no reasonable prospect of substantial value, but fluctuations in market value shall not be recorded in the accounts. Amounts by which these securities are thus reduced, or amounts provided by credits to account 1699, shall be charged to account 6120, "Extraordinary current income charges."

(e) When securities authorized by State laws for inclusion in legal-reserve funds required by such laws, and in other similar fiduciary funds requiring a qualification for the investment thereof, and with a fixed maturity date (other than securities issued or assumed by affiliates), are purchased at a discount (i. e., when the total cost including brokerage fees, taxes, commissions, and similar costs is less than the face amount of the securities), such discount shall be amortized over the remaining life of the securities through periodic charges to account 1698, "Amortized discount and premium on investment securities," and credits to the account in which is recorded the interest from such securities.

(f) When any securities with a fixed maturity date are purchased at a premium (i. e., when the total cost including brokerage fees, taxes, commissions, and similar costs is in excess of the face amount of the securities), such premium shall be amortized over the remaining life of the securities through credits to account 1698 and charges to the account in which is recorded the interest from such securities.

(g) No amount shall be entered for amortization of discount or premium on securities with respect to which a reduction in book cost or a provision for doubtful value has been made. Any amounts in account 1698 representing the amortization of discount or premium on securities with respect to which a reduction in book cost or a provision for doubtful value is made shall be cleared by charges or credits, as appropriate, to the account in which is recorded the interest from such securities. (See particularly paragraphs (d), (e), and (f) of this section; also §§ 35.03–13 and 35.03–15.)

(h) If securities actually issued or assumed by the carrier and reacquired by it are not retired, they shall be entered at book amount in account 2015, "Bonds reacquired," or account 2415, "Capital stock reacquired," as appropriate, unless it is required by contractual provision or by the decision of a trustee not subject to control by the carrier that they be retained in debt-redemption or other funds. When so retained they shall be regarded and treated as actually outstanding, but not otherwise.

(i) When entries are made in account 2415, "Capital stock reacquired," recording the reacquisition of capital stock, entries shall concurrently be made charging account 8315, "Earned surplus employed in reacquisition of capital stock," and crediting account 2615, "Reserve against impairment of stated capital," with amounts equal to the amount charged to account 2415. Upon the resale or retirement of such stock these latter entries shall be reversed.

§ 35.10–8 *Exchange of securities.* Before recording the journal entries that it is proposed to enter in the carrier's books to record the reacquisition of capital stock or other securities issued or assumed by the carrier under a plan for the issuance in exchange therefor of other securities of the carrier, a statement indicating the plan of accounting proposed by the carrier shall be submitted to the Commission for consideration and approval. Such statement shall give complete information concerning the plan of exchange, the basis upon which the amounts have been determined, and a copy of the authorization issued by the regulatory body approving the plan.

§ 35.10–9 *Capital stock.* (a) All transactions relating to the capital stock of the accounting carrier shall be recorded by class of stock. Stocks are of the same class only when they are issued under identical terms as to all of the following: par value, stated value, preferences in the distribution of dividends and assets, voting rights, and conditions under which the stock may be retired. If the capital stock of the carrier is of two or more classes, the carrier's records shall be so maintained as to distinguish the amount applicable to each class in each of the following accounts:

1775 Subscriptions to capital stock.
1780 Deposits on subscriptions to capital stock.
1915 Capital-stock expense.
1925 Discount on capital stock.
2160 Liability on installment-plan sales of capital stock.
2410 Capital stock issued.
2415 Capital stock reacquired.
2420 Capital stock subscribed; unissued.
2425 Obligations for stock conversion.
2510 Premium and assessments on capital stock.

(b) When, by compliance with the laws of the State under which it is incorporated, a carrier is authorized to issue shares of capital stock, a memorandum entry in account 2410, "Capital stock issued," shall be made showing the number of shares, the par or the stated value of each share, and the total authorized capitalization.

(c) Before recording the journal entries that it is proposed to enter in the carrier's books to record (1) the issuance of no-par capital stock, (2) the appropriation of surplus for transfer to the no-par capital-stock account, (3) the reduction of capital surplus through the use of the no-par capital-stock account, or (4) the reduction of the amount in account 2410, "Capital stock issued," through the creation of surplus or the reduction of the book value of assets, the plan of accounting shall be submitted to the Commission for consideration and approval. Such plan shall be accompanied by a statement giving complete information with respect to the basis upon which the amounts to be recorded have been determined and a copy of the authorization issued by the regulatory body approving the issuance of no-par stock or the change in the capital-stock and surplus accounts.

(d) When capital stock which has been actually issued by the carrier is reacquired, the difference between (1) the amount paid therefor upon reacquisition and (2) the book amount plus the premium or less the discount and expense originally entered in respect thereto and not charged off shall be charged or credited, as appropriate, to account 2599,

"Other capital surplus": *Provided, however,* That such charges shall be made to account 8299, "Miscellaneous charges to earned surplus," to the extent that the amounts thereof exceed the balance in account 2599 applicable to capital stock of the same class.

(e) The carrier's records shall be so maintained that in reports to the Commission there may be shown the extent to which the surplus accounts have been charged or credited in instances in which there is a possibility of further entry in those accounts in the event of the resale of reacquired capital stock.

(f) When capital stock that has been reacquired by the carrier is resold, the difference between (1) the amount derived from the resale, less the costs incidental thereto, and (2) the book amount of such stock shall be charged or credited, as appropriate, to account 2599, "Other capital surplus": *Provided, however,* That such charges shall be made to account 8299, "Miscellaneous charges to earned surplus," to the extent that the amounts thereof exceed the balance in account 2599 applicable to capital stock of the same class: *And provided further,* That if account 8299 has been charged with amounts arising from the reacquisition of such stock, there shall be included in account 8199, "Miscellaneous credits to earned surplus," the credit balance (not in excess of the amount previously charged to account 8299 with respect to reacquisition of stock of the same class) arising from the resale of such stock.

§ 35.10–10 *Surplus.* (a) The accounts designated as capital-surplus accounts are designed to show (1) paid-in surplus (i. e., proprietary contributions in excess of the stated capital included in the capital-stock accounts), (2) donated surplus (including (i) surplus created by donations of stock or assets by proprietary interests and (ii) contributions of assets or forgiveness of debt by others), (3) surplus arising from reacquisition or resale of, or otherwise trading in, the carrier's own capital stock, and (4) surplus arising from the reduction of the stated value of capital stock due to such occasions as retirement, reorganization, or recapitalization.

(b) The balance-sheet accounts designated as earned-surplus accounts are designed to show the accumulated undistributed surplus derived from the normal operations of the carrier and from all sources (including sales of fixed assets) other than those sources referred to in paragraph (a) of this section.

(c) Within 90 days from the effective date of this system of accounts the carrier shall submit to the Commission a transcript of its capital-surplus account or accounts covering the entire period to the effective date of this system of accounts showing in detail the nature and amounts of charges and credits, respectively, and the balance that was or, if it had always been maintained, would have been in the account at the close of each year. The transcript shall be accompanied by a summary statement in which the charges and credits for the entire period covered by the transcript have been classified according to their nature and summarized to show the aggregate amount of each such classification as well as the aggregate amount of charges and credits, respectively, for the period and the resulting balance in the account or accounts at the effective date of this system of accounts.

§ 35.10–11 *Provisions for future settlements.* When in anticipation of settlements or similar transactions it is required that certain amounts shall be charged to operating expenses or other accounts without a corresponding reduction in the assets of the carrier, such amounts shall be credited to the appropriate account listed under the group caption "Provisions for future settlements." The credit balances in these accounts should indicate the estimated amounts of future settlements or other extinguishments subsequent to the date of the balance sheet with respect to amounts allocable to periods prior to that date.

§ 35.10–12 *Deferred credits.* Deferred credits are amounts representing (1) credit items held in suspense pending determination of their actual status and (2) obligations (e. g., unamortized premium on debt) that have been incurred but are applicable to future operations or income.

§ 35.10–13 *Discount, expense, and premium on capital stock.* (a) An account shall be maintained for each class of capital stock issued by the carrier (separately from the capital-stock accounts) and there shall be included in each such account both the discount and the premium associated with the issuance and sale of (exclusive of the sale of reacquired stock), or the subscription to, each such class of stock.

(b) Stock expense shall not be added to discount, or deducted from premium, on capital stock, but shall be included in account 1915, "Capital-stock expense." Such expense may be charged off to account 6120, "Extraordinary current income charges," in total or in installments, or the amount thereof may be retained in account 1915 until the stock to which the expense applies is reacquired.

(c) Only in stating the balance sheet, the total of the debit balances remaining in the discount and premium accounts shall be reported under account 1925, "Discount on capital stock," and the total of the credit balances shall be reported under account 2510, "Premiums and assessments on capital stock." Accounts with debit balances shall not be offset by accounts with credit balances.

(d) General levies or assessments against stockholders shall be credited to the discount and premium account for the particular class of stock assessed.

(e) Discount or premium on capital stock issued shall be retained in the discount and premium account until the stock is reacquired unless other disposition of such discount or premium is required by statutes to which the carrier is subject, except that inconsequential amounts of discount that would not appreciably affect the accounts may be charged off to account 8299, "Miscellaneous charges to earned surplus."

§ 35.10–14 *Discount, expense, and premium on long-term debt.* (a) An account shall be maintained for each issue or series of long-term debt issued or assumed by the carrier (separately from the long-term debt accounts) and there shall be included in each such account both the discount and the premium associated with the issuance and sale of (exclusive of the sale of reacquired long-term debt), or the subscription to, each such issue or series of debt.

(b) Debt expense shall not be added to discount, or deducted from premium, on long-term debt, but shall be included in account 1920, "Long-term debt expense."

(c) Only in stating the balance sheet, the total of the debit balances remaining in the discount and premium accounts shall be reported under account 1930, "Unamortized discount on debt," and the total of the credit balances remaining in those accounts shall be reported under account 2310, "Unamortized premium on debt." Accounts with debit balances shall not be offset by accounts with credit balances.

(d) Discount, expense, and premium with respect to each issue or series of long-term debt shall be amortized under such a plan as will equitably distribute the amounts over the life of the securities. The amortization shall be on a monthly basis and the amounts thereof shall be charged to account 5220, "Amortization of debt discount," or account 5245, "Amortization of debt expense," or credited to account 5230, "Amortization of debt premium—Cr.," as appropriate. The carrier may, however, accelerate the writing off of debt expense and extinguish inconsequential amounts of discount (that it would be burdensome to amortize and that would not appreciably affect the accounts) by charges to account 6120, "Extraordinary current income charges." Where there is a definite plan to retire an issue without refunding prior to its maturity date, amortization may be accelerated to extinguish the balance in the discount and premium account at the date of contemplated retirement.

(e) When any long-term debt is reacquired without being converted into another form of long-term debt and when the transaction is not in connection with a refunding operation, the difference between the amount paid upon reacquirement and the book amount plus the unamortized premium or less the unamortized discount, as the case may be, applicable to the debt reacquired, shall be charged to account 6120, "Extraordinary current income charges," or credited to account 6110, "Extraordinary current income credits," as appropriate.

(f) When the redemption of one issue or series of bonds or other long-term obligations is financed by another issue or series before the date of maturity of the prior issue, any unamortized discount, expense, or premium on the prior issue and any premium paid or discount enjoyed upon reacquirement shall be debited or credited, as appropriate, to account 6120, "Extraordinary current income charges," or account 6110, "Extraordinary current income credits": *Provided, however,* That if the carrier desires to amortize any of the discount, expense, or premium associated with the issuance or redemption of the prior issue over a period subsequent to the date of redemption, the permission of the Commission must be obtained.

(g) Discount, expense, or premium on long-term debt shall not be included in the cost of constructing or acquiring plant, except as provided in paragraph (c) (8) of § 35.1–3.

(h) The carrier's records shall be so maintained that in the reports to the Commission there may be shown the extent to which the income accounts have been charged or credited in instances in which there is a possibility of further entry in those accounts in the event of the resale of reacquired long-term debt.

§ 35.10–15 *Irrevocable trusts.* Funds relinquished from the control of the carrier that are irrevocably devoted to the establishment or continuation of any trust or fiduciary fund (such as pension or similar funds) shall not be included as items in the balance sheet, but their existence shall be indicated by an appropriate notation thereon showing the amount of such funds.

§ 35.10–16 *Contingent assets and liabilities.* In the carrier's reports to the Commission amounts representing contingent assets and contingent liabilities shall not be included as items in the balance sheet, but their existence shall be indicated by an appropriate notation thereon and the particulars shall be shown in detail in a supplementary statement.

§ 35.10–17 *Nominally issued securities.* (a) Each carrier shall maintain, in addition to the capital-stock and long-term debt accounts prescribed herein, memorandum accounts for securities that have been nominally but not actually issued.

(b) When no-par stock is nominally issued, the number of shares issued shall be shown in the memorandum accounts.

(c) A separate memorandum account, with appropriate title, shall be maintained for each class and issue or series of such securities.

§ 35.10–99 *Contemplated form of balance sheet.* (See § 35.03–9.)

BALANCE SHEET ACCOUNTS

PRESCRIBED ACCOUNTS

NOTE: Number to the right of the decimal point is the account number.

Communication Plant

§ 35.1000 *Operated plant in carrier's service.* This account shall include the total of the balances in the operated plant accounts applicable to plant owned and used by the carrier in its wire-telegraph and ocean-cable operations, except such plant the cost of which is includible in account 1200, "Improvements and replacements of operated plant leased from others."

§ 35.1100 *Operated plant leased to others.* This account shall include the total of the balances in the operated plant accounts applicable to plant owned by the carrier and leased to others as substantially complete operating systems or operating units where the lessee has exclusive possession.

NOTE: When the lessor is given or retains the exclusive privileges to maintain, inspect, and service equipment, to handle and adjust traffic accounts, to perform other similar services, or to designate who may perform such services for the lessee, the lessee will be deemed not to have exclusive possession of the plant, and its cost shall be included in account 1000, "Operated plant in carrier's service."

§ 35.1200 *Improvements and replacements of operated plant leased from others.* This account shall include the total of the balances in the operated plant accounts applicable to improvements and replacements of operated plant leased from others.

§ 35.1300 *Plant under construction.* (a) This account shall include the cost of construction of plant not completed ready for service. (See also §§ 35.1–2 and 35.1–3.)

(b) When any plant the cost of which is included in this account is completed ready for service, the cost thereof shall be credited to this account and charged to the operated plant accounts, account 1400, "Plant held for future communication use," or other accounts, as appropriate.

§ 35.1400 *Plant held for future communication use.* (a) This account shall include the cost of completed plant owned by the carrier and held for future use in communication service under a definite plan.

(b) The amounts included in this account shall be classified in accordance with the titles and texts of the appropriate plant accounts and the account shall be maintained in the same manner and detail as though the plant were in communication service.

§ 35.1510 *Plant-acquisition adjustment.* (a) This account shall include the difference between (1) the acquisition cost of plant acquired from predecessors as substantially complete operating systems or operating units and (2) the original cost of such plant less the required allowances for depreciation and amortization of the plant at the date of acquisition. (See particularly paragraphs (c), (d), (e), and (f) of § 35.1–2.)

(b) This account shall be subdivided according to the character of the amounts included herein for each plant acquisition; and further subdivided to show the amounts applicable to operated plant in carrier's service, operated plant leased to others, and plant held for future communication use.

(c) If the actual original cost is not known, the entries in this account shall be based upon an estimate of such cost.

(d) The amounts recorded in this account shall be disposed of in such manner as the Commission may approve or direct.

NOTE. The provisions of this account shall not be construed as approving or authorizing the recording of appreciation of plant.

§ 35.1515 *Allowance for depreciation; Wire-telegraph and ocean-cable plant.* (a) This account shall be credited with amounts charged to account 4910, "Depreciation," to account 5010, "Income from operated plant leased to others," to account 5299, "Other deductions from ordinary income," and to clearing accounts for currently accruing depreciation of wire-telegraph and ocean-cable plant owned by the carrier; also with amounts of depreciation applicable to plant contributed to the carrier and to plant acquired from predecessors, as provided in § 35.1–2 and in paragraph (g) of § 35.1–5. (See also §§ 35.04–1, 35.04–2, 35.04–3, 35.04–4, and 35.30–3.)

(b) As at the effective date of this system of accounts, this account shall be credited with such amount as is necessary to create a credit balance herein equal to the estimated sustained depreciation of all depreciable operated plant owned by the carrier at that date. The difference between such amount and the amount previously provided as a depreciation allowance (or reserve) shall, unless otherwise authorized by the Commission, be charged to account 6120, "Extraordinary current income charges."

(c) This account shall be charged with the cost of depreciable plant retired and with the cost of removal of such plant and shall be credited with the net amounts of recoveries, such as from salvage and from insurance. (See § 35.1–6 and paragraphs (c) and (d) of § 35.41–7.)

(d) Each carrier shall maintain records in which the balance in the account shall be segregated into component parts corresponding to the operated plant accounts and subdivisions thereof which include the cost of depreciable operated plant. (See particularly paragraph (e) of § 35.1–1.)

(e) This account shall be subdivided as follows:

1515:01	Allowance for depreciation of operated plant owned and used in carrier's service.
1515:02	Allowance for depreciation of improvements and replacements of operated plant leased from others.
1515:03	Allowance for depreciation of operated plant leased to others.
1515:04	Allowance for depreciation of plant held for future communication use.
1515:05	Allowance for depreciation of messenger uniforms.

(f) The records supporting the entries in each subaccount in this account shall be so maintained that there may be shown separately (1) the amounts of depreciation credited hereto in accordance with the provisions of paragraphs (a) and (b) hereof, (2) the cost of plant retired, (3) the cost of removal of plant retired, and (4) the credits from salvage and insurance recovered.

NOTE: When plant is transferred from one class of communication service to another or from communication service to noncarrier operations, the accounting for the depreciation applicable thereto shall be as provided in § 35.1–7.

§ 35.1520 *Allowance for amortization; wire-telegraph and ocean-cable plant.* (a) This account shall be credited with amounts charged to account 4915, "Amortization; intangible operated plant," to account 5010, "Income from operated plant leased to others," and to account 5299, "Other deductions from ordinary income," to provide for the extinguishment of amounts included in accounts 82, "Franchises," 83, "Patent rights," 84, "Leaseholds," 85, "Research and development," and 89, "Other intangibles"; also with amounts of amortization applicable to plant contributed to the carrier and to plant acquired from predecessors, as provided in § 35.1–2 and in paragraph (g) of § 35.1–5. (See also § 35.30–3.) It shall be credited with amounts charged to account 6120, "Extraordinary current income charges," to provide for the extinguishment of amounts included in account 81, "Organization."

(b) This account shall be credited or charged, as appropriate, with amounts authorized or directed by the Commission to be charged or credited to accounts 4920, "Amortization of plant-acquisition adjustments," and 5255, "Amortization of plant-acquisition adjustments," to provide for the extinguishments of amounts included in account 1510, "Plant-acquisition adjustments."

(c) As at the effective date of this system of accounts, this account shall be credited with such amount as is necessary to create a credit balance herein equal to the expired service value of intangibles (having a terminable life) the costs of which are includible in accounts 82, "Franchises," 83, "Patent rights," 84, "Leaseholds," 85, "Research and development," and 89, "Other intangibles." The difference between such amount and the amounts previously provided as an amortization allowance (or reserve) shall, unless otherwise authorized by the Commission, be charged to account 6120, "Extraordinary current income charges."

(d) When any franchise, patent right, leasehold, or other intangible item (except one the cost of which is includible in account 85, "Research and development") expires or is sold, relinquished, or otherwise retired from service, the cost thereof shall be credited to the appropriate plant account and this account shall be charged with the amount previously credited hereto with respect to such intangible item. The difference between the foregoing amounts less the proceeds realized at retirement shall be charged to account 6120, "Extraordinary current income charges," or credited to account 6110, "Extraordinary current in-

come credits," as appropriate. The accounting for amounts included herein with respect to plant costs included in account 85 shall be as provided in the text of that account.

(c) The records supporting the entries in this account shall be so maintained as to show the amounts applicable to each intangible item under the following subdivisions:

1520:01 Allowance for amortization of intangibles in carrier's service.
1520:02 Allowance for amortization of intangibles leased to others.
1520:03 Allowance for amortization of plant-acquisition adjustments.
1520:04 Allowance for amortization of intangibles held for future communication use.

§ 35.1530 *Telephone and radiotelegraph plant.* This account shall include the amounts of the balances in the plant accounts maintained for telephone and radiotelegraph plant in conformity with the provisions of paragraphs (a) and (b) of § 35.03–8.

§ 35.1535 *Allowance for depreciation and amortization; telephone and radiotelegraph plant.* This account shall include the amounts of the balances in the allowance accounts maintained for telephone and radiotelegraph plant in conformity with the provisions of paragraphs (a) and (b) of § 35.03–8.

§ 35.1540 *Plant in process of reclassification.* (a) This account shall be charged temporarily with the book cost of plant (formerly called "Plant and equipment") as at December 31, 1942. The detail or primary accounts prescribed in the Uniform System of Accounts for Telegraph and Cable Companies effective on January 1, 1914, with respect to "Plant and equipment," shall be continued in support of this account pending the reclassification prescribed in this system of accounts, but shall not be used for acquisitions (including additions, replacements, and other new construction) subsequent to December 31, 1942.

(b) Retirements of property included herein as at the effective date of this system of accounts shall be credited to this account and to the supporting primary accounts mentioned above until the reclassification has been accomplished.

(c) When the cost (as defined in this system of accounts) of plant included in this account has been determined, this account shall be credited with the book cost thereof. (See particularly accounts 1000 to 1520, inclusive; also §§ 35.1–1 and 35.11 to 35.92, inclusive.)

§ 35.1545 *Plant adjustments.* (a) This account shall include the difference between the original cost, estimated if not known, and the book cost of "Plant and equipment" as at the effective date of this system of accounts to the extent that such difference is not properly includible in account 1510, "Plant-acquisition adjustments." Write-ups of property prior to the effective date of this system of accounts shall be recorded herein.

(b) The amounts included in this account shall be so classified as to show the nature of each amount (included herein) and shall be disposed of as the Commission may approve or direct.

NOTE: The provisions of this account shall not be construed as approving or authorizing the recording of appreciation of plant.

§ 35.1599 *Foreign investment in communication plant.* (a) This account may include the net amount of the acquisition cost of the carrier's communication plant that is located in foreign countries and the related allowances for depreciation and amortization when the detailed amounts are required to be stated in terms of foreign currency or in a manner at variance with the requirements of this system of accounts.

(b) A separate subaccount with appropriate title shall be maintained for the plant located in each foreign country.

(c) The records supporting the entries in this account shall be so maintained that, in reports to the Commission, there may be shown the rates of exchange used in translating the amounts into terms of United States currency.

(d) Each carrier that elects to use this account shall advise the Commission of that fact at least 60 days before the effective date of this system of accounts. Changes from this elective procedure to the alternative procedure prescribed for domestic plant, or vice versa, shall not be made thereafter without submitting to the Commission for its consideration and approval notice of the proposed change at least 90 days before the proposed effective date of such change.

Investments and Funds

§ 35.1610 *Miscellaneous physical property.* This account shall include the carrier's investment in physical property other than that used in communication service, except property the cost of which is includible in account 1400, "Plant held for future communication use." It shall include the amount of all assessments for the construction of public improvements levied against miscellaneous physical property. (See also § 35.1–7.)

§ 35.1615 *Allowance for depreciation; miscellaneous physical property.* (a) This account shall be credited with amounts charged to account 5110, "Income from miscellaneous physical property," for the depreciation of depreciable property the cost of which is includible in account 1610, "Miscellaneous physical property."

(b) When miscellaneous physical property is disposed of, this account shall be charged with the amount previously credited hereto with respect to such property. The difference between the book cost of the property retired and the sum of the amount chargeable to this account and the amount of the salvage recovered (or the proceeds from the sale of the property) shall be charged to account 6120, "Extraordinary current income charges," or credited to account 6110, "Extraordinary current income credits," as appropriate. (See also § 35.1–7.)

§ 35.1620 *Investments in affiliates.* (a) This account shall include the book cost of the carrier's investment in securities issued or assumed by affiliates, other than securities of affiliates held in special funds or as temporary investments. It shall include the amount of investment advances to affiliates.

(b) The records supporting the entries in this account shall be so maintained as to show each class of investment in each affiliate under the following subdivisions:

1620:01 Investments in securities of affiliates.
1620:02 Investment advances to affiliates.

NOTE A: The book cost of securities of affiliates owned by the carrier and held in special funds or as temporary investments shall be included in account 1630, "Debt-redemption funds," account 1635, "Employees' provident funds," account 1640, "Insurance funds," account 1645, "Miscellaneous funds held by trustees," account 1650, "Other miscellaneous funds," or account 1725, "Temporary investments," as appropriate.

NOTE B: Advances to affiliates that are subject to current settlement shall be included in account 1749, "Other receivables from affiliates."

§ 35.1629 *Other investments.* (a) This account shall include the book cost of the carrier's investment in securities issued or assumed by nonaffiliates, other than such securities held in special funds or as temporary investments. It shall include the amount of investment advances to nonaffiliates and other investments not provided for elsewhere.

(b) The records supporting the entries in this account shall be so maintained as to show each class of investment includible herein under the following subdivisions:

1629:01 Securities.
1629:02 Investment advances.
1629:99 Other.

NOTE A: The book cost of securities of nonaffiliates owned by the carrier and held in special funds or as temporary investments shall be included in account 1630, "Debt-redemption funds," account 1635, "Employees' provident funds," account 1640, "Insurance funds," account 1645, "Miscellaneous funds held by trustees," account 1650, "Other miscellaneous funds," or account 1725, "Temporary investments," as appropriate.

NOTE B: Advances to nonaffiliates that are subject to current settlement shall be included in account 1759, "Other accounts receivable."

§ 35.1630 *Debt-redemption funds.* (a) This account shall include the book cost of assets that have been segregated in special funds for the purpose of redeeming outstanding long-term debt of the carrier.

(b) A separate subaccount, with appropriate title, shall be maintained for each issue or series of long-term debt for the redemption of which a special fund is maintained.

NOTE: Nothing contained herein shall be construed as preventing the carrier from transferring applicable debt-redemption funds to account 1715, "Special cash deposits," for the purpose of paying matured long-term debt, or obligations called for redemption but not presented, or the interest thereon.

§ 35.1635 *Employees' provident funds.* This account shall include the amount of cash, the book cost of securities of others, and the book amount of nominally issued and nominally outstanding securities issued or assumed by the carrier and other assets held by trustees or managers of employees' pension funds, savings funds, and relief, hospital, and other association funds (whether contributed by the carrier, by employees, or by others), when such trustees or managers are acting for the carrier in the administration of such funds. (See also §§ 35.10–15 and 35.30–2.)

§ 35.1640 *Insurance funds.* (a) This account shall include the book cost of assets that have been segregated in special funds in connection with those losses contemplated under the carrier's plan for self-carried insurance.

(b) A separate subaccount, with appropriate title, shall be maintained for each class of funds.

§ 35.1645 *Miscellaneous funds held by trustees.* This account shall include the amount of cash and the cost of other assets deposited with trustees to be held until mortgaged property sold, destroyed, or otherwise disposed of is replaced; also the amount of cash realized from the sale of the carrier's securities and deposited with trustees to be held until invested in property for the carrier. When the purposes of such deposits are satisfied and the deposits are released, this account shall be credited with the amounts released.

§ 35.1659 *Other miscellaneous funds.* (a) This account shall include the book cost of assets that have been segregated in special funds for specific purposes not provided for elsewhere.

(b) A separate subaccount, with appropriate title, shall be maintained for each class of funds.

§ 35.1698 *Amortized discount and premium on investment securities.* (a) This account shall include the amount of amortized discount and premium charged or credited as interest from securities held as long-term investments, as provided in § 35.10–7.

(b) A separate subaccount, with appropriate title, shall be maintained for each issue or series of securities with respect to which amounts are entered herein, with an appropriate reference to the account in which the cost of the securities is recorded.

§ 35.1699 *Allowance for doubtful investments.* (a) This account shall be credited with amounts charged to account 6120, "Extraordinary current income charges," to provide for the doubtful value of investments.

(b) When securities are sold or otherwise disposed of, or their book cost is reduced to a nominal value, this account shall be charged with any amounts covered by credits hereto with respect to such securities.

Current Assets

§ 35.1710 *Cash.* This account shall include the amount of current funds available for use on demand or otherwise subject to disbursement on behalf of the carrier by its officers, agents, or employees, including those funds in the hands of financial officers and agents, deposited in banks or with trust companies, and in transit.

§ 35.1715 *Special cash deposits.* (a) This account shall include the amount of cash in special deposits, other than in debt-redemption and other funds, for the payment of interest, dividends, and other debts when such payments are due 1 year or less from the date of deposit; also the amount of cash deposited to insure the performance of contracts to be performed within 1 year from the date of deposit, and other cash deposits for specific purposes not provided for elsewhere. When the purposes of such deposits are satisfied and the deposits are released, this account shall be credited with the amounts released.

(b) This account shall be subdivided as follows:

1715:01 Special deposits—Interest.
1715:02 Special deposits—Dividends.
1715:99 Special deposits—Other.

§ 35.1720 *Working cash advances.* This account shall include the amounts of cash advanced to officers, agents, and employees, particularly cash or working funds from which certain expenditures are to be made and accounted for.

§ 35.1725 *Temporary investments.* (a) This account shall include the book cost of securities acquired for the purpose of temporarily investing cash, such as demand and time loans, bankers' acceptances, United States Treasury certificates, and other similar investments.

(b) This account shall be subdivided as follows:

1725:01 Temporary investments—Affiliates.
1725:99 Temporary investments—Other.

§ 35.1730 *Receivables from customers.* (a) This account shall include amounts receivable from customers for services.

(b) The records supporting the entries in this account shall be so maintained as to show separately (1) amounts charged for services rendered, and (2) amounts charged for services to be rendered. (See also § 35.2155.)

NOTE A: Amounts representing revenues accrued but not due shall be included in account 1770, "Unmatured accrued receivables."

NOTE B: Amounts receivable from other carriers for participation in transmission shall be included in the accounts maintained in accordance with § 35.03–19.

NOTE C: Amounts due on notes accepted in settlement of customers' accounts shall be included in account 1751, "Notes receivable."

§ 35.1742 *Traffic settlements receivable from affiliates.* This account shall include the total of the amounts receivable from affiliated carriers against each of which there is a net debit balance in the accounts maintained for traffic settlements. (See § 35.03–19.)

§ 35.1749 *Other receivables from affiliates.* (a) This account shall include amounts receivable from affiliates not provided for elsewhere. (See particularly §§ 35.1725, 35.1730, 35.1742, 35.1770, 35.1775, and 35.1785.)

(b) This account shall be subdivided as follows:

1749:01 Matured interest receivable.
1749:02 Declared dividends receivable.
1749:03 Matured rents receivable.
1749:04 Current notes receivable. (See also § 35.1620.)
1749:99 Other accounts receivable.

(c) In stating the balance sheet there may be included in this account the net amounts receivable from affiliates against each of which there is a net debit balance between amounts in this account and amounts in account 2129, "Other payables to affiliates."

Receivables From Nonaffiliates

§ 35.1751 *Notes receivable.* (a) This account shall include amounts receivable from persons other than affiliates on notes, drafts, acceptances, and other evidences of indebtedness, payable on demand or not more than 1 year from the date of issuance. (See also § 35.1629.)

(b) The book amount of items includible herein that are discounted or sold without releasing the carrier from liability thereon, shall be credited to this account and reported as a contingent liability. (See particularly § 35.10–16.)

(c) This account shall be subdivided as follows:

1751:01 Receivable from officers and employees.
1751:99 Receivable from others.

§ 35.1752 *Traffic settlements receivable.* This account shall include the total of the amounts receivable from persons other than affiliates against each of whom there is a net debit balance in the accounts maintained for traffic settlements. (See § 35.03–19.)

§ 35.1753 *Matured interest receivable.* This account shall include amounts representing earned interest receivable from persons other than affiliates that is matured and subject to current settlement.

NOTE A: Earned interest receivable that is accrued but unmatured shall be included in account 1770, "Unmatured accrued receivables."

NOTE B: Matured interest receivable that is not subject to current settlment shall be included in the account in which the principal amount is carried.

§ 35.1754 *Declared dividends receivable.* This account shall include amounts representing declared dividends on stocks owned (other than stocks of affiliates) that become matured not later than the first day following the date of the balance sheet.

NOTE A: Declared dividends receivable from affiliates shall be included in account 1749, "Other receivables from affiliates."

NOTE B: Declared dividends receivable that do not mature until after the first day following the date of the balance sheet shall be included in account 1770, "Unmatured accrued receivables."

§ 35.1755 *Matured rents receivable.* This account shall include amounts representing rentals receivable from persons other than affiliates that are matured and subject to current settlement.

NOTE A: Rentals receivable that are accrued but unmatured shall be included in account 1770, "Unmatured accrued receivables."

NOTE B: Amounts receivable for minor rentals shall be included in account 1730, "Receivables from customers."

§ 35.1759 *Other accounts receivable.* (a) This account shall include the amounts of receivables from persons other than affiliates not provided for elsewhere. (See §§ 35.1725 and 35.1730;

also §§ 35.1751 to 35.1758, inclusive, and §§ 35.1770, 35.1775, and 35.1785.)

(b) This account shall be subdivided as follows:

1759:01 Officers and employees.
1759:99 Others.

(c) In stating the balance sheet there may be included in this account the total of the net amounts receivable from persons other than affiliates against each of whom there is a net debit balance between amounts in this account and amounts in account 2139, "Other accounts payable."

§ 35.1765 *Allowance for uncollectible receivables.* (a) This account shall be credited with amounts charged to account 4935, "Uncollectible revenues," account 5299, "Other deductions from ordinary income," and account 6120, "Extraordinary current income charges," to provide for uncollectible receivables, under a plan consistently followed and adjusted for errors in estimates.

(b) This account shall be charged with any amounts covered herein that are determined to be impracticable of collection and shall be credited with amounts collected that previously were charged hereto.

(c) The records supporting the entries in this account shall be so maintained as to show the amount applicable to each class of receivables for which allowances are established, and also the account that was charged with each credit in this account.

§ 35.1770 *Unmatured accrued receivables.* (a) This account shall include the amounts of revenue estimated to have accrued for services not billed but subsequently billable and not due under contract and the amounts of interest, rent, and other items accrued, and dividends declared prior to the date for which the balance sheet is made, but not receivable until after the first day following that date.

(b) This account shall be subdivided as follows:

1770:01 Accrued communication revenue.
1770:02 Accrued interest.
1770:03 Declared dividends.
1770:04 Accrued rents.
1770:99 Other accrued receivables.

§ 35.1775 *Subscriptions to capital stock.* (a) The amount of each subscription to capital stock of the carrier shall be charged to this account at the time the subscription is accepted. The book amount of the stock subscribed shall be credited to account 2420, "Capital stock subscribed; unissued." The difference between the foregoing amounts shall be charged or credited, as appropriate, to the discount and premium account maintained under the provisions of paragraph (a) of § 35.10–13. (See also §§ 35.10–9 and 35.1780.)

(b) This account shall be subdivided as follows:

1775:01 Amounts subscribed by affiliates.
1775:02 Amounts subscribed by officers and employees.
1775:03 Amounts subscribed by underwriters.
1775:99 Amounts subscribed by others.

§ 35.1780 *Deposits on subscriptions to capital stock.* (a) This account shall be credited with amounts received as payments on subscriptions to capital stock.

(b) When payment for the total amount of a subscription has been received, this account shall be charged and account 1775, "Subscriptions to capital stock," shall be credited with such total amount.

(c) Any amounts in this account which become the property of the carrier by forfeiture shall be charged hereto and credited to account 2599, "Other capital surplus."

(d) This account shall be subdivided as follows:

1780:01 Deposits received from affiliates.
1780:02 Deposits received from officers and employees.
1780:03 Deposits received from underwriters.
1780:99 Deposits received from others.

§ 35.1785 *Subscriptions to bonds.* (a) The amount of each subscription to bonds of the carrier shall be charged to this account at the time the subscription is accepted. The face amount of the bonds subscribed shall be credited to account 2020, "Bonds subscribed; unissued." The difference between the foregoing amounts shall be charged or credited, as appropriate, to the discount and premium account maintained under the provisions of paragraph (a) of § 35.10–14. (See also § 35.1790.)

(b) This account shall be subdivided as follows:

1785:01 Amounts subscribed by affiliates.
1785:02 Amounts subscribed by officers and employees.
1785:03 Amounts subscribed by underwriters.
1785:99 Amounts subscribed by others.

§ 35.1790 *Deposits on subscriptions to bonds.* (a) This account shall be credited with amounts received as payments on subscriptions to bonds of the carrier.

(b) When payment for the total amount of a subscription has been received, this account shall be charged and account 1785, "Subscriptions to bonds," shall be credited with such total amount.

(c) Any amounts in this account which become the property of the carrier by forfeiture shall be charged hereto and credited to account 6110, "Extraordinary current income credits."

(d) This account shall be subdivided as follows:

1790:01 Deposits received from affiliates.
1790:02 Deposits received from officers and employees.
1790:03 Deposits received from underwriters.
1790:99 Deposits received from others.

§ 35.1795 *Material and supplies.* (a) This account shall include the cost (consideration being given to the adjustments outlined in paragraphs (b), (c), (d), and (e) of this section) of unapplied material and supplies held for use in communication service (including plant supplies, unissued small tools, fuel, stationery, other supplies, and supply expense), and of material and articles of the carrier in process of conversion and manufacture for supply stock.

(b) Cost shall include the purchase price at the point of free delivery, plus customs duties, excise taxes, and other taxes on purchases, insurance, cost of inspection, special tests prior to acceptance, loading and unloading, transportation, and other directly assignable charges. (Transportation and other charges impracticable of inclusion in the cost of the particular material to which they relate shall be charged to account 9016, "Supply clearing account.")

(c) Cash and other discounts on material shall be deducted from the cost of the particular material to which they relate or credited to the account to which the material is charged. (When impracticable of such treatment they shall be credited to account 9016, "Supply clearing account.")

(d) Material recovered in connection with construction, maintenance, or retirement of plant shall be included in this account as follows:

(1) Reusable material shall be included in the appropriate subdivision of this account at original cost, estimated if not known.

(2) The cost of repairing reusable material shall be charged to the appropriate operating-expense account.

(3) Scrap and nonusable material shall be included in this account at the estimated net amount realizable therefrom. The differences between the amounts realized for scrap and nonusable material sold and the amount at which the material was included in this account shall be adjusted to the accounts credited when the material was charged to this account. (When impracticable of such treatment, the differences shall be adjusted to account 9016, "Supply clearing account.")

(e) Inventories of material and supplies shall be taken during each calendar year and the necessary adjustments shall be made to bring the balance in this account into agreement with the actual inventories. In effecting the adjustments, differences that can be assigned to important classes of material shall be equitably adjusted among the accounts to which such classes of material were charged subsequent to the previous inventory. Other differences shall be equitably apportioned among the accounts to which material has been charged since the last inventory or included in account 9016, "Supply clearing account."

(f) This account shall be subdivided as follows:

1795:01 Material held for use in the carrier's communication operations.
1795:02 Material in process.
1795:03 Merchandise known to be held predominantly for sale or resale, or for use in jobbing or contracting operations.
1795:04 Material and supplies held for other than communication operations.
1795:05 Undistributed supply items. (See § 35.90–2.)

NOTE A: This account shall not include amounts representing cost of material or articles the title to which is not vested in the carrier.

NOTE B: Interest on material bills the payment of which has been delayed shall be charged to account 5235, "Other interest charges."

§ 35.1799 *Other current assets.* (a) This account shall include the amounts of current assets not provided for elsewhere.

(b) The records supporting the entries in this account shall be so maintained as to show full details concerning each item included herein.

Prepayments

§ 35.1810 *Prepaid insurance.* This account shall be charged with the amounts of insurance premiums paid in advance. As the term expires for which the insurance premiums were paid, this account shall be credited at monthly intervals and the appropriate accounts charged.

§ 35.1815 *Prepaid rents.* This account shall be charged with the amounts of rents paid in advance. As the term expires for which the rents were paid, this account shall be credited at monthly intervals and the appropriate accounts charged.

§ 35.1820 *Prepaid taxes.* This account shall be charged with the amounts of taxes paid in advance. As the term expires for which the taxes were paid, this account shall be credited at monthly intervals and the appropriate accounts charged.

§ 35.1899 *Other prepayments.* This account shall be charged with the amounts of prepayments not provided for elsewhere. As the term expires for which the payments were made, this account shall be credited at monthly intervals and the appropriate accounts charged.

Deferred Charges

§ 35.1910 *Extraordinary maintenance, depreciation, and retirements.* This account shall include such amounts of the unprovided-for loss in service value of plant retired for causes not contemplated in prior allowances for depreciation as are authorized or directed by the Commission to be included herein. (See also § 35.04–4.) It shall also include such other amounts as may be authorized or directed by the Commission to be included herein.

§ 35.1915 *Capital-stock expense.* (a) This account shall include the amounts of stock expenses that have not been charged to account 6120, "Extraordinary current income charges." (See particularly § 35.10–13.)

(b) A separate subaccount, with appropriate title, shall be maintained for stock expenses applicable to each class of capital stock.

NOTE: Expenses incurred in connection with the reacquisition and resale of capital stock shall be accounted for as provided in § 35.10–9.

§ 35.1920 *Long-term debt expense.* (a) This account shall include the amounts of debt expenses that have not been charged to account 5245, "Amortization of debt expense," or to account 6120, "Extraordinary current income charges." (See particularly § 35.10–14.)

(b) A separate subaccount, with appropriate title, shall be maintained for debt expenses applicable to each issue or series of long-term debt.

NOTE: Expenses incurred in connection with the reacquisition and resale of long-term debt shall be accounted for as provided in § 35.10–14.

§ 35.1925 *Discount on capital stock.* This account shall include the total of the debit balances in the accounts for discount and premium on capital stock. (See particularly § 35.10–13.)

§ 35.1930 *Unamortized discount on debt.* This account shall include the total of the debit balances in the accounts for discount and premium on long-term debt. (See particularly § 35.10–14.)

§ 35.1935 *Preliminary survey and investigation charges.* (a) This account shall be charged with all preliminary expenditures for surveys, plans, investigations, etc., made for the purpose of determining the feasibility of major projects under contemplation such as the construction, retirement, purchase, or sale of plant. If a project is authorized, the amounts applicable thereto shall be credited to this account and charged to the appropriate accounts. (See also note at the end of this section.) If a project is abandoned, the amounts applicable thereto shall be credited to this account and, when borne by the carrier, shall be charged to account 6120, "Extraordinary current income charges," unless otherwise authorized or directed by the Commission.

(b) The records supporting the entries in this account shall be so maintained that the carrier can furnish complete information as to the nature and purpose of the surveys, plans, or investigations, and the nature and respective amounts of the charges.

NOTE: The amount of preliminary survey and investigation charges transferred to the plant accounts shall not exceed the expenditures which may reasonably be determined to contribute directly and immediately and without duplication to the plant. (See also § 35.03–7.)

§ 35.1940 *Debit balances in clearing accounts.* This account shall include the total of the debit balances (i. e., the amounts that affect the accounting for future periods) remaining in all clearing accounts except account 9016, "Supply clearing account." (See particularly § 35.90–2.)

§ 35.1999 *Other deferred charges.* (a) This account shall include the amounts of deferred charges not provided for elsewhere. (See also § 35.03–15.)

(b) The records supporting the entries in this account shall be so maintained that the carrier can furnish complete information as to each item included herein.

Long-Term Debt

§ 35.2010 *Bonds actually issued.* (a) This account shall include the face amount of actually issued and unmatured bonds that have not been retired or canceled; and also the face amount of such bonds issued by others the payment of which has been assumed by the carrier. (See particularly §§ 35.10–7, 35.10–8, and 35.10–17.)

(b) A separate ledger account, with appropriate title, shall be maintained for each issue or series of bonds.

NOTE A: Discount, expense, and premium on bonds shall be accounted for as provided in § 35.10–14.

NOTE B: Matured bonds shall be included in account 2120, "Matured long-term debt."

§ 35.2015 *Bonds reacquired.* (a) This account shall include the face amount of bonds actually issued or assumed by the carrier and reacquired by it and held under conditions that do not permit the carrier to treat such bonds as retired or canceled but do permit their resale. It shall not include securities that are held by trustees of debt-redemption or other funds.

(b) When any issue of bonds, or portion thereof, is reacquired, the acquisition cost of the bonds and the amount of unamortized discount, expense, or premium applicable thereto shall be accounted for as provided in § 35.10–14.

(c) When reacquired bonds are sold, the book amount of the bonds shall be credited to this account and the difference between such amount and the amount received from the sale less commissions and expenses incurred in the sale shall be charged to account 6120, "Extraordinary current income charges," or credited to account 6110, "Extraordinary current income credits," as appropriate.

(d) A separate subaccount, with appropriate title, shall be maintained for each issue or series of bonds reacquired.

§ 35.2020 *Bonds subscribed; unissued.* (a) This account shall include the face amount of bonds for which legally enforceable subscriptions have been received but for which evidences of indebtedness have not been issued.

(b) When the amount of each subscription is received and the evidences of indebtedness are issued, this account shall be charged and account 2010, "Bonds actually issued," shall be credited with the face amount of such bonds.

(c) Interest that has accrued on the evidences of indebtedness issued to subscribers shall be accounted for through the appropriate interest account.

(d) A separate subaccount, with appropriate title, shall be maintained for subscriptions to each issue or series of bonds.

§ 35.2025 *Receivers' and trustees' securities.* This account shall include the book amount of the evidences of indebtedness issued by receivers or trustees in possession of the property of the carrier and acting under the orders of a court.

§ 35.2030 *Advances from affiliates.* (a) This account shall include the amounts owed to affiliates on notes maturing more than 1 year from date of issuance or origin and the amounts of open accounts representing investment advances from affiliates.

(b) This account shall be subdivided as follows:

2030:01 Notes.
2030:02 Open accounts.

NOTE: Notes and open accounts representing indebtedness to affiliates that are subject to current settlement shall be included in account 2129, "Other payables to affiliates."

§ 35.2099 *Other long-term debt.* (a) This account shall include the amounts

of all long-term debt not provided for elsewhere.

(b) The records supporting the entries in this account shall be so maintained that the carrier can furnish complete information as to each item included herein.

Current Liabilities

§ 35.2101 *Unpaid wages.* This account shall include the amounts of accrued wages as at the date of the balance sheet, and the amounts of unclaimed wages not represented by outstanding checks and not yet subject to the provisions of paragraph (c) of § 35.10–5.

§ 35.2111 *Liability for tax collections.* (a) This account shall include amounts collectible or collected (directly or through the pay roll deduction or other method) by the carrier from customers, employees, or other third persons and payable to the United States or to State, local, or foreign governments.

(b) This account shall be subdivided, as indicated below, so as to show separately (1) the amounts due the United States under the provisions of the Social Security Act, (2) amounts due State or local governments under the provisions of statutes related to or similar to the Social Security Act, (3) amounts due the United States for taxes on the transmission of messages and the leasing of facilities, and (4) other amounts due governments:

2111:01 Federal social security.
2111:02 State or local social security.
2111:03 Federal message (and leased-facility).
2111:99 Other.

§ 35.2113 *Unpaid money-orders.* This account shall include the amounts of money-orders, travelers' cheques, C. O. D. checks, letters of credit, and similar forms of sight or demand checks and drafts drawn by agents on the carrier and outstanding in the hands of payees or drawn on express or other companies and not paid to the drawees. It shall also include the amounts appearing on receipts or on similar evidences of the acceptance of funds for transmittal issued by agents of the company and not yet represented by any of the above-mentioned types of sight or demand instruments.

§ 35.2115 *Customers' deposits.* This account shall include amounts deposited with the carrier by customers as security for the payment of bills. (See also § 35.2315.)

§ 35.2120 *Matured long-term debt.* This account shall include the amount of long-term debt and receivers' and trustees' securities, including any obligations for premiums, matured and unpaid without specific agreement for extension of maturity. It shall include the amounts of bonds drawn or called for redemption but not presented.

§ 35.2122 *Traffic settlements payable to affiliates.* This account shall include the total of the amounts payable to affiliated carriers in favor of each of which there is a net credit balance in the accounts maintained for traffic settlements. (See particularly § 35.03–19.)

§ 35.2129 *Other payables to affiliates.* (a) This account shall include amounts payable to affiliates not provided for elsewhere. (See particularly §§ 35.2122, 35.2165, 35.2170, and 35.2180.)

(b) This account shall be subdivided as follows:

2129:01 Matured interest payable.
2129:02 Matured rents payable.
2129:03 Current notes payable. (See also § 35.2030.)
2129:99 Other accounts payable.

(c) In stating the balance sheet there may be included in this account the net amounts payable to affiliates in favor of each of which there is a net credit balance between amounts in this account and amounts in account 1749, "Other receivables from affiliates."

Payables to Nonaffiliates

§ 35.2131 *Notes payable.* This account shall include amounts payable to persons other than affiliates on notes, drafts, acceptances, and other evidences of indebtedness payable on demand or not more than 1 year from the date of issuance. (See also paragraph (b) of § 35.1751.)

NOTE: Notes payable to nonaffiliates more than 1 year from the date of issuance shall be included in account 2099, "Other long-term debt."

§ 35.2132 *Traffic settlements payable.* This account shall include the total of the amounts payable to persons other than affiliates in favor of each of whom there is a net credit balance in the accounts maintained for traffic settlements. (See particularly § 35.03–19.)

§ 35.2133 *Matured interest payable.* (a) This account shall include the amount of matured interest that is subject to current settlement and payable to persons other than affiliates on long-term debt or other obligations of the carrier. (See also § 35.2165.)

(b) The records supporting the entries in this account shall be so maintained as to show separately the rate and amount of interest included herein by reference to the obligation to which the interest relates.

NOTE: Matured interest payable that is not subject to current settlement shall be included in the account in which the principal amount is recorded.

§ 35.2134 *Dividends payable.* (a) This account shall include the amount of declared dividends that are payable not later than the first day following the date of the balance sheet and that for any reason have not been paid. (See particularly § 35.2164.)

(b) The records supporting the entries in this account shall be so maintained as to show the amount of dividends includible herein by the classes of capital stock to which they relate.

§ 35.2135 *Matured rents payable.* This account shall be credited with the amounts charged to the income accounts and the amounts of the clearances from account 2170, "Rent accruals," representing matured rents payable to persons other than affiliates.

§ 35.2139 *Other accounts payable.* (a) This account shall include the amounts of payables to persons other than affiliates not provided for elsewhere, including the amounts of vouchers that have been approved for payment but remain unpaid as at the date of the balance sheet. (See §§ 35.2099, 35.2101, 35.2111, 35.2113, and 35.2115; also §§ 35.2131 to 35.2138, inclusive, and §§ 35.2160 to 35.2180, inclusive.)

(b) In stating the balance sheet there may be included in this account the total of the net amounts payable to persons other than affiliates in favor of each of whom there is a net credit balance between amounts in this account and amounts in account 1759, "Other accounts receivable."

§ 35.2155 *Advance billings.* (a) This account shall be credited with the amounts of bills rendered for services to be furnished in future accounting periods.

(b) This account shall be charged and the appropriate operating-revenue accounts, income accounts, or asset accounts shall be credited as the services are rendered or as adjustments are approved.

NOTE: This account shall not include amounts representing advances for construction. (See particularly § 35.2315.)

§ 35.2160 *Liability on installment-plan sales of capital stock.* (a) This account shall include the amounts of receipts (obtained either directly or through pay-roll deductions) from employees and others, other than on subscriptions, as partial payments on capital stock of the carrier.

(b) When amounts so received equal the agreed purchase price for capital stock, this account shall be charged and account 2410, "Capital stock issued," or account 2415, "Capital stock reacquired," as appropriate, shall be credited with the book amount of such stock. Any discount or premium on original issues shall be included in the appropriate discount and premium account.

(c) When amounts included herein are forfeited, by purchasers, this account shall be charged and account 2599, "Other capital surplus," shall be credited with the amounts so forfeited.

(d) When, for any reason, receipts under this plan are refunded to purchasers, this account shall be charged with the amount of such refunds, to the extent that the refunds represent amounts of principal installment receipts.

(e) Any amounts credited to purchasers as interest on installment receipts shall be charged to account 5235, "Other interest charges." Any amount by which refunds on uncompleted purchases fail to equal the amounts received from purchasers shall be charged to this account and credited to account 2599, "Other capital surplus."

(f) This account shall be subdivided as follows:

2160:02 Receipts from officers and employees.
2160:99 Receipts from others.

Liability Accruals

§ 35.2164 *Dividends declared.* (a) This account shall include the amount of declared dividends payable at a date

subsequent to the first day following the date of the balance sheet. (See particularly § 35.2134.)

(b) The records supporting the entries in this account shall be so maintained as to show the amount of dividends declared on each class of capital stock.

§ 35.2165 *Interest accruals.* (a) This account shall be credited monthly with amounts charged to account 5210, "Interest on long-term debt," account 5215, "Interest on indebtedness to affiliates," account 5235, "Other interest charges," and other appropriate accounts representing proportionate amounts, applicable to the period, of interest liabilities that have not matured.

(b) When any item of interest included herein has matured, the amount thereof shall be cleared by a charge to this account and a credit to account 2133, "Matured interest payable," or other appropriate account.

§ 35.2170 *Rent accruals.* (a) This account shall be credited monthly with amounts charged to account 5205, "Rent for lease of operated plant," account 4261, "Rents for operating offices," account 4269, "Rents for other facilities," and other appropriate accounts representing proportionate amounts, applicable to the period, of rent liabilities that have not matured.

(b) When the obligation with respect to which any item included herein has matured, the amount of such item shall be cleared by a charge to this account and a credit to account 2135, "Matured rents payable," or other appropriate account.

§ 35.2175 *Tax accruals.* (a) This account shall be credited monthly with the amount of taxes applicable to the period, and corresponding charges shall be made to the appropriate accounts. Such credits may be based upon estimates, but from time to time, as the facts become known, the amounts of the periodic credits shall be adjusted so as to include, as nearly as can be determined in each year, the taxes applicable to that year.

(b) The records supporting the entries in this account shall be so maintained that the carrier can furnish information as to the amounts by classes of taxes and taxing authorities, the basis for each tax determination, and the accounts to which charged.

NOTE A: Interest on tax assessments the payment of which has been delayed shall be charged to account 5233, "Interest on past-due tax assessments."

NOTE B: Taxes such as social security taxes collected from employees and message taxes collected from customers shall be included in account 2111, "Liability for tax collections."

NOTE C: Any amount representing a prepayment of taxes applicable to a subsequent period shall be included in account 1820, "Prepaid taxes."

§ 35.2180 *Other liability accruals.* (a) This account shall be credited with the amounts of liability accruals not provided for elsewhere.

(b) When the obligation with respect to which any item included herein has matured, the amount of such item shall be cleared by a charge to this account and a credit to the appropriate account according to the nature of the matured item.

§ 35.2199 *Other current liabilities.* (a) This account shall include the amounts of current liabilities not provided for elsewhere. (See particularly paragraph (c) of § 35.10–5.)

(b) The records supporting the entries in this account shall be so maintained as to show full details concerning each item included herein.

Provisions for Future Settlements

NOTE: See particularly § 35.10–11.

§ 35.2210 *Provisions for employees' pensions and welfare.* (a) This account shall include specific appropriations of income and the amounts contributed by employees or others (whether carried in special trust funds or in the general funds of the carrier) for pensions, accident and death benefits, savings, relief, hospital, and other provident purposes, when administered by trustees or managers acting for the carrier.

(b) This account shall include also the amount accrued for pensions through charges to account 4327, "Relief and pensions." Amounts so credited shall, when actually paid to retired employees or paid into a trust fund irrevocably devoted to the payment of pensions, be charged hereto.

§ 35.2215 *Provisions for self-carried insurance.* (a) This account shall include provisions to cover self-carried risks for losses through accident, fire, flood, or other causes, other than provisions made in the allowance for depreciation.

(b) This account shall also be credited with the amounts that are charged to account 4323, "Workmen's compensation," in accordance with paragraph (b) of that account.

(c) Amounts included in this account shall be computed upon a basis of rates which fairly cover the risks incurred. These rates shall be determined according to the carrier's experience and best estimate as to the hazard covered. A schedule of risks covered by this account shall be maintained giving a description of the property or the character of the risks covered.

(d) If the carrier reinsures with insurance companies risks initially covered in this account, the premiums for such reinsurance shall be charged hereto.

(e) To the extent that losses and damages sustained or awards made are covered by this account, an amount equal thereto shall be charged to this account and credited to the accounts appropriate for the losses and damages sustained or awards made.

(f) This account shall be subdivided as follows:

2215:01 Workmen's compensation insurance.
2215:99 Other insurance.

NOTE A: Accretions to this account shall not be made in excess of a reasonable provision against losses of the character provided for.

NOTE B: All losses and damages sustained or awards made, including those covered by commercial insurance or by this account, shall be charged in the first instance to the allowance - for - depreciation, construction, maintenance, injuries-and-damages, workmen's-compensation, or other appropriate account, according to the character of the loss. Insurance recovered or amounts chargeable to this account on account of losses and damages sustained shall be credited to the account in which the losses and damages stand charged.

§ 35.2220 *Provisions for equalization of maintenance expenses.* (a) This account shall be credited with such amounts as the Commission may authorize or direct to be charged to account 4180, "Maintenance-expense equalization," under a plan to equalize maintenance expenses.

(b) When maintenance work is performed for which provision has been made in this account, the cost of such work shall be charged to the appropriate maintenance accounts. Concurrently this account shall be charged and account 4180 shall be credited with an amount equal to the provision for the cost of such maintenance work.

(c) The carrier's application to the Commission for permission to institute an equalization program shall show full details as to the plan of administration of the program, the character of the work to which amounts accrued may subsequently be applied, and the amount of the monthly or annual accruals for equalization purposes.

(d) A separate subaccount, with appropriate title, shall be maintained for each project or program for which provision is made in this account.

§ 35.2225 *Provisions for depreciation and replacement of operated plant leased from others.* (a) This account shall be credited with amounts charged to account 4910, "Depreciation," for currently accruing depreciation of operated plant leased from others when the carrier, as lessee, is required to replace or to restore the condition of such plant and when such amounts are not subject to current reimbursement to the lessor.

(b) This account shall be charged with the cost of leased plant retired and the cost of removal when, under the terms of the lease, the carrier, as lessee, is required to replace or to restore the condition of plant leased from others. It shall be credited with the salvage value and any other amounts recovered from such retired plant. (See also § 35.1–5.)

(c) As at the effective date of this system of accounts, this account shall be credited with such amounts as are necessary to record herein the service value of operated plant leased from others that has expired during the periods of effective leasing agreements under which the carrier, as lessee, is required to replace or to restore the condition of such plant, and when such amounts are not subject to current settlement with the lessor. This includes amounts with respect to depreciable operated plant that has been retired during the periods of such agreements and the expired service value of such plant still in the service of the carrier. The amounts thus credited shall, unless otherwise authorized by the Commission, be charged to account 6120, "Extraordinary current income charges."

(d) The amount in this account with respect to each leasing agreement shall be

cleared at the expiration of the lease as provided in paragraph (k) of § 35.1–6.

(e) The records supporting the entries in this account shall be so maintained as to show the amount included herein with respect to each leasing agreement.

§ 35.2230 *Leased operated plant retired.* (a) This account shall be credited with the cost of leased operated plant retired when the carrier, as lessee, is required to replace or to restore the condition of plant leased from others. (See also § 35.1–5.)

(b) As at the effective date of this system of accounts, this account shall be credited, and account 2225, "Provisions for depreciation and replacement of operated plant leased from others," shall be charged with the original cost of operated plant leased from others that has been retired since the date of each effective leasing agreement under which the carrier, as lessee, is required to replace or to restore the condition of such plant, and when the cost of such replacement or restoration is not subject to current settlement with the lessor.

(c) The amount in this account with respect to each leasing agreement shall be cleared at the expiration of the lease as provided in paragraph (k) of § 35.1–6.

(d) The records supporting the entries in this account shall be so maintained as to show the amount included herein with respect to each leasing agreement.

§ 35.2299 *Other provisions for future settlements.* (a) This account shall include the amounts of provisions for future settlements not provided for elsewhere, including reasonable provisions for uninsured casualty liabilities charged to account 4325, "Injuries and damages."

(b) The records supporting the entries in this account shall be so maintained as to show complete details concerning each item included herein.

Deferred Credits

§ 35.2310 *Unamortized premium on debt.* This account shall include the total of the credit balances in the accounts for discount and premium on long-term debt. (See particularly paragraph (c) of § 35.10–14.)

§ 35.2315 *Advances for construction.* (a) This account shall include the entire amount of advances for construction that are to be repaid in full or in part.

(b) When full repayment is made of the amount to which the person making the advance is entitled, according to the agreement or rule under which the advance is made, the balance, if any, remaining in this account shall be transferred to account 2515, "Contributions of plant."

§ 35.2320 *Credit balances in clearing accounts.* This account shall include the total of the credit balances (i. e., the amounts that affect the accounting for future periods) remaining in all clearing accounts except 9016, "Supply clearing account." (See particularly § 35.90–2.)

§ 35.2399 *Other deferred credits.* (a) This account shall include the amount of deferred credits not provided for elsewhere. (See also § 35.03–15.)

(b) The records supporting the entries in this account shall be so maintained that the carrier can furnish complete information as to each item included herein.

Capital Stock

§ 35.2410 *Capital stock issued.* (a) This account shall include the book amount of actually issued capital stock. (See particularly § 35.10–9; also §§ 35.10–13 and 35.10–17.)

(b) When any class of capital stock or portion thereof is retired or canceled, this account shall be charged with the amount at which such stock is carried herein.

(c) Separate subaccounts shall be maintained to show the book amount of each class of stock as provided in § 35.10–9.

NOTE A: When a levy or assement (not including a call for payment on subscriptions) is made against holders of capital stock, the amount collected upon such levy or assessment shall be accounted for in accordance with paragraph (d) of § 35.10–13.

NOTE B: Discount, expense, and premium on capital stock shall be accounted for in accordance with § 35.10–13.

§ 35.2415 *Capital stock reacquired.* (a) This account shall include the book amount of capital stock actually issued by the carrier and reacquired by it, except stock which is held by trustees of debt-redemption and other funds. No par stock shall be included in this account at the proportionate part of the total amount at which the particular class of stock is included in account 2410, "Capital stock issued."

(b) When any class of capital stock or portion thereof is reacquired or retired, the acquisition cost of the stock and the amount of unamortized discount, expense, or premium applicable thereto shall be accounted for in accordance with paragraph (d) of § 35.10–9.

(c) When reacquired capital stock is sold, the book amount of the stock shall be credited to this account and the difference between such amount and the amount received from the sale shall be accounted for in accordance with paragraph (f) of § 35.10–9.

(d) A separate subaccount, with appropriate title, shall be maintained for each class of capital stock reacquired.

§ 35.2420 *Capital stock subscribed; unissued.* (a) This account shall include the book amount of capital stock for which legally enforceable subscriptions have been received but for which stock certificates have not been issued. (See also § 35.2160.)

(b) When the amount of each subscription is received and stock certificates are issued, this account shall be charged and account 2410, "Capital stock issued," shall be credited with the book amount of such stock.

(c) A separate subaccount, with appropriate title, shall be maintained for each class of capital stock.

§ 35.2425 *Obligations for stock conversion.* (a) This account shall include the book amount of capital stock that the carrier has agreed to exchange for the outstanding securities of other companies which have not been surrendered for exchange. (See particularly § 35.10–8.)

(b) When the securities of the other companies have been surrendered, this account shall be charged and account 2410, "Capital stock issued," shall be credited with the book amount of the stock given in exchange.

(c) A separate subaccount, with appropriate title, shall be maintained for each class of capital stock.

Capital Surplus

§ 35.2510 *Premiums and assessments on capital stock.* This account shall include the total of the credit balances in the capital-stock discount and premium accounts. (See particularly § 35.10–13.)

§ 35.2515 *Contributions of plant.* (a) This account shall include the amounts of money or its equivalent contributed directly or indirectly to the carrier for the construction or acquisition of plant. See particularly paragraphs (a) and (b) of § 35.1–2.)

(b) The amounts credited to this account shall not be transferred to any other account without the approval of the Commission.

(c) The records supporting the entries in this account shall be so maintained as to show complete information with respect to each contribution, including the amount and purpose, the conditions upon which it was made, and the name of the donor. (See also § 35.1–2 (g).)

§ 35.2599 *Other capital surplus.* (a) This account shall include all capital surplus not provided for elsewhere.

(b) Among the amounts includible in this account are credits arising from the reacquisition and resale, from the retirement and cancelation, from a reduction of the stated value, and from the donation by stockholders, of the carrier's capital stock; surplus arising from the forgiveness of debt of the carrier; surplus recorded upon the reorganization or recapitalization of the carrier; and amounts that become the property of the carrier as a result of the forfeiture by others of deposits on subscriptions to capital stock and installment-plan payments on purchases of capital stock. (See particularly § 35.10–9.)

Earned Surplus

§ 35.2610 *Contractual reserves.* (a) This account shall include the amount of earned surplus reserved or otherwise set aside in accordance with the terms of mortgages, deeds of trust, orders of courts, contracts, or other agreements. (See also § 35.30–2.)

(b) Separate subaccounts shall be maintained under such titles as will designate the obligation in support of which each reserve recorded hereunder was created.

§ 35.2615 *Reserve against impairment of stated capital.* (a) This account shall be credited with amounts charged to account 8315, "Earned surplus employed in reacquisition of capital stock," as provided in paragraph (i) of §35.10–7.

(b) Upon the resale or retirement of reacquired stock, this account shall be charged and account 8315, "Earned surplus employed in reacquisition of capital stock," shall be credited with the amounts included herein applicable to such stock.

§ 35.2620 *Miscellaneous reserves.* (a) This account shall include the amount of reservations of earned surplus not provided for elsewhere.

(b) Separate subaccounts shall be maintained under such titles as will designate the purpose for which each reserve recorded hereunder was created.

§ 35.2699 *Unappropriated earned surplus.* This account shall include the amount of net earned surplus after providing for reservations and appropriations. (See particularly § 35.10–10.)

OPERATED PLANT ACCOUNTS

INSTRUCTIONS

§ 35.1–1 *Purpose and content of operated plant accounts.* (a) The operated plant accounts are designed to show in detail the cost of the several classifications of the carrier's wire-telegraph and ocean-cable plant that has a service life of more than 1 year, whether used by the carrier or by others.

(b) The balances in the several operated plant accounts are includible in the following balance-sheet accounts under the caption "Commmunication plant," and the chart under § 35.1–99 shows the method of combining a balance-sheet account number and a plant account number when it is desired to indicate both the use and the class of the plant:

1000 Operated plant in carrier's service.
1100 Operated plant leased to others.
1200 Improvements and replacements of operated plant leased from others.

(Account 1400, "Plant held for future communication use," shall also be classified according to the titles and texts provided for the several operated plant accounts.)

NOTE: Plant used in furnishing telephone or radiotelegraph service shall be accounted for as provided in § 35.03–8.

(c) When operated plant ordinarily having a service life of more than 1 year is installed for temporary use in wire-telegraph and ocean-cable service, it shall be accounted for in the same manner as other plant having a service life of more than 1 year.

(d) The cost of individual items of work equipment, such as hand tools and other portable tools that are likely to be lost or stolen, and other items of work equipment that have relatively small value (e. g., costing $10.00 or less) or short life, shall be included in the operated plant accounts only when the investment in such property is relatively large and the correctness of the accounting therefor is verified by the current inventory. When not so verified the cost of such items shall be charged to the operating-expense (or other) account appropriate for the use of such items.

(e) Carriers furnishing both wire-telegraph and ocean-cable services shall maintain separate accounts for the cost of operated plant applicable to each such service. (See § 35.1–99.)

(f) Not later than January 1, 1946, each carrier shall have completed the studies necessary for reclassifying its plant as at January 1, 1943, in accordance with this system of accounts, and shall have submitted to the Commission the entries it proposes to make to carry out the provisions of this section. It shall submit also (not later than January 1, 1946) a comparative balance sheet showing, as at January 1, 1943, the amounts includible in the respective accounts prescribed in this system of accounts (1) before and (2) after effect has been given to the proposed entries mentioned above relating to the reclassification of the plant.

(g) Pending the reclassification of plant, as at the effective date of this system of accounts, in accordance with the accounts prescribed herein, each carrier shall maintain its present accounts with respect to such plant (and its records of retirements therefrom) as subaccounts of account 1540, "Plant in process of reclassification."

§ 35.1–2 *Accounting for plant acquisitions.* (a) Plant previously in public use contributed to the carrier, or plant constructed by the carrier through expenditures of contributed money or its equivalent, shall be charged to the plant accounts on basis of original cost, and there shall be credited to the allowance-for-depreciation and allowance-for-amortization accounts the estimated amounts of depreciation and amortization requirements applicable to such plant at the date of its acquisition by the carrier. Plant not previously in public use contributed to the carrier shall be charged to the plant accounts at its estimated cost new at date of contribution, and there shall be credited to the appropriate allowance-for-depreciation and allowance-for-amortization accounts the estimated amounts of depreciation and amortization requirements applicable to such plant at that date. The difference between the amounts so includible in the plant and in the allowance accounts shall be credited to account 2515, "Contributions of plant."

(b) Amounts received for construction which are ultimately to be repaid, wholly or in part, shall be credited to account 2315, "Advances for construction," and, when final determination has been made as to the amount to be repaid, any amounts not subject to refund shall be transferred to account 2515, "Contributions of plant."

(c) When property that comprises a substantially complete operating system or operating unit is acquired from predecessors by purchase, merger, consolidation, liquidation, or otherwise, that portion of the acquisition cost applicable to operated plant, plant under construction, and plant held for future communication use shall be charged to account 91, "Plant acquired; undistributed charges."

(d) The accounting with respect to the acquisition of such plant shall then be completed as follows:

(1) The original cost of such plant shall be charged to the several plant accounts and account 1300, "Plant under construction," as appropriate, and credited to account 91, "Plant acquired; undistributed charges." When the actual original cost cannot be determined and estimates are used, the carrier shall maintain records to show the particulars of such estimates.

(2) The requisite amounts of the allowances for depreciation and amortization applicable to such plant at the date of acquisition shall be credited to account 1515, "Allowance for depreciation; wire-telegraph and ocean-cable plant," and account 1520, "Allowance for amortization; wire-telegraph and ocean-cable plant," respectively, and charged to account 91, "Plant acquired; undistributed charges."

(3) The amount remaining in account 91, "Plant acquired; undistributed charges," applicable to such plant, upon the completion of the entries provided in the foregoing subparagraphs (1) and (2), shall be transferred to account 1510, "Plant-acquisition adjustments."

(e) When a substantially complete operating system or operating unit acquired comprises duplicate or other plant which is intended to be retired by the carrier in the reconstruction of the acquired plant or in its consolidation with the previously owned property, the accounting with respect to such duplicate or other plant shall be submitted for the consideration and approval of the Commission.

(f) The accounting for wire-telegraph and ocean-cable plant acquired from predecessors not provided for in paragraphs (c) and (d) hereof shall be upon basis of the acquisition cost to the carrier.

(g) A memorandum record shall be kept of the amount of contributions applicable to the plant acquired, as shown by the accounts of the previous owner.

(h) Copies of journal entries recording the acquisition of (1) substantially complete operating systems, (2) substantially complete operating units, or (3) other plant (when the consideration paid for such other plant is $25,000 or more), and of the entries clearing the amounts originally charged to account 91, "Plant acquired; undistributed charges," shall be submitted within 90 days from the respective dates of such original and clearing entries for consideration and approval by the Commission. The text of such entries shall give a complete description of the plant acquired and the bases upon which the amounts of the entries have been determined.

(i) In connection with the acquisition of substantially complete operating systems or operating units, the carrier shall endeavor to procure from the grantor (and the grantor, if subject to the accounting regulations of the Commission, shall deliver) all existing records relating to the property acquired, or certified copies thereof.

(j) The cost of initial improvements (including repairs, rearrangements, and additions) to operated plant acquired from others, made in the course of preparing the plant for service, and the cost of any subsequent additions to and replacements of such plant, shall be included in the appropriate operated plant accounts.

(k) If the acquisition of any plant is by means of construction, the provisions of §§ 35.1–3 and 35.1–4 shall be observed.

NOTE: The cost of valuations, inventories, and appraisals taken in connection with the contemplated acquisition of plant shall be charged to account 1935, "Preliminary survey and investigation charges." If the plant is acquired, the preliminary costs shall be accounted for as a part of the cost of acquisition.

§ 35.1–3 *Components of construction costs.* (a) The costs of construction properly includible in the plant accounts shall include the applicable direct and overhead costs, listed and described in paragraph (c) of this section and in § 35.1–4, and other analogous items in connection with such work.

(b) When a part only of a project is placed in operation or is completed ready for service and the construction work as a whole is incomplete, that part of the plant placed in operation or ready for service shall be treated as completed and no further interest charges shall be made with respect to such completed part.

(c) The following is a description of the principal components of construction costs:

(1) The compensation and the expenses of employees engaged in construction work, including the compensation and expenses of foremen and inspectors in charge thereof.

(2) The purchase price at the point of free delivery of material and supplies plus customs duties and excise taxes; the cost of inspection and handling; transportation to first point of delivery to the carrier; an equitable portion of supply expense; the total cost of fabricated material from the carrier's shops; the book cost of reusable material; and the cost of the tools consumed on a project. (In determining the cost of material used, proper allowance shall be made for unused material and supplies, material recovered from temporary arrangements used in performing the work, salvage value of tools released from the project, and discounts realized in the purchase of material and supplies.)

(3) The cost of transporting employees, material and supplies, tools, and work equipment not under its own power. (Transportation of material and supplies includes transportation from point of first delivery to point of use. It includes amounts paid to others as well as the cost of operating the carrier's own transportation equipment.)

(4) The cost of protecting the carrier's property from fire or other casualties and the cost of preventing injuries to persons and damages to the property of others.

(5) Expenditures or losses on account of injuries to persons and damages to the property of others.

(6) Payments for, and expenses incurred in securing, temporary privileges, permits, or rights in connection with construction work, such as for the use of private or public property, streets, or highways.

(7) Taxes on physical property during construction and before the facilities are completed ready for service, assessed separately from taxes on operating property or under conditions which permit separate identification or allocation of the amount chargeable to construction; also the portion, applicable to construction costs, of taxes imposed under the Social Security Act and similar State statutes.

(8) The net cost of borrowed funds used for construction purposes and (there may be included) a reasonable rate upon the carrier's own funds when so used. Such amounts shall be charged to the individual project upon which the funds are expended and shall be credited to account 5225, "Interest charged to construction—Cr." The period for which interest may be included in the cost of construction shall be limited to the duration of the construction work. (In case construction work is suspended, interest covering a period of more than 6 months from the date of such suspension shall not be included in the cost of construction except when authorized by the Commission. No interest costs for projects that have been abandoned shall be included in these accounts.)

(9) Premiums paid or amounts provided as self-carried insurance for protection against loss and damage by fire and other casualties, injury to or death of employees or others, damage to property of others, defalcation of employees and agents, nonperformance of contractual obligations of others, and the cost of workmen's-compensation or similar insurance.

(10) The cost of telephone, water, electricity, power, office space, equipment, and analogous items allocable to the construction project; also similar items furnished by the carrier through its regular operating facilities.

(11) The pay and expenses of operators and helpers required for machine operation, material and supplies consumed, depreciation, and other expenses incurred in the maintenance, operation, and use of special machines such as steam-shovels, pile-drivers, and other labor-saving machines; also expenditures for rental, maintenance, and operation of such machines owned by others; also, when a particular construction project requires the purchase of special machines, the cost of these machines, less their appraised or salvage value at the time of their release from the project.

(12) The applicable portion of the pay and of the office and other expenses of the carrier's engineers and their staffs responsible primarily for the technical features of construction work.

(13) Amounts paid to other companies, firms, or individuals engaged by the carrier to plan, design, prepare estimates, supervise, inspect, or give general advice and assistance in connection with construction work. (A copy of the agreement or arrangement under which said services are rendered shall be preserved by the carrier.)

(14) An equitable portion of the pay and of the office and other expenses of the general officers and their staffs. (Such amounts shall be determined in accordance with § 35.03–17.)

(15) Amounts paid for work performed under contract by other persons. (Costs incident to the award of such contracts, to the inspection of such work, and to any other work of any character performed by the carrier in connection with a contract-work project have been noted under the components of construction costs appropriate for the character of the service performed or the expense incurred.)

(d) As a reduction of construction costs, any amounts earned, during the construction period incidental to the construction, less correlated expenses, shall be credited to the cost of construction.

§ 35.1–4 *Overhead construction costs.* (a) All overhead construction costs, such as engineering, supervision, general office salaries and expenses, construction engineering and supervision by others than the carrier, law expenses, insurance, injuries and damages, relief and pensions, taxes, and interest, shall be charged to particular projects or units on basis of the amounts of such overhead costs reasonably applicable thereto, to the end that each project or unit shall bear its equitable portion of such costs and that the entire cost of the unit, both direct and overhead, shall be deducted from the plant accounts at the time the unit of plant is retired.

(b) The records supporting the entries for overhead construction costs shall be so maintained as to show the nature of the expenditures, the individual projects and accounts charged, and the bases of the distribution of such costs.

(c) The instructions contained herein shall not be interpreted as permitting the inclusion in the operated plant accounts of arbitrary amounts to cover assumed overhead costs, but as requiring the assignment to particular projects and accounts of actual and reasonable overhead costs.

§ 35.1–5 *Expenditures on operated plant leased from others.* (a) Except as provided in paragraphs (b) and (c) of this section, the cost of initial improvements (including repairs, rearrangements, and additions) to operated plant leased from others, made in the course of preparing the plant for service, and the cost of any subsequent additions to and replacements of the leased plant shall be charged to the operated plant accounts appropriate for the class of plant leased. (See also §§ 35.1200 and 35.1–2.)

(b) When, under the terms of a leasing agreement, the carrier, as lessee, is required to make specific improvements to leased plant and such improvements revert to the lessor and constitute a part of the consideration paid for the use of th plant, the cost of such improvements shall be charged by the lessee to account 1815, "Prepaid rents," and amortized over the remaining period of the lease by charges to the appropriate rent account. Such portion of the cost of improvements as represents additions to the leased plant shall be charged by the lessor (if a wire-telegraph or ocean-cable carrier) to the appropriate plant accounts and credited to an appropriate subaccount under account 2399, "Other deferred credits." Amounts thus credited to account 2399 shall be amortized over the remaining period of the lease by credits to the appropriate rental account.

(c) When improvements to leased plant otherwise chargeable to the plant accounts are of relatively minor cost or short life, or when the period of the lease is not more than 1 year, the cost thereof shall be included in account 4261, "Rents for operating offices," or in the account appropriate for the maintenance of such plant, as appropriate.

(d) When, under the terms of a lease, the carrier, as lessee, is required to replace or to restore the condition of plant leased from others, depreciation charges on the plant originally leased shall be computed on the same basis as for owned depreciable plant. Such amounts shall be charged to account 4910, "Depreciation," and (if not subject to current settlement with the lessor) credited to account 2225, "Provisions for depreciation and replacement of operated plant leased from others." (See particularly § 35.04–3 and paragraph (h) of this section.)

(e) When, under the terms of a lease, the carrier, as lessee, is required to replace or to restore the condition of plant leased from others, the cost of leased plant retired by the lessee shall be credited to account 2230, "Leased operated plant retired." Such amount together with the cost of removal shall be charged, and the salvage value and any other amounts received shall be credited, to account 2225, "Provisions for depreciation and replacement of operated plant leased from others."

(f) The accounting for the retirement of improvements and replacements of leased plant made by the lessee shall be as provided in § 35.1–6.

(g) Upon termination of a lease and transfer of the plant to the lessor, the accounting by the lessor (if a wire-telegraph or an ocean-cable carrier) for improvements and replacements of the leased plant which were made by the lessee shall be as follows:

The plant accounts shall be so adjusted as to include the original cost of the plant returned at the termination of the lease, including the original cost of improvements and replacements made by the lessee, and (as so adjusted) shall be appropriately classified in conformity with § 35.1–1. Accounts 1515, "Allowance for depreciation; wire-telegraph and ocean-cable plant," and account 1520, "Allowance for amortization; wire-telegraph and ocean-cable plant," shall be so adjusted as to include the required allowances for depreciation and amortization of such plant. The difference between (1) the net amount of the foregoing adjustments and (2) the amount of any settlement with the lessee with respect to such plant, shall be charged to account 1999, "Other deferred charges," or credited to account 2399, "Other deferred credits," as appropriate. Full particulars relating to the difference so recorded with respect to each leasing agreement, together with a plan for the disposition thereof, shall be immediately submitted to the Commission for consideration and approval.

(h) Each carrier, as lessee, shall maintain memorandum accounts entirely independent of these accounts, in which are recorded the cost of, and related allowances with respect to, plant placed under its exclusive control by a leasing agreement and the subsequent retirements of such plant while under the control of the carrier. Separate memorandum accounts shall be maintained for each leasing agreement. The records supporting the memorandum accounts shall be maintained in the same manner and detail as those relating to owned operated plant.

§ 35.1–6 *Additions, retirements, and replacements of operated plant.* (a) To the end that the operated plant accounts shall at all times disclose the cost of plant in service, the cost of all additions to, and replacements of, operated plant, whether acquired by construction, purchase, or otherwise, shall be charged (except as provided in paragraphs (e) and (g) of this section) to the appropriate plant accounts. The cost of plant retired, whether replaced or not, shall be credited (except as provided in paragraphs (f) and (g) of this section) to the account or accounts in which such cost stands charged.

(b) When any item of operated plant is retired from service for any reason, the amounts in the plant accounts applicable to that item shall be credited thereto, and the retirement entry shall cite the original entry in which was recorded the cost of the item retired, by name and page of, or other definite identification of, book or other record in which the entry was made; except that when such entry cannot be identified or is not available, or if it is impracticable to determine the cost of any item due to the relatively large number of items or the small cost thereof, the amount shall be estimated with due allowance for any differences in size and character, and that fact shall be stated in the retirement entry. The records supporting retirement entries shall show also the aggregate quantity, in units of measure ordinarily used by the carrier, of each type of retirement unit retired, and the basis used in determining the cost when estimates are used.

(c) For the purpose of avoiding undue refinement, in accounting for retirements and replacements of depreciable operated plant such property shall be considered as consisting of (1) retirement units and (2) minor items. (See particularly § 35.1–6–1.)

(d) The cost of any retirement unit retired (whether replaced or not) shall be credited to the appropriate plant account. Except as provided in paragraphs (j) and (k) of this section, the entire amount of such cost shall be charged to account 1515, "Allowance for depreciation; wire-telegraph and ocean-cable plant."

(e) When minor items that did not previously exist are added to operated plant, the cost thereof shall be treated as a plant acquisition if a substantial addition results. Otherwise, the cost of such items shall be included in the appropriate maintenance-expense account.

(f) When a minor item is retired and not replaced, it shall be accounted for as if it were a retirement unit, except that if the cost of such retired item will be accounted for by its inclusion in the retirement unit of which it is a part when such unit is retired, no separate credit to the plant account is required at the date of retirement.

(g) When a minor item of operated plant is replaced independently of the retirement unit of which it forms a part or with which it is associated, the cost of replacement shall be charged to the account appropriate for the cost of maintenance of the plant with which it is associated, except that, if the replacement effects a substantial betterment (the primary aim of which is to make the plant affected more useful, more efficient, of greater durability, or of greater capacity), that part of the in-place cost of the item installed that is in excess of the cost of the item retired shall be charged to the appropriate operated plant account.

(h) The cost of land retired shall be credited to the appropriate land account. If the cost of the land is includible in account 11, "Land used for right-of-way," its retirement shall be accounted for as provided in paragraphs (c), (d), and (e) of this section. If the cost of the land is includible in account 12, "Land used for building sites," or account 13, "Land used for other operations," its retirement shall be accounted for as provided in paragraph (j) of this section or as provided for in § 35.1–7, as appropriate.

(i) The accounting for franchises, patent rights, leaseholds, and other intangibles retired shall be as provided in paragraph (d) of account 1520, "Allowance for amortization; wire-telegraph and ocean-cable plant." The accounting for the retirement of amounts included in account 85, "Research and development," shall be as provided in the text of that account.

(j) When operated plant is sold, conveyed, or transferred to another person by sale, merger, consolidation, or otherwise, the amount of the consideration received therefor shall be credited to account 92, "Plant sold; undistributed credits," and further accounted for as follows:

(1) The applicable amounts included in account 1935, "Preliminary survey and investigation charges," shall be transferred to account 92, "Plant sold; undistributed credits," and the amounts of commissions and other expenses of making the sale shall be charged to that account.

(2) The cost of the property sold or transferred, including amounts in account 1510, "Plant-acquisition adjustments," that are applicable to such plant, shall be credited to the appropriate plant accounts and charged to account 92, "Plant sold; undistributed credits."

(3) The amounts (estimated if not known) carried with respect to such operated plant in account 1515, "Allowance for depreciation; wire-telegraph and ocean-cable plant," account 1520, "Allowance for amortization; wire-telegraph and ocean-cable plant," account 2315, "Advances for construction," and, if approved by the Commission, account 2515, "Contributions of plant," shall be charged to the respective accounts and credited

to account 92, "Plant sold; undistributed credits."

(4) The amount remaining in account 92 applicable to such plant upon the completion of the foregoing entries shall be transferred to account 6110, "Extraordinary current income credits," or account 6120, "Extraordinary current income charges," as appropriate.

(k) Upon termination of a lease and transfer of the plant to the lessor, the cost of improvements and replacements made by the lessee to plant leased from others shall be credited to the plant accounts of the lessee in which they stand charged. The amounts applicable to such plant in account 1515, "Allowance for depreciation; wire-telegraph and ocean-cable plant," and account 1520, "Allowance for amortization; wire-telegraph and ocean-cable plant," shall be cleared from those accounts. The difference between the amounts of the foregoing charges and credits shall be charged or credited, as appropriate, to account 2225, "Provisions for depreciation and replacement of operated plant leased from others." The amount of any settlement with the lessor with respect to such plant shall be charged or credited, as appropriate, to account 2225. The balances then remaining in account 2225 and in account 2230, "Leased operated plant retired," with respect to each such expired lease shall be disposed of in such manner as the Commission may approve or direct.

(l) If, after performing the accounting provided in the foregoing paragraphs of this section and in § 35.04–3, a credit balance remains, because of underestimating net salvage value or for any other reason, in the portion of any depreciation-allowance or amortization-allowance account assignable to the plant retired, the portion of such balance applicable to the calendar year in which the plant is retired shall be charged to that allowance account and credited to the operating-revenue deduction or other account originally charged with the estimated amount of current depreciation or amortization. The remainder of such balance shall be cleared from the allowance account as provided in § 35.03–13.

NOTE: The cost of valuations, inventories, and appraisals in connection with a contemplated sale of plant shall be charged to account 1935, "Preliminary survey and investigation charges."

§ 35.1–7 *Transfers of plant.* (a) When plant is transferred from one class of communication service to another, the transfer shall be accounted for by transferring the book cost thereof to the appropriate accounts, and likewise any related amounts in the allowance-for-depreciation and allowance-for-amortization accounts shall be transferred to the appropriate allowance accounts.

(b) When depreciable operated plant is transferred to noncarrier operations, the transfer shall be accounted for by crediting the appropriate plant accounts and charging account 1515, "Allowance for depreciation; wire-telegraph and ocean-cable plant," with the cost of the plant transferred. Account 1515 shall then be credited and account 1610, "Miscellaneous physical property," shall be charged with the estimated fair value, not in excess of cost, of the plant transferred. Any balance in the depreciation-allowance account relating to such transferred property shall be disposed of as provided in paragraph (l) of § 35.1–6, § 35.03–13, or paragraph (c) of § 35.04–2, as appropriate.

§ 35.1–8 *Continuous property-record required.* (a) Not later than January 1, 1943, each carrier shall begin the preparation of a continuous property record relating to property of the classes represented in the balance-sheet accounts under the caption "Communication plant," and in account 1610, "Miscellaneous physical property." The record shall be completed not later than June 30, 1946, with respect to property as at December 31, 1942, and with respect to the changes effected therein between the dates of January 1, 1943, and December 31, 1945: *Provided, however,* That such data shall not be used by the carrier in its permanent records until the approval by the Commission of a plan (and a list of property units) and other details of a continuous property-record procedure to be submitted in compliance with the provisions of paragraph (b) of this section.

(b) Not later than June 30, 1943, each carrier shall submit to the Commission, for consideration and approval, a complete plan of methods to be used in the compilation of the continuous property-record, the installation and maintenance of which are prescribed in paragraph (a) of this section. The plan shall include a list of the property units proposed for use, classified to conform with the operated plant accounts prescribed in this system of accounts, and shall include material lists for assemblies, together with the quantity-unit designation applicable to each property unit and to the integral or associated parts thereof. A narrative statement shall accompany the lists of proposed units, describing in detail the content and method of maintenance of all forms and other records which are designed for use in compiling the continuous property-record, to the end that a ready analysis with respect to the sufficiency thereof may be made.

(c) The record shall be arranged in conformity with the operated plant accounts prescribed in this system of accounts. It shall be compiled on the basis of original cost and shall contain such detailed description and classification of the property units as will permit ready verification.

§ 35.1–99 *Contemplated form of plant statement.* (See § 35.03–9.)

WIRE-TELEGRAPH AND OCEAN-CABLE PLANT

Account No.	Particulars	Wire-telegraph plant					Ocean-cable plant					Total wire-telegraph and ocean-cable plant

PRESCRIBED ACCOUNTS

NOTE: Number to the right of the decimal point is the account number.

Real Estate

§ 35.11 *Land used for right of way.* This account shall include the cost of land used in wire-telegraph and ocean-cable services for the location of poles, towers, wires, cables, conduits, cable huts, cable houses, and similar operated plant where title to the land is vested in the accounting carrier. (See also §§ 35.84 and 35.4150.)

NOTE: When land is acquired in excess of that required for wire-telegraph and ocean-cable services or is acquired without a definite plan for its use in such services, its cost shall be included in account 1610, "Miscellaneous physical property," except that the cost of land acquired for use in telephone or radiotelegraph services shall be included in account 1530, "Telephone and radiotelegraph plant."

ITEMS

(See § 35.03–12)

Assessments for the construction of public improvements.
Clearing or defending title against claims relating to a period prior to the date of purchase.
Commissions and fees to brokers, agents, and others.
Condemnation proceedings, including court costs and special counsel fees.
Conveyancer and notarial fees.
Examination and registration of titles.
Payments to vendors.
Relocating property of others in the acquisition of land.
Taxes assumed on land, applicable to a period prior to the date of acquisition.
Voiding leases to secure possession of land acquired.

§ 35.12 *Land used for building sites.* (a) This account shall include the cost of land occupied by buildings used in wire-telegraph and ocean-cable services where title to the land is vested in the accounting carrier. (See particularly §§ 35.84 and 35.4150; also the note and the list of items in § 35.11.)

(b) When improved land is acquired the cost shall be fairly apportioned among the accounts appropriate for the land, the land improvements, and the buildings. If the plan of acquisition contemplates the removal of any improvements (including buildings), the total cost of the land and the property to be removed shall be accounted for as the cost of the land, and the net salvage value of the property removed shall be deducted from the cost of the land.

§ 35.13 *Land used for other operations.* (a) This account shall include the cost of land used in wire-telegraph and ocean-cable services for material, equipment, and other storage yards and for other purposes (except right-of-way and building sites) where title to the land is vested in the accounting carrier. (See particularly §§ 35.84 and 35.4150; also the note and the list of items in § 35.11.)

(b) When improved land is acquired the cost shall be fairly apportioned among the accounts appropriate for the land, the land improvements, and the buildings. If the plan of acquisition contemplates the removal of any improvements (including buildings), the total cost of the land and the property to be removed shall be accounted for as the cost of the land and the net salvage value of the property removed shall be deducted from the cost of the land.

§ 35.14 *Land improvements.* This account shall include the cost of improvements (except buildings) made or acquired by the carrier on land used in wire-telegraph and ocean-cable services where title to such improvements is vested in the accounting carrier. (See particularly § 35.1–5; also §§ 35.11, 35.12, 35.13, and 35.15.)

ITEMS

(See § 35.03–12)

Fences.
Hedges.
Lawns.
Outdoor sprinkling systems.
Retaining walls. (See also § 35.15.)
Roads.
Shrubs.
Sidewalks.
Swimming pools, outdoor.
Tennis courts.
Trees.
Yard-lighting equipment.

§ 35.15 *Buildings.* (a) This account shall include the cost of buildings used in wire-telegraph and ocean-cable services (except cable huts or cable houses), including all fixtures permanently attached to and made a part of buildings and which cannot be removed therefrom without cutting into the walls, ceilings, or floors, or without in some way impairing the buildings.

(b) Amounts includible in this account shall include the cost of the building foundations and structures, costs incident to the construction or purchase of buildings and to securing possession and title, and the cost of fixtures, machinery, appurtenances, and appliances installed as parts of buildings or used exclusively or predominantly in the operation of the buildings and not specifically includible in other operated plant accounts.

NOTE A: This account shall not include the cost of any equipment, apparatus, or wiring used predominantly for generating or controlling electricity for the operation of the communication system.

NOTE B: The cost of cable huts or cable houses and the equipment contained therein shall be included in account 23, "Aerial cable," account 24, "Underground cable," account 25, "Buried cable," account 26, "Submarine cable," or account 31, "Ocean cable," as appropriate.

ITEMS

(See § 35.03–12)

Awnings.
Boilers, furnaces, fixtures, and machinery for heating, lighting, and ventilating.
Cable vaults and conduits constructed as part of the building.
Commissions and fees to brokers, agents, architects, and others.
Door checks and door stops.
Drainage and sewerage, inside piping and equipment.
Electric wiring.
Elevators.
Fire-extinguisher systems.
Garages, shops, and stables.
General and other office buildings.
Grading, excavating, and preparing grounds for buildings, including the laying out of grounds after construction.
Linoleum and similar floor covering, excluding carpets and rugs.
Motors and generators.
Partitions, excluding movable.
Piers and foundations for machinery constructed as a permanent part of a building.
Platforms, storage or loading.
Power board (where predominantly used for building power).
Refrigeration systems.
Retaining walls (erected in connection with buildings).
Screens, door and window.
Sheds.
Signs: permanent, attached to buildings.
Sprinkling systems.
Storm doors and windows.
Taxes assumed on buildings, applicable to the period prior to the date of acquisition.
Voiding leases to secure possession of buildings acquired.
Water, steam, and gas pipes.
Water-supply systems.
Window shades and ventilators.

Outside Communication Lines

§ 35.21 *Poles.* This account shall include the cost in place of poles and special fixtures, crossarms, and appurtenances used in the construction of supporting structures for aerial plant, used in wire-telegraph and ocean-cable services.

ITEMS

(See § 35.03–12)

Anchors.
A and H fixtures.
Bolts.
Braces.
Bridge fixtures.
Cable arms.
Clearing routes and trimming trees, except maintenance of previous clearings. (See also paragraph (a) (3) of § 35.41–7.)
Crossarms.
Extension arms.
Guard arms.
Guy clamps.
Guy wire or strand.
Masts.
Painting, treating, gaining, roofing, shaving, and stenciling poles.
Permits and privileges for construction. (See particularly paragraph (c) (6) of § 35.1–3; also § 35.82.)
Pins, wood.
Poles.
Pole steps.
River-crossing and long-span fixtures.
Strain insulators.
Towers.

§ 35.22 *Aerial wire.* (a) This account shall include the cost in place of aerial wire, insulators, loading coils, and appurtenances used in the construction of such plant for wire-telegraph and ocean-cable services.

(b) Where connection is made to aerial cable, underground cable, buried cable, submarine cable, or ocean cable, this account shall include the cost of aerial wire to the point where the aerial wire connects to the terminal or to the bridle wires leading into the terminal.

(c) Where connection is made to inside wiring, this account shall include the cost of aerial wire to the point where the aerial wire connects to the office protector or to the inside wire.

(d) This account shall include also the entire cost of underground dips, irrespective of the type of construction, employing less than 350 trench feet of conduit or less than 350 feet (including the vertical runs on the poles) of buried cable.

NOTE A: The cost of terminals (including bridle wires) between aerial wire and cable shall be included in the account appropriate for the cost of the cable.

NOTE B: The cost of office protectors shall be included in the account appropriate for the inside plant with which they are associated.

NOTE C: The cost of underground dips 350 feet or more in length shall be included in the account appropriate for the type of plant employed.

ITEMS

(See § 35.03–12)

Building brackets and rings.
Distributing wire.
Ground wire, clamps, and rods.
Insulators and thimbles.
Loading coils and cases therefor.
Permits and privileges for construction. (See particularly paragraph (c) (6) of § 35.1–3; also § 35.82.)
Pins, steel.
Pole brackets.
Protectors (except office protectors) and arresters.
Repeating coils.
Sleeves.
Tire wires.
Transposition brackets.
Transposition of the circuits in initial construction work and any additions resulting from transposing or retransposing existing circuits.
Wire.

§ 35.23 *Aerial cable.* (a) This account shall include the cost in place of aerial cable (including cable attached to the outside walls of buildings), suspension therefor, cable terminals, pressure contractor-terminals, terminal huts or houses, loading coils, and appurtenances used in the construction of such plant for wire-telegraph and ocean-cable services.

(b) Where connection is made to aerial wire, this account shall include the cost of the aerial cable and the cost of the terminal in place, including bridle wires (if any), to the point where the aerial wires connect to the aerial-wire side of the terminal or to the bridle wires leading from the terminal.

(c) Where connection is made to underground cable, buried cable, submarine cable, house cable, or ocean cable through a terminal, this account shall include the cost of aerial cable to the first pothead splice on the aerial side of the terminal. Where such connection is made directly to the terminal without a stub or a pothead, this account shall include the cost of the aerial cable to the point of connection to the terminal. Where such connection is made directly, by means of a splice, this account shall include the cost of aerial cable to the splice.

(d) Where connection is made to inside equipment in an office, this account shall include the cost of aerial cable to the point of conection to the main frame, or to the switchboard or terminal in an office where no main frame is used.

(e) This account shall include also the entire cost of underground dips, irrespective of the type of construction, employing less than 350 trench feet of conduit or less than 350 feet (including the vertical runs on the poles) of buried cable.

NOTE A: The cost of terminals (including stubs and potheads) and splices between aerial cable and underground cable, buried cable, submarine cable, house cable, or ocean cable shall be included in the account appropriate for the cost of the cable with which the aerial cable connects.

NOTE B: The cost of underground dips 350 feet or more in length shall be included in the account appropriate for the type of plant employed.

ITEMS

(See § 35.03–12)

Bonds and grounds.
Cable; block, feeder, main, subsidiary.
Cable clamps.
Cable huts or houses (including contained equipment).
Cable rings.
Cable terminals or boxes.
Cross-connection wires and fuses installed in the first equipment for service of cable terminals or boxes.
Fuse boxes.
Loading coils, building-out condensers, carrier-line filters, and cases therefor.
Main-frame-terminating cable extending to outside aerial cable.
Negative returns.
Permits and privileges for construction. (See particularly paragraph (c) (6) of § 35.1–3; also § 35.82.)
Pole seats and balconies.
Pressure contactor-terminals.
Protectors (except office protectors) and arresters.
Safety straps.
Sleeves.
Strand, suspension.
Tree guards.
Trolley and other guards.

§ 35.24 *Underground cable.* (a) This account shall include the cost in place of underground cable, installed in conduit that is reusable in place for other underground cable, together with associated cable terminals, pressure contactor-terminals, terminal huts or houses, loading coils, and appurtenances used in the construction of such plant for wire-telegraph and ocean-cable services.

(b) Where connection is made to aerial wire, this account shall include the cost of the underground cable and the cost of the terminal in place, including bridle wires (if any) to the point where the aerial wires connect to the aerial-wire side of the terminal or to the bridle wires leading from the terminal.

(c) Where connection is made to aerial cable or buried cable through a terminal, this account shall include the cost of underground cable, the cost of the terminal (including stubs and potheads) in place, and the cost of the first pothead splice on the aerial-cable or buried-cable side of the terminal; where such connection is made directly, by means of a splice, this account shall include the cost of the splice.

(d) Where connection is made to submarine cable, house cable, or ocean cable through a terminal, this account shall include the cost of underground cable to the first pothead splice on the underground side of the terminal. Where such connection is made directly to the terminal without a stub or a pothead, this account shall include the cost of the underground cable to the point of connection to the terminal. Where such connection is made directly, by means of a splice, this account shall include the cost of underground cable to the splice.

(e) Where connection is made to inside equipment in an office, this account shall include the cost of underground cable to the point of connection to the main frame (or to the switchboard or terminal, in an office where no main frame is used), including the cost of any cross-connecting frame between the main frame and the cable entrance.

(f) This account shall include also the cost of underground cable used in underground dips in connection with aerial wire or aerial cable when the total length of the conduit employed is 350 trench feet or more.

NOTE A: The cost of terminals (including stubs and potheads) and splices between underground cable and submarine cable, ocean cable, or house cable shall be included in the account appropriate for the cost of the cable with which the underground cable connects.

NOTE B: The cost of underground cable used in underground dips employing less than 350 trench feet of conduit shall be included to account 22, "Aerial wire," or account 23, "Aerial cable," as appropriate.

ITEMS

(See § 35.03–12)

Bonds and grounds.
Cable; feeder, main, subsidiary.
Cable huts or houses (including contained equipment).
Cable terminals or boxes.
Cross-connection wires and fuses installed in the first equipment for service of cable terminals or boxes.
Electrolysis surveys made in the course of installing cable.
Fuse boxes.
Loading coils, building-out condensers, carrier-line filters, and cases therefor.
Main-frame-terminating cable extending to outside underground cable.
Negative returns.
Permits and privileges for construction. (See particularly paragraph (c) (6) of § 35.1–3; also § 35.82.)
Pressure contactor-terminals.
Protectors (except office protectors) and arresters.
Sleeves.
Splicing boxes.
Strand, suspension.

§ 35.25 *Buried cable.* (a) This account shall include the cost in place of buried cable, including the protective covering therefor, manholes, splicing boxes, cable terminals, terminal houses or huts, pressure contractor-terminals, loading coils, and appurtenances used in the construction of such plant for wire-telegraph and ocean-cable services.

(b) Where connection is made to aerial wire, this account shall include the cost of the buried cable and the cost of the terminal in place, including bridle wires (if any), to the point where the aerial wires connection to the aerial-wire side of the terminal or to the bridle wires leading from the terminal.

(c) Where connection is made to aerial cable through a terminal, this account shall include the cost of the terminal (including stubs and potheads) in place and the cost of the first pothead splice on the aerial-cable side of the terminal; where such connection is made directly, by means of a splice, this account shall include the cost of the splice.

(d) Where connection is made to underground cable, submarine cable, house cable, or ocean cable through a terminal, this account shall include the cost of buried cable to the first pothead splice on the buried-cable side of the terminal. Where such connection is made directly to the terminal without a stub or a pothead, this account shall include the cost of the buried cable to the point of connection to the terminal. Where such connection is made directly, by means of a splice, this account shall include the cost of buried cable to the splice.

(e) Where connection is made to inside equipment in an office, this account shall include the cost of buried cable to the point of connection to the main frame (or to the switchboard or terminal in an office where no main frame is used), including the cost of any cross-connecting frame between the main frame and the cable entrance.

(f) This account shall include also the cost of buried cable used in underground dips in connection with aerial wire or aerial cable when the total length of the dip (including the vertical runs on the poles) is 350 feet or more.

NOTE A: The cost of terminals (including stubs and potheads) and splices between buried cable and underground cable, submarine sable, house cable, or ocean cable shall be included in the account appropriate for the cost of the cable to which the buried cable connects.

NOTE B: The cost of buried cable used in underground dips employing less than 350 feet of cable (including the vertical runs on the poles, shall be included in account 22, "Aerial wire," or account 23, "Aerial cable," as appropriate.

ITEMS

(See § 35.03–12)

Cable; feeder, main, subsidiary.
Cable huts or houses (including contained equipment).
Cable terminals or boxes.
Cross-connection wires and fuses installed in the first equipment for service of cable terminals or boxes.
Loading coils, building-out condensers, carrier-line filters, and cases therefor.
Main-frame-terminating cable extending to buried cable.
Negative returns.
Pedestals.
Permits and privileges for construction. (See particularly paragraph (c) (6) of § 35.1–3; also § 35.82.)
Pressure contractor-terminals.
Protective covering for buried cable, not reusable in place for other cable, and the cost of manholes and similar items designed specifically for use in such construction.
Protectors (except office protectors) and arresters.
Sleeves.
Splicing boxes.
Trenches—opening and closing in initial buried-cable construction work.

§ 35.26 *Submarine cable.* (a) This account shall include the cost in place of submarine cable (other than transoceanic-type cable), together with associated cable terminals, pressure contac-

tor-terminals, terminal huts or houses, loading coils, and appurtenances used in the construction of such plant for wire-telegraph and ocean-cable services.

(b) Where connection is made to aerial wire, this account shall include the cost of the submarine cable and the cost of the terminal in place, including bridle wires (if any), to the point where the aerial wires connect to the aerial-wire side of the terminal or to the bridle wires leading from the terminal.

(c) Where connection is made to aerial cable, underground cable, or buried cable through a terminal, this account shall include the cost of the terminal (including stubs and potheads) in place and the cost of the first pothead splice on the aerial, underground, or buried-cable side of the terminal. Where such connection is made directly by means of a splice, this account shall include the cost of the splice.

ITEMS

(See § 35.03–12)

Anchoring chains.
Cable; feeder, main.
Cable huts or houses (including contained equipment).
Cable terminals or boxes.
Loading coils, building-out condensers, carrier-line filters, and cases therefor.
Permits and privileges for construction. (See particularly paragraph (c) (6) of § 35.1–3; also § 35.82.)
Pressure contactor-terminals.
Protectors and arresters.
Sleeves.

§ 35.27 *House cable.* (a) This account shall include the cost in place of house cable (i. e., inside cable between the termini of outside cable and the terminals provided as a part of communication-equipment assemblies) together with associated cable terminals, conduit or other protective covering, and appurtenances used in the construction and installation of such plant for the origination and distribution of wire-telegraph and ocean-cable services to customers.

(b) Where connection is made to other outside cable through a terminal, this account shall include the cost of the terminal (including stubs and potheads) in place, and the cost of the first pothead splice on the aerial, underground, or buried-cable side of the terminal. Where such connection is made directly, by means of a splice, this account shall include the cost of the splice.

(c) This account shall include also the cost of the terminals connected to house cables for distribution service to customers.

ITEMS

(See § 35.03–12)

Cable.
Cable stubs.
Cable terminals or boxes.
Conduit or other mechanical protection.
Cross-connection wires and fuses installed in the first equipment for service of cable terminals or boxes.
Fuse boxes.
Permits and privileges for construction. (See particularly paragraph (c) (6) of § 35.1–3; also § 35.82.)
Protectors and arresters.
Sleeves.
Strand, suspension.
Straps and clamps.

§ 35.28 *Underground conduit.* (a) This account shall include the cost in place of tile, pipe, and other conduit, whether underground, in tunnels, or on bridges, and the cost of manholes, handholes, service boxes, and appurtenances used in the construction of such plant for wire-telegraph and ocean-cable services, whether the line of conduit is used for cables, or pneumatic tubes, or for both cables and tubes.

(b) This account shall include also the cost of conduit used in underground dips in connection with aerial wire or aerial cable when the length of the conduit so used is 350 trench feet or more.

NOTE A: The cost of protective covering for buried cable, not reusable in place for other cable, and the cost of trenching, manholes, and similar items provided specifically for use in such construction, shall be included in account 25, "Buried cable."

NOTE B: The cost of protective covering for pneumatic tubes other than conduit, where such covering is not reusable in place for other tubes or for cables, and the cost of trenching, manholes, and similar items provided specifically for use in such construction, shall be included in account 29, "Pneumatic tubes." Wood boxing for tube protection shall not be considered as conduit.

ITEMS

(See § 35.03–12)

Cable guards.
Cable racks.
Conduit.
Manholes, handholes, and service boxes.
Opening trench and repaving.
Permits and privileges for construction. (See particularly paragraph (c) (6) of § 35.1–3; also § 35.82.)
Pumping out and cleaning manholes, handholes, and ducts in initial underground conduit construction work.
Riser pipe.

§ 35.29 *Pneumatic tubes.* (a) This account shall include the cost in place of outside pneumatic tubes, including joints, sleeves, flanges, and other items used in the construction of such plant for wire-telegraph and ocean-cable services, to a point immediately inside the building wall.

(b) This account shall also include the cost of protective covering for pneumatic tubes, other than conduit, where such covering is not reusable in place for other tubes or for cables, and the cost of trenching, manholes, and similar items provided specifically for use in such construction. (See particularly § 35.28.)

NOTE: Wood boxing for tube protection shall not be considered as conduit.

ITEMS

(See § 35.03–12)

Bends.
Drainage bonds.
Expansion joints.
Flange couplings.
Handholes (only when used exclusively for pneumatic tubes in connection with protective covering other than conduit).
Insulating joints.
Manholes (only when used exclusively for pneumatic tubes in connection with protective covering other than conduit).
Opening trench and repaving.
Permits and privileges for construction. (See particularly paragraph (c) (6) of § 35.1–3; also § 35.82.)
Protective covering other than conduit.
Sleeves.
Tubes.

§ 35.31 *Ocean cable.* This account shall include the cost in place of trans-oceanic-type cable, together with associated cable terminals, sea earths, terminal huts or houses and their contained equipment, and appurtenances used in the construction of such plant for ocean-cable service, including the cost of splicing ocean cables to other outside communication plant.

ITEMS

(See § 35.03–12)

Cable.
Cable houses or huts, including equipment therein.
Cable terminals or boxes.
Loading coils, building-out condensers, carrier-line filters, and cases therefor.
Permits and privileges for construction. (See particularly paragraph (c) (6) of § 35.1–3; also § 35.82.)
Pressure contactor-terminals.
Protectors and arresters.
Sea earths.
Sleeves.
Trenching.

Inside Communication Plant

§ 35.41 *Message transmitting and receiving equipment.* (a) This account shall include the cost in place of operating equipment installed in offices of carriers for use in the transmission and reception of message traffic in wire-telegraph and ocean-cable services.

(b) Equipment the cost of which is includible in this account includes Morse equipment, telephone equipment, automatic telegraph equipment, and associated intercommunicating and testing and adjusting equipment; also the items of circuit terminating and repeatering equipment which are installed as integral parts of operating assemblies, and appurtenances used in the construction and installation thereof.

(c) The cost of associated interior wiring, cable, conduit, and power wiring shall be included in this account only to the points of connection with the terminals of the office cable and the power-distribution cable. (See particularly §§ 35.45 and 35.49.)

NOTE: The cost of operating equipment installed on customers' premises shall be included in account 51, "Equipment furnished customers."

ITEMS

(See § 35.03–12)

Booths.
Channel extension units or panels.
Channel repeater units.
Distributors.
Duplex printer sets, including duplex or induction-neutralizing equipment, when inherently part of sets.
Equipment tables, racks, or frames.
Facsimile sets.
Installation of way-circuit selectored equipment.
Instruments and panels in above assemblies.
Morse sets.
Multiplex sets, including duplex or induction-neutralizing equipment, when inherently part of the set.
Number stamps (when part of an assembly).
Operating positions of any type.
Original installations of tools and gages.
Perforators.

Printers.
Reperforator-switching office equipment.
Reperforators.
Syphon recorders.
Telephone stations.
Testing equipment.
Translator units.
Transmitters.
Transmitter distributors.
Work tables.

§ 35.42 *Repeater and terminal equipment.* (a) This account shall include the cost in place of repeater and terminal equipment installed in offices of carriers for use in wire-telegraph and ocean-cable services, including equipment for repeatering and terminating line wire ground return circuits, metallic circuits, and carrier circuits, together with the appurtenances used in the construction and installation of the assemblies.

(b) The cost of associated interior wiring, cable, conduit, and power wiring shall be included in this account only to the points of connection with the terminals of the office cable and the power-distribution cable. (See particularly §§ 35.45 and 35.49.)

ITEMS

(See § 35.03–12)

Amplifiers.
Carrier bays or terminals.
Carrier or telephone repeaters.
Duplex repeaters.
Duplex terminal sets, including induction-neutralizing equipment when inherently part of the set.
Equipment tables, racks, or frames.
Frequency generators.
Instruments and panels in such assemblies.
Magnifiers.
Regenerative repeaters.
Single line repeaters.
Single line terminals.
Testing equipment.
Voice-frequency ringer, sending or receiving.

§ 35.43 *Switchboards and distributing frames.* (a) This account shall include the cost in place of switchboards and distributing frames located in offices of carriers for use in wire-telegraph and ocean-cable services, including main-line and local-loop switchboards, and distributing frames used for terminating lines and local loops and for interconnecting such lines, local loops, and repeater and terminal equipment.

(b) This account shall include also the cost of office switchboards and distributing frames in which the circuit terminals for telegraph-message service are combined with various combinations of terminal equipment for other services such as ticker service, time service, and messenger-call service, including in each case protection equipment, anti-induction equipment, internal wiring, associated testing and adjusting equipment, and the appurtenances used in the construction and installation of such assemblies.

(c) The cost of associated interior wiring, cable, conduit, and power wiring shall be included in this account only to the points of connection with the terminals of office cable, power-distribution cable, or outside communication lines. (See §§ 35.21 to 35.31, inclusive; also §§ 35.15, 35.45, and 35.49.)

ITEMS

(See § 35.03–12)

Channel switchboard panels.
Concentration boards.
Distributing frames or racks.
Induction-neutralizing equipment.
Intermediate switchboard frames.
Line-testing equipment.
Panels or units of relay racks, complete with equipment.
Protector groups.
Sections of switchboard.
Sets or simplex or composite coils, or accessories.
Telephone sets (used on switchboards).
Turrets.

§ 35.44 *Pneumatic-tube and conveyer equipment.* (a) This account shall include the cost in place of interior pneumatic tubes, tube senders, outlets, blowers, compressors, air connections, and associated equipment, and appurtenances used in the construction and installation of such plant in offices of carriers for use in wire-telegraph and ocean-cable services, including such plant from a point immediately inside the building wall. (See also § 35.29.)

(b) This account shall include also the cost in place of belt conveyers, belt-supporting structures, driving motors, and other message-conveyer equipment, together with the appurtenances used in the construction and installation of such plant in offices of carriers.

(c) The cost of associated interior wiring, cable, conduit, and power wiring shall be included in this account only to the points of connection with the terminals of the office cable and the power-distribution cable. (See particularly §§ 35.45 and 35.49.)

ITEMS

(See § 35.03–12)

Belt frameworks.
Belts.
Blowers.
Compressors.
Conveyor systems.
Inside tubing.
Motors.
Rollers.
Sending or receiving terminals.
Timers.
Tube ends—complete with manifolds, sending inlets, receiving terminals, driving equipment, and blowers or compressors.
Tube pairs—complete with manifolds, reversing valves, sending inlets, and receiving terminals.

§ 35.45 *Power equipment.* (a) This account shall include the cost in place of power generating, converting, storage, and distribution equipment in or adjacent to the carrier's offices, serving as, or associated with, the prime source of power and used exclusively or predominately in the operation of the communication system in wire-telegraph and ocean-cable services.

(b) Equipment the cost of which is includible in this account includes assemblies of power equipment such as storage batteries, motor-generator and engine-generator sets, rectifiers, distribution boards, zone cabinets, transformers, interior power wiring, cable, and conduit, and appurtenances used in the construction and installation of the assemblies.

NOTE A: The cost of inexpensive items of power equipment such as small motor generators, rectifiers, and batteries included as integral parts of assemblies of communication equipment shall be included in the operated plant account appropriate for the cost of the assemblies of which such inexpensive items form a part.

NOTE B: The cost of the initial installation of dry-cell batteries shall be included in the accounts appropriate for the operated plant with which they are associated, and the cost of replacement shall be included in the account appropriate for the maintenance of such plant.

NOTE C: The cost of power equipment installed and used exclusively or predominantly for building service, such as for lighting and for elevator operation shall be included in account 15, "Buildings."

ITEMS

(See § 35.03–12)

Battery racks or cabinets.
Chargers.
Circuit breakers.
Compensators.
Engine-generator sets.
Engines.
Feeders or entrance wiring.
Fuse panels.
Generators.
Interior wiring, cable, and conduit.
Meters.
Motors.
Motor-generator sets.
Power factor correction equipment.
Power plants.
Power zone cabinets.
Rectifiers.
Starters.
Storage batteries.
Switchboards.
Transformers.

§ 35.46 *Messenger call-circuit equipment.* (a) This account shall include the cost in place of call-circuit cabinets, switchboards, annunciators, registers, call boxes, associated testing and adjusting equipment, and appurtenances used in the construction and installation of assemblies of messenger call-circuit equipment located in offices of carriers for use in wire-telegraph and ocean-cable services.

(b) The cost of associated interior wiring, cable, conduit, and power wiring shall be included in this account only to the points of connection with the terminals of the office cable and the power-distribution cable. (See particularly §§ 35.45 and 35.49.)

NOTE: The cost of switchboards composed of combination panels for time and messenger call-circuits shall be included in account 47, "Time-service equipment."

ITEMS

(See § 35.03–12)

Annunciator units.
Buzzer systems.
Call boxes, with or without associated wiring and accessories.
Call-circuit cabinets.
Line or test units.
Registers.
Sections of call-circuit switchboards.

§ 35.47 *Time-service equipment.* (a) This account shall include the cost in place of master clocks, control clocks, synchronizing-circuit equipment, time-service control cabinets and switchboards, time repeaters, switchboards

composed of combination panels for time and messenger call-circuits, and other central office time-service equipment, together with associated testing and adjusting equipment, and appurtenances used in the construction and installation of the assemblies, located in offices of carriers for use in furnishing synchronizing and other signals on circuits to carriers' and customers' clocks, and to furnish other similar services.

(b) The cost of associated interior wiring, cable, conduit, and power wiring shall be included in this account only to the points of connection with the terminals of the office cable and the power-distribution cable. (See particularly §§ 35.45 and 35.49.)

NOTE A: Time stamps and office clocks (other than master and control clocks) installed in offices of carriers shall be included in account 61, "Furniture and office appliances."

NOTE B: The cost of clocks installed on customers' premises shall be included in account 51, "Equipment furnished customers."

ITEMS

(See § 35.03–12)

Cabinets.
Control clocks.
Control panels.
Control relays and resistance units.
Master clocks.
Master or secondary relays.
Resistance panels.
Sections of switchboard.
Time repeaters.

§ 35.48 *Ticker and commercial news service equipment.* (a) This account shall include the cost in place of equipment installed in offices of carriers for use exclusively in the dissemination of commercial news services to carriers' and customers' offices.

(b) Equipment the cost of which is includible in this account includes assemblies of transmitting, receiving, repeatering, and terminal equipment for operation of ticker and other circuits, associated testing and adjusting equipment, and appurtenances used in the construction and installation thereof.

(c) The cost of associated interior wiring, cable, conduit, and power wiring shall be included in this account only to the points of connection with the terminals of the office cable and the power-distribution cable. (See particularly §§ 35.45 and 35.49.)

NOTE: The cost of tickers and other commercial news service equipment installed on customers' premises shall be included in account 51, "Equipment furnished customers."

ITEMS

(See § 35.03–12)

Auxiliary switchboards.
CND repeaters.
Sound-proof covers.
Stands.
Tables of equipment, such as perforators and transmitter distributors, relays, repeater relays, and tickers.
Tickers.
Transmitters.

§ 35.49 *Office cable and conduit.* This account shall include the cost in place of cable, conduit, cable racks and hangers, terminal cabinets, and associated appurtenances used in the construction and installation of the signal wiring in carriers' offices (1) from the distributing frame or other point of connection with outside wire or cable to the terminals provided for making connections with the wiring of assemblies of communication equipment and (2) between assemblies of communication equipment.

NOTE: The cost of power cabling and associated appurtenances used for power distribution shall be included in account 45, "Power equipment," or account 15, "Buildings," as appropriate.

NOTE: The cost of house cable leading to equipment in branch offices in office buildings shall be included in account 27 "House cable."

ITEMS

(See § 35.03–12)

Cable.
Cable racks.
Conduit.
Hangers.
Terminal cabinets.
Wire.

§ 35.51 *Equipment furnished customers.* (a) This account shall include the cost in place of message transmitting and receiving, ticker, stock and commercial news, time-service, pneumatic-tube, messenger call-circuit, telephone, and other inside communication equipment located in offices of customers, together with the appurtenances used in the construction and installation thereof.

(b) The cost of associated interior wiring, cable, conduit, and power wiring shall be included in this account only to the points of connection with the terminals of the house cable, or other outside plant if no house cable is used, and the power-distribution outlets.

(c) Separate subaccounts shall be maintained to show the respective costs of each of the several classes of equipment furnished customers. These classes shall correspond to those represented in §§ 35.41 to 35.48, inclusive, and § 35.59, respectively, or correspond to the classes most nearly comparable therewith that are furnished customers under the carrier's operating practices.

ITEMS

(See § 35.03–12)

Buzzer systems.
Call boxes.
Facsimile sets.
Morse sets.
Motor-generator sets.
Pneumatic-tube terminals.
Printer sets.
Rectifiers.
Switchboards.
Telephone sets.
Tickers.
Time-service equipment.

§ 35.59 *Other inside communication plant.* (a) This account shall include the cost in place of inside communication equipment installed in offices of carriers for use in wire-telegraph and ocean-cable services and not includible in other operated plant accounts.

(b) The cost of associated interior wiring, cable, conduit, and power wiring shall be included in this account only to the points of connection with terminals of the office cable and the power-distribution cable. (See particularly §§ 35.45 and 35.49.)

Office and Messenger Equipment

§ 35.61 *Furniture and office appliances.* This account shall include the cost in place of furniture and office appliances located in operating offices, general offices, storerooms, shops, laboratories, and similar premises of the carrier, for use in wire-telegraph and ocean-cable services.

NOTE A: The cost of furniture and office equipment located on, and constituting a part of, vehicles, floating equipment, or railway equipment shall be included in account 71, "Vehicles," account 75, "Floating equipment," or account 76, "Railway equipment," as appropriate.

NOTE B: The cost of furniture and office equipment constituting component parts of assemblies of operating equipment shall be included in the account appropriate for the cost of the equipment with which it is associated.

NOTE C: The cost of fixtures permanently attached to and made a part of buildings shall be included in account 15, "Buildings."

ITEMS

(See § 35.03–12)

Accounting machines.
Adding and listing machines.
Addressing machines and equipment.
Air-conditioning units (not part of a building).
Beds, cots, or couches.
Benches, messenger.
Bicycle racks.
Bookcases.
Card-punching, card-sorting, or card-tabulating machines.
Carpets, rugs, or other floor coverings.
Cash registers.
Chairs.
Clocks.
Computing machines.
Counters.
Date stamps.
Davenports.
Desks.
Dictionaries or code books.
Dictographs or other interoffice communication equipment.
Dishes.
Drafting-room equipment.
Duplicating machines.
Electric fans.
Filing cabinets.
Floor-scrubbing and polishing machines.
Lockers (single or multiple).
Messenger dressing booths.
Multigraphs.
Partitions, movable.
Pianos.
Refrigerators.
Safes.
Signs (illuminated or non-illuminated).
Sorting racks.
Stationery cabinets.
Steel shelves.
Storage cabinets, shelves, or racks (except those in shops or storerooms).
Tables.
Time stamps.
Typewriters.
Uniform repairing and cleaning equipment.
Water coolers.

§ 35.65 *Messenger uniforms.* (a) This account shall include the cost (if in excess of $1,000) of messenger uniforms owned by the carrier as at the effective date of this system of accounts.

(b) If at any time a change in operation involves a substantial increase in the number of uniforms required for service, this account shall be charged with amounts representing the cost, at weighted average prices, of such additional uniforms.

(c) If at any time a change in operation involves a substantial decrease in the number of uniforms required for service, this account shall be credited with amounts representing the cost, at weighted average prices, of the uniforms retired and the amount of such retirements shall be equitably apportioned between account 4231, "Messenger-uniform expense," and the subdivision of account 1515, "Allowance for depreciation; wire-telegraph and ocean-cable plant," in which the estimated accrued depreciation on uniforms in service at the effective date of this system of accounts was recorded.

NOTE A: Except as provided in paragraph (b) of this section, the cost of uniforms purchased subsequent to the effective date of this system of accounts shall be included in account 4231, "Messenger-uniform expense."

NOTE B: The allowance for depreciation applicable to the messenger uniforms the cost of which is includible in this account as at the effective date of this system of accounts, shall be segregated in a separate subaccount of account 1515, and shall be held (except as provided in paragraph (c) of this section) as a permanent offset against the amounts in this account.

ITEMS

(See § 35.03–12)

Belts.
Blouses.
Breeches.
Caps and hats.
Coats.
Neckties.
Overcoats.
Puttees.
Raincoats and raincapes.
Shirts.
Skirts.
Trousers.

§ 35.69 *Other office and messenger equipment.* This account shall include the cost in place of office and messenger equipment used in wire-telegraph and ocean-cable services and not includible in other accounts.

Work Equipment

§ 35.71 *Vehicles.* This account shall include the cost of transportation equipment not includible in other operated plant accounts, together with work equipment, tools, and appurtenances constituting parts of, or permanently attached to, such equipment, used in wire-telegraph and ocean-cable services.

NOTE: The cost of material, supplies, tools, implements, and work equipment not specifically associated with or used in the operation of vehicles but merely transported thereon to the point of use shall be included in the appropriate material, plant, maintenance, clearing, or other account. Equipment for communication service, even if permanently attached to vehicles, shall be included in the account appropriate for such communication equipment.

ITEMS

(See § 35.03–12)

Automobiles.
Cable-splicers' carts.
Camp wagons.
Draft and pack animals.
Hand trucks and carts.
Harness.
Mobile telegraph offices.
Motorcycles.
Saddles.
Trailers.
Trucks and tractors (including attached work equipment, such as earth-boring machines, pumps, winches, and similar items).
Wagons.

§ 35.72 *Shop equipment.* (a) This account shall include the cost in place of equipment located in general repair shops, pole-treating plants, car shops, garages, and similar shops used for constructing, assembling, and repairing plant used in wire-telegraph and ocean-cable services.

(b) Equipment the cost of which is includible in this account includes electric generators, motors, and other power equipment, together with foundations, settings, belting, drives, and other appurtenances constituting parts of shop-equipment assemblies; also the tools and other implements especially provided for and used in conjunction with such equipment, and the items of furniture ordinarily constituting parts of such assemblies.

NOTE A: The cost of shop equipment located on floating equipment, railway equipment, or vehicles shall be included in the account appropriate for the cost of the equipment on which it is located.

NOTE B: The cost of foundations and of fixtures which cannot be removed from buildings without cutting into the walls, ceilings, or floors, or without in some way impairing the buildings, shall be included in account 15, "Buildings."

ITEMS

(See § 35.03–12)

Air compressors.
Blowers.
Boring mills.
Compressed-air tools.
Cranes.
Derricks.
Engines.
Forges.
Gasoline pumps and tanks.
Generators, electric and gas.
Hand trucks.
Lathes.
Milling machines.
Motors.
Oil pumps and tanks.
Planers.
Pole-treating equipment.
Power drills.
Power hammers.
Power loaders.
Presses.
Pumps.
Racks or shelving, movable.
Storage cabinets.
Tools and implements provided for shops.
Winches.
Work benches.

§ 35.73 *Store and warehouse equipment.* This account shall include the cost of equipment and appurtenances located in storerooms, warehouses, and material yards for the receiving, storing, handling, packing, and loading for shipment of materials and supplies, used in wire-telegraph and ocean-cable services.

NOTE A: The cost of store and warehouse equipment located on floating equipment, railway equipment, or vehicles shall be included in the account appropriate for the cost of the equipment on which it is located.

NOTE B: The cost of fixtures or shelving permanently attached to and constituting a part of buildings shall be included in account 15, "Buildings."

ITEMS

(See § 35.03–12)

Barrows.
Bins, portable.
Cabinets, movable.
Conveyors.
Counters, movable.
Cranes.
Gasoline pumps.
Gasoline tanks.
Hand trucks and carts.
Hoists.
Ladders.
Oil pumps.
Oil tanks.
Scales.
Shelving, movable.
Skids.
Tools provided for warehouses.
Trucks.
Wire-measuring machines.

§ 35.74 *Tools and implements.* This account shall include the cost of general tools, implements, and appurtenances used in the construction and maintenance of plant for use in wire-telegraph and ocean-cable services and not specifically includible in other operated plant accounts.

NOTE A: The cost of tools carried as supplies unissued shall be included in account 1795, "Material and supplies."

NOTE B: The cost of hand and other portable tools that have relatively small value or short-life shall be accounted for as provided in paragraph (d) of § 35.1–1.

NOTE C: Tools and implements used primarily in conjunction with inside communication equipment, floating equipment, railway equipment, vehicles, shops, stores and warehouses, or laboratories shall be included in the account appropriate for the cost of the equipment with which they are associated.

ITEMS

(See § 35.03–12)

Air compressors, mobile.
Back-filling machines.
Blowers, power.
Compressed-air tools.
Concrete mixers and breakers.
Cranes, mobile.
Derricks, mobile.
Drills and hammers, power.
Earth-boring machines (not permanently attached to vehicles).
Forges, portable.
Hand tools.
Hand trucks, carts, and barrows.
Loaders, power.
Testing equipment, portable.
Torches.
Trenching machines.

§ 35.75 *Floating equipment.* (a) This account shall include the cost of ships, launches, barges, and other vessels used for the transportation of employees, materials, and supplies, and for the construction and maintenance of plant, used in wire-telegraph and ocean-cable services.

(b) Equipment the cost of which is includible in this account includes the furnishings, tools, implements, and other appurtenances constituting a part of, specifically associated with, or used in the operation of, such floating equipment.

NOTE: The cost of material, supplies, tools, implements, and work equipment not specifically associated with or used in the operation of floating equipment but merely transported thereon to the point of use shall be included in the appropriate material,

plant, maintenance, clearing, or other account. Equipment for communication service, even if permanently attached to floating equipment, shall be included in the account appropriate for such communication equipment.

ITEMS

(See § 35.03–12)

Barges.
Boats.
Boilers.
Cranes.
Engines.
Furniture.
Hoists.
Launches.
Office equipment.
Radio equipment.
Rigging.
Ships.
Shop equipment.
Store and warehouse equipment.
Testing and adjusting equipment.
Tools and implements.
Winches.

§ 35.76 *Railway equipment.* (a) This account shall include the cost of officers' cars, camp cars, hand cars, motor cars, pole cars, push cars, velocipedes, and other railway equipment used for the transportation of employees, materials, and supplies, and for the construction and maintenance of plant, used in wire-telegraph and ocean-cable services.

(b) Equipment the cost of which is includible in this account includes assemblies complete with all component parts, including furniture and other furnishings, office appliances, tools, implements, and other work equipment, and appurtenances attached to, permanently associated with, or especially provided for use in conjunction with, railway equipment.

NOTE: The cost of material, supplies, tools, implements, and work equipment not specifically associated with or used in the operation of railway equipment but merely transported thereon to the point of use shall be included in the appropriate material, plant, maintenance, clearing, or other account. Equipment for communication service, even if permanently attached to railway equipment, shall be included in the account appropriate for such communication equipment.

Items

(See § 35.03–12)

Cars.
Car bodies or tanks.
Car underframes.
Cranes.
Derricks.
Furniture.
Hand cars.
Push cars.
Railway cars.
Shop equipment.
Store and warehouse equipment.
Testing equipment.
Tools necessary for the maintenance and operation of the railway equipment.
Velocipedes.

§ 35.77 *Emergency facilities.* (a) This account shall include the cost of emergency cable, portable transmission equipment, portable engine-generator sets, and other portable equipment used for furnishing temporary or emergency wire-telegraph and ocean-cable services while plant is under construction or repair or is out of service awaiting replacement or repair. The cost of such equipment shall be charged to this account when first provided for emergency service and shall be credited hereto when the equipment is ultimately retired or is permanently placed in regular communication service.

(b) Statistical records supporting the entries in this account shall be so maintained as to show for each emergency facility (1) the cost, (2) the type and quantity of plant, and (3) the duration of each period of use between the date of original entry in this account and the date of retirement by way of withdrawal from emergency service.

NOTE: When emergency facilities are permanently placed in regular service the cost of such plant shall be credited to this account and charged to the account appropriate for the cost of other plant involving similar use.

ITEMS

(See § 35.03–12)

Cable, emergency.
Engine generator sets, portable.
Transmission equipment, portable.

§ 35.78 *Laboratory equipment.* (a) This account shall include the cost in place of laboratory and other equipment used for research, development, testing, and other general laboratory purposes for wire-telegraph and ocean-cable services.

(b) Equipment the cost of which is includible in this account comprises assemblies of power equipment and other inside communication equipment complete with driving mechanisms, shop and storeroom equipment, tools, implements, and portable testing equipment regularly assigned to laboratory use.

ITEMS

(See § 35.03–12)

Amplifiers.
Balances and scales.
Barometers.
Blowers.
Bridges, electrical measuring.
Cabinets, laboratory.
Cable, artificial.
Condensers.
Dynamometers.
Filters, electric.
Furnaces, electric.
Gages.
Galvanometers.
Glassware—beakers, burettes, etc.
Grinders and polishers.
Hoods, laboratory.
Indicators, frequency.
Inductances.
Insulation testing sets.
Machine tools.
Magnifiers, selenium.
Meters, electric—various.
Microscopes.
Networks.
Oscillators.
Oscillographs (including cathode rays).
Photographic equipment.
Piping (including conduit).
Potential unit assemblies.
Potentiometers. (Checking and calibrating sets.)
Power equipment.
Rheostats.
Stills.
Tables, laboratory.
Testing equipment.
Testing machines.
Thermocouples.
Tools.
Vibrators.

Intangibles

§ 35.81 *Organization.* This account shall include the cost of organizing and incorporating the accounting carrier until it is ready to function as a going concern; also similar elements of cost in connection with the extension of the term of incorporation when the initial organization costs have been written off.

NOTE A: Discounts upon securities issued or assumed, debt expense, and stock expense shall be excluded from this account and account for as provided in §§ 35.10–13 and 35.10–14.

NOTE B: This account shall not include the cost of preparing and filing papers in connection with the extension of the term of incorporation unless the first organization costs have been written off.

NOTE C: This account shall not include any organization costs of companies retiring as a result of mergers, consolidations, or reorganizations.

ITEMS

(See § 35.03–12)

Cost of obtaining certificates authorizing the carrier to engage in the public communication business.
Fees and expenses of incorporation.
Fees and expenses of mergers or consolidations.
Office and other expenses incident to organizing the carrier.

§ 35.82 *Franchises.* (a) This account shall include the cost of franchises, consents, and certificates running in perpetuity or for a specified term of more than 1 year, issued to the carrier by governmental agencies, States, or other political entities as authorization for conducting a communications business.

(b) Among the items that are includible in this account are the cost of franchises acquired by assignment, the cost of cable-landing rights, and the cost of plant, material, supplies, and equipment given as the initial consideration for franchises.

NOTE A: Amortization of amounts included in this account shall be accounted for as provided in § 35.1520.

NOTE B: The cost of franchises running for 1 year or less after acquisition shall be included in account 4341, "Franchise requirements," or, if such franchises extend beyond the current calendar year, the proper proportion of their respective costs shall be included in account 1899, "Other prepayments."

NOTE C: Franchises acquired at small cost may be included in account 4341, irrespective of their term of life.

NOTE D: Franchise taxes payable annually or more frequently shall be included in account 4932, "Other taxes: Operating."

ITEMS

(See § 35.03–12)

Amounts, other than those includible in account 81, "Organization," paid to a national government, a State, or any political entity as a condition precedent to engaging in communication business.
Cost of franchises acquired by assignment.
Cost of plant, material, supplies, and equipment given as the initial consideration for franchises.
Election costs assumed by the carrier for government consent.

§ 35.83 *Patent rights.* (a) This account shall include the cost of patent rights, having a life of more than 1 year from the date of acquisition, acquired for use in connection with the carrier's wire-telegraph and ocean-cable operations.

(b) Among the items that are includible in this account are the costs incident to defending title, fees of patent attorneys, filing and registration fees, research and development expenses directly assignable, and other expenses for legal and other services incident to the acquiring of patent rights or to the registration of a patent.

NOTE A: Amortization of amounts included in this account shall be accounted for as provided in § 35.1520.

NOTE B: The cost of developing items that are intended to be patented or of improving items that have been patented shall be initially included in account 9011, "Research and development clearing account," or other appropriate account. (See particularly § 35.03–10.)

NOTE C: The cost of patent rights having an estimated service life of 1 year or less or such rights acquired at a relatively small cost shall be included in account 4399, "Other general expenses."

§ 35.84 *Leaseholds.* (a) This account shall include the cost of leaseholds, easements, and similar rights, having a life term of more than 1 year from the date of acquisition, in land and other property acquired for use in wire-telegraph and ocean-cable services.

(b) Costs includible in this account include conveyancer and notary fees, costs of relocating property of others, special counsel and other fees, taxes assumed on leased property applicable to a period prior to the date of the lease, and other costs incurred in connection with the acquisition of leaseholds.

NOTE A: Amortization of amounts included in this account shall be accounted for as provided in § 35.1520.

NOTE B: The cost of permits for the construction of operated plant when the expected period of occupancy under such permits does not exceed the estimated life of the initial plant installed, shall be included in the account appropriate for the cost of the plant constructed.

NOTE C: Annual or more frequent payments of rent shall be included in account 5205, "Rent for lease of operated plant," account 4261, "Rents for operating offices," account 4269, "Rents for other facilities," or account 4499, "Other administrative expenses," as appropriate.

§ 35.85 *Research and development.* (a) This account shall include the cost of research and development work performed in connection with the construction and operation of plant, and in connection with the systems and methods used and available for use by the carrier in wire-telegraph and ocean-cable services where the cost of such work is not directly assignable to definite operated plant or assemblies of equipment, is not includible in other operated plant accounts, and is not includible in current operating-expense or other accounts.

(b) Amounts includible in this account comprise the pay and expenses of engineers engaged in research and development, the cost of models, the allocable portion of expenses for supervision, clerical forces, materials, supplies, rents, and other expenses incurred in maintaining general laboratories, and amounts cleared from account 9011, "Research and development clearing account," that are includible under the provisions of paragraph (a) of this section.

(c) Allowances for amortization of amounts includible in this account shall be established in conformity with the provisions of § 35.1520, in amounts sufficient to extinguish any item includible in this account not later than 20 years following the calendar year in which that item was first introduced into this account.

(d) The amount of the appropriate amortization charges for any year may be equally distributed over the 12 months of that year as charges to account 4915, "Amortization; intangible operated plant," and credits to account 1520, "Allowance for amortization; wire-telegraph and ocean-cable plant."

(e) As at the end of the calendar year in which the final credits to account 1520 have been made with respect to any item included herein, account 1520 shall be charged and this account shall be credited with the amount of the item (e. g., an amortization period of 15 years with respect to an amount charged to this account during 1941 would require retiring such amount by charging it to account 1520 at the end of the year 1956, at which time the accumulated amortization credits in that account applicable to the item should be equal to the amount of the item).

NOTE A: The cost of preliminary surveys, plans, and investigations shall be accounted for as provided in § 35.03–10.

NOTE B: The cost of research and development work performed in connection with specific construction projects shall be included in account 1300, "Plant under construction," as provided in paragraph (c) (12) of § 35.1–3.

NOTE C: Amounts included in account 9011, "Research and development clearing account," representing incomplete projects shall be retained therein pending completion, and amounts therein relating to projects abandoned or found unsuccessful shall be charged to account 6120, "Extraordinary current income charges," unless otherwise authorized or directed by the Commission.

NOTE D: That part of the balance in this account which pertains to research and development work performed in connection with systems and methods available for use, but not used, by the carrier, shall be classified in balance-sheet account 1400, "Plant held for future communication use." (See particularly columns 6 and 11 of the form of plant statement shown in § 35.1–99.)

§ 35.89 *Other intangibles.* (a) This account shall include the cost of intangibles associated with wire-telegraph and ocean-cable operations that are not provided for elsewhere.

(b) The records supporting the entries in this account shall be so maintained that in the reports to the Commission complete information can be furnished with respect to each of the several amounts included herein.

Other Plant Accounts

§ 35.91 *Plant acquired; undistributed charges.* (a) This account shall be charged temporarily with the acquisition cost of plant acquired by the carrier, under any of the circumstances provided for in § 35.1–2, pending distribution thereof to the appropriate accounts.

(b) Within 90 days from the date of entry herein recording an acquisition, the carrier shall submit to the Commission a statement indicating the approximate date that clearance is contemplated.

§ 35.92 *Plant sold; undistributed credits.* This account shall be credited temporarily with the selling price of plant, pending distribution thereof to the appropriate accounts. (See particularly paragraph (j) of § 35.1–6.)

INCOME AND EARNED-SURPLUS ACCOUNTS

INSTRUCTIONS

§ 35.30–1 *Purpose of income accounts.* The income accounts are designed to show for each month and each calendar year the amounts of (1) ordinary income, comprising operating revenues, operating-revenue deductions (including operating expenses), other communication income, income from noncommunication sources and deductions from such income, (2) extraordinary income charges and credits, comprising extraordinary gains, losses, and adjustments affecting current income resulting from factors other than operations and substantial adjustments applicable to but not recognized in prior years, and (3) deductions from net income, such as income taxes.

§ 35.30–2 *Income from debt-redemption and other funds.* (a) Interest, dividends, and other income derived from funds classified in accounts 1630 to 1659, inclusive, shall be credited to account 5135, "Income from debt-redemption and other funds."

(b) When the income is required by contractual or other provisions to be held in the fund from which the income arises, an amount equal to the income shall be included in the fund to which it is applicable.

(c) When income derived from these funds is required to be retained in the fund and the fund is represented by a reserve, amounts equal to such income shall be charged to account 8310, "Contractual appropriations of earned surplus," or account 8320, "Miscellaneous appropriations of earned surplus," as appropriate, and credited to the appropriate reserve accounts. (See also §§ 35.2610 and 35.2620.)

§ 35.30–3 *Rents includible in income accounts.* (a) Rentals which the carrier receives from others for operated plant the cost of which is includible in account 1100, "Operated plant leased to others," shall be credited to account 5010, "Income from operated plant leased to others."

NOTE: Rentals from operated plant the cost of which is includible in accounts 1000, "Operated plant in carrier's service," and 1200, "Improvements and replacements of operated plant leased from others," shall be credited to the appropriate nontransmission-revenue account. (See §§ 35.3410 to 35.3590, inclusive.)

(b) Taxes, depreciation, amortization, uncollectible rentals, and maintenance and other expenses applicable to plant the income from which is includible in account 5010, "Income from operated plant leased to others," shall be charged to that account by the lessor.

(c) Rents paid by the carrier for the exclusive use of substantially complete

operating systems or operating units shall be charged to account 5205, "Rent for lease of operated plant." When taxes, depreciation, amortization, or operating expenses applicable to the leased plant are initially accounted for by the lessor, such amounts shall be charged to the appropriate tax, depreciation, amortization, or operating-expense account by the lessee and credited to account 5205. The lessor shall inform the lessee of the appropriate distribution of such charges.

(d) Taxes, depreciation, amortization, and maintenance and other expenses applicable to leased plant initially accounted for by the lessee shall be charged by the lessee to the appropriate tax, depreciation, amortization, maintenance, or other account.

§ 35.30–4 *Disposition of balances in income accounts.* The net balance of the income accounts (after the deductions provided for in accounts 7000 to 7099, inclusive) shall be transferred to account 8110, "Balance transferred from income accounts," at the end of each calendar year.

§ 35.30–5 *Purpose of earned-surplus accounts.* The earned-surplus accounts are designed to show the changes relating to earned surplus, during each calendar year, resulting from (1) the net amount of profit or loss during the period as reflected in the income accounts, (2) accounting adjustments (usually confined to changes in the stated capital of the corporation or to transactions in its own capital stock) not attributable to income under the provisions of this system of accounts, (3) appropriations of earned surplus for specific purposes, and (4) appropriations for dividends.

§ 35.30–6 *Disposition of balances in earned-surplus accounts.* The net balance of the earned-surplus accounts shall be transferred to account 2699, "Unappropriated earned surplus," at the end of each calendar year.

§ 35.30–99 *Contemplated form of income and earned-surplus statement.* (See § 35.03–9.)

INCOME ACCOUNTS

NOTE: Number to the right of the decimal point is the account number.

Ordinary Income; Communication

NOTE: See particularly § 35.03–8.

§ 35.3000 *Operating revenues.* This account shall include the total operating revenues shown in the operating-revenue accounts, derived by the carrier during the accounting period from the furnishing of communication service and services incidental thereto.

§ 35.3710 *Foreign exchange; revenue differential.* (a) This account shall include amounts representing the revenue differential determined in accordance with the provisions of paragraph (a) of § 35.03–16.

(b) The carrier's records shall be so maintained that in reports to the Commission there may be shown, at least on basis of statistical determination, the portions of the amounts in this account applicable to the revenue derived respectively from (1) foreign communication under domestic-service classification (separately with respect to each of the amounts required to be shown under the provisions of § 35.31–5), (2) other foreign-message revenue (separately with respect to each of the amounts required to be shown under the provisions of § 35.31–6), and (3) other revenue (separately with respect to the amounts applicable to each such other revenue account).

Operating-Revenue Deductions

§ 35.4000 *Operating expenses.* This account shall include the total operating expenses, shown in the operating-expense accounts, incurred by the carrier during the accounting period for the maintenance of its wire-telegraph and ocean-cable plant, and for the conducting-operations, general, and administrative expenses incurred in furnishing wire-telegraph and ocean-cable services and services incidental thereto.

§ 35.4910 *Depreciation.* (a) This account shall include the amount of depreciation charges applicable to the accounting period for all classes of operated plant owned by the carrier except such depreciation as is chargeable to clearing accounts, to account 1300, "Plant under construction," and to account 5010, "Income from operated plant leased to others." It shall include also the amount of depreciation charges applicable to the accounting period for all classes of operated plant used but not owned by the carrier, as provided in § 35.30–3. (See also §§ 35.04–1 to 35.04–3, inclusive, and § 35.1–5.)

(b) This account shall be subdivided as follows:

4910:01 Depreciation—Operated plant owned and used.
4910:02 Depreciation—Operated plant leased from others.

(c) The records supporting the entries in this account shall be so maintained as to show separately the amounts applicable to (1) wire-telegraph service and (2) ocean-cable service.

§ 35.4915 *Amortization; intangible operated plant.* (a) This account shall be charged with the amounts of amortization charges applicable to the accounting period for intangibles (having a terminable life) the cost of which is includible in accounts 82, "Franchises," 83, "Patent rights," 84, "Leaseholds," 85, "Research and development," and 89, "Other intangibles," except such amortization charges as are includible in account 5010, "Income from operated plant leased to others." It shall include also the amounts of amortization charges applicable to the accounting period for such intangibles used but not owned by the carrier. (See § 35.30–3.)

(b) The charges to this account shall be such that the cost of each intangible will be amortized, as evenly as may be, over the period of its benefit to the carrier.

(c) This account shall be subdivided as follows:

4915:01 Amortization; intangibles owned and used.
4915:02 Amortization; intangibles leased from others.

§ 35.4920 *Amortization of plant-acquisition adjustments.* (a) This account shall be charged or credited, as the case may be, with such amounts as the Commission may authorize or direct to be included in operating-revenue deductions under a plan to amortize amounts in account 1510, "Plant-acquisition adjustments."

(b) Amounts recorded in this account shall be credited or charged, as the case may be, to account 1520, "Allowance for amortization; wire-telegraph and ocean-cable plant."

§ 35.4925 *Extraordinary plant losses.* (a) This account shall be charged with amounts representing the unprovided-for loss in service value of plant retired for causes not contemplated in prior allowances for depreciation approved for inclusion herein as provided in § 35.04–4.

(b) The records supporting the entries in this account shall be so maintained as to show separately the amounts applicable to (1) wire-telegraph plant and (2) ocean-cable plant.

§ 35.4931 *Social security taxes; operating.* This account shall be charged (and amount 2175, "Tax accruals," credited) with the amounts for which the carrier becomes liable on its own behalf for taxes, imposed under the Social Security Act and similar State and foreign statutes, that are properly chargeable to wire-telegraph and ocean-cable operations for the accounting period.

NOTE A: The amounts of social security taxes not applicable to wire-telegraph and ocean-cable operations shall be equitably apportioned among the operated plant accounts and account 5250, "Miscellaneous taxes."

NOTE B: Amounts payable on behalf of employees for social security taxes shall be included in account 2111, "Liability for tax collections."

§ 35.4932 *Other taxes; operating.* (a) This account shall include the amounts of national, State, county, municipal, and other taxes, other than taxes on net income and taxes imposed under the Social Security Act and similar State and foreign statutes, that are properly chargeable to wire-telegraph and ocean-cable operations; including franchise taxes payable annually or more frequently. (See also §§ 35.4931 and 35.7010.)

(b) This account shall be charged and account 2175, "Tax accruals," shall be credited each month with the amount of taxes that are applicable to the month. When it is not possible to determine the exact amount of taxes for the month, the amount shall be estimated and adjustments shall be made as the actual tax levies become known.

(c) When it is necessary to apportion taxes to wire-telegraph and ocean-cable operations, full details as to the methods of, and facts considered in, the apportionment shall be recorded.

(d) Taxes on plant leased from others, the rent for which is includible in account 5205, "Rent for lease of operated plant," shall be charged to this account by the lessee.

(e) The records supporting the entries in this account shall be so maintained as to show the amount of each kind of tax paid to each taxing authority and the basis upon which each charge is made.

NOTE A: Taxes assumed by the carrier on interest shall be charged to account 5240, "Taxes assumed on interest."

NOTE B: Taxes on nonoperating property the income from which is includible in account 5110, "Income from miscellaneous physical property," shall be charged to account 5250, "Miscellaneous taxes." Taxes on property the income from which is includible in account 5115, "Income from merchandising, jobbing, and contracting," shall also be charged to account 5250.

NOTE C: Special assessments for the construction of street and other improvements shall be included in the appropriate plant accounts. Special assessments for the maintenance thereof and special benefit taxes,

such as water taxes, shall be included in the appropriate operating-expense accounts.

NOTE D: Discounts allowed for payment of taxes before they are due shall be treated as reduction of taxes assessed.

NOTE E: The accounting for taxes on plant under construction shall be as provided in paragraph (c) (7) of § 35.1–3.

NOTE F: Taxes on plant leased to others, the rental from which is includible in account 5010, "Income from operated plant leased to others" when assumed by the lessor, shall be charged to that account by the lessor. (See particularly § 35.30–3.)

§ 35.4935 *Uncollectible revenues.* (a) This account shall be charged with amounts, due from customers and agents for wire-telegraph and ocean-cable services rendered, which are considered to be uncollectible.

(b) This account may include, in lieu of the amounts of charges prescribed in paragraph (a) of this section, monthly charges based upon estimates to make provision for uncollectible revenues due from customers and agents. Such amounts shall be credited to account 1765, "Allowance for uncollectible receivables." There shall be recorded full details as to the methods used and the facts considered in estimating the amounts so credited.

(c) This account shall include, in a separate subdivision thereof, credits arising from charges to accounts 2115, "Customers' deposits," and 2155, "Advance billings," that may lawfully be written off as unrefundable because of failure to locate the rightful owner or for some similar reason.

NOTE: Uncollectible receivables (or provisions therefor), other than from customers and agents, shall be charged to account 5299, "Other deductions from ordinary income," account 6120, "Extraordinary current income charges," or other appropriate account.

§ 35.4945 *Telephone and radiotelegraph operating-revenue deductions.* This account shall include the amounts of depreciation, amortization, taxes, uncollectible revenues, rents, and maintenance and other expenses incidental to the carrier's telephone and radio-telegraph operations. (See also §35.03–8.)

§ 35.4950 *Revenue-contract payments.* This account shall include amounts, includible in operating-revenue deductions, that represent payments to common carriers or other persons under the terms of contracts or agreements which provide that such common carriers or other persons shall receive amounts measured by the revenue or traffic of the accounting carrier, although such persons do not participate in the revenue service or transmission of such traffic. (See also §35.31–3.)

§ 35.4998 *Foreign exchange; expense differential.* (a) This account shall be charged or credited, as appropriate, with amounts representing the differential applicable to operating-revenue deductions as provided in paragraph (b) of § 35.03–16.

(b) A separate subaccount with appropriate title shall be maintained for amounts applicable to each of the several classes of operating-revenue deductions as follows:

Maintenance expenses.
Conducting-operations expenses.
General expenses.
Administrative expenses.
Depreciation.
Amortization—Intangible operated plant.
Amortization of plant-acquisition adjustments.
Extraordinary plant losses.
Social security taxes—Operating.
Other taxes—Operating.
Uncollectible revenues.
Telephone and radiotelegraph operating-revenue deductions.
Revenue-contract payments.
Other operating-revenue deductions.

§ 35.4999 *Other operating-revenue deductions.* This account shall include amounts representing operating-revenue deductions that are not includible elsewhere.

Other Communication Income

§ 35.5010 *Income from operated plant leased to others.* (a) This account shall be credited with the amounts of rentals that have accrued from operated plant comprising substantially complete operating systems or operating units where the lessee has exclusive possession of the plant, whether such amounts are received in cash or are disbursed by the lessee for the account of the lessor as interest on long-term debt, guaranteed dividends on stock, or otherwise.

(b) This account shall be charged with the amounts of taxes, depreciation, amortization, and maintenance and other expenses initially accounted for by the lessor on plant the rental for which is includible in this account. (See particularly § 35.30–3.)

(c) The records supporting the entries in this account shall be so maintained as to show separately the following items applicable to the plant included in each leasing agreement:

Credits:
Rentals.
Charges (see paragraph (b) of this section):
Items initially accounted for by the lessor:
Taxes.
Depreciation.
Amortization.
Maintenance.
Other expenses.
Uncollectible rentals.

NOTE: Rentals from facilities not constituting substantially complete operating systems or operating units shall be included in the appropriate operating-revenue account.

§ 35.5015 *Income from telephone and radiotelegraph plant leased to others.* This account shall be credited with the amounts of rentals that have accrued from telephone and radiotelegraph plant comprising substantially complete operating systems or operating units where the lessee has exclusive possession thereof. (See particularly paragraph (b) of § 35.03–8.)

§ 35.5020 *Profit from general services, licenses, and royalties.* This account shall include the amounts of profits realized from services rendered others under license agreements, general service contracts, or other arrangements providing for the furnishing of general accounting, engineering, financial, legal, patent, or other general services. (See also § 35.41–6.)

NOTE: Minor amounts of profits from such arrangements may be included in account 4317, "General services, licenses, and royalties—Cr."

§ 35.5089 *Income from foreign operations.* (a) This account may include the net amount of income of the carrier when the detailed amounts are required to be stated in terms of foreign currency or in a manner at variance with the requirements of this system of accounts.

(b) A separate subaccount with appropriate title shall be maintained for the amount of such income from each foreign country.

(c) The records supporting the entries in this account shall be so maintained that, in the reports to the Commission, a complete analysis of the transactions in each foreign country may be shown.

(d) Each carrier that elects to use this account shall advise the Commission of that fact at least 60 days before the effective date of this system of accounts. Changes from this elective procedure to the alternative procedure prescribed for domestic income, or vice versa, shall not be made thereafter without submitting to the Commission for its consideration and approval notice of the proposed change at least 90 days before the proposed effective date of such change.

§ 35.5099 *Other communication income.* This account shall include the amounts of communication income not provided for elsewhere.

Ordinary Income; Noncommunication

§ 35.5110 *Income from miscellaneous physical property.* (a) This account shall include the amounts received and the expenses incurred in connection with the operation of (1) property the investment in which is includible in account 1610, "Miscellaneous physical property," and (2) property of others leased by the carrier for purposes other than communication operations.

(b) The expenses shall include every element of cost (except taxes) incurred in such operations, including depreciation, amortization, insurance, assessments against such property for maintenance of public improvements, an equitable portion of administration expenses, uncollectible rentals, and any other costs incident to the operation of miscellaneous physical property.

NOTE: Taxes applicable to miscellaneous physical property and its operation shall be charged to account 5250, "Miscellaneous taxes."

§ 35.5115 *Income from merchandising, jobbing, and contracting.* (a) This account shall include the amounts received and the expenses (except taxes) incurred in connection with the sale of merchandise, including any amounts accruing to the carrier on jobbing and contracting work performed by its employees.

(b) This account shall be subdivided as follows:

5115:01 Income from merchandising, jobbing, and contracting.
5115:02 Costs and expenses of merchandising, jobbing and contracting.

NOTE A: Periodic charges for the use of plant includible in account 1000, "Operated plant in carrier's service." (See particularly the note following account 1100, "Operated plant leased to others.") and for installing, maintaining, inspecting, and servicing such

plant, shall be included in the appropriate operating-revenue account. (See § 35.31–2.)

NOTE B: Taxes applicable to merchandising, jobbing, and contracting shall be charged to account 5250, "Miscellaneous taxes."

§ 35.5120 *Dividend income.* This account shall include the amounts of income from dividends declared on stocks owned other than dividends on stocks includible in accounts 1630 to 1659, inclusive. (See particularly § 35.5135.)

NOTE: No amounts shall be entered in these accounts representing the value assigned to stock dividends received by the carrier on stocks of other persons. The proceeds realized from the subsequent sale or disposal of the stock received as a dividend, or of the stock with respect to which the dividend was paid, shall be appropriately accounted for, proper credit being given to the investment account for the portion of the book cost assignable to the shares sold or disposed of. Any profit or loss resulting from the transaction shall be credited to account 6110, "Extraordinary current income credits," or charged to account 6120, "Extraordinary current income charges," as appropriate.

§ 35.5125 *Interest income.* (a) This account shall include the amounts of interest income on investments in securities owned (other than securities includible in accounts 1630 to 1659, inclusive), including interest income on investment advances and on other loans, notes, special deposits, and other interest-bearing assets. (See also § 35.5135.)

(b) This account shall be subdivided as follows:

5125:01 Interest income on securities.
5125:02 Interest income on investment advances.
5125:99 Other interest income.

NOTE A: Interest on nominally issued and nominally outstanding long-term debt shall not be included in these accounts.

NOTE B: Interest that has accrued shall not be credited to this account unless its payment is reasonably assured.

§ 35.5135 *Income from debt-redemption and other funds.* (a) This account shall include the amounts of income (whether interest or dividends) accrued on cash, securities issued by other persons, or other assets held in accounts 1630 to 1659, inclusive, and also the amounts of income from securities issued or assumed by the carrier when regarded and treated as actually outstanding under the provisions of paragraph (h) of § 35.10–7. (See also § 35.30–2.)

(b) Unless otherwise required by contractual or other agreement, the expenses, losses, and fees incurred in connection with the operation of each fund shall be charged to this account.

(c) The records supporting the entries in this account shall be so maintained as to show separately the amounts of charges and the amounts of credits applicable to each fund.

§ 35.5140 *Gain or loss on foreign currency exchange.* (a) This account shall be credited or charged, as appropriate, with amounts representing the gain or loss resulting from the translation or the actual conversion of United States currency into foreign currency or vice versa. (See particularly § 35.03–16.)

(b) The records supporting the entries in this account shall be so maintained as to permit ready analysis of the amounts applicable to any transaction.

§ 35.5199 *Other noncommunication income.* This account shall include the amounts of noncommunication income not provided for elsewhere.

Deductions From Ordinary Income

§ 35.5205 *Rent for lease of operated plant.* (a) This account shall be charged with the amounts of rents that have accrued for the exclusive possession by the carrier of operated plant comprising substantially complete operating systems or operating units whether paid to the lessor in cash or disbursed by the lessee for the account of the lessor as interest on long-term debt, guaranteed dividends on stock, or otherwise.

(b) When the lease requires or available data permit such action, this account shall be credited with the amounts of taxes, depreciation, amortization, and maintenance and other expenses initially accounted for by the lessor on plant the rent for which is includible in this account. (See particularly § 35.30–3.)

(c) This account shall be subdivided as follows:

5205:01 Rent for identifiable plant.
5205:02 Rent for unidentifiable plant.

(d) The records supporting the entries in this account shall be so maintained as to show separately the following items applicable to the plant included in each leasing agreement:

Charges:
Rents.
Credits (see paragraph (b) of this section):
Items initially accounted for by the lessor:
Taxes.
Depreciation.
Amortization.
Maintenance.
Other expenses.

NOTE: Rent for lease of facilities not constituting substantially complete operating systems or operating units shall be included in the appropriate operating-expense account.

§ 35.5210 *Interest on long-term debt.* (a) This account shall include the amounts of interest accrued on outstanding long-term debt issued or assumed by the carrier, the liability for which is included in accounts 2010, "Bonds actually issued," 2025, "Receivers' and trustees' securities," and 2099, "Other long-term debt," including such securities as are regarded and treated as actually outstanding under the provisions of paragraph (h) of § 35.10–7.

(b) The records supporting the entries in this account shall be so maintained as to show the interest accruals on each issue or series of long-term debt.

NOTE: Interest on nominally issued and nominally outstanding long-term debt shall not be included in these accounts.

§ 35.5215 *Interest on indebtedness to affiliates.* (a) This account shall include the amounts of interest accrued on indebtedness to affiliates the liability for which is included in accounts such as account 2030, "Advances from affiliates," and account 2129, "Other payable to affiliates."

(b) The records supporting the entries in this account shall be so maintained as to show to whom the interest is payable, the nature and amount of the principal obligation, and the rate of interest, under the following subdivisions:

5215:01 Interest on advances.
5215:02 Interest on other payables.

§ 35.5220 *Amortization of debt discount.* This account shall include amount representing the portion of unamortized discount on outstanding long-term debt that is applicable to the acounting period, determined in accordance with the provisions of paragraph (d) of § 35.10–14.

§ 35.5225 *Interest charged to construction—Cr.* This account shall be credited with the amounts charged to account 1300, "Plant under construction," as provided in paragraph (c) (8) of § 35.1–3.

§ 35.5230 *Amortization of debt premium—Cr.* This account shall include amounts representing the portion of unamortized premium on outstanding long-term debt that is applicable to the accounting period, determined in accordance with the provisions of paragraph (d) of § 35.10–14.

§ 35.5233 *Interest on past-due tax assessments.* This account shall include the amounts of interest charges applicable to the accounting period on tax assessments that are due and unpaid.

§ 35.5235 *Other interest charges.* (a) This account shall include the amounts of interest charges not provided for elsewhere. Among the items of indebtedness the interest on which is chargeable to this account are (1) past-due assessments for public improvements, (2) claims and judgments, (3) customers' deposits, (4) notes payable on demand or maturing less than 1 year from date of issuance, except notes payable to affiliates, and (5) open accounts, except with affiliates.

(b) The records supporting the entries in this account shall be so maintained as to show the nature and amount of each principal obligation, the rate and amount of interest applicable thereto, and the name of the person to whom payable.

§ 35.5240 *Taxes assumed on interest.* This account shall include the amounts paid to holders of bonds (or other evidences of indebtedness of the carrier), and the amounts paid to governmental agencies in their behalf, with respect to income and other taxes levied against the income from such debt or levied as a tax on ownership of the debt, when such taxes are assumed by the carrier.

§ 35.5245 *Amortization of debt expense.* This account shall include the amounts representing the portion of unamortized debt expense on outstanding long-term debt that is applicable to the accounting period, determined in accordance with the provisions of paragraph (d) of § 35.10–14.

§ 35.5250 *Miscellaneous taxes.* (a) This account shall include the amounts of taxes not provided for elsewhere. Among the items that shall be charged hereto are taxes applicable to miscellaneous physical property and the operation thereof, and taxes applicable to merchandising, jobbing, and contracting.

(b) Amounts charged to this account prior to payment shall be credited to account 2175, "Tax accruals."

§ 35.5255 *Amortization of plant-acquisition adjustments.* (a) This account shall be charged or credited, as the case may be, with such amounts as the Commission may authorize or direct to be included in deductions from ordinary income under a plan to amortize amounts in account 1510, "Plant-acquisition adjustments."

(b) Amounts recorded in this account shall be credited or charged, as the case may be, to account 1520, "Allowance for amortization; wire-telegraph and ocean-cable plant."

§ 35.5260 *Revenue-contract payments.* This account shall include amounts includible in deductions from ordinary income that represent payments to common carriers or other persons under the terms of contracts or agreements which provide that such common carriers or other persons shall receive amounts measured by the revenue or traffic of the accounting carrier, although such persons do not participate in the revenue services or transmission of such traffic. (See also § 35.31–3.)

§ 35.5298 *Foreign exchange; income differential.* (a) This account shall be charged or credited, as appropriate, with amounts representing the exchange differential applicable to income accounts 5000 to 5299, inclusive, except account 5140, "Gain or loss on foreign currency exchange," as provided in paragraph (c) of § 35.03–16.

(b) A separate subaccount with appropriate title shall be maintained for amounts applicable to each of the several primary income accounts affected.

§ 35.5299 *Other deductions from ordinary income.* This account shall include deductions from ordinary income not provided for elsewhere. Among the items that shall be charged to this account are contributions for charitable, social, or community-welfare purposes and membership fees and dues in associations other than those of the carrier itself in associations of communication carriers and those of employees in professional organizations, the amounts of depreciation and amortization on wire-telegraph and ocean-cable plant other than operated plant, and the amounts of uncollectible receivables, or provisions therefor, which are not includible in account 4935, "Uncollectible revenues," or account 6120, "Extraordinary current income charges." (See also § 35.03–7.)

Extraordinary Income

§ 35.6110 *Extraordinary current income credits.* This account shall include the amounts of income applicable to the current period from activities other than those usual and ordinary activities of the carrier recognized under the provisions of § 35.3000 and §§ 35.5000 to 35.5199, inclusive.

ITEMS

(See § 35.03–12)

Current liabilities written off in accordance with the provisions of paragraph (c) of § 35.10–5.
Forfeitures of amounts deposited with the carrier under options for the sale or lease of property.
Profits derived from the sale of property the cost of which is includible in account 1610, "Miscellaneous physical property."
Profits derived from the reacquisition and resale of securities other than capital stock.
Profits derived from the sale of securities of other persons.
Profits derived from the sale of plant. (See also paragraph (j) of § 35.1–6.)

§ 35.6120 *Extraordinary current income charges.* This account shall include the amounts properly chargeable against income during the current period, occasioned otherwise than by those usual and ordinary activities of the carrier recognized under the provisions of §§ 35.400 to 35.5099, inclusive, and §§ 35.5200 to 35.5299, inclusive.

ITEMS

(See § 35.03–12)

Amounts charged to income to provide for the extinguishment of amounts includible in account 81, "Organization."
Amounts charged to income in recognition of the decline in value of current assets and securities owned. (See also §§ 35.10–2 and 35.10–7.)
Capital-stock expense written off. (See also paragraph (b) of § 35.10–13.)
Forfeitures of amounts deposited by the carrier under options for the purchase or lease of property.
Inventory, appraisal, and other costs incident to the contemplated acquisition, sale, or lease of property when the projects are abandoned.
Long-term debt expense written off. (See also paragraphs (d), (e), and (f) of § 35.10–14.)
Losses of funds due to bank failures.
Losses on the sale of plant. (See also paragraph (j) of § 35.1–6.)
Losses resulting from the sale, destruction, or retirement of property the cost of which is includible in account 1610, "Miscellaneous physical property."
Losses resulting from the reacquisition and resale of securities other than capital stock.
Losses resulting from the sale of securities of other persons.
Penalties and fines paid on account of violations of statutes pertaining to regulation.
Uncollectible receivables written off.

§ 35.6210 *Delayed income credits.* This account shall include the amounts of extraordinary and nonrecurring delayed items, as provided in § 35.03–13.

§ 35.6220 *Delayed income charges.* This account shall include the amounts of extraordinary and nonrecurring delayed items as provided in § 35.03–13.

Deductions From Net Income

§ 35.7010 *Income taxes.* (a) This account shall include the amounts of foreign, Federal, State, and local government taxes on the income of the carrier, including additional assessments of such taxes.

(b) The record supporting the entries in this account shall be so maintained as to show the amounts included herein with respect to each taxing authority.

§ 35.7099 *Other deductions from net income.* This account shall include the amounts of deductions from net income not provided for elsewhere.

EARNED-SURPLUS ACCOUNTS

Earned Surplus; Credits

§ 35.8110 *Balance transferred from income accounts.* This account shall include the net balance transferred from the income accounts for the current year. (See particularly § 35.30–4.)

§ 35.8199 *Miscellaneous credits to earned surplus.* (a) This account shall include the amounts of credits affecting earned surplus not provided for elsewhere.

(b) The records supporting the entries in this account shall be so maintained that an analysis thereof may be shown in the reports to the Commission.

Earned Surplus; Charges

§ 35.8299 *Miscellaneous charges to earned surplus.* (a) This account shall include the amounts of charges affecting earned surplus not provided for elsewhere. Among the items that shall be charged hereto are discount on capital stock written off and such charges resulting from the reacquisition and resale of the carrier's capital stock as are provided in § 35.10–9.

(b) The records supporting the entries in this account shall be so maintained that an analysis thereof may be shown in the reports of the Commission.

§ 35.8310 *Contractual appropriations of earned surplus.* (a) This account shall include the amount of earned surplus reserved in accordance with the terms of mortgages, deeds of trust, orders of courts, contracts, or other agreements.

(b) Amounts charged to this account shall be credited to account 2610, "Contractual reserves."

(c) Amounts in account 2610 that are restored to surplus shall be credited to this account.

§ 35.8315 *Earned surplus employed in reacquisition of capital stock.* (a) This account shall be charged and account 2615, "Reserve against impairment of stated capital," shall be credited with the book amount of capital stock reacquired by the carrier and not retired.

(b) Upon resale or retirement of capital stock, this account shall be credited and account 2615, "Reserve against impairment of stated capital," shall be charged with the amounts included herein applicable to such stock.

§ 35.8320 *Miscellaneous appropriations of earned surplus.* (a) This account shall include the amount of reservations of earned surplus not provided for elsewhere.

(b) Amounts charged to this account shall be credited to account 2620, "Miscellaneous reserves."

(c) Amounts in account 2620 that are restored to surplus shall be credited to this account.

§ 35.8399 *Dividend appropriations of earned surplus.* (a) This account shall include the amount of earned surplus appropriated for dividends declared on the

actually outstanding capital stock of the carrier.

(b) The records supporting the entries in this account shall be so maintained as to show the amount of dividends declared on each class of capital stock. If dividends are not payable in cash, the medium of payment shall be described with sufficient particularity to identify it.

OPERATING-REVENUE ACCOUNTS

INSTRUCTIONS

§ 35.31–1 *Purpose of operating-revenue accounts.* The operating-revenue accounts are designed to show the carrier's portion of amounts received or receivable for the furnishing of communication service and services incidental thereto. (See also §§ 35.03–8 and 35.03–17.)

§ 35.31–2 *Basis of credits to the operating-revenue accounts.* (a) Credits to the operating-revenue accounts shall be based upon the actual amount chargeable for services rendered by the carrier.

NOTE A: Corrections of overcharges and of overcollections and payments of collections on behalf of others previously credited to the operating-revenue accounts shall be charged to the account or accounts privously credited.

NOTE B: Authorized refunds and adjustments on account of failures in service shall be charged to account 4281, "Traffic-damage awards."

(b) The appropriate operating-revenue accounts shall be credited with:

(1) Amounts charged for installations, for termination and restoration of service, for inside and outside moves, for instrument changes, and for similar service requirements.

(2) Amounts of initial nonrecurring charges for special or auxiliary equipment furnished in rendering service to a customer, except that charges for the cost of such equipment the ownership of which rests with or will revert to the customer shall be credited to the accounts charged with the cost of such equipment.

(3) Amounts of initial nonrecurring charges for installation of special or auxiliary equipment furnished by a customer.

(4) Amounts of service charges for supplemental or auxiliary equipment furnished in rendering service to a customer.

(5) Amounts collected from users as costs of delivery beyond the free-delivery zones adjacent to terminals of the carrier. (See also note C in § 35.31–3.)

§ 35.31–3 *Divisions of operating revenues.* (a) Amounts representing the carrier's portion of revenues receivable from other communication carriers for participation in the revenue service shall be credited to the appropriate operating-revenue accounts and charged to the account maintained for traffic settlements with the respective carriers, as provided in § 35.03–19.

(b) Amounts payable for participation by others in the revenue service shall be excluded from (or, if previously credited thereto, charged to the appropriate) operating-revenue accounts and credited to the account maintained for traffic settlements with the respective carriers, as provided in § 35.03–19.

NOTE A: The term "participation in the revenue service," as used in this section, does not include terminal services rendered by a carrier acting as agent for another carrier, e. g., it does not include (1) the receipt or delivery of messages wherein a carrier does not participate, with respect to this particular traffic, in other than such terminal services, or, sometimes further in connection therewith, (2) the use of a carrier's employees and facilities in originating and terminating messages at rates or under classifications that are not available to the general public.

NOTE B: Amounts (other than those representing commissions or participation in the revenue service) payable to common carriers or other persons under the terms of contracts or agreements which provide that such common carriers or other persons shall receive amounts measured by revenues or traffic of the accounting carrier, shall be include in account 4950, "Revenue-contract payments," or account 5260, "Revenue-contract payments," as appropriate.

NOTE C: Amounts payable for services performed for the carrier, such as tolls or rental charges, including those collected from users as costs of delivery beyond the free-delivery zones adjacent to the terminals of the carrier, shall be charged to the appropriate operating-expense accounts.

§ 35.31–4 *Services furnished without direct charge.* (a) Amounts representing wire-telegraph and ocean-cable services furnished to a national government, a State, or a political subdivision thereof without direct compensation, in accordance with franchise requirements, shall be charged and credited to the appropriate subdivisions of account 4341, "Franchise requirements."

(b) Records shall be maintained to show amounts representing any other wire-telegraph and ocean-cable services which are carried on especially for the needs of a specific service of general interest and are not open to public correspondence and for which no direct compensation is received.

§ 35.31–5 *Preparation for allocation of wire-telegraph revenues to continental communication and to foreign communication (under domestic-service classification).* The carrier's records shall be so maintained that in reports to the Commission there may be shown (separately (1) with respect to each of the four classifications of service appearing under account 3110, "Public message revenue," and (2) as to accounts 3115 to 3155, inclusive, in their respective aggregates) the amounts of revenue respectively derived from continental communication and from foreign communication under domestic-service classification.

§ 35.31–6 *Preparation for allocation of ocean-cable revenues to foreign communication and to insular communication.* The carrier's records shall be so maintained that in reports to the Commission there may be shown (separately (1) with respect to each of the two classifications of service appearing under account 3210, "Public message revenue," and (2) as to accounts 3215 to 3255, inclusive, in their respective aggregates) the amounts of revenue respectively derived from foreign communication and from insular communication.

§ 35.31–99 *Contemplated form of operating-revenue statement.* (See § 35.03–9.)

Account No.	Particulars	Amount of revenue for the year
	Wire-telegraph transmission revenues	
3110	Public message revenue	$
3115	United States government message revenue	
3125	Press message revenue	
3130	Money-order message revenue	
3135	News (CND) service revenue	
3140	Contract (CAK) message revenue	
3145	Facsimile or photogram service revenue	
3155	Telephone service revenue	
3160	Wire-telegraph revenue on cable and radio messages	
3199	Other wire-telegraph transmission revenues	
	Total wire-telegraph transmission revenues	$
	Ocean-cable transmission revenues	
3210	Public message revenue	$
3215	United States government message revenue

PRESCRIBED ACCOUNTS

NOTE: Number to the right of the decimal point is the account number.

Wire-Telegraph Transmission Revenues

§ 35.3110 *Public message revenue.* (a) This account shall include the carrier's portion of revenue from the wire-telegraph transmission of messages for the general public.

(b) A memorandum record supporting the entries in this account shall be prepared by class A carriers on a calendar-month basis from statistical records of revenue which will show the allocation of amounts in this account among the following classifications of revenue:

(1) *General message revenue.* This classification shall include the carrier's portion of revenue from the wire-telegraph transmission, at the effective rates available to the general public, of the following and similar classes of public messages:

Full rate messages,
Day letters, and
Night letters,

including multiple-address or book messages, and similar services related to the above classes.

(2) *Serial message revenue.* This classification shall include the carrier's portion of revenue from the wire-telegraph transmission of public messages, at the effective rates available to the general public, applicable when more than one message or section of a message is sent to the same addressee at the same destination within a specified period of relatively short duration.

(3) *Timed-wire service revenue.* This classification shall include the carrier's portion of revenue from the wire-telegraph transmission of public messages when the basis of the effective rates is the time employed, required, or allowed for such transmission, whether such time is computed on basis of the number of words transmitted converted into equivalent minutes, or on basis of the actual time required for transmission.

(4) *Greetings and other flat-rate message revenue.* (i) This classification shall include the carrier's portion of revenue from the wire-telegraph transmission, at the effective flat or fixed rates (applicable regardless of distance), of classes of fixed-text public messages and messages of sender's composition, such as holiday-greeting messages, including multiple-address or book messages and similar services related to these classes.

(ii) Allocations to this classification shall reflect due consideration of the effect of the abnormal traffic existing upon special occasions, such as holidays.

§ 35.3115 *United States government message revenue.* (a) This account shall include the carrier's portion of revenue from the wire-telegraph transmission, at the effective rates available to the United States government or any department or agency thereof, of classes of official messages such as the following:

Government full rate messages.
Government day letters.
Government night letters.
Government serial messages.
Government timed-wire service messages.

(b) This account shall also include under a separate subdivision the carrier's portion of revenue from the wire-telegraph transmission of government weather-bureau messages.

§ 35.3125 *Press message revenue.* This account shall include the carrier's portion of revenue from the wire-telegraph transmission of classes of messages restricted as to text, at the effective rates for press services that are less than rates for comparable services to the general public.

§ 35.3130 *Money-order message revenue.* This account shall include the carrier's portion of revenue from the wire-telegraph transmission, at the effective rates available to the general public, of messages incidental to, and of messages accompanying, telegraphic money-orders.

§ 35.3135 *News (CND) service revenue.* This account shall include the carrier's portion of revenue from the wire-telegraph transmission of the following and similar classes of messages and reports disseminated by the carrier to its subscribers:

Baseball, football, or other sporting-event reports.
Market quotations.
News ticker.
Sports ticker.
Stock ticker.

§ 35.3140 *Contract (CAK) message revenue.* This account shall include the carrier's portion of revenue from the wire-telegraph transmission of messages of transportation carriers and others at rates established for collection under contractual agreements that provide for certain free or concession services.

§ 35.3145 *Facsimile or photogram service revenue.* This account shall include the carrier's portion of revenue from the wire-telegraph transmission of any matter (other than matter being transmitted at the effective rates applicable to messages) involving the use of facsimile or other reproducing equipment.

§ 35.3155 *Telephone service revenue.* This account shall include the carrier's portion of revenue from telephone operations which involve plant primarily used in wire-telegraph service. (See also §§ 35.03–8 and 35.3610.)

§ 35.3160 *Wire-telegraph revenue on cable and radio messages.* (a) This account shall include the carrier's portion of revenue from the wire-telegraph transmission of insular, mobile, and foreign communication.

(b) The carrier's records shall be so maintained that in reports to the Commission there may be shown, at least on basis of statistical determinations, the revenue derived from each of the following classes of service:

Foreign messages.
Insular messages.
Marine messages.
Mobile (other than marine) messages.

§ 35.3199 *Other wire-telegraph transmission revenues.* (a) This account shall include the carrier's portion of revenue from wire-telegraph transmission services not provided for elsewhere.

(b) The carrier's records shall be so maintained that in reports to the Commission there may be shown separately the carrier's portion of the revenue from broadcast-program transmission that is includible in this account. (See particularly the note in § 35.3410.)

Ocean-Cable Transmission Revenues

§ 35.3210 *Public message revenue.* (a) This account shall include the carrier's portion of revenue from the ocean-cable transmission of messages for the general public.

(b) A memorandum record supporting the entries in this account shall be prepared by class A carriers on a calendar-month basis from statistical records of revenue which will show the allocation of amounts in this account among the following classifications of revenue:

(1) *General message revenue.* This classification shall include the carrier's portion of revenue from the ocean-cable transmission, at the effective rates available to the general public, of the following and similar classes of public messages:

Urgent messages.
Urgent CDE messages,
Ordinary messages,
Ordinary CDE messages,
Letter (DLT and NLT) messages, and
Deferred (LO) messages,

including multiple-address or book messages and similar services related to the above classes.

(2) *Greetings and other flat-rate message revenue.* (i) This classification shall include the carrier's portion of revenue from the transmission, at the effective flat or fixed rates (applicable regardless of distance), of classes of fixed-text public messages and messages of sender's composition, such as holiday-greeting messages, including multiple-address or book messages and similar services related to these classes.

(ii) Allocations to this classification shall reflect due consideration of the effect of the abnormal traffic existing upon special occasions, such as holidays.

§ 35.3215 *United States government message revenue.* (a) This account shall include the carrier's portion of revenue from the ocean-cable transmission, at the effective rates available to the United States government or any department or agency thereof, of classes of official messages such as the following:

Government ordinary messages.
Government CDE messages.
Government full rate messages.
Government day letters.
Government night letters.

(b) This account shall also include under a separate subdivision the carrier's portion of revenue from the ocean-cable transmission of government weather-bureau messages.

§ 35.3220 *Other governments message revenue.* This account shall include the carrier's portion of revenue from the ocean-cable transmission, at the effective rates (available to governments other than the United States) that are less than the rates for comparable service to the general public, of classes of messages such as the following:

Government ordinary messages.
Government CDE messages.
Government full rate messages.
Government day letters.
Government night letters.

§ 35.3225 *Press message revenue.* This account shall include the carrier's portion of revenue from the ocean-cable transmission of classes of messages restricted as to text, at the effective rates

for press services that are less than rates for comparable services to the general public.

§ 35.3230 *Money-order message revenue.* This account shall include the carrier's portion of revenue from the ocean-cable transmission, at the effective rates available to the general public, of messages incidental to, and of messages accompanying, telegraphic money-orders.

§ 35.3235 *News (CND) service revenue.* This account shall include the carrier's portion of revenue from the ocean-cable transmission of the following and similar classes of messages and reports disseminated by the carrier to its subscribers:

Baseball, football, or other sporting-event reports.
Market quotations.
News ticker.
Sports ticker.
Stock ticker.

§ 35.3245 *Facsimile or photogram service revenue.* This account shall include the carrier's portion of revenue from the ocean-cable transmission of any matter (other than matter being transmitted at the effective rates applicable to messages) involving the use of facsimile or other reproducing equipment.

§ 35.3255 *Telephone service revenue.* This account shall include the carrier's portion of revenue from telephone operations which involve plant primarily used in ocean-cable service. (See also §§ 35.03–8 and 35.3610.)

§ 35.3299 *Other ocean-cable transmission revenues.* This account shall include the carrier's portion of revenue from ocean-cable transmission services not provided for elsewhere.

Terminal Commission Revenues

§ 35.3350 *Terminal commissions.* This account shall include the amounts of commissions receivable by the carrier for services rendered to other carriers in originating or terminating messages or for similar communication services. (See particularly §§ 35.03–20, 35.31–3, and 35.4275.)

Wire-Telegraph Nontransmission Revenues

§ 35.3410 *Leased-circuit revenue.* (a) This account shall include the carrier's portion of revenue from the use by others of wires, cables, channels, circuits, and similar wire-telegraph facilities not part of substantially complete operating systems or operating units leased to others, when the charge therefor is based on contractual rent agreements providing for definite periodic terms without regard to the extent of the service obtained by the users of such facilities. (See also §§ 35.30–3, 35.3415, and 35.3420.)

(b) The carrier's records shall be so maintained that in reports to the Commission there may be shown separately the carrier's portion of the revenue derived from the leasing of circuits for the purpose of transmission of broadcast programs by the lessee.

NOTE: The carrier's portion of revenue derived in instances in which its employees participate in (1) energizing or monitoring circuits, (2) maintaining fidelity of sound output, or (3) otherwise contributing technically to the transmission of broadcast programs (excepting the ordinary maintenance, testing, and regulating performed for all leased-wire customers) shall not be included in this account but in account 3199, "Other wire-telegraph transmission revenues."

§ 35.3415 *Measured-service revenue.* This account shall include the carrier's portion of revenue from the use, at rates available to the general public as facilities are available, of wire-telegraph facilities furnished by the carrier to provide for direct communication by customers when the charge therefor is on the basis of the measured number of impulses or words transmitted, such as telemeter service.

§ 35.3420 *Other leased-plant revenue.* This account shall include the carrier's portion of revenue from the use by others of wire-telegraph plant not provided for elsewhere. (See also §§ 35.30–3, 35.3410, and 35.3415.)

§ 35.3425 *Code-registration revenue.* This account shall include the carrier's portion of revenue from the registration of code names, titles, symbols, and addresses, and other similar code-registration services incidental to wire-telegraph operations.

§ 35.3430 *Errand-service revenue.* This account shall include the carrier's portion of revenue from the utilization of messengers in wire-telegraph services not connected with the transmission of messages.

§ 35.3435 *Money-order charges.* This account shall include the carrier's portion of revenue from charges for wire-telegraph money-order service as distinguished from revenue messages incidental to such service. (See also §§ 35.3130, 35.3230, and 35.3535.)

§ 35.3440 *Time-service revenue.* This account shall include the carrier's portion of revenue from services in connection with self-winding clocks and other synchronizing devices when such services are incidental to wire-telegraph operations.

§ 35.3499 *Other wire-telegraph nontransmission revenues.* This account shall include the carrier's portion of revenue from non-transmission services incidental to wire-telegraph operations not provided for elsewhere.

Ocean-Cable Nontransmission Revenues

§ 35.3510 *Leased-circuit revenue.* This account shall include the carrier's portion of revenue from the use by others of wires, cables, channels, circuits, and similar ocean-cable facilities not part of substantially complete operating systems or operating units leased to others when the charge therefor is based on contractual rent agreements providing for definite periodic terms without regard to the extent of service obtained by the users of such facilities. (See also §§ 35.30–3, 35.3515, and 35.3520.)

§ 35.3515 *Measured-service revenue.* This account shall include the carrier's portion of revenue from the use, at rates available to the general public as facilities are available, of ocean-cable facilities furnished by the carrier to provide for direct communication by customers when the charge therefor is on the basis of the measured number of impulses or words transmitted, such as telemeter service.

§ 35.3520 *Other leased-plant revenue.* This account shall include the carrier's portion of revenue from the use by others of ocean-cable plant not provided for elsewhere. (See also §§ 35.30–3, 35.3510, and 35.3515.)

§ 35.3525 *Code-registration revenue.* This account shall include the carrier's portion of revenue from registration of code names, titles, symbols, and addresses, and other similar code-registration services incidental to ocean-cable operations.

§ 35.3530 *Errand-service revenue.* This account shall include the carrier's portion of revenue from the utilization of messengers in ocean-cable services not connected with the transmission of messages.

§ 35.3535 *Money-order charges.* This account shall include the carrier's portion of revenue from charges for ocean-cable money-order service as distinguished from revenue messages incidental to such service. (See also §§ 35.3130, 35.3230, and 35.3435.)

§ 35.3540 *Time-service revenue.* This account shall include the carrier's portion of revenue from services in connection with self-winding clocks and other synchronizing devices when such services are incidental to ocean-cable operations.

§ 35.3599 *Other ocean-cable nontransmission revenues.* This account shall include the carrier's portion of revenue from nontransmission services incidental to ocean-cable operations not provided for elsewhere.

Other Telecommunication Revenues

§ 35.3610 *Telephone revenue; telephone systems.* (a) This account shall include the carrier's revenue from the operation of telephone systems as provided in § 35.03–8.

(b) The records supporting the entries in this account shall be so maintained as to indicate the amount applicable to each primary operating-revenue account provided in the uniform system of accounts prescribed by the Commission for telephone companies having average annual operating revenues equivalent to the estimated annual telephone revenues of the carrier. (See also §§ 35.3155 and 35.3255.)

§ 35.3625 *Radiotelegraph revenue; radiotelegraph systems.* (a) This account shall include the carrier's portion of revenue from the operation of radiotelegraph systems as provided in § 35.03–8.

(b) The records supporting the entries in this account shall be so maintained as to indicate the amount applicable to each primary operating-revenue account provided in the uniform system of accounts prescribed by the Commission for class A and class B radiotelegraph carriers (unless radiotelegraph revenues have been included properly in account 5089, "Income from foreign operations").

OPERATING-EXPENSE ACCOUNTS

INSTRUCTIONS

§ 35.41–1 *Purpose of operating-expense accounts.* The operating-expense accounts (accounts 4100 to 4499, inclusive) and the other operating-revenue deduction accounts (accounts 4900 to 4999, inclusive, except account 4945) are designed to show the cost of furnishing wire-telegraph and ocean-cable services. Of these accounts, the operating-expense accounts are designed to indicate in detail the carrier's portion of the amounts of the maintenance, conducting-operations, general, and administrative expenses. (See also §§ 35.03–8, 35.03–13, 35.03–14, 35.03–15, and 35.03–17.)

§ 35.41–2 *Basis of charges to the operating-expense accounts.* Charges to the operating-expense accounts shall be based upon the actual expenses incurred by or on behalf of the carrier. (See particularly § 35.03–18 and paragraph (b) of § 35.03–16.)

NOTE: When, for convenience in accounting, the operating-expense accounts are charged in the first instance with amounts representing items that are not properly chargeable to the accounting carrier's wire-telegraph and ocean-cable operations, such as those applicable to joint operations as referred to in § 35.03–18 or those directly applicable to telephone or radiotelegraph operations as referred to in § 35.03–8, the appropriate clearing credits shall be made in the primary accounts to which such items were originally charged. This procedure should not be followed in connection with transactions includible in account 4275, "Terminal commissions; expense credit," or account 4317, "General services, licenses, and royalties—Cr." (See also § 35.03–14.)

§ 35.41–3 *Operating expenses applicable to leased plant.* Operating expenses applicable to leased plant shall be charged by the lessee to the appropriate operating-expense accounts as provided in paragraphs (c) and (d) of § 35.30–3. (See also § 35.03–21.)

§ 35.41–4 *Subdivisions of operating-expense accounts.* (a) Carriers furnishing both wire-telegraph and ocean-cable services shall maintain separate accounts for the operating expenses applicable to each such service.

(b) Appropriate subdivisions shall be maintained for operating expenses that are directly applicable to telephone or radiotelegraph operations as provided in paragraph (c) of § 35.03–8.

(c) Each operating-expense account (except the accounts for maintenance expenses) that includes more than one of the following elements (e. g., accounts 4291 and 4295) shall be subdivided as follows:

:1 Compensation of officers and employees. (See particularly § 35.41–5.)
:2 Overheads (not includible elsewhere).
:3 Material and supplies (including supply expense).
:9 Other charges.

NOTE: Subdivisions of the accounts for maintenance expenses are prescribed in paragraph (b) of § 35.41–7.

§ 35.41–5 *Supervision and engineering.* The supervision and engineering expenses includible in the operating-expense accounts shall consist of the pay and expenses (company and railroad transportation, lodging, meals, taxicab fares and carfares, and other traveling and incidental expenses) of officers and employees of the carrier, and of consultants engaged in supervising and directing the operation and maintenance of wire-telegraph and ocean-cable plant; also office supplies for their use and other office expenses, including the maintenance of office furniture and equipment. (See also § 35.03–17.)

NOTE: The cost of direct supervision, such as by foremen or superintendents of repair gangs, and by supervisors in charge of particular operating functions, shall be included in the account or subaccount appropriate for the compensation of the employees whose work they are directing or supervising.

§ 35.41–6 *Expenses of holding or servicing departments.* The records supporting such portions of the charges to each operating-expense or other account as are incurred or recorded by departments performing holding-company activities or furnishing services (other than telegraph services performed at published tariff rates) to other carriers or affiliates under license agreements, general service contracts, or other arrangements providing for the furnishing of general accounting, engineering, financial, legal, patent, or other general services, shall be so maintained that the carrier can report separately the amount of charges included in such operating-expense accounts applicable to each such other carrier or affiliate.

§ 35.41–7 *Maintenance expenses.* (a) The cost of maintenance chargeable to the various operating-expense accounts and to the clearing accounts includes labor, materials, and overhead and other expenses incurred in maintenance work, such as:

(1) Inspecting, testing, and reporting on the condition of plant to determine the need for repairs, minor replacements, and rearrangements.

(2) Testing for, locating, and clearing trouble.

(3) Routine work (see also note A in this section) to prevent trouble such as pulling up slack, tightening guys, raking guy poles, trimming trees, straightening poles and crossarms, and cleaning and adjusting equipment.

(4) Replacing minor items of operated plant except when such items are replaced through the replacement of retirement units. (See also § 35.1–6.)

(5) Rearranging and changing the location of plant not retired.

(6) Minor repairs of materials for reuse. (See, however, §§ 35.1795 and 35.9016.)

(7) Restoring the condition of plant damaged by storm, flood, fire, accident, or other casualty. (See also § 35.2215 and note A in this section.)

(8) Restoring the condition of plant damaged by wear and tear, decay, or normal action of the elements. (See also note A in this section.)

(9) Cutting and replacing pavement, pavement base, and sidewalks in connection with repairs.

(10) Permits and privileges for maintenance work.

(11) Inspecting and testing after repairs have been made.

(12) Portion of local plant supervision attributable to maintenance.

(13) Cost of transportation, shop and store expenses, and use of tools and implements.

(14) Cost of installation, equipment changes, and similar services, for which the carrier is reimbursed in whole or in part, or for which a charge is made by the carrier.

(b) Each maintenance-expense account shall be subdivided to indicate separately the amounts of (1) "direct labor," including the compensation of employees directly engaged in maintenance work and the compensation for direct supervision by such employees as foremen or superintendents of repair gangs, (2) "supervision and other overheads," including engineering and other expenses as provided in § 35.41–5, (3) "direct material," including the cost of supplies and the amounts of supply expense applicable to the material issued, and (4) those direct charges that cannot be assigned to either labor or material. Thus the subdivisions of these accounts are as follows:

:1 Direct labor.
:2 Supervision and other overheads.
:3 Direct material (including supply expense).
:9 Other charges.

(c) Materials recovered in connection with the maintenance of plant shall be credited to the same account to which the maintenance cost was charged.

(d) Salvage and insurance recovered in connection with maintenance shall be credited to the appropriate maintenance account.

(e) If any amount of insurance recovered is relatively large and is received before the repairs have been completed, a disproportionate credit to the expense accounts may be avoided by crediting the amount of the insurance recovered to an appropriate subaccount of account 2399, "Other deferred credits," to which the cost of repairs shall then be charged to the extent covered by the insurance.

(f) Any incidental revenues received or earned, through the use of the carrier's employees or work equipment primarily engaged in maintenance work, shall be credited to the same account to which the maintenance cost was charged. Such revenues include those from the transportation of passengers or freight in or on the carrier's own transportation equipment, those from repairs made to the communication lines of other carriers, and those from other analogous operations involving the services of maintenance employees and equipment.

NOTE A: The cost of maintenance does not include the cost of replacing quantities of plant designated as retirement units in § 35.1–6–1.

NOTE B: Expenses incurred on account of property of others damaged in connection with maintenance work (except for the cost of incidentally repairing the property of others in the course of such work) shall be included in account 4325, "Injuries and damages."

NOTE C: Income from the use of work equipment of the carrier under leases that provide for exclusive possession by the lessee shall be included in account 5010, "Income from operating plant leased to others." (See particularly the note in § 35.1100.)

§ 35.41–99 *Contemplated form of operating-expense statement.* (See § 35.03–9.)

PRESCRIBED ACCOUNTS

NOTE: Number to the right of the decimal point is the account number.

Maintenance Expenses

§ 35.4110 *Testing and regulating.* This account shall include the amounts of expenses incurred in patching wires, and in testing, watching, and regulating the operations of inside communication equipment; also in testing from test desks with repairmen engaged in maintenance of outside plant during the course of their work or upon its completion; and in making other tests to determine the condition of plant or to locate trouble. (See particularly § 35.41–7.)

NOTE: The expenses incurred in testing outside plant (other than the incidental inside testing indicated in the text of this account) shall be included in account 4130, "Maintenance of aerial plant," account 4140, "Maintenance of underground plant," account 4150, "Maintenance of real estate," or account 4160, "Maintenance of ocean cable," as appropriate.

§ 35.4120 *Maintenance of inside plant.* This account shall include the amounts of expenses incurred in maintaining operated plant the cost of which is includible in the accounts provided for inside communication plant and accounts 61 and 69, and similar operated plant leased from others. (See particularly § 35.41–7.)

§ 25.4130 *Maintenance of aerial plant.* This account shall include the amounts of expenses incurred in maintaining (1) operated plant the cost of which is includible in accounts 21, 22, 23, and 27, (2) similar operated plant leased from others, and (3) the right of way therefor. (See particularly § 35.41–7.)

§ 35.4140 *Maintenance of underground plant.* This account shall include the amounts of expenses incurred in maintaining (1) operated plant the cost of which is includible in accounts 24, 25, 26, 28 and 29, (2) similar operated plant leased from others, and (3) the right of way therefor. (See particularly § 35.41–7.)

§ 35.4150 *Maintenance of real estate.* This account shall include the amounts of expenses incurred in maintaining operated plant the cost of which is includible in the accounts provided for real estate (other than land used for right of way) and similar operated plant leased from others. (See particularly § 35.41–7.)

NOTE A: The cost of initial improvements in the preparation for service of either leased or purchased land, land improvements, and buildings shall be charged to the appropriate operated plant accounts, except when such improvements are of relatively minor cost or short life or the period of the lease is not more than 1 year. (See also §§ 35.1–1, 35.1–2, and 35.1–5.)

NOTE B: The cost of maintenance of land, land improvements, and buildings, the investment in which is includible in account 1610, "Miscellaneous physical property," shall be charged to account 5110, "Income from miscellaneous physical property."

NOTE C: The cost of maintenance of land used for right of way shall be charged to account 4130, "Maintenance of aerial plant," or account 4140, "Maintenance of underground plant," as appropriate.

NOTE D: Any substantial increase or decrease in partitions resulting from changes therein shall be accounted for as additions or retirements, as appropriate.

NOTE E: When partitions of a movable type are replaced by partitions of a permanent type or vice versa, the costs involved shall be accounted for through the plant and depreciation-allowance accounts.

NOTE F: The cost of minor building alterations, such as opening and closing holes in ceilings, partitions, walls, and floors, incident to the installation of equipment, shall be included in the installation cost of the equipment.

§ 35.4160 *Maintenance of ocean cable.* This account shall include the amounts of expenses incurred in maintaining transoceanic-type cable (including terminal huts or houses and the equipment contained therein) and similar operated plant leased from others. (See particularly § 35.41–7.)

§ 35.4180 *Maintenance-expense equalization.* This account shall include such amounts as the Commission may authorize or direct under an approved plan to equalize maintenance expenses as provided in § 35.2220.

§ 35.4199 *Other maintenance expenses.* This account shall include the amounts of maintenance expenses not provided for elsewhere.

Conducting-Operations Expenses

§ 35.4211 *Supervision of operations.* (a) This account shall include the compensation of officers and employees engaged in supervising or directing the operations of wire-telegraph and ocean-cable services. (See particularly paragraphs (b) and (c) of § 35.03–17; also § 35.41–5.)

(b) This account shall be subdivided between "General" (for the inclusion of the compensation of employees engaged in supervisory work at the headquarters or within geographical areas) and "Local" (for the inclusion of the compensation of employees engaged primarily in supervising or directing the operations of others in operating offices). Thus the subdivisions of this account shall be as follows:

4211:21 General supervision.
4211:22 Local supervision.

NOTE: The amounts of travel and other expenses of officers and employees whose compensation is includible in this account shall be included in account 4221, "Field-supervision expense."

§ 35.4212 *Wages of operators.* This account shall include the amounts of compensation of employees engaged primarily in the transmission of messages. (See particularly paragraphs (b) and (c) of § 35.03–17.)

§ 35.4213 *Wages of operating-office clerks.* This account shall include the amounts of compensation of employees engaged primarily in the receiving and delivering of messages at counters or by telephone and in quoting rates, collecting charges, keeping accounts, and performing other clerical duties in operating offices. (See particularly paragraphs (b) and (c) of § 35.03–17.)

§ 35.4214 *Wages of solicitors.* This account shall include the amounts of compensation of employees engaged pri-

marily in canvassing for business and interviewing customers for the purpose of promoting the further use of wire-telegraph and ocean-cable services. (See particularly paragraphs (b) and (c) of § 35.03–17; also § 35.4223.)

§ 35.4215 *Wages of messengers.* This account shall include the amounts of compensation of employees engaged primarily in the pick-up and delivery of messages and in performing errand services. (See particularly paragraphs (b) and (c) of § 35.03–17; also § 35.4239.)

§ 35.4219 *Wages of other operating-office employees.* This account shall include the compensation of employees engaged in any phase of conducting operations not provided for elsewhere. (See particularly paragraphs (b) and (c) of § 35.03–17; also §§ 35.4240, 35.4279, and 35.4285.)

§ 35.4221 *Field-supervision expense.* This account shall include the amounts of travel expenses and expenses not provided for elsewhere of officers and employees the compensation of whom is includible in account 4211, "Supervision of operations."

§ 35.4223 *Advertising and soliciting expense.* This account shall include the amounts of expenses incurred by employees whose compensation is includible in account 4214, "Wages of solicitors," and also expenses incurred in connection with commercial advertising for the purpose of promoting the further use of wire-telegraph and ocean-cable services, such as expenditures for newspaper advertising, literature, and similar items.

NOTE A: The costs of newspaper advertisements, literature, and similar expenses other than for commercial advertising purposes, such as advertisements of stock and bond issues, advertising for employees, and notices of dividends declared, shall be charged to the account appropriate for such costs.

NOTE B: The cost of flags, bunting, and similar expenses of decorating buildings shall be charged to account 9017, "House-service clearing account."

ITEMS

(See § 35.03–12)

Announcements of rate changes.
Commercial advertisements in newspapers and magazines.
Commercial advertising matter, such as posters, bulletins, booklets, and related items.
Electric current consumed in illuminating signs.
Exhibits in connection with industrial expositions, expenses of.
Expenses of canvassers, solicitors, and managers in charge of advertising and soliciting, and expenses of their office forces.
Lecture and demonstration tours for traffic-promotion purposes.
Public distribution of tariffs and notices of changes, expenses of.
Radio advertising programs.
Window displays.

§ 35.4231 *Messenger-uniform expense.* (a) This account shall include the amounts of expenses incurred in altering, repairing, cleaning, and pressing uniforms.

(b) This account shall include also the cost of uniforms purchased.

(c) Physical inventories of the uniforms in service (including surplus uniforms available for service) shall be taken each calendar year, and, if any such inventory exceeds $1,000, any adjustments to bring this account and account 65, "Messenger uniforms," into harmony with the results of such physical inventory, shall be made in accordance with the provisions of paragraphs (b) and (c) of § 35.65.

§ 35.4239 *Other messenger expense.* (a) This account shall include the amounts of expenses incurred in furnishing messenger service not provided for elsewhere.

(b) Expenses includible in this account include messenger carfare, and licenses and registration fees for bicycles and other vehicles used in messenger service.

§ 35.4240. *Operating power.* This account shall include the amounts of expenses incurred in supplying power for the operation of the wire-telegraph and ocean-cable plant. This includes the cost of power purchased, the cost of fuel and other supplies consumed, and other expenses incurred in the generation, conversion, and storage of current.

NOTE A: The cost of installation of permanent power circuits for emergency use shall be included in the appropriate plant account.

NOTE B: The expense of producing power for house-service purposes shall be included in account 9017, "House-service clearing account," or other appropriate account.

NOTE C: The compensation of employees engaged primarily in supplying operating power shall be included in account 4219, "Wages of other operating-office employees." (See paragraphs (b) and (c) of § 35.03–17.)

§ 35.4251 *House service; operating offices.* This account shall include the amounts of expenses incurred for house service of operating offices. (See the item list in § 35.9017.)

§ 35.4255 *Postage and stationery; operating offices.* This account shall include the amounts of expenses incurred for postage, message blanks, and other stationery for use in operating offices.

§ 35.4259 *Other supplies; operating offices.* This account shall include the amounts of expenses incurred for supplies used in operating offices not provided for elsewhere. (See particularly § 35.4255.)

§ 35.4261 *Rents for operating offices.* This account shall include the amounts of expenses incurred as rent for space used for operating offices.

NOTE: Repairs and taxes borne by the lessee under the terms of the lease should be charged to the appropriate maintenance and tax accounts. (See, e. g., accounts 4150, "Maintenance of real estate," and 4932, "Other taxes: operating.")

ITEMS

(See § 35.03–12)

Periodic rents (paid in cash).
Repairs (paid for lessor and deducted from cash payments of rent).
Taxes and fees (paid for lessor and deducted from cash payments of rent).

§ 35.4269 *Rents for other facilities.* This account shall include the amounts of expenses incurred as rents for the use of facilities other than space or leased plant comprising substantially complete operating systems or operating units held in exclusive possession by the carrier. It shall include rents for such facilities as ducts, conduits, material yards, poles, circuits, conductors, and transmitting and receiving equipment. (See also §§ 35.4261 and 35.5205.)

§ 35.4271 *Telephone company service.* (a) This account shall include the amounts of expenses incurred for services furnished by telephone companies.

(b) Charges to this account shall be subdivided as follows:

4271:91 Local service.
4271:92 Toll service.
4271:93 Billing and collection.
4271:99 Other telephone company service. (See notes A and B.)

NOTE A: Rents for such facilities as ducts, conduits, material yards, poles, circuits, conductors, and transmitting and receiving equipment shall be included in account 4269, "Rents for other facilities."

NOTE B: Commissions for services rendered by telephone companies or others in originating and terminating messages shall be included in account 4273, "Terminal commission charges." (See particularly §§ 35.03–20 and 35.31–3.)

§ 35.4273 *Terminal commission charges.* (a) This account shall include the amounts of commissions paid to other communication carriers, transportation companies, hotels, service stations, or other persons not employees of the carrier, for services rendered in originating and terminating messages or for similar communication services rendered to the carrier. (See particularly § 35.03–20; also §§ 35.3350 and 35.4275.)

(b) The records supporting the entries in this account shall be so maintained that in reports to the Commission there may be shown the amounts paid to (1) telephone companies, (2) other communication companies, and (3) others.

§ 35.4275 *Terminal commissions; expense credit.* This account shall include the amounts of commissions received from other carriers for services rendered in originating or terminating messages, or for similar communication services involving the incidental use of the accounting carrier's employees and facilities. (See particularly §§ 35.03–20 and 35.3350.)

§ 35.4279 *Obtaining news (CND) services.* This account shall include the amounts of expenses incurred in gathering information relative to stock and other market quotations, transactions in securities, sporting news, election returns, marine reports, and similar items subsequently disseminated to subscribers as news services.

NOTE: The compensation of employees engaged primarily in obtaining news services shall be included in account 4219, "Wages of other operating-office employees." (See paragraphs (b) and (c) of § 35.03–17.)

§ 35.4281 *Traffic-damage awards.* (a) This account shall include the amounts of obligations incurred in the settlement of damages arising out of claims of delays and errors in service, including the amounts of revenues refunded in partial or complete settlement of such claims.

(b) The records supporting the entries in this account shall be so maintained as to show the amounts of settlements made during the accounting period with respect to delayed-delivery, nondelivery, error, and other causes, separately with respect to messages and to money orders.

(c) There shall be classed as delayed-delivery claims, those arising from delays in transmission or delivery; as nondelivery claims, those arising from failure to deliver; as error claims, those arising from error in transmission or delivery, except such as may be classified as delayed-delivery or nondelivery claims; and as other types of claims, those arising from causes not shown above, such as libel, fraud, and similar bases.

NOTE A: Expenses incident to traffic-damage claims shall be included in account 4285, "Traffic-damage expense."

NOTE B: The costs incurred on account of injuries to persons and damages to the property of others shall be included in account 4325, "Injuries and damages," or other appropriate account. (See particularly paragraph (c) (5) of § 35.1–3.)

§ 35.4285 *Traffic-damage expense.* This account shall include the amounts of expenses incurred in connection with closing claims for traffic damages, including court costs, the pay and expenses of witnesses other than employees, and the legal and other expenses incurred in connection with investigating, defending, or settling traffic-damage claims.

NOTE: The pay and expenses of officers and employees of the carrier shall be excluded from this account and included in account 4211, "Supervision of operations," account 4219, "Wages of other operating-office employees," account 4221, "Field-supervision expense," or other appropriate account.

§ 35.4291 *Rest and lunch rooms.* (a) This account shall include the amounts of net costs incurred in operating rest and lunch rooms for employees, including the costs of meals provided and the costs of operating such facilities as rest rooms, quiet rooms, reading rooms, medical rooms, locker rooms, check rooms, and sleeping rooms.

(b) At cable-relay points and other places where subsistence is furnished to employees, a separate subdivision of this account shall be maintained in which shall be included the compensation of farm laborers, mess attendants, and other persons engaged in furnishing subsistence to the carrier's employees.

(c) Amounts received by the carrier for meals and other services the expense of which is included in this account, shall be credited under a separate subdivision.

§ 35.4295 *Employment and training.* (a) This account shall include the cost of training new operators and other employees, either in school or otherwise, including the wages paid them for which no service is rendered, the salaries and expenses of instructors, and the cost of supplies furnished.

(b) This account shall include also the cost of advertising for employees and the office and other expenses of personnel officers and employees engaged in interviewing and hiring applicants.

§ 35.4299 *Other conducting-operations expenses.* This account shall include the amounts of expenses incurred in conducting operations not provided for elsewhere.

General Expenses

§ 35.4311 *Legal services.* This account shall include amounts payable to persons other than officers and employees of the carrier for legal services and related expenses not includible in other operating-expense accounts or in the plant accounts. (See particularly §§ 35.4285, 35.4315, 35.4323, and 35.4325; also paragraph (c) (13) of § 35.1–3.)

NOTE: The compensation and expenses of the legal staff of the carrier shall be included in account 4410, "Salaries of general officers and executives," accounts 4420 "Salaries of general office employees," account 4430, "Expenses of general officers and general office employees," or other appropriate account. (See also § 35.03–17.)

§ 35.4315 *General services, licenses, and royalties—Dr.* (a) This account shall include the amounts of expenses incurred for services received under a license agreement, a general service contract, or other arrangement providing for the furnishing of general management, supervision, purchasing, accounting, engineering, financial, legal, patent, or other general services.

(b) The records supporting the entries in this account shall be so maintained as to show the respective amounts paid to each furnisher of the service with respect to each class of service so furnished. If the costs incurred in the first instance by the person furnishing the service are apportioned to the several recipients thereof, the records of the carrier served shall indicate the aggregate cost to the furnishing person and the method of apportionment to the recipient carrier.

§ 35.4317 *General services, licenses, and royalties—Cr.* (a) This account shall be credited with amounts accruing (other than profits realized) from services rendered others under a license agreement, a general service contract, or other arrangement providing for the furnishing of general management, supervision, purchasing, accounting, engineering, financial, legal, patent, or other general services.

(b) Minor amounts of profits from such arrangements may be included in this account. (See also § 35.5020.)

§ 35.4321 *Insurance.* (a) This account shall include the net cost (i. e., the amounts of premiums less the amounts of dividends or refunds), not provided for elsewhere, of commercial insurance including insurance to protect the carrier against losses on account of injuries to or deaths of persons other than employees and damages to owned or leased property used in wire-telegraph and ocean-cable services.

(b) This account shall also include amounts representing the current charges for self-carried insurance that are credited to account 2215, "Provisions for self-carried insurance." (See particularly the text of that account.)

(c) There shall be included in this account special costs incurred in procuring insurance, such as brokerage fees, notarial fees, and insurance inspection service, and the compensation and the travel, office, and other expenses of officers and employees engaged primarily in insurance work.

(d) In addition to the subdivisions prescribed in paragraph (c) of § 35.41–4, this account shall be further subdivided as follows (using the indicated numerals as the second digit in combination with the appropriate first digit):

1 Property-insurance premiums.
2 Other insurance premiums.
3 Self-carried insurance.
9 Other insurance expense.

(e) Among the insurable risks, the amounts of insurance premiums for protection against which are chargeable to this account, when incurred in connection with the carrier's wire-telegraph and ocean-cable operations, are the following:

INSURABLE RISKS

(See § 35.03–12)

Boiler explosion.
Burglaries, holdups, check alterations, and forgeries.
Business interruption (i. e., use and occupancy insurance).
Damages to the property of others.
Defalcation of employees and agents.
Fire, flood, storm, and other casualties to operated plant.
Injuries to or deaths of persons other than employees.
Nonperformance of contractual obligations of others.

NOTE A: All losses sustained including those covered by commercial insurance or provisions for self-carried insurance shall be charged to the allowance-for-depreciation, construction, injuries-and-damages, or other appropriate account, according to the character of the loss. Recoveries from insurance companies or others shall be credited to the particular account or accounts in which the loss covered by the insurance is includible. (See also note B in § 35.2215.)

NOTE B: Premiums on life insurance and annuities of officers and employees shall be included in account 4327, "Relief and pensions," except that when the carrier is the beneficiary the cost of such insurance shall be charged to account 5299, "Other deductions from ordinary income," or, if the carrier so elects, the cash surrender value may be included in account 1799, "Other current assets," in which event the excess of cost of the insurance over such cash surrender value shall be charged to account 5299.

NOTE C: Premiums for reinsurance of self-carried insurance shall be charged to account 2215, "Provisions for self-carried insurance."

NOTE D: Employer's liability insurance shall be included in account 4323, "Workmen's compensation."

NOTE E: Insurance applicable to construction shall be included in account 1300, "Plant under construction."

§ 35.4323 *Workmen's compensation.* (a) This account shall include the net cost (i. e., the amounts of premiums less the amounts of dividends or refunds), not provided for elsewhere, of insurance required to provide for workmen's compensation or similar employee protection in connection with wire-telegraph and ocean-cable operations, whether such insurance is provided by means of pre-

miums payable to governmental agencies or commercial insurance companies.

(b) This account shall also include amounts, based upon reasonable estimates as to the requirements thereof, that are credited to an appropriate subaccount of account 2215, "Provisions for self-carried insurance," when, under statutes to which the carrier is subject, self-insurance of risks for workmen's compensation or for employees' liability is required or permitted.

(c) This account shall include also the amounts (not provided for elsewhere) of awards, not covered by insurance, made either voluntarily or by order of a court or other authority such as a workmen's-compensation board.

(d) There shall be included in this account (1) special costs incurred in procuring insurance for workmen's compensation, such as brokerage fees, notarial fees, and insurance inspection service, (2) fees of attorneys, investigators, and adjusters in connection with workmen's compensation, (3) court costs and similar items in connection with the settlement of claims for workmen's compensation, (4) costs of furnishing medical aid to injured employees, and (5) the compensation and the travel, office, and other expenses of officers and employees primarily engaged in or specifically assigned to work in connection with procuring insurance and settling claims for workmen's compensation.

(e) In addition to the subdivisions prescribed in paragraph (c) of § 35.41–4, this account shall be further subdivided as follows (using the indicated numerals as the second digit in combination with the appropriate first digit):

1 Payments to governmental authorities.
2 Premiums to commercial insurance companies.
3 Charges for self-carried insurance.
4 Awards where bond is posted or deposit is required by statutes.
5 Awards by court or other governmental authority where no bond or deposit is posted.
6 Awards voluntarily granted by the carrier.
9 Other workmen's-compensation expense.

NOTE A: All awards made including those covered by commercial insurance or provisions for self-carried insurance shall be charged to this account or to the allowance-for-depreciation, construction, or other appropriate account, according to the character of the loss. Recoveries, if any, from insurance companies or others made by the carrier rather than directly by the employee shall be credited to the particular account or accounts in which the amount of the award was included. (See also note B in § 35.2215.)

NOTE B: Workmen's-compensation insurance and awards shall be included in account 1300, "Plant under construction," when applicable to construction, and in account 1515, "Allowance for depreciation—Wire-telegraph and ocean-cable plant," when applicable to removal costs.

NOTE C: If under the terms of the carrier's benefit plan the amount of compensation in some instances exceeds the statutory requirements, and if the continuous current segregation of such excess into account 4327, "Relief and pensions," is impracticable, the entire amount paid may be charged to this account, provided that the carrier's records are so maintained as to permit the determination of the aggregate of such excess amounts.

§ 35.4325 *Injuries and damages.* (a) This account shall include the amounts of losses (not provided for elsewhere) which occur in connection with the carrier's wire-telegraph and ocean-cable operations, including injuries to or deaths of persons other than employees, damages to the property of others (whether occasioned by fire, flood, storm, or other cause), and penalties incurred for nonperformance of contractual obligations.

(b) When an admitted liability arises on account of injuries or damages, the excess of the loss (estimated if not known) over the amount insured (whether by commercial insurance or self-carried insurance) shall be charged to this account and credited to an appropriate subaccount of account 2299, "Other provisions for future settlements." When an estimated liability has been so charged to this account, subsequent adjustments between this account and account 2299 shall be made in accordance with the provisions of § 35.03–14.

(c) This account shall include also (1) the compensation and the travel, office, and other expenses of officers and employees primarily engaged in or specifically assigned to work in connection with the settlement of claims for injuries to persons other than employees and damages to the property of others, (2) fees of attorneys, investigators, and adjusters, and (3) court costs and similar items in connection with the settlement of claims.

(d) The amounts of injury and damage payments provided for by commercial insurance or by provisions for self-carried insurance shall be credited to this account and charged to the insurer or to account 2215, "Provisions for self-carried insurance," as appropriate.

NOTE A: There shall not be included in this account the amounts of premiums for insurance. (See § 35.4321.)

NOTE B: Costs applicable to workmen's compensation shall be included in account 4323, "Workmen's compensation."

NOTE C: Losses incurred on account of traffic damages shall be included in account 4281, "Traffic-damage awards," or account 4285, "Traffic-damage expense," as appropriate.

NOTE D: The cost of incidentally repairing property of others damaged in connection with maintenance or construction work shall be included in the cost of such work.

§ 35.4327 *Relief and pensions.* (a) This account shall include pensions or other benefits paid to active and retired employees, their representatives or beneficiaries, and salaries and expenses incurred in conducting relief, benefit, and general medical departments. It shall include payments to or on behalf of employees on account of injuries or accidental death when such payments come within the scope of a carrier's general provision for employees' benefits.

(b) If the carrier has definitely undertaken by contract to pay pensions to employees when regularly retired for superannuation or disability and has established a fund to be held in trust for such pension purposes, the carrier shall charge to this account monthly amounts determined through the application of equitable actuarial factors to the current pay rolls, which, together with interest accruals on the trust funds, will as nearly as may be, provide for the payment of such pensions, or for the purchase of annuities corresponding thereto. The amounts so charged shall be concurrently credited to a separate subaccount under account 2210, "Provisions for employees' pensions and welfare." The amounts accrued in each year shall correspond to the aggregate of the amounts expended directly by the carrier for pensions or annuities during the year and amounts paid into the trust fund. The carrier shall maintain a complete record of the actuarial computations through which the accrual each month of its pension liabilities is established.

(c) Upon the adoption of the accrual plan of accounting, pension payments to employees retired before the adoption of such plan shall be charged to an existing pension reserve or to account 6120, "Extraordinary current income charges." If a carrier pays into its pension trust fund the amount of its existing pension reserve, any such amounts in excess of provision for pensions granted prior to the adoption of the accrual plan may be applied in whole or in part to the adjustment of future accrual charges.

(d) Before adopting the accrual plan of accounting for pensions the carrier shall inform the Commission of the details of its pension plan giving full statement of the facts which in its judgment establish a contractual obligation for pension payments together with the actuarial formula under which it proposes to create its pension trust fund, and also a copy of the declaration of trust under which the fund is established. Each carrier that has adopted the accrual plan of accounting for pensions shall make no change in the accounting therefor or in the method of computing the amounts of the accruals recorded in the accounts under the plan without first submitting full particulars of the proposed changes and a detailed statement of the reasons therefor to the Commission for its consideration and approval.

(e) No charges to this account shall be made in anticipation of discretionary pension payments in the future.

(f) This account shall include also, under a separate subaccount, amounts accrued to provide for the payment of termination allowances or similar benefits to employees of the carrier when such employees are laid off because of lack of work, and to provide necessary and warranted relief to former employees. Charges to this subaccount shall be made only after approval by the Commission of the carrier's plan for administering payments for these purposes and of the amount of the accruals. Amounts charged to this subaccount shall be concurrently credited to account 2210, "Provisions for employees' pensions and welfare."

(g) There shall be credited to this account that portion of each class of relief and pensions assigned to construction and custom-work labor.

ITEMS

(See § 35.03–12)

Accident, sickness, death, and other disability benefits to employees, their representatives or beneficiaries.
Employees of relief, benefit, and general medical departments, pay and expenses of.
Expenses in connection with employees' disability cases, such as hospital, nursing, and medical attendance.
Fees and retainers for medical and similar services incurred by relief, benefit, and general medical departments.
House service.
Medical supplies.
Office supplies.
Postage, printing, and stationery.
Premiums paid for group insurance for the benefit of employees or their beneficiaries.
Repairs of furniture and equipment, and cost and repairs of individual items of small value or short life.
Travel expenses.

§ 35.4341 *Franchise requirements.* (a) This account shall include the amounts of payments to governmental authorities and the cost of materials, supplies, and services furnished such authorities without reimbursement in compliance with franchise, ordinance, or similar requirements, except that communication services so furnished may be included in this account at effective rates instead of cost.

(b) This account shall include the amounts of payments for franchises running for 1 year or less after acquisition, and may include direct charges for franchises acquired at small cost.

(c) This account shall have the following subdivisions: "Cash outlays" (for the inclusion of amounts subject to cash settlement), "Communication services—Dr." and "Communication services—Cr." (for the inclusion of charges and credits, respectively, representing the amounts of revenues that would be derived at the effective rates from wire-telegraph and ocean-cable services that are furnished without direct compensation), and "Other" (for the inclusion of items not otherwise provided for). Thus, in addition to the subdivisions prescribed in paragraph (c) of § 35.41–4, this account shall be further subdivided as follows (using the indicated numerals as the second digit in combination with the appropriate first digit):

1 Cash outlays.
2 Communication services—Dr.
3 Communication services—Cr.
9 Other.

NOTE A: The cost of plant, supplies, and similar items given as an initial consideration for a franchise running for more than 1 year shall be included in the plant accounts.

NOTE B: Franchise taxes paid annually or more frequently shall be included in account 4932, "Other taxes: operating."

NOTE C: The cost of operated plant furnished to a governmental agency without charge or used by the carrier in rendering services to a governmental agency without charge shall be included in the appropriate plant accounts, and the maintenance expenses incurred in connection with such operated plant shall be charged to the appropriate maintenance accounts.

NOTE D: The cost of reconstructing, or of changing the location of, operated plant to conform with governmental requirements, including such work required under the provisions of a franchise or ordinance, shall be charged to the maintenance-expense, operated plant, and allowance-for-depreciation accounts appropriate for the work performed.

§ 35.4399 *Other general expenses.* This account shall include the amounts of operating expenses not includible in other accounts.

ITEMS

(§ 35.03–12)

Commissions paid agents for leasing space to others in buildings partly occupied by the carrier in connection with its communication operations.
Conventions and meetings of the industry, contributions for.
Fees and expenses of directors.
Patents having an estimated service life of 1 year or less and patents acquired at small cost, amounts paid for.
Research and development work, not includible in other accounts, cost of. (See also § 35.03–10.)

Administrative Expenses

§ 35.4410 *Salaries of general officers and executives.* This account shall include the amounts of compensation of officers and executives of the carrier that are properly chargeable to wire-telegraph and ocean-cable operations and are not directly applicable to a particular function. (See also §§ 35.03–17 and 35.41–5.)

§ 35.4420 *Salaries of general office employees.* This account shall include the amounts of compensation of employees engaged in the general offices of the carrier that are properly chargeable to wire-telegraph and ocean-cable operations and are not directly applicable to a particular function. (See also §§ 35.03–17 and 35.41–5.)

§ 35.4430 *Expenses of general officers and general office employees.* This account shall include the amounts of expenses incurred for the benefit of the carrier in its wire-telegraph and ocean-cable operations by general officers and executives and general office employees whose compensation is includible in account 4410, "Salaries of general officers and executives," or account 4420, "Salaries of general office employees."

§ 35.4499 *Other administrative expenses.* (a) This account shall include the amounts of expenses incurred in carrying out administrative functions that are not provided for elsewhere.

(b) Among the items includible in this account are the costs of postage, stationery, and printing for use in general offices, repairs of office furniture, rents, and other analogous expenses of general offices.

CLEARING ACCOUNTS

INSTRUCTIONS

§ 35.90–1 *Purpose of clearing accounts.* The clearing accounts are provided primarily as a medium for the distribution of certain amounts that affect more than one account.

§ 35.90–2 *Disposition of balances in clearing accounts.* (a) The balances in the clearing accounts shall be distributed to the appropriate accounts not later than the end of the calendar year unless amounts included therein appropriately affect the accounting for future periods. Such distribution shall be made by (1) transferring to the appropriate accounts all items that are known to be applicable to each such account and (2) apportioning the remaining amounts among the several accounts on an equitable basis. The carrier shall be prepared to explain at any time, particularly in its annual reports to the Commission, the practices occasioning the carrying forward of balances in these accounts as at the end of any accounting period.

(b) The undistributed balances that appropriately affect the accounting for future periods shall be stated on the balance sheet under account 1940, "Debit balances in clearing accounts," or account 2320, "Credit balances in clearing accounts," as appropriate, except that any undistributed balance in account 9016, "Supply clearing account," shall be reported on the balance sheet under account 1795, "Material and supplies." (See particularly paragraph (f) of § 35.–1795.)

§ 35.90–3 *Subdivisions of clearing accounts.* Each clearing account that includes more than one of the following elements shall be subdivided as follows:

:1 Direct labor.
:2 Supervision and other overheads.
:3 Direct material (including supply expense).
:9 Other charges.

PRESCRIBED ACCOUNTS

NOTE: Number to the right of the decimal point is the account number.

§ 35.9011 *Research and development clearing account.* (a) This account shall include the costs incurred in the operation of laboratories and experimental stations for the development of equipment, systems, and methods for use by the carrier in wire-telegraph and ocean-cable services; including the pay and expenses of employees engaged in research and development, the cost of models, the allocable portion of expenses for supervision, clerical forces, materials, supplies, rents, and other expenses incurred in maintaining general laboratories for research and experimental work. (See also § 35.03–10.)

(b) Amounts included in this account applicable to projects that have been abandoned shall be cleared by credits hereto and, when borne by the carrier shall be charged to account 6120, "Extraordinary current income charges," unless otherwise authorized or directed by the Commission.

ITEMS

(See § 35.03–12)

Compensation and expenses of employees.
Depreciation.
Heat, light, and power.
Maintenance.
Material and supplies.
Rent.
Repairs.
Royalties.
Small tools.

§ 35.9012 *Vehicle clearing account.* This account shall include the net costs incurred in the operation of (1) vehicles and other transportation equipment the cost of which is includible in account 71,

"Vehicles," and (2) similar operated plant leased from others, including depreciation and maintenance and other expenses applicable to such equipment.

NOTE: Amounts received for the use of the carrier's vehicles while in the exclusive possession of others shall be credited to account 5010, "Income from operated plant leased to others," either directly or through this account.

§ 35.9013 *Shop clearing account.* This account shall include the costs incurred in the operation of the carrier's repair shops, and shops engaged in manufacturing or in reprocessing of material, including depreciation and maintenance and other expenses applicable to such shops.

ITEMS

(See § 35.03–12)

Compensation and expenses of shop employees.
Depreciation.
Heat, light, and power.
Maintenance.
Material and supplies.
Repairs, including the cost of repairing reusable material.
Rent.
Small tools.

§ 35.9014 *Tool and implement clearing account.* (a) This account shall include the costs incurred in the operation of (1) general tools and implements the cost of which is includible in account 74, "Tools and implements," and (2) similar operated plant leased from others, including depreciation and maintenance and other expenses applicable to such equipment.

(b) This account shall include also the cost of hand and other portable tools that have relatively small value or short life when properly includible in this account under the provisions of paragraph (d) of § 35.1–1.

ITEMS

(See § 35.03–12)

Depreciation.
Maintenance.
Material and supplies.
Rent.
Small tools.

§ 35.9015 *Plant - supervision clearing account.* This account shall be used when supervisory officers or employees of the carrier are regularly assigned to duties that involve construction, maintenance, and operation work or any combination of these types of work. When so used, this account shall be charged initially with the compensation and the office and other expenses of such officers and employees. (See particularly §§ 35.03–17 and 35.41–5.)

ITEMS

(See § 35.03–12)

Books and periodicals.
Compensation and expenses of plant-supervising officers and their staffs—including engineers, office and field forces charged with planning for and superintending maintenance, construction, and plant removal work.
Heat, light, and power for offices.
Postage, printing, and stationery.
Rent and repairs of offices.
Supplies.
Tools and instruments of small value or short life.

§ 35.9016 *Supply clearing account.* (a) This account shall include the costs incurred in connection with the purchase, storage, handling, and distribution of material and supplies.

(b) Amounts includible in this account include depreciation and maintenance on equipment the cost of which is includible in account 73, "Store and warehouse equipment," transportation charges on material purchased that are impracticable of association with the particular material to which they are related, and the cost of repairing reusable material when such cost cannot be associated with the particular material to which it is related. (See also paragraph (a) (6) of § 35.41–7.)

(c) This account shall be credited with the amounts of cash or other discounts on purchases when it is impracticable to associate such discounts with the particular material to which they relate.

(d) This account shall be cleared by adding to the cost of material and supplies a suitable loading charge that will equitably distribute the amounts contained herein.

NOTE: Transportation charges on material recovered from plant shall be charged to the account to which the cost of removal is charged.

ITEMS

(See § 35.03–12)

Books and periodicals.
Compensation and expenses of purchasing agents, superintendents and supervisors of supplies, managers of stores, storekeepers, clerks, and laborers.
Customs duties and excise taxes.
Depreciation and maintenance of storeroom equipment.
Insurance against losses and damages to material and supply stock. (See also §§ 35.1795 and 35.4321 and paragraph (c) (9) of § 35.1–3.)
Inventory differences in material and supplies that cannot be assigned to specific accounts. (See also paragraph (e) of § 35.1795.)
Losses due to breakage, leakage, evaporation, and fire and other casualties to supply stock not assigned to specific accounts or distributed through the pricing of material and supplies disbursed.
Postage, printing, and stationery.
Rent and repairs of storehouses, storerooms, storage yards, and other quarters.
Supplies used.
Transportation charges, undistributed.

§ 35.9017 *House-service clearing account.* This account shall include the costs incurred in the operation of buildings and space (whether owned or rented) occupied by offices.

ITEMS

(See § 35.03–12)

Cleaning supplies.
Compensation and expenses of building superintendents and others engaged in supervising house-service operations.
Elevator service.
Heat.
Janitor service.
Light.
Postage, printing, and stationery.
Power. (See also § 35.4240.)
Refrigeration.
Rent and repairs of quarters used in the supervision of general house-service operations other than space used by janitors and similar employees in furnishing house service for a particular building.
Supplies.

§ 35.9018 *Floating-equipment clearing account.* This account shall include the net costs incurred in the operation of (1) floating equipment the cost of which is includible in account 75, "Floating equipment," and (2) similar operated plant leased from others, including depreciation and maintenance and other expenses applicable to such equipment.

NOTE: Amounts received for the use of the carrier's floating equipment while in the exclusive possession of others shall be credited to account 5010, "Income from operated plant leased to others," either directly or through this account.

§ 35.9019 *Railway-equipment clearing account.* This account shall include the net costs incurred in the operation of (1) railway equipment the cost of which is includible in account 76, "Railway equipment," and (2) similar operated plant leased from others, including depreciation and maintenance and other expenses applicable to such equipment.

NOTE: Amounts received for the use of the carrier's railway equipment while in the exclusive possession of others shall be credited to account 5010, "Income from operated plant leased to others," either directly or through this account.

RETIREMENT UNITS

§ 35.1–6–1 *List of units to be used in connection with the accounting provided in § 35.1–6.* (a) The following list of retirement units shall not be considered as determining the classification of plant (see § 35.03–12) or as property units for use in continuous property records (see § 35.1–8), but shall be used in connection with the accounting for operated plant retired (see § 35.1–6).

(b) Elimination of or substitution for retirement units listed herein may not be performed without specific authority by the Commission except that retirement units which are not combinations of the listed retirement units may be added without such authority and carriers may account for listed units as maintenance when of small cost and not complete units of operated plant.

(c) This list shall be expanded by the carrier to include complete units of operated plant not shown herein.

(d) The carrier shall report to the Commission, within 90 days after June 30 of each year, and as at that date, all additions which have been made to the list under this authority, all units included in the list which have become obsolete, either as to technical titles or as to use in communication service, and the units which the experience of the carrier has shown to involve a small cost only. These reports should include such other information concerning the list as the carrier may desire to place before the Commission with requests for appropriate action by the Commission in the matters described.

(e) The article "a," "an," or "the," as appropriate, should be read in connection with each retirement unit listed herein.

OUTSIDE PLANT

Land Used for Right of Way (Account 11)

Parcel—any size.

Land Improvements (Account 14)

Barrier or fence, snow—complete length of or section of.
Bench (park, tennis court, etc.).
Billboard or sign (isolated outdoor signs not associated with buildings or other structures).
Bridge or trestle, foot or road.
Court, tennis—complete.
Curbing—continuous length of 50 feet or more.
Fence or wall—continuous length of 50 feet or more.
Gate, ornamental.
Hedge—continuous length of 50 feet or more.
Lane or cleared area (forest fire protection)—parcel of any size.
Lawn—complete.
Lighting system, yard—complete; or
  Cable, buried—continuous length of 300 feet or more.
  Fixtures, light—all in one yard.
  Pole, post, or standard (with or without appurtenances).
Platform, loading (associated with a railroad spur or siding—not part of a building)—complete.
Pole, flag.
Pool, swimming (outdoor—not part of a building)—complete.
Roadway—continuous length of 50 feet or more.
Sidewalk—continuous length of 50 feet or more.
Spur or siding, railroad—complete.
Stand or pit (outdoor), car-washing or greasing.
Track, railroad—continuous length of 50 feet or more.
Trees, shrubbery, etc.—entire group in a specific area.

Buildings (Account 15)

Building—complete; or
  Boiler.
  Conveying system, coal or ash.
  Elevator—complete with operating mechanism.
  Equipment (items, such as the following, with or without associated wiring, control equipment, etc.):
    Compressor.
    Drum, elevator.
    Engine.
    Fan, ventilating.
    Generator.
    Motor.
    Pump.
    Turbine.
    Washer, air.
  Fire escape—complete.
  Floor covering for one room.
  Furnace.
  Gas burner system.
  Heater, hot-water.
  House lighting or power board.
  Oil burner system.
  Roof (with or without supporting members)—entire.

NOTE A: A building of irregular shape having more than one roof level may have several isolated roofs, each of which shall be considered an entire roof. In the case of buildings to which lateral extensions have been made, even though having but one roof level, that part of the roof covering an entire section built at one time shall be considered an entire roof.

Stoker, autotmatic.
Tank, oil.
Window, metal—complete (i. e., box, frame, and sash).

NOTE B: In addition to the above units of property, material (i. e., portions of buildings, equipment, fixtures, etc.) installed and retired, and the labor and incidental costs involved in connection with work of the following character, shall be handled through the plant and depreciation allowance accounts:

(1) Changes in the type of operation of elevator systems, e. g., a change from manual to automatic control of cars, from manual to power operation of doors, from low speed to high speed, from direct to alternating current, from hydraulic to electric operation, from one type of signaling or dispatching system to another.

(2) Relocation of toilet rooms, battery rooms, kitchens, terminal rooms, machine rooms, transformer vaults, etc.

(3) Structural changes such as: (a) Reinforcements of floors, roofs, bearing walls, footings, and foundations; (b) additions or relocations of elevator shafts, stairways, fire exits, and vaults, but excluding switchboard cable holes and slots; and (c) building alterations required for fire protection and other safety measures.

(4) Changes in the type of electric current supply, or of ventilating, air conditioning, or similar systems.

(5) Building enlargements.

(6) Replacements of the following character—

(a) Replacements of plumbing or heating pipes (with or without associated valves) except when necessitated by minor repairs or minor relocations of fixtures.

(b) Replacements of all or substantially all the lighting fixtures (with or without associated wiring and conduit) in one operating or equipment room or, in the case of office space, on one floor of a building.

(c) General replacements (throughout a building or throughout an entire portion erected at one time) of items such as supply, return, or air valves in heating systems; hot or cold water valves or faucets; and plumbing, heating, or drainage traps.

Poles (Account 21)[1]

Cross arm (i. e. wooden cross arm, guard arm or cable cross arm, including extension arms), with or without associated braces and other hardware.
Fixture, special (i. e., a bridge fixture, a tower or other special river crossing or long-span fixture), with or without associated anchors, guys, etc.
Pole (i. e., line pole, brace pole, guy pole, or pole forming part of an A or H fixture), with or without associated anchors, guys, steps, etc.

Aerial Wire (Account 22)[1]

Antenna, with or without supports—complete.
Equipment such as loading coils, building-out condensers, carrier-line filters, or auto-transformers—case.
Underground dip cable, between poles and/or buildings—section of.
Wire (with or without associated steel pins, insulators, transposition brackets, etc.)—one mile or more of one bare wire, or one thousand (1,000) feet or more of one insulated wire.

[1] Ocean-cable carriers may, with respect to pole lines and cables located outside the continental United States, consider as retirement units (1) one entire land section of cable or one continuous mile thereof, whichever is less, and (2) one continuous mile of pole line with or without associated cable, wire, cross-arms, and fixtures.

RETIREMENT UNITS

Aerial Cable (Account 23)[1]
Underground Cable (Account 24)[1]
Buried Cable (Account 25)[1]
Submarine Cable (Account 26)[1]
House Cable (Account 27)[1]
Ocean Cable (Account 31)[1]

Span of cable, with or without associated suspension strand, clamps, rings, etc. (The term "a span" shall include a length of cable from a "Y" splice not located at a pole to a pole or building).
Section or run of cable, with or without associated elements and parts, as follows:

(1) Between a manhole, handhole, or service box and a pole, building, fence, wall, or the junction with house cable.

(2) Between manholes, handholes, or service boxes; or between an office cable vault and an office manhole.

(3) Between a cable vault or an office manhole and the junction with the main frame terminating cables.

(4) A section of buried cable 300 feet or more in length, or a section of buried cable between manholes, splicing boxes, or pedestals.

(5) All of a continuous run of one size of house cable. ("All of a continuous run of one size" means a section between splices other than straight splices).

(6) All of a continuous run of one size of block cable, i. e., cable attached to buildings, walls, or fences. ("All of a continuous run of one size" means a section between splices other than straight splices).

(7) All of a submarine cable for one crossing; or a section of submarine cable 300 feet or more in length.

(8) A section of underground dip cable between poles and/or buildings, or the appropriate units listed above.

(9) A section of ocean cable between two terminal points, or a section involved in rerouting such cable.

Any length of cable which is a continuation of a unit of cable and is replaced with such unit.
Any length of cable connected with but not a part of a terminal, or a case of equipment such as loading coils when replaced with the terminal or case of equipment.
Main frame terminating cables (generally silk and cotton insulated)—All the cables including forms used for terminating one outside cable. Anchorage, submarine cable.
Cross connecting frame, underground or buried cable.
Equipment such as loading coils, building-out condensers, carrier-line filters, or auto-transformers—case.
Frame, submarine or house cable terminating.
Fuse pot.
Hut or house, submarine cable.
Terminal (cable), protected or unprotected, with or without associated balcony, pole seat, pedestal, etc.—complete.
Terminal (pressure contactor), with or without contactor.

Underground Conduit (Account 28)

Conduit, section of—

(1) Between two manholes, handholes, or service boxes.

(2) Between a manhole, handhole, or service box and a pole or building.

(3) Between an office cable vault and an office manhole.

(4) Underground dips—between two poles; between a pole and a building; between two buildings; or units (1) and (2) above.

Manhole, handhole, or service box.

NOTE: When a manhole is reconstructed, i. e., enlarged or changed in design, the in-

vestment representing the portions of the manhole removed, whether or not replaced, shall be written off to the depreciation allowance account.

Pneumatic Tubes (Account 29)

Manhole or handhole.
Tubing, with or without protective covering, section of—

(1) Between two manholes or handholes.
(2) Between a manhole or handhole and a building or the junction with a house tube line.
(3) A section of buried tubing 300 feet or more in length.
(4) Any length of tubing that is a continuation of a unit of tubing and is replaced with such unit.

Vehicles (Account 71)

Each complete item of equipment (the original cost of which was charged to the plant account), such as—

Automobile, passenger.
Derrick, pole.
Earth boring machine.
Tractor.
Trailer.
Truck, with or without body.
Winch, power.

Shop Equipment (Account 72)

Each principal item of shop equipment, such as—

Air compressor.
Anvil.
Bench, work.
Blower.
Boiler, with or without piping or equipment.
Boring mill.
Box, bin, or rack.
Buffer.
Cabinet, storage.
Compressed air tool.
Convertor.
Crane.
Derrick.
Drill, power.
Engine.
Fire extinguisher.
Forge.
Generator.
Gas producer.
Grinder, power.
Hammer, power.
Hoist.
Ladder.
Lathe.
Loader, power.
Locker, storage.
Milling machine.
Motor (not part of another unit).
Planer.
Power board.
Pneumatic tool.
Press.
Pump.
Pump, gasoline.
Pump, oil.
Riveter.
Saw, power.
Scale.
Shelving, movable—section of.
Spray gun.
Stocks and dies—set of.
Table, repair or paint.
Testing set, non-portable.
Time clock.
Torch.
Transmission shaft, power, with or without pulleys.
Truck, hand.
Vise.
Winch.
Wire measuring machine.

Store and Warehouse Equipment (Account 73)

Each principal item of store and warehouse equipment, such as—

Barrow.
Bench, work.
Box, bin, or rack.
Cabinet, storage.
Cart.
Conveyor.
Counter.
Crane.
Hoist.
Ladder.
Pump.
Scale.
Shelving—section of.
Tank.
Tools and implements used in a storeroom (as listed under account 74)—unit of.
Truck, hand.
Wire measuring machine.

Tools and Implements (Account 74)

Each principal item of tools and implements, such as—

Air compressor, mobile.
Back filling machine.
Blower, power.
Concrete mixer.
Crane, mobile.
Derrick, mobile.
Drill or hammer, power.
Earth boring machine (not part of a truck or tractor).
Forge, portable.
Loader, power.
Vacuum cleaner, industrial type.
Wire measuring machine.

Floating Equipment (Account 75)

Each principal item of floating equipment, such as —

Anchor chain or cable.
Barge.
Boat, life.
Boiler.
Crane or winch (loading and lifting).
Engine.
Furnishings of one cabin or room.
Generator.
Hull.
Inside communication equipment installed on floating equipment—unit of.
Mast, with or without rigging.
Motor.
Rotor.
Ship, boat, launch, or other vessel, with or without associated equipment and appurtenances.
Shop equipment installed on floating equipment—unit of.
Store and warehouse equipment installed on floating equipment—unit of.
Superstructure—all constructed at one time.

Railway Equipment (Account 76)

Each principal item of railway equipment, such as—

Body or tank, car.
Car, hand.
Car, motor driven.
Car, push.
Car, railway, with or without associated equipment and appurtenances.
Inside communication equipment installed on a railway car—unit of.
Interior furnishings of an office, bunk, sleeping, kitchen, or dining car.
Shop equipment installed on a railway car—unit of.
Store and warehouse equipment installed on a railway car—unit of.
Trucks, car—set of.
Underframe, car.
Velocipede.

Emergency Facilities (Account 77)

Each principal item of emergency facilities, such as—

Cable, emergency—continuous length of 50 feet or more.
Engine generator set—complete; or
Engine.
Generator.
Transmission equipment, portable—all the equipment in one truck or trailer.

Laboratory Equipment (Account 78)

Each principal item or an important component unit of an assembly or installation.

By the Commission.

[SEAL] W. P. MASSING,
Acting Secretary.

TITLE 36—PARKS AND FORESTS

Chapter II—Forest Service, Department of Agriculture

PART 201—NATIONAL FORESTS

JEFFERSON NATIONAL FOREST; TRANSFER OF JURISDICTION OF SURPLUS FOREST LANDS

CROSS REFERENCE: For transfer of lands from Federal Farm Mortgage Corporation to Forest Service see Surplus Property Transfer Order No. 2 of Federal Farm Mortgage Corporation in Notices section, *infra*.

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

[Circular No. 1632]

PART 196—PHOSPHATE LEASES

LEASES OR USE PERMITS FOR MINING OF PHOSPHATE

Departmental Order No. 1294 of July 2, 1938, carried in the 1943 Cumulative Supplement as a footnote to Part 196, is hereby revoked.

(Secs. 9-12, 41 Stat. 440, 441; 30 U. S. C 211-214)

FRED W. JOHNSON,
Acting Director.

Approved: December 31, 1946.

J. A. KRUG,
Secretary of the Interior.

[F. R. Doc. 47-362; Filed, Jan. 15, 1947; 8:55 a. m.]

[Circular No. 1631]

PART 148—EXCHANGES FOR THE CONSOLIDATION OR EXTENSION OF NATIONAL FORESTS

APPROVAL OF INFORMAL APPLICATIONS

Section 148.4 is amended to read as follows:

§ 148.4 *Notice to county of informal application; procedure leading to approval.* As soon as a tentative agreement has been reached between the applicant and the local national forest officer in proposed exchanges involving values in excess of $5,000 the Forest Service will cause a notice to be served either personally or by ordinary mail on the appropriate county officials of the county or counties in which the offered land and the selected land or timber are situated. The notice will give the location and area of the land offered in exchange as well as the amount of stumpage, if any, to be cut on the offered land by the applicant and the period allowed for the removal thereof. The notice will also give the location and either the acreage of the land selected or the total volume or value of timber to be cut in exchange for the offered land, together with the period in which such cutting rights are to be exercised. The county officials will be allowed 15 days from receipt of notice in which to file, in writing, with the regional forester any protests or objections to the proposed exchange. The case will then be submitted by the local national forest officer to the Regional Forester. Where the values are $5,000, or less, the foregoing notice will not be given, but the case will be submitted to the Regional Forester as soon as a tentative agreement has been reached. In either event, when approved by the Regional Forester, the case will be submitted to the Chief, Forest Service, Washington, D. C. If the Chief, Forest Service, finds the exchange to be in the public interests and that the selected land or timber does not exceed the offered land in value, he will so advise the Secretary of Agriculture, who, after consideration of the record, will advise the Secretary of the Interior whether the offered lands are chiefly valuable for national forest purposes, whether the appraised value of the land or timber selected does not exceed that of the land offered in exchange, whether any protests or objections have been filed by the county officials, and whether the proposed exchange meets with the approval of the Department of Agriculture. If a notice to the county is required under this section, the letter from the Secretary of Agriculture must be accompanied by a copy of the notice which was sent to the county officials, and by any showing made as a result of such notice. Upon receipt of the letter and accompanying papers, the Secretary of the Interior will consider both the recommendations and the protests or objections to the exchange, if any, and, unless he has reason to do otherwise, will approve the exchange, subject to the submission of acceptable title to the offered lands and to full compliance by the applicant with the regulations in §§ 148.1–148.19 (43 CFR, Cum. Supp.), and subject to any valid objections which may appear, and will notify protestants, if any, of such action. Such approval shall not preclude the consideration of additional showings made by the protesting county, or the filing of protests by others, in accordance with § 148.9. (R. S. 453, 2478; 42 Stat. 465, 43 Stat. 1090; 43 U. S. C. 2, 1201, 16 U. S. C. 485, 486)

FRED W. JOHNSON,
Acting Director.

Approved: August 19, 1946.

OSCAR L. CHAPMAN,
Acting Secretary of the Interior.

Approved: September 4, 1946.

CHARLES F. BRANNEN,
Acting Secretary of Agriculture.

PROPOSED RULE MAKING

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR, Ch. I]

FREQUENCY SERVICE-ALLOCATIONS TO NON-GOVERNMENT SERVICES IN 30–40 Mc BAND

REVISED PROPOSAL WITH PROVISIONS FOR ORAL ARGUMENT

JANUARY 7, 1947.

This proposal when adopted in the form set forth herein or as modified as the result of oral argument which will be held on February 3, 1947, may affect some of the rules governing the following services or proposed services and will be effective only within the continental limits of the United States:

Fixed.	Power, petroleum, etc.
Provisional.	Urban transit.
Experimental.	Fire.
General highway mobile.	Police.
Maritime mobile.	Relay press.
Geophysical.	Motion picture.
Forestry and conservation.	Aviation.

Special emergency (including highway maintenance).
Highway maintenance (shared with special emergency).
Remote pickup (relay broadcast).
Special.

In its "Report of Allocations between 25,000 kilocycles and 30,000,000 kilocycles" dated May 25, 1945 (Docket 6651), the Commission indicated that:

On the basis of an average channel width initially of 40 kc provisions will be made for the following services in the band 30 to 40 Mc:[1]

Class of station	Number of channels
Provisional and experimental	2
General highway mobile[2]	20
Maritime mobile and geophysical	4
Forestry and conservation (6 shared with maritime mobile and 6 shared with urban transit)	29
Special emergency (shared with highway maintenance)	6
Power, petroleum, etc.[3]	7
Urban transit, provisional and experimental	5
Fire	15
Police	36
Low power provisional and experimental[4]	2

[1] In addition, 11 government channels are to be designated in this band.

[2] May provide radio communication service to all types of mobile units such as marine, land vehicles, aircraft, etc. Pending final determination of the best method of operation of this service these channels will be assigned on an experimental basis—12 for development on a common carrier basis, 4 for trucks and 4 for buses, except in those cases where it is shown that a different distribution is more desirable.

[3] Other industries requiring similar radio service.

[4] Antenna input power limited to 5 watts peak.

There is at the present time an acute shortage of channels in the 30–40 Mc band. It is the Commission's belief that the use of narrower channel widths offers the only means of obtaining additional channels in this band. As a result of an Engineering Conference held in Washington, D. C., on December 2 and 3, 1946, a committee is to be set up by Panel 13 of the RTPB to study the feasibility of manufacturing on a commercial basis 20 kc channel width equipment which will meet the operational requirements of the various services as demonstrated by actual field tests. This committee will make a preliminary report to the Commission on or before August 1, 1947 and a final report on or before February 1, 1948. The Commission is deferring further consideration of this problem pending the receipt of data from this committee. If the Commission should find a change to a 20 kc channeling system necessary or desirable, that change will be announced by the Commission with ample opportunity for conversion by the services and with due allowances for equipment obsolescense problems. It is anticipated that at least one year will be required to complete a study of the 20 kc channeling problem. In the meantime frequencies will continue to be assigned on the 40 kc channeling basis.

Data furnished the Commission by industry representatives indicate in general that during the first three years of operation of mobile radio equipment, the major replacements consist of tubes; beginning with the fifth year of operation, components other than tubes require replacement; and beginning with the seventh year, the cost of maintenance of equipment is greater than the depreciation on new equipment; and further, that beginning with the fifth year, the service rendered from an operational standpoint begins to be unsatisfactory. This is an especially important consideration in the case of the safety and emergency services.

The present frequency assignments are interspersed; that is, in general, no one service is assigned two or more consecutive channels. A block system of service-allocations whereby each service is allocated its channels in one or two blocks of consecutive channels has been discussed by the Radio Technical Planning

Board but has heretofore been impracticable, according to that group, because certain government frequencies were interspersed in the non-government blocks. This situation has now been alleviated by a recent action of the Interdepartment Radio Advisory Committee. Ten additional channels now are available for allocation to the non-government services in the 30–40 Mc band, and there are no longer any single government channels in the non-government blocks of frequencies above 30.540 Mc. This now permits, for the first time, a technically sound service-allocation plan based on the block system.

There is shown below the total spectrum space between 30–40 Mc available to the non-government fixed and mobile service at the time of the Commission's "Report of Allocations between 25,000 Kilocycles and 30,000,000 Kilocycles," in May, 1945, and that now available as the result of these negotiations:

May 25, 1945	*October 18, 1946*
5,040 kc	5,440 kc

To permit maximum utilization of the readjusted spectrum space, the Commission in this proposal has provided the various services with blocks of frequencies. Those services for which duplex operation may prove to be justifiable have been provided two blocks of frequencies with appropriate frequency separation. All other services have in general been provided with but one block of frequencies, except in those cases where the over-all limits of the non-government blocks make this impracticable.

This proposal, as it is presented herein or as it may be modified as the result of the oral argument which will be held on February 3, 1947, will become effective on April 1, 1947. Representatives of the services operating in this band have expressed a desire to shift frequency as soon as possible and have indicated that three years should be sufficient to allow all users to change to a new allocations plan. Accordingly, all services for which channels have been provided in this band will be required to shift no later than July 1, 1950 to frequencies which are in accord with the final plan adopted by the Commission. A committee is to be set up by Panel 13, RTPB to study the problem of conversion from the present interspersed service-allocation plan to any block plan which may be adopted following the oral argument and advise the Commission of its findings on or before Aug. 1, 1947. The purpose of this study is to present recommendations for the transition in order that the conversion can be completed by no later than July 1, 1950 in an orderly and equitable manner. When all recommendations have been received and studied the Commission will implement a plan for transition to the new block service-allocations.

Licenses of stations operated in services for which no provisions have been made in this band will not be renewed after July 1, 1947, and it is expected that these stations will operate in accordance with current allocations for their services after that date. Remote pick-up broadcast stations currently licensed will be allowed to continue operations in this band for a reasonable period after allocations in the 25–30 Mc band have been made final in order to allow for conversion of equipment.

Oral argument on this proposal has been scheduled for February 3, 1947, at the Commission's offices, Washington, D. C. All interested parties desiring to appear at the oral argument should file with the Secretary on or before January 17, 1947, a brief outlining the statement to be presented. Fifteen copies of all such briefs should be filed in accordance with § 1.850 of the Commission's rules and regulations.

LIST OF ASSIGNMENTS BY FREQUENCY

Frequency assignments (Mc)	*Service*
30.56 Mc—Unassigned.	
30.58, 30.62	Provisional, experimental.
30.66, 30.70, 30.74, 30.78, 30.82	Provisional, experimental, urban transit.
30.86, 30.90, 30.94, 30.98, 31.02, 31.06	Urban transit, forestry-conservation.
31.10, 31.14, 31.18, 31.22, 31.26, 31.30	Maritime mobile, forestry-conservation.
31.34, 31.38, 31.42, 31.46, 31.50, 31.54, 31.58, 31.62, 31.66, 31.70, 31.74, 31.78, 31.82, 31.86, 31.90, 31.94, 31.98.	Forestry-conservation.
32.0–33.0 Mc—Government.	
33.02, 33.06, 33.10	Special emergency.
33.14	Low power provisional,[1] experimental.
33.18, 33.22, 33.26, 33.30, 33.34, 33.38	Power—petroleum, etc.[2]
33.42, 33.46, 33.50, 33.54, 33.58, 33.62, 33.66, 33.70, 33.74, 33.78, 33.82, 33.86, 33.90, 33.94, 33.98.	Fire.
34.0–35.0 Mc—Government.	
35.02	Low power provisional,[1] experimental.
35.06, 35.10, 35.14, 35.18	General highway mobile.[3]
35.22, 35.26, 35.30, 35.34	Maritime mobile—geophysical.
35.38, 35.42, 35.46, 35.50, 35.54, 35.58, 35.62, 35.66, 35.70, 35.74, 35.78, 35.82, 35.86, 35.90, 35.94, 35.98.	General highway mobile.[3]
36.0–37.0 Mc—Government.	
37.02, 37.06, 37.10, 37.14, 37.18, 37.22, 37.26, 37.30, 37.34, 37.38, 37.42.	Police.
37.46, 37.50, 37.54, 37.58, 37.62, 37.66, 37.70, 37.74, 37.78, 37.82, 37.86.	Power—petroleum, etc.[2]
37.90, 37.94, 37.98	Special emergency.
38.0–39.0 Mc—Government.	
39.02, 39.06, 39.10, 39.14, 39.18, 39.22, 39.26, 39.30, 39.34, 39.38, 39.42, 39.46, 39.50, 39.54, 39.58, 39.62, 39.66, 39.70, 39.74, 39.78, 39.82, 39.86, 39.90, 39.94, 39.98.	Police.

[1] Antenna input power limited to 5 watts peak.

[2] May provide radio communication service to all types of mobile units such as marine, land vehicles, aircraft, etc. Pending final determination of the best method of operation of this service these channels will be assigned on an experimental basis—12 for development on a common carrier basis, 4 for trucks and 4 for buses, except in those cases where it is shown that a different distribution is more desirable.

[3] Other industries requiring similar radio service.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 6356]

HUGH FRANCIS MCKEE

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re application of Hugh Francis McKee, Portland, Oregon, for construction permit; Docket No. 6356, File No. B5–P–3225.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 30th day of December 1946;

The Commission having under consideration the above-entitled application requesting a construction permit for a new standard broadcast station to operate on 1450 kc with 250 w power, at Portland, Oregon, sharing time with Station KBPS at Portland, Oregon;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application be, and it is hereby, designated for hearing at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant to construct and operate the proposed station.

2. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

3. To determine what division of operating hours between the instant applicant and Benson Polytechnic School, licensee of Station KBPS, would best serve the public interest, convenience and necessity.

It is further ordered, That Benson Polytechnic School, licensee of Station KBPS, be, and it is hereby, made a party to this proceeding.

By the Commission.

[SEAL] T. J. SLOWIE,
Secretary.

RADIO PEORIA, INC.

ORDER AMENDING ISSUES

In re application of Radio Peoria, Inc., Peoria, Illinois, Docket No. 7609, File No. B4-P-4177, for construction permit.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 19th day of December 1946;

The Commission having under consideration a petition filed by the applicant, Radio Peoria, Inc., on September 20, 1946, requesting that its above entitled application for a construction permit for a new standard broadcast station at Peoria, Illinois, to operate on the frequency 970 kc, with 1 kw power, using a directional antenna unlimited time, be reconsidered and granted without hearing, and also having under consideration answers to the said petition filed by the State of Wisconsin, University of Wisconsin, licensee of Station WHA, Madison, Wisconsin, an intervenor in the above entitled proceeding, and by WAVE, Inc., licensee of Station WAVE, Louisville, Kentucky, both protesting a grant of the said petition; and

It appearing, that both the said petition of Radio Peoria, Inc., and the answer of the intervenor, University of Wisconsin (WHA), allege that interference would result from the proposed operation of the petitioner within the 0.5 mv/m contour of Station WHA;

It is ordered, That the said petition be, and it is hereby, denied.

It is further ordered, On the Commission's own motion, that the order of the Commission dated May 24, 1946, designating the above-entitled application for hearing, be, and it is hereby, amended by deleting therefrom issues numbered 1 and 2.

It is further ordered, On the Commission's own motion, that WAVE, Inc., licensee of Station WAVE, Louisville, Kentucky, be, and it is hereby, made a party to this proceeding.

By the Commission.

Secretary.

[F. R. Doc. 47-379; Filed, Jan. 15, 1947; 8:50 a. m.]

PETITION OF CLEAR CHANNEL GROUP FOR RECONSIDERATION OF THE COMMISSION'S POLICY WITH RESPECT TO LICENSING OF STATIONS ON CLEAR CHANNELS AND CHANNELS ADJACENT TO CLEAR CHANNELS

MEMORANDUM OPINION DENYING PETITION

This matter comes before the Commission on a petition filed by the Clear Channel Group on October 8, 1946, requesting the Commission to reconsider its policy with respect to the licensing of stations to operate on clear channels and on channels adjacent to clear channels.[1] Pursuant to this policy the Commission has dismissed all applications requesting permission to operate full time on any I-A channel or to operate on such channels with power in excess of 50 kilowatts. The Commission has also, pursuant to this policy, placed in the pending files all applications for daytime operation on a I-A channel where the proposed station is more than 750 miles from the dominant station using a non-directional antenna or is beyond the 0.5 millivolt per meter 50% skywave contour of the dominant Class I-A station using a directional antenna on the frequency requested. Application for daytime operation on I-A stations within a lesser distance and all other applications are considered by the Commission on their merits.

The petition points out that under the foregoing policy the Commission has granted numerous applications for daytime operation on I-A channels and for stations on channels adjacent to I-A and I-B frequencies and that there are many such applications still pending before the Commission. The petition further points out that the order in the clear channel hearing (Docket No. 6741) places in issue the possibility of a revision of the Commission's present rules limiting maximum power to 50 kilowatts. According to the petition the licensing of daytime stations on I-A channels or the licensing of stations on channels adjacent to clear channels may have the effect "of making more difficult the grant of increased power to clear channel stations."

The Commission is of the opinion that a grant of the instant petition would not be in the public interest. If the petition were granted, it would mean that no action could be taken on any application for operation on the frequencies 610 kc to 1590 kc since all of these frequencies are either I-A channels or are adjacent (within 30 kc) to I-A channels. The net result would be to preclude the Commission to a very large extent from exercising its licensing functions.

Nor is there any valid reason for withholding action on those applications requesting authority to operate on clear channels in accordance with the Commission's policy. These applications are consistent with the Commission's rules and regulations and fulfill a definite public need. Thus, a review of the Commission's records discloses that since October 8, 1945—the date on which the Commission resumed its normal licensing following the lifting of the wartime freeze—48 construction permits for new stations have been issued for daytime operation on I-A channels and 55 construction permits for new stations have been issued for operation on I-B channels, almost all of the latter being for daytime operation. Of these 103 construction permits which have been granted, more than half (53) have been in cities having no other standard broadcast station. With the difficulty of finding room in the standard broadcast band for additional stations, it is apparent that cities without any service or with inadequate service must rely to a very large extent on daytime stations which are licensed to operate on clear channels.

Moreover, a review of the applications for daytime operation on clear channels shows that many of these applicants are also desirous of entering FM broadcasting and are utilizing their daytime operation in helping them finance their operation during the transition period until FM becomes firmly established. In the Commission's opinion this assistance to the establishment of FM broadcasting is in the public interest and is an additional reason for denying the relief requested.

The denial of the petition of the Clear Channel Group will not, in the Commission's opinion, adversely affect the outcome of the clear channel hearing. The Commission has already announced that no applications will be accepted for nighttime operation on a I-A channel until after the conclusion of the clear channel hearing; hence there is no possibility of any I-A channel being duplicated nighttime before the clear channel hearing is concluded.

So far as the possibilities of higher power are concerned, the Commission's present policy will not operate as a bar if the Commission determines to amend its rules and allow higher power. Applications for stations on I-A channels more than 750 miles from the dominant stations are placed in the pending files in accordance with the Commission's policy. Applications for stations within 750 miles of the dominant I-A station must be designated for hearing if they involve interference to the normally protected contour of the I-A station. Hence, there is only a very limited area where daytime stations can be placed so far as I-A channels are concerned.

It is of course recognized that any increase in power of existing I-A stations or the relocation of such stations may result in interference to the normally protected contour of such stations from the new daytime stations, where none exists today. However, the same situation may arise with respect to existing stations. Problems of relocation are bound to be very difficult in any event. The addition of new stations may make it somewhat more difficult. However, when it is remembered that it will always be easier to find room for daytime stations than for fulltime stations, it should not by any means prove to be insuperable to find assignments for those daytime stations in existence at the conclusion of the clear channel hearing, if a reallocation proves to be necessary.

There remains the problem involved in possible skywave interference during the daytime. Under the present rules and regulations and Standards of Good Engineering Practice, no station is protected against skywave interference during the daytime. If the power of existing I-A stations is raised substantially, it may very well be that daytime skywave interference will become a problem that should be dealt with in the rules and regulations or Standards of Good Engineering Practice. However, it should be pointed out that this will be true for existing daytime stations as well as for new stations; the problem therefore is not created by the licensing of the new stations. Moreover, the clear channel hearing includes an issue concerning possible revision of the rules and regulations governing the hours of operation of daytime stations on clear channels. Under this issue all relevant evidence can be introduced by petitioner as well as other interested persons concerning daytime skywave interference and the desirability of revising Commission rules for operation of daytime stations. Any grants that are made to daytime stations are subject to whatever changes in the rules may be made as a result of the clear channel hearing.

For the foregoing reasons the petition of the Clear Channel Group is denied.

Adopted: January 2, 1947.

[SEAL] FEDERAL COMMUNICATIONS COMMISSION,
T. J. SLOWIE,
Secretary.

[F. R. Doc. 47-380; Filed, Jan. 15, 1947; 8:51 a. m.]

[1] On November 13, 1946, the Commission announced that it had denied the instant petition and that an opinion setting forth the Commission's reasons would be issued at a future date.

[Docket No. 8026]

LAMAR A. NEWCOMB

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re application of Lamar A. Newcomb, Falls Church, Virginia, Docket No. 8026, File No. B2-P-5436, for construction permit.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 19th day of December 1946;

The Commission having under consideration the above-entitled application requesting a construction permit for a new standard broadcast station to operate on 840 kc, with 250 w, power, daytime only, at Falls Church, Virginia;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application be, and it is hereby, designated for hearing in a consolidated proceeding with the application of Rock Creek Broadcasting Corporation (File No. B2-P-5482), requesting a construction permit for a new standard broadcast station to operate on 840 kc, with 10 kw power, daytime only, employing directional antenna, at Washington, D. C., at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to gain primary service from the operation of the proposed station and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed station would involve objectionable interference with any existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed station would involve objectionable interference with the services proposed in the pending application of Rock Creek Broadcasting Corporation (File No. B2-P-5482) or in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

7. To determine on a comparative basis which, if either, of the applications in this consolidated proceeding should be granted.

By the Commission.

ORAL J. WILKINSON

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re application of Oral J. Wilkinson, Murray, Utah, Docket No. 8033, File No. B5–P–5392, for construction permit.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 19th day of December 1946;

The Commission having under consideration the above-entitled application requesting a construction permit for a new standard broadcast station to operate on 1230 kc, with 250 w power, unlimited time, at Murray, Utah;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application be, and it is hereby, designated for hearing in a consolidated proceeding with the application of G. Stanley Brewer d/b as Weber County Service Company (File No. B5–P–5462), requesting a construction permit for a new standard broadcast station to operate on 1240 kc, with 250 w power, unlimited time, at Ogden, Utah, at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed station and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed station would involve objectionable interference with stations KOVO, Provo, Utah, and KVNU, Logan, Utah, or with any other existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed station would involve objectionable interference with the services proposed in the pending application of G. Stanley Brewer d/b as Weber County Service Company (File No. B5–P–5462) or in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

7. To determine on a comparative basis which, if either, of the applications in this consolidated proceeding should be granted.

It is further ordered, That KOVO Broadcasting Company, licensee of Station KOVO, Provo, Utah, and Cache Valley Broadcasting Company, licensee of Station KVNU, Logan, Utah, be, and they are hereby, made parties to this proceeding.

By the Commission.

[Docket No. 8024]

RADIO BROADCASTING CORP. (KTFI)

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re application of Radio Broadcasting Corporation (KTFI), Twin Falls, Idaho, Docket No. 8024, File No. B5–P–5458; for construction permit.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 19th day of December 1946;

The Commission having under consideration the above-entitled application requesting a construction permit to change the broadcast facilities of station KTFI at Twin Falls, Idaho, from 1270 kc, with 1 kw, 5 kw-LS power, unlimited time, to 1270 kc, with 5 kw power, unlimited time, employing directional antenna at night;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application be, and it is hereby, designated for hearing in a consolidated proceeding with the application of Radio Television Corporation (File No. B5–P–4716; Docket No. 7753) requesting a construction permit for a new standard broadcast station to operate on 1270 kc, with 5 kw power, unlimited time, employing directional antenna at night, at Medford, Oregon at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the technical, financial, and other qualifications of the applicant corporation, its officers, directors and stockholders to construct and operate station KTFI as proposed.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of station KTFI as proposed and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of station KTFI as proposed would involve objectionable interference with any other existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of station KTFI as proposed would involve objectionable interference with the services proposed in the pending application of Radio Television Corporation (File No. B5–P–4716; Docket No. 7753) or in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of station KTFI as proposed would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

7. To determine on a comparative basis which, if either, of the applications in this consolidated proceeding should be granted.

(WTOD), Toledo, Ohio, Docket No. 8001, File No. B4–P–5071; Pioneer Mercantile Company (KPMC), Bakersfield, California, Docket No. 6222, File Nos. B5–P–3118, B5–P–4868; Nonpareil Broadcasting Company, Council Bluffs, Iowa, Docket No. 8016, File No. B4–P–5153; for construction permits.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 19th day of December 1946;

The Commission having under consideration the above-entitled application of Nonpareil Broadcasting Company for a construction permit for a new standard broadcast station to operate on the frequency 1560 kc with 1 kw power, daytime only, at Council Bluffs, Iowa; and

It appearing, that the Commission on December 5, 1946, designated for hearing in a consolidated proceeding the other above entitled applications, all requesting unlimited time operation on the frequency 1560 kc; and

It further appearing, that the said application of Nonpareil Broadcasting Company involves daytime interference with at least one of the other said applications; namely, that of KAW Broadcasting, Inc., requesting 1 kw power, unlimited time, at Topeka, Kansas;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application of Nonpareil Broadcasting Company be, and it is hereby, designated for hearing in the above mentioned consolidated proceeding at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant corporation, its officers, directors and stockholders to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed station and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed station would involve objectionable interference with any existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.
